(j) Nixon Protective Division, U.S. Secret Service, U.S. Coast Guard Station, San Clemente, California 92672. (k) U.S. Secret Service Uniformed Division, Room 210, 1310 L Street, N.W., Washington, D.C. 20005. (l) Treasury Security Force, Room 1040, Main Treasury Building, Washington, D.C. 20220. (m) Technical Security Division, Room 482, Executive Office Building, Washington, D.C. 20500. Plains Security Detail, U.S. Secret Service, P.O. Box 308, Plains, GA. 31780. (n) Components of the Protection Information System are geographically dispersed throughout Secret Service field offices. (See below, United States Secret Service Appendix A, listing the addresses of Secret Service field offices).

Categories of individuals covered by the system: (a) Individuals who have been or are currently the subject of a criminal investigation by the U.S. Secret Service or another law enforcement agency for the violation of certain criminal statutes relating to the protection of persons or the security of properties; (b) Individuals who are the subjects of investigative records and reports supplied to the Secret Service by Federal, state, and local law enforcement agencies, foreign and domestic; other governmental agencies; private institutions and individuals for evaluation by the Secret Service in connection with the performance by that agency of its authorized protective functions; (c) Individuals who are the subjects of non-criminal protective and background investigations by the Secret Service and other law enforcement agencies where the evaluation of such individuals, in accordance with criteria established by the Secret Service, indicates a need for such investigations; (d) Individuals who are granted ingress and egress to areas secured by the Secret Service, the Executive Protective Service, or to areas in close proximity to persons protected by the Secret Service, including but not limited to invitees, passholders, tradesmen, law enforcement, maintenance and service personnel; (e) Individuals who have attempted or solicited unauthorized entry into areas secured by the Secret Service; individuals who have sought an audience or contact with persons protected by the Secret Service or who have been involved in incidents or events which relate to the protective functions of the Secret Service; (f) Individuals who are witnesses, protectees, complainants, informants, suspects, defendants, fugitives, released prisoners, and correspondents who have been identified by the Secret Service or from information supplied by other law enforcement agencies, governmental units, private institutions, and members of the general public in connection with the performance by the Secret Service of its authorized protective functions.

Categories of records in the system: (a) Records containing information compiled for the purpose of identifying individual criminal offenders and alleged offenders and consisting only of identifying data and notations of arrest, the nature and disposition of criminal charges, sentencing, confinement, release, and parole and probation status; (b) Records containing information compiled for the purpose of a criminal investigation, including reports of informants and investigators, and associated with an identifiable individual; (c) Records containing reports relative to an individual compiled at various stages of the process of enforcement of certain criminal laws from arrest or indictment through release from supervision; (d) Records containing information supplied by other Federal, state, and local law enforcement agencies, foreign and domestic; other governmental agencies; private institutions and persons concerning individuals who, because of their activities, personality traits, criminal or mental history, or history of social deviancy, may be of interest to the Secret Service in connection with the performance by that agency of its protective functions; (e) Records containing information compiled for the purpose of identifying and evaluating individuals who may constitute a threat to the safety of persons or security of areas protected by the Secret Service, and/or the Executive Protective Service; (f) Records containing information relating to incidents and events, such as attempted intrusions into secured areas, or activities of mentally disturbed persons demonstrating an unusual or abnormal interest in persons protected by the Secret Service; (g) Records containing information compiled for the purpose of background investigations of individuals, including but not limited to, passholders, tradesmen, maintenance and service personnel who have access to areas secured by or who may be in close proximity to persons protected by the Secret Service and/or the Executive Protective Service; (h) Records containing correspondence, records of telephone calls, visits to and efforts to contact persons protected by the Secret Service by certain individuals who, according to criteria established by the Secret Service, are considered to be of protective interest.

Authority for maintenance of the system: The protective authority of the U.S. Secret Service is contained in 18 U.S.C. 3056 and Section 1 of Public Law 90-331. Criminal Investigations relating to protection, such as threats or unauthorized entry (18 U.S.C. 871; 18 U.S.C. 1751), are authorized by 18 U.S.C. 3056. The protective and security authority of the U.S. Secret Service Uniformed Division is contained in 3 U.S.C. 202 and of the Treasury Security Force in Treasury Orders issued by the Secretary of the Treasury pursuant to the provisions of Reorganization Plan Number 26 of 1950.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in the Protective Information System of the U.S. Secret Service are as follows: (a) Disclosures to those officers and employees of the Secret Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosures required in the administration of the Freedom of Information Act (5 U.S.C. 552); (c) Referral to the Department of Justice and other Federal, state and local governmental agencies having a prosecutive function for the use of attorneys, magistrates, and judges; and parole and probation authorities for the purpose of prosecuting, sentencing, and determining the parole and probation status of criminal offenders or suspected criminal offenders; and for civil and other proceedings involving Secret Service and Executive Protective Service protective functions; (d) Referral to personnel of other Federal state and local law enforcement agencies, foreign and domestic, for the purpose of developing information on subjects involved in Secret Service protective investigations and evaluations

and for the purpose of protective intelligence briefings of personnel of other law enforcement and governmental agencies assisting the U.S. Secret Service in the performance of its protective functions; (e) Referral to personnel of Federal, state, and local governmental agencies, foreign and domestic, where such referrals are considered reasonably necessary for the purpose of furthering Secret Service efforts to investigate the activities of those persons considered to be of protective interest; (f) Referral to personnel of Federal, state, and local law enforcement agencies and other governmental agencies, foreign and domestic, where there is a showing of a reasonable need to accomplish a valid enforcement purpose; (g) Referral to personnel of private institutions and to private individuals of identifying information pertaining to actual or suspected criminal offenders or other individuals considered to be of protective interest for the purpose of furthering Secret Service efforts to evaluate the danger such individuals pose to persons protected by that agency; (h) Records maintained in the Protection Information System indicating a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, may be referred to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto; (i) Disclosures in the course of presenting evidence to a court, magistrate or administrative tribunal and disclosures to opposing counsel in the course of discovery proceedings for the purpose of enforcing, or prosecuting, a violation or potential violation of law, whether civil, criminal or regulatory in nature and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto; (j) Disclosures to Federal, state or local agencies maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit; (k) Disclosures to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter; (l) Disclosures of information relating to criminal and civil proceedings to the news media in accordance with the guidelines contained in 28 C.F.R. 50.2; (m) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records comprising the Protection Information System of the U.S. Secret Service are contained in file jackets located at Headquarters, U.S. Secret Service, 1800 G Street, N.W., Washington, D.C. or in file jackets located in the offices of various protective units of Secret Service; the Technical Security Division; and in Secret Service field offices geographically dispersed throughout the United States, Puerto Rico, and one foreign country. (see Location Section of this notice and United States Secret Service Appendix A.) Components of the Protection Information System are located in the office of the U.S. Secret Service Uniformed Division, 1310 L Street, N.W., Washington, D.C. and in the office of the Treasury Security Force, Main Treasury Building, Washington, D.C. Portions of the indices and information contained in the Protective Information System are programmed into a computer maintained at Headquarters, U.S. Secret Service, 1800 G Street, N.W., Washington, D.C.

Retrievability: The Protective Information System is indexed alphabetically by name in the Headquarters, field master, protective units and computerized indices. Access to the physical files containing records is by case number obtained from the alphabetized name indices.

Safeguards: (1) The file jackets and indices containing the records comprising the Protection Information System located at the U.S. Secret Service Headquarters, in the protective units, the U.S. Secret Service Uniformed Division, the Treasury Security Force, and the Technical Security Division of the Secret Service are secured by alarms and other internal security devices in locked rooms with guards on duty on an around-the-clock basis. Access to the records is available only to employees responsible for record management and operational employees who have a need for such information, each of whom holds a top secret security clearance. 2. The file jackets and the master field indices comprising the Protective Information System in Secret Service field offices are located in locked filing cabinets and in locked rooms when Secret Service employees are not on duty. Access to the system is limited to employees of the Secret Service holding top secret security clearances.

Retention and disposal: The retention schedule for records comprising the Protection Information System is as follows: (1) All judicial case records are retained for a period of twenty years. In cases where checkups are being made or quarterly investigations are conducted in protective intelligence cases, the retention period is computed from the date of the final checkup or quarterly investigation. In the event of a protective intelligence subject's death, the file is destroyed immediately. Otherwise the checkup and quarterly investigative files are maintained for a period of twenty years; (2) All other protective intelligence case records including protective surveys and nonjudicial protective intelligence cases are retained for a period of five years; (3) Administrative records and files on all types of physical protective activities are retained for a period of ten years; (4) Disposal of records contained in the Protective Information System is by burning.

System manager(s) and address: Assistant Director, Office of Protective Research, U.S. Secret Service, 1800 G Street, N.W., Washington, D.C. 20223.

Notification procedure: In accordance with the provisions of 5 U.S.C. 552a(j) and (k) the Director of the U.S. Secret Service proposes to exempt the Protection Information System from compliance with the provisions of 5 U.S.C. 552a(e) (4) (G).

Record access procedures: In accordance with the provisions of 5 U.S.C. 552a(j) and (k) the Director of the U.S. Secret Service proposes to exempt the Protection Information System from compliance with the provisions of 5 U.S.C. 552a(e) (4) (H).

Contesting record procedures: See access above.

Record source categories: In accordance with the provisions of 5 U.S.C. 552a(j) and (k) the Director of the U.S. Secret Service proposes to exempt the Protection Information System from compliance with the provisions of 5 U.S.C. 552a(e) (4) (I).

Systems exempted from certain provisions of the act: In accordance with the provisions of 5 U.S.C. 552a(j) and (k), the Director of the U.S. Secret Service proposes to exempt the Protection Information System from compliance with certain provisions of 5 U.S.C. 552a elsewhere in the Federal Register.

Treasury/USSS 00.008

System name: Public Affairs Record System—Treasury/USSS.

System location: U.S. Secret Service, 1800 G Street, N.W., Washington, D.C. 20223.

Categories of individuals covered by the system: (a) Persons who are private citizens who correspond requesting information relating to the Secret Service; (b) Persons who are members of the news media, authors and publishers requesting information about the Secret Service; (c) Members of Congress who make inquiries with the Secret Service; (d) Persons who are recipients of the Director's Honor Award, who have received recognition from or assisted the Secret Service.

Categories of records in the system: (a) Records of inquiries received from the general public, the communication media and the press relative to Secret Service activities; (b) Records of awards presented by the Secret Service; (c) Records of Congressional inquiries and correspondence.

Authority for maintenance of the system: 18 U.S.C. 3056 and Treasury Department Order Number 173-3, dated October 29, 1965.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in the Public Affairs Record System are as follows: (a) To maintain a record of responses made to the general public, the news media, members of Congress, and other individuals who correspond with the Service; (b) To maintain a record of awards and honors given by the Secret Service and to establish statistical information on these awards and honors; (c) Disclosure to those officers and employees of the Secret Service and the Department of the Treasury who have a need for the records in the performance of their duties; (d) Disclosure required in the administration of the Freedom of Information Act (5 U.S.C. 552). (e) Records maintained in the Public Affairs Records System indicating a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, may be referred to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or imple-

menting the statute, or rule, regulation or order issued pursuant thereto; (f) Disclosures in the course of presenting evidence to a

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the

menting the statute, or rule, regulation or order issued pursuant thereto; (f) Disclosures in the course of presenting evidence to a court, magistrate or administrative tribunal and disclosures to opposing counsel in the course of discovery proceedings for the purpose of enforcing, or prosecuting, a violation or potential violation of law, whether civil, criminal or regulatory in nature and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto; (g) Disclosures to Federal, state or local agencies maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit; (h) Disclosures to Federal agencies, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter. (i) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records comprising the Public Affairs Record System are maintained in file folders located at U.S. Secret Service, Headquarters, 1800 G Street, N.W., Washington, D.C. 20223.

Retrievability: Records of the Public Affairs Record System are filed alphabetically and chronologically. Access is by name and/or date.

Safeguards: The files containing the Public Affairs Record System are located at U.S. Secret Service Headquarters, and are secured in locked filing cabinets in locked rooms, with guards on duty on an around-the-clock basis. Access to the records is available only to employees responsible for management of the system and operational employees who have a need for such information, each of whom holds a top secret security clearance.

Retention and disposal: Records in this system are currently maintained indefinitely.

System manager(s) and address: Assistant to the Director, Office of Public Affairs, U.S. Secret Service, 1800 G Street, N.W., Washington, D.C. 20223.

Notification procedure: Any individual who wishes to present a request as to whether this system contains records pertaining to him should address his inquiry to: Freedom of Information and Privacy Acts Officer, U.S. Secret Service, 1800 G Street, N.W., Room 908, Washington, D.C. 20223.

Record access procedures: Any individual wishing to obtain information on the procedure for gaining access to and contesting records should contact: Freedom of Information & Privacy Acts Officer, U.S. Secret Service, 1800 G Street, N.W., Room 908, Washington, D.C. 20223.

Contesting record procedures: See access above.

Record source categories: (a) The general public, the news media and members of Congress who correspond with the Service; (b) Persons who have received awards or honors from the Secret Service.

Treasury/USSS 00.009

System name: Training Information System—Treasury/USSS.

System location: (a) U.S. Secret Service, Office of Training, 1717 H Street, N.W., Washington, D.C. 20223. (b) Treasury Security Force, Main Treasury Building, 1500 Pennsylvania Avenue, N.W., Washington, D.C. 20220. (c) Beltsville Training Center, Beltsville, Maryland 20705.

Categories of individuals covered by the system: (a) Individuals who are now or were Secret Service employees, officers of the U.S. Secret Service Uniformed Division or the Treasury Security Force.

Categories of records in the system: Records containing the type and dates of training programs of the U.S. Secret Service employees, officers of the U.S. Secret Service Uniformed Division or the Treasury Security Force.

Authority for maintenance of the system: 18 U.S.C. 3056 is the statute that establishes Secret Service criminal and protective jurisdiction and training is conducted pursuant to that statute and in accordance with Treasury and Civil Service Regulations relating to training.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in the Training Information System are as follows: (a) Disclosure to those officers and employees of the Secret Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosure required in the administration of the Freedom of Information Act (5 U.S.C. 552); (c) The system is maintained to assist in performing administrative functions of the Office of Training and is used to prepare class directories, class rosters, program evaluation reports and statistical reports, and maintain records of performance; (d) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records comprising the Training Information System are maintained on cards at the Secret Service Office of Training, 1717 H Street, N.W., Washington, D.C., Main Treasury Building, 1500 Pennsylvania Avenue, N.W., and Beltsville Training Center, Beltsville, Maryland.

Retrievability: Records of the Training Information System are filed alphabetically and access to the record card is by name.

Safeguards: The Training Information System record cards located at the U.S. Secret Service Office of Training are secured in locked rooms with alarms when Secret Service employees are not on duty. Access to the records is available only to employees responsible for management of the records and operational employees who have a need for such information, each of whom hold a top secret security clearance.

Retention and disposal: Records in this System are currently maintained indefinitely.

System manager(s) and address: Assistant to the Director, Office of Training, U.S. Secret Service, 1717 H Street, N.W., Washington, D.C. 20223.

Notification procedure: Any individual who wishes to present a request as to whether this system contains records pertaining to him should address his inquiry to: Freedom of Information & Privacy Acts Officer, U.S. Secret Service, 1800 G Street, N.W., Room 908, Washington, D.C. 20223.

Record access procedures: Any individual wishing to obtain information on the procedures for gaining access to and contesting records should contact: Freedom of Information & Privacy Acts Officer, U.S. Secret Service, 1800 G Street, N.W., Room 908, Washington, D.C. 20223.

Contesting record procedures: See access above.

Record source categories: (a) Individuals who are now or were Secret Service employees, officers of the U.S. Secret Service Uniformed Division and the Treasury Security Force officers; (b) Individuals from other Federal, state and local law enforcement agencies.

Treasury/Comptroller 00.004

System name: Consumer Complaint Letter File—Treasury/Comptroller.

System location: Comptroller of the Currency, 490 L'Enfant Plaza, Washington, D.C. 20219.

Categories of individuals covered by the system: Persons who file complaints against banks.

Categories of records in the system: This system contains a series of computer printouts setting forth the name, address, bank complained of, date of incoming complaint letter, attorney assigned to examine said complaint and the nature of the resolution.

Authority for maintenance of the system: 12 U.S.C. 1, 12 U.S.C. 9, 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Files are utilized to determine whether individual has previously filed a complaint with this Office, the date of complaint and the disposition. For additonal routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File cabinet.

Retrievability: Indexed alphabetically by name of complaining consumer.

Safeguards: Records are in file drawers.

Retention and disposal: The records are retained in perpetuity.

System manager(s) and address: Comptroller of the Currency, Assistant Chief Counsel, 409 L'Enfant Plaza, Washington, D.C. 20219.

Notification procedure: Individuals wishing to be notified if they are named in this system or gain access to records maintained in this system must submit a request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Indicate the location of the Comptroller of the Currency office where the record might be stored; and (4) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information).

Record access procedures: Director, Public Affairs, 490 L'Enfant Plaza, SW, Washington, DC 20219.

Contesting record procedures: Submit requests to the Director, Public Affairs at the above address.

Record source categories: Persons filing complaints against national banks.

Treasury/Comptroller 00.010

System name: Federal Bureau of Investigation Report Card Index—Treasury/Comptroller.

System location: Comptroller of the Currency, Sixth Floor, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219.

Categories of individuals covered by the system: Persons who have been involved in or associated with unlawful activity respecting national banking associations.

Categories of records in the system: This system consists of alphabetized indices of the names of individuals involved in or associated with unlawful activity respecting national banks and a cross reference to pertinent Federal Bureau of Investigation Reports relating thereto.

Authority for maintenance of the system: This system is established, maintained and utilized pursuant to 12 U.S.C. sections 481, 21, 1818, and 1829, 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: These records are utilized

as a cross reference for the purpose of making determinations with respect to potential or existing violations of law. For additional

Categories of individuals covered by the system: Individuals and entities involved in actual or suspected fraudulent activities.

Retention and disposal: Materials are retained for one month after employee leaves and the records are disposed by shredding.

System manager(s) and address: Director of Personnel, Comptroller

System manager(s) and address: Regional Administrator (See "Location" above for address).

Notification procedure: Individuals wishing to be notified if they

V 4 3 / 1 8 3 SEP 20 78 V 4

as a cross reference for the purpose of making determinations with respect to potential or existing violations of law. For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File cabinet.

Retrievability: The records are retrieved by the name of the individual.

Safeguards: Records are maintained by the Office in files with security procedures consistent with the sensitivity of the data.

Retention and disposal: Currently there are no provisions for disposal of records contained in this system.

System manager(s) and address: Director of Enforcement Division, Law Department, Comptroller of the Currency, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219.

Notification procedure: Individuals wishing to be notified if they are named in this system or gain access to records maintained in this system must submit a request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Indicate the location of the Comptroller of the Currency office where the record might be stored; and (4) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information).

Record access procedures: Director, Public Affairs, 490 L'Enfant Plaza, SW, Washington, DC 20219.

Contesting record procedures: Submit requests to the Director, Public Affairs at the above address.

Systems exempted from certain provisions of the act: Criminal investigative records exempted elsewhere in the Federal Register by the Department of Justice.

Treasury/Comptroller 00.012

System name: Freedom of Information log—Treasury/Comptroller.

System location: Comptroller of the Currency, 490 L'Enfant Plaza, Washington, D.C. 20219.

Categories of individuals covered by the system: Persons making request under the Freedom of Information Act.

Categories of records in the system: List of names of persons making requests under the Freedom of Information Act.

Authority for maintenance of the system: 12 U.S.C. 1 and 12 U.S.C. 9, 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Internal control and reference regarding Freedom of Information Act, For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File cabinet.

Retrievability: Indexed alphabetically by name.

Safeguards: Unlocked file cabinet.

Retention and disposal: Perpetuity.

System manager(s) and address: Director, Public Affairs, 490 L'Enfant Plaza, SW, Washington, DC 20219.

Notification procedure: Individuals wishing to be notified if they are named in this system or gain access to records maintained in this system must submit a request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Indicate the location of the Comptroller of the Currency office where the record might be stored; and (4) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information).

Record access procedures: Director, Public Affairs, 490 L'Enfant Plaza, SW, Washington, DC 20219.

Contesting record procedures: Submit requests to the Director, Public Affairs at the above address.

Record source categories: Persons making requests under Freedom of Information Act.

Treasury/Comptroller 00.013

System name: Information file on individuals and commercial entities known or suspected of being involved in fraudulent activities—Treasury/Comptroller.

System location: Comptroller of the Currency, Sixth Floor, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219.

Categories of individuals covered by the system: Individuals and entities involved in actual or suspected fraudulent activities.

Categories of records in the system: This system consists of alphabetized indices of the names of individuals or commercial entities known or suspected of involvement in fraudulent activities both foreign and domestic.

Authority for maintenance of the system: This system is established and maintained pursuant to 12 U.S.C. sections 21, 481, 1818, and 1829.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: This system of records is utilized in connection with the national bank examination program to ascertain whether any transactions were made between examined banks and any of the individuals or entities who may be involved in fraudulent schemes. In any case in which there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, the record in question may be disseminated to the appropriate federal, state, local, or foreign agency charged with enforcing or implementing such law. A record relating to a case or matter may be disseminated to a federal, state, or local administrative or regulatory proceeding or hearing in accordance with the procedures governing such proceeding or hearing.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records in file cabinets.

Retrievability: The records are retrieved by name of the individual, trade style used or by the name of the bank involved.

Safeguards: Records are maintained by the Office in files with security procedures consistent with the sensitivity of the data.

Retention and disposal: Currently there are no provisions for disposal of records contained in this system.

System manager(s) and address: Director of Enforcement Division, Law Department, Comptroller of the Currency, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219.

Notification procedure: Individuals wishing to be notified if they are named in this system or gain access to records maintained in this system must submit a request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Indicate the location of the Comptroller of the Currency office where the record might be stored; and (4) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information).

Record access procedures: Director, Public Affairs, 490 L'Enfant Plaza, SW, Washington, DC 20219.

Contesting record procedures: Submit requests to the Director, Public Affairs at the above address.

Systems exempted from certain provisions of the act: Exempted elsewhere in the Federal Register by the Department of Justice.

Treasury/Comptroller 00.014

System name: Investigation Files/Employee Reference File - Treasury/Comptroller.

System location: Comptroller of the Currency, Personnel Management Division, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219.

Categories of individuals covered by the system: Employee of Comptroller of the Currency.

Categories of records in the system: Compilation of material for a determination regarding security clearance.

Authority for maintenance of the system: 12 U.S.C. 1 and 12 U.S.C. 9 / 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: In the Personnel Management Division, the routine uses are associated with the employee's position. Used only by authorized security-cleared employees within the division. Investigations are used to properly grant clearances. For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Locked steel file cabinets and a safe with combination lock.

Retrievability: Filed in alphabetical order by geographical location.

Safeguards: Combination locks are changed once a year and only security-cleared employees within the Personnel Management Division have access.

Retention and disposal: Materials are retained for one month after employee leaves and the records are disposed by shredding.

System manager(s) and address: Director of Personnel, Comptroller of the Currency, 490 L'Enfant Plaza, S.W., Washington, DC 20219.

Notification procedure: Individuals wishing to be notified if they are named in this system or gain access to records maintained in this system must submit a request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Indicate the location of the Comptroller of the Currency office where the record might be stored; and (4) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information).

Record access procedures: Director, Public Affairs, 490 L'Enfant Plaza, SW, Washington, DC 20219.

Contesting record procedures: Submit requests to the Director, Public Affairs at the above address.

Systems exempted from certain provisions of the act: Portions of this system are exempted elsewhere in the Federal Register due to the investigative nature of the record.

Treasury/Comptroller 00.044

System name: Consumer Complaint Index—Treasury/Comptroller.

System location: Three Parkway, Suite 1800, Philadelphia, Pennsylvania.

Categories of individuals covered by the system: Complainants.

Categories of records in the system: Personnel.

Authority for maintenance of the system: 12 U.S.C. 1, 12 U.S.C. 9, 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Processing and Follow-up. For additional Routine Uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File cabinets.

Retrievability: By date received (cross referenced by name).

Safeguards: Locked cabinets.

Retention and disposal: Permanent.

System manager(s) and address: Regional Administrator (see location above).

Notification procedure: Individuals wishing to be notified if they are named in this system or gain access to records maintained in this system must submit a request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Indicate the location of the Comptroller of the Currency office where the record might be stored; and (4) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information).

Record access procedures: Director, Public Affairs, 490 L'Enfant Plaza, SW, Washington, DC 20219.

Contesting record procedures: Submit requests to the Director, Public Affairs at the above address.

Record source categories: Employees of the Region.

Treasury/Comptroller 00.090.

System name: Bank Organizers & Proposed Officer Files (listed by name of bank)—Treasury/Comptroller.

System location: Peachtree Cain Tower, Suite 2700, 229 Peachtree Street, N.E., Atlanta, Georgia 30303.

Categories of individuals covered by the system: Bank Organizers; Proposed Officers.

Categories of records in the system: Personnel.

Authority for maintenance of the system: 12 U.S.C. 21, 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Appraise charter & Competence of Management. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Held in Charter File in file cabinet.

Retrievability: Name or Social Security Number.

Safeguards: Lock & Key.

Retention and disposal: Approved Charters—Permanent Retention, Disapproved—destroyed after three years.

System manager(s) and address: Regional Administrator (See "Location" above for address).

Notification procedure: Individuals wishing to be notified if they are named in this system or gain access to records maintained in this system must submit a request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Indicate the location of the Comptroller of the Currency office where the record might be stored; and (4) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information).

Record access procedures: Director, Public Affairs, 490 L'Enfant Plaza, SW, Washington, DC 20219.

Contesting record procedures: Submit requests to the Director, Public Affairs at the above address.

Record source categories: Applicants, References, Employee.

Treasury/Comptroller 00.104

System name: Consumer Complaint Index—Treasury/Comptroller.

System location: Sears Tower, Suite 5750, Chicago, Illinois 60606.

Categories of individuals covered by the system: Persons filing complaints with regional office against national banks.

Categories of records in the system: Card file index to pending and inactive consumer complaints against banks.

Authority for maintenance of the system: 12 U.S.C. 1 and 12 U.S.C. 9, 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To provide a ready reference for the location and status of pending and closed complaints against banks. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File Cabinet.

Retrievability: Alphabetical.

Safeguards: Maintained in closed cabinet.

Retention and disposal: Indefinite period of time.

System manager(s) and address: Regional Administrator (See "Location" above for address).

Notification procedure: Individuals wishing to be notified if they are named in this system or gain access to records maintained in this system must submit a request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Indicate the location of the Comptroller of the Currency office where the record might be stored; and (4) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information).

Record access procedures: Director, Public Affairs, 490 L'Enfant Plaza, SW, Washington, DC 20219.

Contesting record procedures: Submit requests to the Director, Public Affairs at the above address.

Record source categories: Complaints against banks.

Treasury/Comptroller 00.115

System name: Consumer Complaint Index—Treasury/Comptroller.

System location: 165 Madison Avenue, Suite 800, Memphis, Tennessee 38103.

Categories of individuals covered by the system: Any individual who lodges a complaint against a national bank.

Categories of records in the system: Name of individual and address; name of bank involved and address; date bank notified of complaint; follow-up date; closing date of complaint.

Authority for maintenance of the system: 12 U.S.C. 1 and 12 U.S.C. 9, 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Utilized to check complaint status until closing date. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File Cabinet.

Retrievability: Date complaint letter is forwarded to bank for comment.

Safeguards: Locked file cabinet.

Retention and disposal: Two years.

System manager(s) and address: Regional Counsel. (See location above)

Record source categories: Filing of a complaint letter by a complainant.

Treasury/Comptroller 00.166

System name: Consumer Complaint Index—Treasury/Comptroller.

System location: 1201 Elm Street, Suite 3800, Dallas, Texas 75270.

Categories of individuals covered by the system: Any individual who lodges a complaint against a national bank.

Categories of records in the system: Name of individual and address; name of bank involved and address; date bank notified of complaint; follow-up date; closing date of complaint.

Authority for maintenance of the system: 12 U.S.C. 1 and 12 U.S.C. 9.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Utilized to check complaint status until closing date. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper.

Retrievability: Date complaint letter is forwarded to bank for comment.

Safeguards: Locked File Cabinet.

Retention and disposal: Two years.

System manager(s) and address: Regional Counsel (See location above).

Notification procedure: Individuals wishing to be notified if they are named in this system or gain access to records maintained in this system must submit a request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Indicate the location of the Comptroller of the Currency office where the record might be stored; and (4) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information).

Record access procedures: Director, Public Affairs, 490 L'Enfant Plaza, SW, Washington, DC 20219.

Contesting record procedures: Submit requests to the Director, Public Affairs at the above address.

Record source categories: Filing of a complaint letter by a complainant.

Treasury/Comptroller 00.208

System name: Consumer Complaint Index—Treasury/Comptroller.

System location: Steuart Street Tower, Suite 2101, San Francisco, California 94105.

Categories of individuals covered by the system: Employees.

Categories of records in the system: Examining.

Authority for maintenance of the system: 12 U.S.C. 1 and 12 U.S.C. 9.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To determine the nature of existing problems and if possible assist in the resolution thereof. For additonal routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File cabinet.

Retrievability: Alphabetical Index by name.

Safeguards: Locked file cabinets.

Retention and disposal: Perpetuity.

System manager(s) and address: Regional Administrator (see Location above).

Notification procedure: Individuals wishing to be notified if they are named in this system or gain access to records maintained in this system must submit a request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Indicate the location of the Comptroller of the Currency office where the record might be stored; and (4) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information).

Record access procedures: Director, Public Affairs, 490 L'Enfant Plaza, SW, Washington, DC 20219.

Contesting record procedures: Submit requests to the Director, Public Affairs at the above address.

Record source categories: Complaints and Banks.

Treasury/Comptroller 00.221

System name: Treasury/Comptroller—Professional Qualifications Records for Municipal Securities Principals and Municipal Securities Representatives.

System location: Office of the Comptroller of the Currency, 490 L'Enfant Plaza East SW., Washington, D.C. 20219. Records stored in computerized files are maintained off-premises at the National Association of Securities Dealers, 1735 "K" Street NW., Washington, D.C. 20006.

Categories of individuals covered by the system: Persons who are or seek to be associated with a municipal securities dealer which is a national or District of Columbia bank, or a department, division, or subsidiary of any such bank, in the capacity of municipal securities principals or municipal securities representatives.

Categories of records in the system: These records contain identifying information, detailed educational and occupational histories, certain professional qualifications examination information, disciplinary histories, and information concerning the termination of employment of individuals covered by the system. Identifying information includes names, address history, date and place of birth, and may include social security number.

Authority for maintenance of the system: Section 15B(c) (5), 17 and 23 of the Securities Exchange Act of 1934 (15 U.S.C. 78o-4(c) (5), 78q and 78w) and the general authority of the National Banking Laws, 12 U.S.C. 1 et seq.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The information contained in these records may be subject to the following uses:

(a) Referral to the appropriate governmental authority, whether Federal, State, local, or foreign, or to the appropriate self-regulatory organization, of such information as may indicate a violation or potential violation of law, regulation or rule.

(b) Referral to the appropriate court, magistrate, or administrative law judge of such information as may be relevant to proceedings before any such court or judicial officer.

(c) Disclosure of such information as may aid in the resolution of any action or proceeding:

(1) In which the Federal securities or banking laws are at issue;

(2) In which the propriety of any disclosure of information contained in the system is at issue; or

(3) To which the Comptroller of the Currency or a past or present member of its staff is a party or otherwise involved in an official capacity.

(d) Disclosure to a Federal, State, local, or foreign governmental authority, or to a self-regulatory organization, of such information as may be necessary to obtain from such authority or organization additional information concerning the qualifications of an individual covered by the system.

(e) Disclosure of such information as may be necessary to respond to a request from a Federal, State, local, or foreign governmental authority, or from a self-regulatory organization, for information needed in connection with the issuance of a license, granting of a benefit, or similar action by such authority or organization affecting an individual covered by the system.

(f) Disclosure of such information as may be necessary to respond to any Congressional inquiry undertaken at the request of an individual covered by the system.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are maintained in file folders and on computer memory discs.

Retrievability: Records are indexed by name of individual.

Safeguards: File folders are stored in lockable metal cabinets and computer memory discs are accessed only by authorized personnel.

Retention and disposal: Records may be maintained indefinitely. Disposal is by normal methods.

System manager(s) and address: Deputy Comptroller for Banking Operations, Comptroller of the Currency, 490 L'Enfant Plaza East SW., Washington, D.C. 20219.

Notification procedure: Inquiries, including name and date and place of birth, should be addressed to the System Manager, Inquirers may be required to include a notarized statement attesting to identity.

Record access procedures: Same as notification procedure.

Contesting record procedures: Same as notification procedure.

Record source categories: Those individuals and municipal securities dealers described in the section entitled Categories of Individuals Covered by the System provide the bulk of the information in the system. Additional input is provided by Federal, State, local, and foreign governmental authorities, and by self-regulatory organizations, which regulate the securities industry.

Treasury/CC 300

System name: Administrative Personnel System

System location: Office of the Comptroller of the Currency, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219. Components of this system are geographically dispersed throughout 14 regional offices. (See addresses listed in Appendix j-1.)

Categories of records in the system: Employment related administrative records. This system contains in house control type information about employees. The type of records found within this system are: list of individuals who are issued drivers' licenses, building passes, credit or identification cards, parking permits, accountable property and travel documents; lists of individuals who perform specialized duties (building wardens, relocation teams, safety officers, and civil defense officers); reports about individuals who are involved in accidents while employed.

Authority for maintenance of the system: General authority—12 U.S.C. 1 and 9, 5 U.S.C. 301. Specific authority is derived from a number of laws, regulations and Executive Orders. Individuals wishing to obtain more detailed information should write to the Director, Public Affairs, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: A record in this system may be disclosed as a routine use to: (1) the Civil Service Commis-

Retrievability: Records are retrieved primarily by name (filed alphabetically), secondary identifiers are used to assure accuracy (date of birth, social security number, or employee identification number).

the Civil Service Commission or destroyed. Some records are retained for varying periods of time. Individuals wishing more detailed information should write to the Director, Public Affairs, 490 L'En-

reports and travel vouchers of employees are stored in separate files and are accessible by name and social security number. All payroll and time and attendance records are retained between audit periods (normally two years) and then destroyed by shredding. Travel

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: A record in this system may be disclosed as a routine use to: (1) the Civil Service Commission (CSC) for the purpose of complying with regulations issued by the CSC; (2) the General Services Administration (GSA) for the purpose of complying with regulations issued by the GSA; and (3) the Department of Labor for the purpose of investigating claims for work related injuries. (See Appendix AA for additional routine uses.)

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders, magnetic tape, punch cards, micro-film lists and forms.

Retrievability: Records are retrieved primarily by name (filed alphabetically by category of records); secondary identifiers are used to assure accuracy (date of birth, social security number or employee identification number).

Safeguards: Records are stored in lockable cabinets or secure rooms; access is limited to officials who have a need for the information; employees are trained to make only authorized disclosures.

Retention and disposal: Personnel type records are retained for 30 days after termination. All other records are retained and destroyed in accordance with published disposition and retention schedules. Individuals wishing more detailed information should write to the Director, Public Affairs, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219.

System manager(s) and address: Deputy Comptroller for Administration, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Indicate the location of the Comptroller of the Currency office where last employed; (4) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information.

Record access procedures: Director, Public Affairs, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219.

Contesting record procedures: Submit requests to the Director, Public Affairs at the above address.

Record source categories: The information in these records was provided by or verified by the subject of the record, employers and co-workers.

Treasury/CC 310

System name: Fiscal Personnel System

System location: Office of the Comptroller of the Currency, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219. Components of this system are geographically dispersed throughout 14 regional offices. (See addresses listed in Appendix j-1.)

Categories of individuals covered by the system: Present and past employees.

Categories of records in the system: This system is typically identified as payroll or disbursement type records and contains information about employees. The types of records found within this system are: award, allowance, salary, and fund advancement justification and disbursement records; payroll deductions for taxes, life and health insurance, financial institutions, retirement funds and charitable groups.

Authority for maintenance of the system: General authority—12 U.S.C. 1 and 9, 5 U.S.C. 301. Specific authority is derived from a number of laws, regulations and Executive Orders. Individuals wishing to obtain more detailed information should write to the Director, Public Affairs, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: A record in this system may be disclosed as a routine use to: (1) the Civil Service Commission (CSC) for the purpose of complying with regulations issued by the CSC; (2) the General Services Administration (GSA) for the purpose of complying with regulations issued by GSA; (3) the General Accounting Office for the purpose of conducting audits; and (4) to entities designated to receive payroll deductions. (See Appendix AA for additional routine uses.)

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders, magnetic tape and reports. Disbursement records are stored at the Federal Records Center.

Retrievability: Records are retrieved primarily by name (filed alphabetically), secondary identifiers are used to assure accuracy (date of birth, social security number, or employee identification number).

Safeguards: Records are stored in lockable cabinets or secure rooms; access is limited to officials who have a need for the information; employees are trained to make only authorized disclosures.

Retention and disposal: Personnel type records are retained for 30 days after termination. Disbursement records are retained indefinitely. Individuals wishing more detailed information should write to the Director, Public Affairs, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219.

System manager(s) and address: Deputy Comptroller for Administration, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219.

Notification procedure: Individuals wishing to be notified if they are named in this system or gain access to records maintained in this system must submit a request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Indicate the location of the Comptroller of the Currency office where last employed; and (4) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information).

Record access procedures: Director, Public Affairs, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219.

Contesting record procedures: Submit request to the Director, Public Affairs at the above address.

Record source categories: The information contained in these records was provided by or verified by the subject of the record, employers and co-workers.

Treasury/CC 320

System name: General Personnel System

System location: Office of the Comptroller of the Currency, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219. Components of this system are geographically dispersed throughout 14 regional offices. (See addresses listed in Appendix j-1.)

Categories of individuals covered by the system: Present and past employees and applicants for employment.

Categories of records in the system: Employment related biographical and performance material. This category of records is typically identified as personnel type records and contains data about employees including applicants. The type records found within this category include: work evaluations; educational, employment, medical and military histories; locator and emergency contact information; dependent and beneficiary information; physical and qualification descriptions; financial interest statements; personal and family assets, liabilities and other interests in business enterprises.

Authority for maintenance of the system: General authority—12 U.S.C. 1 and 9, 5 U.S.C. 301. Specific authority is derived from a number of laws, regulations and Executive Orders. Individuals wishing to obtain more detailed information should write to the Director, Public Affairs, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: A record in this system may be disclosed as a routine use to (1) the Civil Service Commission (CSC) for the purpose of complying with regulations issued by the CSC; (2) the Veterans Administration for the purposes of determining veterans preference and pension benefits; (3) the Equal Employment Opportunity Commission for the purpose of providing minority information and case reports; (4) respond to requests from labor organizations for names of employees and identifying information; (5) the Department of Labor for the purpose of reporting health and safety matters; (6) the General Services Administration (GSA) for the purpose of complying with regulations issued by GSA. (See Appendix AA for additional routine uses.)

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders, magnetic tape, punch cards, micro-film lists and forms.

Retrievability: Records are retrieved primarily by name (filed alphabetically by category of records). Secondary identifiers are used to assure accuracy (date of birth, social security number or employee identification number).

Safeguards: Records are stored in lockable cabinets or secure rooms; access is limited to officials who have a need for the information; employees are trained to make only authorized disclosures.

Retention and disposal: Most personnel-type records are retained for 30 days after termination, at which time they are transferred to

the Civil Service Commission or destroyed. Some records are retained for varying periods of time. Individuals wishing more detailed information should write to the Director, Public Affairs, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219.

System manager(s) and address: Deputy Comptroller for Administration, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Indicate the location of the Comptroller of the Currency office where last employed or where application for employment was made; (4) Provide at least two secondary identifications (date of birth, employee identification number, dates of employment or similar information).

Record access procedures: Director, Public Affairs, 490 L'Enfant Plaza, S.W., Washington, D.C. 20219.

Contesting record procedures: Submit requests to the Director, Public Affairs at the above address.

Record source categories: The information contained in these records was provided or verified by the subject of the record, employers, co-workers, friends, neighbors and associates listed as references, financial and educational institutions.

Treasury/USSBD 00.001

System name: Savings Bonds Employee Records System—Treasury/USSBD.

System location: Savings Bonds Division, Department of the Treasury, 1111 20th Street, N.W., Washington, D.C. 20226.

Categories of individuals covered by the system: Employees of USSBD.

Categories of records in the system: Appeal and Grievance Records, Applicant Supply Files, Case Actions, Employee Earning Statements, Employee Financial Statements, Equal Employment Opportunity Files, Incentive Awards and Reports, Itineraries, Locator Cards, Medical Records, Merit Promotion, Motor Vehicle Records, Payroll, Performance Evaluation, Personal Investigation, Position Control, Reduction in Force File, Register of Separation and Transfer, Retirement Cards, Time and Attendance Records, Tort Claims, Training Records and Reports, Travel Vouchers.

Authority for maintenance of the system: Treasury Department Order No. 13 established the Division of Savings Bonds under the office of the Fiscal Assistant Secretary, April 1941.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Personnel Office of the Savings Bonds Division, Department of the Treasury, maintains in its system of records detailed information pertaining to each of the specific categories listed in Categories of Individuals. Routine use of the various files enables Personnel to have ready access to applicants for hiring purposes, placement and to aid in assessing the need for employee training and promotion. Necessary information about an individual employee is also provided to other Federal Personnel Offices when a Division employee is under consideration for a position in another Federal Agency. Also, other records carry accrual information that permits annual reviews on an employee's performance. All information is used solely for the purpose for which it was collected which serves as a general internal source bank. The Budget and Fiscal section of the Savings Bonds Division maintains in its record system data pertaining to each of the identifiable categories listed in Categories of Individuals. This information permits the Section to make employee payroll reconciliations, budget forecasts, check and bond issuance verifications, internal audits, prepare earning statements and document payments of employee travel claims. Disclosures may be made to a Congressional Office from the record of an individual in response to an inquiry from the Congressional Office made at the request of that individual. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: All records in Personnel, with the exception of card files, are stored in metal correspondence files, indexed by individual names and numbers. Files are maintained in separate offices according to the nature or content of data. Files are accessible to Personnel employees and are locked at the close of each day. Records pertaining to personal historical data are maintained for two years and are then sent to the Federal Records Center. The records of a less important nature are destroyed after the two-year period. Storage of financial information is maintained on computer printouts supplied by Bureau of the Mint. Time and attendance reports and travel vouchers of employees are stored in separate files and are accessible by name and social security number. All payroll and time and attendance records are retained between audit periods (normally two years) and then destroyed by shredding. Travel vouchers are maintained on file for three years after audit and then sent to the Federal Records Center.

System manager(s) and address: Director of Administration, Department of the Treasury, Savings Bonds Division, 1111 20th Street, N.W., Washington, D.C. 20226.

Notification procedure: Records that are housed by the Savings Bonds Division are not of a nature that would warrant strict guidelines for accessibility. An individual may request access to his record or any information pertaining to him by merely notifying the office or officer in charge. The individual, however, must be under the supervision of a Savings Bonds officer during the entire time he has this information in his possession.

Record access procedures: See System Manager and Notification above.

Contesting record procedures: See System manager and Notification above.

Record source categories: Data accumulated in the record system at Savings Bonds are gathered from the individual and/or from sources directly connected with the employee's appointment.

Systems exempted from certain provisions of the act: Portion of this system are exempted elsewhere in the Federal Register.

Treasury/USSBD 00.002

System name: Savings Bonds Sales Promotion/Volunteer Record System—Treasury/USSBD.

System location: Savings Bonds Division, Department of the Treasury, 1111 20th Street, N.W., Washington, D.C. 20226; and/or Regional and Branch Offices.

Categories of individuals covered by the system: Bond Tellers, Campaign Managers, Campaign Nominees, Committee Volunteer lists and Contacts, General Correspondence, Geographical Chairmen, Governmental Biographical Sketches, Honorary Chairmen, Individual Volunteer Lists, Mailing Lists—General and Labor, Major Corporation Executives, National Panel of Public Relations.

Categories of records in the system: Administrative lists and related detail.

Authority for maintenance of the system: Treasury Department Order No. 13 established the Division of Savings Bonds under the office of the Fiscal Assistant Secretary, April 1941.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Sales Office of the Savings Bonds Division, Department of the Treasury, maintains a nation-wide volunteer sales force that promotes the sale of Savings Bonds. The listing in Category of Individuals describes the type of data that supports this effort. This information provides a means by which the Sales Division may review plans and follow progress of individuals in their sale and promotion of Savings Bonds, supplies, volunteer lists and bios for recruiting, appointing and retiring volunteer leaders. Lists also provide a means of supplying volunteers with Savings Bonds program materials and information, invitations to meetings, special bulletins, letters of progress, sales reports and newsletters. Lists are available only for Savings Bonds purposes. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Mailing lists are accessible to employees and stored on addressograph plates. Other correspondence and materials are filed in the regular correspondence file cabinets and permanently retained.

System manager(s) and address: Deputy National Director, Department of the Treasury, Savings Bonds Division, 1111 20th Street, N.W., Washington, D.C. 20226.

Notification procedure: Records that are housed by the Savings Bonds Division are not of a nature that would warrant strict guidelines for accessibility. An individual may request access to his record or any information pertaining to him by merely notifying the office or officer in charge. The individual, however, must be under the supervision of a Savings Bonds officer during the entire time he has this information in his possession.

Record access procedures: See System Manager and Notification above.

Contesting record procedures: See System Manager and Notification above.

Record source categories: Data accumulated in the record system at Savings Bonds are gathered from the individual and/or from sources

DEPARTMENT OF THE TREASURY APPENDIX
ADDITIONAL ROUTINE USES

Record source categories: Data accumulated in the record system at Savings Bonds are gathered from the individual and/or from sources directly connected with the volunteer's appointment.

Treasury/USSBD 00.003

System name: Savings Bonds Sales Record System—Treasury/USSBD.

System location: Savings Bonds Division, Department of the Treasury, 1111 20th Street, N.W., Washington, D.C. 20226; and/or Regional Offices.

Categories of individuals covered by the system: Blue Ribbon Target Cards, Blue Ribbon Target Status Control Sheets, Field Call Reports, Itineraries, Net Saver Reports, Payroll Savings Reporting Procedures Forms, Progress Summaries, Time and Attendance Records, Training Reports, Work Plans, State—County Chairmen, State and Volunteer Fund Lists, "Take stock in America" Records, Telephone calls, Volunteer Bio's.

Categories of records in the system: Routine lists and administrative details associated with sales.

Authority for maintenance of the system: Treasury Department Order No. 13 established the Division of Savings Bonds under the office of the Fiscal Assistant Secretary, April 1941.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Sales unit of the Savings Bonds Division houses records of individual sales plans, program plans and regional reports for the purpose of coordinating plans for smoother operation of field work. Final plans are disseminated to field and/or volunteer offices for implementation. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Records of this nature are filed in large notebooks and are indexed according to individual names, regions, areas and states. Notebooks are placed on shelves and do not warrant tight security. High priority records are kept for long periods as references, others are destroyed after a two year period.

System manager(s) and address: Director of Sales, Department of the Treasury, Savings Bonds Division, 1111 20th Street, N.W., Washington, D.C. 20226.

Notification procedure: Records that are housed by the Savings Bonds Division are not of a nature that would warrant strict guidelines for accessibility. An individual may request access to his record or any information pertaining to him by merely notifying the office or officer in charge. The individual, however, must be under the supervision of a Savings Bonds officer during the entire time he has this information in his possession.

Record access procedures: See Notification and System Manager.

Contesting record procedures: See Notification and System Manager.

Record source categories: Data accumulated in the sales record system at Savings Bonds are gathered from the individual and/or from sources directly connected with the employee's appointment.

DEPARTMENT OF THE TREASURY APPENDIX ADDITIONAL ROUTINE USES

In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

A record maintained by this agency to carry out its functions may be disclosed as a "routine use" to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of license, grant or other benefit, provided that disclosure is compatible with the purpose for which such record was collected.

A record maintained by this agency to carry out its functions may be disclosed as a routine use to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter, provided that disclosure is compatible with the purpose for which such record was collected.

A record maintained by this agency to carry out its functions may be disclosed in response to a court subpoena, to appropriate parties engaged in litigation or in preparation of possible litigation such as potential witnesses for the purpose of securing their testimony when necessary to courts, magistrates or administrative tribunals, to parties and their attorneys for the purpose of proceeding with litigation or settlement of disputes, to individuals seeking information by using established discovery procedures, whether in connection with civil, criminal, or regulatory proceedings.

A record maintained by this agency to carry out its functions which relates to civil and criminal proceedings may be disclosed to the news media in accordance with guidelines contained in 28 C.F.R. 50.2.

A record maintained by this agency to carry out its functions may be disclosed to foreign governments in accordance with formal or informal international agreements.

A record maintained by this agency to carry out its functions may be disclosed to unions recognized under E.O. 11491 when required or relevant to union's duties as exclusive representative under E.O. 11491.

A record maintained by this agency to carry out its functions may be disclosed to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

A record maintained by this agency to carry out its functions may be disclosed to a congressional office in response to an inquiry from the congressional office made at the request of the individual to whom the record pertains.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA/FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
CSA	CSC		CSA	CSC
	LABOR			LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

NOTE: As of August 14, 1978, Community Services Administration (CSA) documents are being assigned to the Monday/Thursday schedule.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

GS—Modifications, coal mining regulations. 37181; 8–22–78

List of Public Laws

This is a continuing listing of public bills that have become law, the text of which is not published in the FEDERAL REGISTER. Copies of the laws in individual pamphlet form (referred to as "slip laws") may be obtained from the U.S. Government Printing Office.

[Last Listing: September 19, 1978]

H.R. 6669 ..... Pub. L. 95–367
National Climate Program Act. (Sept. 17, 1978; 92 Stat. 601). Price: $.60.

H.R. 2931 ..... Pub. L. 95–368
To amend chapter 89 of title 5, United States Code, to establish uniformity in Federal employee health benefits and coverge by preempting certain State or local laws which are inconsistent with such contracts, and for other purposes. (Sept. 17, 1978; 92 Stat. 606). Price: $.50.

H.R. 10899 ..... Pub. L. 95–369
International Banking Act of 1978. (Sept. 17, 1978; 92 Stat. 607). Price: $.90.

H.R. 12240 ..... Pub. L. 95–370
Intelligence and Intelligence-Related Activities Authorization Act for Fiscal Year 1979. (Sept. 17, 1978; 92 Stat. 626). Price: $.50.

H.J. Res. 1014 ..... Pub. L. 95–371
Designating April 28 and 29 of 1979 as "Days of Remembrance of Victims of the Holocaust." (Sept. 18, 1978; 92 Stat. 628). Price: $.50.

S. 9 ..... Pub. L. 95–372
Outer Continental Shelf Lands Act Amendments of 1978. (Sept. 18, 1978; 92 Stat. 629). Price: $2.00

H.R. 13468 ..... Pub. L. 95–373
District of Columbia Appropriation Act, 1979. (Sept. 18, 1978; 92 Stat. 699). Price: $.60.

H.R. 12927 ..... Pub. L. 95–374
Military Construction Appropriation Act, 1979. (Sept. 18, 1978; 92 Stat. 707). Price: $.60.

S. 1633 ..... Pub. L. 95–375
To provide for the extension of certain Federal benefits, services, and assistance to the Pascua Yaqui Indians of Arizona, and for other purposes. (Sept. 18, 1978; 92 Stat. 712). Price: $.50.

H.R. 10878 ..... Pub. L. 95–376
To extend until October 1, 1981, the voluntary insurance program provided by section 7 of the Fisherman's Protective Act of 1967, and for other purposes. (Sept. 18, 1978; 92 Stat. 714). Price: $.60.

Title 3—The President

PROCLAMATION 4597

United Nations Day, 1978

By the President of the United States of America

A Proclamation

The founding of the United Nations, on October 24, 1945, was an historic attempt to establish a framework for international cooperation.

The nations of the world now face such tasks as maintaining international peace and security; promoting basic human rights; building a better international economic order; and allocating fairly the globe's natural resources. The United Nations and its affiliated agencies bring together representatives of all nations to work together toward these goals. It holds out the vision of a truly cooperative world—a world at peace.

As one of its founding members, as its leading contributor, and as its host country, the United States feels a special pride in the Organization's accomplishments.

NOW, THEREFORE, I, JIMMY CARTER, President of the United States of America, do hereby designate Tuesday, October 24, 1978, as United Nations Day.

I have appointed Clifton C. Garvin, Jr., to be United States National Chairman for United Nations Day.

I urge Americans to become better acquainted with the institutions that make up the United Nations, to consider its role in addressing the problems of global interdependence, and to help it resolve the array of critical international issues that face us in these times.

IN WITNESS WHEREOF, I have hereunto set my hand this nineteenth day of September, in the year of our Lord nineteen hundred seventy-eight, and of the Independence of the United States of America the two hundred and third.

Jimmy Carter

Executive Order 12082 — **September 19, 1978**

Suspension of Certain Armed Forces Promotion and Disability Separation Limitations

By the authority vested in me as President of the United States of America by Sections 2 and 3 of an Act approved by me today (bill S. 3454 enacted by the Senate and the House of Representatives on September 7 and 12, 1978), and having determined that certain promotion limitations applicable to the Navy and Marine Corps should continue to be suspended, and having determined that the new statutory conditions authorizing a continuation of certain existing disability separation practices in the Armed Forces should be effective, it is hereby ordered as follows:

1-101. For the period beginning on September 15, 1978 and ending on September 30, 1979, the application of the following provisions of Title 10 of the United States Code is suspended:

(a) Section 5707(c), restricting the number of Navy and Marine Corps officers who may be recommended for promotion from below the appropriate promotion zone.

(b) Section 5751(a), requiring Marine Corps officers serving in the grade of brigadier general to have completed three years' service in grade to be eligible for consideration for promotion to major general.

(c) Section 5751(b), requiring certain officers to have completed specific years of service in grade before being eligible for consideration for promotion to the next higher grade.

(d) Section 5751(e), precluding officers designated for limited duty who are below the appropriate promotion zone from being considered for promotion.

(e) Section 5770, requiring certain officers to have had at least two years' sea or foreign service in grade before they may be promoted.

1-102. For the period beginning on September 15, 1978 and ending on September 30, 1979, the conditions provided for by the following provisions of Title 10 of the United States Code are effective:

(a) Section 1201(3)(B)(iv), authorizing the retirement for certain disabilities of at least 30 percent which were incurred in line of duty.

(b) Section 1203(4)(A)(iii), authorizing separation for certain disabilities of less than 30 percent which were incurred in line of duty.

(c) Section 1203(4)(C)(iii), authorizing separation for certain disabilities of at least 30 percent which were not incurred in line of duty.

1-103. Executive Order Nos. 10616, 11151, 11437, and 11554, as amended, are hereby revoked.

Jimmy Carter

THE WHITE HOUSE,
September 19, 1978.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

[3410-02]

Title 7—Agriculture

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

[Milk Order No. 125]

PART 1125—MILK IN THE PUGET SOUND, WASH., MARKETING AREA

Order Suspending Certain Provisions

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Suspension of rule.

SUMMARY: This order suspends certain order provisions relating to how much milk not needed for fluid (bottling) use may be moved directly from farms to manufacturing plants and still be priced under the order. The suspension was requested by a cooperative association to help it continue the association of its members' milk with the order. The suspension would apply during the months of September 1978 through January 1979.

DATE: September 21, 1978.

FOR FURTHER INFORMATION CONTACT:

Maurice M. Martin, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-7183.

SUPPLEMENTARY INFORMATION: Prior document in this proceeding:

Notice of proposed suspension—issued August 25, 1978, published August 30, 1978 (43 FR 38706).

This order of suspension is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Puget Sound, Wash., marketing area.

Notice of proposed rulemaking was published in the FEDERAL REGISTER (43 FR 38706) concerning a proposed suspension of certain provisions of the order. Interested persons had an opportunity to comment in writing on the proposed suspension. Only the proponent of the suspension filed comments concerning the suspension. Its comments supported the suspension.

After considering all relevant material, including the proposal in the notice, the comments received and other available information, it is found and determined that for the months of September 1978 through January 1979 the following provisions of the order do not tend to effectuate the declared policy of the Act:

In § 1125.13(c) (1) and (3), the words "70 percent during the months of September through January, and".

STATEMENT OF CONSIDERATION

The suspension removes the limit on the amount of producer milk that a cooperative association or other handlers may divert from pool distributing plants to nonpool plants or to commercial food processing establishments in Pacific County, Wash., during the months of September 1978 through January 1979. In the case of a cooperative association, the order now limits diversions during these months to not more than 70 percent of its total producer milk which it causes to be delivered to pool distributing plants or diverted therefrom. In the case of a pool distributing plant, the 70 percent limit applies to the milk of producers (for which the operator of such plant is the handler during the month) received at or diverted from such pool plant.

The suspension was requested by the Northwest Guernsey Association (through its marketing agent, the Dari-Marketing Services) which lost a substantial part of its fluid milk sales to a pool distributing plant. It contends that since other fluid outlets are not immediately available the cooperative now must move to nonpool manufacturing plants the milk formerly moved to this handler. The cooperative indicated that without the suspension, a substantial part of the milk of its member producers who have regularly supplied the fluid market would have to be moved uneconomically if such milk is not to be excluded from the pool beginning in September 1978. The cooperative also indicated that the suspension for the period September 1978 through January 1979 would provide the necessary time to adjust its marketing operations and to request a public hearing to consider amendments to the order.

On the basis of the data, views, and arguments filed, it is concluded that without the suspension, the cooperative would be forced to make uneconomic shipments of a substantial part of its member milk that has been associated with the market on a regluar basis in order to qualify it for pooling beginning with this September. The suspension will facilitate the diversion of such milk and thus avoid the need for the cooperative to make uneconomic movements of milk in order to maintain continued pool status for a substantial part of the milk of its member producers.

It is hereby found and determined that 30 days' notice of the effective date thereof is impractical, unnecessary, and contrary to the public interest in that:

(a) This suspension is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area in that the most efficient method of handling milk not needed for the fluid market is by direct movement from producers' farms to manufacturing outlets. This suspension allows such economical movements of milk while the dairy farmers involved retain producer status;

(b) This suspension does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) Notice of proposed rulemaking was given to interested parties and they were afforded opportunity to file written data, views, or arguments concerning this suspension. No views were received in opposition to the proposed suspension.

Therefore, good cause exists for making this order effective upon publication in the FEDERAL REGISTER.

It is therefore ordered, That the aforesaid provisions of the order are hereby suspended for the months of September 1978 through January 1979.

Signed at Washington, D.C., on September 18, 1978.

JERRY C. HILL,
Deputy Assistant Secretary.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 78-GL-3; Amdt. 39-3304]

PART 39—AIRWORTHINESS DIRECTIVES

McCauley Propellers Two-Bladed Constant Speed Model D2A34C58, F2A34C58 and D2A34C98 Series.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment supersedes an existing airworthiness directive (AD) applicable to propellers installed on Cessna A188, A188A, A188B, and Transavia PL-12 airplanes by a new AD that adds additional airplane models. The new AD imposes the same inspection and replacement requirements on the airplane models covered by the existing AD and adds relaxed inspection and replacement requirements on additional airplane models. The new AD is needed because service experience indicates these airplanes are also susceptible to hub failures and blade loss to which the exisiting AD is directed. The additional airplane models use the same design propellers. Periodic inspection of the propeller hubs is required until replaced by oil-filled hubs containing a dyed oil crack detection system.

DATES: Effective September 29, 1978. Compliance schedule as prescribed in the body of the AD.

ADDRESSES: The applicable service information may be obtained from McCauley Accessory Division, 3535 McCauley Drive, P.O. Box 430, Vandalia, Ohio 45377. A copy of the applicable service information is contained in the rules docket, Office of the Regional Counsel, 2300 East Devon Avenue, Des Plaines, Ill. 60018; and at FAA Headquarters, room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Robert W. Alpiser, Engineering and Manufacturing Branch, Flight Standards Division, AGL-214, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Ill. 60018, telephone 312-694-4500, extension 308.

This AD proposes to supersede amendment 39-3033 (42 FR 46275) AD 77-19-01 (as corrected by deleting the four words "but not limitied to" in letter dated October 18, 1977, 43 FR 16700) which currently requires inspection and replacement of certain propellers installed on Cessna A188, A188A, A188B, and Transavia PL-12 airplanes.

After issuing Amendment 39-3033, the Federal Aviation Administration (FAA) has determined, based on service experience with other airplanes using the same design propeller, that the AD sould be expanded to include additional airplane models. Based on this, a notice was issued in the FEDERAL REGISTER at 43 FR 23727 which proposed to supersede the existing AD by a new AD that includes additional airplane models using McCauley Propellers, two-bladed constant speed model D2A34C58, F2A34C58 and D2A34C98 series.

Interested persons have been affored an opportunity to participate in the making of the amendment. Only one comment was received. The propeller manufacturer requested adding the note that appears at the end of the list of affected propeller hubs to address any hubs that may be identified with a letter change not listed.

DRAFTING INFORMATION

The principal authors of this document are R. W. Alpiser, Flight Standards Division, Great Lakes Region, and Curt Wilder, Office of the Regional Counsel, Great Lakes Region.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by superseding amendment 39-3033 (42 FR 46275), AD 77-19-01 (as corrected by deleting the four words "but not limited to" in letter dated October 18, 1977, 43 FR 16700) by the following new airworthiness directive:

MCCAULEY PROPELLERS. Applies to the following model D2A34C58-(), F2A34C58-(), and D2A34C98-() series propellers. Paragraph (a) applies to those propellers installed on Cessna A188, A188A, A188B, and Transavia PL-12 airplanes only. Paragraph (b) applies to those propellers installed on airplanes not covered by paragraph (a) including but not limited to Bellanca 17-30, 17-30A, Cessna 185 and A185 series, 206, P206, P206A, TP206A, U206A thru F, TU206A thru F, 207, 210, 210A thru D, Interceptor (Aero Commander/Meyers) 200 series, Navion A thru H, Procaer F15/C, and Windecker AC-7 airplanes.

NOTE.—If any hub is found with letter changes not listed, contact McCauley service department for disposition.

Complaince required as indicated, unless already accomplished.

To detect propeller hub cracks and prevent possible failure, accomplish the following:

(a) Propellers installed on Cessna A188, A188A, A188B, and Transavia PL-12 airplanes only.

(1) All propellers models and series listed above.

(i) Propeller hubs with less than 500 total hours time in service, inspect in accordance with paragraph (c)(1) within 525 hours total time and reinspect in accordance with paragraph (c)(1) every 100 hours time in service from last inspection.

(ii) Propeller hubs with 500 or more but less than 1,200 total hours time in service, inspect in accordance with paragraph (c)(1) within the next 25 hours time in service after the effective date of this AD, and reinspect in accordance with paragraph (c)(1) every 100 hours time in service from last inspection.

(2) Model D2A34C58 and D2A34C58-A only. Propeller hubs with 1,200 or more total hours in service, or whose total time in service is unknown, remove from service and replace in accordance with paragraph (c)(3) within the next 25 hours in service after the effective date of this AD.

(3) All propeller models and series listed above except D2A34C58 and D2A34C58-A. Propeller hubs with 1,200 or more total hours time in service, or whose total time in service is unknown, inspect in accordance with paragraph (c)(2) within the next 25 hours time in service after the effective date of this AD, unless already accomplished within the last 300 hours time in service, and reinspect in accordance with paragraph (c)(2) every 300 hours time in service from the last inspection.

(4) Exemption. The foregoing inspections may be discontinued after replacement of Model D2A34C58-( ), F2A34C58-( ), or D2A34C98-( ) series propeller hubs with McCauley oil-filled hubs as in paragraph (c).

(b) Propellers installed on but not limited to Bellanca 17-30, 17-30A, Cessna 185 and A185 series, 206, P206, P206A, TP206A, U206A thru F, TU206A through F, 207, 210, 210A thru D, Interceptor (Aero Commander/Meyers) 200 series, Navion A thru H, Procaer F15/C, and Windecker AC-7 airplanes.

(1) Models D2A34C58 and D2A34C58-A (nonshot peened hubs).

(i) Propeller hubs with less than 500 total hours time in service, inspect in accordance with paragraph (c)(1) within 525 hours total time and reinspect in accordance with paragraph (c)(1) every 100 hours from last inspection.

(ii) Propeller hubs with 500 or more but less than 1,200 total hours time in service, inspect in accordance with paragraph (c)(1) within the next 25 hours time in service after the effective date of this AD, and reinspect in accordance with paragraph (c)(1) every 100 hours time in service from last inspection.

(iii) Propeller hubs with 1,200 or more total hours in service, or when total hours in service is unknown, remove from service and replace in accordance with paragraph (c)(3) within the next 25 hours time in service after the effective date of this AD.

(2) Models D2A34C58-B, -C, -J, -K, -L (nonshot peened hubs).

(i) Propeller hubs with less than 500 total hours time in service, inspect in accordance with paragraph (c)(1) within 525 hours total time and reinspect in accordance with paragraph (c)(1) every 100 hours from last inspection.

(ii) Propeller hubs with 500 or more but less than 1,200 total hours time in service, inspect in accordance with paragraph (c)(1) within the next 26 hours time in service after the effective date of this AD, and reinspect in accordance with paragraph (c)(1) every 100 hours from last inspection.

(iii) Propeller hubs with 1,200 or more total hours in service, or when total hours in service is unknown, inspect in accordance with paragraph (c)(2) within the next 50 hours time in service after the effective date of this AD, unless already accomplished within the last 300 hours time in service, and reinspect in accordance with paragraph (c)(2) every 300 hours time in service from the last inspection.

(3) Models D2A34C58-BM, -BMN, -CM, -CMN, -JM, -JMN, -KM, -KMN, -LM, -LMN, -M, -MN and -N (shot peened hubs).

(i) Propeller hubs with 1,200 or more total hours in service but less than 2,301 hours time in service, inspect in accordance with paragraph (c)(2) within the next 100 hours time in service after the effective date of this AD unless previously accomplished within the last 1,200 hours.

(ii) Propellers with 2,400 or more total hours time in service or whose total time in service is unknown, inspect in accordance with paragraph (c)(2) within the next 50 hours time in service after the effective date of this AD, unless previously accomplished within the last 300 hours time in service, and reinspect in accordance with paragraph (c)(2) every 300 hours time in service from the last inspection.

(4) Exemption. The foregoing inspections may be discontinued after replacement of Model D2A34C58-( ), F234C58-( ), or D2A34C98-( ) series propeller hubs with McCauley oil-filled hubs as in paragraph (c).

(c) Required action: (1) Remove spinner, if installed, and inspect all external surfaces of the propeller hub for cracks by dye penetrant method. The propeller need not be disassembled or removed from the airplane for this inspection, which can be performed by a Federal Aviation Administration certificated A & P mechanic. Replace before further flight any cracked hub with a new or serviceable hub which complies with the requirements of this AD as described in paragraph (c)(3).

(2) Remove propeller from airplane and disassemble sufficiently to inspect all internal and external surfaces of hub for cracks by dye penetrant inspection in accordance with McCauley service letter 1974-3 dated March 29, 1974. This inspection must be performed by a Federal Aviation Administration approved propeller repair station. Replace before further flight any cracked hub with a new or serviceable hub which complies with the requirements of this AD as described in paragraph (c)(3).

(3) Remove propeller from airplane, disassemble, inspect components and replace hub with a model D2A34C58-BMNO, -CMNO, -JMNO, -KMNO, -LMNO, -NO, -O or D2A34C98-BMNO, -CMNO, -JMNO, -LMNO, -MNO, -NO, -O, oil-filled series hub, as applicable, in accordance with McCauley service bulletins No. 122 dated February 15, 1977, No. 130 dated January 20, 1978 and service manual No. 720415, or later Federal Aviation Administration approved revisions. Modification to the oil-filled hub during major disassembly or overhaul must be accomplished by a Federal Aviation approved propeller repair station. Alternatively, a nonoil-filled hub which has been shot peened and reworked in accordance with McCauley service bulletin No. 88, dated November 6, 1970 and service manual 720415 or later Federal Aviation Administration approved revisions may be used. The nonoil-filled hub models, when used, must comply with the repetitive inspection requirements of paragraphs (c)(1) and (c)(2), as applicable. The replaced model D2A34C58 and D2A34C58-A hubs having 1,200 or more total hours time in service must be identified with a "Reject Tag" since their continued use in certificated aircraft is not permissible.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made part hereof pursuant to 5 U.S.C. 522(a)(1). All persons affected by the directive who have not already received these documents from the manufacturers, may obtain copies upon request to McCauley Accessory Division, 3535 McCauley Drive, P.O. Box 430, Vandalia, Ohio 45377. These documents may also be examined at the Great Lakes Regional Office, 2300 East Devon Avenue, Des Plaines, Ill. 60018, and at FAA Headquarters, 800 Independence Avenue SW., Washington, D.C. 20591. A historical file on this airworthiness directive which includes incorporated material is maintained by the FAA at its headquarters in Washington, D.C. and at the Great Lakes region.

This supersedes amendment 39-3033 (42 FR 46275) AD 77-19-01. Inspections previously conducted per AD 77-19-01 are applicable to satisfying the requirements of paragraph (a) above.

This amendment becomes effective September 29. 1978.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89.)

NOTE.—The Federal Aviation Administration has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Des Plaines, Ill., on September 12, 1978.

WM. S. DALTON,
Acting Director,
Great Lakes Region.

NOTE.—The incorporation by reference in the preceding document was approved by the Director of the Federal Register on June 19, 1967.

[Docket No. 78-GL-5; Amdt. 39-3290]

PART 39—AIRWORTHINESS DIRECTIVES

Hartzell Turbopropellers

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action publishes in the FEDERAL REGISTER and makes effective as to all persons an amendment adopting a new airworthiness directive (AD) which was previously made effective as to known operators of certain Hartzell model HC-B3TN-2, HC-B3TN-3, HC-B3TN-5, HC-B4-TN-3, HC-B4TN-5, and HC-B5MP-3 turbopropellers by individual airmail letters dated August 18 and 24, 1978. This AD is necessary to prevent propeller attach bolt failures, which could result in separation of the propeller from the engine, and requires inspection and/or replacement of the attach bolts.

DATE: Effective September 21, 1978, except with respect to certain persons specified in the body of the AD.

ADDRESSES: The applicable service bulletin may be obtained from Hartzell Propeller Co., 350 Washington Avenue, Piqua, Ohio 45356. Copies of the service bulletin incorporated in this AD are contained in the Rules Docket, Office of the Regional Counsel, 2300 East Devon Avenue, Des Plaines, Ill. 60018, and at FAA Headquarters, Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

G. L. Killion, Engineering and Manufacturing Branch, Flight Standards Division, AGL-214, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Ill. 60018, telephone 312-694-4500, extension 308.

SUPPLEMENTARY INFORMATION: Pursuant to the authority delegated by the Administrator, an AD was adopted on August 18, 1978, and made effective immediately by airmail letter as to all known operators of Hartzell turbopropellers because of reports of propeller attach bolt failures. As a result of such failures, a propeller sep-

V 4 3 / 1 8 4

arated from an aircraft. Investigations disclosed that the failures are due to improper torquing techniques or defective bolts. Propellers shall be torque checked and/or defective bolts shall be replaced as necessary.

An AD amending the AD adopted on August 18, 1978, was adopted on August 24, 1978, and issued by individual airmail letters dated August 24, 1978. The amended AD extended the period of initial compliance.

Since it was found that immediate corrective action was required, notice and public procedure thereon was impracticable and contrary to the public interest and good cause existed for making the AD effective immediately as to all known operators of Hartzell turbopropeller units. These conditions still exist and the AD is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of part 39 of the Federal Aviation regulations to make it effective as to all persons.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of part 39 of the Federal Aviation regulations (14 CFR 39.13) is amended by adding the following airworthiness directive:

HARTZELL PROPELLERS. Applies to all the Hartzell model HC-B3TN-2, HC-B3TN-3, HC-B3TN-5,, HC-B4TN-3, HC-B4TN-5, and HC-B5MP-3 series turbopropellers.

The HC-B3TN-2 and HC-B5MP-3 series propellers are installed on United Aircraft of Canada Model PT-6A() series engines. The HC-B()TN-3 series propellers are installed on the Lycoming Model LTP 101-600() series engines, and United Aircraft of Canada Model PT-6A() series engines. The HC-B()TN-5 series propellers are installed on the AiResearch TPE-331() series engines.

Compliance required as indicated, unless already accomplished. To detect cracked propeller attach bolts, or improperly secured propellers accomplish the following:

(A) Category I. Prior to further flight, all new propeller installations and serviceable propellers which are being reinstalled, must be installed in accordance with paragraph (C).

(B) Category II. Within the next 25 hours time in service after the effective date of this airworthiness directive, all propellers placed in service since February 1, 1978, and that have accrued 1 or more hours time in service must comply with the attach bolts torquing inspection and installation requirements of paragraph (D).

REQUIRED ACTION

(C) Category I. (1) Torque all eight (8) propeller attach bolts, P/N A2047, with washers P/N A2048-2, installed to 100-125 ft. lbs. with dry threads, utilizing a torque wrench with an appropriate adapter.

(2) Within a period of 24-72 calendar hours, recheck torque on all eight (8) propeller attach bolts. If torque is found to be within 100-125 ft. lbs., no additional torque checks are required.

(3) Any bolt(s) that has not maintained a minimum torque of 90 ft. lbs. must be replaced. If propeller has been operated during the 24-72 hour period and more than one bolt has to be replaced, then all eight (8) bolts are to be replaced with new bolts as identified in paragraph (F). Torque new replacement bolt(s) with new washer(s) installed to 100-125 ft. lbs. with dry threads. No additional torque checks are required.

(4) If all eight (8) new replacement propeller attach bolts and eight (8) new washers are installed, the 24-72 hour recheck need not be repeated if they are torqued as cited above to 100-125 ft. lbs. with dry threads. Refer to paragraph (F) for further details about the new replacement bolts.

(5) Safety wire bolts and place a torque slip mark (i.e., paint stripe) between the bolts and engine flange.

(D) Category II. (1) Check the torque, with a torque wrench and an appropriate adapter, of all eight (8) propeller attach bolts (with washers installed). Torque should be 100-125 ft. lbs. with dry threads. (Caution: Do not exceed 125 ft. lbs. during this recheck.)

(2) If the torque of any one of the eight (8) propeller attach bolts is found to be less than 90 ft. lbs., remove that bolt and washer. Replace with a new replacement bolt, P/N A2047, and new washer, P/N A2048-2. Torque bolt to 100-125 lbs. with dry threads. No additional torque checks are required.

(3) If the torque of more than one of the eight (8) propeller attach bolts is found to be less than 90 ft. lbs., remove all eight (8) bolts and washers. Replace with new replacement bolts, P/N A2047 and new washers, P/N A2048-2. Torque bolts to 100-125 ft. lbs. with dry threads. No additional torque checks are required.

(4) Safety wire bolts and place a torque slip mark (i.e. paint stripe) between the bolt head and engine flange.

(E)(1) Compliance with this airworthiness directive shall be noted in the aircraft's records.

(E)(2) Discarded bolts should be considered and identified as "unairworthy" and processed to preclude their further use in certificated aircraft.

(F) New (replacement) propeller attach bolts, P/N A2047, are only acceptably identified by one or more marks (etched or stamped) on the threaded end face of the bolt (viz, the face opposite the head surface). The new washers, P/N A2048-2, can also be identified by the rolled edges on both the inside and outside diameter on one surface.

(G) The responsible propeller repair station, or A & P mechanic will notify the Federal Aviation Administration, Chief, Engineering and Manufacturing Branch, AGL-210, in writing of any low torqued or failed bolts. Also, the hub serial number(s) of the affected propeller(s) must be reported.

(Hartzell Service Bulletin No. 123, dated August 14, 1978, also pertains to this subject.)

This amendment becomes effective September 21, 1978, as to all persons except those persons to whom it was made immediately effective by the airmail letter dated August 24, 1978, which contained this amendment.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89.)

NOTE.—The Federal Aviation Administration has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Des Plaines, Ill. on September 12, 1978.

WM. S. DALTON,
Acting Director,
Great Lakes Region.

NOTE.—The incorporation by reference in the preceding document was approved by the Director of the Federal Register on June 19, 1967.

[Docket No. 78-SO-41, Amdt. 39-3300]

PART 39—AIRWORTHINESS DIRECTIVES

Gulfstream American Corp. Model G-159

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment amends an existing airworthiness directive (AD) applicable to Gulfstream American Corp. (GAC) (formerly Grumman American Aviation Corp.) model G-159 aircraft by requiring either the establishment of replacement life limits or the performance of additional inspections to the Gulfstream engine mount assemblies. This amendment is needed to prevent possible failure of the Gulfstream engine mount due to corrosion and/or fatigue damage in conjunction with water methanol. (wet) takeoff power overtorqueing.

DATE: Effective November 1, 1978. Compliance schedule—as prescribed in body of AD.

ADDRESSES: The applicable customer bulletins and quality control test procedure may be obtained from Gulfstream American Corp., P.O. Box 2206, Savannah, Ga. 31402. A copy of each of these documents is contained in Room 275, Engineering and Manufacturing Branch, ASO-210, Southern Region, Federal Aviation Administration, 3400 Whipple Avenue, East Point, Ga.

FOR FURTHER INFORMATION CONTACT:

Curtis Jackson, Aerospace Engineer Engineering and Manufacturing Branch, ASO-210, Southern Region, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320, telephone 404-763-7407.

SUPPLEMENTARY INFORMATION: This Airworthiness Directive amends Amendment 39-1773 (14 CFR 39.13), AD 74-03-01, which currently requires inspection of the forward and aft engine mounts (Vickers and Gulfstream) and replacement of corroded tubes on G-159 aircraft. After issuing amendment 39-1773, the FAA has determined that those inspection requirements alone are inadequate. Based on this, a notice was issued in the FEDERAL REGISTER on June 15, 1978 (43 FR 25833) which proposed to amend the existing AD by requiring the establishment of either a replacement life limit or the performance of additional inspections for the Gulfstream engine mount.

Interested persons have been afforded an opportunity to participate in the making of the amendment. Comments from three operators were received. One commentor stated that the inspections per Customer Bulletin 241A plus borescope inspection of two selected tubes would be adequate if guidelines were established for corrosion limits. The FAA disagrees. Inspections per both Customer Bulletins, 241A and 289, are required for the Gulfstream mount. If the operator elects to replace the engine mount at the required life limit, the inspections of Customer Bulletin 241A are still required on both the Vickers and Gulfstream mount. The FAA does not agree that the lower ends of only two tubes are the critical areas for inspection. Corrosion has been found in numerous other areas. There is not enough information available to establish corrosion allowables. The same commentor indicated that a revised inspection procedure was required. The AD revision does allow for approval by the FAA of equivalent inspections. One commentor stated that the AD revision would require replacement of Gulfstream mounts regardless of their condition. The AD revision allows for inspection and the establishment of an extended life limit. Two commentors stated that a longer life limit was needed and that not enough qualified inspection stations or maintenance facilities were available to perform the inspection and/or replacements. The FAA disagrees. The life limit was established based on the two failures and evaluation of corroded tubes removed after inspection. Detailed inspection procedures and the reference standard (for equipment set-up) are available and, additionally, an equivalent inspection procedure can be approved by the FAA. The FAA feels that there is an adequate number of qualified inspection stations and maintenance facilities since there are only approximately 30 G-159 aircraft which have more than 7500 landings and do not have new mounts installed. One commentor stated that the effective date of the AD should be delayed due to unavailability of parts. The FAA agrees. A shortage of replacement parts does currently exist and, therefore, the effective date of the AD revision has been established as November 1, 1978. One commentor stated that the 30 day or 25 flight hour limit for aircraft which have 7500 landings or more is unreasonable due to the long downtime. The FAA disagrees, in that the extended effective date of the AD revision should enable operators to effectively schedule the maintenance. The ultrasonic and visual inspections require approximately 28 manhours per aircraft. Therefore, the proposed rule is adopted with minor editorial changes. The required equipment and manhour estimate for the ultrasonic and visual inspections has been removed since this information is contained in the quality control test procedure.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by amending amendment 39-1773, AD 74-03-01, as follows:

(1) Revise the lead-in of the second paragraph of AD 74-03-01 to read as follows:

To detect and prevent corrosion or failure of the forward and aft engine mount assemblies, Vickers Drawing No. 81037, sheet 29, and Grumman (Gulfstream American) Drawing Nos. 159W10432-1 (L/H) and 159W10432-3 (R/H), respectively, accomplish the following unless already accomplished: (2) Add new paragraphs (e), (f), and (g) to read as follows:

(e) To prevent failure of the Gulfstream engine mount, accomplish either paragraph (f) or (g) prior to the accumulation of 7,500 landings, or within the next 25 landings, whichever occurs later, and thereafter at intervals not to exceed 7,500 landings from the time the mount is replaced. However, initial compliance is required regardless of the number of landings:

(1) For airplanes that have accumulated 7,500 landings prior to the effective date of this AD, within the next 30 days after the effective date of this AD; and

(2) For airplanes with less than 7,500 landings on the effective date of this AD, within the next 30 days after the accumulation of 7,500 landings.

(f) Perform the ultrasonic and visual inspections in accordance with GAAC Customer Bulletin No. 289, Amendment 1, dated May 26, 1977, or ultrasonic inspection in accordance with GAC quality control test procedure No. 55-P-1, revision 3, dated August 29, 1978, and visual inspection in accordance with Customer Bulletin No. 289, Amendment 1, dated May 26, 1977, or later revisions, approved by the Chief, Engineering and Manufacturing Branch, Federal Aviation Administration, Southern Region, or in an equivalent manner approved by the Chief, Engineering and Manufacturing Branch, Federal Aviation Administration, Southern Region. If the inspections indicate negligible or no internal corrosion, a sliding scale life limit based solely on water methanol usage can be established, based on GAAC Customer Bulletin No. 289, Amendment 1, dated May 26, 1977. Throughout this extended life limit, the inspections must be repeated at intervals not to exceed 500 landings. If any inspection indicates the presence of unacceptable internal corrosion, replace the engine mount within the next 25 landings or 30 days, whichever occurs first, in accordance with paragraph (g) of this AD. If no corrosion is found during any of the inspections required by this paragraph, replace the engine mount in accordance with paragraph (g) of this AD by the end of the extended life limit established in this paragraph.

(g) Replace the Gulfstream engine mount in accordance with GAAC Customer Bulletin No. 289 dated August 6, 1976, or later revision approved by the Chief, Engineering and Manufacturing Branch, Federal Aviation Administration, Southern Region, or in an equivalent manner approved by the Chief, Engineering and Manufacturing Branch, Federal Aviation Administration, Southern Region.

Amendment 39-1773 became effective January 28, 1974.

This amendment becomes effective November 1, 1978.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89).

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Gulfstream American Corp., P.O. Box 2206, Savannah, Ga. 31402. These documents may also be examined in Room 275, Engineering and Manufacturing Branch, FAA, Southern Region, 3400 Whipple Avenue, East Point, Ga. 30302 and at FAA Headquarters, 800 Independence Avenue SW., Washington, D.C. a historical file on this AD, which includes the incorporated material in full, is maintained by the FAA at its headquarters in Washington, D.C., and at the Southern Regional Office in Atlanta, Ga.

PHILLIP M. SWATEK,
Director, Southern Region.

Issued in East Point, Ga., on September 8, 1978.

NOTE.—The incorporation by reference provisions in this document was approved by the Director of the FEDERAL REGISTER on June 19, 1967.

[Airspace Docket No. 78-CE-25]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW POINT ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Control Zone and Transition Area—Alliance, Nebr.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of this Federal action is to alter the presently existing Alliance, Nebr., control zone and 700-foot transition area. The FAA has replaced an obsolete VOR, navigational aid, with a new VOR located adjacent to the previous facility site which will require a slight alteration of the 700-foot transition area and control zone to provide adequate controlled airspace.

EFFECTIVE DATE: October 16, 1978.

FOR FURTHER INFORMATION CONTACT:

Gary W. Tucker, Airspace Specialist, Operations, Procedures and Airspace Branch, Air Traffic Division, ACE-538, FAA, Central Region, 601 East 12th Street, Kansas City, Mo. 64106, telephone 816-374-3408.

SUPPLEMENTARY INFORMATION: The purpose of these amendments to subparts F and G of part 71 of the Federal Aviation regulations (14 CFR Part 71) is to alter the control zone and 700-foot transition area at Alliance, Nebr. The FAA has replaced an obsolete VOR. The new VOR will be located adjacent to the previous facility site. The relocation of the new facility has required the FAA to redesign the instrument approach procedures serving the Alliance, Nebr., Municipal Airport. Accordingly, action is taken herein to make slight alterations to the control zone and transition area descriptions at Alliance, Nebr., to provide adequate controlled airspace for aircraft utilizing the redesigned instrument approach procedures. Since this change is primarily clarifying in nature, notice and public procedure hereon under 5 U.S.C. 553(b) is impracticable and contrary to the public interest and good cause exists for making this amendment effective in less than 30 days after its publication.

Accordingly, subpart F, § 71.171 of the Federal Aviation regulations (14 CFR 71.171) as republished on January 3, 1978 (43 FR 355), is amended, effective 0901 G.m.t., October 16, 1978, by altering the following control zone:

ALLIANCE, NEBR.

Within a 5 mile radius of Alliance Municipal Airport (latitude 42°03'11.3" N., longitude 102°48'25.3" W.); within 3 miles each side of the Alliance VOR 302° radial, extending from the 5 mile radius zone to 6½ miles northeast of the VOR; and within 3 miles each side of the Alliance VOR 145° radial, extending from the 5 mile radius zone to 10 miles southeast of the VOR. This control zone is effective during the specific dates and times established in advance by a notice to airmen. The effective date and time will therefter be continuously published in the Airman's Information Manual.

Additional, subpart G, § 71.181, of the Federal Aviation regulations (14 CFR 71.181) as republished on January 3, 1978, is amended, effective 0901 G.m.t., October 16, 1978, by altering the following transition area:

ALLIANCE, NEBR.

That airspace extending upward from 700 feet above the surface within a 10 mile radius of Alliance Municipal Airport (latitude 42°03'11.3" N., longitude 102°48'25.3" W.); within 3 miles each side of the Alliance VOR 145° radial, extending from the 10 mile radius are to 12 miles southeast of the VOR.

(Sec. 307(a), Federal Aviation Act of 1958 as amended (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); § 11.61 of the Federal Aviation regulations (14 CFR 11.61).

NOTE.—The Federal Aviation Administration has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; Mar. 8, 1978).

Issued in Kansas City, Mo., on September 11, 1978.

C. R. MELUGIN, Jr.,
Director, Central Region.

[Docket No. 18304 Amdt. No. 1120]

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes standard instrument approach procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: An effective date for each SIAP is specified in the amendatory provisions.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

FOR EXAMINATION

1. FAA rules docket, FAA Headquarters Building, 800 Independence Avenue SW., Washington, D.C. 20591;
2. The FAA regional office of the region in which the affected airport is located; or
3. The Flight Inspection Field Office which originated the SIAP.

FOR PURCHASE

Individual SIAP copies may be obtained from:

1. FAA Public Information Center (APA-430), FAA Headquarters Building, 800 Independence Avenue SW., Washington, D.C. 20591; or
2. The FAA regional office of the region in which the affected airport is located.

BY SUBSCRIPTION

Copies of all SIAPs, mailed once every 2 weeks, may be ordered from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The annual subscription price is $135.00.

FOR FURTHER INFORMATION CONTACT:

William L. Bersch, Flight Procedures and Airspace Branch (AFS-730), Aircraft Programs Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone 202-426-8277.

SUPPLEMENTARY INFORMATION: This amendment to part 97 of the Federal Aviation regulations (14 CFR Part 97) prescribes new, amended, suspended, or revoked standard instrument approach procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR Part 51, and § 97.20 of the Federal Aviation regulations (FARs). The applicable FAA forms are identified as FAA forms 8260-3, 8260-4, and 8260-5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the FEDERAL REGISTER expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form document is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

This amendment to part 97 is effective on the date of publication and contains separate SIAPs which have compliance dates stated as effective dates based on related changes in the National Airspace System or the application of new or revised criteria. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. standard for terminal instrument approach procedures (TERPs). In developing these SIAPs, the TERPs criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs is unnecessary, impracticable, or contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

The principal authors of this document are Rudolph L. Fioretti, Flight Standards Service, and Richard W. Danforth, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me, part 97 of the Federal Aviation regulations (14 CFR Part 97) is amended by establishing, amending, suspending, or revoking standard instrument approach procedures, effective on the dates specified, as follows:

1. By amending § 97.23 VOR-VOR/DME SIAPs indentified as follows:

• • • Effective November 16, 1978:

Eureka, CA—Murray Field, VOR-A, Amdt. 5.
Brunswick, GA—Glynco Jetport, VOR/DME-B, Amdt. 1
Elkhart, IN—Elkhart Municipal, VOR Rwy 27, Amdt. 7
Houma, LA—Houma-Terrebonne, VOR Rwy 12, Original.
Westminster, MD—Westminster, VOR Rwy 34, Original.
Westminster, MD—Westminster, VOR Rwy 36, Amdt. 3, cancelled.
Holland, MI—Tulip City, VOR-A, Amdt. 6.
Goldsboro, NC—Goldsboro-Wayne Muni, VOR-B, Amdt. 1.
Goldsboro, NC—Goldsboro-Wayne Muni, VOR/DME-A, Amdt. 2.
Houston, TX—William P. Hobby, VOR/DME 1 Rwy 31, Amdt. 8.
La Porte, TX—La Porte Muni, VOR-A, Amdt. 8.

• • • Effective November 2, 1978:

Dillingham, AK—Dillingham, VOR Rwy 1, Amdt. 6.
Dillingham, AK—Dillingham, VOR/DME Rwy 19, Amdt. 4.
Fayetteville, AR—Drake Field, VOR/DME-B, Amdt. 2.
Albany, GA—Albany-Dougherty County, VOR Rwy 16 (TAC), Amdt. 22.
Salina, KS—Salina Muni, VOR/DME OR TACAN Rwy 17, Amdt. 11.
Westfield, MA—Barnes Municipal. VOR Rwy 20, Amdt. 17.
Bowling Green, MO—Bowling Green Municipal, VOR/DME-A, Original
Hannibal, MO—Hannibal Muni, VOR/DME-A, Original.
Washington, MO—Washington Memorial, VOR Rwy 16, Original.
Superior, NE—Superior Muni, VOR/DME Rwy 18, Original.
Superior, NE—Superior Muni, VOR/DME Rwy 36, Original.
Albany, NY—Albany County, VOR Rwy 1, Amdt. 15.
Albany, NY—Albany County, VOR Rwy 19, Amdt. 16.
Albany, NY—Albany County, VOR Rwy 28, Amdt. 3
Albany, NY—Albany County, VOR/DME Rwy 1, Amdt. 7
Hermiston, OR—Hermiston Municipal, VOR/DME A, Original.
Smyrna, TN—Smyrna Airport, VOR/DME Rwy 32, Amdt. 6.,
Waco, TX—Waco-Madison Cooper, VOR Rwy 14, Amdt. 18.
Waco, TX—Waco-Madison Cooper, VOR/DME Rwy 32, Amdt. 9.
Charlotte Amalie, St. Thomas, VI—Harry S. Truman, VOR-A, Amdt. 12.
Christiansted, St. Croix, VI—Alexander Hamilton, VOR Rwy 27, Amdt. 15.
Richmond, VA—Richard Evelyn Byrd Int'l, VOR Rwy 2, Amdt. 1.
Richmond, VA—Richard Evelyn Byrd Int'l, VOR Rwy 15, Amdt. 20.
Richmond, VA—Richard Evelyn Byrd Int'l, VOR Rwy 20, Amdt. 3.
Richmond, VA—Richard Evelyn Byrd Int'l, VOR Rwy 24, Amdt. 8.
Richmond, VA—Richard Evelyn Byrd Int'l, VOR Rwy 33, Amdt. 15.
Madison, WI—Dane County Regional/Truax Field, VOR Rwy 13, Amdt. 12.
Madison, WI—Dane County Regional/Truax Field, VOR Rwy 18, Amdt. 12.
Madison, WI—Dane County Regional/Truax Field, VOR Rwy 31, Amdt. 13.

• • • Effective October 19, 1978:

Toccoa, GA—Toccoa, VOR Rwy 20, Amdt. 7.

• • • Effective October 5, 1978:

Marion, IN—Marion Municipal, VOR Rwy 4, Amdt. 6.
Marion, IN—Marion Municipal, VOR Rwy 15, Amdt. 3.
Marion, IN—Marion Municipal, VOR Rwy 22, Amdt. 9.
Charlotte, NC—Douglas Muni, VOR Rwy 5, Amdt. 7.

• • • Effective September 6, 1978:

Alexandria, LA—Esler Regional, VOR Rwy 14, Amdt. 10.
Alexandria, LA—Esler Regional, VOR Rwy 32, Amdt. 11.

2. By amending § 97.25 SDF-LOC-LDA SIAPs identified as follows:

• • • Effective November 16, 1978:

Elkhart, IN—Elkhart Municipal, SDF Rwy 27, Amdt. 1.
Greenville, NC—Pitt-Greenville, SDF Rwy 19, Amdt. 3.

• • • Effective November 2, 1978:

Dillingham, AK—Dillingham, LOC/DME Rwy 19, Amdt. 1.
Albany, GA—Albany-Dougherty County, LOC (BC) Rwy 22, Amdt. 3.
Salina, KS—Salina Muni, LOC/DME BC Rwy 17, Original, cancelled.
Jefferson City, MO—Jefferson City Memorial, SDF Rwy 30, Amdt. 4, cancelled.
Waco, TX—Waco-Madison Cooper, LOC BC Rwy 01, Amdt. 7.
Madison, WI—Dane County Regional/Truax Field, LOC BC Rwy 18, Amdt. 7, cancelled.

• • • Effective September 6, 1978:

Alexandria, LA—Esler Regional, LOC BC Rwy 8, Amdt. 5.

3. By amending § 97.27 NDB/ADF SIAPs identified as follows:

• • • Effective November 16, 1978:

V 43 / 184

Brunswick, GA—Glynco Jetport, NDB Rwy 7, Amdt. 3.
Elkhart, IN—Elkhart Municipal, NDB Rwy 9, Amdt. 5, cancelled
Greenville, NC—Pitt-Greenville, NDB Rwy 19, Amdt. 9.
Washington, NC—Warren Field, NDB-A, Amdt. 1.
Afton, OK—Shangri-La, NDB Rwy 35, Amdt. 1.
Elk City, OK—Elk City Muni, NDB Rwy 17, Amdt. 1.
Pickens, SC—Pickens County, NDB Rwy 4, Amdt. 2.

• • • Effective November 2, 1978:

Albany, GA—Albany-Dougherty County, NDB Rwy 4, Amdt. 7.
Louisville, KY—Standiford Field, NDB Rwy 1, Amdt. 2.
Charlevlox, MI—Charlevoix Municipal, NDB Rwy 8, Amdt. 3.
Charlevlox, MI—Charlevoix Municipal, NDB Rwy 26, Amdt. 3.
Hannibal, MO—Hannibal Muni, NDB Rwy 34, Amdt. 1.
Islip, NY—Long Island MacArthur, NDB Rwy 6, Amdt. 14.

• • • Effective September 6, 1978:

Alexandria, LA—Esler Regional, NDB Rwy 26, Amdt. 4.

NOTE.—The FAA published an amendment in Docket No. 18248, Amdt. No. 1116 to part 97 of the Federal Aviation Regulations (Vol. 43 FR No. 165, page 37684; dated August 24, 1978) under § 97.27. Effective October 5, 1978, which is hereby amended as follows:

Morrilton, AR—Petit Jean Park, NDB Rwy 2, Amdt. 1. Change effective date to November 2, 1978.

4. By amending § 97.29 ILS-MLS SIAPs identified as follows:

• • • Effective November 16, 1978:

Gainesville, FL—Gainesville Regional, ILS Rwy 28, Amdt. 6.
Brunswick, GA—Glynco Jetport, ILS Rwy 7, Amdt. 1.

• • • Effective November 2, 1978:

Ketchikan, AK—Ketchikan International, ILS/DME-1 Rwy 11, Amdt. 2.
Deadhorse, AK—Deadhorse, ILS/DME Rwy 4, Amdt. 3.
Albany, GA—Albany-Dougherty County, ILS Rwy 4, Amdt. 6.
Louisville, KY—Standiford Field, ILS Rwy 1, Amdt. 3.
New Bedford, MA—New Bedford Muni, ILS Rwy 5, Amdt. 14.
Albany, NY—Albany County, ILS Rwy 1, Amdt. 5.
Albany, NY—Albany County, ILS Rwy 19, Amdt. 15.
Islip, NY—Long Island MacArthur, ILS Rwy 6, Amdt.17.
Islip, NY—Long Island MacArthur, ILS Rwy 24, Amdt. 1.
Chattanooga, TN— Lovell Field, ILS Rwy 20, Amdt. 29.
Houston, TX—Houston Intercontinental, ILS Rwy 8, Amdt. 8.
Houston, TX—Houston Intercontinental, ILS Rwy 26, Amdt. 4.
Waco, TX—Waco-Madison Cooper, ILS Rwy 19, Amdt. 10.
Charlotte Amalie, St. Thomas, VI—Harry S. Truman, ILS Rwy 9, Amdt. 2.
Christiansted St. Croix—Alexander Hamilton, ILS Rwy 9, Amdt. 2.
Richmond, VA—Richard Evelyn Byrd Int'l, ILS Rwy 6, Amdt. 20.
Richmond, VA—Richard Evelyn Byrd Int'l, ILS Rwy 15, Amdt. 2.
Richmond, VA—Richard Evelyn Byrd Int'l, ILS Rwy 33, Amdt. 5.
Madison, WI—Dane County Regional/Truax Field, ILS Rwy 18, Original.
Madison, WI—Dane County Regional/Truax Field, ILS Rwy 36, Amdt. 21.

• • • Effective September 6, 1978:

Alexandria, LA—Esler Regional, ILS Rwy 26, Amdt. 8.

• • • Effective September 5, 1978:

San Francisco, CA—San Francisco Int'l, ILS Rwy 19L, Amdt. 14.

5. By amending § 97.31 RADAR SIAPs identified as follows:

• • • Effective November 2, 1978:

Anchorage, AK—Anchorage International, RADAR-1, Amdt. 7.
Albany, NY—Albany County, RADAR-1, Amdt. 11.
Madison, WI—Dane County Regional/Truax Field, RADAR-1 Amdt. 6.

6. By amending § 97.33 RNAV SIAPs identified as follows:

• • • Effective November 16, 1978:

Eureka, CA—Murray Field, RNAV Rwy 11, Amdt. 4.25 Holland, MI—Tulip City, RNAV Rwy 26, Amdt. 1.

• • • Effective November 2, 1978:

San Juan, PR—Puerto Rico International, RNAV Rwy 10, Amdt. 6.
Richmond, VA—Richard Evelyn Byrd Int'l, RNAV Rwy 20, Amdt. 2.

(Secs. 307, 313(a), 601, and 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348, 1354(a), 1421, and 1510); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); Delegation: 25 FR 6489 and paragraph 802 of order FS P1100.1, as amended March 9, 1973.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on September 15, 1978.

JAMES M. VINES,
Chief,
Aircraft Programs Division.

NOTE.—The incorporation by reference in the preceding document was approved by the Director of the Federal Register on May 12, 1969.

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER-1075; Amdt. No. 16, Docket 31861]

PART 207—CHARTER TRIPS AND SPECIAL SERVICES

Off-Route Charter Rules

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., September 15, 1978.

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: The Board amends the off-route charter rules to remove all restrictions on cargo charters by all-cargo carriers, raise the volume limits for other charters by scheduled carriers to 10 percent of their base revenue mileage, and to liberalize the frequency restrictions for those charters. The changes are designed to increase the availability of charter aircraft and remove restraints on competition.

DATES: Effective—October 20, 1978. Adopted—September 13, 1978.

FOR FURTHER INFORMATION CONTACT:

Richard B. Dyson, Civil Aeronautics Board, Office of the General Counsel, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202-673-5444.

SUPPLEMENTARY INFORMATION:

EARLIER ISSUANCES

Earlier substantive issuances in this proceeding were as follows:

EDR-307, 41 FR 45021, October 14, 1976: Proposal to amend in various ways the off-route charter rules contained in 14 CFR Part 207, in response to petitions for rulemaking by the Board's Office of the Consumer Advocate, certian local service carriers, Pan American World Airways, Trans International Airlines, National Air Carriers Association, and National Airlines.

ER-1030, 42 FR 61251, December 2, 1977: Issued on the basis of EDR-307. It raised the volume limits for combination carriers to 5 percent of the first 50 million, plus 2.5 percent of the remaining, base revenue plane-miles; raised volume limits for all-cargo carriers to 10 percent of base revenue plane-miles; eliminated domestic frequency and regularity restrictions; and eliminated international regularity restrictions.[1]

EDR-342, 42 FR 64704, December 28, 1977: Proposed, on the basis of comments and other developments, changes differing somewhat from those proposed in EDR-307. The present action is based on that notice.

THE PROPOSAL

The amendments proposed in EDR-342 are as follows:

1. Combination carriers would have a higher volume restriction for passenger off-route charters. Alternative limits were proposed: (a) 10 percent of their first 50 million base revenue plane-miles, plus 5 percent of the remainder, or (b) 10 percent of all base revenue plane-miles. It was also proposed that they be allowed at their option to compute their base on the basis of sea-miles instead of plane-miles, with the first step in alternative (a) being 14 billion seat-miles. Now, under the amendment in ER-1030, the limits are 5 percent of the first 50 million, plus 2.5 percent of the remaining, base revenue plane-miles.

2. The international frequency restrictions for combination carriers' off-route passenger and cargo charters, and for all-cargo carriers' passenger charters, would be relaxed. They would be: (a) Unlimited to countries where the carrier has scheduled authority to at least one point, and (b) otherwise limited to not more than eight flights in one direction in any 4 successive weeks between any single pair of points. At present there are special provisions for off-route "transatlantic" and "transpacific" charters, as those terms are defined: All off-route "transatlantic" and "transpacific" flights (except points in a country where the combination carrier has some certificated authority) are treated as if between the same points, i.e., they can have only eight transatlantic and eight transpacific flights in either direction during any 4 successive weeks: These special provisions and definitions would be deleted. To countries to which the carrier is now certificated to at least one point, the current rules allow eight flights per four successive weeks between any pair of points.

3. All rules restricting international off-route cargo charters by all-cargo carriers would be removed. Under the new section 418 of the Act, added by Pub. L. 95-163, they are no longer subject to any restrictions in domestic cargo operations. These carriers are at present limited by our rules to 10 percent of their base revenue plane-miles for international off-route cargo or passenger charters, except in their "areas of operations." That term would no longer have significance and would be eliminated.

4. Alternative limits were proposed for all-cargo carriers' passenger charter operations: (a) 10 percent of their first 50 million base revenue plane-miles, plus 5 percent of the remainder, or (b) 10 percent of all base revenue plane-miles.

COMMENTS

Comments were received from Pan American World Airways, Trans World Airlines (TWA), United Air Lines, American Airlines, Delta Air Lines, Southern Airways, North Central Airlines, Ozark Air Lines, Seaboard World Airlines, Airlift International, Flying Tiger Line, Evergreen International Airlines, National Air Carrier Association (NACA), and the Las Vegas Parties.

The proposal was supported in its entirety by United, Southern, North Central, Ozark, Airlift, Flying Tiger, and the Las Vegas Parties. In addition, the part of the proposal relating to passenger charters was supported by TWA and American. United pointed out that charters have stimulated innovative price offerings on scheduled service that have substantially increased traffic, but that the off-route charter restrictions have often caused the regulations, rather than price and service offerings, to dictate the selection of a carrier. It suggested that restrictions have generally been removed from the operations of the supplemental carriers, and that there was no reason why comparable restrictions should be maintained on the scheduled carriers. The local service carriers cited the large increases in their off-route charter traffic, and pointed out that with their smaller planes they did not compete directly with the supplementals.

The proposals for passenger charters were opposed by Pan American (in part), Delta, and NACA. The first two opposed the relaxing of the international frequency restrictions on the ground that increased charter traffic would be injurious to scheduled service. Pan American also argued that it would cause foreign governments to demand reciprocal charter rights or new scheduled authority. Delta suggested that the Board should pause to evaluate the impact of the new public charter rule (SPR-149, 43 FR 36604, Aug. 18, 1978) before undertaking any new rulemaking on charters.

NACA contended that the relaxation of the off-route charter restrictions would allow the scheduled carriers to mount "year-long back-to-back" programs in the international markets, "substantially destroying the last remaining charter market in which the supplementals have a competitive market position." They contended that the scheduled carriers' large advertising budgets, name recognition, and ability to subsidize charter operations from scheduled-service revenues gave them overwhelming advantages over the supplementals. NACA presented data showing the movement of market shares over the last decade, to indicate that the supplementals' share has been declining relative to that of the scheduled carriers. They also computed the increases that could be made in the scheduled carrier's charter operations if they all used all or a substantial part of the additional mileage that would be allowed to them under the proposed rules. NACA argued that the proposal was illegal in that it amounted to granting supplemental certificates to the route carriers, and that formal procedures were legally required to create a detailed factual record on which to base Board action.

The cargo charter proposals were opposed by Pan American, Delta, and Seaboard on the ground that they would divert traffic from scheduled service. Seaboard pointed out its investment in specialized facilities that could be practically used only for scheduled service, and the large amount of competition that it already encounters in the transatlantic market. Pan American argued that the change would cause the freight forwarders who control the bulk of international traffic to use charters more extensively, to the detriment of scheduled service, but that they would not lower their prices. Pan American, TWA, and American also argued that granting unlimited cargo charter service only to the all-cargo carriers discriminated unfairly against them; TWA and American suggested giving unlimited authority to the combination carriers as well.

Evergreen, a supplemental carrier limited to North America, commented that it was unfair for the Board to grant greater authority to scheduled carriers when it had not yet acted on its application for worldwide authority. The Board recently, however, issued an order to show cause (78-8-163, dated Aug. 29, 1978) why Evergreen should not be granted the authority it requested.

GENERAL CONSIDERATIONS

Most of the arguments in the comments opposing these proposals were essentially that by easing or removing

[1] The rules adopted by ER-1030 have been in effect since November 22, 1977, but they are under judicial review. *NACA* v. *CAB*, —— F. 2d —— (D.C. Cir., No. 77-2122).

SEP 21 1978

the restrictions on certain parts of the air transportation industry (in this case the combination and all-cargo carriers), other parts will suffer from increased competition. The Board agrees that the effect on various parts of the industry of changing the rules for one portion of it is a relevant consideration. It is important to recognize, however, that the liberalization of the off-route charter rules is not an isolated action. It is part of a much broader series of Board actions designed to free the air transportation industry from unnecessary regulatory constraints and allow competitive forces to be the primary factor in management decisions. An important element of a more competitive regime, and of the more efficient use of resources that it should foster, is the lowering of the structural barriers between different parts of the industry. Often the most important source of candidates for new entry, a vital part of a fully competitive system is a different part of the same industry that has been performing somewhat similar functions. Indeed, the urge to compete in different fields is reflected in many of the comments to this rulemaking: Some of the combination carriers are seeking broader authority to carry cargo as well as passengers; the all-cargo carriers are asking for broader authority to carry passenger charters; and the supplementals have applied for certificates to carry passengers on scheduled routes. With greater freedom of individual air carriers to compete for different types of business, and less artificial segmentation into specialist-type operations, it is to be expected that there will be shifts of market share between the erstwhile segments. More business for the more efficient is the expected result in a less restricted, more competitive system.

The important question for the Board in attempting to foster a more competitive environment will not, then, be whether removing a regulatory restraint will cause some shift in market share. It will rather be whether the public interest is adequately protected. More specifically: Will the services that the public wants be available at the lowest possible prices? Will the different parts of the industry be sufficiently viable to offer specialist services and a wide range of service options to the extent they are needed, and to provide a source of new entries and a competitive spur to the larger and more established businesses? and, Will individual members of the public be protected against loss where they cannot reasonably be expected to protect themselves?

We also point out that the Board has recently taken several steps that tend to remove barriers from different segments of the industry, and broaden the areas in which the supplemental carriers can operate. By SPR-149, adopted August 14, 1978 (43 FR 36604, Aug. 18, 1978), the Board created the public charter, simplifying and reducing the restrictions on charter flights. Two supplemental carriers, World Airways and Capitol International Airways, have been granted exemptions to provide scheduled passenger service between the United States and the Benelux countries (order 78-9-2, dated Sept. 1, 1978). Also, the initial decision, dated August 23, 1978, in the *Transcontinental Low Fare Route Proceeding*, docket 30356, granted World Airways its longstanding request for authority to provide transcontinental low fare passenger service. The Board has set a target date of November 22, 1978, for final decision on review in that case. Finally, at its public meeting of September 7, 1978, the Board granted World Airways and two other carriers an exemption to provide scheduled passenger service to Guam and Hong Kong in the *Transpacific Low Fare Route Case* (order 78-9-33, docket 33068).

Passenger Charters

The most elaborate and detailed arguments against the proposed changes were made by NACA, representing supplemental carriers, who, unlike other parts of the industry, receive no benefit to offset any losses of business resulting from liberalization of the off-route charter rules. Turning first to their arguments based on recent changes in market shares, it is undisputed that the scheduled carriers' rate of increase in passenger charter traffic has been greater than the supplementals'. For example, in the 9 years from 1968 to 1977, the total number of charter passengers carried annually by the supplementals increased 88.4 percent (from 1.18 million to 2.23 million), while the number carried by the scheduled carriers increased by 464 percent (0.81 million to 4.59 million).[2] NACA also noted that the number of supplementals has declined during that period. We do not find these data persuasive, however, of the need to maintain stringent restrictions on the scheduled carriers' charter activities. The attrition among the supplementals has taken place during a period when their total passenger traffic has been increasing at an average compounded rate of over 7 percent per year, so it does not appear that loss of traffic to scheduled carriers is a primary cause of the decline in their numbers.

Furthermore, the relative percentage increases in charter traffic between the supplementals and the scheduled carriers can be misleading because of the enormous differences in size between the two segments of the industry. The scheduled carriers have some 98 percent of the commercial jet fleet, and the supplementals 2 percent. At a time when the total charter market was more than tripling (from 2 million in 1968 to 6.8 million in 1977), it is not surprising that the scheduled carriers could more easily allocate new aircraft and associated resources, and absorb a larger part of the increase. This is not to deny that if their competition were more tightly restricted, the supplementals as a group might have expanded faster. But it is not a function of the Board to maintain the market share of each portion of the air transportation industry, nor can we assume that a given number of supplementals carriers is "right" from the standpoint of economics or the public interest.[3] The supplementals' claim on this point was that the scheduled carriers were squeezing them out of the charter market altogether, so that they would no longer be an effective competitive force. We conclude that their data do not support that claim.

A substantial part of the NACA comment was devoted to calculating the percentage and absolute increase in charter activities of the scheduled carriers that would be allowed if the proposed liberalizations were effected, and then comparing those authorizations with the present activities of the supplemental carriers. This line of argument is logically flawed and unpersuasive. The obvious "apples and oranges" problem is more than just formal: The supplementals' authorization to fly charters is unlimited, and the scheduled carriers' future charter activity is unknown. For the argument to be valid, it would have to be shown that the off-route charter rules are the only effective limit on scheduled carriers' charter operations, but no evidence has been presented to support that premise. It should be remembered that scheduled carriers are totally unrestricted in flying on-route charters; thus at least one U.S. scheduled carrier has unlimited charter authority in every significant market. Yet in the lucrative transatlantic markets, to which the supplementals have recently devoted most of their attention, they have proved to be highly effective competitors, capturing 62 percent of the U.S.-flag charter market in 1977.[4]

The board also rejects the arguments by Pan American and Delta that liberalization of the off-route passenger charter rules will cause undue diversion from scheduled service. Again, a necessary premise of this argument is that the off-route charter rules are a significant restraint on total charter volume. This premise appears very doubtful, however, in light of the fact that in all significant charter markets unlimited charter authority is held by U.S. supplementals, at least one U.S. scheduled carrier (and in the largest markets, two or more), and, in the international markets, one or more foreign scheduled and supplemental carriers. In any event, it is the Board's policy, as described above, to allow the marketplace as much freedom as possible to allocate traffic between industry segments and types of travel. There is certainly no danger at present of scheduled service ceasing to be a viable competitive force. The overwhelming majority of travelers still use scheduled service, and the scheduled carriers have in the last year dramatically demonstrated their ability to innovate with low-fare offerings that attract travelers who might otherwise use charters.

Pan American argued further that loosening the off-route charter restrictions would cause foreign-flag carriers to demand concessions such as new routes in return, thus "undermining the economic strength" of the U.S.-flag carriers. This argument is highly speculative at best. Whether or not such demands materalize, the Board does not consider it wise policy to place or maintain general restrictions on all U.S. carriers because of positions that may be adopted by some foreign governments. It therefore finds this argument without merit.

NACA contended that the proposed liberalization of off-route charter rules would be a violation of the Federal Aviation Act, in that it would be the equivalent of granting a supplemental certificate to scheduled carriers, while section 401(d)(3) of the Act, 49 U.S.C. 1271(d)(3), states that the Board "may issue a [supplemental] certificate, to any applicant not holding a certificate under paragraph (1) or (2) * * *".

It is our opinion that NACA's interpretation of the statutory scheme is incorrect. It has not been asserted that the Board directly violated the Act. No scheduled carrier is being granted a supplemental certificate. NACA's argument is rather based on a series of tenuous inferences: (1) That in authorizing the Board to issue a supplemental certificate to "any applicant not holding" a scheduled certificate, Congress was stating not just a formal rule, but a positive prohibition to be read broadly beyond its literal wording; (2) that section 401(d)(3) implies limitations on what scheduled carriers can do under their 401(d)(1) certificates; (3) that these limitations are somehow imported into the Board's off-route charter rules; and (4) that the relaxation of the off-route charter rules that is the subject of this proceeding transgresses those limitations.

We agree with none of those inferences. We find no evidence that Congress intended any specific limits on the activities of scheduled carriers in excluding them from the class of applicants for supplemental certificates. In section 401(e)(6), 49 U.S.C. 1371(e)(6), Congress specifically provided that:

> Any air carrier, other than a supplemental air carrier, may perform charter trips (including inclusive tour charter trips) or any other special service, without regard to the points named in its certificate, or the type of service provided therein, under regulations prescribed by the Board.

Thus, off-route charters by scheduled carriers were specifically authorized, with the Board left to determine by regulation what limitations should be imposed. In light of this paragraph of the statute, the purpose of not allowing scheduled carriers to hold supplemental certificates seems clear. Congress in section 401(e)(6) made a permissive grant of authority to the Board to limit the off-route charter activities of the scheduled carriers; and that authorization would have been meaningless if the scheduled carriers had been free to obtain supplemental certificates allowing them to fly charters without limitation. But there is no reasonable basis on which to infer that the statute dictates what the Board's limiting regulations should say. The Board's policy in this regard has indeed changed over the years, in light of the changing circumstances of the regulated industry and the Board's own judgment of what best meets the public need. That is exactly what Congress intends when it leaves an area of decision to an administrative agency, as it did here.

Cargo Charters

The main argument against removing the limitations on cargo charters by the all-cargo carriers amounted to the complaint that they would encroach upon commercial preserves that are at present at least partly protected. It was presented by Pan American, a combination carrier, by NACA, representing the supplementals, and by Seaboard, an all-cargo carrier. For reasons set forth above, we find this line of argument to be of little weight. It may well be, as Pan American and Seaboard asserted, that scheduled cargo service offers unique efficiencies, but if so, that efficiency should enable scheduled service to hold its own against charter competition. It is always possible for a portion of an industry to point to valuable services that it is currently providing, and to predict that they will be lost if exposed to the threat of greater competition. In that sense opening up the field to wider competition always involves exchanging the known for the unknown. That does not affect the Board's opinion that freer competition is the best way to ensure the combination of price and service that best serves the public. It is especially true in the cargo field, where the users tend to be commercially sophisticated and therefore need less governmental protection, guidance, and preservation of options than do individual travelers.

We also reject NACA's argument that the supplementals' opportunities in the international cargo market would be eliminated by this change, or that other carriers should be restricted to protect those opportunities. It was not shown that the supplementals' viability depends on the cargo market, and under the principles already set forth we do not find it in the public interest to give them a protected market here.

A somewhat different point was raised by Pan American, TWA, and American: That allowing unrestricted cargo charters by all-cargo carriers would discriminate against the combination carriers. TWA and American argued that the change should not be made unless they were given similarly unrestricted authority. One possibility mentioned by American was to use the new section 418 of the Act, rather than section 401, to define the subject class of all-cargo carriers, which would eventually bring into it virtually all certificated carriers. This suggestion was not previously presented to the Board and therefore could not be acted on at this time, but it, along with several others made in the comments for further liberalization, will be given serious consideration for future rulemaking. The Board does not agree, however, that the discrimination that may exist in the proposal before us here is a reason not to proceed with it. At this point the rights of carriers are far from homogeneous. The rights of combination carriers such as TWA and American with re-

[2] NACA comment, appendix G, using data from CAB forms 41, Scheduled T-6, and forms 217. The domestic charter traffic aboard the supplementals has remained relatively static, declining 10 percent to 1977. If only the international traffic is considered, however, the supplementals have fared relatively much better: they tripled their traffic (0.56 million to 1.67 million) while the scheduled carriers were making approximately a fivefold increase (0.31 million to 1.63 million).

[3] The Board has recently instituted a case to process several new applications for supplemental certificates.

[4] The figures for 1978 are heavily affected by the scheduled carriers' move to deeply discounted fares, but they certainly do not support the argument for restrictions on the route carriers' charter activities. In the transatlantic market, during the first 6 months of 1978, the route carriers carried 255,000 charter passengers, while the supplementals carried 404,000, or 61 percent of the total.

By the Civil Aeronautics Board

ment of Commerce, Washington

spect to cargo carriage, as compared to the all-cargo carriers, should not be considered in isolation from the fact that they have vastly greater rights in the passenger field, along with the greater financial resources and public familiarity that have flowed from them. They are, in fact, the chief beneficiaries of the present rulemaking. In short, the position that whenever the Board removes restrictions for one class of carriers it must do the same for all is not logically valid.

PROCEDURAL OBJECTION

The Board also rejects the arguments by NACA and Delta that the changes proposed in the off-route charter rules must be made by a formal hearing process, rather than normal rulemaking procedures. As quoted above, section 401(e)(6) specifies that this area should be governed by "regulations prescribed by the Board." There is not the slightest doubt that the notice-and-comment procedures of 5 U.S.C. 53 are the ones prescribed by the Administrative Procedure Act for a regulatory action of this type. The Board has in fact gone well beyond the requirements of that section in this proceeding. The original proposal was EDR-307, 41 FR 45021, issued October 14, 1976. In response to a request by NACA, the Board held an informal hearing, not required by statute, on August 4, 1977, at which all interested parties were permitted to air their views before the Board Members. It issued ER-1030 on November 22, 1977, 42 FR 61251, making some of the proposed amendments to the rules. Because some of the changes that appeared advisable on the basis of the comments differed from those proposed in EDR-307, however, the Board issued a second notice of proposed rulemaking (EDR-342) to focus on these changes, on December 21, 1977, 42 FR 64704. At the request of NACA the comment period for that proposal, originally 60 days, was extended another 30 days (EDR-342A, Feb. 10, 1978, 43 FR 6621). The procedures used in this matter have thus allowed ample opportunity for all sides to express their views.

The Board often uses formal adjudicative hearings and compiles detailed factual records in adversary proceedings. Such a hearing is not called for in this proceeding, however. As described in this issuance, these amendments are the result of the application of a broad policy of minimizing the regulatory restraints on all parts of the air transportation industry, to the extent consistent with maintaining competition, service, and basic public protection. Actually the factual data cited and used in this action are contained in NACA's own comment. It is true that there are unknowns in the picture with respect to the future: The ultimate effect of this action on the supplemental industry, and the responses of the scheduled carriers, among others, to changes in the regulatory climate, to name two cited by NACA. But future events are not determinable facts in any meaningful sense. Formal adversary hearings, expensive and time consuming as they are, have not proved to be an advance in the state of the art of prediction. They are particularly unhelpful where, as here, the relevant outcomes will be heavily influenced by other regulatory actions outside the scope of the hearing, collateral events that have not yet occurred, and decisions not yet made. But it does not follow that we must therefore adhere to the regulatory status quo despite our considered judgment that the public interest calls for new policies. That we cannot with confidence predict the future is one of the strongest arguments against tight regulatory control, and one of our main reasons for relying on the self-regulatory forces of competition to make the adjustments needed as the times change.

SUGGESTIONS FOR FURTHER CHANGES

The comments contained several suggestions for further changes in the Board's regulations that were outside the scope of the proposal, and therefore ineligible for action here. Flying Tiger argued that the 10-percent limit on passenger charters by all-cargo carriers was anomalous, and suggested that since the peak seasons for cargo and passenger traffic are different, those carriers would be a source of very low-price passenger charters if their volume limits were removed. Seaboard asked that the Board remove the restriction to property and mail on the all-cargo carriers' routes, to allow them to carry "combination passenger/cargo service," which would allow them to provide "low cost/low-fare scheduled passenger service." American and TWA suggested allowing the combination carriers the same unrestricted authority to operate off-route cargo charters as is being granted the all-cargo carriers. Ozark argued that the volume limitations on passenger charters should be removed altogether. Pan American suggested, as a restrictive measure, that the definition of "point" should be changed to include a 250-mile, rather than a 50-mile, radius. Failure to act on these suggestions does not indicate disapproval, and they will be given serious consideration as candidates for further action.

THE AMENDMENTS

The Board has decided, on the basis of the foregoing considerations, to make the amendments proposed in the off-route charter rules. With respect to the volume limitations, several commenters argued for the more liberal alterative of 10 percent of base revenue plane-miles, while none suggested any special reasons other than general opposition to relaxation of the rules for choosing the lower, stepped limit. Admittedly the choice of a figure must be somewhat arbitrary. The lower figure could evidently be restrictive in the fairly near future of larger carriers, especially Pan Amercian, which argued for the higher one. Absent a convincing argument for the lower figure, and in line with our policy of removing restraints where there are no sufficient countervailing considerations, we will adopt the flat 10-percent limitation. It will apply to both the combination carriers' off-route charters (cargo and passenger charters considered together) and the all-cargo carriers' passenger charters.

No objections were received to the proposal to allow seat miles as an optional method of computation for passenger charters, so that proposal is also adopted. The remainder of the proposal is adopted as set forth at the beginning of this discussion.

Under the November 9, 1977, amendments of the Federal Aviation Act (Pub. L. 95-163), carriers may obtain certificates for all-cargo air service enabling them to perform such service without restriction within the 50 States, Puerto Rico, and the Virgin Islands. To reflect this amendment and include section 418 service among the authorized types of charters, the definition of "on-route" in part 207 is amended by inserting the phrase "certificate for all-cargo air service."

ISSUANCE OF AMENDMENT

In light of the foregoing, the Board hereby makes the following amendments, effective October 20, 1978, to 14 CFR Part 207, Charter Trips and Special Services:

1. In § 207.1, Definitions, the definitions of "Hawaiian charter trip," "transatlantic charter trip," and "transpacific charter trip" are deleted.

2. In § 207.1, Definitions, a new definition of "base revenue seat-miles" is added in proper alphabetical sequence, and the definition of "on-route" is amended, as follows:

§ 207.1 Definitions.

As used in this part, unless the context otherwise requires: • • •

• • • • • •

"Base revenue seat-mile" means the total available revenue seat-miles on flights operated by an air carrier in scheduled services, extra sections, and on-route charter trips or special services.

• • • • • •

"On-route" shall refer to service performed by an air carrier between points between which said carrier is authorized to provide service pursuant to its certificate of public convenience and necessity, certificate for all-cargo air service, or exemption authority:* * * *Provided.*

• • • • • •

3. § 207.5 is amended to read as follows:

§ 207.5 Limitation on amount of charter trips which may be performed by combination carriers.

A combination carrier shall during any calendar year limit the aggregate of its off-route charter trips, at its option, to either 10 percent of the base revenue plane-miles, or 10 percent of the base revenue seat-miles, flown by it during the preceding calendar year.

4. § 207.6 is amended to read as follows:

§ 207.6 All-cargo carriers: Limitation on amount of charter trips which may be performed.

(a) Notwithstanding any other provisions of this part, there are no restrictions on the volume, frequency, or regularity of off-route cargo charters flown by all-cargo carriers.

(b) An all-cargo carrier shall not during any calendar year perform passenger charters that in the aggregate exceed 10 percent of the base revenue plane-miles flown by it during the preceding calendar year.

5. § 207.7a is amended to read as follows:

§ 207.7a Restriction on frequency of off-route charter trips and other special services in foreign air transportation.

(a) An air carrier certificated to perform scheduled service to any point in a foreign country may perform off-route charter trips or other special services without limitation as to frequency between any point in the United States and any point in that foreign country.

(b) Except as provided in paragraph (a) of this section, an air carrier shall not perform more than eight off-route charter trips or special services in any one direction during any 4 successive calendar weeks between any single pair of points, one of which is in the United States and the other in a foreign country.

(Sec. 204, 401, 418, Federal Aviation Act of 1958, as amended, 72 Stat. 743, 754, 91 Stat. 1278. 49 U.S.C. 1326, 1371, 1388.)

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

Title 15—Commerce and Foreign Trade

CHAPTER III—INDUSTRY AND TRADE ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 399—COMMODITY CONTROL LIST AND RELATED MATTERS

Revision of Validated License Control on Exports of Sporting Shotguns

AGENCY: Office of Export Administration, Bureau of Trade Regulation, U.S. Department of Commerce.

ACTION: Final rule.

SUMMARY: On June 23, 1978, validated license control over commodities particularly useful in crime control and detection was extended to cover shipments of these commodities to all destinations except Australia, Belgium, Canada, Denmark, France, the Federal Republic of Germany (including West Berlin), Greece, Iceland, Italy, Japan, Luxembourg, The Netherlands, New Zealand, Norway, Portugal, Turkey, and the United Kingdom. Previously, these controls were applicable only to the USSR, East European communist countries (except Yugoslavia), the People's Republic of China, the Republic of South Africa, and Namibia. Included in the list of commodities to which this revision applied was CCL entry No. 5998B, "Nonmilitary shotguns, barrel length 18 inches or over; and nonmilitary arms, discharge type (for example, stunguns, shock batons, etc.), except arms designed solely for signal, flare, or saluting use; and parts, n.e.s." The Department of Commerce, with the concurrence of the Department of State, has now determined that it is not necessary to control the export of sporting shotguns to most destinations for foreign policy reasons, unless they are for consignment or resale to police or law enforcement agencies. Sporting shotguns are defined as shotguns with a barrel length of 24 inches or more. This revision amends CCL entry No. 5998B to reflect this determination.

EFFECTIVE DATE OF ACTION: September 18, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, U.S. Department of Commerce, Washington, D.C. 20230, 202-377-4196.

Accordingly, the Commodity Control List, incorporated by reference at 15 CFR 399.1, is amended to revise the footnote to entry No. 5998B to read as follows: A validated license is not required for export of these commodities to Australia, Belgium, Denmark, France, the Federal Republic of Germany (including West Berlin), Greece, Iceland, Italy, Japan, Luxembourg, The Netherlands, New Zealand, Norway, Portugal, Turkey, and the United Kingdom. Also, a validated license is not required for export of shotguns with barrel length 24 inches or over, and parts, n.e.s., to other destinations in Country Groups T and V, except the Republic of South Africa, Namibia, Botswana, Lesotho, and Swaziland, if for consignment or resale to other than police or law enforcement agencies.

(Sec. 4 Pub. L. 91-184, 83 Stat. 842 (50 U.S.C. App. 2403), as amended; E.O. 12002, 42 FR 35623 (1977); Department Organization Order 10-3, dated December 4, 1977, 42 FR 64721 (1977); and Industry and Trade Administration Organization and Function Order 45-1, dated December 4, 1977, 42 FR 64716 (1977).)

Dated: September 18, 1978.

RAUER H. MEYER,
Acting Deputy Assistant Secretary for Trade Regulation.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

PART 14—ADMINISTRATIVE INTERPRETATIONS, GENERAL POLICY STATEMENTS, AND ENFORCEMENT POLICY STATEMENTS

Secret Coding in Marketing Research

AGENCY: Federal Trade Commission.

ACTION: Enforcement policy statement.

SUMMARY: The Commission is stating its intention to take appropriate enforcement action against those who use secret coding in marketing research, should it discover the practice to be continuing in the future, and in the event that it may be causing substantial consumer injury. This statement is intended to provide guidance to the marketing research industry.

EFFECTIVE DATE: September 21, 1978.

FOR FURTHER INFORMATION CONTACT:

Robert L. Barton, Jr., Attorney, Division of Advertising Practices,

Bureau of Consumer Protection, Federal Trade Commission, Washington, D.C. 20580, 202-724-1499.

SUPPLEMENTARY INFORMATION: The Commission hereby amends part 14 of title 16, chapter I, of the Code of Federal Regulations by adding new § 14.12 to read as follows:

§ 14.12 Use of secret coding in marketing research.

(a) The Federal Trade Commission has determined to close its industry-wide investigation of marketing research firms that was initiated in November 1975, to determine if the firms were using questionnaires with invisible coding that could be used to reveal a survey respondent's identity. After a thorough investigation, the Commission has determined that invisible coding has been used by the marketing research industry, but it is neither a commonly used nor widespread practice. Moreover, use of the practice appears to have diminished in recent years. For these reasons, the Commission has determined that further action is not warranted at this time.

(b) However, for the purpose of providing guidance to the marketing research industry, the Commission is issuing the following statement with regard to its future enforcement intentions. The Commission has reason to believe that it is an unfair or deceptive act or practice, violative of section 5 of the Federal Trade Commission Act (15 U.S.C. 45) to induce consumers to provide information about themselves by expressly or implicitly promising that such information is being provided anonymously, when, in fact, a secret or invisible code is used on the survey form or return envelope that allows identification of the consumer who has provided the information.

(c) While the Commission has made no final determination regarding the legality of the foregoing practice, the Commission will take appropriate enforcement action should it discover the practice to be continuing in the future, and in the event that it may be causing substantial consumer injury. Among the circumstances in which the Commission believes that the use of secret coding may cause significant consumer harm are those in which: (1) A misleading promise of anonymity is used to obtain highly sensitive information about a consumer that such consumer would not choose to disclose if he or she were informed that a code was being used that would allow his or her name to be associated with the response; and (2) information of any sort is used for purposes other than those of the market survey.

(Sec. 6, 38 Stat. 721 (15 U.S.C. 46); 80 Stat. 383, as amended (5 U.S.C. 552).)

By direction of the Commission, dated September 12, 1978.

CAROL M. THOMAS,
Secretary.

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER B—PAYMENT PROCEDURES

PART 190—INCENTIVE PAYMENTS FOR CONTROLLING OUTDOOR ADVERTISING ON THE INTERSTATE SYSTEM

Revision

AGENCY: Federal Highway Administration, DOT.

ACTION: Final rule.

SUMMARY: This document constitutes a revision of the regulation on incentive payments for controlling outdoor advertising on the Interstate System. The revision is a consolidation and simplification of the existing regulations. There are no substantive changes contained in the revision.

EFFECTIVE DATE: September 6, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. James V. Daughtry, Chief, Accounting Policy and Procedures Branch, 202-426-0515; or Mr. Durward E. Timmons, Jr., Office of the Chief Counsel, 202-426-0800, Federal Highway Administration. Office hours are from 7:45 a.m. to 4:15 p.m., e.s.t., Monday through Friday.

SUPPLEMENTARY INFORMATION: Existing regulations appear as part 190 of Chapter I, Title 23, Code of Federal Regulations, and codify material contained in volume 1, chapter 4, section 7 of the Federal-Aid Highway Program Manual.[1]

This revision is made in accordance with the philosophy and criteria recommended by the Federal Highway Administration (FHWA) Regulations Reduction Task Force. Reduction and simplification of the existing regulations was achieved.

NOTE.—The Federal Highway Administration has determined that this document does not contain a significant proposal according to the criteria established by the Department of Transportation pursuant to E.O. 12044.

This rule is issued under the authority of 23 U.S.C. 131(j) and 315, and the delegation of authority by the Secretary at 49 CFR 1.48(b).

Issued on: September 6, 1978.

KARL S. BOWERS,
Federal Highway Administrator.

In consideration of the foregoing, chapter I of Title 23, Code of Federal Regulations is amended by revising part 190 to read as follows:

Sec.
190.1 Purpose.
190.3 Agreement to control advertising.
190.5 Bonus project claims.
190.7 Processing of claims.

AUTHORITY: 23 U.S.C. 131(j) and 315; 49 CFR 1.48(b).

§ 190.1 Purpose.

The purpose of this regulation is to prescribe project procedures for making the incentive payments authorized by 23 U.S.C. § 131(j).

§ 190.3 Agreement to control advertising.

To qualify for the bonus payment, a State must have entered into an agreement with the Secretary to control outdoor advertising. It must fulfill, and must continue to fulfill its obligations under such agreement consistent with 23 CFR 750.101.

§ 190.5 Bonus project claims.

(a) The State may claim payment by submitting a form PR-20 voucher, supported by strip maps which identify advertising control limits and areas excluded from the claim and form FHWA-1175, for the one-half percent bonus claim.

(b) The bonus payment computation is based on projects or portions thereof for which (1) the section of highway on which the project is located has been opened to traffic, and (2) final payment has been made. A bonus project may cover an individual project, a part thereof, or a combination of projects, on a section of an Interstate route.

(c) The eligible system mileage to be shown for a bonus project is that on which advertising controls are in effect. The eligible system mileage reported in subsequent projects on the same Interstate route section should cover only the additional system mileage not previously reported. Eligible project cost is the total participating cost (State and Federal share of approved preliminary engineering (PE), right-of-way (R-O-W), and construction) exclusive of any ineligible costs.

[1]The Federal-Aid Highway Program Manual is available for inspection and copying as prescribed in 49 CFR Part 7, Appendix D.

The amount of the bonus payment is to be based on the eligible total costs of the supporting projects included in each claim.

(d) Progress vouchers for route sections on which additional one-half percent bonus payments are to be claimed are to be so identified, and the final claim for each route section is to be identified as the final voucher.

§ 190.7 Processing of claims.

Audited and approved PR-20 vouchers with form FHWA-1175 shall be forwarded to the regional office for submission to the Finance Division, Washington Headquarters, for payment. The associated strip maps shall be retained with the division office copies of the PR-20 vouchers.

[FR Doc. 78-26508 Filed 9-20-78; 8:45 am]

[4210-01]

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI- 4501]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Suspension of Community Eligibility

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: This rule lists communities where the sale of flood insurance, as authorized under the National Flood Insurance Program (NFIP), will be suspended because of noncompliance with the flood plain management requirements of the program.

EFFECTIVE DATES: The third date ("Susp.") listed in the fourth column.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270,451 Seventh Street SW., Washington, D.C. 204100. 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP), administered by the Federal Insurance Administration, enables property owners to purchase flood insurance at rates made reasonable through a Federal subsidy. In return, communities agree to adopt and administer local flood plain management measures aimed at protecting lives and new construction from future flooding. Section 1315 of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4022) prohibits flood insurance coverage as authorized under the National Flood Insurance Program (42 U.S.C. 4001-4128) unless an appropriate public body shall have adopted adequate flood plain management measures with effective enforcement measures. The communities listed in this notice no longer meet that statutory requirement for compliance with program regulations (24 CFR Part 1909 et seq.). Accordingly, the communities are suspended on the effective date in the fifth column, so that as of that date subsidized flood insurance is no longer available in the community.

In addition, the Federal Insurance Administration has identified the special flood hazard areas in these communities by publishing a Flood Hazard Boundary Map. The date of the flood map, if one has been published, is indicated in the sixth column of the table. Section 202(a) of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), as amended, provides that no direct Federal financial assistance (except assistance pursuant to the Disaster Relief Act of 1974 not in connection with a flood) may legally be provided for construction or acquisition of buildings in the identified special flood hazard area of communities not participating in the NFIP, with respect to which a year has elapsed since publication of a flood insurance map. This prohibition against certain types of Federal assistance becomes effective for the communities listed on the date shown in the last column.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

In each entry, a complete chronology of effective dates appears for each listed community.

Section 1914.6 is amended by adding in alphabetical sequence new entries to the table.

§ 1914.6 List of suspended communities.

State	County	Location	Community No.	Effective dates of authorization/cancellation of sale of flood insurance in community	Hazard area identified	Date[1]

[4210-01]

[Docket No. FI 4519]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Suspension of Community Eligibility

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

AUMMARY: This rule lists communities where the sale of flood insurance, as authorized under the National Flood Insurance Program (NFIP), will be suspended because of noncompliance with the flood plain management requirements of the program.

EFFECTIVE DATES: The third date ("Susp.") listed in the fourth column.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street, SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP), administered by the Federal Insurance Administration, enables property owners to purchase flood insurance at rates made reasonable through a Federal subsidy. In return, communities agree to adopt and administer local flood plain management measures aimed at protecting lives and new construction from future flooding. Section 1315 of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4022) prohibits flood insurance coverage as authorized under the National Flood Insurance Program (42 U.S.C. 4001-4128) unless an appropriate public body shall have adopted adequate flood plain management measures with effective enforcement measures. The communities listed in this notice no longer meet that statutory requirement for compliance with program regulations (24 CFR Part 1909 et seq.). Accordingly, the communities are suspended on the effective date in the fifth column, so that as of that date subsidized flood insurance is no longer available in the community.

In addition, the Federal Insurance Administration has identified the special flood hazard areas in these communities by publishing a Flood Hazard Boundary Map. The date of the flood map, if one has been published, is indicated in the sixth column of the table. Section 202(a) of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), as amended, provides that no direct Federal financial assistance (except assistance pursuant to the Dis-

aster Relief Act of 1974 not in connection with a flood) may legally be provided for construction or acquisition of buildings in the identified special flood hazard area of communities not participating in the NFIP, with respect to which a year has elasped since publication of a flood insurance map. This prohibition against certain types of Federal assistance becomes effective for the communities listed on the date shown in the last column.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

In each entry, a complete chronology of effective dates appears for each listed community.

Section 1914.6 is amended by adding in alphabetical sequence new entries to the table.

§ 1914.6 List of suspended communities.

State	County	Location	Community No.	Effective dates of authorization/ cancellation of sale of flood insurance in community	Hazard area identified	Date [1]
Ohio	Cuyahoga	Cleveland, city of	390104-B	July 20, 1973, emergency. Aug. 1, 1978, regular, Oct. 5, 1978, suspended.	June 7, 1974 June 16, 1978	Oct. 5, 1978.

[1] Date certain Federal assistance no longer available in special flood hazard area.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CCGD3-78-6-R]

PART 127—SECURITY ZONES

Establishment of Security Zone in East River, New York, N.Y.

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: This amendment to the Coast Guard's security zone regulations establishes the waters of the East River as a security zone. This security zone is established due to the presence of a fireworks barge and fireworks display in the East River, New York, N.Y.

EFFECTIVE DATE: This amendment is effective on September 20, 1978.

FOR FURTHER INFORMATION CONTACT:

Comdr. P. C. Lauridsen, Captain of the Port, New York, Building 109, Governors Island, New York, N.Y. 10004, 212-668-7917.

SUPPLEMENTARY INFORMATION: This amendment is issued without publication of a notice of proposed rulemaking and this amendment is effective in less than 30 days from the date of publication, because good cause exists and this security zone involves the safety of the Port of New York. Public procedures on this amendment are impractical due to the lack of time remaining before the incident.

DRAFTING INFORMATION

The principal persons involved in drafting this rule are: Lieutenant Junior Grade Ristaino, Project Manager, Captain of the Port, New York, N.Y., and Comdr. George Watts, Project Attorney, Legal Office, Third Coast Guard District, New York, N.Y.

In consideration for the foregoing, part 127 of title 33 of the Code of Federal Regulations is amended by adding § 127.361 to read as follows:

§ 127.361 East River, New York, N.Y.

The water of the East River, N.Y., north of a line bearing 125.5° from a point at latitude 40°42' N., longitude 74°00'39.5" W. (the southern corner of slip 7, Manhattan ferry terminal), to the northwest corner of pier 5, Brooklyn, N.Y., and south of the Brooklyn Bridge is a security zone from 10:15 p.m., September 20, 1978, to 10:45 p.m., September 20, 1978.

(40 Stat. 220 as amended (50 U.S.C. 191), § 1, 63 Stat. 503 (14 U.S.C. 91), § 6(b)(1), 80 Stat. 937 (49 U.S.C. 1655(b)(1)); E.O. 10173, E.O. 10277, E.O. 10352, E.O. 11249; 3 CFR 1949-1953 Comp. 356, 778, 873, 3 CFR 1964-1965 Comp. 349 (33 CFR Part 6), (49 CFR 1.46(b)).)

Dated: September 18, 1978.

J. L. FLEISHELL,
Captain, U.S. Coast Guard,
Captain of the Port, New York.

[FR Doc. 78-26547 Filed 9-18-78; 3:54 pm]

[4910-14]

[CGD 11-78-01]

PART 165—SAFETY ZONES

Lower Los Angeles River Channel North of the City of Long Beach, Calif.

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: This amendment to the Coast Guard safety zone regulations establishes a safety zone consisting of the lower Los Angeles River Channel north of the city of Long Beach small boat launching ramp entrance at Golden Street. It is expected that the zone will remain in effect for approximately 3 months. During this period the zone will be occupied by derrick barges, tugs, workboats, and equipment necessary for construction of flood control sills for the U.S. Army Corps of Engineers. Numerous anchor wires will cross the river making the entire area extremely hazardous to vessel traffic. Accordingly, the zone will be closed to all vessel traffic not involved in the construction project.

EFFECTIVE DATE: This amendment becomes effective on September 15, 1978, and remains in effect until completion of the construction project in the zone or until March 1, 1979, whichever is earlier.

FOR FURTHER INFORMATION CONTACT:

Ens. J. T. Roosen, Vessel Management Officer, USCG Station, 165 North Pico Avenue, Long Beach, Calif. 90802, 213-590-2321.

SUPPLEMENTARY INFORMATION: 1. Buoys or other suitable marking devices will mark the boundaries of the safety zone in the river channel. The river channel south and downstream of the Golden Street ramp is not part of the safety zone.

2. As provided in the general safety zone regulations (33 CFR 165.20), no person or vessel may enter a safety zone unless authorized by the captain of the port or the district commander. Also as provided in these general regulations (33 CFR 165.25) any person directly affected by the establishment of a safety zone may request the Coast Guard, through the captain of the port, to reconsider its action. These general regulations and the other regulations in 33 CFR 165 apply to the safety zone established for the lower Los Angeles River Channel.

3. An opportunity to comment on this safety zone as a proposed rule has not been provided and good cause exists for making the zone effective immediately. A determination has been made that to do otherwise would be both impracticable and contrary to the public interest. The request to establish the safety zone was not received by the Coast Guard until late August and, as a result, there was not sufficient time to allow an opportunity for public comment or to provide for a delayed effective date. Following these administrative procedures would have prevented timely establishment of the safety zone and, thus, would have thwarted the safety purpose of the zone.

4. In order to provide local notice of the safety zone, a local notice to mariners will be published. Additional notices will be also published and distributed at the Golden Street ramp area.

DRAFTING INFORMATION

The principal persons involved in drafting this rule are: Ens. J. T. Roosen, Vessel Management Officer, COTP LA-LB, Calif., and William R. Register, Office of the Chief Counsel, U.S. Coast Guard, Washington, D.C.

In consideration of the above, part 165 of title 33, Code of Federal Regulations, is amended by adding a new § 165.1101 to read as follows:

§ 165.1101 11th Coast Guard District.

(a) The waters of the lower Los Angeles River Channel between the Anaheim Bridge and the following line are a safety zone; A straight line that extends from the western tip of the entrance to the Golden Street landing on a bearing of 270 degrees T to the western shore of the lower Los Angeles River Channel.

(b) This safety zone becomes effective on September 15, 1978. It remains in effect until completion of the construction project in the zone or until March 1, 1979, whichever is earlier.

(86 Stat. 427 (33 U.S.C. 1224); 49 CFR 1.46(n)(4).)

Dated: September 13, 1978.

L. A. ONSTAD,
Lieutenant Commander, U.S. Coast Guard, Captain of the Port, Los Angeles-Long Beach.

[3410-11]

Title 36—Parks, Forests and Public Property

CHAPTER II—FOREST SERVICE, DEPARTMENT OF AGRICULTURE

PART 261—PROHIBITIONS

Permits for the Pine River Area

AGENCY: Forest Service, USDA.

ACTION: Final rule.

SUMMARY: This final regulation requires that using or occupying certain Manistee National Forest lands abutting the Pine River in the Michigan for the purpose of placing any floatable object or craft in or on the river will require users to obtain a permit. Permits will include conditions of use developed to promote the protection of the national forest lands located within the Pine River watershed, to enhance river area qualities, and to provide for the safety and health of all users of national forest land located within the area abutting the river.

EFFECTIVE DATE: September 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Forest Supervisor, Wayne K. Mann, Huron-Manistee National Forests, 421 South Mitchell Street, Cadillac, Mich. 49601, 616-775-2421.

SUPPLEMENTARY INFORMATION: On June 30, 1978, the Forest Service published an interim regulation (43 FR 28476) with a proposed amendment to subpart C of 36 CFR 261.70. The proposed amendment adding new § 261.78 Prohibitions in Region 9, Eastern Region, would prohibit acts or omissions within the areas of the Manistee National Forest lands for the purposes of protecting the public property and public safety and health, and establishing reasonable rules of public conduct. Interested persons were given 60 days in which to submit written comments regarding the interim regulation.

No written comments were received. The interim regulation is hereby adopted with minor modification of wording for purposes of clarity, as set forth below.

Title 36 CFR, chapter II, part 261, subpart C is amended by adding a new regulation, § 261.78 as follows:

§ 261.78 Prohibitions applicable to region 9, eastern region, as defined in § 200.2.

(a) Using or occupying any area of the Manistee National Forest abutting the Pine River between a point commencing 1 mile downstream from Lincoln Bridge to a point one-half mile upstream from Stronach Dam, for the purpose of entering, leaving, or going upon the river, in, on, or upon any floatable object of any kind or description during specific dates set forth annually and posted in such locations and manner as to reasonably bring the closure and dates to the attention of the public, is prohibited unless otherwise authorized by permit.

STEVE YURICH,
Regional Forester.

[6560-01]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER E—PESTICIDE PROGRAMS

[PP 5F1546/R170; FRL 971-1]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

O,O-Dimethyl S-[(4-oxo-1,2,3-benzotriazin-3(4H)-yl)methyl] phosphorodithioate

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This establishes tolerances for residues of the insecticide *O,O*-Dimethyl *S*-[(4-oxo-1,2,3-benzotriazin-3(4*H*)yl)methyl]phosphorodithioate. The request was submitted by Mobay Chemical Corp. This regulation establishes maximum permissible levels for residues of the above insecticide on pasture grass and pasture grass hay and in the meat, fat, and meat byproducts of horses.

V 43 / 184 SE 21 78

EFFECTIVE DATE: September 21, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. James Rea, Product Manager (PM) 12, Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street SW., Washington, D.C. 20460, 202-426-9425.

SUPPLEMENTARY INFORMATION: On July 17, 1978, the EPA published a notice of proposed rulemaking in the FEDERAL REGISTER (43 FR 30582) in response to a pesticide petition (PP 5F1546) submitted to the Agency by Mobay Chemical Corp., Chemagro Agricultural Division, P.O. Box 4913, Hawthorn Road, Kansas City, Mo. 64120. This petition proposed that 40 CFR 180.154 be amended by establishing tolerances for residues of the insecticide *O,O*-Dimethyl *S*-[(4-oxo-1,2,3-benzotriazin-3(4*H*)-yl)methyl] phosphorodithioate in or on the raw agricultural commodities. pasture grass hay at 5 parts per million (ppm); pasture grass (green) at 2 ppm; and the meat, fat, and meat byproducts of horses at 0.1 ppm. No comments or requests for referral to an advisory committee were received in response to this notice of proposed rulemaking.

It has been concluded, therefore, that the proposed amendment to 40 CFR 180.154 should be adopted without change, and it has been determined that this regulation will protect the public health.

Any person adversely affected by this regulation may, on or before October 23, 1978 file written objections with the hearing clerk, EPA, room M-3708, 401 M Street SW., Washington D.C. 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by the grounds legally sufficient to justify the relief sought.

Effective on September 21, 1978, part 180, subpart C, section 180.154 is amended by alphabetically inserting tolerances for the subject insecticide on pasture grass hay at 5 ppm; pasture grass (green) at 2 ppm; and the meat, fat, and meat byproducts of horses at 0.1 ppm as set forth below.

Dated: September 14, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

Statutory authority: Section 408(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(e)).

Part 180, subpart C, section 180.154 is revised in its entirety in the heading and text by editorially reformating the section into an alphabetized columnar listing and alphabetically inserting tolerances of 5 ppm on pasture grass hay, 2 ppm on pasture grass (green), and 0.1 ppm in the meat, and fat, and meat byproducts of horses as follows:

§ 180.154 O,O-Dimethyl S-[(4-oxo-1,2,3-benzotriazin-3(4H)-yl)methyl] phosphorodithioate; tolerances for residues.

Tolerances are established for residues of the insecticide *O-O*-Dimethyl *S*-[(4-oxo-1,2,3-benzotriazin-3(4*H*)-yl)methyl] phosphorodithioate in or on the following raw agricultural commodities:

	Parts per million
Alfalfa	2.0

Title 41—Public Contracts and Property Management

CHAPTER 114—DEPARTMENT OF THE INTERIOR

PART 114-45—SALE ABANDONMENT, OR DESTRUCTION OF PERSONAL PROPERTY

Subpart 114-45.1 General

NEGOTIATED SALE OF SPECIAL PROTECTIVE CLOTHING AND EQUIPMENT

AGENCY: Office of the Secretary, Interior.

ACTION: Final regulation.

SUMMARY: Certain employees of the Interior Department use special protective clothing and equipment in performing their assigned duties. This clothing and equipment is designed or purchased for use by the specific employees under 5 U.S.C. 7903. This rule allows the negotiated sales of the special clothing and equipment. This action will allow the Department to dispose of the surplus clothing and equipment that accumulates after employees are separated or transferred to another function where the special items are no longer needed.

DATE: Effective September 21, 1978.

FOR FURTHER INFORMATION CONTACT:

James O. Wyatt, Chief, Division of Property Management, Office of Administrative and Management Policy, Department of the Interior, Washington, D.C. 20240, telephone 202-343-3185.

SUPPLEMENTARY INFORMATION: Because this amendment relates only to internal departmental procedures, the proposed rulemaking procedures are inapplicable. The primary author of this document is Gerald A. Dempsey, Property Management Officer, Office of Administrative and Management Policy, telephone number 202-343-3185.

NOTE.—The Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

RICHARD R. HITE,
Deputy Assistant Secretary of the Department of the Interior.

SEPTEMBER 14, 1978.

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301 and 40 U.S.C. 486(c), 41 CFR Part 114-45 is amended by revising subpart 114-45.1 as set forth below.

§ 114-45.1 General.

§ 114-45.105-3 Exemptions.

(a) Negotiated sales of special protective clothing and equipment such as prescription safety glasses, diver's wet suits, and safety toe shoes and boots may be made under the following circumstances:

(1) Clothing or equipment was designed or purchased for use by a specific employee under 5 U.S.C. 7903.

(2) Employee is separated or is transferred to a function where the special items are no longer required.

(3) Proceeds from sale are under $100.

(4) Competition is obtained to the extent possible under the circumstances.

(b) Each sale conducted under § 114-45.105(a) will be reported to the GSA Regional Office having jurisdiction over the area where the sale was conducted. The report will be made on an annual basis and will include the date of sale, type of property involved, the original acquisition cost, the proceeds, and the purchaser's name.

(c) Sale value will be determined as follows:

(1) The sale value of prescription ground safety glasses will be established by a depreciation factor of 40 percent, of original acquisition cost, for each full year of use. The minimum sale value will be 20 percent of the original acquisition cost.

(2) The sale value of other protective clothing and equipment will be established by a depreciation factor of 10 percent, of original acquisition cost, for each full calendar quarter of use. The minimum sale value will be 20 percent of the original acquisition cost.

(d) Any request seeking an exemption from the provisions of FPMR Part 101-45 in accordance with FPMR 101-45.105-3(a), shall be prepared for the signature of the Assistant Secretary—Policy, Budget, and Administration, and include full particulars which tend to justify the exemption.

[FR Doc. 78-26520 Filed 9-20-78; 8:45 am]

[4310-10]

PART 114-50—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES

Mobile Homes

AGENCY: Office of the Secretary, Interior.

ACTION: Final regulation.

SUMMARY: These regulations amend certain departmental regulations pertaining to implementation and administration of Pub. L. 91-646 (Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970) activities. The proposed amendments add specific guidelines pertaining to moving and related expenses and for replacement housing payments to those relocated from mobile homes.

EFFECTIVE DATE: October 20, 1978.

FOR FURTHER INFORMATION CONTACT:

James O. Wyatt, Chief, Division of Property Management, Office of Administrative and Management Policy (PM/PAM), Room 5310, Department of the Interior, Washington, D.C. 20240. Telephone number, 202-343-3185.

SUPPLEMENTAL INFORMATION: These amendments were published in the FEDERAL REGISTER under a notice of proposed rulemaking on February 8, 1978. No comments were received except from bureaus and offices within the Department of the Interior. The changes proposed, with one exception, related to editorial and not substantive matters. The exception being a request to revise the proposed regulations to limit a displaced person who was the occupant of a mobile home located on a leased site to the replacement housing payment for tenants and certain others authorized by section 204 of Pub. L. 91-646 (84 Stat. 1897). This request was denied after thorough review. The primary author of this document is George Sandberg, Real Property Management Officer, Office of Administrative and Management Policy, telephone number 202-343-3185.

NOTE.—The Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular No. A-107.

Dated: September 14, 1978.

RICHARD R. HITE,
Deputy Assistant Secretary of the Department of the Interior.

41 CFR 114-50 is amended as follows:

Add subpart 114-50.13 as follows:

Subpart 114-50.13—Mobile Homes

114-50.1300 Scope of coverage.
114-50.1301 Moving and related expenses.
114-50.1302 Payments in-lieu of moving and related expenses.
114-50.1303 Replacement housing payments for mobile hone owners.
114-50.1304 Eligibility of owner—occupant for rental differential payment.
114-50.1305 Replacement housing payments to tenants and certain others.
114-50.1306 Mobile home acquisition criteria.

Subpart 114-50.13 Mobile Homes

§ 114-50.1300 Scope of coverage.

The regulations in this subpart apply to housing customarily constructed offsite (in whole or part), and moved on site for use (see § 114-50.201(x)). Regulations specifically addressing displacements from mobile homes are necessitated by the wide variety of possible ownership-rental situations. These guidelines provide a basis for uniform treatment of displaced persons. The National Park Service has developed an implementing set of guidelines for computation of relocation benefits for mobile home displacements that is recommended for use in benefit determinations.

§ 114-50.1301 Moving and related expenses.

Owners of mobile homes, or tenant-occupants of mobile homes who qualify as displaced persons, are eligible for actual reasonable expenses in moving their mobile home or its contents to a new location. The cost of moving a mobile home may include, inter alia, the cost of detaching and reattaching fixtures, appliances, and utilities.

§ 114-50.1302 Payments in-lieu of moving and related expenses.

(a) A person displaced from a mobile home site, who is eligible to receive payments for moving and related expenses under § 114-501.301, may elect, in lieu of actual moving expenses, to receive a moving expense allowance determined in accordance with a schedule (see § 114-50.700-1) not to exceed $300, plus a dislocation allowance of $200.

(b) Where two or more individuals, not families, live together in a mobile home, each individual displaced may receive a payment for actual reasonable moving expenses, or the in-lieu payment authorized in paragraph (a) of this section.

§ 114-50.1303 Replacement housing payment for mobile home owners.

A displaced owner of a mobile home who has occupied the mobile home on the site from which he is displaced for not less than 180 days immediately prior to initiation of negotiations, and who is otherwise eligible, may qualify

V 43/184 SE 21 78

for a total replacement housing payment not in excess of $15,000 consisting of:

(a) The amount, if any, which when added to the acquisition cost of the mobile home, is necessary to purchase a comparable replacement dwelling. This differential payment shall be computed in accordance with the following criteria:

(1) Where both the mobile home and the site are acquired, the payment shall be the amount, if any, which, when added to the acquisition cost of the acquired property is necessary to purchase a comparable conventional dwelling or a comparable mobile home and site (either replacement unit being decent, safe, and sanitary), whichever is less.

(2) Where only the mobile home site is acquired, the payment shall be the amount, if any, which, when added to the acquisition cost of the acquired property equals the amount the owner is required to pay for a comparable site. If the comparable site is unimproved, the amount shall include the estimated costs necessary to develop the site into a decent, safe, and sanitary location. This may include, inter alia, access roads, pad preparation, utility and sanitation hookups, and foundation construction.

(3) Where an acquired mobile home is located on a leased or rented site, the payment will be the amount, if any, which when added to the acquisition cost of the acquired mobile home, equals the lesser of:

(i) The amount the owner is required to pay for a comparable replacement dwelling; or

(ii) The amount necessary to purchase a comparable mobile home, plus the difference in the amount necessary to rent a comparable mobile homesite for a period of 4 years, and 48 times the monthly rent paid on the site acquire.

(4) The differential housing payment in paragraph (1), (2), and (3) above shall be based upon the amount actually paid by an owner for purchase of a replacement property if this amount is less than the estimated cost of a comparable conventional dwelling, mobile home, or mobile home site.

(b) The amount, if any which is necessary to compensate the owner for increased interest costs to be computed in accordance with § 114-50.802-2 of this regulation.

(c) The amount, if any, which is necessary to reimburse the owner for reasonable costs incurred incidental to purchase of a replacement dwelling to be computed in accordance with § 114-50.802-3 of this regulation.

§ 114-50.1304 Eligibility of owner-occupant for rental differential payment.

An owner-occupant who has occupied the mobile home on the site from which he is displaced for at least 90 days immediately prior to negotiations, and who is otherwise eligible, is eligible for a replacement housing payment as a tenant, provided that he rents or purchases a decent, safe, and sanitary replacement conventional dwelling or mobile home. Computation of the amount, if any, which the owner-occupant is entitled to shall be in accordance with the following criteria:

(a) Where the owner-occupant elects to rent:

(1) And both the mobile home and the mobile home site are acquired from the owner-occupant, the differential payment shall be the difference, if any, between the amount necessary to rent a comparable mobile home and mobile home site for a period of 4 years, and 48 times the monthly economic rent of the mobile home and the mobile home site acquired;

(2) And only the mobile home site is acquired from the owner-occupant, the differential payment shall be the difference, if any, between the amount necessary to rent a comparable mobile home site for a period of 4 years, and 48 times the monthly economic rent of the site acquired;

(3) And a mobile home is acquired on a site rented by the owner-occupant of the mobile home, the differential payment shall be the difference, if any, between the amount necessary to rent a comparable mobile home and mobile home site for a period of 4 years, and 48 times the monthly economic rent of the mobile home and the actual rent of the homesite acquired. This amount may be applied to the rental of a conventional dwelling.

(b) Where the owner-occupant elects to purchase and occupy either a comparable replacement mobile home site or a comparable conventional dwelling within 1 year from displacement the replacement housing payment shall consist of the amount necessary to make a downpayment, including interest and incidental expenses, not to exceed $4,000, except that if such amount exceeds $2,000, such displaced person must match any amount in excess of $2,000 in making the downpayment.

§ 114-50.1305 Replacement housing payments to tenants and certain others.

(a) A displaced tenant of a mobile home who has occupied a mobile home for at least 90 days immediately prior to initiation of negotiations, and who is otherwise eligible, is eligible to receive either:

(1) A differential housing payment, not to exceed $4,000, to enable him to rent, for a period not to exceed 4 years, a decent, safe, and sanitary replacement dwelling, with the differential payment being the amount, if any, between the sum necessary to rent a comparable mobile home and mobile home site for a period of 4 years, and 48 times the actual monthly rent paid for the mobile home and the mobile home site acquired; or

(2) If, he purchases and occupies replacement housing within 1 year from displacement, the amount necessary to enable him to make a down-payment, including interest and incidental expenses, on the purchase of a decent, safe, and sanitary dwelling, but not to exceed $4,000, except that if such amount exceeds $2,000, such displaced person must equally match any such amount in excess of $2,000 in making the down-payment.

§ 114-50.1306 Mobile home acquisition criteria.

(a) Authority to acquire mobile homes as part of the real estate pursuant to section 302 of the Act may be exercised under the following conditions:

(1) Whenever the mobile home has been annexed to the realty in a fashion to itself be considered real property; or

(2) Whenever the mobile home cannot be moved without substantial injury to it or the realty upon which it is situated; or

(3) Whenever the mobile home fails to meet decent, safe, and sanitary dwelling standards either due to dwelling condition or family size, or

(4) Relocation of the mobile home is prohibited by zoning or other applicable governmental regulations, or prevented as area trailer parks will not accept the mobile home due to age, size, condition, etc.

(b) Determination of whether a mobile home constitutes realty or personality frequently must be objectively determined by reviewing the intention of the party through external evidence. The following factors have been held to evidence that the mobile home has retained its characteristic as personal property:

(1) Wheels and tires remain affixed to the carriage.

(2) Lack of permanent connection of utilities.

(3) Mobile home has been registered as a vehicle.

(4) Lack of landscaping or other permanent improvements (e.g. patios, foundations, etc.).

NOTE.—Frequently mobile homes are placed on blocks or piers in lieu of a more substantial foundation. This may permit the retention of the under carriage. If hooked up to permanent utilities, the mobile home may still be considered realty.

(c) Where the evidence does not clearly indicate whether a mobile home is real or personality, the expressed intention of the owner should be given consideration in determining the status and disposition of the mobile home.

(d) Where a mobile home does not meet the criteria under paragraphs (a), (b), or (c) of this section and removal of the mobile home is required, a minimum notice of 90 days to remove said mobile home is required.

PART 114-50—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES

AGENCY: Office of the Secretary, Interior.

ACTION: Final regulation.

SUMMARY: These regulations amend Department regulations implementing Pub. L. 91-646 (Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970) activities. The amendments are intended as clarifications of existing regulations and definitions pertaining thereto.

EFFECTIVE DATE: October 20, 1978.

FOR FURTHER INFORMATION CONTACT:

James O. Wyatt, Chief, Division of Property Management, 202-343-3185.

SUPPLEMENTAL INFORMATION: These amendments to the Department of the Interior regulations were published under a notice of proposed rulemaking on February 8, 1978. No comments were received from sources outside of the Department of the Interior. Of those comments received, one recommended the addition of the word "condemnation" to the second line of § 114-50.103 as condemnation is a method of acquisition. This suggestion was adopted. Another comment recommended substantial revision of the proposed regulations governing displacement of persons from mobile homes § 114-50.1300. Consideration of the suggested modifications led the Department to reconsider the appropriateness of the regulations as proposed. To avoid undue delay in implementing the regulations contained herein the decision was made to delete from this publication all reference to the mobile home regulations. If substantially modified, the proposed mobile home regulations will be published in final form, with provision for an appropriate comment period. The primary author of this document is George Sandberg, Real Property Management Officer, Office of Adminstrative and Management Policy, telephone 202-343-3185.

NOTE.—The Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11949 and OMB Circular No. A-107.

Dated: September 14, 1978.

RICHARD R. HITE,
Deputy Assistant Secretary of the Department of the Interior.

41 CFR 114-50 is amended as follows:

Subpart 114-50.1—General

Amend § 114-50.103 to read as follows:

§ 114-50.103 Applicability.

The provisions of the Act and the regulations in this part 114-50 apply to the acquisition (whether by purchase, condemnation, donation, exchange, or devise) of all real property for, and the relocation of all persons displaced by, programs and projects undertaken by Federal agencies, or by State agencies which receive Federal financial assistance for all or a part of the costs thereof. The Act and these regulations apply regardless of whether the real property is acquired by a Federal or State agency, or whether Federal funds actually contributed to the cost of the real property acquired for a Federal assisted project.

Amend § 114-50.107-2 to read as follows:

§ 114-50.107-2 Forms used in filing an application for benefits.

Bureaus and offices may utilize either Department of the Interior form D.I. 380, a-f and accompanying schedules, or GSA standard form 262, a-f and accompanying schedules, to document claims for reimbursement of expenses incurred by property owners or tenants as the result of Pub. L. 91-646 activities.

Amend § 114-50.2 by revising § 114-50.201(h) to read as follows:

§ 114-50.201 Definition of terms.

* * * * *

(h) *Dwelling.* The place of permanent or customary and usual abode of a person. It includes a single family building; a one-family unit in a multifamily building; a unit in a condominium, or cooperative housing project; any other residential unit, including a mobile home.

* * * * *

Subpart 114-50.4—Relocation Assistance Advisory Services

Revise § 114-50.403(b)a to read as follows:

§ 114-50.403 Coordination of planned relocation activities.

* * * * *

(b) A directory of the Department of Housing and Urban Development Field Offices is available upon request.

APPENDIX I [DELETED]

Delete in its entirety appendix 1 to subpart 114-50.4 entitled "Directory—Regional and Area Offices of the Department of Housing and Urban Development."

Subpart 114-50.7—Payments in Lieu of Moving and Related Expenses

The table of contents of subpart 114-50.7 is revised as follows:

Sec.
114-50.700 Eligibility.
114-50.700-1 Moving allowance schedules.
114-50.701 Displaced occupant.
114-50.702 Displaced farm operations.
114-50.703 Displaced business.
114-50.703-1 Determination of loss of existing patronage to a business.
114-50.703-2 Businesses not eligible to receive "in-lieu" payments.
114-50.704 Displaced nonprofit organizations.
114-50.705 Average annual net earnings.

Amend § 114-50.701 by deleting paragraphs (a) and (b) in their entirety, and revising § 114-50.701 to read as follows:

§ 114-50.761 Displaced occupant.

A person displaced from a dwelling or a temporary or seasonally occupied housing unit who elects to receive the payments authorized by this paragraph, in lieu of payment for actual moving expenses, may receive a moving expense allowance, determined in accordance with a schedule established by the bureau or office, not to exceed $300, plus a dislocation allowance of $200. Where two or more individuals, not families, living together in single family housing are displaced from such housing they shall be treated as one displaced person for purposes of entitlements under this section.

Delete § 114-50.702-1 in its entirety and amend § 114-50.702 to read as follows:

§ 114-50.702-1 [Deleted]

§ 114-50.702 Displaced Farm Operation.

A person displaced from his farm operation as defined in § 114-50.201(k), may elect to receive a fixed payment

V 43 / 184 SEP 21 1978

of not less than $2,500 nor more than $10,000 in accordance with the same criteria established for a person displaced from a business (see § 114-50.703). For a person to be entitled to this payment, a bureau or office must determine that:

(a) The farm operator has discontinued his entire farm operation at the present location or has relocated the entire farm operation, or

(b) In the case of a partial taking, the operator will be considered to have been displaced from a farm operation if:

(1) The part taken met the definition of a farm operation prior to the taking; or

(2) The taking caused the operator to be displaced from the farm operation on the remaining land; or

(3) The taking caused such a substantial change in the nature of the existing farm operation as to constitute a displacement.

NOTE.—If application of the above criteria obviously creates an inequity in any given case, the head of the bureau or office may approve the use of other criteria as determined appropriate.

Revise Subpart 114-50.12 in its entirety to read as follows:

Subpart 114-50.12—Annual Report

Sec.
114-50.1200 General.
114-50.1201 Report contents.
114-50.1202 Submission.

Subpart 114-50.12—Annual Report

§ 114-50.1200 General.

Each bureau and office having responsibilities for Federal or federally assisted programs that come within the purview of Pub. L. 91-646 shall prepare and submit an annual report to the Assistant Secretary—Policy, Budget and Administration, on its activities related to programs established and authorized by the act.

§ 114-50.1201 Report contents.

The report shall consist of two parts.

(a) *Statistical portion.* This part of the report shall utilize GSA Form 2997, Annual Report on Relocation and Real Property Acquisition Activities.

(b) *Racial and ethnic information.* This information, required by title VI of the Civil Rights Act of 1964, Executive Order 11512 and other applicable Federal laws, shall be reported using the format appearing as appendix I to this subpart (formerly part III of appendix 1 to this subpart).

§ 114-50.1202 Submission.

The annual report shall be prepared on a fiscal year basis and submitted (original only) to reach the Assistant Secretary—Policy, Budget, and Administration by not later than December 1 of each year.

Appendix I

PART 114-50—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES

AGENCY: Office of the Secretary, Interior.

ACTION: Final regulation.

SUMMARY: These regulations amend certain departmental regulations pertaining to implementation and administration of Pub. L. 91-646 (Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970) activities. The proposed amendment adds to and clarifies the procedures to be followed in preparation of relocation plans.

EFFECTIVE DATE: October 20, 1978.

FOR FURTHER INFORMATION CONTACT:

James O. Wyatt, Chief, Division of Property Management, Office of Administrative and Management Policy (PM/PAM), Room 5310, Department of the Interior, Washington, D.C. 20240, telephone 202-343-3185.

SUPPLEMENTAL INFORMATION: These amendments were published in the FEDERAL REGISTER under a notice of proposed rulemaking on March 1, 1978. No comments were received except from bureaus and offices within the Department of the Interior. The changes proposed, with one exception, related to editorial and not substantive matters. The substantive issue involved the suggestion that provision be made allowing for incremental development of the relocation plan allowing allocation of resources commensurate with the stage of project or program development. The suggestion was adopted and the regulation revised accordingly. The primary author of this document is George Sandberg, Real Property Officer, Office of Administrative and Management Policy, telephone 202-343-3185.

NOTE.—The Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11949 and OMB Circular No. A-107.

Dated: September 14, 1978.

RICHARD R. HITE,
Deputy Assistant Secretary of the Department of the Interior.

41 CFR 114-50 is amended as follows:

Subpart 114-50.4—Relocation Assistance Advisory Services

Amend § 114-50.402 to read as follows:

§ 114-50.402 Relocation plan.

In conjunction with a program or project proposal involving acquisition of real property, a determination must be made during the preauthorization planning phase whether the real property acquisition activities will result in the displacement of persons from their dwellings, businesses, or farm operations. Where land acquisition activities will cause such displacement, a relocation plan shall be developed prior to commencement of acquisition activities in accordance with procedures outlined in § 114-50.500. The relocation plan may be developed in two stages to meet relocation program requirements. The first stage, the preliminary plan would constitute a preauthorization study sufficient in scope and depth to provide essential program or project planning information. The second stage to be completed prior to commencement of acquisition activities, would entail a fully developed implementation plan. The implementation plan would incorporate, update, and expand upon the preliminary plan. The essential ingredients of each stage are as follows:

(a) Preliminary plan—shall include the following information as a minimum:

(1) An estimate of the number of individuals, families, businesses, farm operations, and nonprofit organizations which will be displaced.

(2) The availability of decent, safe, and sanitary replacement housing (both sale and rental) within the financial means of the individuals and families being displaced.

(3) The probable impact of all other relocation programs, whether federally funded, or not, on the availability of replacement housing.

(4) The estimated total cost, by category (moving expenses, replacement housing for homeowners, etc.), of payments to displaced persons.

(5) The estimated cost of administering required relocation services to displaced persons.

(6) Applicable State and local building restrictions (including minimum lot sizes, zoning regulations, water purity standards, septic and well requirements, utility connection requirements, etc.).

(b) Implementation plan—in addition to updating the above elements the plan shall include:

(1) An inventory of the characteristics and needs of individuals, families, businesses, farm operations, and nonprofit organizations to be displaced.

(2) An inventory of the currently available comparable replacement dwellings in sufficient detail to permit matching of data against the needs of the displaced persons.

(3) Consideration and development, as necessary, of a staged plan of acquisition of improved properties to facilitate assimilation of the displaced persons, businesses, farm operations, and nonprofit organizations into the surrounding community.

(4) Detailed information on the displacement and relocation activities of other Government agencies or private concerns.

(5) Standards to be applied in carrying out relocation operations.

(6) Detailed information on the measures and services to be provided displaced persons and businesses in the conduct of the relocation assistance program.

(c) Each relocation plan shall be:

(1) Coordinated with other Federal and State agencies and private concerns having relocation programs within the project area, to insure that the real estate market from which replacement housing will be obtained is capable of supplying the demands of all users of housing. (See also §§ 114-50.403 and 114-50.404); and

(2) Updated periodically to reflect current real estate conditions. When funds have been appropriated for commencement of real property acquisition, the relocation plan will be continuously updated and serve as a basis for accomplishing required relocation activities.

(3) Reviewed and approved either at the bureau headquarters office level, or by a bureau office assigned the responsibility to review all bureau relocation plans, prior to commencement of acquisition activities (e.g., development of property descriptions, title examination, appraisals, negotiation, etc.).

(4) Submitted (copy only) when approved, to the Assistant Secretary—Policy, Budget and Administration (AMP/PM).

(d) A more elaborate relocation plan may be required in instances where acquisition of real property for a program or project will result in the displacement of a substantial number of persons in a metropolitan area, particularly where low-or moderate-income persons are involved. In any such instances, bureaus and offices shall be guided by the relocation planning instructions promulgated by the Department of Housing and Urban Development in its Relocation Handbook (1371.1 rev.).

Title 46—Shipping

CHAPTER IV—FEDERAL MARITIME COMMISSION

[General Order 7; Docket No. 73-64]

PART 528—SELF-POLICING REQUIREMENTS FOR SECTION 15 AGREEMENTS

AGENCY: Federal Maritime Commission.

ACTION: Reconsideration and modification of final rule.

SUMMARY: On April 28, 1978, the Commission published a final rule on self-policing of Commission approved agreements. The Commission has received numerous petitions for reconsideration and modification of that final rule. This document revises part 528 in light of the petitions for reconsideration. Several modifications in language and numbering have been made throughout the rules in the interest of clarity and simplification. The standards applicable to requests for exemption from the independent neutral body requirement have been relaxed. Reporting requirements have been simplified. The term "associate" has been more clearly defined and its use restricted. A provision has been added which prohibits rate-fixing agreements.

DATE: The rule is effective January 1, 1979.

FOR FURTHER INFORMATION CONTACT:

Francis C. Hurney, Secretary, Federal Maritime Commission, Room 11101, 1100 L Street NW., Washington, D.C. 20573, 202-523-5740.

SUPPLEMENTARY INFORMATION: The Commission has before it 19 petitions for reconsideration of its April 26, 1978, report and order (April order) amending part 528 of its rules. General order 7, 46 CFR, part 528, 43 FR 18175.[1] A reply to petitions was filed by the Commission's Bureau of Hearing Counsel (Hearing Counsel).

Part 528 of the rules prescribes standards for self-policing by ocean carriers participating in rate-fixing agreements approved under section 15 of the Shipping Act, 1916.[2] The April rules were adopted after analysis of comments received in response to regulations proposed on October 17, 1973 (proposed rules).[3]

The instant petitions urge the retraction of all or part of provisions modified by the April order and raise the following general objections to the order: (1) The Commission lacks authority to require an independent self-policing authority or to direct any specific type of self-policing activity; (2) some of the regulations are vague and unlikely to produce uniform or reliable results; (3) inadequate notice was given of certain features contained in the final regulations, especially the reporting requirements; (4) self-policing should also be required for carriers which do not belong to rate-fixing agreements; and (5) the rules may not be implemented until General Accounting Office review has been completed pursuant to the Federal Reports Act, 44 U.S.C. 3512(c).

The Commission stayed the effective date of part 528 through September 15, 1978, and will not implement the finally revised version adoped today until January 1, 1979, or 30 days following the completion of General Accounting Office review, whichever is later. Nothing more is required to comply with the Federal Reports Act.

Petitioners' jurisdictional argument (1) and their claim that independent carriers should also be subject to part 528(4) were fully considered in the April report. In 1961 Congress concluded that carrier conferences must be adequately self-policed in order to continue receiving an exemption from the antitrust laws. (Pub. L. 87-346, 75 Stat. 764.) Independent carriers are not subject to section 15's express self-policing requirement. The conferences therefore cannot claim that the Commission's failure to place identical self-policing requirements on carriers not fixing rates in violation of the Sherman Act is an arbitrary administrative action.

Petitioners' jurisdictional objection to the imposition of minimum self-policing requirements—inconsistent as it is with their request for the replacement of general phrases like "adequate staffing" with detailed specifications—fails to recognize that part 528 does not permit the disapproval of an agreement without the notice and hearing required by law. Over 10 years experience in reviewing bare bones self-policing reports has made it evident to the Commission that existing self-policing systems rely primarily upon member initiated complaints, and have failed to confront or control major incidents of rebating in both the Atlantic and Pacific trades.[4] Under such circumstances no evidentiary hearings or detailed factual findings are necessary to support our determi-

---

[1] Petitions were filed by Sea-Land Service, Inc., and the ocean carriers comprising the membership of the following sec. 15 organizations:

Gulf-Mediterranean Ports Conference; Far East Conference; Pacific Westbound Conference; Atlantic and Gulf-Indonesia Conference and Atlantic and Gulf-Singapore, Malaya, and Thailand Conference (jointly); seven conferences serving areas of India, Pakistan, Ceylon, Burma, East Africa, South Africa, Bangladesh, the Red Sea and the Gulf of Aden (jointly); Marseilles North Atlantic U.S.A. Freight Conference, Med-Gulf Conference, and West Coast of Italy/North Atlantic Conference (jointly); North Atlantic Mediterranean Freight Conference and Greece/U.S. Atlantic-Rate Agreement (jointly); Mediterranean-North Pacific Coast Freight Conference and New Zealand Rate Agreement (jointly); U.S. Atlantic and Gulf/Australia-New Zealand Conference and Australia/Eastern U.S.A. Shipping Conference (jointly); Spanish Eastbound Freight Agreement; Iberian/U.S. North Atlantic Westbound Freight Conference; South Atlantic/Spanish, Portuguese, Moroccan, and Mediterranean Rate Agreement; Rate Agreement No. 8900; Pacific Coast European Conference; Japan/Korea-Atlantic and Gulf Freight Conference and Trans-Pacific Freight Conference of Japan/Korea (jointly); Agreement Nos. 7190, 192, 8190, 90, 191, 8100, and 9474 (jointly); Agreement Nos. 10107, 10108, 7190, 192, 9190, 90, 191, 5700, 5600, 8100, 9474, and 14 (jointly); and 15 North Atlantic Conferences (jointly). United States Lines, Inc., disassociated itself from several of the petitions. The viewpoints of various conference members occasionally diverged on specific issues raised in their joint petitions.

Petitions for exemptions from the requirement of establishing an independent self-policing body were received from the ocean carriers comprising the South Sea Islands Rate Agreement, Pacific Coast Rate Agreement, Pacific Coast Australasian Tariff Bureau, and Australia Pacific Coast Rate Agreement. These carriers contend that their activities meet the standards for exemption found in § 528.4(b)(3) of the rules published on April 26, 1978 (April rules), but alternatively request that if exemption is denied under the April rules, that § 528.4(b)(3) be modified to whatever extent the Commission deems necessary to grant them an exemption. These petitions add nothing of substance to the instant proceeding and are being processed solely as exemption petitions.

Several petitioners, as well as a number of other carriers not seeking reconsideration, requested a stay of the July 1, 1978, effective date of revised part 528. On June 26, 1978, the Commission postponed the effective date until Sept. 15, 1978, 43 FR 28496 (1978).

[2] 46 U.S.C. 814 states, in pertinent part, that: "The Commission shall disapprove [a sec. 15 agreement], after notice and hearing, on a finding or inadequate policing of the obligations under it, or failure or refusal to adopt and maintain reasonable procedures for promptly and fairly hearing and considering shippers' requests and complaints."

[3] 38 FR 28841. The proposed rules were themselves a modification of earlier self-policing proposals contained in a broader sec. 15 rulemaking. Docket No. 73-5, 38 FR 4982. Unless otherwise indicated, references to particular section numbers are to the numbers designated in the April rules.

[4] Some 30 settlement agreements have been reached in FMC rebating investigations since Jan. 1, 1977. The civil penalties incurred under these agreements exceed $5,000,000. An equal number of FMC enforcement claims seeking another $5,000,000 for alleged rebating violations is currently outstanding. Still other rebating cases are currently being processed by the Commission's staff.

V 43 / 184 SEP 21 78

nation that independent self-policing bodies with broad investigatory powers and more detailed reporting responsibilities are necessary features of adequate self-policing—as a general rule. To the extent a particular factual setting may warrant a different result, the Commission has provided a procedure for exempting smaller conferences operating in relatively "clean" trades from the requirement of retaining an independent self-policing body.

Petitioners' remaining objections (2 and 3) should be met by the modifications in the April rules being adopted today. The Commission's 1973 notice of proposed rulemaking informed all parties of the general scope of this proceeding. Although that notice emphasized the independent body issue and the document availability issue,[5] it also discussed the need for more thorough investigations and specific self-policing reports than had previously been required. The Commission clearly proposed that the nature and basis of each investigation conducted, the findings of each investigation, the identity (coded) of the member investigated, the exact violation found, and the exact sanction imposed be set forth in every semiannual report.[6] The April rules merely added detail to these requirements. The majority of petitioners' complaints concerning lack of notice also allege that certain of the reporting details added by the April order were ambiguous or unrealistic. Upon reconsideration, the Commission has clarified and simplified the reporting requirements in accordance with petitioners' comments whenever feasible. A section by section discussion of these comments and modifications follows.

Section 528.1 Scope and purpose. The last two sentences of § 528.1 were not found in the 1973 proposal. Several petitioners requested deletion of both sentences because they purportedly reflect an intention to disapprove section 15 agreements without the prior notice and hearing required by law and impose illogical and improper standards for judging agreements. The first concern is unfounded, but in the course of revising and shortening § 528.1, we have eliminated the penultimate sentence. The last sentence has also beeen relocated and modified to more accurately reflect the Commission's intention. The existence of a vigorous self-policing system which uncovers an appreciable number of violations during a reporting period does not create an evidentiary presumption that an agreement is or is not "adequately policed" within the meaning of section 15. Such circumstances are, however, reliable evidence of the nature and extent of malpractices in a trade and of the adequacy of a given self-policing system in curbing malpractices.

Section 528.2 General requirements. Several commentators objected to the definition of the term "associates" found in § 528.2, and to its use in §§ 528.3 (a), (b), and (d) and 528.6(10)(ii), where it could be construed as imposing self-policing sanctions upon persons not subject to a rate-fixing agreement. Revisions have been made in former §§ 528.3 and 528.6 to clarify the Commission's intention that only agreement members are subject to self-policing sanctions.

The fact remains that members may violate an agreement through a number of devices, including the use of intermediaries, and it is important that self-policing authorities be empowered to examine the activities and records of those intermediaries most likely to be employed. Accordingly, the definition of "associates" has been revised to eliminate the allegedly unnatural phrase "corporate relation," and include all agents, employees, or other persons subject to the control of a member, persons controlling a member, and persons controlled by persons who control a member.[7] Members must arrange for self-policing authorities to have access to and the cooperation of such "associates." Protection against the possibility that self-policing investigations might result in unrestricted invasions of the non-Shipping Act activities of corporate parents and subsidiaries has been provided by the inclusion of a limited challenge for relevancy procedure in final § 528.2(c).

Sections 528.3(c) and 528.4(c) Duty to investigate complaints. Exception was taken to language in §§ 528.3(c) and 528.4(c) stating that the self-policing authority must investigate all complaints received from any source. It was contended that these provisions could be read as requiring all complaints to be investigated in the same manner, no matter how "frivolous, unreliable, stale or malicious" they might be. This was not the Commission's intention. Self-policing authorities are expected to be both thorough and energetic, but need not adhere to unrealistic and nondiscretionary standards. Former §§528.3 and 528.4 have been modified to clarify this situation and accomodate some of petitioners' complaints.

The final regulations shall require self-policing bodies to promulgate reasonable procedures for the submission of complaints and to investigate all complaints. Self-initiated onsite investigations must also be conducted regularly (e.g., annually) into the activities of each member line. It is unnecessary, however, for all investigations to be identical in scope. Self-policing bodies are expected to possess reasonable discretion in conducting their investigations. It is sufficient that each allegation be examined in a manner and to an extent which is reasonable under the circumstances.

Self-policing bodies may establish procedures for investigating written complaints, provided that oral and other informal communications (including anonymous messages) continue to be received and investigated. A self-policing body shall not require a complaint to be in writing or the identity of the complainant to be revealed before commencing an investigation. Petitioners failed to demonstrate a reasonable basis for limiting the class of persons who may lodge complaints and the final rules allow no such restrictions.

Section 528.4(b)(3) Exemption petitions. The April rules provided for exemptions from the independent self-policing body requirement of § 528.4(b) when it is demonstrated that an agreement has few members, applies to a narrow range of ports, handles only a small percentage of cargo in the trade, and the trade has been relatively free of malpractices. It is now alleged that these factors are rigid and unrealistic—especially the "percentage of the trade" standard—and will preclude many, if not all, small conferences from qualifying.

Modifications have been made in the final rules to provide a more flexible approach to the granting of waivers. Determination will be made on a case-by-case basis where it appears that maintaining an independent self-policing body would unfairly burden a conference because of the size and condition of the trade and the probable effectiveness of the alternative self-policing arrangements proposed.

Section 528.3(e) Identity of complainant. Two petitioning conferences requested that the provisions allowing self-policing bodies to withhold the name of a complainant be amended to *require* the deletion of this information from any materials furnished an accused member. The only support offered for this request was the unclear assertion that the existing language is "inconsistent with the Commission's effort to give the industry effective self-policing" [emphasis supplied]. The Commission believes it preferable to permit divergent practices in this area. Self-policing bodies may reveal

[5] The manner in which the conferences would make their self-policing records available to the Commission.

[6] See §§ 528.2(b) and 528.4(a) of the proposed rules. The Apr. 25, 1974, reply comments of the North Atlantic Conferences illustrates petitioners' awareness that greater specificity in semiannual reporting was under consideration.

[7] The Commission considers it unnecessary to define the term "control" in pt. 528, but intends that the term shall include all incidents of "working" or "de facto" control, whether achieved through ownership, common management, or both.

or withhold the names of complainants as may best enable them to effectively investigate and curb malpractices. They should not, of course, reveal identities in circumstances which encourage retaliation by or against members, or withhold identities when it would unfairly prejudice the member's ability to rebut any material allegations made against it (e.g., if a case depended upon the statement of an unknown accuser).

Sections 528.4(b) and 528.6(a) Application of part 528 to "misrating programs." Some conferences maintain special programs for inspecting cargo carryings and shipping documents, ascertaining cargo misdescriptions or mismeasurements, and requiring that member lines correct any misratings so discovered. These misratings are typically unintentional tariff deviations resulting from clerical errors or reliance upon cargo measurements and descriptions provided by a shipper. It appears that most misrating programs are not presently conducted by self-policing authority personnel, in part because the conferences do not consider misratings to be "malpractices."[8] The April report firmly rejected the notion that "malpractices" could be limited to intentional breaches, but did state that conferences could establish separate investigative bodies for detecting misratings provided that such bodies also complied with part 528 of the rules. Several petitioners commented upon an alleged lack of clarity concerning the status of "misrating programs" under the April rules, but proposed no amendments to correct the purported problem.

The reporting requirements of § 528.6 have been modified to differentiate between unintentional misratings discovered by the self-policing authority and those discovered by other organizations. This modification does not alter the requirement that misratings be treated as a breach of the rate-fixing agreement, but should further indicate that a nonindependent "misrating program" may coexist with a self-policing authority. A conference is welcome to take additional steps to curtail misratings. The critical factor is whether the conference has clearly authorized its self-policing authority to investigate any and all misratings, the self-policing body actually exercises this authority when circumstances reasonably require it, and appropriate damages are assessed for both unintentional overcharges and undercharges. When a "misrating program" is not independent of the conference and its membership, the self-policing authority must be assured of regular and complete access to all of the "misrating program's" findings, reports, and records.

Section 528.6 Disclosure of carrier identity. One of petitioners' major interests throughout this proceeding has been to avoid exposing conference members to civil or criminal penalties under the Shipping Act by virtue of their compliance with section 15's self-policing requirement. Consequently, objections were raised to some of § 528.6's reporting requirements because of the possibility that literal compliance would permit the Commission to ascertain the identity of the accused member.[9] The semiannual report is not intended to routinely reveal which members might have violated the Shipping Act during the reporting period. Although the Commission intends to make appropriate use of semiannual reports in its enforcement activities, the reports will neither be examined for the purpose of ascertaining carrier identity nor be treated as evidence that a violation has occurred. Modifications have therefore been made in the final rule which should lessen its alleged susceptibility to "identity disclosure."

This does not mean, however, that carrier identities are not of legitimate interest to the Commission in a variety of contexts and may not be obtained under the Shipping Act. Accordingly, a new provision has been added to final § 528.1 stating that rate-fixing bodies shall not forbid compliance with a Commission request for self-policing authority records. This requirement merely restates existing Commission policy in this area.[10]

One of the primary justifications for the conference system is its potential for curbing malpractices. Section 15 plainly requires self-policing. Congress also intended the Shipping Act to be enforced. It is neither improper nor unfair for the Commission to employ self-policing data in aid of its wider responsibility to fairly and effectively enforce the Shipping Act.[11] A conference imposed penalty for breach of a rate-fixing agreement is conceptually and legally distinct from a penalty for Shipping Act violations. Both are a means toward the common end of eliminating malpractices.

However, because the Commission's enforcement activities are not revenue generating measures, and because the Commission wishes to promote effective self-policing to the greatest extent practicable, it shall henceforth be our policy to afford significant weight to any self-policing damages paid by a carrier when the same conduct of that carrier becomes the object of an FMC civil penalty claim. As a minimum, credit shall be given for damages paid under a self-policing system. In the case of isolated, less serious Shipping Act violations, no civil penalty claim shall be pursued when the carrier has cooperated fully with the commission and reasonable self-policing penalties have been paid. To help effectuate this policy, final § 528.1(c) shall also forbid rate-fixing bodies from prohibiting their member lines from disclosing self-policing sanctions imposed against them (or any other aspect of their own dealings with the self-policing system) should they desire to do so. Such disclosures may be made on the member's own motion or in response to a Commission order.

Section 528.6(b) Certification of reports. Petitioners object to § 528.6(b)'s requirement that self-policing reports be certified for accuracy and completeness by the reporting officer, the head of the policing authority, and any impartial arbitrators employed during the reporting period. It was contended that the various persons involved would not have personal knowledge of the report's entire contents and should therefore limit their certification to those matters over which they do have such knowledge.

The Commission has modified the rule to eliminate the need for three certifications. Final § 528.5(d) now requires the conference "reporting officer" to certify that the document transmitted is the report of the self-policing authority designated by the conference in full conformity with part 528 of the Commission's rules. The head of the self-policing authority must certify the accuracy and completeness of the report (including arbitration decisions). Both certifications shall be made under penalty of perjury and may be sworn to before a notary or may be an unsworn declaration pursuant to 28 U.S.C. 1746. It is incumbent upon the reporting officer to oversee the activities of the self-policing authority and to have personal knowledge of its staffing, budget, investigative policies and general operations. No certification shall be required from the impartial arbitrator. All matters brought before it and all decisions that it renders shall be reported by the self-policing authority.

Section 528.6(a) Reporting requirements generally. Perhaps the most commonly protested provision of the

[8] Petitioners recognize that not all misratings are innocent or unintentional, and at least some of them provide for repeated or otherwise suspicious incidents to be referred to the self-policing body for investigation.

[9] Disclosure of the "location" of investigations and listing all past violations within a 5-year period were particularly mentioned in this regard.

[10] See Agreement No. 5600-36 and Agreement No. 5660-23, orders denying reconsideration, decided simultaneously herewith.

[11] The complaint of "unfairness" in disclosing member identities appears to consist solely of the possibility that members may eventually be required to pay Shipping Act penalties. Examination of self-policing records is not substantially different from the examination of bills of lading or other commonly maintained carrier records.

April rules was § 528.6. Petitioners claimed that certain terms appearing in the reporting requirements for the first time (e.g., "cargo inspections," "office record examinations," "intelligence gathering activities") were ambiguous and that literal compliance with § 528.6 would be truly burdensome and generate little information of practical value to the Commission. The need to report all of a member's past breaches for a 5-year period was also viewed as onerous, both because of the length of the period and the rule's failure to indicate whether the requirement arose immediately or was to be applied prospectively.

The Commission has modified § 528.6 to eliminate the allegedly vague terms, reduce the "past violations period" to 3 years and apply § 528.6(a)(10)(ii) prospectively.

Other modifications. The Commission has generally edited and renumbered the April rules without intending to alter their substance. One such editorial change was the recognition that the term "impartial adjudicator" and "impartial arbitrator" are considered interchangeable. There have also been certain substantive changes in the final rules.

The inclusion of a specific prohibition against agreement provisions which attempt to block the disclosure of self-policing documents or activities to the Commission has already been discussed. Another substantive amendment has been to require self-policing authorities to maintain detailed records of their activities for a 5-year period (final § 528.3(f)). These records must include the names of the accused members (and any associates) involved in any alleged, potential, or actual breach. Both the self-policing authority records and the semiannual self-policing report must assign case or processing numbers to all investigations, whether instituted by complaint or on the self-policing authority's own initiative.[12] All investigations need not be of the same duration or extent, and it is assumed that self-initiated "investigations" into unintentional misratings would consist of little more than the routine notification of the member of its apparent liability for the penalty prescribed for such breaches.

A further amendment with substantive effect requires a description of the self-policing authority and the impartial arbitrator in the semiannual report (final § 528.5(b)).

Therefore, it is ordered, That the various petitions for reconsideration filed in this proceeding are granted to the extent indicated above and denied in all other respects; and

[12] A relatively simple approach to this requirement would be to designate complaint cases by the letter "C" and a number, and to designate self-instituted investigations by the letter "I" and a number.

It is further ordered, That pursuant to section 4 of the Administrative Procedure Act and sections 14, 15, 16, 18(b), 21, 35, and 43 of the Shipping Act, 1916, part 528 of the Commission's rules is amended as set forth below; and

It is further ordered, That revised part 528 of the Commission's rules shall become effective January 1, 1979, provided that General Accounting Office review pursuant to 44 U.S.C. 3512(c) has been completed by that date; and

It is further ordered, That all conference agreements and other rate-fixing agreements approved under section 15 of the Shipping Act, 1916, shall be amended to conform to the requirements of revised part 528 of the Commission's rules and file with the Commission on or before January 1, 1979; and

It is further ordered, That this proceeding is discontinued.

By the Commission.*

JOSEPH C. POLKING,
Assistant Secretary.

Part 528 is revised, including the part heading to read as set forth below.

PART 528—SELF-POLICING REQUIREMENTS FOR SECTION 15 AGREEMENTS

Sec.

528.0 Purpose and scope.
528.1 General requirements.
528.2 Specific requirements: Self-policing provisions.
528.3 Policing authorities (minimum requirements).
528.4 Impartial arbitrators (minimum requirements).
528.5 Reporting requirements.
528.6 Two party rate-fixing agreements—Exemptions.

AUTHORITY: Secs. 14, 15, 16, 18(b), 21, 35, and 43 of the Shipping Act, 1916 (46 U.S.C. 812, 814, 815, 817(b), 820, 833a, and 841a).

§ 528.0 Purpose and scope.

(a) Section 15 of the Shipping Act, 1916, prohibits the approval of agreements which are not adequately self-policed. It also contemplates that self-policing provisions be included in certain agreements subject to the Shipping Act, and that the Commission be kept informed of the manner in which such provisions are being implemented. The provisions of this part are designed to establish minimum standards for judging the adequacy of self-policing activities, assist ocean carriers obtain expeditious approval of their section 15 agreements insofar as self-policing is concerned, provide the Commission with reliable information concerning the nature and performance of self-policing systems, and curtail rebating and other malpractices by ocean carriers.

(b) This part shall apply to all conference and other rate-fixing agreements between common carriers by water in the foreign or domestic offshore commerce of the United States (hereafter referred to as "agreements"), whether or not previously approved by the Commission.

§ 528.1 General requirements.

(a) Every agreement shall contain provisions establishing and describing a system for self-policing its members. These provisions shall describe the methods employed and the standards used to investigate, adjudicate, and penalize breaches of the agreement by the common carriers by water signatory thereto (hereafter referred to as "members"), and shall include within their scope the activities of all persons, firms, associations, or corporations that are agents, employees, or affiliates of members, or are otherwise subject to the control of a member, or which themselves control a member, or are commonly controlled by any person, firm, association, or corporation which controls a member (hereafter referred to as "associates").

(b) Self-policing provisions shall establish both a policing authority and an impartial "arbitrator" or "adjudicator" and describe the functions and authority of each entity. The impartial arbitrator shall be functionally separate and distinct from the policing authority.

(c) No self-policying system shall contain provisions which purport to:

(1) Deny access to or copies of any self-policing records, statistics, reports, or other information (including the identity of members) in contravention of a duly issued order of the Federal Maritime Commission (or a Commission employee with delegated authority to issue such orders); or

(2) Preclude any of its members from disclosing the nature and extent of their own involvement with the self-policing authority (e.g., any damages paid by the member) in any administrative or judicial proceeding to enforce the Shipping Act.

(d) Compliance with the requirements of this part shall not relieve rate fixing bodies of their absolute responsibility to adequately police their activities or preclude the Commission from disapproving an agreement when sufficient evidence of rebating or other malpractices exists to warrant a conclusion that the members' self-policing efforts have been inadequate.

§ 528.2 Specific requirements: self-policing provisions.

Agreements shall contain the following self-policing provisions:

*Commissioner Bakke dissents in part. His views will be issued separately.

(a) *Breaches (general).* A statement that any violation or breach of any provision of the agreement, or any tariff, rules or regulations promulgated thereunder (hereafter referred to as a "breach"), by any member of the agreement (directly or through an associate) shall subject such member to self-policing sanctions;

(b) *Permissable damages.* A statement specifying the maximum damages, or range of damages, or the method of calculating the damages, which may be assessed against members of the agreement upon finding that such members have committed a breach. Such statement may specify damages for specific breaches and a general category of breaches, or both, and may relate to each and every breach, or to the number of times the member has previously been found guilty of a breach;

(c) *Investigation of breaches.* An effective procedure for investigating all matters which are the subject of complaints or which otherwise suggest or allege the existence of breaches;

(1) The procedure shall require the self-policing authority to:

(i) Receive or gather information concerning breaches from any and all sources;

(ii) Make investigations both in response to complaints and upon its own initiative;

(iii) Examine, audit or inspect, upon demand, with or without notice and wherever located: Any books, records, accounts, invoices, bills of lading or other documents, cargo, containers, ships, property, and facilities owned, used, or transported by any member of the agreement or its associates which may be relevant to the member's participation in the trade. *Provided, however,* That examination of particularly identified materials may be postponed for a reasonable period pending a prompt determination of relevancy by the impartial arbitrator under conditions which assure that the materials in question are sealed or otherwise kept unaltered during the determination period;

(iv) Adopt and publicize procedures for the filing of complaints;

(v) Compile and retain for at least 5 years a complete and thorough record of all its investigatory and prosecutorial activities, including a description of all complaints, the basis, nature and scope of all self-intitiated investigations, and the disposition of all investigations.

(2) The procedure shall require all officers, employees, and associates (including officers, employees and controlling owners) of members to cooperate with, and freely provide information to, the policing authority and its agents;

(d) *Adjudication of breaches.* A procedure for adjudicating alleged breaches which affords accused members the right to a hearing before an impartial arbitrator. The impartial arbitrator shall adjudicate such claims solely and finally, either initially or upon review de novo on the record of an initial determination by the policing authority. "Review de novo on the record" requires the impartial arbitrator to have full authority to affirm, modify or set aside any finding of fact, conclusion of law, or penalty made or imposed by the policing authority;

(e) *Procedural guarantees.* A statement that fundamental fairness will be afforded all members accused of committing a breach (hereafter referred to as "the accused"), which includes the following specific procedural guarantees:

(1) The accused shall be charged in writing, within a reasonable time prior to the initial hearing, in a manner which fairly and clearly discloses the nature of the alleged breach. Such charges need not reveal the identity of the complainant;

(2) The accused shall be furnished with all evidence within a reasonable time prior to the initial hearing. Evidence developed thereafter shall also be furnished to the accused and a delay granted, if necessary, to allow it an opportunity to use such evidence in its defense. The identity of the complainant may be deleted from any evidence furnished the accused;

(3) The accused shall be given a full and fair opportunity to rebut or explain any evidence introduced against it and to present evidence which might show mitigating or extenuating circumstances;

(4) The impartial adjudicator shall receiver and consider only that evidence which has been furnished to the accused by the self-policing authority or has been furnished by the accused in its defense;

(f) *Designated official.* A statement designating a particular officer or official of the rate-fixing body to be responsible for the filing and certifying of self-policing reports with the Commission in accordance with § 528.5;

§ 528.3 Policing authorities (minimum requirements).

(a) Policing authorities shall have an adequate and qualified staff, adequate facilities and an adequate budget.

(b) Policing authorities shall be headed by, and composed of, persons not otherwise employed by, having any financial interest in, or affiliated with, the conference or rate-fixing body established by the agreement or any member or associate thereof; *Provided, however,* That:

(1) An individual or entity may act as the policing authority for more than one rate-fixing body;

(2) An independent certificated public accountant (referred to hereafter as an ICPA) may act as the policing authority, even though it has a client which is a member of the agreement or an associate of such member, where such relationship is disclosed prior to being named as the policing authority and it is disqualified from acting as the policing authority with respect to the member which is, or whose associate is, a client of the ICPA. If the ICPA named as the policing authority discloses that it has a member of the agreement or an associate of such member as a client, an alternate policing authority must be appointed to receive and investigate any complaints against such member;

(3) Upon petition to the Commission, an exemption may be sought to allow officers or employees of a rate-fixing body to act as the head of, or be assigned to duties under, the policing authority, if such person or persons are not otherwise employed by, affiliated with, or have any interest in, any member or any associate of a member. Petitions for exemption will not be lightly granted and must include a convincing showing that:

(i) The persons conducting self-policing activities are qualified and their self-policing activities would not substantially conflict with their other duties and responsibilities;

(ii) The agreement is so limited in scope that the retention of an independent self-policing authority would impose an unrealistic financial burden on the members. The number of members, the financial condition of the members, the nature and extent of the trade, the competitive circumstances prevailing in the trade, and other activities of the members both within and without the trade (e.g., participation in other agreements) are all relevant considerations;

(iii) The trade covered by the agreement has been relatively free of rebating or other conduct violative of the Shipping Act in the 5 years preceding the year when exemption is sought and is likely to continue to be characterized by a minimal level of such malpractices.

(c) The policing authority of each agreement shall be required to establish reasonable written procedures for the receipt and investigation of complaints which shall be made available to any person upon request. Such procedures may include special provisions for the handling of written complaints and for summary investigation of frivolous or incomplete allegations (whether written or not). These procedures may not, however, require that complaints be in writing or restrict the

class of persons entitled to lodge a complaint.

(d) Policing authorities shall be required to investigate all complaints filed in accordance with its established procedures.

(e) Policing authorities shall be required to conduct self-initiated investigations whenever they receive information providing reasonable cause to do so and to periodically conduct self-initiated investigations into the activities of each member. All self-initiated investigations shall include, but not necessarily be limited to, the unannounced inspection of books, records, accounts, shipping documents, invoices, cargo, ships, containers, equipment, and facilities of the member and its associates.

(f) Policing authorities shall compile and retain for at least 5 years a sufficient written record of their activities to demonstrate compliance with this part. This record shall include:

(1) All complaints received (written or oral), the processing or case numbers assigned to each complaint, a description of the steps taken to investigate each complaint (including hearings or arbitration proceedings) copies or summaries of the evidence gathered, and the final disposition of each investigation;

(2) A chronological log summarizing all information (other than complaints) received or gathered which alleges or suggests the existence of a breach and describing the consideration given to this information, including all reports of unintentional cargo misdescriptions and mismeasurements, anonymous tips, and rumors of malpractices;

(3) A description of all self-initiated investigations, the processing or case numbers assigned to each investigation, a description of all investigatory measures employed (including hearings or arbitration proceedings), copies or summaries of the evidence gathered, and the final disposition of each investigation;

(4) A brief statement as to why each investigation was finally disposed of in the particular manner chosen. This statement shall include an exact description of any breach found to have occurred, any decision of the impartial arbitrator and the nature and amount of any penalty assessed and paid.

§528.4 Impartial arbitrators (minimum requirements).

(a) The impartial arbitrator shall be a totally disinterested person or entity, unaffiliated with the rate-fixing body or any member or associate thereof, and may be appointed on permanent basis or selected on an ad hoc basis from a panel or arbitrators pursuant to traditional rules of commercial arbitration.

(b) The impartial arbitrator shall be vested with final authority to adjudicate disputes and assess damages within the scope of the self-policing system.

(c) The impartial arbitrator shall not perform any other duties under the self-policing system with regard to any matter before it for adjudication, including investigation or prosecution.

§528.5 Reporting requirements.

(a) Each rate-fixing body shall mail (air mail postage prepaid) or hand deliver a semiannual report to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before January 31 and July 31 of each year covering that body's self-policing and adjudicatory activities during the 6-month period immediately preceding the respective reporting month (i.e., January or June).

(b) Each semiannual self-policing report may exclude the identity of all parties to an allegation of breach, investigation or penalty assessment, but shall contain the following detailed information:

(1) The name and address of the self-policing body employed during the reporting period and a complete description of its staff, facilities, and budget, and the name and address of the impartial arbitrator employed during the reporting period and a description of its qualifications;

(2) The date, location (community or port area where inspection occurred) and nature of each examination or inspection (including audits) of cargo, facilities, shipping documents, or office records performed during the reporting period. The type and approximate number of accounts, documents, cargo containers, and other items inspected shall also be stated. Each such inspection shall be correlated to a particular investigation bearing a processing or case number;

(3) The number of cargo misdescriptions or mismeasurements detected by:

(i) The self-policing authority or any division thereof;

(ii) Any other organization retained by the rate-fixing body to make misrating determinations and regularly report them to the self-policing authority. When such a separate "misrating committee" or similar organization is employed by a rate-fixing body, the self-policing report shall also identify that organization by name and address, and provide a thorough description of its staffing (including other affiliations with the conference or its members), authority and routine activities, and describe the procedures by which it reports its findings to the self-policing authority;

(4) The number of breaches of the agreement (other than unintentional cargo misdescriptions and mismeasurements) which were detected through the investigation of complaints;

(5) The number of breaches of the agreement (other than unintentional cargo misdescriptions and mismeasurements) which were detected by self-initiated investigations;

(6) A thorough summary of the basis, nature, and scope of each investigation commenced during the reporting period, including any hearings or arbitration proceedings. Each investigation shall be identified by a processing number and the summary shall indicate whether the investigation was initiated by complaint or upon the initiative of the self-policing authority;

(7) A list of information received or gathered during the reporting period alleging or suggesting the existence of a breach, but which was not made the subject of an investigation;

(8) A list (by processing number) of investigations commenced in previous reporting periods and still pending, and a description of the action taken with respect to each during the reporting period (including hearings and arbitration proceedings);

(9) A list and description (by processing number) of all final actions taken with respect to investigations of any type. An action is not "final" unless:

(i) The investigation revealed insufficient evidence to establish a breach; or

(ii) The accused was assessed damages, either based on a voluntary settlement or a decision rendered by the policing authority or the impartial arbitrator.

(10) When a final action involves an assessment of penalties, the report shall also include:

(i) A detailed description of the alleged or adjudicated breach, the amount or type of penalty assessed, and whether the assessment was met;

(ii) A list of all other breaches (other than unintentional cargo misdescriptions and mismeasurements) committed by the member during the period subsequent to the effective date of this part, but not greater than 3 years prior to the final action in question.

(c) The report shall clearly indicate those final actions handled by the policing authority and those matters, including rulings on the relevancy of documents or things sought to be examined by the policing authority, handled by the impartial arbitrator.

(d) The reporting officer designated pursuant to §528.2(f) shall certify under penalty of perjury that the semiannual report has been prepared by the self-policing authority specifically designated by the rate-fixing body to act in full accordance with the requirements of this part during the reporting period. The accuracy and completeness of the report shall be sworn to under penalty of perjury by the head of the designated self-policing authority.

(e) If there are no complaints, investigations, or final actions during the period, the report shall contain an express statement to this effect as to each category of information required by paragraph (b) of this section.

§528.6 Two-party rate-fixing agreements.

Rate-fixing agreements with no more than two signatory parties shall be exempt from the requirements of this part.

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 27; Amdt. 71-16]

PART 71—STANDARD TIME ZONE BOUNDARIES

CFR Correction

AGENCY: Department of Transportation.

ACTION: Final rule; CFR correction.

SUMMARY: This CFR amendment corrects the mistaken reference to the "North Dakota-Nebraska boundary" in the description of the boundary between the central and mountain time zones. (See 49 CFR 71.7.) These two States are not contiguous. The reference should be to the "South Dakota-Nebraska boundary".

EFFECTIVE DATE: September 21, 1978.

FOR FURTHER INFORMATION CONTACT:

Robert I. Ross, Office of the General Counsel, Department of Transportation, Washington, D.C. 20590, 202-426-4723.

SUPPLEMENTARY INFORMATION: The person principally responsible for drafting this document is Robert I. Ross, an attorney in the General Counsel's Office.

This amendment merely corrects an obvious error and does not affect any substantive change; for that reason, it appears unlikely that the public would have any substantive comment. Therefore, providing opportunity for public comment would merely postpone correction of the error without any accompanying benefit and thus be contrary to the public interest. Similarly, I find that good cause exists for making the amendment effective in fewer than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, §71.7(b) of Part 71 of Title 49, Code of Federal Regulations, is amended by changing "North Dakota-Nebraska boundary" to "South Dakota-Nebraska boundary", as appears below:

§71.7 Boundary line between central and mountain zones.

* * * * *

(b) *South Dakota.* * * * South Dakota-Nebraska boundary.

* * * * *

(Act of March 19, 1918, as amended by the Uniform Time Act of 1966 (15 U.S.C. 260-67); sec. 6(e)(5), Department of Transportation Act (49 U.S.C. 1655(e)(5)); §1.56(1), Regulations of the Office of the Secretary of Transportation (49 CFR 1.56(1).)

Issued in Washington, D.C., on September 15, 1978.

LINDA HELLER KAMM,
General Counsel.

Title 50—Wildlife and Fisheries

CHAPTER 1—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Opening of Upper Souris National Wildlife Refuge, N. Dak., to Deer Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to deer hunting of Upper Souris National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: November 17, 1978, through November 26, 1978.

FOR FURTHER INFORMATION CONTACT:

Refuge Manager, Upper Souris National Wildlife Refuge, R.R. No. 1, Foxholm, N. Dak. 58738, 701-468-5634.

SUPPLEMENTARY INFORMATION:

§32.32 Special regulations; big game; for individual wildlife refuge area.

Deer hunting is permitted on the Upper Souris National Wildlife Refuge, N. Dak., on all areas except those designated as closed. The open areas comprising 31,800 acres are delineated on maps available at headquarters, Foxholm, N. Dak., and from the office of the Area Manager, U.S. Fish and Wildlife Service, P.O. Box 1897, Bismarck, N. Dak. 58501. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer subject to the following conditions:

(1) Only bucks may be taken by a special National Wildlife Refuge deer gun permit through the first weekend, November 17, 18, and 19, 1978. The remainder of the season hunters with a valid III A2 permit may take deer of the sex specified in that permit.

(2) All hunters must exhibit their their special National Wildlife Refuge permit hunting license, deer tag, and vehicle contents to Federal and State officers upon request.

(3) The refuge shall be closed to all vehicular travel except the main public roads and refuge recreation area parking areas.

(4) Deer are the only species that may be taken. It is unlawful to carry firearms after the deer tag is used.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in title 50, Code of Federal Regulations, part 32. The public is invited to offer suggestions and comments at any time.

NOTE: The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11949 and OMB Circular A-107.

Dated: September 14, 1978.

MAURICE B. WRIGHT,
Refuge Manager.

PART 32—HUNTING

Opening of Tamarac National Wildlife Refuge, Minn., to Resident Game Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening of Tamarac National Wildlife Refuge to resident game hunting is compatible with the objectives for which the area was es-

V 4 3 / 1 8 4 S E 2 1 7 8

tablished, will utilize a renewable natural resource, and will provide recreational opportunity to the public.

DATES: Ruffed grouse—September 16 through December 31, 1978. Rabbits and hares—September 16, 1978, through February 28, 1979. Gray and fox squirrels—September 16 through December 31, 1978. White-tailed deer—November 4 through November 19 and November 24 through November 26, 1978.

FOR FURTHER INFORMATION CONTACT:

Omer N. Swenson, Refuge Manager, Tamarac National Wildlife Refuge, Rochert, Minn. 56578; telephone No. 218-847-4355.

SUPPLEMENTARY INFORMATION:

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

Public hunting of ruffed grouse, gray and fox squirrels, cottontail, jack rabbit, and snowshoe hare on the Tamarac National Wildlife Refuge, Rochert, Minn., is permitted in the area designated by signs as public hunting area. This area comprising 12,500 acres is delineated on maps available at the refuge headquarters and from the Office of the Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minn. 55111.

An additional area of 18,000 acres will be open for public hunting of ruffed grouse only. This ruffed grouse only area is delineated on a map available at the refuge headquarters and from the Office of the Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minn. 55111.

Hunting shall be in accordance with all applicable State regulations during the seasons specified above. The hunting of other upland species as may be authorized by Minnesota State regulations is prohibited.

The following special conditions apply:

1. No person shall trap on Tamarac National Wildlife Refuge without first obtaining such permits as may be required and issued by the refuge manager.

2. No person shall, for the purpose of hunting or trapping, enter or leave the refuge except by designated access roads.

3. All hunters and trappers shall comply with further regulations which the refuge manager may prescribe.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Public hunting of white-tailed deer with legal firearms on the Tamarac National Wildlife Refuge is permitted over the entire refuge with exception of those areas posted as "Area Beyond This Sign Closed." The open area includes 40,200 acres. Areas open for deer hunting are delineated on maps available at the refuge headquarters and from the Office of the Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minn. 55111.

Hunting shall be in accordance with all applicable State regulations subject to the following conditions:

1. No taking of black bear or bow hunting is permitted on any portion of the refuge.

2. No person shall, for the purpose of hunting, enter or leave the refuge except by designated access roads.

3. All hunters shall comply with further regulations which the refuge manager may prescribe.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11949 and OMB Circular A-107.

Dated: September 14, 1978.

OMER N. SWENSON,
Refuge Manager.

[3510-22]

CHAPTER VI—FISHERY CONSERVATION AND MANAGEMENT, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 651—ATLANTIC GROUNDFISH—COD, HADDOCK, AND YELLOWTAIL FLOUNDER

Landing Limitation Regulations

AGENCY: National Oceanic and Atmospheric Administration/Commerce.

ACTION: Amendment of emergency and proposed regulations.

SUMMARY: These regulations amend existing regulations for the yellowtail flounder fishery by revising the landing restriction provisions which were implemented effective July 23, 1978, under the fishery management plan (FMP) for Atlantic groundfish. The overrun and the 10 percent allowance provisions are also eliminated. This amendment is intended to reduce the prospect of a closure of the yellowtail fishery.

EFFECTIVE DATE: September 17, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. William G. Gordon, Regional Director, Northeast Region, National Marine Fisheries Service, 14 Elm Street, Gloucester, Mass. 01930, telephone 617-281-3600.

SUPPLEMENTARY INFORMATION: Weekly landing restrictions for yellowtail flounder by vessel class were established by emergency regulations (§ 651.8(b)) on July 19, 1978 (43 FR 31015). Section 651.8(e) states that:

[T]he Assistant Administrator may adjust the landing restrictions • • • upon publication of a notice in the FEDERAL REGISTER, for the following purposes:

(1) To spread fishing effort over the entire year;

(2) To reduce the need for quarterly or annual closures;

(3) To allow each of the vessel classes in paragraphs (a) and (b) of this section to harvest its historic percentage of the catch.

Section 651.8(f) states further that:

To accomplish these purposes • • • the Assistant Administrator may adjust the landing restrictions by varying amounts for each vessel class, after consideration of factors including:

(1) Landings for the current and previous quarters;

(2) Projected harvests;

(3) Capability of vessels to fish in other locations or for other species;

(4) status of unregulated species in the trawl fishery • • •.

The Assistant Administrator for Fisheries has determined that, under §§ 651.8 (e) and (f), good cause exists to amend the yellowtail flounder landing restrictions effective September 17, 1978, so that (1) all vessel classes may land only 2,000 lbs per week or per trip (if the trip is longer than a week); (2) eliminate the overrun provision; (3) eliminate the provision "or 10 percent by weight of all fish on board, whichever is greater."

The Assistant Administrator for Fisheries has determined that these amendments are not major Federal actions within the meaning of the National Environmental Policy Act, and are consistent with the national standards of the act and other applicable law. An economic impact analysis was prepared covering this and other economic issues in this fishery. The result of that analysis was a negative finding.

Signed at Washington, D.C., this 14th day of September 1978.

WINFRED H. MEIBOHM,
Associate Director, National Marine Fisheries Service.

Amend 50 CFR Part 651 as follows:

1. Strike § 651.8(b) and substitute as set forth below.

2. Amend § 651.8(c) by deleting all references to yellowtail flounder as set forth below.

3. Amend § 651.8(d) by deleting the words "through (c)" in the first sentence.

§ 651.8 Landing restrictions.

• • • • •

(b) *Yellowtail flounder.* For each weekly period (0001 hours Sunday through 2400 hours Saturday, local time), no person or vessel may land yellowtail flounder in amounts greater than 2,000 pounds per week or per trip, if a trip is longer than a week.

(c) If a vessel is at sea in more than one weekly period, the cod and haddock on board the vessel may, at the option of the vessel operator, be considered landed in the weekly period in which they were actually caught if the vessel operator maintains a log book recording the amounts of cod and haddock caught each day. If such log book is not maintained, all cod and haddock shall be counted against the landing restriction of the weekly period in which they were landed.

[3510-22]

PART 652—ATLANTIC SURF CLAM AND OCEAN QUAHOG FISHERIES

Closure of Surf Clam Area

AGENCY: National Oceanic and Atmospheric Administration/Commerce.

ACTION: Final rulemaking.

SUMMARY: This document provides notice of the closure of an area of the Fishery Conservation Zone (FCZ) offshore of Atlantic City, N.J., to surf clam fishing. The area is located three (3) to six and one-half (6½) miles offshore, between Great Egg Harbor Inlet and Absecon Inlet. This action is based on reports from commercial fishermen which indicate that the surf clams in this area are smaller than 4½ inches, thus the area falls within the criteria governing closure.

EFFECTIVE DATE: 0001 hours e.d.t., September 20, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. William G. Gordon, Regional Director, Northeast Region, National Marine Fisheries Service, 14 Elm Street, Glouchester, Mass. 01930, telephone: 617-281-3600.

SUPPLEMENTARY INFORMATION:

Section 652.8 of the final regulations governing the surf clam and ocean quahog fisheries in the FCZ which was published on February 17, 1978 (43 FR 6952), provides that areas may be closed to surf clam fishing when a determination is made by the Regional Director. That determination may be based on log book entries, processors' reports, survey cruises, and other sources, which show that the area in question contains surf clams of which: (1) 60 percent or more are smaller than 4½ inches in size, and (2) not more than 15 percent are larger than 5½ inches in size.

Late in 1977 and early in 1978, commercial fishermen began reporting areas of small clams in the FCZ off New Jersey. Two areas were examined, one on March 24, 1978, and the other on April 25, 1978.

These sampling cruises disclosed that in some portions of both areas nearly 100 percent of the clams were under 4½ inches. However, a few isolated stations showed pockets of larger clams where more than 15 percent were larger than 5½ inches.

On a weighted average, however, in the area described below, 85 percent of clams taken were less than 4½ inches, and 88 percent less than 5½ inches. The area clearly falls within the criteria governing closure.

On July 27, 1978, a public hearing was held at Pomona, N.J., concerning the social and economic aspects of the then proposed area closure. Persons attending the hearing also offered comments regarding the biological aspects of the problem.

Proposals put forward at the hearing ranged from a suggestion that the area be closed for 3 years to a suggestion that the area be surveyed every 6 months in order to monitor the growth of the clams. There was no disagreement with the Regional Director's determination as to the need for the closure.

The area being closed is approximately 35 square miles. It is located between 3 and 6½ nautical miles offshore from Atlantic City, N.J. The area is described as beginning at a point at 74°30.0' W. longitude and 39°15.5' N. latitude, which is exactly 3 nautical miles offshore from the nearest baseline from which the territorial sea is measured; thence northeasterly along a line drawn in such a manner that each point on it is 3 nautical miles from the baseline from which the territorial sea is measured, to 74°20.7' W. longitude and 39°21.2' N. latitude; thence in a straight line to 74°17.1' W. longitude and 39°19.1' N. latitude; thence in a straight line to 74°26.5' W. longitude and 39°15.5' N. latitude; thence in a straight line to 74°30.0' W. longitude and 39°15.5' N. latitude, point of beginning.

Surveys of the closed area will be conducted at approximately 6-month intervals, weather permitting, in order to monitor the growth of the clams. Based upon the data of the surveys, the Regional Director will determine when the area may be reopened to fishing.

The appropriate environmental impact statement has been filed. An economic impact statement was prepared in connection with the final regulations cited above (50 CFR Part 652).

Signed at Washington, D.C., this 14th day of September 1978.

WINFRED H. MEIBOHM,
Associate Director, National Marine Fisheries Service.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules

[4910-13]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 78-NW-19-AD]

AIRWORTHINESS DIRECTIVES

Boeing Model 727 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This notice proposes an amendment to airworthiness directive (AD) 70-15-15 which requires inspections for cracks in the wing center section front spar web on Boeing model 727 series airplanes. The proposed amendment expands the inspection area due to recent service experience.

DATES: Comments must be received on or before November 14, 1978.

ADDRESSES: Send comments on the proposal in duplicate to: Federal Aviation Administration, Northwest Region, Office of the Regional Counsel, Attention: Airworthiness Rules Docket, Docket No. 78-NW-19-AD, 9010 East Marginal Way South, Seattle, Wash. 98108.

FOR FURTHER INFORMATION CONTACT:

Gerald R. Mack, Airframe Section, Engineering and Manufacturing Branch, FAA Northwest Region, 9010 East Marginal Way South, Seattle, Wash. 98108, telephone 206-767-2516.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Department of Transportation, Federal Aviation Administration, Northwest Region, Office of the Regional Counsel, Attention: Airworthiness Rules Docket, 9010 East Marginal Way South, Seattle, Wash. 98108. All communications received on or before the closing dates for comments, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons.

Amendment 39-1048 (35 FR 12058), AD 70-15-15, as amended by amendment 39-1188 (36 FR 6826), requires visual inspections for cracks in the wing center section front spar web at the left and right hand BL 13.12 and BL 25.08 stiffener locations on Boeing model 727 series airplanes. The cracking is the result of fatigue caused by pressure cycling. The AD was issued because the cracking reduces the structural integrity of the wing front spar, results in damage to the fuel cells and subsequent fuel leakage, and could cause depressurization of the cabin. Recently, cracks up to 5 inches have been detected in the front spar web of three airplanes at stiffener locations outside the existing required inspection area. Since this condition is likely to exist or develop on other airplanes of the same type design, the proposed amendment would extend the inspection, repair, and modification area to LBL and RBL 58.64 inclusive. Airplanes which have had the previous terminating action modification accomplished would be required to be inspected in the expanded area, until modified.

The Proposed Amendment

Accordingly, the Federal Aviation Administration proposes to amend § 39.13 of the Federal Aviation Regulations (14 CFR 39.13), amendment 39-1048 (35 FR 12058), AD 70-15-15, as amended by amendment 39-1188 (36 FR 6826), as follows:

1. By amending the applicability statement to read:

BOEING. Applies to all model 727 series airplanes, certificated in all categories, listed in Boeing Service Bulletin No. 57-107, Revision 4, or later FAA approved revisions, including those which have had the terminating action modification, repair, and/or time-limited modification accomplished per previous service bulletin revisions. Compliance required as indicated.

2. By amending paragraph A to read:

A. Unless accomplished within the last 500 landings prior to the effective date of this amendment, within the next 500 landings from the effective date of this amendment or prior to the accumulation of 15,000 landings, whichever occurs later, and at intervals not to exceed 1,000 landings, visually inspect the wing center section front spar web for cracking in accordance with Boeing Service Bulletin No. 57-107, Revision 4, or later FAA approved revisions, or an equivalent method approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

3. By striking out the words "Chief, Aircraft Engineering Division, FAA Western Region" from paragraphs B.2 and C.1 and inserting the words "Chief, Engineering and Manufacturing Branch, FAA Northwest Region" in place thereof.

4. By amending paragraph D.1 to read:

1. The preventive modification described in paragraph III.D of Boeing Service Bulletin No. 57-107, Revision 4, or later FAA approved revisions, or equivalent modification approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region is installed, provided that the spar web was inspected per paragraph A of this AD at the same time and found to be uncracked or that any crack in the web had been repaired per paragraph C of this AD, or

5. By striking out the words, "Boeing Service Bulletin 57-107, Revision 3, dated January 19, 1971," from paragraph D.2 and inserting the words "Boeing Service Bulletin No. 57-107, Revision 4," in place thereof.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423) and sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c); and 14 CFR 11.89).)

NOTE: The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedure and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Seattle, Wash., on September 13, 1978.

C. B. WALK, Jr.
Director,
Northwest Region.

[FR Doc. 78-26528 Filed 9-20-78; 8:45 am]

[4910-13]

[14 CFR Part 71]

[Airspace Docket No. 78-GL-13]

TRANSITION AREA

Proposed Designation

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The nature of this Federal action is to designate controlled airspace near Mason, Mich., to accommodate a new (VOR-A) instrument approach procedure into the Mason-Jewett Airport, Mason, Mich., established on the basis of a request from the Mason-Jewett Airport officials to provide that facility with instrument approach capability. The intended effect of this action is to insure segregation of the aircraft using this approach procedure in instrument weather conditions and other aircraft operating under visual conditions.

DATES: Comments must be received on or before October 13, 1978.

ADDRESSES: Send comments on the proposal to FAA Office of Regional Counsel, AGL-7, Attention: Rules Docket Clerk, Docket No. 78-GL-13, 2300 East Devon Avenue, Des Plaines, Ill. 60018. A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Ill. 60018.

FOR FURTHER INFORMATION CONTACT:

Clair M. Billington, Airspace and Procedures Branch, Air Traffic Division, AGL-530, FAA, Great Lakes Region, 2300 East Devon Avenue, Des Plaines, Ill. 60018, telephone 312-694-4500, extension 456.

SUPPLEMENTARY INFORMATION: The floor of the controlled airspace in this area will be lowered from 1200' above ground level to 700' above ground level. The development of the proposed instrument procedures necessitates the Federal Aviation Administration to lower the floor of the controlled airspace to insure that the procedure will be contained within controlled airspace. The minimum descent altitude for this procedure may be established below the floor of the 700 foot controlled airspace. In addition, aeronautical maps and charts will reflect the area of the instrument procedure which will enable other aircraft to circumnavigate the area in order to comply with applicable visual flight rule requirements.

Comments Invited

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Regional Counsel, AGL-7, Great Lakes Region, Rules Docket No. 78-GL-13, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Ill. 60018. All communications received on or before October 13, 1978, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

The Proposal

The Federal Aviation Administration is considering an amendment to subpart C of part 71 of the Federal Aviation Regulations (14 CFR Part 71) to establish a 700-foot controlled airspace transition area near Mason, Mich. Subpart C of part 71 was republished in the FEDERAL REGISTER on January 3, 1978 (43 FR 440).

The Proposed Amendment

Accordingly, the Federal Aviation Administration proposes to amend § 71.181 of part 71 of the Federal Aviation Regulations as follows:

In § 71.181 (43 FR 440), the following transition area is added:

MASON, MICH.

That airspace extending upward from 700 feet above the surface within a 6 mile radius of the center latitude 42°33'50" N, longitude 84°25'40" W, of the Mason-Jewett Airport, Mason, Mich.

This amendment is proposed under the authority of section 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); section 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); section 11.61 of the Federal Aviation Regulations (14 CFR 11.61).

NOTE.—The Federal Aviation Administration has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Des Plaines, Ill., on August 29, 1978.

JOHN M. CYROCKI,
Director,
Great Lakes Region.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 251]

LICENSED INDIAN TRADERS

Regulating Sale of Arms and Ammunition

SEPTEMBER 12, 1978.

AGENCY: Bureau of Indian Affairs, Department of the Interior.

ACTION: Proposed rulemaking.

SUMMARY: This notice is published in exercise of authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs by 210 DM 1.2. Notice is hereby given that it is proposed to revoke 251.8 of Part 251, Subchapter W, Chapter 1, of Title 25 of the Code of Federal Regulations. The purpose of this revocation is to relieve Indians and Indian Traders from unnecessary compliance with an obsolete rule.

DATE: Written comments must be received by October 23, 1978.

ADDRESSES: Accordingly, interested persons may submit written comments, suggestions or objections regarding the proposed revocation to the Assistant Secretary—Indian Affairs, Department of the Interior, Attention: Chief, Division of Law Enforcement Services, Bureau of Indian Affairs, 1951 Constitution Avenue NW., Washington, D.C. 20245.

FOR FURTHER INFORMATION CONTACT:

Mr. Eugene F. Suarez, Sr., Chief, Division of Law Enforcement Services, telephone 202-343-5786.

SUPPLEMENTARY INFORMATION: Part 251.8 requires the approval of the Agency Superintendent for an Indian to purchase a firearm or ammunition from an Indian Trader.

Circumstances which gave rise to this part no longer exist.

It is proposed to revoke 251.8 of Part 251, Subchapter W, Chapter 1, of Title 25 of the Code of Federal Regulations.

RICK LAVIS,
Deputy Assistant Secretary,
Indian Affairs.

Office of Surface Mining Reclamation and Enforcement

[30 CFR Chapter VII]

DRAFT REGULATORY ANALYSIS ON PROPOSED PERMANENT PROGRAM REGULATIONS

AGENCY: Office of Surface Mining Reclamation and Enforcement.

ACTION: Notice of availability of draft regulatory analysis (RA) on proposed permanent regulatory program.

SUMMARY: The Office of Surface Mining Reclamation and Enforcement has prepared a draft regulatory analysis (RA) on its proposed permanent regulatory program as required by Executive Order 12044. The purpose of the regulatory analysis is to improve the effectiveness of regulations and minimize unnecessary economic burdens on affected persons.

DATES: Comments on the draft RA must be received on or before November 17, 1978. The draft RA is being made available to the public on September 20, 1978.

ADDRESSES: Copies of the draft RA may be obtained at the following OSM Offices:

OSM Headquarters, Department of the Interior, Washington, D.C. 20240.
OSM Region I, First Floor Thomas Hill Building, 950 Kanawha Boulevard East, Charleston, W. Va. 25301, 304-342-8125.
OSM Region II, 530 Gay Street, Suite 500, Knoxville, Tenn. 37902, 615-637-8060.
OSM Region III, Federal Building, U.S. Courthouse, 46 East Ohio Street, Indianapolis, Ind. 46204, 317-269-2609.
OSM Region IV, 601 East 12th Street, Room 1768, Kansas City, Mo. 64106, 816-374-5162.
OSM Region V, Post Office Building, Room 270, 1823 Stout Street, Denver, Colo. 80202, 303-837-5511.

Public comments on the draft RA will be on public file and available for inspection at the following address:

Millie Dangielowicz, Office of Surface Mining, Room 120—South Building, U.S. Department of the Interior, Washington, D.C. 20240, 202-343-4728.

Comments on the draft RA must be mailed to the following address: The Office of Surface Mining, U.S. Department of the Interior, P.O. Box 7267, Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT:

Mark Boster, OSM, 202-343-5287.

SUPPLEMENTARY INFORMATION: Pursuant to the requirements of Executive Order 12044 (43 FR 12661; March 24, 1978), OSM has prepared a draft regulatory analysis (RA) on its proposed permanent regulatory program (43 FR 41662; September 18, 1978). The purpose of the RA is to improve the effectiveness of regulations and minimize unnecessary economic burdens on affected persons. Because the proposed regulations may have major economic consequences, OSM has analyzed the economic impacts, including engineering-cost estimates, of the major alternatives considered in drafting the regulations. The draft RA contains, along with a short description of the various alternatives considered, an explanation of the reasons for OSM's choice of one alternative over the others. As reflected in the preamble to the proposed regulations, OSM has attempted to examine the potential alternative methods of achieving the requirements of the Surface Mining Act and has opted for regulatory mechanisms that it believes, subject to public comment, will best implement the statutory mandates of the Act.

Copies of the draft RA are available to the public at the addresses given above. In preparing comments on the proposed regulations, the public is invited to comment on the draft RA as well. It will be most helpful to OSM if those comments focus on other alternatives having economic consequences that should be considered by OSM, with an explanation of the related economic impacts, including cost data and any supporting technical information.

In order to evaluate the data developed in the draft RA, OSM would like to receive, as part of the comments from members of the coal industry and any other interested parties, specific information about the alternatives analyzed in the draft RA and their related estimates of cost impacts.

After the close of the 60-day comment period on the proposed regulations, OSM will evaluate the economic data and other public comments on the draft RA and will prepare a final RA. This final RA will then be available to the public when the final permanent regulations are published on or about January 15, 1979.

Dated: September 15, 1978.

JOAN M. DAVENPORT,
Assistant Secretary Energy and Minerals.

[FR Doc. 78-26461 Filed 9-20-78; 8:45 am]

[7710-12]

POSTAL SERVICE

[39 CFR Part 111]

MAIL SECURITY REGULATIONS—PUERTO RICO

AGENCY: Postal Service.

ACTION: Proposed rule.

SUMMARY: This proposed regulation would implement section 3 of the Puerto Rico Federal Relations Act by allowing excise tax officials of the Commonwealth of Puerto Rico to record for tax purposes information appearing on the exterior of certain types of parcels received at any post office in Puerto Rico. The proposed regulations would change the final implementing rule promulgated on April 5, 1978, 43 FR 14314, which limited the recording of data for tax purposes to incoming insured, certified, or c.o.d. mail parcels received at the San Juan office.

DATE: Comments must be received on or before October 23, 1978.

ADDRESS: Written comments should be directed to the Assistant General Counsel, Special Projects, U.S. Postal Service, 475 L'Enfant Plaza West SW., Washington, D.C. 20260. Copies of all written comments received will be available for public inspection and photocopying between 9 a.m. and 4 p.m., Monday through Friday, outside room 9000, 475 L'Enfant Plaza West SW., Washington, D.C. 20260.

FOR FURTHER INFORMATION CONTACT:

Charles R. Braun, 202-245-4620.

SUPPLEMENTARY INFORMATION: Section 3 of the Puerto Rico Federal Relations Act, enacted March 2, 1917, allows excise taxes placed on certain items by the Legislature of Puerto Rico to be levied as soon as these items enter Puerto Rico. The act directs the U.S. Postal Service to assist the appropriate officials of the Puerto Rican Government in the collection of these taxes. 48 U.S.C. 741a (1970). To assist in carrying out the act, the Postal Service and its predecessor Post Office Department permitted Puerto Rican excise tax collection officials to record in the presence of a postal employee, for tax collection purposes, the names and addresses appearing on the exterior of all nonregistered mail parcels appearing to contain taxable items that originated outside Puerto Rico and were received at post offices throughout Puerto Rico. Detailed instructions were issued to postal officials in 1960 by the Bureau of Operations of the Post Office Department to this effect.

Last year the Postal Service proposed a comprehensive revision of its mail security regulations which included a provision authorizing cooperation by postal officials with Puerto Rican tax officials. 42 FR 18754-18758 (1977). Although the explanatory material stated that the proposal "would continue preexisting cooperative arrangements with the * * * Commonwealth of Puerto Rico * * *," 42 FR 18755, the proposed regulation literally curtailed the preexisting practice by limiting mail examination activities to those conducted in the San Juan Post Office, and to the recording of data on incoming insured, certified, or c.o.d. mail. Proposed Postal Service Manual 115.96, 42 FR 18758. No comments were received by the Postal Service from anyone about this aspect of the proposed regulations and the Postal Service promulgated section 115.96 this year as a final rule without change. 43 FR 14314 (1978). This amendment is intended to revise PSM 115.96 to accord with the preexisting and longstanding administrative practices described above, which were clearly not intended to be changed.

Although exempt from the requirements of the Administrative Procedure Act (5 U.S.C. 553 (b), (c)) regarding proposed rulemaking by 39 U.S.C. 410(a), the Postal Service invites public comments on the following proposed revision of the Postal Service Manual:

Section 115.96 of the Postal Service Manual [1] is revised to read as follows:

.96 Puerto Rico.

Under 48 U.S.C. 741a, postal employees in any post office in the Commonwealth of Puerto Rico are authorized to permit excise tax collection officials of the Commonwealth to record for tax collection purposes the names and addresses that appear on the exterior of all incoming parcels which appear to contain taxable items, except those sent by registered mail. A postal employee must be present during such recording and no mail may be opened, detained, or delayed for this purpose.

An appropriate amendment to 39 CFR 111.3 to reflect this change will be published if the proposal is adopted.

ROGER P. CRAIG,
Deputy General Counsel.

[FR Doc. 78-26533 Filed 9-20-78; 8:45 am]

[1] The Postal Service Manual is incorporated by reference in 39 CFR part 111.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 180]

[OPP-300016; FRL 971-6]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Proposed Exemptions from Requirement of a Tolerance for Certain Inert Ingredients in Pesticide Formulations

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This notice proposes that section 180.1001 be amended by adding two new inert (or occasionally active) ingredients in pesticide formulations and changing the use pattern of a third. The proposal was submitted by various firms. This amendment to the regulations would exempt two new inert ingredients from the requirement of a tolerence and include wheat in the use pattern of a third.

DATE: Comments must be received by October 23, 1978.

ADDRESS COMMENTS TO: Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, EPA, Room 401, East Tower, 401 M Street SW., Washington D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

Mr. David Ritter, Toxicology Branch, Registration Division (WH-567), Office of Pesticide Programs, EPA, 202-426-2680.

SUPPLEMENTARY INFORMATION: At the request of three firms, the Administrator is proposing to amend 40 CFR 180.1001 by exempting two additional pesticide chemicals which are inert (or occasionally active) ingredients in pesticide formulation from tolerance requirements and changing the use pattern of a third to include wheat.

Inert ingredients are all ingredients which are not active ingredients as defined in 40 CFR 162.3(c), and includes, but is not limited to the following types of ingredients (except when they have pesticidal efficacy of their own): Solvents such as water; baits such as sugar, starches, and meat scraps; dust carriers such as talc and clay; fillers; wetting and spreading agents; propellants in aerosol dispensers; and emulsifiers. The term inert is not intended to imply nontoxicity; the ingredient may or may not be chemically active.

The preambles to proposed rulemaking documents of this nature include the common or chemical name of the substance under consideration, the name and address of the firm making the request for the exemption or changed use pattern, and the toxicological and other scientific bases used in arriving at a conclusion of safety in support of the exemption or changed use pattern.

Inert ingredient	Firm	Bases for approval
Carrageenan	Marine Colloids, Inc., P.O. Box 308, Rockland, Maine 04841.	Carrageenan at molecular weights over 100,000 is considered toxicologically safe and is cleared for food additive use under 21 CFR 172.620. Adequate toxicity data (rat and dog feeding studies, a rat reproduction study, and a rat oncogenicity study).
Dipropylene glycon dibenzoate	Dow Chemical Co	Restriction to seed treatment use only.
Isophorone	Rohm & Haas Co., Independence Mall West, Philadelphia, Pa. 19105.	Adequate toxicity data to support the safety of the proposed use: 90-day dog and rat feeding studies with no-observable-effect levels of 600 ppm and 3,000 ppm, respectively.

Based on the above information, available information on the chemistry of these substances, and a review of their use, it has been found that, when used in accordance with good agricultural practice, these substances are useful and do not pose a hazard to the environment. It is concluded, therefore, that the proposed amendments to 40 CFR 180.1001 will protect the public health, and it is proposed that the regulation be established as set forth below.

Any person who has registered, or submitted an application for the registration of a pesticide under the Federal Insecticide, Fungicide, and Rodenticide Act which contains any of the ingredients listed herein may request, on or before October 23, 1978, that this rulemaking proposal be referred to an advisory committtee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on the proposed regulation. The comments must bear a notation indicating both the subject and the petition/document control number, "OPP-300016." All written comments filed in response to this notice of proposed rulemaking will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: September 14, 1978.

DOUGLAS D. CAMPT,
Acting Director,
Registration Division.

Statutory authority: Section 408(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(e)).

It is proposed that part 180, subpart D, § 180.1001 be amended by alphabetically inserting new items in the tables in paragraphs (c), (d), and (e) and by revising "isophorone * * *" in paragraph (d), as follows:

1. Section 180.1001 is amended by alphabetically inserting the items "Carrageenan * * *" in the tables in paragraphs (c) and (e) and "Dipropylene glycol dibenzoate * * *" in the table in paragraph (d) to read as follows:

§ 180.1001 Exemptions from the requirement of a tolerance.

(c) * * *

Inert ingredients	Limits	Uses
Carrageenan, conforming to 21 CFR 172.620.	Minimum molecular weight: 100,000.	Thickener.

(d) * * *

Inert ingredients	Limits	Uses
Dipropylene glycol dibenzoate	For seed treatment use only	Solvent, cosolvent.

(e) * * *

Inert ingredients	Limits	Uses
Carrageenan, conforming to 21 CFR 172.620.	Minimum molecular weight: 100,000.	Thickener.

2. Section 180.1001(d) is amended by revising the item "Isophorone * * *" in the table to read as follows: Section 180.1001 Exemptions from the requirement of a tolerance.

(d) * * *

Inert ingredients	Limits	Uses
Isophorone		Solvent and cosolvent for formulations used before crop emerges from soil, for postemergence herbicide use on rice and wheat before crop begins to head, and for postemergence use on beets (sugar beets, and table beets).

[40 CFR Part 762]

[FRL 947-2; OTS-6100]

Fully Halogenated Chlorofluoroalkanes

Toxic Substances Control Act

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: On March 17, 1978, the Environmental Protection Agency promulgated a rule (43 FR 11318) which will prohibit almost all of the manufacturing and processing of fully halogenated chlorofluoroalkanes (hereinafter referred to as chlorofluorocarbons) for those aerosol propellant uses which are subject to the Toxic Substances Control Act (TSCA), 15 U.S.C. 2601 et seq. This action proposes an amendment to the essential use exemption to the chlorofluorocarbon rule, 40 CFR 762.21(c). EPA now proposes to expand the scope of the exemption to cover total release and metered value aerosol devices.

DATES: Comments must be received by the Record and Hearing Clerk by October 23, 1978. An informal public hearing will not be held unless an interested party requests one. Requests for a public hearing must be received by the Record and Hearing Clerk by October 23, 1978.

ADDRESSES: The official record of rulemaking is located in room 520, WSME, EPA Headquarters, 401 M Street SW., Washington, D.C. 20460. The record is available for viewing and copying from 9 a.m. to 4 p.m., Monday through Friday, excluding holidays. Send comments to Joni T. Repasch, 202-755-1188, Record and Hearing Clerk, at the above address. Requests for public hearing must also be sent to the Record and Hearing Clerk.

FOR FURTHER INFORMATION CONTACT:

James D. Silverman, Office of Toxic Substances (TS-794), Environmental Protection Agency, 401 M. Street SW., Washington, D.C. 20460, 202-755-0920.

SUPPLEMENTARY INFORMATION:

I. REQUESTS TO AMEND THE PESTICIDE ESSENTIAL USE EXEMPTION

EPA's chlorofluorocarbon rule contains an essential use exemption for "Flying insect pesticides for use in nonresidential food handling areas except when applied by total release or metered valve aerosol devices and for space spraying of aircraft." (40 CFR 762.21(c).) EPA now proposes to expand the scope of the exemption to cover total release and metered valve aerosol devices.

As originally proposed the pesticide exemption permitted manufacture and processing of chlorofluorocarbons for use in aerosol pesticide devices intended for nonresidential food-handling uses. After reviewing the many detailed comments discussing the variety of aerosol devices and uses in food-related industries and institutions, EPA revised the rule to exempt only those aerosol devices that were not metered valve or total release devices. This revision was based on the finding that there were other methods of application and that the benefit derived from using the chlorofluorocarbon propellant, i.e., minimizing use of the pesticide, was offset by the additional exposure from metered valve and total release devices (which are often released automatically regardless of the need to apply the pesticide at that time). (See revised essential use determination support document, pp. B-5 to B-10, Mar. 17, 1978.)

Since promulgation several pesticide firms have requested that the rule be amended to delete the distinction appearing in the final rule. In essence, they have asserted that there is no environmental or health basis for distinguishing between metered valve and total release devices and other aerosol devices. EPA believes that use of metered valve and total release devices is likely to lead to increased human exposure to pesticide residues; however, other considerations have caused the Agency to conclude that the appropriate emphasis in considering the pesticide-exemption from this rule should not be on the device (i.e., metered valve or total release) used to apply the pesticide.

In evaluating industry's comments to the final rule, EPA has become aware that the problems associated with metered valve and total release devices involve safety, efficacy, and legal considerations that go significantly beyond the chlorofluorocarbon issue that is the focus of this rule. The Office of Pesticide Programs (OPP) is engaged in an ongoing evaluation of these devices which ultimately will result in a decision to reregister or not reregister them under the Federal Insecticide, Fungicide, and Rodenticide Act. Therefore, the agency has decided to consider the chlorofluorocarbon aspect of the problem during the reregistration proceedings rather than to introduce the issues OPP is already considering further into this proceeding. Accordingly, EPA now proposes to amend the pesticide exemption to include metered valve and total release devices. Further evaluation and regulation will be carried out by OPP with the aid of the Office of Toxic Substances.

Requests also have been made to amend the rule to allow pesticide exemptions for uses in barns, drug, and cosmetic plants, and hospitals. These requests were submitted, considered, and rejected during the rulemaking period. Because no new evidence has been presented that would justify reconsideration of these points, the requests are hereby denied.

II. REQUESTS TO CLARIFY THE PESTICIDE ESSENTIAL USE EXEMPTION

Various pesticide registrants have asked for further guidance concerning EPA's interpretation of nonresidential food handling areas (as defined in 40 CFR 762.21(c)). The final essential use support document listed food-handling areas in commercial or institutional kitchens, dining areas, and pantries as examples of what would be considered to be covered by the exemption. Further examples of permissible sites are nonresidential food-handling areas of supermarkets, food plants, food warehouses, bottling plants, hospitals, nursing homes, day-care centers, hotels, motels and egg and milk handling areas of dairies and chicken houses.

III. REQUESTS FOR NEW ESSENTIAL USE EXEMPTIONS

Belated requests were also received to allow new exemptions for products used for scuba diving equipment and for crack detectors in nuclear reactors. Although these requests contained no information which could not have been submitted during the comment period on the rule, EPA in its discretion is considering these requests because of the significance of the uses. Because these products have both civilian and military uses. EPA has referred the requesters to the Department of Defense (DOD) pursuant to the memorandum of understanding between DOD and EPA. Depending on DOD's and EPA's findings about the essentiality of the chlorofluorocarbon propellant, the Agency will decide later whether to grant or deny the requests.

IV. COMMENT PERIOD

Because of the relatively minor nature of this amendment and EPA's desire to promulgate the change before the effective date of the chlorofluorocarbon rule, a 30-day comment period, rather than the usual 60-day, is provided.

Dated: September 8, 1978.

DOUGLAS COSTLE,
Administrator.

It is proposed to amend 40 CFR by revising part 762 as follows:

By revising § 762.21(c) to read as follows:

§ 762.21 Essential use exemptions.

(c) Flying insect pesticides: (1) For use in nonresidential food handling areas, and (2) for space spraying of aircraft.

(Sec. 6, Pub. L. 94-469, 90 Stat. 2020 (15 U.S.C. 2605).)

[41 CFR Part 114-50]

UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES

Elimination to Exception to Nonallowable Moving Expenses Relating to Site Improvement

AGENCY: Office of the Secretary, Interior.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice invites comments on a proposal to amend departmental regulations pertaining to implementation and administration of Pub. L. 91-646 (Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970) activities. The amendment would eliminate the exception to nonallowable moving expenses relating to site improvement required by law. This action would conform Interior policy on this subject with those of the Department of Housing and Urban Development.

DATE: Comments must be received by October 23, 1978.

ADDRESS: Send comments to the Chief, Division of Property Management, Office of Administrative and Management Policy (PAM/PM), Room 5310, Department of the Interior, Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT:

James O. Wyatt, Chief, Division of Property Management, telephone 202-343-3185.

SUPPLEMENTAL INFORMATION: All written comments made pursuant to this notice will be available for public inspection at the Division of Property Management (Room 5310) Department of the Interior, during regular business hours, 7:45 a.m. to 4:15 p.m. (except holidays). The primary author of this proposal is George W. Sandberg, Room 5310, Department of the Interior, Washington, D.C. 20240 (phone 343-3185).

NOTE.—The Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under

Executive Order 11949 and OMB Circular No. A-107.

Dated: September 14, 1978.

RICHARD R. HITE,
Deputy Assistant Secretary of the Department of the Interior.

41 CFR 114-50 is amended as follows:

Subpart 114-50.6—Moving and Related Expenses

Amend § 114-50.601-2 to read as follows:

§ 114-50.601-2 Nonallowable moving expenses and losses.

* * * * *

(c) Improvements to the replacement site.

* * * * *

DEPARTMENT OF TRANSPORTATION

Materials Transportation Bureau

[49 CFR Part 192]

[Docket No. OPS-29; Reference Notice 74-4]

TRANSPORTATION OF NATURAL AND OTHER GAS BY PIPELINE

Recommendations of the National Transportation Safety Board

AGENCY: Materials Transportation Bureau.

ACTION: Withdrawal of advance notice of proposed rulemaking.

SUMMARY: Rulemaking action recommended by the National Transportation Safety Board (NTSB) concerning telemetry of pressure or flow data to warn of system failures, the definition of an "emergency," and closing designated valves in an emergency is not considered appropriate in light of public comments and current safety standards. The notice of proposed rulemaking is withdrawn.

FOR FURTHER INFORMATION CONTACT:

L. Furrow 202-426-0135.

SUPPLEMENTARY INFORMATION: On June 21, 1974, the Office of Pipeline Safety issued an advance notice of proposed rulemaking (ANPRM) (notice 74-4; 39 FR 24027, June 28, 1974) inviting public comments on three recommendations for rulemaking made by the NTSB in its report No. NTSB-PAR-74-3, titled, "Pipeline Accident Report—Missouri Public Service Co., Clinton, Mo., December 9, 1972." The report involved a gas explosion where operator personnel arrived 50 minutes before the incident but did not shut off the flow of gas until 1 hour and 40 minutes afterward. The NTSB's rulemaking recommendations were: *P-74-16.* Revise 49 CFR 192.741 to require pipeline operators to telemeter gas pressure or flow data in such a way as to insure prompt warnings of significant system failures shown by pressure or flow changes. The type and location of the data points should be considered on an individual basis and should include singlefed systems serving substantial numbers of customers.

P-74-17. Define what constitutes an emergency and provide clarification of the requiements of emergency procedures under 49 CFR 192.615, emergency plans.

P-74-18. Require that designated emergency valves be the valves closed initially when a section of main is required to be isolated in an emergency.

There were 72 persons who responded to the ANPRM; and the Department's Technical Pipeline Safety Standards Committee (TPSSC) discussed the matter at a meeting in Washington, D.C., on October 31, 1974.

There were no favorable comments with regard to recommendation P-74-16. A large majority of the commenters and the TPSSC stated that with few exceptions, telemetered pressure or flow data would not show the difference between normal variations in gas flow and hazardous pipeline leaks. Other commenters pointed out that a large number of data collection points would be necessary for a data telemetry system to be effective, which would be too costly in light of potential benefits. Other commenters stated that a pipeline failure could only be detected from telemetered data by an experienced, trained observer who is familiar with the pipeline system involved, and even then the data would not show the location of the failure. Still other commenters argued that available telemetry equipment has been unreliable and its usage could lead to operational problems.

The Materials Transportation Bureau (MTB) agrees with these comments and also the view expressed by some commenters and the TPSSC that surveillance as well as employee and customer education are better ways of reasonably providing prompt leak detection than an unproven data telemetry system. Surveillance is the subject of several part 192 regulations (e.g., §§ 192.613 and 192.723) and operating instructions for employees are covered by §§ 192.603 and 192.605. Also, since the ANPRM was issued, part 192 has been amended (Amendment 192-24, 41 FR 13587, March 31, 1978) to require that operators prepare and follow more detailed emergency procedures, and that personnel and customer education programs be conducted (see § 192.615). In addition to these current requirements, future rulemaking that is planned on the specifics of operating procedures should further help resolve the problems of early leak detection and timely operator response. For these reasons, recommendation P-74-16 has not been adopted.

Recommendation P-74-17, regarding emergency plans, was adopted in part by amendment 192-24. However, that amendment did not provide a definition of "emergency." Most commenters to the ANPRM and the TPSSC were against establishing a definition in part 192 because the term is generally understood and adopting any other meaning might restrict the applicability of the required emergency procedures (§ 192.615). MTB agrees. The current dictionary definition of the term "emergency" provides for the widest possible application of an operator's emergency procedures in light of the variations in gas systems and different situations that can occur requiring immediate operator response.

All the commenters and the TPSSC opposed recommendation P-74-18. Some of the significant reasons against it were: (1) Closing valves could present a greater hazard than the leak to be isolated, (2) an operator should be free to use the nearest available valves rather than predesignated ones, (3) often pipe can be dug up and isolated at the point of leakage by other means before valves can be closed and the pipeline blown down to reduce the pressure on a leak, and (4) due to the variations in operating conditions, the best regulatory approach is to require operators to develop procedures for isolating any line section in an emergency. MTB agrees with these views and has not adopted the recommendation. It should be noted that as a result of amendment 192-24, § 192.615(a)(6) requires operators to have and follow the necessary isolation and shutdown procedures.

In consideration of the foregoing, the ANPRM is hereby withdrawn.

(49 U.S.C. 1672; 49 CFR 1.53, App. A of part 1 and App. A of part 102.)

Issued in Washington, D.C., on September 15, 1978.

CESAR DE LEON,
Associate Director for Pipeline Safety Regulation Materials Transportation Bureau.

[FR Doc. 78-26499 Filed 9-20-78; 8:45 am]

[4910-60]

[49 CFR Part 192]

[Docket No. OPS-31; Reference Notice 74-7]

TRANSPORTATION OF NATURAL AND OTHER GAS BY PIPELINE

Definition of Gathering Line

AGENCY: Materials Transportation Bureau; DOT.

ACTION: Withdrawal of notice or proposed rulemaking.

SUMMARY: This document withdraws a notice of proposed rulemaking to establish a new definition of the term "gathering line". The proposed new definition of the term "gathering line" does not satisfactorily identify pipelines used in the gathering of gas but a new definition is no longer needed.

FOR FURTHER INFORMATION CONTACT:

L. Furrow, 202-426-0135.

SUPPLEMENTARY INFORMATION: On September 20, 1974, the Office of Pipeline Safety issued a notice of proposed rulemaking to establish a new definition in part 192 of the term "gathering line" (notice 74-7; 39 FR 34569, September 26, 1974). The term was to be defined as "a pipeline that transports gas from the point where gas is produced to the end of any treatment or other processing necessary to make the gas generally fit for consumers."

The proposed definition was intended to provide a clearer understanding of whether the Federal gas pipeline safety standards then in effect (part 192) did or did not apply to a given pipeline located outside populated areas. The need for the proposal arose because the Natural Gas Pipeline Safety Act of 1968 (NGPSA) (49 U.S.C. 1671 et seq.), which then provided the sole statutory authority for the Federal standards, provides for Federal regulation of the transmission and distribution of gas in locations outside populated areas but not the gathering of gas in those areas.

There were 30 persons who responded to the invitation for public comments in notice 74-7. Twenty-seven of these commenters and the Department's Technical Pipeline Safety Standards Committee (TPSSC), who discussed the proposal at a meeting on October 31, 1974, objected to the proposed definition, basically on grounds that it would not accomplish its objective. The primary reason which the commenters and the TPSSC advanced for their objections was that the proposed definition contained many words and phrases which are open to varied interpretation. For example, depending on the circumstances involved, a wet gas might be "generally fit for consumers" in some cases but not others. Also, if the meaning of the word "treatment" were to include odorization or the addition of propane to natural gas, some distribution lines would become gathering lines under the proposed definition. The only remedy which the Materials Transportation Bureau (MTB) sees for this definitional problem would require the establishment of a full set of definitions, covering the various terms related to the complex field of gas gathering.

Rather than propose further definitions, MTB has reconsidered the need to adopt a new definition of the term "gathering line" in light of current legislation. After issuance of notice 74-7, the Transportation Safety Act of 1974 (49 U.S.C. 1801 et seq.) was enacted. Title I of this act, the "Hazardous Materials Transportation Act," authorizes the Department to prescribe and enforce "regulations for the safe transportation in commerce of hazardous materials." This authority covers gas pipelines that are not subject to the NGPSA, which for the most part includes gas gathering lines located outside populated areas. As a consequence, MTB has exercised this authority to extend the scope of part 192 to cover certain offshore gas gathering lines (Amdt. 192-27, 41 FR 34598, August 16, 1976). Although the authority has not yet been applied under part 192 to regulate onshore gas gathering lines located outside populated areas, MTB has proposed to enlarge the scope of the leak reporting requirements in 49 CFR Part 191 to cover these pipelines (docket No. OPS-49, notice 1; 43 FR 24478, June 5, 1978). Given this state of events, with part 192 now applicable to offshore gathering lines and rulemaking action underway with regard to rural onshore gathering lines, MTB believes there is no longer a pressing need to adopt a new definition of gathering lines to distinguish them from other pipelines in rural areas for jurisdictional purposes.

In consideration of the foregoing, notice 74-7 is hereby withdrawn.

(49 U.S.C. 1672; 49 CFR 1.53, App. A of Part 1 and App. A of Part 102.)

Issued in Washington, D.C., on September 15, 1978.

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

COMMITTEE ON LICENSES AND AUTHORIZATIONS

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Committee on Licenses and Authorizations of the Administrative Conference of the United States, to be held at 10 a.m., Thursday, October 12, 1978, at the office of O'Melveny & Myers, 1800 M Street NW., Suite 500 South, Washington, D.C.

The Committee will meet to discuss its draft recommendation on government agency use of voluntary standards and the report on this subject by Prof. Robert W. Hamilton.

Attendance is open to the interested public, but limited to the space available. Persons wishing to attend should notify this office at least 2 days in advance. The Committee Chairman, if he deems it appropriate, may permit members of the public to present oral statements at the meeting; any member of the public may file a written statement with the Committee before, during or after the meeting.

For further information concerning this meeting contact David M. Pritzker, 202-254-7065. Minutes of the meeting will be available on request.

RICHARD K. BERG,
Executive Secretary.

DEPARTMENT OF AGRICULTURE

Soil Conservation Service

BRISCOE FLOODWATER RETARDING STRUCTURE R.C. & D. MEASURE, NEBR.

Intent Not To Prepare an Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Briscoe Floodwater Retarding Structure R.C. & D. Measure, Garden County, Nebr.

The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Benny Martin, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for installation of a floodwater retarding structure to reduce floodwater damages to irrigated crops, pastures, other agriculture properties, roads, and bridges. The planned works of improvement include a compacted earthfill dam with a corrugated metal principal spillway. An emergency spillway will be excavated in the earth abutment and will be vegetated.

The notice of intent not to prepare an environmental impact statement has been forwarded to the Environmental Protection Agency. A basic data developed during the environmental assessment are on file and may be reviewed by contacting Mr. Benny Martin, State Conservationist, Soil Conservation Service, Federal Building-U.S. Courthouse, Room 345, Lincoln, Nebr. 68508, telephone 402-471-5300. An environmental impact appraisal has been prepared and sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the environmental impact appraisal are available to fill single copy requests at the above address.

No administrative action on implementation of the proposal will be taken until October 23, 1978.

(Catalog of Federal Domestic Assistance Program No. 10.901, Resource Conservation and Development Program—Pub. L. 87-703, 16 U.S.C. 590a-f, q.)

Dated: September 13, 1978.

[3410-16]

FM 830 BOAT RAMP RECREATION DEVELOPMENT R.C. & D. MEASURE, TEXAS

Intent Not to prepare an Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the FM 830 Boat Ramp Recreation Development R.C. & D. Measure, Montgomery County, Tex.

The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. George C. Marks, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

A plan was jointly developed with the Montgomery County Commissioners Court and the Montgomery-Walker Soil and Water Conservation District to help local people solve their resource problems and protect and improve the quality of the human environment.

The measure concerns a plan for installing basic water-based recreation facilities and erosion control measures on a 6-acre tract of land on the east shore of Lake Conroe in Montgomery County, Tex. The planned recreation facilities include pave parking areas, a paved approach to an existing boat ramp, restrooms, a sidewalk, picnic units, trash receptacles, a water fountain, lighting, and landscaping. Erosion control measures to be installed to control critical shoreline erosion include bulkheading and backfilling along the lake shoreline, establishment of permanent vegetation and constructing a barrier fence to protect the treated area. The installation is planned over a 1-year period.

The notice of intent not to prepare an environmental impact statement has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by contacting Mr. George C. Marks, State Conservationist, Soil Conservation Service, W. R. Poage Federal Building, 101 South Main, Temple, Tex. 76501, telephone 817-774-1214. An environmental impact appraisal has been prepared and sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the environmental impact appraisal are available to fill single copy requests at the above address.

No administrative action on implementation of the proposal will be taken until October 23, 1978.

NAVARINO WILDLIFE AREA CRITICAL AREA TREATMENT AND PUBLIC WATER-BASED FISH AND WILDLIFE R.C. & D. MEASURE, WIS.

Intent Not To Prepare An Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Navarino Wildlife Area Critical Area Treatment and Public Water-Based Fish and Wildlife R.C. & D. Measure, Shawano County, Wis.

The environmental assessment of this Federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. J. C. Hytry, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for critical area treatment and water-based fish and wildlife development. The planned works of improvement include the installation of flowages, level ditches, potholes, parking areas, and an overlook on portions of the 13,579-acre State-owned Navarino Wildlife Area.

The notice of intent not to prepare an environmental impact statement has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by contacting Mr. J. C. Hytry, State Conservationist, Soil Conservation Service, 4601 Hammersley Road, Madison, Wisconsin 53711, telephone 608-252-5341. An environmental impact appraisal has been prepared and sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the environmental impact appraisal are available to fill single copy requests at the above address.

No administrative action on implementation of the proposal will be taken until October 23, 1978.

WEST CLINTON FLOOD PREVENTION R.C. & D. MEASURE, IND.

Intent Not to Prepare an Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the West Clinton Flood Prevention R.C. & D. Measure, Vermillion County, Ind.

The environmental assessment of this Federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Buell M. Ferguson, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for flood prevention. The planned works of improvement include subsurface drains, storm drains, a grass waterway, critical area planting and a water storage basin.

The notice of intent not to prepare an environmental impact statement has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by contacting Mr. Buell M. Ferguson, State Conservationist, Soil Conservation Service, Corporate Square-West, Suite 2200, 5610 Crawfordsville Road, Indianapolis, Ind. 46224, telephone 317-269-6515. An environmental impact appraisal has been prepared and sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the environmental impact appraisal are available to fill single copy requests at the above address.

No administrative action on implementation of the proposal will be taken until October 23, 1978.

COMMISSION ON CIVIL RIGHTS

OHIO ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Ohio advisory committee (SAC) of the Commission will convene at 10 a.m., and will end at 4 p.m., on October 14, 1978, Imperial 400 Motel Inc., 665 West Broad, Columbus, Ohio 43215. (Room 103.)

Persons wishing to attend this open meeting should contact the committee chairperson, or the midwestern regional office of the Commission, 230 South Dearborn Street, 32d Floor, Chicago, Ill. 60604.

The purpose of this meeting is to discuss the proposed police community relations project.

This meeting will be conducted pursuant to the provisions of the rules and regulations of the Commission.

Dated at Washington, D.C., September 18, 1978.

JOHN I. BINKLEY,
Advisory Committee Management Officer.

DEPARTMENT OF COMMERCE

Bureau of the Census

CENSUS ADVISORY COMMITTEE OF THE AMERICAN ECONOMIC ASSOCIATION

Public Meeting

Pursuant to the Federal Advisory Committee Act, as amended, 5 U.S.C. App. (1976), notice is hereby given that the Census Advisory Committee of the American Economic Association will convene on October 13, 1978, at 9:15 a.m., in Room 2424, Federal Building 3, at the Bureau of the Census in Suitland, Md.

The Census Advisory Committee of the American Economic Association advises the Director, Bureau of the Census, on technical matters, accuracy levels, and conceptual problems concerning the the economic censuses; reviews major aspects of the Bureau's programs, and advises on the role of analysis within the Bureau and the need for providing data in more detail.

The Committee is composed of 15 members of the American Economic Association.

The agenda for the meeting, which is scheduled to adjourn at 4 p.m., is: (1) Introductory remarks by the Director of the Census Bureau, including: staff changes, major budget program development, and other topics of current interest; (2) status of planning for the 1980 census; (3) 1980 census—plans for coverage improvement, and pretest results; (4) comparison of the results of the 1972 Census of Construction Industries and Value of New Construction Put in Place Series: (5) 1977 Economic Censuses Evaluation Program; (6) plans to improve seasonal adjustment of economic time series; (7) progress report on Survey of Income and Program Participation; (8) committee discussion, questions, and recommendations; and (9) plans and date for the next meeting.

The meeting will be open to the public, and a brief period will be set aside for public comment and questions. Extensive questions or statements must be submitted in writing to the committee control officer at least 3 days prior to the meeting.

Persons planning to attend and wishing additional information concerning this meeting or who wish to submit written statements may contact the Committee Control Officer, Mr. Elmer Biles, Senior Economic Advisor, Bureau of the Census, Room 3061, Federal Building 3, Suitland, Md. (Mail address: Washington, D.C. 20233.) Telephone 301-763-7184.

Dated: September 15, 1978.

MANUEL D. PLOTKIN,
Director,
Bureau of the Census.

Economic Development Administration

BARONESS LEATHER PRODUCTS, INC. AND LIDO FASHIONS, INC.

Petitions for Determinations of Eligibility To Apply for Trade Adjustment Assistance

Petitions were accepted for filing from two firms: (1) Baroness Leather Products, Inc., 284 State Street, Perth Amboy, N.J. 08861, a producer of handbags and luggage (accepted September 13, 1978); and (2) Lido Fashions, Inc., 104 Gray Street, Paterson, N.J. 07501, a producer of women's coats (accepted September 15, 1978). The petitions were accepted pursuant to Section 251 of the Trade Act of 1974 (Pub. L. 93-618) and § 315.23 of the adjustment assistance regulations for firms and communities (13 CFR Part 315).

Consequently, the United States Department of Commerce has initiated separate investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Chief, Trade Act Certification Division, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business of the tenth calendar day following the publication of this notice.

JACK W. OSBURN, JR.,
Chief, Trade Act Certification Division, Office of Planning and Program Support.

ENDANGERED SPECIES PERMITS

Receipt of Application for Permit

Notice is hereby given that an applicant has applied in due form for a permit to take marine mammals as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the regulations governing the taking and importing of marine mammals (50 CFR Part 216), the Endangered Species Act of 1973 (16 U.S.C. 1531-1543), and the regulations governing endangered fish and wildlife permits (50 CFR Parts 217-222).

1. Applicant: Dr. William W. Dawson, Professor of Ophthalmology and Physiology. Address: Department of Ophthalmology, J. Hillis Miller Health Center, Box J-284, University of Florida, College of Medicine, Gainesville, Fla. 32610.

2. Type of permit: Scientific Research/Scientific Purposes.

3. Name and number of animals: Humpback whales (*Megaptera novaeangliae*), 6; Rough-toothed dolphin (*Steno bredanensis*), 6; Spotted dolphin (*Stenella frontalis*), 6; Bottlenose dolphin (*Tursiops truncatus*), 6; Risso's dolphin (*Grampus griseus*), 6; Spinner dolphin (*Stenella longirostris*), 6; Gray-pigmy killer whale (*Feresa attenuata*), 6; False killer whale (*Pseudorca crassidens*), 6; Killer whale (*Orcinus orca*), 6; Short finned pilot whale (*Globicephala macrorhyncha*), 6; Sperm whale (*Physeter catodon*), 6; Dwarf sperm whale (*Kogia simus*), 6; Goose-beaked whale (*Ziphius cavirostris*), 6.

4. Type of take: Collect and import specimens made available by commercial fisheries.

5. Location of activity: Windward Islands; controlled by the Grenadian Government.

6. Period of activity: 3 years.

The arrangements and facilities for transporting and maintaining the marine mammals requested in the above described application have been inspected by a licensed veterinarian, who has certified that such arrangements and facilities are adequate to provide for the well-being of the marine mammals involved.

Concurrent with the publication of this notice in the FEDERAL REGISTER the Secretarty of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written data or views, or requests for a public hearing on this application should be submitted to the Assistant Administrator for Fisheries, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, by October 23, 1978. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries.

All statements and opinions contained in this application are summaries of those of the applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Documents submitted in connection with the above application are available for review in the following offices: Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street NW., Washington, D.C.; and Regional Director, National Marine Fisheries Service, Southeast Region; 9450 Koger Boulevard, St. Petersburg, Fla. 33702.

Dated: September 15, 1978.

RICHARD B. ROE,
Acting Director, Office of Marine Mammal and Endangered Species, National Marine Fisheries Service.

Office of the Secretary

GRANTS ADMINISTRATION TASK FORCE

Meeting

Announcement is made of the following Grants Administration Task Force meeting:

Name: Department of Commerce Grants Administration Task Force.
Date: October 6, 1978.
Place: Conference room 4830, Main Commerce Building, 14th Street and Constitution Avenue, NW., Washington, D.C.
Time: 9 a.m. to 12 p.m.; 1:30 p.m. to 3 p.m.
Proposed Agenda: 9 a.m. to 9:15 a.m.: Overview of grants administration issues by the Task Force. 9:15 a.m. to 12 a.m.: Discussion of issues and concerns by the public. 1:30 p.m. to 3 p.m.: Questions and answers.

Purpose of meeting: The Task Force will highlight the principal grants administration issues that have been identified for the development of departmental policy and recommendations. The representatives from the public will be asked to identify areas of grants administration that they would like the Task Force to consider for policy formulation.

Meeting of the Task Force is open to the public. It may be necessary to limit the number of minutes that each person speaks. Reservations may be made; otherwise, attendance will be on a first-come-first-serve basis.

All communications regarding this meeting should be addressed to Ms. Virginia Robinson, Chairperson, Grants Administration Task Force, Department of Commerce, Room 5725, Washington, D.C. 20230.

GARY W. CHAMBERLAIN,
Deputy Assistant Secretary for Administration.

DEPARTMENT OF ENERGY

Economic Regulatory Administration

NORTHERN STATES POWER CO. 500 kV INTERNATIONAL TRANSMISSION LINE

Availability of Draft Environmental Impact Statement

AGENCY: Department of Energy, Economic Regulatory Administration.

ACTION: Notice of availability of draft environmental impact statement.

SUMMARY: The Department of Energy gives notice of the availability of the draft environmental impact statement (EIS) for the Northern States Power Co. 500 kV International Transmission Line, DOE/EIS-0032-D.

DATE: Comments must be received by October 31, 1978.

FOR FURTHER INFORMATION CONTACT:

James M. Brown, Jr., Systems Reliability and Emergency Response Branch, Department of Energy, Room 538—Vanguard Building, 2000 M Street NW., Washington, D.C. 20461, 202-634-5620.

Robert J. Stern, Office of Environment, Department of Energy, Room 7119—Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, 202-566-9760.

Lise Courtney Howe, Office of General Counsel, Department of Energy, Room 5116—Federal Building, 12th & Pennsylvania Avenue NW., Washington, D.C. 20461, 202-566-9995 or 202-566-9380.

SUPPLEMENTARY INFORMATION: The draft was prepared pursuant to the requirements of the National Environmental Policy Act of 1969, to analyze the environmental impacts of a 500 Kv transmission line extending from Forbes, Minn. to the United States-Canadian border. This facility would be constructed and operated by the Northern States Power Co. and the Minnesota Power & Light Co. to exchange electric energy with the Manitoba Hydroelectric Board. The construction of this facility will require the issuance of a Presidential permit by DOE.

Copies of the draft EIS have been distributed for review and comment to appropriate Federal, Minnesota and local agencies, and other organizations and individuals who are known to have an interest in these activities.

Copies of the statement are also available for public inspection between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except holidays, at the following DOE public reading rooms:

Library, Department of Energy, 20 Massachusetts Ave. NW., Washington, D.C. 20545.
Freedom of Information Reading Room, Department of Energy, Room 2107 (Box VQ)—Federal Bldg., 12th and Pennsylvania Ave. NW., Washington, D.C. 20461.
Albuquerque Operations Office, National Atomic Museum, Kirtland Air Force Base, Albuquerque, N. Mex. 87115.
Chicago Operations Office, 9800 South Cass Ave., Argonne, Ill. 60439.
Chicago Operations Office, 175 West Jackson Blvd., Chicago, Ill. 60604.
Idaho Operations Office, 550 Second St., Idaho Falls, Idaho 83401.
Nevada Operations Office, 2753 South Highland Dr., Las Vegas, Nev. 89109.
Oak Ridge Operations Office, Federal Bldg., Oak Ridge, Tenn. 37830.
Richland Operation Office, Federal Bldg., Richland, Wash. 99352.
San Francisco Operations Office, 1333 Broad, Oakland, Calif. 94612.
Savannah River Operations Office, Savannah River Plant, Aiken, S.C. 29801.

Individual copies of the draft environmental impact statement are available upon request at the Systems Reliability and Emergency Response Branch, Department of Energy, Room 538, Vanguard Building, 2000 M Street NW., Washington, D.C. 20461.

Comments and views concerning the draft environmental impact statement are requested from other interested agencies, organizations and individuals. Commentors are requested to mail fifteen (15) copies of the comments to docket PP-63, Department of Energy, Room 4070, Vanguard Building, 2000 M Street NW., Washington, D.C. 20461. Comments received on the

V 4 3 / 1 8 4 S E 2 1 7 8 V

draft environmental impact statement will be considered in the preparation of the final statement if received by DOE on or before October 31, 1978.

Issued in Washington, D.C., September 18, 1978.

WILLIAM P. DAVIS,
Deputy Director of Administration.

[FR Doc. 78-26516 Filed 9-20-78; 8:45 am]

Office of Environment

[DOE/EIS-0003]

PROTON-PROTON STORAGE ACCELERATOR FACILITY (ISABELLE), BROOKHAVEN NATIONAL LABORATORY, UPTON, N.Y.

Availability of Final Environmental Impact Statement

Notice is hereby given that the U.S. Department of Energy (DOE) has issued a final environmental impact statement, DOE/EIS-0003, Proton-Proton Storage Accelerator Facility (Isabelle), Brookhaven National Laboratory, Upton, N.Y. The statement was prepared pursuant to implementation of the National Environmental Policy Act of 1969 to provide environmental input into DOE's proposed legislative action requesting funds for the construction and operation of a proton-proton colliding beam facility (Isabelle). The statement assesses the potential incremental environmental impacts associated with the construction and operation of Isabelle at the Brookhaven National Laboratory.

The Isabelle facility will be used for advanced research in the DOE high energy physics program and will provide higher levels of interaction energy than are presently available.

Copies of the final environmental impact statement have been distributed to those who commented on the draft statement, as well as others who requested copies.

Copies of the statement are available for public inspection at the DOE public document rooms located at:

Library, Room 1223, 20 Massachusetts Ave., NW., Washington, D.C.
Albuquerque Operations Office, National Atomic Museum, Kirtland Air Force Base East, Albuquerque, N. Mex.
Brookhaven National Laboratory, Research Library, Upton, N.Y.
Chicago Operations Office, 9800 South Cass Ave., Argonne, Ill.
Chicago Operations Office, 175 West Jackson Blvd., Chicago, Ill.
Idaho Operations Office, 550 Second St., Idaho Falls, Idaho.
Nevada Operations Office, 2753 South Highland Dr., Las Vegas, Nev.
Oak Ridge Operations Office, Federal Bldg., Oak Ridge, Tenn.
Richland Operations Office, Federal Bldg., Richland, Wash.
San Francisco Operations Office, 1333 Broadway, Oakland, Calif.
Savannah River Operations Office, Savannah River Plant, Aiken, S.C.

Copies are also available for public inspection at designated Federal Depository Libraries.

A limited number of single copies of the final statement are available for distribution by the Technical Information Center, P.O. Box 62, Oak Ridge, Tenn. 37830, 615-483-8611, extension 34672. The statement is also available from the National Technical Information Service, Springfield, Va. 22161.

Dated at Washington, D.C., this 18th day of September 1978.

For the U.S. Department of Energy.

WILLIAM P. DAVIS,
Deputy Director of Administration.

[6740-02]

Federal Energy Regulatory Commission

[Project No. 2422]

BROWN-NEW HAMPSHIRE, INC.

Order Approving Exhibits J, L, and M and Ordering Rehabilitation

SEPTEMBER 12, 1978.

The application: On April 18, 1976, Brown-New Hampshire, Inc. (Licensee) filed an application for amendment of its license for the sawmill project No. 2422.[1] The sawmill project is located on the Androscoggin River in the city of Berlin, Coos County, N.H. In the application, the Licensee filed revised exhibits J, L, and M, reflecting removal of the project's turbines and generators. The revised exhibit J also contains several notations referring to a 2-foot pondage drawdown, from normal headwater at elevation 1094.10 to elevation 1092.10. The Licensee stated that the generators, turbines, and associated distribution equipment were removed from the station in January 1968.

Licensee removed these project works without Commission approval. Staff reports, however, that the equipment was archaic and not adaptable to future development. We do not condone the removal of licensed project works without our prior approval. Replacement of the original works, however, would serve no useful purpose. As discussed below, we are ordering the Licensee to install new hydroelectric facilities at project No. 2422. We are approving the revised exhibits only to the extent that they show the current condition of the project, pending rehabilitation as provided by this order.

FEASIBILITY OF INSTALLATION OF CAPACITY AT PROJECT NO. 2422

When the project was licensed in 1965, it had an installed capacity of 2,200 kW of direct current generating machinery.[2] Brown-New Hampshire, Inc., 34 FPC 151 (1965). Included in the license was article 35 which required the Licensee to file within 1 year a feasibility report on rehabilitation of the power facilities. By letter dated April 5, 1973, the Secretary inquired about ther Licensee's plans to rehabilitate the facilities. In its reply dated April 11, 1973, the Licensee stated that the feasibility studies conducted between 1965 and 1972 indicated that the rehabilitation would be borderline economically. On October 2, 1973, the Licensee filed a feasibility study which showed that the project could be redeveloped to produce energy at less cost than it was being purchased from the Public Service Co. of New Hampshire. The study also showed, however, that the cost savings would represent a return of only 8 percent annually on the capital invested in the redevelopment of the project. The Licensee stated, however, that 8 percent was not an adequate return on investment and, therefore, the redvelopment was not economically feasible. In a letter dated November 19, 1973, the Secretary requested that the Licensee file an application for surrender of its license if it did not desire to redevelop the project. The Secretary renewed his request by letter dated January 23, 1976. It was in response to this letter that the Licensee filed the application before us now.

In 1977, staff reevaluated the economics of redeveloping the project and found that, due to the increased cost of producing alternative electric power, the project would have a return on investment of approximately 13 percent annually. By letter dated April 22, 1977, the Secretary of the Commission informed the Licensee of staff's report and requested that the Licensee submit a revised feasibility study based on current costs and power values. On January 3, 1978, the Licensee submitted a revised feasibility study. The study was based on projected cost of purchasing power in 1978. The study showed that the redevelopment, with an installed capacity

[1] This proceeding was commenced before the FPC. By the joint regulation of October 1, 1977 (10 CFR 1000.1), it was transferred to the FERC. The term "Commission," when used in the context of action taken prior to October 1, 1977, refers to the FPC; when used otherwise, the reference is to the FERC.

[2] The direct current generating machinery has not been used since the Licensee's predecessor discontinued electroplating operations in 1960.

of approximately 2,500 kW, would yield a rate of return on investment of 15.3 percent annually. The Licensee stated, however "* * * although the return on investment has increased considerably since the 1973 feasibility report, our conclusion is that the project is not, at this time, economically feasible * * *." We cannot agree with the Licensee's conclusion.

The water that flows by the sawmill project is a renewable resource capable of generating—at an installed capacity of approximately 2,500 kW—an estimated 20,000,000 kWh annually of electric energy which is equivalent to 32,400 barrels of oil. All of the energy that the project is capable of producing could be used by the Licensee.

Pursuant to article 13 of the license, we have the authority to order the rehabilitation of the project, if rehabilitation is economically sound and in the public interest.[3] As noted above, the latest feasibility study shows that redevelopment of the project with approximately 2,500 kW of capacity would yield an annual return of more than 15 percent on the capital investment. The estimated annual yield on investment will increase as the retail cost of electricity increases. We find, therefore, that the redevelopment of the sawmill project would be economically sound.

We believe that the public interest would best be served by developing the hydroelectric power potential of the project and, therefore, reducing the use of nonrenewable energy resources. Thus, pursuant to article 13 of the license for Project No. 2422, we are ordering the Licensee to install hydroelectric generating units with approximately 2,500 kW capacity to develop the available head at the project.

The Commission orders: (A) The following exhibits are approved and made a part of the license for project No. 2422, but only to the extent that they show the existing condition of the project and its works:

Exhibit J, FERC No.	Showing	Superseded exhibit, FERC No.
2422-9.....	Plan view of project area	2422-1
2422-10...	Transmission system	2422-2

Exhibit L, FERC No.	Showing	Superseded exhibit, FERC No.
2422-11...	Plan view of station and dam sections.	2422-8
2422-13...	Sections of station and gatehouse.	2422-5
2422-14...	Plan view of operating floor....	2422-6

Exhibit M, consisting of two typewritten pages filed April 19, 1976, entitled "General Description of Mechanical, Electrical and Transmission Equipment revised April 15, 1976."

(B) The superseded exhibits are deleted from the license for project No. 2422.

(C) The Licensee shall file for Commission approval, within 6 months from the date of this order, revised exhibits J, L, and M, showing plans for the installation of approximately 2,500 kW of generating capacity at the project.

(D) This order shall become final 30 days from the date of its issuance unless an application for rehearing shall be filed as provided in section 313(a) of the act, and failure to file such an application shall constitute acceptance of this order. In acknowledgment of acceptance of this order, it shall be signed by the Licensee and returned to the Commission within 60 days of the issuance of this order.

By the Commission.

KENNETH F. PLUMB,
Secretary.

In testimony of its acknowledgement of acceptance of all of the terms and conditions of this order, Brown—New Hampshire, Inc. this —— day of ————, 19—, has caused its corporate name to be signed hereto by ————, its ———— President, and its corporate seal to be affixed hereto and attested by ———— its ———— Secretary, pursuant to a resolution of its Board of Directors duly adopted on the —— day of ——, 19—, a certified copy of the record of which is attached hereto.

By ————
President.

Attest:

————
Secretary.

[FR Doc. 78-26468 Filed 9-20-78; 8:45 am]

[3] Article 13 reads: The Licensee shall install additional capacity or make other changes in the project as directed by the Commission, to the extent that it is economically sound and in the public interest to do so, after notice and opportunity for hearing.

[6740-02]

[Docket No. ER78-593]

CENTRAL ILLINOIS PUBLIC SERVICE CO.

Filing

SEPTEMBER 12, 1978.

Take notice that Central Illinois Public Service Co. (CIPS) on August 30, 1978, tendered for filing proposed modification No. 2 to the Interconnection Agreement (Agreement) dated August 31, 1976, between Central Illinois Public Service Co. and Central Illinois Light Co. CIPS states that the Commission has previously designated the August 31, 1976 Agreement as Central Illinois Public Service Co. rate schedule FERC No. 81 and Central Illinois Light Co. rate schedule FERC No. 20.

CIPS further states that modification No. 2 provides for a proposed increase in charges effective October 1, 1978, for maintenance, short-term firm and short-term non-firm power transactions between Central Illinois Public Service Co. and Central Illinois Light Co.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C., 20426, in accordance with sections 1.8 or 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 20, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER78-591]

EMPIRE DISTRICT ELECTRIC CO.

Proposed Tariff Change

SEPTEMBER 12, 1978.

Take notice that the Empire District Electric Co. on August 30, 1978, tendered for filing proposed changes in its FERC Electric Service Tariff, volume No. 1. the proposed changes would increase revenues from present jurisdictional sales and service by $165,444 based on the 12-month period ending February 28, 1978 and would add revenues of $60,712 from new jurisdictional sales and service based on estimated revenue for the 12-month period ending September 30, 1978, according to Empire.

According to Empire the presently effective rates are based on contractual agreements made up to 11 years ago. Empire states that since that time it has experienced substantial increase in all elements of its cost, including fuel, labor, interest, taxes, and construction to provide additional capacity and meet environmental requirements.

Copies of the filing were served upon the public utility's jurisdictional customer, the Missouri Public Service Commission, and the Kansas Corp. Commission, according to Empire.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with paragraph 1.8 and 1.10 of the Commission's rules of practice and procedures (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 20, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. ER78-594]

THE KANSAS POWER & LIGHT CO.

Filing

SEPTEMBER 12, 1978.

Take notice that on August 30, 1978, the Kansas Power & Light Co. (KPL) tendered for filing a newly executed amendment No. 1 and service schedule E dated August 16, 1978 to rate schedule FPC No. 72 between KPL and Central Telephone and Utilities Corp (CTU). KPL states that amendment No. 1 requires that certain interconnection facilities are to be constructed by both parties prior to deliveries under this amendment. KPL further states that amendment No. 1 shall extend for an initial period ending May 31, 2013 continuing in effect from year to year thereafter, subject to termination by either party by the giving of not less than 5 years written notice of its intention to terminate. KPL indicates that service schedule E provides that KPL agrees to furnish from KPL's ownership percentage of Units 1 and 2 of the Jeffrey Energy Center (JEC), and CTU agrees to purchase 65 MW of power and accompanying energy during the period of August 16, 1978 through May 31, 1993.

KPL proposes an effective date of August 16, 1978, and therefore requests waiver of the Commission's notice requirements.

According to KPL copies of the amendment and service schedule have been mailed to CTU and the State Corporation Commission of Kansas.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 20, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. ER78-590]

NORTHERN STATES POWER CO.

Filing

SEPTEMBER 12, 1978.

Take notice that Northern States Power Co. (Northern States), on August 29, 1978, tendered for filing a Transmission and Interchange Service Agreement, dated August 15, 1978, with Heartland Consumers Power District.

Northern States states that the Agreement provides for services between the parties under the following Service Schedules:

"C"—Emergency and scheduled outage energy.
"D"—Operating reserve.
"E"—Economy energy.
"F"—Transmission service.

Northern States proposes an effective date of October 2, 1978.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions and protests should be filed on or before September 20, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protests parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. ER78-595]

OHIO POWER CO.

Proposed Changes in Rates and Charges

SEPTEMBER 12, 1978.

Take notice that Ohio Power Co. and American Municipal Power—Ohio, Inc. on September 1, 1978, tendered for filing a rate schedule supplement dated August 1, 1978 to the agreement dated April 1, 1974 between Ohio Power and American Municipal Power-Ohio, Inc. (AMP-Ohio), designated Ohio Power rate schedule No. 74 and AMP-Ohio rate schedule No. 1.

According to Ohio Power the filing provides for an increase in the demand charge for short term power from $0.50 to $0.60 per kilowatt per week and for an increase in the demand charge for limited term power from $2.75 to $3.75 per kilowatt per month. The filing also provides for increases in the charges for third party short term power transactions from $0.125 to $0.15 per kilowatt per week and in the charge for third party limited term power transactions from $0.55 to $0.65 per kilowatt per month, according to Ohio Power.

The rate schedule changes are proposed to become effective September 1, 1978. Applicants state that the use of short term power or limited term power is unknown at the present time.

Copies of the filing were served upon the city of Orrville, Ohio, and the Public Utilities Commission of Ohio.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 20, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-26473 Filed 9-20-78; 8:45 am]

[6740-02]

[Docket No. CP77-480]

PANHANDLE EASTERN PIPE LINE CO. AND TRUNKLINE GAS CO.

Petition to Amend

SEPTEMBER 8, 1978.

Take notice that on August 25, 1978, Panhandle Eastern Pipe Line Co. and Trunkline Gas Co. (Applicants), P.O. Box 1642, Houston, Tex. 77001, filed in docket No. CP77-480 a joint petition to amend the order, issued on August 29, 1977 in said docket pursuant to section 7(c) of the Natural Gas Act, so as to authorize an extension of the term of the transportation service for Owens-Corning Fiberglass Corp. (Owens-Corning) for one year and for a reduction in the firm transportation quantity and transportation charges, all as more fully set forth in the petition on file with the Commission and open to public inspection.

Applicants state that an agreement entered May 5, 1977 exists between Applicants and Owens-Corning under which Applicants transport gas from Ellis County, Okla. to a point near Cow Island, La. where delivery is made to Transcontinental Gas Pipe Line Co. for the account of Owens-Corning. Applicants further state that said transportation has been pursuant to a certificate of public convenience and necessity issued August 29, 1977 in docket No. CP77-480, which authorizes Applicants to transport on a firm basis of up to 1,200 Mcf of gas per day and on a best-efforts basis of up to 800 Mcf of gas per day for Owens-Corning, at a monthly charge of $6,276, for a period of one year.

Applicants now request that the certificate issued in docket No. CP77-480 be extended for an additional year. Applicants further requests that the certificate be amended to reflect amendments in the transportation agreement between Applicants and Owens-Corning which Applicants state have been made. The amendments to the certificate requested are: a reduction to 750 Mcf per day the amount of gas authorized to be transported on a firm basis, a reduction in the authorized monthly transportation charge to $4,215, and an increase in the charge for volumes of gas transported in excess of the firm volumes from 17.21 cents per Mcf to 18.49 cents per Mcf of gas transported on a best-efforts basis. Owens-Corning has requested that the firm transportation quantity be reduced, Applicants state, because of poor performance of the well from which it is purchasing its gas.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before September 29, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-26474 Filed 9-20-78; 8:45 am]

[6740-02]

[Project No. 2655]

REEVES BROTHERS, INC.

Order on Rehearing

SEPTEMBER 12, 1978.

On May 29, 1975 Reeves Brothers Inc. (Applicant) filed an application for rehearing of the Federal Power Commission's order of April 29, 1975 issuing a license for Eagle and Phenix Mills project, FERC project No. 2655.[1] Applicant requested rehearing with respect to three items: (1) Article 8 which established a reasonable rate of return for the purpose of section 10(d)[2] amortization; (2) article 27 which addressed, inter alia, the Commission's authority to terminate a license; and (3) the inclusion of certain 699-volt transmission lines within the project.

Subsequent FPC orders granted rehearing for the purpose of further consideration,[3] modified language in article 27 clarifying the Commission's power to deem it to be the intent of the licensee to surrender the license,[4] and revised article 8 to reflect the reasonable rate of return adopted in FPC order No. 550, 56 FPC —— (August 30, 1976).[5]

The only unresolved issue in this rehearing proceeding is the propriety of including the 600-volt transmission lines within the licensed project works. In its April 29, 1975 order issuing license, the FPC concluded that "the 600-volt electric lines, circuit breakers and appurtenant facilities connecting nine generators to the company's distribution system should be included as part of project No. 2655."

PRIMARY TRANSMISSION LINES

In its application for rehearing, Reeves Brothers, Inc. stated that the 600-volt lines are not "primary" lines within the meaning of section 3(11) of the Federal Power Act (Act).[6] In support of its contention Applicant stated that the 600-volt lines are part of the distribution system used for delivery of power from other sources. Applicant asserts that if the project power plants are retired, the 600-volt lines will still be needed for delivery of power from other sources.

In response to a request by staff, by letter dated April 16, 1977, Applicant provided a one-line diagram of the electrical layout of project No. 2655. It is apparent that there has been some misunderstanding about the 600-volt lines to which the Commission's order referred. A recent Staff study of Reeves Brothers Inc.'s operation revealed that Applicant sells approximately 1.5 percent of its power production to Georgia Power Co. and purchases approximately 40 percent of its power requirements. There are 600-volt lines that carry power purchased from Georgia Power Co. to Applicant's industrial plant. These lines are not project works under the project No. 2655 license, and we are granting the application for rehearing to delete these lines from the project license.

There are also, however, 600 volt transmission lines used exclusively for the transmission of power from project No. 2655 to the distribution system. These lines are properly included as licensed project works pursuant to section 3(11) of the Act.[7] These jurisdictional transmission facilities are:

The 600-volt generator leads and circuit breakers from the upper powerhouse to the bus to company's No. 1 and No. 2 mill; and, at the lower powerhouse, the 600-volt generator bus, the generator bus, and the 600-volt line and circuit breaker to connect the generator bus to the 600-volt bus of the 3,000-kVA, 12,000/550-volt stepdown transformers which connect to the No. 3 mill.

Accordingly, we shall modify the project description in the order issuing license for project No. 2655 to include

[1] This proceeding was commenced before the FPC. By the joint regulation of October 1, 1977 (10 CFR 1000.1), it was transferred to the FERC. The term "Commission", when used in the context of action taken prior to October 1, 1977, refers to the FPC; when used otherwise the reference is to the FERC.

[2] 16 USC 803(d).

[3] *Reeves Brothers Inc.*, Project No. 2655, "Order Granting Rehearing for Further Consideration" (June 6, 1975).

[4] *Reeves Brothers, Inc.*, Project No. 2655, "Order on Rehearing Modifying License" (August 8, 1975).

[5] *Reeves Brothers, Inc.*, project No. 2655, "Order on Rehearing" (August 30, 1976).

[6] 16 USC 796(11).

[7] See, *Montana Power Co.*, project No. 5, "Order Modifying Initial Decision and Amending Project License" (Nov. 29, 1976).

V 43 / 184 SEP 21 1978 V

V 43 / 184 SEP 21 78

only these 600-volt lines as part of the project license. To the extent that Applicant contends these 600-volt lines are not primary lines, the application for rehearing is denied.

The Commission orders: (A) Reeves Brothers Inc.'s application for rehearing as it pertains to the inclusion of certain transmission facilities as licensed project works of FERC project No. 2655 is granted in part and denied in part.

(B) The project description in ordering paragraph (B)(ii) of the order issuing license (major) (issued April 29, 1975) for FPC project No. 2655 is modified to read:

(ii) project works consisting of:

(1) a rubble masonry dam about 900 feet long and about 17 feet high containing two spillways: (a) a rock masonry timberfaced overflow about 537 feet long, in the central section of the dam, with a crest elevation at 213.59 feet (m.s.l.); and (b) an overflow about 45.7 feet long, in the west bank nonoverflow section, with a crest elevation at 215.87 feet; (2) a reservoir about 0.75 mile long with a surface area of about 500 acres and pondage of 225 acre-feet at elevation 213.59 feet; (3) a forebay about 107 feet wide, near the east bank; (4) two open-flume water conduits: (a) about 48 feet wide extending about 200 feet to the lower powerhouse with reduced width to about 36 feet, and (b) about 45 feet wide and about 30 feet long at the upper powerhouse; (5) two powerhouses, the lower (a) with five generating units totaling 2,200 kW and the upper (b) with four generating units totaling 2,060 kW, giving a combined capacity of 4,260 kW; (6) transmission facilities consisting of: (a) the 600-volt generator leads and circuit breakers from the upper powerhouse to the bus of the No. 1 and No. 2 mill, and (b) at the lower powerhouse, the 600-volt generator leads and circuit breakers to the generator bus, the generator bus, and the 600-volt line and circuit breaker to connect the generator bus to the 600-volt bus of the step-down transformers which connect to the No. 3 mill; and (7) appurtenant facilities: the location, nature, and character of which are more specifically shown and described by the exhibits cited above and by certain other exhibits which also form part of the application for license and which are designated and described as:

Exhibit L	FERC drawing	Showing
Sheet 1	2655-2	Dam—General plan, elevation and typical section.
Sheet 2	2655-3	Powerhouses—Plans and elevation—Upper house.
Sheet 3	2655-4	Powerhouses—Plans and elevation—Lower house.

Exhibit M.: Consisting of two typewritten pages entitled "upper powerhouse equipment" and three typewritten pages entitled "lower powerhouse equipment" filed with the Commission on August 7, 1967.

By the Commission.

KENNETH F. PLUMB,
Secretary.

In testimony of its acknowledgment of acceptance of all of the terms and conditions of this Order, Reeves Brothers, Inc. this —— day of ————, 19—, has caused its corporate name to be signed hereto by ————, its ———— President, and its corporate seal to be affixed hereto and attested by ———— its ———— Secretary, pursuant to a resolution of its Board of Directors duly adopted on the —— day of ——, 19—, a certified copy of the record of which is attached hereto.

By ————,
President.

Attest:

————,
Secretary.

[6740-02]

[Project No. 2749]

SOUTHSIDE ELECTRIC COOPERATIVE

Order To Show Cause

SEPTEMBER 12, 1978.

On April 1, 1977, the Southside Electric Cooperative (SEC) informed the Commission [1] that it had been unable to develop a fish and wildlife study outline within the time requirements set forth in article 10 [2] of the preliminary permit [3] for the proposed Randolph Hydroelectric project (FERC project No. 2749).[4] SEC requested that the Commission "grant additional time for completion and submission of the report outline and cost estimate scheduled for submission on April 1, 1977."

On May 24, 1977, the regional engineer from the Commission's Atlanta office informed SEC of the "need to increase your efforts in accomplishing the field investigations aspect of the work outlined under the permit in order to submit an acceptable application for license prior to expiration of the permit on March 31, 1979." The regional engineer requested SEC to submit a schedule for conducting the required studies. On June 14, 1977, the regional engineer again requested SEC to submit a schedule of activities.

On July 1, 1977, SEC informed the Commission that the required fish and wildlife study outline "should be completed and field work begun within the next several months." However, on October 1, 1977, and January 1, 1978, SEC again informed the Commission that the fish and wildlife study outline was not complete and requested an extension of time to meet the deadline of article 10.

On March 23, 1978, SEC advised the Commission that continuing problems were preventing completion of the requirements set forth in Article 10. In addition, SEC stated:

It also now appears that other phases of the work under the preliminary permit cannot be completed within the established 3-year period.

* * * * *

Preliminary geological work has been done but the on-site core drilling and laboratory analyses of foundation and construction materials is behind schedule.

* * * * *

Financial assistance from other participants is necessary before we can proceed with the geological work and field surveys for property and other requirements under Article 1-B.[5]

SEC at the same time requested an extension of the preliminary permit term. On April 1, 1978, SEC repeated its request that the Commission extend the term of the permit. On April 4, 1978, the Commission's Secretary informed SEC that "no extension of time can be granted which exceeds the 36-month term of the permit pursuant to Section 5 of the Federal Power Act." [6] The Secretary directed SEC "to inform the Commission of how you will be able to complete all the required field work and studies within the remaining permit period." SEC responded on April 19, 1978, by merely reiterating its previous comments and request for an extension of time.

On July 1, 1978, SEC informed the Commission that funds had now been appropriated for commencement of subsurface investigations and continuation of the fish and wildlife studies. SEC indicated, however, that it would not be able to complete the required studies within the allotted time and, inexplicably, renewed its request for an extension of the preliminary permit term.

SEC apparently continues to believe that the term of the preliminary permit can be extended beyond 36 months. Section 5 of the Act, of course, definitely precludes any extension. SEC's statements and actions indicate that it has failed to comply with the terms and conditions of the preliminary permit—specifically articles 1 and 10—and that it will be unable to rectify these violations within the remaining term of the permit. Consequently, we are ordering SEC to show cause why the permit should not be cancelled under article 6 of the permit and section 5 of the Federal Power Act (16 U.S.C. 798).

The Commission orders: Within 30 days from the date of this order, Southside Electric Cooperative, of Crewe, Va., shall under oath show cause, if there is any, why the preliminary permit for the proposed Randolph project No. 2749 should not be cancelled and priority of application for license be lost, pursuant to articles 6 and 3, respectively, of the permit and section 5 of the Federal Power Act, for: (1) failure to conduct diligently the investigations, examinations, and surveys required by articles 1 and 10 of the permit; and (2) inability of the permittee to finish the required investigations, examinations, and surveys within the remaining term of the permit.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-26476 Filed 9-20-78; 8:45 am]

[1] This proceeding was commenced before the Federal Power Commission (FPC). By regulation of October 1, 1977, entitled "Transfer of proceedings to the Secretary of Energy and the FERC", it was continued before the Federal Energy Regulatory Commission (FERC). The "Commission", when used in the context of action before October 1, 1977, refers to the FPC; otherwise it refers to the FERC.

[2] Article 10 states: *Article 10.* Permittee, by the end of the first year of this permit, shall (1) have consulted with the U.S. Fish and Wildlife Service of the Department of the Interior, Virginia Commission on Game and Inland Fisheries, and North Carolina Wildlife Resources Commission and arranged for the preparation of a study of any effects which the proposed project would have on fish and wildlife resources and of facilities or measures needed to conserve or develop these resources and (2) file with the Commission an outline of the proposed study, including an estimate of cost thereof, and letters from each of the above Agencies indicating the extent of consultation. During the remaining two years of the permit, permittee shall fund or otherwise provide for such study. A copy of the report on the study shall be filed as part of the exhibit S of any subsequent application for license.

[3] Order issuing preliminary permit, project No. 2749, Southside Electric Cooperative, issued April 8, 1976. The permit was issued for a term of 3 years, effective April 1, 1976.

[4] The Randolph project would be located in Halifax, Campbell, and Charlotte Counties, Va., on the Roanoke (Staunton) River above Kerr Reservoir.

[5] SEC stated in its application for preliminary permit that geological work and property surveys, among other things, would be financed through REA guaranteed financing, National Rural Utilities Cooperative Finance Corp. and/or other bond issues. By their own admission in their March 23, 1978,

Footnotes continued on next page

Footnotes continued from last page

letter, "Southside Electric Cooperative was aware from the beginning that participation in the studies by Old Dominion Electric Cooperative (a joint organization representing all of the cooperatives in Virginia), cooperatives in North Carolina and municipally owned electric systems would be required."

[Docket No. CI77-774]

TRANSCO EXPLORATION CO.

Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates[1]

SEPTEMBER 12, 1978

Take notice that each of the applicants listed herein has filed an application or petition pursuant to section 7 of the natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 10 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before September 20, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or to be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

[Docket No. ER77-311]

UTAH POWER & LIGHT CO.

Further Extension of Time

SEPTEMBER 7, 1978.

On September 1, 1978, Lincoln Service Corp. filed a motion for a further extension of time to December 1, 1978, within which to file briefs on exceptions to the initial decision issued in this proceeding on June 12, 1978.

Two earlier requests by the same party have been granted, the last extension being until September 1, 1978.

The motion states that Utah Power & Light Co. and staff counsel have no objection to the request.

Upon consideration, notice is hereby given that an extension of time is granted to and including October 2, 1978, for filing briefs on exceptions. Briefs opposing exceptions are due on or before October 23, 1978.

KENNETH F. PLUMB,
Secretary.

SOUTHWEST GAS CORP.

Informal Conference

SEPTEMBER 15, 1978.

Take notice that on September 28, 1978, at 10: a.m., an informal conference of all interested persons will be convened concerning the above-captioned matter. The conference will be held at the offices of the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, room 8402.

This informal conference was requested by Southwest Gas Corp. in its answer of September 7, 1978, to Sierra Pacific Power Co.'s motion for a public hearing in this docket. At the conference, all parties will be expected to be prepared to discuss their positions, if any, as to whether a formal hearing should be held in this matter and issues pertaining thereto. It should be noted that this informal conference is not in lieu of the hearing required by section 7(c) of the Natural Gas Act.

Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, attendance will not be deemed to authorize intervention.,

KENNETH F. PLUMB,
Secretary.

STUDY GROUP ON GLOBAL EFFECTS OF CARBON DIOXIDE

Renewal of Charter

This notice is published in accordance with the provision of section 7 of the Office of Management and Budget Circular A-63, as amended. Pursuant to section 14(a)(2)(A) of the Federal Advisory Committee Act, and following consultation with the Committee Management Secretariat, General Services Administration, notice is hereby given that the Study Group on the Global Effects of Carbon Dioxide has been renewed for 24-month period ending on September 8, 1980.

The renewal of the study group has been determined necessary and in the public interest. The study group will operate in accordance with the provisions of the Federal Advisory Committee Act (Pub. L. 92-463), the Department of Energy Organization Act (Pub. L. 95-91) OMB Circular No. A-63 (Revised), and other directives and instructions issued in implementation of those Acts.

Further information regarding this Study Group may be obtained from the Department of Energy Advisory Committee Management Office, 202-566-9969.

Issued at Washington, D.C. on September 18, 1978.

WILLIAM P. DAVIS,
Deputy Director of Administration.

FEDERAL MEDIATION AND CONCILIATION SERVICE

ARBITRATION SERVICES ADVISORY COMMITTEE

Meeting

Notice is hereby given that the Federal Mediation and Conciliation Service Arbitration Services Advisory Committee, in accordance with section 10 of the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776), will meet on Thursday, October 19 and Friday, October 20, 1978, at 9 a.m., in Conference Room 413, 2100 K Street NW., Washington, D.C.

The agenda is as follows:

1. Revision of 29 CFR 1404.
2. Code of professional responsibility.
3. Discussion on question submitted re: OAS policy on arbitrators' statements.
4. Discussion on hearing procedures.
5. Labor arbitrator development programs.
6. Labor arbitrator internships.
7. Case processing: New procedures; fiscal year 1978 statistics.
8. Arbitrator symposia.
9. Arbitrator workshops.

This meeting shall be open to the public.

Communications regarding this meeting should be addressed to:

Mr. John Canestraight, Associate Director, Office of Arbitration Services, Federal Mediation and Conciliation Service, Washington, D.C. 20427.

Signed at Washington, D.C., this fourteenth day of September 1978.

WAYNE L. HORVITZ,
Director.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Assistant Secretary for Education

COMMENTS ON COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

Pursuant to section 406(g)(2)(B), General Education Provisions Act, notice is hereby given as follows:

The U.S. Office of Education has proposed collections of information and data acquisition activities which will request information from educational agencies or institutions.

The purpose of publishing this notice in the FEDERAL REGISTER is to comply with paragraph (g)(2)(B) of the "Control of Paperwork" amendment which provides that each educational agency or institution subject to a request under the collection of information and data acquisition activity and their representative organizations shall have an opportunity, during a 30-day period before the transmittal of the request to the Director of the Office of Management and Budget, to comment to the Administrator of the National Center for Education Statistics on the collection of information and data acquisition activity.

These data acquisition activities are subject to review by the HEW Education Data Acquisition Council and the Office of Management and Budget.

Descriptions of the proposed collections of information and data acquisition activities follow below.

Written comments on the proposed activities are invited. Comments should refer to the specific sponsoring agency and form number and must be received on or before October 23, 1978,

and should be addressed to Administrator, National Center for Education Statistics, ATTN: Manager, Information Acquisition, Planning, and Utilization, Room 3001, 400 Maryland Avenue SW., Washington, D.C. 20202.

Further information may be obtained from Elizabeth M. Proctor of the National Center for Education Statistics, 202-245-1022.

Dated: September 18, 1978.

MARIE D. ELDRIDGE,
Administrator, National Center for Education Statistics.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. Title of proposed activity: Civil rights technical assistance and training programs.
2. Agency/bureau/office: U.S. Office of Education/equal educational opportunity programs.
3. Agency form number: OE Form 296.
4. Legislative authority for this activity: (A) *Technical assistance*—"The Commissioner is authorized, upon the application of any school board, State, municipality, school district, or other governmental unit legally responsible for operating a public school or schools, to render technical assistance to such applicant in the preparation, adoption, and implementation of plans for the desegregation of public schools * * *."

(B) *Training institutes*—"The Commissioner is authorized to arrange, through grants or contracts, with institutions of higher education for the operation of short term or regular session institutes for special training designed to improve the ability of teachers, supervisors, counselors, and other elementary and secondary school personnel to deal effectively with special educational problems occasioned by desegregation * * *."

(C) *Grants to school boards*—"The Commissioner is authorized, upon application of school boards, to make grants to such board to pay, in whole or in part, the cost of—

"(1) Giving to teachers and other school personnel inservice training in dealing with problems incident to desegregation, and

"(2) Employing specialists to advise in problems incident to desegregation. (Pub. L. 88-352 Title IV; (42 U.S.C. 2000c-2; 20 U.S.C. 1231(b); *Lau* v. *Nichols*, 414 U.S. 563 (1974)); (45 CFR 180.11, 180.31, 180.41)."

5. Voluntary/obligatory nature of response: Required to obtain benefits.
6. How information to be collected will be used: The information will be used to determine the need for assistance and the amount of funds to be awarded.
7. Data acquisition plan:
(a) Method of collection: Mail.
(b) Time of collection: January.
(c) Frequency: Annually.
8. Respondents:
(a) State educational agencies, institutions of higher education, and local school districts.
(b) Number: Sample—300.
(c) Estimated average man-hours per respondent: Eight.
9. Information to be collected: The standard nonconstruction application form will be used with a narrative section designed to elicit information required by the statute or regulations.

(a)(1) Applicants for training institutes must provide the number of trainees to be served and the total public school enrollment of districts which have requested training services;

(2) Applicants for grants to school boards enter the total public school enrollment of the school district.

(b) Applicants for Title IV, Civil Rights Act awards, including awards to State educational agencies, desegregation assistance centers, training institutes and local school boards, are required to submit a program narrative presented in the following manner:

NEED FOR ASSISTANCE

a. For applicants for training institutes—Describe the specific needs of the proposed participants for training by type of public school personnel (i.e., teachers, principals, secretaries, etc.) and by individual school or school and/or LEA in which the participants work. Also, describe the type of assurances that have been obtained from LEA's for participation of the above personnel.

b. For applicants for school board grants—List and document the needs for which assistance is requested.

c. For applicants for State educational agency and desegregation assistance center awards—List the expected needs of responsible governmental agencies in the State or service area (as applicable).

APPROACH

a. For all applicants—Provide an assessment of the materials that are available for providing assistance under the award.

b. For applicants for State educational agency and desegregation assistance center awards—Describe the plan for coordinating its assistance with related activities; also

c. For applicants for State educational agency awards—Provide a description of the assistance that it would provide in response to requests from the responsible governmental agency expected to need assistance. Also, describe the activities undertaken that demonstrate commitment to race, sex, or national origin desegregation (as applicable).

d. For applicants for desegregation assistance center awards—Provide a description of its approach to providing the assistance described in 45 CFR § 180.13(d) (for race desegregation), § 180.14 (for sex desegregation), or § 180.15 (for national origin desegregation), as applicable; a description of its approach to providing assistance in coping with other education problems resulting from race, sex, or national origin desegregation (as applicable) that have arisen or may arise in its service area; and its management plan for providing assistance, including any plans for the use of satellite centers.

e. For applicants for training institute awards—Provide a detailed description of the training it would provide and of how that training would meet the needs of the participants, including any provisions for assessing their on-the-job performances. Applicants for sex desegregation training institutes must also provide the steps taken by LEA's listed in the application that demonstrate their commitment to sex desegregation.

f. For applicants for school board grants—Provide a detailed description of the uses to which it would put the requested assistance and how that assistance would address the needs. Describe the LEA's long-range plan for the sex desegregation of schools, including how the requested assistance will help implement the plan, and the steps already taken to implement the plan. Also, describe efforts to involve parents, students, and community groups in developing the application.

BIOGRAPHICAL INFORMATION

For all applicants—A statement of the qualifications of the project director, professional staff, consultants or other personnel to be employed under the award and a description of their responsibilities.

GEOGRAPHIC LOCATION

Give a precise location of the area to be served by the proposed project.

OTHER INFORMATION

a. For applicants for continuation desegregation assistance center awards—Discuss accomplishments to date and list in chronological order a schedule of accomplishments, progress or milestones anticipated with the new funding request. If there have been significant changes in the project objectives, location, approach, or time delays, explain and justify.

b. For requests for changes or amendments—Explain the reason for the change(s). If the scope or objectives have changed or an extension of time is necessary, explain the circumstances and justify. If the total budget has been exceeded, or if individual budget items have changed more than the prescribed limits contained in Federal Management Circular No. A-102, explain and justify the change and its effect on the project.

c. For requests for supplemental assistance—Explain the reason for the request and justify the need for additional funding.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. Title of proposed activity—Basic grant quality control project (verification from point of application through receipt of actual award).
2. Agency/bureau/office—Office of Education/Bureau of Student Financial Assistance/Division of Quality Assurance.
3. Agency form number—OE 628.
4. Legislative authority for this activity—"Each student desiring a basic grant for any year must file an application therefor containing such information and assurances as the Commissioner may deem necessary to enable him to carry out his functions and responsibilities under this subpart."
(Pub. L. 94-482.)
(20 U.S.C. 1070a (b)(2).)
(Subpart A, § 190.12, Nov. 6, 1974.)
5. Voluntary/obligatory nature of response—Required to obtain or maintain benefits.
6. How information collected will be used—The major objectives of this project are to: 1. Reliably document the program-wide error rates of 1978-79 BEOG student program determinations, including eligibility benefits amount and payments.
2. Optimally determine the specific types and probable causes of significant program-wide error rates in such determinations, if any; and

V 43 / 184 SEP 21 1978

3. Identify 1979-80 actions which can effectively reduce or eliminate errors, including design of ongoing quality control systems. Information obtained from the survey will: (1) Provide a baseline of highly reliable nationwide quality control data, to determine error rates; (2) provide detailed data and analysis on student and school analysis on student and school problems, to permit meaningful problem diagnosis; and (3) provide data-base program and management analyses, to support corrective action decisions and the design of future BEOG quality control programs.

7. Data acquisition plan—a. Method of collection: Personal interviews.

b. Time of collection: November 1978 to February 1979.

c. Frequency: One-time.

8. Respondents—a. Type: Postsecondary Educational Institutions participating in the basic grant program using regular disbursement system.

b. Number: Sample of approximately 170.

c. Estimated average man-hours per respondent: One-half hour.

a. Time: Postsecondary Educational Institutions participating in the basic grant program using alternate disbursement system.

b. Number: Sample of approximately 30.

c. Estimated average man-hours per respondent: One-half hour.

a. Time: Independent students at postsecondary educational institutions mentioned above.

b. Number: Sample of approximately 700.

c. Estimated average man-hours per respondent: One-half hour.

a. Time: Dependent students at postsecondary educational institutions mentioned above.

b. Number: Sample of approximately 1,300.

c. Estimated average man-hours per respondent: One hour.

a. Time: Parents of independent students mentioned above.

b. Number: Sample of approximately 700.

c. Estimated average man-hours per respondent: One hour.

a. Time: Parents of dependent students mentioned above.

b. Number: Sample of approximately 1,300.

c. Estimated average man-hours per respondent: One-half hour.

9. Information to be collected—Postsecondary Educational Institutions participating in the basic grant program using regular disbursement system. Data collected will relate to the basic regulations under which institutions make awards to students. In performing this task, we will perform the verification in two ways: (1) Reviewing the process used by the institutions in computing and making awards for compliance with the regulations; and (2) tracing the process for the sampled students to determine if the actual award amounts and payments are correct.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. Title of proposed activity—Request for designation as a developing institution under strengthening developing institutions program, Title III Higher Education Act of 1965, as amended (20 U.S.C. 1051-1056).

2. Agency/bureau/office—Office of Education, Bureau of Higher and Continuing Education, Division of Institutional Development.

3. Agency form number—OE-1049.

4. Legislative authority for this activity—"An institution desiring special assistance under the provisions of this title shall submit an application for eligibility to the Commissioner at such time, in such form, and containing such information, as may be necessary to enable the Commissioner to evaluate the need of the applicant for such assistance and to determine its eligibility to be a developing institution for the purposes of this title." (Pub. L. 92-318 Sec. 302(b); 20 U.S.C. 1052).

5. Voluntary/obligatory nature of response—Required to obtain benefits.

6. How information to be collected will be used—The Division will use the information in order to determine which institutions of higher education qualify as developing institutions for the purposes of Title III of the Higher Education Act of 1965, as amended, the strengthening developing institutions program.

7. Data acquisition plan—(a) Method of collection: Mail.

(b) Time of collection: Winter.

(c) Frequency: Annually.

8. Respondents—(a) Type: Colleges and Universities.

(b) Number: 1,000.

(c) Estimated average man-hours per respondent: 4.25.

9. Information to be collected—Part I, Institutional Data, provides information required in the law and regulations, including the following: Institutional eligibility status; whether it is requesting a waiver of several legal requirements; and certain financial and enrollment data. Part II, Institutional Narrative, describes the institution's mission and goals; efforts during the past 3 years to strengthen its instructional and administrative staffs and its student services; explain certain indicators of potential problems, if any; and justifies the request for a waiver, if applicable.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. Title of proposed activity—Monitoring and evaluation reports for strengthening developing institutions program, Title III Higher Education Act of 1965, as amended (20 U.S.C. 1051-1056).

2. Agency/bureau/office—Office of Education, Bureau of Higher and Continuing Education, Division of Institutional Development.

3. Agency form number—OE-1049-2.

4. Legislative authority for this activity—"Grantee shall submit a performance report • • • (c) Performance reports shall include to the extent appropriate to the particular grant or contract, a brief presentation of the following for each function or activity involved: (1) A comparison of actual accomplishments to the goals established for the period • • • (2) Reasons for slippage in those cases where established goals were not met • • • (3) Other pertinent information • • • (45 CFR 100a. 432).

Section 304 (c)(1). An application for assistance • • • shall be approved only if it • • • (C) Sets forth policies and procedures for the evaluation of the effectiveness of the project or activity in accomplishing its purpose; • • •

(E) Provides for making such reports, in such form and containing such information, as the Commissioner may require to carry out his funcitons under this title • • • " (20 U.S.C. 1054) Pub. L. 92-318.

5. Voluntary/obligatory nature of response—Required to obtain or maintain benefits.

6. How information to be collected will be used—The Division will use the information to determine that adequate progress is being made toward achieving the goals of the grants.

7. Data acquisition plan—(a) Method of collection: Mail.

(b) Time of collection: Report 1, winter and summer. Report 2, summer.

(c) Frequency: Report 1, semi-annually. Report 2, annually.

8. Respondents—(a) Type: SDIP Grantee Colleges and Universities.

(b) Number: 350-400.

(c) Estimated Average man-hours per respondent: twelve.

9. Information to be collected—Report 1—Activity Monitoring Report, tracks performance in accordance with an established timetable in order to insure that time schedules are being met; and provides for explanations of deviations from the timetable.

Report 2—Activity Evaluation Report, indicates performance based on quantitative and qualitative measures for assessing achievement of the activity objectives.

Report 3—Supplemental Monitoring and Evaluation Information, provides a form for grantee to use to state reasons why established goals were not met and any other pertinent information.

[FR Doc. 78-26542 Filed 9-20-78; 8:45 am]

[4110-02]

Office of Education

ADVISORY COUNCIL ON FINANCIAL AID TO STUDENTS

Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), that the next meeting of the Advisory Council on Financial Aid to Students will be held on October 6, 1978, from 9 a.m. to 5 p.m. in room 4003 of Federal office building number 6, 400 Maryland Avenue, Washington, D.C.

The Advisory Council on Financial Aid to Students is established under section 499(a) of the Higher Education Act of 1965, as amended (20 U.S.C. 1089). The Committee shall advise the Commissioner on matters of general policy arising in the administration by the Commissioner of programs relating to financial assistance to students and on the evaluation of the effectiveness of these programs.

All meetings shall be open to the public. The agenda of the Council on October 6 shall include:

(1) Swearing in new members;

(2) Review of Council action and proposed activity for Fiscal Year 1979;

(3) Discussion of central concerns of the senior administrators of student aid programs.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Council's Office, located in Room 3661, Regional Office Building No. 3, 7th and D Streets SW., Washington, D.C. 20202.

Signed in Washington, D.C., on September 18, 1978.

WARREN T. TROUTMAN,
OE Delegate.

[4110-35]

Health Care Financing Administration

RURAL HEALTH CLINIC SERVICES

Screening Guidelines and Payment Limit for Medicare and Medicaid Reimbursement

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Notice.

SUMMARY: This notice announces screening guidelines and a payment limit for determining medicare and medicaid reimbursement rates for covered rural health clinic services furnished by certain rural health clinics.

1. Screening guidelines: (a) Overhead costs may not exceed 30 percent of a clinic's total allowable costs unless reasonably justified by the clinic.

(b) Clinics with per visit costs of more than $16, including allowable overhead costs, are subject to the following health care staff productivity guidelines:

(i) At least three visits per hour per physician for rural health clinic services provided at the clinic;

(ii) At least two visits per hour per physician assistant and nurse practitioner for rural health clinic services provided at the clinic;

(iii) At least one visit per hour for any rural health clinic services provided at locations other than the clinic.

(c) Productivity guidelines will not reduce rates below $16 per visit.

(d) Clinics with per visit costs of $16 or less, including allowable overhead costs, are not subject to productivity guidelines.

2. Payment limit: In no event will rural health clinic reimbursement rates exceed $27.30.

DATES: These guidelines and the payment limit are effective for medicare for services furnished on or after March 1, 1978, and for medicaid for services furnished on or after July 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Marinos Svolos, Medicare Bureau, Health Care Financing Administration, Room 106, East High Rise, 6401 Security Boulevard, Baltimore, Md. 21235, 301-594-9315.

SUPPLEMENTARY INFORMATION: The Rural Health Clinic Services Act of 1977 (Pub. L. 95-210) added rural health clinic services as a new benefit under part B of the medicare program, effective on March 1, 1978, and as a mandatory benefit under certain State medicaid plans, effective on July 1, 1978. Regulations concerning the reimbursement requirements for rural health clinics under medicare were published in the FEDERAL REGISTER (43 FR 8258) on March 1, 1978. Medicaid rural health clinic reimbursement regulations were published in the FEDERAL REGISTER (43 FR 30520) on July 14, 1978. These regulations should be consulted for further detail.

As provided in these regulations, medicare and medicaid reimbursement for rural health clinic services furnished by independent rural health clinics is made on the basis of an all-inclusive rate developed by the medicare carrier. Independent rural health clinics are those which are not provider clinics, as defined at chapter IV of 42 CFR, § 405.2425(a).

The all-inclusive rate is subject to tests of reasonableness developed by the Health Care Financing Administration (HCFA) or the carrier in accordance with § 405.2428. These tests of reasonableness also apply to medicaid reimbursement under § 405.30 (a)(10)(v). The tests authorized include screening guidelines intended to identify situations where costs will not be allowed without reasonable justification by the clinic, and a limit on the amount of payment. Under interim operating instructions furnished carriers for rural health clinic reimbursement, a screening guideline on clinic overhead cost and an upper limit for the all-inclusive payment rate were issued. The upper limit on the payment rate was based on the average of the prevailing charges in the State in which the clinic is located for a selected group of items and services which are typically furnished by rural health clinics. Prevailing charges for various services are determined by the medicare carrier in accordance with § 405.504. They generally represent the maximum amount payable under part B of medicare for services provided by physicians reimbursed on a reasonable charge basis. A number of clinics and others criticized the methodology used to determine the upper limit. They felt the limit did not reasonably relate to actual clinic costs. They also pointed out that inequities could occur in that similar clinics might be subject to different payment limits solely because of differences in prevailing charge levels in the States in which the clinics are located.

Taking these concerns into consideration, HCFA has decided to revise the upper limit on rural health clinic payment rates by using a single nationwise limit of $27.30 per visit. This limit was determined by the national mean plus one standard deviation of the average of the prevailing charges for a selected group of services based on a model of a typical rural health clinic patient visit. The services used in the calculation were an initial comprehensive physician's office visit for a new patient (9002), a routine followup physician's office visit for an established patient (9004), an initial comprehensive hospital visit (9022), and a routine laboratory procedure (8722). The numbers in parentheses are the procedure codes for these services from the 1964 California relative value study.

In computing the payment limit, the prevailing charges for these services were assigned relative weights based on the following assumptions that were derived from a review of the utilization experience of federally funded health centers and other ambulatory care utilization data. The limit assumes that about one out of every five patient visits will be an initial comprehensive visit of a new patient. Therefore, 20 percent of the prevailing charge for initial comprehensive physician's office visits was used in computing the average prevailing charges of the group of services. Ten percent of the prevailing charge for an initial comprehensive hospital visit was used in computing the average prevailing charges of the group of services to take account of the fact that rural health clinic services can be furnished in a hospital setting. It is expected that the relative frequency of rural health clinic services provided in a hospital setting should not exceed this. Seventy percent of the prevailing charge for routine followup physician's office visit was used in computing the average prevailing charges to account for the relative frequency of these services. The routine laboratory procedure selected, blood sugar, is typical both because of its frequency and its midrange prevailing charge. One hundred percent of the prevailing charge for the routine laboratory procedure was used because federally-funded health center visits average slightly less than one routine laboratory procedure per visit. Together this group of services, along with these relative weights, should represent a fair composite of the typical visit for rural health clinic services. HCFA will evaluate the patterns and frequency of services furnished in rural health clinics and will consider revisions if experience indicates that modifications are necessary.

In addition, the Health Care Financing Administration has decided to im-

V 43 / 184 SEP 21 78

plement screening guidelines to assess the reasonableness of the productivity of the clinic's health care staff. The productivity guidelines are applicable to clinics with per visit costs in excess of $16 after application of the overhead cost guideline. If the clinic's per visit cost after application of the overhead cost guideline is equal to or less than $16, the productivity guidelines are not applicable. Per visit cost is based on total allowable costs divided by total visits for both covered and noncovered rural health clinic services.

The productivity guidelines are as follows: (1) At least three visits per hour per physician for rural health clinic services provided at the clinic; (2) at least two visits per hour per physician assistant, nurse practitioner, specialized nurse practitioner, or nurse midwife for rural health clinic services provided at the clinic; and (3) at least one visit per hour for rural health clinic services provided at locations other than the clinic. Examples of services furnished at other locations are services of a nurse practitioner furnished at a hospital and visiting nurse services furnished at the patient's home. The productivity guidelines apply to the total time the physician or other practitioner actually spends in patient care activities or is available to provide patient care services. Allowance will be made for duties other than patient care.

If the minimum number of visits expected under a productivity guideline for a category of practitioner exceeds the total visits reported by the clinics for that category, the higher number of visits will be used to calculate the all-inclusive rate under § 405.2426 or annual reconciliation under § 405.2427. In no event, however, will the clinic's payment rate be reduced below $16 on account of the productivity guidelines.

The productivity guidelines are comparable with those used in connection with reimbursement for similar services furnished by federally funded health centers. In addition, the Bureau of Community Health Services of the Public Health Services uses similar screens in reviewing federally funded health center grant applications. Experience has shown them to be fair and workable.

The overhead cost screening guideline issued under the interim operating instructions is unchanged. Under this guideline, overhead costs which exceed 30 percent of a clinic's total allowable costs will not be included in allowable costs unless the clinic provides reasonable justification for such excessive costs. Justification must be based on adequate reasons and supporting documentation.

The overhead costs guideline is comparable to the guideline used in connection with federally funded health centers. Experience in that setting has shown this to be a good standard.

The Health Care Financing Administration plans to carefully evaluate the guidelines and payment limit based on actual program experience, and will consider revisions and additions if experience indicates that modifications or additional guidelines or limits may be necessary.

Dated: September 15, 1978.

ROBERT A. DERZON,
Administrator, Health Care Financing Administration.

Health Resources Administration

HEALTH PROFESSIONS FINANCIAL DISTRESS

Application Announcement for Grants

The Bureau of Health Manpower, Health Resources Administration, announces that applications for fiscal year 1979 Grants for Health Professions Financial Distress are now being accepted under the authority of section 788(b) of the Public Health Service Act, as amended by the Health Professions Educational Assistance Act of 1976 (Pub. L. 94-484).

Section 788(b) authorizes the Secretary to make grants to schools of medicine, osteopathy, dentistry, veterinary medicine, optometry, pharmacy, podiatry and public health to assist in meeting the costs of operation of these schools if they are in serious financial distress, or in meeting accreditation requirements if they have a special need for assistance in meeting these requirements. Funds can also be used for carrying out appropriate operational, managerial and financial reforms.

Requests for application materials and questions regarding grants policy should be directed to:

Grants Management Officer, Bureau of Health Manpower, HRA, Center Building, Room 4-27, 3700 East-West Highway, Hyattsville, Md. 20782, Telephone: 301-436-6564.

To be considered for fiscal year 1979 funding, completed applications must be postmarked no later than November 3, 1978 and sent to the Grants Management Officer at the above address.

For programmatic information, please contact:

Office of Program Support, Bureau of Health Manpower, HRA, 3700 East-West Highway, Hyattsville, Md. 20782, Telephone: 301-436-6505.

Dated: September 15, 1978.

HENRY A. FOLEY,
Administrator, Health Resources Administration.

CANCER CONTROL GRANT REVIEW COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Cancer Control Grant Review Committee, National Cancer Institute, October 30,31, 1978, Building 31C, Conference Room 8, National Institutes of Health, 9000 Rockville Pike, Bethesda, Md. 20014. The meeting will be open to the public on October 30, 1978, from 8:30 to 9 a.m., to review administrative details. Attendance by the public will be limited to space available.

In accordance with provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on October 30, 1978, from 9 a.m. to recess, and on October 31, 1978, from 8:30 a.m. to adjournment, for the review, discussion, and evaluation of individual grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material and personal information about individuals associated with the applications.

Mrs. Marjorie F. Early, Committee Management Officer, National Cancer Institute, Building 31, Room 4B43, National Institutes of Health, Bethesda, Md. 20014, 301-496-5708, will provide summaries of the meeting and rosters of committee members, upon request.

Dr. Robert F. Browning, Executive Secretary, National Cancer Institute, Blair Building, Room 7A07, National Institutes of Health, Bethesda Md. 20014, 301-427-7945, will furnish substantive program information.

(Catalog of Federal Domestic Assistance Program No. 13.399, National Institutes of Health.)

Dated: September 13, 1978.

SUZANNE L. FREMEAU,
Committee Management Officer, National Institutes of Health.

CANCER CONTROL INTERVENTION PROGRAMS REVIEW COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Cancer Control Intervention Programs Review Committee, National Cancer Institute, October 12-13, 1978, Building 31C, Conference Room 9, National Institutes of Health, 9000 Rockville Pike, Bethesda, Md. 20014. The meeting will be open to the public on October 12, 1978, from 8:30 to 9 a.m., to review administrative details. Attendance by the public will be limited to space available.

In accordance with provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on October 12, 1978, from 9 a.m. to recess, and on October 13, 1978, from 8:30 a.m. to adjournment, for the review, discussion, and evaluation of individual contract proposals. These proposals and the discussions could reveal confidential trade secrets or commercial property such as patentable material and personal information about individuals associated with the proposals.

Mrs. Marjorie F. Early, Committee Management Officer, National Cancer Institute, Building 31, Room 4B43, National Institutes of Health, Bethesda, Md. 20143, 301-496-5708, will provide summaries of the meeting and rosters of committee members, upon request.

Dr. Louis M. Ouellette, Executive Secretary, National Cancer Institute, Blair Building, Room 7A07, National Institutes of Health, Bethesda, Md. 20014, 301-427-7944, will furnish substantive program information.

(Catalog of Federal Domestic Assistance Program No. 13.399, National Institutes of Health.)

Dated: September 13, 1978.

SUZANNE L. FREMEAU,
Committee Management Officer, National Institutes of Health.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

DEPENDENT MEMBERS LISTED IN CALIFORNIA RANCHERIA DISTRIBUTION PLANS AND/OR IN TERMINATION NOTICES PUBLISHED IN THE FEDERAL REGISTER

This notice is published in the exercise of authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs by 230 DM 2, and in the exercise of the reassigned authority to the Sacramento Area Director, by the Acting Deputy Commissioner by memorandum dated July 6, 1977, to handle rancheria restoration matters.

On February 20, 1976, judgment was entered in *Eddie F. Knight et al.* v. *Thomas S. Kleppe et al.*, and *Ambrose Duncan, Jr., et al.* v. *Thomas S. Kleppe et al.*, Nos. C-74-0005 and C-73-0034, U.S. Court, Northern District of California.

Under said judgment, the court declared that all Indians whose names have been listed or otherwise included in California rancheria distribution plans and/or in termination notices published in the FEDERAL REGISTER pursuant to 25 CFR 242.10 (1959) as "dependent members" of the immediate families of distributees are not terminated.

Accordingly, notice is hereby given deleting the names of the following dependent members from California rancheria distribution plans or termination notices published in the FEDERAL REGISTER and such dependent members are hereby considered to be unterminated, retain their status as Indians under Federal law, and are entitled to Federal services in accordance with the aforementioned decision of the district court:

Bureau of Land Management

COLORADO 23972 RW

Notice of R/W Application for Pipeline IGC Production Co.

SEPTEMBER 14, 1978.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (41 Stat. 449), as amended (30 U.S.C. 185), IGC Production Co., 555 Cole Road, Boise, Idaho 83707, has applied for an amendment to right-of-way for a 4-inch looping natural gas pipeline approximately 660 feet long for the Pepper No. 1 well, across the following public lands:

SIXTH PRINCIPAL MERIDIAN, MOFFAT COUNTY, COLO.

T. 1 N., R. 101 W.,
Sec. 6: Lot 8.

The facilities will enable the applicant to convey natural gas from Pepper No. 1 well to meet customer demand for increased natural gas supply in the applicant's service area.

The purposes for this notice are: (1) To inform the public that the Bureau of Land Management is proceeding with the preparation of environmental and other analytic reports necessary for determining whether or not the application should be approved and if approved, under what terms and conditions; (2) to give all interested parties the opportunity to comment on the application; (3) to allow any party asserting a claim to the lands involved or having bona fide objections to the proposed natural gas gathering system to file its claim or objections in the Colorado State office. Any party so filing must include evidence that a copy thereof has been served on IGC Production Co.

Any comment, claim, or objections must be filed with the Chief, Branch of Adjudication, Bureau of Land Management, Colorado State Office, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colo. 80202, as promptly as possible after publication of this notice.

HELEN S. BRUSS,
Acting Leader, Craig Team,
Branch of Adjudication.

[AA-6650-A and B]

Alaska Native Claims Selection

On October 29, and December 13, 1974, Belkofski Corp., for the Native village of Belkofski, filed selection applications AA-6650-A and AA-6650-B under the provisions of sec. 12 of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 701; 43 U.S.C. 1601, 1611 (Supp. V, 1975)), for the surface estate of certain lands in the Belkofski area.

As to the lands described below, the applications, as amended, are properly filed and meet the requirements of the Alaska Native Claims Settlement Act and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with Federal laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands, selected pursuant to sec. 12(a), aggregating approximately 66,861 acres, is considered proper for acquisition by Belkofski Corp. and is hereby approved for conveyance pursuant to sec. 14(a) of the Alaska Native Claims Settlement Act:

SEWARD MERIDIAN, ALASKA (UNSURVEYED)

T. 58 S., R. 82 W.
Secs. 7 and 8 (fractional), all;
Secs. 15 to 22 (fractional), inclusive, all;
Secs. 25 and 26 (fractional), all;
Secs. 27 and 28, all;
Secs. 29, 30, 31, and 32 (fractional), all;
Secs. 33 to 36, inclusive, all.
Containing approximately 7,810 acres.

T. 59 S., R. 82 W.
Secs. 1 and 2 (fractional), all;
Secs. 3, 4, and 9, all;
Secs. 10, 11, and 14 (fractional), all;
Secs. 15, 16, and 21 (fractional), all.
Containing approximately 4,935 acres.

T. 57 S., R. 83 W.
Sec. 3 (fractional), all;
Sec. 4, all;
Sec. 5 (fractional), all;
Secs. 6 and 7, all;
Secs. 8, 9, and 10 (fractional), all;
Secs. 16 and 17 (fractional), all;
Sec. 18, all;
Secs. 19, 20, and 21 (fractional), all;
Sec. 28 (fractional), all;
Secs. 29 and 30 (fractional), excluding Executive Order 3406.
Containing approximately 6,744 acres.

T. 58 S., R. 83 W.
Secs. 1 and 2 (fractional), all;
Secs. 10 to 13 (fractional), inclusive, all;
Sec. 14, all;
Secs. 15, 16, and 17 (fractional), all;
Secs. 24, 25, and 36 (fractional), all.
Containing approximately 4,885 acres.

T. 59 S., R. 83 W.

Containing approximately 3,877 acres.

T. 59 S., R. 85 W.
Secs. 1 and 2 (fractional), all.
Containing approximately 340 acres.
Aggregating approximately 66,861 acres.

The conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

1. The subsurface estate therein, and all rights, privileges, immunities, and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 704, 43 U.S.C. 1601, 1613(f) (Supp. V, 1975)); and

2. Pursuant to sec. 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 708; 43 U.S.C. 1601, 1616(b) (Supp. V, 1975)), the following public easements, referenced by easement identification number (EIN) on the easement maps in case file AA-6650-EE, are reserved to the United States and subject to further regulation thereby:

a. (EIN 1 C4) A continuous linear easement twenty-five (25) feet in width upland of and parallel to the mean high tide line in order to provide access to and along the marine coastline and use of such shore for purposes such as beaching of watercraft or aircraft, travel along the shore, recreation, and other similar uses. Deviations from the waterline are permitted when specific conditions so require, e.g., impassable topography or waterfront obstruction. This easement is subject to the right of the owner of the servient estate to build upon such easement a facility for public or private purposes, such right to be exercised reasonably and without undue or unnecessary interference with or obstruction of the easement. When access along the marine coastline easement is to be obstructed, the owner of the servient estate will be obligated to convey to the United States an acceptable alternate access route, at no cost to the United States, prior to the creation of such obstruction.

b. (EIN 2 C) The right of the United States to enter upon the lands hereinabove granted for cadastral, geodetic, or other survey purposes is reserved, together with the right to do all things necessary in connection therewith.

These reservations have not been conformed to the Departmental easement policy announced March 3, 1978. Conformance is contingent upon resolution of the litigation *Calista, et al.* v. *Andrus* and implementation of the Secretary's new easement policy.

The grant of lands shall be subject to:

1. Issuance of a patent confirming the boundary description of the lands hereinabove granted after approval and filing by the Bureau of Land Management of the official plat of survey covering such lands;

2. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under sec. 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339, 341; 48 U.S.C. Ch. 2, Sec. 6(g) (1970))), contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him;

3. Requirements of sec. 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 703; 43 U.S.C. 1601, 1613(c) (Supp. V, 1975)), that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section; and

4. The terms and conditions of the agreement dated January 18, 1977, between the Secretary of the Interior, The Aleut Corp., Belkofski Corp., and other Aleut village corporations. A copy of the agreement shall be attached to and become a part of the conveyance document and shall be recorded therewith. A copy of the agreement is located in the Bureau of Land Management easement case file for Belkofski Corp. serialized AA-6650-EE. Any person wishing to examine this agreement may do so at the Bureau of Land Management, Alaska State Office, 555 Cordova Street, Anchorage, Alaska.

Belkofski Corp. is entitled to conveyance of 69,120 acres of land selected pursuant to sec. 12(a) of the Alaska Native Claims Settlement Act. To date, approximately 66,861 acres of this entitlement have been approved for conveyance; the remaining entitlement of approximately 2,259 acres will be conveyed at a later date.

Pursuant to sec. 14(f) of the Alaska Native Claims Settlement Act, conveyance of the subsurface estate of the lands described above shall be granted to the Aleut Corp. when conveyance is granted to Belkofski Corp. for the surface estate and shall be subject to the same conditions as the surface conveyance.

There are no inland water bodies considered to be navigable within the lands described.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the FEDERAL REGISTER and once a week, for four (4) consecutive weeks, in the Anchorage Times. Any party claiming a property interest in lands affected by this decision may appeal the decision to the Alaska Native Claims Appeal Board, P.O. Box 2433, Anchorage, Alaska 99510, with a copy served upon both the Bureau of Land Management, Alaska State Office, 555 Cordova Street, Pouch 7-512, Anchorage, Alaska 99510, and the Regional Solicitor, Office of the Solicitor, 510 L Street, Suite 408, Anchorage, Alaska 99501, also:

1. Any party receiving service of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Any unknown parties, any parties unable to be located and any parties who failed or refused to sign the return receipt shall have until October 23, 1978, to file an appeal.

3. Any party known or unknown who may claim a property interest which is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Alaska Native Claims Appeal Board.

4. If Belkofski Corp. or the Aleut Corp. objects to any easement which is identified herein for reservation in the conveyance, which is subject to the discretion of the State Director and not reserved pursuant to an express Secretarial directive, a petition for reconsideration must be filed within 30 days from receipt of service with the State Director, Bureau of Land Management, 555 Cordova Street, Pouch 7-512, Anchorage, Alaska 99510. A copy of the petition should be served upon the Regional Solicitor, Office of the Solicitor, 510 L Street, Suite 408, Anchorage, Alaska 99501. If a petition for reconsideration is not filed, it will be deemed that the right to contest any such easement has been waived.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeal. Further information on the manner of, and requirements for, filing an appeal may be obtained from the Bureau of Land Management, 555 Cordova Street, Pouch 7-512, Anchorage, Alaska 99510.

If an appeal is taken, the adverse parties to be served are:

Belkofski Corp., Belkofski, Alaska 99612.
The Aleut Corp., 833 Gambell Street, Anchorage, Alaska 99501.

SUE A. WOLF,
Chief, Branch of Adjudication,
Division of ANCSA.

COLORADO

R/W Application for Pipeline

SEPTEMBER 11, 1978.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (41 Stat. 449), as amended (30 U.S.C. 185), David M. Munson, Inc., 1800 First National Bank Building, Dallas, TX 75202, has applied for a right-of-way for approximately 7 miles of natural gas pipeline to collect and deliver gas to the Mountain Fuel Supply Co. transmission line on the following public land:

SIXTH PRINCIPAL MERIDIAN, RIO BLANCO COUNTY, COLO.

T. 1 S., R. 100 W.,
Sec. 25, S½NW¼, NE¼SW¼, SW¼SE¼; and
Sec. 36, Lot 1, NW¼NE¼.
T. 1 S., R. 99 W.
Sec. 30, Lots 13, 14, 15, 17, 18, 20;
Sec. 31, E½NE¼; and
Sec. 32, W½SW¼, SW¼NW¼.
T. 2 S., R. 99 W.,
Sec. 5, W½W½;
Sec. 8, W½; and
Sec. 17, E½NW¼, SW¼NE¼, W½SE¼.

The above-named gathering system will enable the applicant to collect and deliver natural gas. The purposes for this notice are: (1) To inform the public that the Bureau of Land Management is proceeding with the preparation of environmental and other analytic reports, necessary for determining whether or not the application should be approved and if approved, under what terms and conditions; (2) to give all interested parties the opportunity to comment on the application; (3) to allow any party asserting a claim to the lands involved or having bona fide objections to the proposed natural gas gathering system to file its claim or objections in the Colorado State Office. Any party so filing must include evidence that a copy thereof

has been served on David M. Munson, Inc.

Any comment, claim, or objections must be filed with the Chief, Branch of Adjudication, Bureau of Land Management, Colorado State Office, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colo. 80202, as promptly as possible after publication of this notice.

ANDREW W. HEARD, JR.,
Leader, Craig Team,
Branch of Adjudication.

SALMON DISTRICT GRAZING ADVISORY BOARD

Meeting

Notice is hereby given in accordance with Pub. L. 92-463 that a meeting of the Salmon District Grazing Advisory Board will be held on October 26, 1978.

The meeting will begin at 10 a.m. in the conference room of the Bureau of Land Management Office on South Highway 93, Salmon, Idaho.

The agenda for the meeting will include: (1) To review the proposed action in the Challis Planning Unit Draft Supplemental Environmental Statement, (2) to consider and make recommendations concerning allotment management plans for the Challis Planning Unit, and (3) to consider and make recommendations concerning the expenditure of range betterment and advisory board funds for range improvements.

The meeting is open to the public. Anyone may make oral statements to the board or file written statements for the board's consideration. Anyone wishing to make an oral statement must notify the District Manager, Bureau of Land Management, P.O. Box 430, Salmon, Idaho 83467, by October 20, 1978.

Summary minutes of the board meeting will be maintained in the district office and will be available for public inspection within 30 days following the meeting.

HARRY R. FINLAYSON,
District Manager.

SEVIER COUNTY, UTAH

Coal Lease Offering by Sealed Bid

SEPTEMBER 11, 1978.

U.S. Department of the Interior, Bureau of Land Management, Utah State Office, University Club Building, 136 East South Temple, Salt Lake City, Utah 84111. Notice is hereby given that the coal resources hereinafter described in Sevier County, Utah, will be offered for coal lease by sealed bid of $25 per acre minimum bonus to the qualified bidder of the highest cash amount per acre or fraction thereof. The sale will be held at 2 p.m., m.d.t., October 2, 1978, in Room 1408 of the University Club Building. At that time all sealed bids will be opened and read, and the highest bid announced. Sealed bids may not be modified or withdrawn unless such modification or withdrawal is received before the date, time, and place set for the opening of such bids. The Department reserves the right to reject any and all bids and also the right to offer the lease to the next highest qualified bidder if the successful bidder fails to obtain the lease for any reason. If any bid is rejected, the deposit made on the day of the sale will be returned. Payment of the bonus shall be on a deferred basis, one-fifth due on the day of the sale, and the balance in equal annual installments on the first four anniversary dates of the lease. The successful bidder is obligated to pay for the newspaper publications of this notice.

Warning to Bidders. A bidder will not be considered qualified if he holds or controls more than 46,080 acres of Federal coal leases in Utah or 100,000 acres of Federal coal leases in the United States. In accordance with the Federal Coal Leasing Amendments Act of 1975, it will be necessary that the high bidder, as a prospective lessee, disclose the nature and extent of his coal holdings to the Department of Justice before issuance of the lease.

Public Comments. The public is invited to submit written comments on the fair market value of the coal to be leased. Approximately 13,700,000 tons in the average 11-foot thick Upper Hiawatha coal seam will be mined from the lands to be leased. Written comments on the fair market value will be received by the Bureau of Land Management, Utah State Office, University Club Building, 136 East South Temple, Salt Lake City, Utah 84111. A copy of the written comments should also be submitted to the Office of the Conservation Manager, Geological Survey, Box 25046, Denver Federal Center, Denver, Colo. 80225. Written comments must be received by September 25, 1978, in order to be considered. All written comments submitted by the public on fair market value, except those portions identified as proprietary by the commenter and meeting exemptions stated in the Freedom of Information Act, will be available for public inspection.

Coal Offered. The lands are located in the Manti-LaSal and Fishlake National Forests and the Richfield District approximately 30 miles east of the community of Salina, Utah. The coal to be offered is limited to the Upper Hiawatha coal seam containing 13,700,000 tons of recoverable coal. The lands are described as follows:

T. 21 S., R. 5 E., SLM, Utah
Sec. 32, lots 1-4, N½S½; and
Sec. 33, lot 1, NW¼SW¼.
T. 22 S., R. 5 E., SLM, Utah
Sec. 4, lot 4, SW¼NW¼, W½SW¼;
Sec. 5, all;
Sec. 7, S½ NE¼, E½SW¼, SE¼;
Sec. 8, all;
Sec. 17, NE¼, N½NW¼; and
Sec. 18, NE¼, E½NW¼.
Containing 2,631.98 acres.

Detailed Statement. A detailed statement of the terms and conditions of the lease offer, how and where to submit sealed bids, and the obligations of the high bidder to pay for publication of this notice may be obtained from the Bureau of Land Management, Utah State Office.

PAUL L. HOWARD,
State Director.

TYONEK NATIVE CORP.

Decision to Issue Conveyance Temporarily Suspended

SEPTEMBER 12, 1978.

State of Alaska, Division of Lands, 323 East Fourth Avenue, Anchorage, Alaska 99501, A-052985, A-052991, State selections; Tyonek Native Corp., 445 East Fifth Avenue, Suite 9, Anchorage, Alaska 99501, AA-6707-B, AA-6707-C, village selections, Cook Inlet Region, Inc., P.O. Drawer 4-N, Anchorage, Alaska 99509.

The decision to issue conveyance to Tyonek Native Corp., notice of which was published in the FEDERAL REGISTER (43 FR 31438), is hereby temporarily suspended pending the reconsideration of easements reserved pursuant to section 17(b)(3) of the Alaska Native Claims Settlement Act.

This suspension is in accordance with the agreement dated January 18, 1977, between the Secretary of the Interior, Tyonek Native Corp., and Cook Inlet Region Inc.

GERALD W. ZAMBER,
Acting Chief, Division of
ANCSA Operations.

PROPOSED GENERAL MANAGEMENT PLAN, TUSKEGEE INSTITUTE NATIONAL HISTORIC SITE, ALABAMA

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement on the proposed general management plan for Tuskegee Institute national historic site, Alabama.

The statement considers the management, preservation and interpretation of Tuskegee Institute national historic site.

The final environmental statement and general management plan will be available for public review at the addresses given below on or before October 23, 1978, before proposals therein are activated.

Southeast Regional Office, National Park Service, 1895 Phoenix Boulevard, Atlanta, Ga. 30349.

Superintendent, Horsehoe Bend National Military Park, Route 1, Box 53, Daviston, Ala. 36256.

Superintendent, Tuskegee Institute National Historic Site, 399 Old Montgomery Road, Tuskegee, Ala. 36083.

NOTE.—The U.S. Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Dated: September 15, 1978.

LARRY E. MEIEROTTO,
Deputy Assistant Secretary
of the Interior.

National Park Service

YOSEMITE NATIONAL PARK; DRAFT GENERAL MANAGEMENT PLAN AND ENVIRONMENTAL IMPACT STATEMENT

Public Meetings; Intent

Notice is hereby given that the National Park Service will hold a series of 10 public meetings, 9 in California and 1 in Washington, D.C., in November and December 1978 to provide individuals, organizations, and other governmental agencies an opportunity to comment on the draft General Management Plan for Yosemite National Park and the accompanying draft environmental statement.

These meetings are part of the public involvement effort which has been used throughout the planning process leading to the development of the draft documents.

All meetings will begin at 7:30 p.m. local time. However, at each location National Park Service officials will be present from 2 to 4 p.m. each meeting day, and for 1 hour prior to the meeting to discuss the draft General Management Plan on an informal basis with interested individuals. Schedule of the meetings is as follows:

November 27, Yosemite National Park, Valley Visitor Center.
November 28, Fresno, Sheraton Inn, 2550 West Clinton Ave.
November 29, Bishop, Union High School, 301 North Fowler.
November 30, Sacramento, Masonic Temple, 1123 "J" St.
December 4, San Francisco, California Hall, 625 Polk St.
December 5, Oakland, Municipal Auditorium Theater, 10 Tenth St.
December 6, Anaheim, Orange County Room, Anaheim Convention Center, 800 West Katella Ave.
December 7, Woodland Hills, Pierce College Campus Center, 6201 Winnetka Ave.
December 11, San Diego Natural History Museum, El Prado and Village Place, Balboa Park.
December 13, Washington, D.C., Department of the Interior Auditorium, 18th and C Sts. NW.

Interested individuals, representatives of organizations and public officials are encouraged and invited to express their views at these public meetings. Those unable to appear in person may submit written statements to the Superintendent, P.O. Box 577, Yosemite National Park, Calif. 95389, by January 15, 1979, for inclusion in the public record.

Those who wish to provide oral comments for the record will be requested to register at the door. The number of people and time limitations may make it necessary to limit the length of oral presentations. An oral statement, however, may be supplemented by a more complete written statement which also will be made a part of the record.

After a presentation of the Draft General Management Plan by the Park Superintendent, the chairperson, insofar as possible, will adhere to the following order in calling for the presentation of oral comments:

1. Governor of the State of California or his representative.
2. Members of Congress.
3. Members of the State legislature.
4. Official representatives of the counties in which the part is located.
5. Officials of other Federal agencies or public bodies.
6. Organizations in alphabetical order.
7. Individuals in order of registration.
8. Others, to the extent time is available.

Review copies of the draft General Management Plan and its environmental impact statement are on file at the reference desks of leading libraries throughout the State of California, at National Park Service headquarters in Washington, D.C., Yosemite National Park, the Western Regional Office of the National Park Service in San Francisco, and the National Park Service Los Angeles Field Office. Outside of California the documents may be reviewed at the Federal Information Center, Room 250, 219 South Dearborn, Chicago; the National Park Service Southern Arizona Group Office, Phoenix; the National Park Service Office, Room 10-G-3, 819 Taylor Street, Fort Worth; National Park area office, Room 202, 540 West Fifth Avenue, Anchorage; National Park State Director's Office, 300 Ala Moana Blvd., Honolulu; Federal Hall National Memorial, New York City; and in the National Park Service Regional Offices in Seattle, Atlanta, Santa Fe, Omaha, Philadelphia, Boston, and Lakewood (Denver), Colo. Those who wish to purchase copies of the documents may do so from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The price of the draft General Management Plan is $3.75 and the draft Environmental Statement is $11.25. A Summary of the plan is available free, in limited quantity, from the Superintendent, Yosemite National Park.

Dated: September 13, 1978.

JOHN H. DAVIS,
Acting Regional Director,
Western Region.

Office of Surface Mining Reclamation and Enforcement

ADVISORY COMMITTEE ON MINING AND MINERAL RESOURCES RESEARCH

Meeting

This notice is issued in accordance with the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C. App. I) and the Office of Management and Budget's Circular No. A-63, revised.

The Advisory Committee on Mining and Mineral Resources Research will meet from 9 a.m. to 5 p.m. (or completion of business) on October 5, 1978, in room 1042, Columbia Plaza, 2401 E Street NW., Washington, D.C.

The meeting will deal with the following principal subjects:

1. Review of minutes of previous meeting—Assistant Director David R. Maneval.
2. Evaluation of potential areas of research by Mineral Institutes.
3. Policies, responsibilities and future activities of the Advisory Committee.

V 43 / 184 SEP 21 1978

The meeting of this Committee is open to the public. Approximately 40 visitors can be accommodated on a first come, first serve basis. Written statements concerning the subjects are welome.

Visitors who expect to attend should make this known no later than October 2 to:

David R. Maneval, Assistant Director—Technical Services and Research, Office of Surface Mining, Room 114, South Interior Building, 19th and Constitution Avenue NW., Washington, D.C. 20240, phone 202-343-4264.

Dated: September 15, 1978.

WALTER N. HEINE,
Director, Office of Surface Mining, Reclamation, and Enforcement.

AVAILABILITY OF MINING PLAN FOR PUBLIC REVIEW

Energy Fuels Corp. of Denver, Colo., has submitted a modification of its previously approved mining plan under provisions of 30 CFR 211. Energy proposes to mine 200 additional acres of Federal coal lands adjoining its ongoing Number 2 mine operation in Routt County, Colo. The proposed operations would be on proposed Federal coal lease Colorado 20900 in Township 5 North, Range 86 and 87 West, 6th Principle Meridian. The proposed plan has not been reviewed for completeness or adequacy by the Office of Surface Mining.

A copy of the proposed mine plan modification is on file for public review at the Office of the Regional Director, Region V, who may be affected by this proposal. Comments should be filed with the Regional Director within 30 days of the date of this release.

The address of the Regional Director is: Regional Director, Office of Surface Mining, Room 270, Post Office Building, 1823 Stout Street, Denver, Colo. 80202.

Dated: September 19, 1978.

WALTER N. HEINE, P.E.,
Director, Office of Surface Mining Reclamation and Enforcement.

DEPARTMENT OF JUSTICE

Antitrust Division

UNITED STATES v. HAWAIIAN HOLIDAYS TOURS, INC., ET AL.

Proposed Consent Judgment and Competitive Impact Statement

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. 16 (b) through (h) (APPA), that a proposed consent judgment and a competitive impact statement as set out below have been filed with the U.S. District Court for the District of Hawaii in Civil No. 76-0371, *United States v. Hawaiian Holidays Tours, Inc., et al.* Consenting to the proposed judgment are all the defendants in this case, Hawaiian Holidays Tours, Inc., Hawaiian Holidays, Inc., Inter-Island Travel Service, Ltd., d.b.a. Trade Wind Tours of Hawaii, International Travel Brokers, Inc., and Hawaii Unlimited. The complaint in this action alleged that the defendants conspired to fix prices for group inclusive tours (GIT tours) for the Hawaiian market. The judgment enjoins the defendants from agreeing to fix, maintain, or stabilize the prices or terms or conditions of sale of GIT tour packages and also enjoins the defendants from exchanging prices, markups, terms, or conditions of sale of GIT tour packages with each other or another person or business engaged in the sale of GIT tour packages. The competitive impact statement describes the anticipated effects of the proposed judgment on competition, and evaluates alternative relief proposals actually considered by the United States. Public comment is invited within the statutory 60-day time period. Such comments and responses thereto will be published in the FEDERAL REGISTER and filed with the court. Comments should be directed to Anthony E. Desmond, Chief, San Francisco Field Office, Antitrust Division, Department of Justice, 450 Golden Gate Avenue, Room 16432, Box 36046, San Francisco, Calif. 94102.

Dated: September 11, 1978.

RICHARD J. FAVRETTO,
Deputy Director of Operations, Antitrust Division.

DON B. OVERALL,
STEVEN L. WEINSTEIN,
Antitrust Division, U.S. Department of Justice, 450 Golden Gate Avenue, Room 16432, Box 36046, San Francisco, Calif. 94102, Telephone 415-556-6300.

UNITED STATES DISTRICT COURT, DISTRICT OF HAWAII

United States of America, Plaintiff, v. *Hawaiian Holidays Tours, Inc.; Hawaiian Holidays, Inc.; Inter-Island Travel Service, Limited, d.b.a. Trade Wind Tours of Hawaii; International Travel Brokers, Inc.; and Hawaii Unlimited*, Defendants.

Civil No. 76-0371.

Filed: September 11, 1978.

STIPULATION

It is stipulated by and between the undersigned parties, plaintiff United States of America, and defendants Hawaiian Holidays Tours, Inc.; Hawaiian Holidays, Inc.; Inter-Island Travel Service, Ltd., d.b.a. Trade Wind Tours of Hawaii; International Travel Brokers, Inc.; and Hawaii Unlimited, by their respective attorneys, that:

1. The parties consent that a final judgment in the form hereto attached may be filed and entered by the court, upon the motion of any party or upon the court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act (15 U.S.C. 16) and without further notice to any party or other proceedings, provided that plaintiff has not withdrawn its consent, which it may do at any time before the entry of the proposed final judgment by serving notice thereof on defendants and by filing that notice with the Court.

2. In the event plaintiff withdraws its consent or if the proposed final judgment is not entered pursuant to this stipulation, this stipulation shall be of no effect whatever and the making of this stipulation shall be without prejudice to plaintiff or defendants in this or any other proceeding.

For the Plaintiff: John H. Shenefiled, *Assistant Attorney General;* William E. Swope, Charles F. B. McAleer, Anthony E. Desmond, Don B. Overall, Steven L. Weinstein, *Attorneys, Department of Justice.*

For the Defendants: Alexander Anolik, Alexander Anolik, a professional law corporation, San Francisco, Calif., *Attorney for Inter-Island Travel Service, Ltd., and Hawaii Unlimited;* Lawrence B. Kahn, Great Neck, N.Y., *Attorney for International Travel Brokers, Inc.;* Thomas H. Baer, Baer & McGoldrick, New York, N.Y., *Attorney for Hawaiian Holidays Tours, Inc., and Hawaiian Holidays, Inc.*

DON B. OVERALL,
STEVEN L. WEINSTEIN,
Antitrust Division, U.S. Department of Justice, 450 Golden Gate Avenue, Room 16432, Box 36046, San Francisco, Calif. 94102, telephone 415-556-6300.

UNITED STATES DISTRICT COURT, DISTRICT OF HAWAII

United States of America, Plaintiff, v. *Hawaiian Holidays Tours, Inc.; Hawaiian Holidays, Inc.; Inter-Island Travel Service, Ltd., d.b.a. Trade Wind Tours of Hawaii; International Travel Brokers, Inc.; and Hawaii Unlimited*, Defendants.

Civil No. 76-0371.

Filed: September 11, 1978.

FINAL JUDGMENT

Plaintiff, United States of America, having filed its complaint herein on October 5, 1976, and the plaintiff and the defendants, by their respective attorneys, having consented to the entry of this final judgment, without trial or adjudication of any issue of fact or law herein and without this final judgment consituting any evidence against or admission by any party with respect to any issue of fact or law herein:

Now therefore, without any testimony being taken herein, and without trial or adjudication of any issue of fact or law herein, and upon the consent of all parties hereto, it is hereby

Ordered, adjudged and decreed:

I

This court has jurisdiction of the subject matter herein and of the parties hereto. The complaint states a claim upon which relief may be granted against the defendants under section 1 of the Sherman Act (15 U.S.C. 1).

II

As used in this final judgment:

(a) "Person" means any individual, corporation, partnership, firm, association, or other business or legal entity;

(b) "Hawaii" means the State of Hawaii;

(c) "Mainland" means all of the States of the United states except the State of Hawaii;

(d) "GIT tour package" means a bundle of components generally consisting of air transportation, hotel accommodations, and sightseeing features offered for group travel to Hawaii based on a discounted airfare known as a "group inclusive tour" fare;

(e) "Tour operator," sometimes also known in the industry as a "wholesaler," means any company engaged in the assembling, sale, and operation of GIT tour packages; and

(f) "Pooling" means the method by which two or more tour operators jointly provide passengers for the same airplane flight in order to utilize a GIT airfare.

III

The provisions of this final judgment are applicable to all defendants herein and shall also apply to each of said defendants' officers, directors, agents, employees, subsidiaries, successors, and assigns, and to all other persons in active concert or participation with any of them, who shall have received actual notice of this final judgment by personal service or otherwise.

IV

Each defendant is enjoined and restrained from:

(a) Directly or indirectly entering into, adhering to, enforcing, maintaining, furthering, or claiming any right under any contract, agreement, understanding, plan, or program, concert of action, combination or conspiracy with any person, directly or indirectly to fix, maintain, or stabilize the prices, terms, or conditions of sale, or markups of GIT tour packages, or

(b) Suggesting to, discussing with or expressly or implicitly furnishing to or requesting from any tour operator or person associated with or employed by any tour operator any price, markup, term, or condition with respect to GIT tours.

V

Nothing contained in section IV above or this final judgment shall apply to any negotiation or communication between the defendants or a defendant and another tour operator or person associated with or employed by a tour operator, the sole purpose of which is a bona fide proposed or actual purchase or sale of tour components for GIT tours.

Nothing contained in section IV above or this final judgment shall prohibit pooling agreements between the defendants or a defendant and another person to the extent that such agreements may provide for a specific number of passengers each member of a pool must produce for each airplane flight and any penalties to be assessed to a member of a pool for failure to provide the required number of passengers.

VI

Each defendant shall require, as a condition of the sale or other disposition of all, or substantially all, of the assets used by it that the acquiring party agree to be bound by the provisions of this final judgment. The acquiring party shall file with the court, and serve upon the plaintiff, its consent to be bound by this final judgment.

VII

Each defendant is ordered and directed:

(a) To furnish within sixty (60) days after entry of this final judgment a copy thereof to each of its officers and directors, and to each of its managing agents and employees having any responsibility for or authority over the establishment of the pricing or markup on or price of any tour or component thereof which said defendant sells or proposes to sell or for the establishment of commissions to be paid travel agents therefor;

(b) To furnish a copy of this final judgment to each person who becomes an officer or director, or managing agent or employee described in subsection (a) of this section VII, within sixty (60) days after such person is employed by or becomes associated with such defendant;

(c) To take additional affirmative steps to advise each of its officers and directors, and each managing agent and employee described in subsection (a) of this section VII of its and their obligations under this final judgment and of the criminal penalties for violation of section IV of this final judgment, including written directives setting forth corporate compliance policies, distribution of final judgments, and meetings to review its terms and the obligations it imposes.

(d) To file with the court and serve upon the plaintiff, within ninety (90) days from the date of entry of this final judgment, an affidavit as to the fact and manner of its compliance with subsection (a) of this section VII; and

(e) To obtain, from each person described in subsection (a) or (b) of this section VII, a written statement evidencing such person's receipt of a copy of this final judgment, and to retain such statements in its files.

VIII

For the purpose of determining or securing compliance with this final judgment, upon written request of the Attorney General or the Assistant Attorney General in charge of the Antitrust Division or his agent, subject to any legally recognized privilege:

(a) On reasonable notice to a defendant made to its principal office duly authorized representatives of the Department of Justice shall be permitted:

1. Access, during office hours of such defendant, to inspect and copy all books, ledgers, accounts, correspondence, memoranda, and other records and documents in the possession or under the control of such defendant relating to any matters contained in this final judgment; and

2. Subject to the reasonable convenience of such defendant and without restraint or interference from it, to interview officers, directors, employees, or agents of such defendants, any of whom may have counsel present, regarding any matters contained in this final judgment.

(b) Each defendant shall submit such reports in writing, under oath if requested, with respect to matters contained in this final judgment as may from time to time be so requested.

No information or documents obtained by the means permitted in this section VIII shall be divulged by any representative of the Department of Justice to any person, other than a duly authorized representative of the executive branch of the plaintiff, except in the course of legal proceedings to which the United States is a party, or for the purpose of securing compliance with this final judgment, or as otherwise required by law.

If at any time information or documents are furnished by a defendant to plaintiff, such defendant represents and identifies in writing the material in any such information or documents of a type described in rule 26(c)(7) of the Federal Rules of Civil Procedure, and said defendant marks each pertinent page of such material, "Subject to claim of protection under Rule 26(c)(7) of the Federal Rules of Civil Procedure," then 10 days notice shall be given by plaintiff to such defendant prior to divulging such material in any legal proceeding (other than a grand jury proceeding) to which the defendant is not a party.

IX

Jurisdiction is retained by the court for the purpose of enabling any of the parties to this final judgment to apply to this court at any time for such further orders and directions as may be necessary or appropriate for the construction or modification of any of the provisions thereof, for the enforcement of compliance therewith, and for the punishment of violations thereof.

X

Entry of this final judgment is in the public interest.

Dated:_____.

_____,
U.S. District Judge.

DON B. OVERALL,
STEVEN L. WEINSTEIN,
Antitrust Division, U.S. Department of Justice, 450 Golden Gate Avenue, Room 16432, Box 36046, San Francisco, Calif. 94102, Telephone 415-556-6300.

UNITED STATES DISTRICT COURT, DISTRICT OF HAWAII

United States of America, Plaintiff, v. *Hawaiian Holidays Tours, Inc.; Hawaiian Holidays, Inc.; Inter-Island Travel Service, Ltd., d.b.a. Trade Wind Tours of Hawaii; International Travel Brokers, Inc.; and Hawaii Unlimited*, Defendants.

Civil No. 76-0371.

Filed: September 11, 1978.

[4510-26]

DEPARTMENT OF LABOR

Employment and Training Administration

Job Training Partnership Act; Advisory Committee Meeting

Notice is hereby given that the Secretary of Labor's Advisory Committee on Job Training Partnership Act will meet on October 5 and 6, 1978, in Room 1301, 1111 20th Street NW., Washington, D.C. 20210.

The Committee was established pursuant to section 106(a)(1) of the Job Training Partnership Act (Pub. L. 97-300) to advise the Secretary of Labor on matters relating to the administration of the Act.

The agenda for the meeting will include discussion of the following topics:

1. Report on the Committee's activities since its last meeting.
2. Report on the Department's activities since the last meeting.
3. Discussion of the Committee's Annual Report.
4. Discussion of the Committee's Work Plan.
5. Discussion of the Committee's Bylaws.
6. Discussion of the Committee's Subcommittees.
7. Discussion of the Committee's Meeting Schedule.

The meeting will be open to the public. Persons wishing to make oral presentations should notify the Committee Chairperson, Mr. Robert Lerner, Director, Office of Employment and Training Programs, Room 6300, 601 D Street NW., Washington, D.C. 20213, telephone 202-376-6236, by September 29, 1978. Any interested person may file a written statement with the Committee by submitting it to the Chairperson at the address indicated above.

Signed at Washington, D.C., this 18th day of September 1978.

ERNEST G. GREEN,
Assistant Secretary for Employment and Training.

[FR Doc. 78-26703 Filed 9-20-78; 8:45 am]

COMPETITIVE IMPACT STATEMENT

Pursuant to section 2(b) of the Antitrust Procedures and Penalties Act (15 U.S.C. 16 (b)-(h)), the United States of America hereby submits this competitive impact statement relating to the proposed consent judgment submitted for entry in this civil antitrust proceeding.

I. NATURE AND PURPOSE OF THE PROCEEDING

On October 5, 1976, the United States filed a civil complaint under section 4 of the Sherman Act (15 U.S.C. 4), alleging that the defendants, Hawaiian Holidays Tours, Inc., Hawaiian Holidays, Inc., Inter-Island Travel Service, Ltd., d.b.a. Trade Wind Tours of Hawaii, International Travel Brokers, Inc., and Hawaii Unlimited, violated section 1 of the Sherman Act (15 U.S.C. 1). The complaint alleges a combination and conspiracy in unreasonable restraint of interstate commerce, the terms of which were that the defendants and various coconspirators agreed to fix, raise, maintain, and stabilize the prices, terms, and conditions of sale of GIT tour packages. Simultaneously, an indictment was returned against the defendants and two individuals charging them with the same offenses. All of the individuals and corporate defendants entered nolo contendere pleas and were subsequently sentenced by the court. Hawaii Unlimited, a partnership composed of two of the defendants, was dismissed from the criminal action.

II. PRACTICES AND EVENTS GIVING RISE TO THE ALLEGED VIOLATION OF THE ANTITRUST LAWS

The defendants in this case consist of two groups composed of interrelated companies. One group, hereinafter referred to as Hawaiian Holidays, consists of Hawaiian Holidays, Inc., and Hawaiian Holidays Tours, Inc. Both of these defendants are wholly owned by Norman Sosner and his family. The other group, hereinafter referred to as Trade Wind Tours, consists of Inter-Island Travel Service, Ltd., d.b.a. Trade Wind Tours of Hawaii, International Travel Brokers, Inc., and Hawaii Unlimited. Hawaii Unlimited is a partnership composed of Inter-Island Travel Service, Ltd., and International Travel Brokers, Inc.

Hawaiian Holidays and Trade Wind Tours engage in the assembly, sale, and operation of group inclusive tour packages (hereinafter referred to as GIT's) between the mainland United States and Hawaii. The GIT's consist of round-trip air transportation and a bundle of components generally consisting of hotel accommodations and sightseeing features. GIT's utilize discounted airfares which require the existence of groups of certain sizes, simultaneous departure and return by all members of the group, purchase and payment for tickets a prescribed time in advance of departure, and purchase of ground services in Hawaii, such as hotel accommodations and sightseeing features, having a minimum value specified by the tariffs filed with the Civil Aeronautics Board by the airlines serving Hawaii. The defendants sold their GIT packages either directly to the public through their own mainland retail outlets or through mainland retail travel agents who were paid commissions for their sales. Defendants' sales of GIT's during the period of the conspiracy were more than $150,000,000.

The defendants engaged in a conspiracy to fix, raise, maintain, and stabilize the prices, terms, and conditions of sale of GIT tour packages during the period of this complaint in order to restrain commerce between the mainland and Hawaii. The defendants agreed to use indentical or nearly identical prices for GIT tours based upon identical airfares, agreed to use a standard "tax service" or "service charge" on each GIT tour, and attempt to induce competitors to join their conspiracy.

III. EXPLANATION OF THE PROPOSED CONSENT JUDGEMENT

A. PROHIBITED CONDUCT

Section IV of the proposed judgement prohibits each of the defendants from entering into any agreements or understandings between themselves or any other person or business to fix, maintain, or stabilize the prices or terms or conditions of sale of GIT tour packages, and section IV also prohibits the defendants from exchanging prices, markups, terms, or conditions of sale of GIT tour packages with each other or another person or business.

Section V of the judgment provides that the defendants are not barred from negotiations or communications made for the sole purpose of a proposed or actual bona fide sale of tour components or for the sole purpose of pooling of space on aircraft to the extent permitted by the Federal Aviation Act and applicable rules and regulations of the Civil Aeronautics Board. Pooling arrangements by tour operators are commonplace in the industry and do not constitute illegal conduct.

B. SCOPE OF THE PROPOSED JUDGMENT

1. *Persons bound by the decree.* The proposed judgment expressly provides in section III that its terms apply to each of the consenting defendants and each of its officers, directors, agents, employees, subsidiaries, and assigns and to all other persons who receive actual notice of the terms of the judgment.

In addition, section VI of the judgment prohibits each defendant from selling or transferring all or a substantial part of any of its assets, unless the acquiring party files with the court its prior consent to be bound by the provisions of the judgment.

2. *Geographic coverage of the decree.* The prohibitions of the proposed judgment apply to all acts or transactions within the United States, its territories and possessions.

3. *Duration of the judgment.* By its terms, the proposed judgment restrains the prohibited conduct permanently.

4. *Notice and compliance requirements.* Section VII requires each of the defendants to take affirmative steps to advise each of its present and future officers, directors, managing agents, and employees of their obligations under the judgment. Section VIII requires each defendant to make available, upon reasonable notice, to representatives of the U.S. Department of Justice for their inspection documents and records within the defendant's possession, and to make available officers and employees of the defendant for interviews concerning matters within the scope of the judgment. Information obtained from the defendants under the authority of section VIII cannot be divulged outside of the Department of Justice except in a legal proceeding in which the United States is a party, or in order to secure compliance with this judgment, or as otherwise required by law.

C. OTHER TERMS

Section IX allows either party to apply to the court for construction or modification of the judgment or for violation of the judgment.

D. EFFECT OF THE PROPOSED JUDGMENT ON COMPETITION

The relief encompassed in the proposed judgment is aimed at preventing any recurrence of the restraints on competition alleged in the complaint. The prohibitive terms in section IV of the judgment are designed to insure that each of the defendants will act completely independently in determining the prices, terms, and conditions at which it sells or offers to sell GIT tour packages. Compliance with the proposed judgment will ensure competition among the defendants in the sale of GIT tour packages.

IV. REMEDIES AVAILABLE TO POTENTIAL PRIVATE PLAINTIFFS

Any potential private plaintiffs who might have been damaged by the alleged violation will retain the same right to sue for monetary damages and any other legal and equitable remedies that they would have had were the proposed consent judgment not entered. However, pursuant to section 5(a) of the Clayton Act (15 U.S.C. 15(a)), as amended, this judgment may not be used as prima facie evidence in private litigation.

V. PROCEDURES AVAILABLE FOR MODIFICATION OF THE PROPOSED CONSENT JUDGMENT

The proposed consent judgment is subject to a stipulation by and between the United States and the defendant, which provides that the United States may withdraw its consent to the proposed judgment at any time until the court has found that entry of the proposed judgment is in the public interest. By its terms, the proposed consent judgment provides for the court's retention of jurisdiction of this action in order, among other reasons, to permit either of the parties thereto to apply to the court for such orders as may be necessary or appropriate for the modification of the final judgment.

As provided by section 2(b) of the Antitrust Procedures and Penalties Act (15 U.S.C. 16(b)), any persons wishing to comment on the proposed judgment may, for a 60-day period prior to the effective date of the proposed judgment, submit written comments to the U.S. Department of Justice, Attention Anthony E. Desmond, Chief, Antitrust Division, 450 Golden Gate Avenue, Box 36046, San Francisco, Calif. 94102. The Department of Justice will file with the court and publish in the FEDERAL REGISTER such comments and its response to them. In evaluating any and all such comments, the Department will determine whether there is any reason for withdrawal of its consent to the proposed judgment.

VI. DETERMINATIVE DOCUMENTS

Since there are no materials or documents which were considered determinative in formulating the proposed consent judgment, none are being filed by the United States pursuant to section 2(b) of the Antitrust Procedures and Penalties Act (15 U.S.C. 16(b)).

VII. ALTERNATIVES TO THE PROPOSED CONSENT JUDGMENT CONSIDERED BY THE UNITED STATES

This case does not involve any unusual or novel issues of fact or law which might make litigation a more desirable alternative than entry of this consent judgment. The Department of Justice believes the substantive language in the consent judgment to be of sufficient scope and effectiveness to make litigation for relief unnecessary as the judgment provides for all of the relief requested in the complaint.

Dated: September 11, 1978.

DON B. OVERALL,
STEVEN L. WEINSTEIN,
Attorneys, Department of Justice.

[7590-01]

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-29]

YANKEE ATOMIC ELECTRIC CO.

Proposed Issuance of Amendment to Operating License

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to operating license No. DPR-3 issued to the Yankee Atomic Electric Co. (the licensee) for operation of the Yankee Rowe nuclear power station (the facility), located in Franklin County, Mass., in accordance with the licensee's application for amendment and supplements 1 and 2 thereto, all dated July 13, 1978. The licensee will submit additional detailed design information to the Commission for further review.

The proposed amendments would (1) authorize modifications designed to upgrade certain features of the spent fuel pool and enclosure building to enhance safety which include installation of a stainless steel liner and permanent division wall in the spent fuel pool and (2) increase the authorized spent fuel storage capacity of the spent fuel pool from 391 fuel assemblies to 721 assemblies by installing additional racks by January, 1984.

The Commission's staff has determined that the modifications described in item (1) above have a utility independent of the proposed increase in spent fuel storage capacity. Accordingly, staff review of this item is proceeding separately from consideration of the proposed increase in storage capacity (item 2 above). Based on presently available information, the Commission's staff believes that the modifications described in item (1) above will not involve significant hazards considerations and may be considered separately.

Prior to issuance of the proposed license amendments, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By October 23, 1978, the licensee may file a request for a hearing with respect to issuance of the amendment to the subject operating license authorizing increased spent fuel storage capacity in the spent fuel pool (item 2 above) and any person whose interest may be affected by this proceeding and who wishes to partcipate as a party in the proceeding must file a written petition for leave to intervene. Requests for a hearing on the proposed increase in spent fuel storage capacity and petitions for leave to intervene shall be filed in accordance with the Commission's "rules of practice for domestic licensing proceedings" in 10 CFR part 2. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition and the secretary of the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which the petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend his petition, but such an amended petition must satisfy the specificity requirements described above. Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, the petitioner shall file a supplement to his petition to intervene, which must include a list of the contentions which he seeks to have litigated in the matter, and the bases for each contention set forth with reasonable specificity. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

A request for a hearing or a petition for leave to intervene shall be filed with the Secretary of the Commission, United States Nuclear Regulatory Commission, Washingrton, D.C. 20555, Attention: Docketing and Service Section, or may be delivered to the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. by the above date. A copy of the petition should also be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Frederic Greenmond, Esquire, New England Electric System, 20 Turnpike Road, Westboro, Mass. 01581, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board designated to rule on the petition and/or request, that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(i)-(v) and 2.714(d).

For further details with respect to this action, see the application for amendments dated July 13, 1978, and supplements (2) thereto dated July 13, 1978, which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Greenfield Community College, 1 College Drive, Greenfield, Mass. 01301.

Dated at Bethesda, Md., this 11th day of September, 1978.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[7590-01]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Proposed Meetings

In order to provide advance information regarding proposed meetings of the ACRS subcommittees and working groups, and of the full Committee, the following preliminary schedule reflects the current situation, taking into account additional meetings which have been scheduled and meet-

V 43/184 SEP 21 1978 S

V 43 / 184 SEP 21 78

ings which have been postponed or canceled since the last list of proposed meetings published August 15, 1978 (43 FR 36151). Those meetings which are definitely scheduled have had, or will have, an individual notice published in the FEDERAL REGISTER approximately 15 days (or more) prior to the meeting. Those subcommittee and working group meetings for which it is anticipated that there will be a portion or all of the meeting open to the public are indicated by an asterisk (*). It is expected that the sessions of the full Committee meeting designated by an asterisk (*) will be open in whole or in part to the public. ACRS full Committee meetings begin at 8:30 a.m. and subcommittee and working group meetings usually begin at 8:30 a.m. The exact time when items listed on the agenda will be discussed during full Committee meetings and when subcommittee and working group meetings will start will be published approximately 15 days prior to each meeting. Information as to whether a meeting has been firmly scheduled, canceled, or rescheduled, or whether changes have been made in the agenda for the October 1978 ACRS full Committee meeting can be obtained by a prepaid telephone call to the Office of the Executive Director of the Committee, telephone 202-634-3267, Attention: Mary E. Vanderholt, between 8:15 a.m. and 5 p.m., e.d.t.

SUBCOMMITTEE AND WORKING GROUP MEETINGS

*Advanced Reactors, September 25, 1978, Washington, D.C. Rescheduled to September 27, 1978, Washington, D.C. Notice of this meeting (Scheduled for September 25) was published August 15, 1978 (43 FR 36152).

*Safeguards and Security, September 26, 1978, Washington, D.C. The subcommittee will review the NRC research program in this area. Notice of this meeting was published July 17, August 15, and September 11, 1978 (43 FR 30631, 37152, and 40330, respectively).

*Advanced Reactors, September 27, 1978, Washington, D.C. Rescheduled from September 25, 1978. The subcommittee will continue its review of matters related to the NRC sponsored research on the safety of advanced reactor designs. Notice of this rescheduled meeting was published September 12, 1978 (43 FR 40579).

*Radiological Effects and Site Evaluation, September 27-28, 1978, Washington, D.C. The subcommittee will review: (1) A draft of Regulatory Guide 8.JB, "Radiation Safety Training at Nuclear Power Plants," (2) certain aspects of emergency planning, and (3) the NRC research program on radiological effects for the annual ACRS Report to Congress. Notice of this meeting was published September 12, 1978 (43 FR 40579).

*Regulatory Activities, October 4, 1978, Washington, D.C. The subcommittee will review working papers and future regulatory guides; also, it will discuss pertinent activities which affect the current licensing process and/or reactor operations. Notice of this meeting was published August 15 and September 19, 1978 (43 FR 36152 and 42049, respectively).

*Improved Safety Systems, 9 a.m., Ocotber 4, 1978, Washington, D.C. The subcommittee will discuss the NRC plan for research to improve the safety of light-water nuclear powerplants. Notice of this meeting was published September 15, 1978 (43 FR 41316).

*Reliability and Probabilistic Assessment, 1 p.m., October 4, 1978, Washington, D.C. The subcommittee will continue its review of the NRC Office of Nuclear Regulatory Research programs in risk assessment. Notice of this meeting was published September 15, 1978 (43 FR 41316).

*Reactor Fuel, 4 p.m., October 4, 1978, Washington, D.C. The subcommittee will continue its review of NRC research on reactor fuel for consideration by the ACRS in preparation of its annual report to Congress on safety research. Notice of this meeting was published September 15, 1978 (43 FR 41316).

*Waste Management, October 11-12, 1978, Washington, D.C. The subcommittee will review NRC research regarding waste management for inclusion in the annual ACRS report to Congress on safety research.

*Fluid Dynamics, October 24-26, 1978, San Francisco, Calif. Rescheduled from October 23-25, 1978. The subcommittee will meet with representatives of the NRC to discuss methods used in licensing for calculating containment system response by the NRC staff and the nuclear industry. Containment leak testing will also be discussed. In addition, the subcommittee will review the design basis and construction of the Mark II boiling water reactor (BWR) containment system. Notice of this meeting was published June 16, July 17, and August 15, 1978 (43 FR 26162, 30641, and 36152, respectively).

*Plant Arrangements, October 25, 1978, Washington, D.C. The subcommittee will begin its review of the NRC generic program, Systems Interaction in Nuclear Power Plants, Task A-17, and will review the Zion Station Systems Interaction Study.

*Reactor Operations, October 31 and November 1, 1978, Washington, D.C. The subcommittee will review NRC Office of Nuclear Regulatory Research programs being conducted by the Research Support Branch, and will hear a briefing by the NRC Division of Operating Reactors concerning its policies and activities.

*Regulatory Activities, November 1, 1978, Washington, D.C. The subcommittee will review working papers and future regulatory guides; also, it will discuss pertinent activities which affect the current licensing process and/or reactor operations.

*William H. Zimmer Nuclear Power Station, Unit 1, November 15-16, 1978, Cincinnati, Ohio. The subcommittee will review the application of the Cincinnati Gas & Electric Co. for a license to operate unit 1 of this station.

*Architect-Engineer Balance of Plant (tentative), November 21, 1978, Washington, D.C. The subcommittee will meet to review the Fluor Pioneer, Inc. Balance of Plant Standard Safety Analysis Report (BOPSSAR) and its relationship to the Babcock and Wilcox Standard Reference System B-SAR-205 for a preliminary design approval.

OCTOBER 5-7, 1978

A. *Fast Flux Test Facility—Operation.

B. *Anticipated Transients Without Scram (ATWS)—Provisions to mitigate the consequences of ATWS in light-water reactors.

C. *Reactor Safety Research—Discuss NRC research and related programs.

NOVEMBER 2-4, 1978

Agenda to be announced.

Dated: September 15, 1978.

JOHN C. HOYLE,
Advisory Committee Management Officer.

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 78-38]

ACCIDENT REPORT; RESPONSES TO SAFETY RECOMMENDATIONS

AIRCRAFT ACCIDENT REPORT

The National Transportation Safety Board announces the release of the formal report of its investigation into the crash last December 18 of a United Airlines, Inc., DC-8F-54 cargo aircraft near Kaysville, Utah. The aircraft, operating as Flight 2860, crashed into a mountain in the Wasatch Range. The three flightcrew members, the only persons aboard the aircraft, were killed, and the aircraft was destroyed.

During its descent and approach to the Salt Lake City Airport, Flight 2860 encountered electrical system problems and requested a holding clearance which was given by the approach controller and accepted by the flightcrew. The flight then requested and received clearance to leave the approach control frequency for a "little minute" to communicate with company maintenance.

Flight 2860 was absent from the approach control frequency for about 7½ minutes. During that time, the flight entered an area near hazardous terrain. The approach controller recognized Flight 2860's predicament but was unable to contact the flight. When Flight 2860 returned to approach control frequency, the controller told the flight that it was too close to terrain on its right and to make a left turn. after the controller repeated the instructions, the flight began a left turn and about 15 seconds later the controller told the flight to climb immediately to 8,000 feet. Eleven seconds later, the flight reported that it was climbing from 6,000 feet to 8,000 feet. The flight crashed into a 7,655-foot mountain near the 7,200-foot level.

As indicated in Report No. NTSB-AAR-78-8, the Safety Board has determined that the probable cause of this accident was the approach controller's issuance and the flightcrew's acceptance of an incomplete and ambiguous holding clearance in combination with the flightcrew's failure to adhere to prescribed impairment-of-communications procedures and prescribed holding procedures. The controller's and flightcrew's actions are attributed to probable habits of imprecise communication and of imprecise adherence to procedures developed through years of exposure to operations in a radar environment. Contributing to the accident was the failure of the aircraft's No. 1 electrical system for unknown reasons.

Following investigation of the Flight 2860 accident, the Safety Board last April 13 issued the following "Class II, Priority Action" recommendations to the Federal Aviation Administration:

Review the adequacy of current cockpit voice recorder preflight testing procedures to assure satisfactory system operation. (A-78-21)

Review the reliability of cockpit voice recorder units to assure that the mean time between failure is not excessive. (A-78-22)

RESPONSES TO SAFETY RECOMMENDATIONS

Highway

H-78-21 through 26.—The National Highway Traffic Safety Administration on August 14 responded to recommendations issued last May 3 following the Safety Board's safety effectiveness evaluation of the National Accident Sampling System (NASS). The Board's report on the evaluation, No. NTSB-SEE-78-1, was prepared last

April at the request of the Senate Appropriations Subcommittee on Transportation and Related Agencies and covered NHTSA's current effort to collect nationally representative highway accident data through a nationwide system of investigative teams. (See 43 FR 20284, May 11, 1978.)

As proposed, NASS is designed "to produce nationally representative accident data with sufficient accuracy and detail to provide an objective means of setting and evaluating many motor vehicle and highway safety standards."

In response to the six recommendations issued on May 3 to NHTSA in conjunction with the report, NHTSA shares the concern of the Safety Board that this system proceed to full implementation only after adequate planning and successful field experience have been demonstrated. NHTSA's concern is that the "literal interpretation of the recommendations might suggest that expansion to a true national system be delayed while the very difficult issue of accident causation data collection is resolved." NHTSA believes that effort beyond 1980 will be required before the state-of-the-art in causation data collection is sufficient to promote its use in a national system. Attached to NHTSA's August 14 letter is a detailed response to each of the recommendations.

With respect to recommendation H-78-21, which asked NHTSA to establish a NASS Advisory Committee to provide NHTSA with a broader perspective of types of data that should be collected and methods of data storage and retrieval, NHTSA reports that an ad hoc review panel was set up several years ago to evaluate NASS design. Another ad hoc panel will meet this fall, consisting of 23 members from all of the groups recommended by the Safety Board as having a constituent interest in NASS: automobile manufacturers, highway user groups, the insurance industry, governors' highway safety representatives, highway engineering agencies, medical and legal professions, statistical and economic professions, and the private and governmental highway safety research community. NHTSA states that the Carter Administration policy is to reduce the number of permanent advisory committees; therefore, NHTSA is considering various ways of performing occasional oversight of the program without requiring a permanent committee. NHTSA recognizes the importance of periodic review.

In response to H-78-22, NHTSA reports that the NASS staff is engaged in a continuing study of the key data to be used in national estimates. Some observations of the ongoing work are included in "Key Data Element Reporting in the National Accident Sampling System," a copy of which is attached to the response. The report indicates that relative errors on the order of 10 percent or less are feasible when considering missing data alone. NHTSA indicates that more thorough estimates of error will be completed in late 1979.

Recommendation H-78-23 asked NHTSA to study the effects on the cost and quality of data collection that could result from the need for NASS investigators to testify in liability cases resulting from motor accidents and consider the need, advisability, and obtainment of a limited shield for NASS investigators. In response, NHTSA has provided the results of a recent study on this subject and plans for a 1979 study in an attachment entitled "The Effects of Liability Litigation on the National Accident Sampling System." The study finds that potential effects of liability litigation has no significant effect on cost or data quality. A limited shield is considered unnecessary at this time.

In answer to recommendation H-78-24, NHTSA does not plan to select any new NASS accident investigation sites or to expand the number of teams beyond the original 10 before sufficient experience and planning form a basis for such action. The next expansion is scheduled for March 1980, after 20 months of field experience. NHTSA, however, believes it to be unwise to delay expansion while awaiting the development of an accident causation methodology and an exposure data collection system. NHTSA indicates that the NASS is keyed to support the Administration's rulemaking plan for 1978. NHTSA states that data collection to support countermeasures should not be sacrificed while improvements in accident causation data collection are sought. The expansion of NASS and improvement of accident causation methodology will go on simultaneously. NHTSA does not believe the exposure data system design is a prerequisite for expanding the sample.

As recommended by H-78-25, space has been allocated for central storage and review of reports generated by NASS in the National Center for Statistics and Analysis. NHTSA states that the cases will be retained for five years, and, in the fifth year, an evaluation of usage will be made and longer term disposition will be decided.

Recommendation H-78-26 asked NHTSA to revise the currently proposed data collection forms to include substantially increased emphasis on the highway environment, and to seek to utilize the recommendations and counsel of the Federal Highway Administration (FHWA). NHTSA states that it is in complete agreement with this recommendation. NHTSA reports

V 43/184 SEP 21 78

that on May 12 FHWA forwarded a list of data needs for consideration. Approximately 30 percent are presently being collected in the NASS pilot study. Approximately 50 percent are not in the NASS effort but could be, according to NHTSA. The effort required to expand NASS to include this data will be determined. The last 20 percent appear to be beyond the scope of NASS. These issues will be discussed and resolved by a joint FHWA-NHTSA committee, the establishment of which is now under discussion by the agencies. The inclusion of these data can begin in mid 1979, NHTSA stated.

Marine

M-70-3, M-70-13, and M-71-7.—Letter of August 4 from the U.S. Coast Guard provides an update on recommendations issued as a result of investigation into the collision of the SS *African Star* and the MV *Midwest Cities* on March 16, 1968, and the collision between the SS *Union Faith* and the *Warren J. Doucet* on April 6, 1969, respectively. Both collisions occurred on the Mississippi River.

Recommendation M-70-3 called for the Coast Guard, the Army Corps of Engineers, and the Coast and Geodetic Survey to consider: Including in the Coast Pilot or other appropriate navigational guides, information for the inland waterways on the "points and bends" custom and its effect on 33 U.S.C. 203 (Rule I) and 33 U.S.C. 210 (Article 25), the narrow channel rule, and other navigational information useful in navigating these waters; and the need for clarification of these rules in the proposed "United States Nautical Rules" (H.R. 214). Coast Guard reports that the draft unified rules which it prepared for Congress incorporated the "points and bends" custom for use on the Western Rivers and Great lakes and any other waters the Secretary of Transportaton may designate; these rules can be put into effect in 3 to 4 years.

Recommendation M-70-13 called for regulatory action to specify minimum performance standards for whistles on all vessels provided with them in accordance with the applicable Rules of the Road, and recommendation M-71-7 recommended an enforcement program to end the use of inadequately powered lights on all barges. In response to both recommendations, Coast Guard repoorts that draft unified rules are now being developed as a legislative package for submission to Congress next term. The package would grant the Commandant regulatory authority to issue technical Annexes for lights and whistles which would closely parallel the Annexes of the 72 COLREGS. This should result in safe and enforceable regulations for lights and whistles, Coast Guard stated.

Pipeline

P-72-52 and P-74-39.—The Department of Housing and Urban Development on July 28 responded to the Safety Board's inquiry of June 27, 1978, concerning the potential that underground natural gas pipeline leaks represent in residential buildings. The subject recommendations resulted from investigation of two pipeline explosions involving Washington Gas Light Co. facilities. One accident occurred on March 24, 1972, in the Annandale section of Fairfax County, Va., after a contractor's backhoe snagged a 2-inch steel gas main and pulled the pipe out of its compression coupling 22 feet away; the other occurred in Bowie, Md., June 23, 1973, when natural gas from a cracked plastic main migrated through the sand-gravel material, formed a gas reservoir under the house, and passed through heat ducts and other openings in the building slab. Both recommendations called for a study of the flow of natural gas through various basement wall materials and through various types of construction.

The Safety Board's inquiry noted that a major problem identified in investigating pipeline related accidents is that of gas entry and accumulation in buildings near the leak. Any gas leak is dangerous, but when the gas is allowed to accumulate in large amounts in limited enclosed spaces, the danger increases sharply, the Board said. Gas migrating through soil and along the exterior of the pipe enters the lower level of building structures through minor wall cracks, porous building materials, and poorly sealed utility entry points. A related problem is that as a gas moves through a soil, the odorant placed in the gas by the gas company operators, is often filtered so that anyone in the structure would not be aware of the concentration due to recognition of odor.

Also, the Board reported that the National Bureau of Standards (NBS) has suggested studying a two-pronged attack on the problem, sealing the structure from gas intrusion and interior detection of gas that does enter. NBS said it can submit a study proposal and has asked the Safety Board to approach HUD with respect to funding such a study. The Board stated in its June 27 letter to HUD that the solution to the problem will have an effect on the design and cost of homes and other buildings that would come under HUD's regulatory powers.

In response HUD states that demands on its very limited research and development budget are such that this type of research project cannot be funded at this time. HUD said that Congress appropriated materially fewer funds for this year's research than had been requested, and the Department is having to bypass a number of good projects to concentrate resources on planned high priority projects identified by the Congress or by HUD's operating program offices.

HUD reports that it did undertake an extensive effort in 1974 to investigate gas pipeline safety on HUD-insured and HUD-assisted multifamily residences. From that research, which was coordinated closely with the Department of Transportation and the Safety Board, HUD published a guide entitled "Handbook on Natural Gas Pipeline Safety in Residential Areas Served by Master Meters"; a copy of the guide was forwarded with the response. Also, HUD said it has instructed local housing authorities to check the integrity of their underground gas pipeline systems thoroughly and periodically, using the handbook as a guide.

P-74-19.—The American Society of Mechanical Engineers (ASME) on July 17 commented on the Safety board's recommendation to develop guidelines for the use of telemetering on gas distribution systems so that system failures can be promptly detected. The recommendation resulted from investigation of the gas pipeline leak, explosion, and fire which occurred December 9, 1972, in the Missouri Public Service Co. system at Clinton, Mo.

ASME's response includes a lengthy technical discussion of parameters involved in telemetering gas pipeline data. The conclusions include a statement on uses of telemetering. This system has been used based on considerations of continuity of service and as an operating tool for monitoring large systems. ASME notes that the use of telemetering as an early warning agent for system failures is subject to serious question on the basis of technical practicability. A list of parameters is given upon which to base guidelines, if guidelines must be established. ASME does not endorse the concept of using telemetry as an early warning agent alone. A statement is included that actual test work seems justifiable as the technical analysis is largely hypothetical.

P-74-54 through 58.—Letter of August 4 from the Mid-America Pipeline System is in response to the Safety Board's inquiry of July 27 regarding recommendations issued as a result of Mid-America's anhydrous ammonia leak at Conway, Kans., on December 6, 1973.

In response to P-74-54, which asked that improved procedures under 49 CFR 195.402 require that dispatchers perform detailed monitoring of all

points on a pipeline system during startup until conditions have stabilized, Mid-America says that dispatchers have been instructed on startup procedures for all systems and that presently there are two dispatchers on duty 24 hours per day.

Recommendation P-74-55 asked Mid-America to check the instrumentation at all stations, terminals, and control points under 49 CFR 195.402, and to make changes and additions as necessary to protect this pipeline system against overpressure. Mid-America reports that this requirement has been complied with by the installation of three pressure control regulating stations and remote reading pressure points in order to preclude the possibility of overpressure.

Mid-America reports concerning P-74-56 that the training program for pipeline inspectors has been initiated to insure that all inspectors are adequately trained to reduce the probability of pipeline damage by outside parties, as recommended.

With respect to recommendation P-74-57, Mid-America states that a program of more frequent inspection of control equipment has been initiated, as recommended, and that a concerted effort is being made to keep the equipment operative at all times. Known failure-prone components are replaced with more reliable equipment as problems become apparent. Mid-America has gone to a pressure recorder that uses pressure sensitive paper and, therefore, does not require the use of ink.

Recommendation P-74-58 asked the company to review the operations of its pipeline system in the light of 49 CFR 195.402 to institute a more systematic and authoritative approach to understanding and controlling hazards. Mid-America reports that a training program for operating personnel has been initiated, and minimum standards are established for various operating jobs. Further, pipeline design is continually updated to employ the most recent innovations in pressure and flow control equipment.

P-75-4.—Another letter from the American Society of Mechanical Engineers under date of July 17 concerns a recommendation resulting from the investigation of Michigan-Wisconsin Pipeline Co. accident at Monroe, La., March 2, 1974.

In response to this recommendation to develop guidelines for the use, setting, and maintenance of automatic valves on gas transmission pipeline systems, ASME indicates agreement with the Safety Board that guidelines have merit but believes that they should not be developed until such time as detection and control systems are sufficiently advanced to provide proper operation. ASME says that settings for such controls must be determined with both continuity of service and rapid shutdown in mind. ASME notes that the problem of inadvertent operation is more complex in multiple looped pipeline systems and that systems which are commercially available today do not meet these criteria. Several gas transmission companies are independently experimenting with detection systems that hold promise of meeting these criteria. Experimentation is in the demonstration stage—field testing, refinement, and data collection.

P-77-29.—Letter of July 31 from the Exxon Gas System, Inc., is a followup to its response of May 12 regarding the recommendation which followed investigation into the failure and subsequent explosion of a gas compressor at an Exxon station on December 7, 1976, near Robstown, Tex. The recommendation called for a total systems review of electric, air, and gas-operated emergency equipment, with a particular emphasis on interconnected air systems and backup on dual-feed air systems in compressor stations.

Exxon reports that it has completed a detailed systems review of its emergency equipment and concludes that the system is satisfactory. There are no interconnected air systems involved with the emergency system, Exxon states. The backup power source is defined for each identified segment of the emergency system. A summary of fire gate valve operation is provided in an attachment to the followup response. Exxon plans to have the solenoid valve modified completely at all three compressor stations by the end of the year.

NOTE.—The above notice reports on Safety Board documents recently released and recommendation response letters received. Single copies of the accident report are available to the general public without charge. Copies of the full text of responses to recommendations may be obtained at a cost of $4 for service and 10¢ per page for reproduction.

All requests to the Board for copies must be in writing, identified by report or recommendation number. Address inquiries to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594.

Multiple copies of accident reports may be purchased by mail from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151.

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2169, 2172 (49 U.S.C. 1903, 1906)).)

OFFICE OF MANAGEMENT AND BUDGET

List of Requests

CLEARANCE OF REPORTS

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on September 14, 1978 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; an indication of who will be the respondents to the proposed collection; the estimated number of responses; the estimated burden in reporting hours; and the name of the reviewer or reviewing division or office.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, 202-395-4529, or from the reviewer listed.

REVISIONS

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary, an Interim Evaluation of Section 504 Implementation, OS-4-78-A, single time, HEW service providers, 8,000 responses, 2,000 hours, Laverne V. Collins, 395-3214.

DEPARTMENT OF LABOR

Employment and Training Administration, State and National Apprenticeship Data System, (SNAPS), ETA 5-125 and 5-126, semiannually, Federal and State apprenticeship and training representatives, 89,000 responses, 19,918 hours, Strasser, A., 395-6132.

EXTENSIONS

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Administration (Office of Assistant Secretary):

Application for Coinsurance Benefits (Multifamily), HUD-426, 426A, 426.1, and 427, on occasion, coinsurance benefits, 50 responses, 100 hours, Caywood, D. P., 395-3443.

Request for Preliminary Reservation of Contract Authority for Conditional Commitments to be Converted to Section, 235(I), FHA-3122, on occasion, sponsors, 5,000 responses, 417 hours, Caywood, D. P., 395-3443.

Housing Management:

Annual Operating Budget for Cooperative Housing Corporations, HUD-93240, on occasion, cooperative housing corporations, 1,135 responses, 5,675 hours, Caywood, D. P., 395-3443.

Notice of Default Status on Multifamily Housing Projects, HUD-92426, on occasion, mortgagees, 27,000 responses, 13,500 hours, Caywood, D. P., 395-3443.

Administration (Office of Assistant Secretary), Fiscal Data in Support of Claim for Insurance Benefits, FHA-2742, on occasion, FHA approved mortgagees, 350 responses, 105 hours, Caywood, D. P., 395-3443.

Housing Production and Mortgage Credit, Application for Mortgage Insurance, section 213, sales type, FHA-3202, on occasion, project sponsors, 20 responses, 10 hours, Caywood, D. P., 395-3443.

DAVID R. LEUTHOLD,
Budget and Management Officer.

DEPARTMENT OF STATE

AGENCY FOR INTERNATIONAL DEVELOPMENT

JOINT COMMITTEE FOR AGRICULTURAL DEVELOPMENT OF THE BOARD FOR INTERNATIONAL FOOD AND AGRICULTURAL DEVELOPMENT

Meeting

Pursuant to Executive Order 11769 and the provisions of section 10(a)(2), Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given of the 15th meeting of the Joint Committee on Agricultural Development of the Board for International Food and Agricultural Development on October 10 and 11, 1978.

The purpose of the meeting is to discuss: The status of preparations for reception and review of university strengthening proposals; the proposal by the Consultative Group on International Agricultural Research for the establishment of a new international service for strengthening national agricultural research; the need for revision of the JCAD agenda; AID's process for selection of university contractors; the proposed Foundation for International Technical Cooperation and how it relates to title XII; and to consider other business brought before the Committee.

The meeting on October 10, 1978, will convene in regional work groups (RWG's): Africa RWG at 9:30 a.m., in Room 2941, New State Department Building; Asia RWG at 9:30 a.m., in Room 322, Rosslyn Plaza Building, 1601 North Kent Street, Rosslyn, Va.; near east RWG at 9:30 a.m., in Room 6484, New State Department Building; and Latin America RWG at 9:30 a.m., in Room 2242, New State Department Building. The meeting on October 11, 1978, will convene from 9 a.m. to 5 p.m., in the Arlington Room of the Quality Inn, Pentagon City, 300 Army-Navy Drive, Arlington, Va. 22202. The meeting is open to the public. Any interested person may attend, may file written statements with the Committee before or after the meeting, or may present oral statements in accordance with procedures established by the Committee, and to the extent the time available for the meeting permits.

Dr. Carl E. Ferguson, Office of Title XII Coordination, Development Support Bureau, is designated AID Advisory Committee Representative at the meeting. It is suggested that those desiring further information write to him in care of the Agency for International Development, State Department, Washington, D.C. 20523, or telephone him at 703-235-9054.

Dated: September 13, 1978.

CARL E. FERGUSON,
AID Advisory Committee Representative, Joint Committee on Agricultural Development, Board for International Food and Agricultural Development.

[FR Doc. 78-26503 Filed 9-20-78; 8:45 am]

[4710-02]

JOINT RESEARCH COMMITTEE OF THE BOARD FOR INTERNATIONAL FOOD AND AGRICULTURAL DEVELOPMENT

Meeting

Pursuant to Executive Order 11769 and the provisions of section 10(a)(2), Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given of the 16th meeting of the Joint Research Committee of the Board for International Food and Agricultural Development on October 10 and 11, 1978.

The purpose of the meeting is to discuss procedures and methods for involvement of AID regional bureaus and country missions in planning and implementing collaborative research support programs (CRSP's) with U.S. agricultural universities in food, nutrition, and related areas; to inventory contract research, and identify periodic research needs in food, nutrition, and related areas in AID regional bureaus and country missions; to discuss procedures for JRC review of unsolicited research proposals in food, nutrition, and related areas; to discuss proposed revision of JRC guidelines on methods of participation of USDA in aid funded CRSP's; and consider other matters brought before the Committee.

This meeting will convene at 9 a.m. and adjourn at 5 p.m., on October 10 and 11, 1978. The meeting will be held in the Arlington Room of the Quality Inn, Pentagon City, 300 Army-Navy Drive, Arlington, Va. 22202. The meeting is open to the public. Any interested person may attend, may file written statements with the committee before or after the meeting, or may present oral statements in accordance with procedures established by the Committee, and to the extent the time available for the meeting permits.

Dr. Erven J. Long, Office of Title XII Coordination, Development Support Bureau, is designated AID Advisory Committee Representative at the meeting. It is suggested that those desiring further information write to him in care of the Agency for International Development, State Department, Washington, D.C. 20523, or telephone him at 703-235-2243.

Dated: September 14, 1978.

ERVEN J. LONG,
AID Advisory Committee Representative, Joint Research Committee, Board for International Food and Agricultural Development.

[4710-08]

[Public Notice CM-8/107]

SECRETARY OF STATE'S ADVISORY COMMITTEE ON PRIVATE INTERNATIONAL LAW

Meeting

A meeting of the Secretary of State's Advisory Committee on Private International Law will be held at 10:30 a.m., on Wednesday, October 25, 1978, in room 1205 of the Department of State. Members of the general public may attend and participate in the discussion subject to instructions of the Chairman.

The principal purpose of the meeting will be to review proposed positions of the U.S. Government on issues of private international law under international negotiation, and to recommend priorities in the U.S. Government's participation in private international law programs.

Members of the general public who desire to attend the meeting will be admitted up to the limits of the capacity of the meeting room. Entrance to the Department of State building is controlled and entry will be facilitated if arrangements are made in advance of the meeting. It is requested that prior to October 25, 1978, members of the general public who plan to attend the meeting inform their name, affiliation, and address to Ms. Dorothy Fagan, Office of the Legal Adviser, Department of State; the telephone number is area code 202-632-8134. All non-Government attendees at the meeting should use the C Street entrance.

HERBERT J. HANSELL,
Chairman.

SEPTEMBER 13, 1978.

[4710-07]

[Public Notice CM-8/106]

STUDY GROUP 1 OF THE U.S. ORGANIZATION FOR THE INTERNATIONAL TELEGRAPH AND TELEPHONE CONSULTATIVE COMMITTEE (CCITT)

Meeting

The Department of State announces that Study Group 1 of the U.S. Organization for the International Telegraph and Telephone Consultative Committee (CCITT) will meet on October 12, 1978, at 10 a.m., in Room A-110 (Training Room) of the Federal Communications Commission, 1229 20th Street NW., Washington, D.C. This Study Group deals with U.S. Government regulatory aspects of international telegraph and telephone operations and tariffs.

The Study Group will discuss international telecommunications questions relating to telegraph, telex, data, videotex, maritime mobile and leased channel services in order to develop U.S. positions to be taken at international CCITT meetings to be held in December 1978 and during 1979, in Geneva, Switzerland.

Members of the general public may attend the meeting and join in the discussion subject to instructions of the Chairman. Admittance of public members will be limited to the seating available.

Requests for further information should be directed to Mr. Richard H. Howarth, State Department, Washington, D.C. 20520, telephone 202-632-1007.

RICHARD H. HOWARTH,
Vice Chairman, U.S. CCITT National Committee.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 76-011]

DEEPWATER PORTS

Application Amendment

AGENCY: Coast Guard, Department of Transportation.

ACTION: Notice of deepwater port license application amendment.

SUMMARY: On August 24, 1978, the Texas Deepwater Port Authority (TDPA) filed with the Department of Transportation an amendment to the application submitted on December 31, 1975 by Seadock, Inc., a corporate consortium of oil companies, for a license to own, construct, operate, and maintain a deepwater port off the coast of Texas. The TDPA, through the amendment, seeks the approval that is required by the Deepwater Port Act of 1974 (the Act) (33 U.S.C. 1501) to build a deepwater port. The TDPA project apears to be the same port facility, in the same location, which was proposed in the original deepwater port license application submitted by Seadock. The Seadock application review process culminated in an offer by the Secretary of Transportation on January 17, 1977, of a deepwater port license, supported in part by the finding that the port was in the national interest. Seadock did not accept the Secretary's license offer because it could not obtain enough owners to finance the project. The Texas State legislature subsequently established the TDPA as a State agency to pursue this matter. TDPA's amendment to the application reflects the State's desire to revive and sponsor a deepwater port under public ownership and financing, and would, if approved, permit the TDPA to move forward with development of the port.

DATES: Public comment is invited throughout the processing of the application amendment. Public hearings will be announced in a future FEDERAL REGISTER notice and by other appropriate means.

ADDRESSES: The application amendment review process is being conducted by the: Deepwater Port Application Staff, Commandant (G-WDWP/61), U.S. Coast Guard Headquarters, 400 Seventh Street SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Comdr. J. D. Partin, Coast Guard Application Coordinator, 202-426-2606, between 7:30 a.m. and 4 p.m. e.s.t.

SUPPLEMENTAL INFORMATION: Through acquisition from Seadock of all its interests in the original deepwater port license application, including the engineering, environmental, and other work that had been done on the project, the TDPA intends to use the same port design, location, capacities, etc., as previously approved by the Secretary. The principal change reflected in the application amendment is in the ownership and financing, i.e., a change to public ownership and revenue bond financing. Because the amendment proposes the same port which Seadock applied to build, the designation of Texas as an adjacent coastal State for that application (41 FR 3769, January 26, 1976) remains valid for the amendment. Similarly, the "application area" for the amendment is the area designated for original application—that area contained within a circle of 21 nautical mile radius centered at latitude 28°30.5' N. and longitude 95°16.8' W. and south of a line drawn between latitude 28°29' N., longitude 96°008' W., and latitude 29°01' N., longitude 95°00' W., less that area contained within shipping safety fairways and fairway anchorages as plotted on National Ocean Survey chart number 11300. Any person interested in applying for a license for the ownership, construction, and operation of a deepwater port within the designated application area described above must file with the commandant (G-WDWP/61), at the address listed above, a notice of intent to file an application on or before November 20, 1978.

The change to public ownership and financing is favored by the Act in its establishment of a preference for the issuance of a deepwater port license to public owners. The Federal review process of the TDPA application amendment will primarily focus upon the change of ownership and the effects thereof, along with a review of a number of lesser issues that may require updating because of the intervening time since the original application review was completed.

REVIEW PROCESS

The TDPA application amendment has been reviewed for completeness of content by reference to the standards enumerated in the Act and 33 CFR 148.109. It appears the application amendment contains sufficient information to commence a formal review process. Since there are no regulations or procedures for processing a deepwater port license application amendment of the nature presently before the Coast Guard, the procedures and standards specified in the Act and in the regulations at 33 CFR Part 148 for a new application will be used where appropriate. Moreover, the application staff intends to comply with all time limits established by the Act and, where feasible, to accelerate the process because much of the TDPA proposal was already approved in the review of the Seadock application.

DEEPWATER PORT PLANS

The application amendment plans under review provide for constructing a deepwater port in the Gulf of Mexico, approximately 26 miles south of Freeport, Tex. The focal point of the port will be a pumping platform complex (PPC) bearing 177.8° true 25.8 nautical miles from Freeport Harbor

V 43 / 184 SE 2 1 7 8

entrance light. The PPC (lat. 28°30'31" N., long. 95°16'59" W.) will contain personnel accommodations, machinery for pumping to the mainland oil received at the port, and a control station for directing and monitoring vessel movement in the port area.

Arranged around the circumference of a circle having an approximate 8,000-foot radius from the center of the PPC will be four single point mooring (SPM) buoys. Tankers calling at the port will moor by the bow at the SPM's. Floating oil transfer hoses will be attached to each SPM in a manner that allows a tanker to moor to the buoy, connect to the hoses, and discharge its cargo. While moored, the tanker will weather-vane 360 degrees about the SPM, to maintain a heading of least resistance to the elements when engaged in oil transfer operations.

An approach fairway to the port and anchorage areas for tankers awaiting a berth at the SPM's are proposed for the port. A portion of the fairway and the anchorage areas will be marked with lighted aids to navigation, and safeguarded by a vessel traffic control scheme that will monitor the movement of tankers arriving at and departing from the port. The proposed fairway will extend from the port's traffic scheme southward to an existing Gulf safety fairway.

Buried submarine pipelines will carry oil from the base of each SPM to the PPC where it will be boosted to shore via two 52-inch diameter buried pipelines. The path of these pipelines to an onshore storage terminal is on an approximate bearing of 336° true from the PPC to the beachline, thence roughly parallel to Redfish Bayou on a northerly bearing to the tank farm.

The onshore storage terminal will be located 5 miles inland, near Freeport; it will contain 28 tanks with a total capacity of approximately 22,500,000 barrels. There will be pumps and ancillary facilities at the storage terminal to distribute the crude oil to the pipeline networks that will deliver to inland refineries and chemical plants.

The deepwater port is designed to handle an average throughput of approximately 2,000,000 barrels of crude oil daily.

The TDPA has also indicated tentative plans for future expansion. These plans call for an addition to the PPC, two additional SPM's, an additional 52-inch pipeline from the PPC to the shore, increased onshore crude oil storage capacity to a maximum of approximately 35,500,000 barrels, and increased daily volume of oil throughput at the port to 4,000,000 barrels. An amended deepwater port license will be required prior to this expansion.

ADDITIONAL INFORMATION

Any person who desires to receive notices of public hearings that may be held in connection with the processing of the TDPA application amendment may submit a written request therefor to Commandant (G-WDWP/61) at the Coast Guard address listed above.

A copy of the application amendment, except trade secrets and confidential information for which protection from disclosure is afforded under section 14 of the Act, may be reviewed between 7:30 a.m. and 4 p.m. in room 8117 at the above address, and during normal business hours at the following locations:

Office of the Commander (mps), Eighth Coast Guard District, Room 13411, Hale Boggs Federal Bldg., 500 Camp St., New Orleans, La. 70130.
Freeport Public Library, 410 Brazosport Blvd., Freeport, Tex. 77542.
Office of the Galveston District, Army Corps of Engineers, U.S. 400 Barracuda, Galveston, Tex. 77550.
Texas Deepwater Port Authority, 3701 Kirby Dr., Suite 730, Houston, Tex. 77098.

(88 Stat. 2131 (33 U.S.C. 1504(c)); 49 CFR 1.46.)

Dated: September 18, 1978.

W. W. BARROW,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

CONRAIL BRIDGE; DEPUE, ILL.

Public Hearing on Proposed Bridge Alteration

A public hearing on proposed alteration of the ConRail railroad bridge across the Illinois River, mile 213.9, at Depue, Ill., will be held on Wednesday afternoon, October 25, 1978, at 1 p.m., in the county board room, Peoria County Courthouse, Main and Jefferson Streets, Peoria, Ill. This hearing is being held under the authority of section 3 of the act of June 21, 1940 (Truman-Hobbs Act).

The existing bridge, which has a swing span, provides approximately 146 feet of horizontal clearance in the draw when measured normal to the channel axis. A number of complaints have been received alleging that the bridge is unreasonably obstructive to navigation. The purpose of the hearing is to determine whether alteration is needed and, if so, what alteration is required having due regard for the necessity of free, easy and unobstructed navigation upon the waterway. The needs of rail traffic will also be considered.

Public comments, views, and data are required for ascertaining whether the bridge unreasonably obstructs navigation, whether vessels have unreasonable difficulty and delay in passing through the bridge, the extent of costs associated with collisions and delays to navigation, the character and amount of commerce affected, whether the commerce affected is sufficient to justify alteration of the bridge, the changes necessary to render navigation through or under the bridge reasonably free and unobstructed, and the impact of the alteration, if made, upon the quality of the human environment.

Any person who wishes may appear and be heard at this public hearing. Persons planning to appear and be heard are requested to notify the Commander, Second Coast Guard District, 1430 Olive Street, St. Louis, Mo. 63103, any time prior to the hearing indicating the amount of time required. Depending upon the number of scheduled statements, it may be necessary to limit the amount of time allocated to each person. Any limitations of time allocated will be announced at the beginning of the hearing. Written statements and exhibits may be submitted in place of or in addition to oral statements and will be made a part of the record of the hearing. Such written statements and exhibits may be delivered at the hearing or mailed in advance to the Commander, Second Coast Guard District.

(54 Stat. 498, 33 U.S.C. 513; sec. 6(g)(3), 80 Stat. 937, 49 U.S.C. 1655(g)(3); 33 CFR 116.20 and 49 CFR 1.46(c)(6).)

Dated: September 14, 1978.

F. P. SCHUBERT,
Captain, U.S. Coast Guard, Acting Chief, Office of Marine Environment and Systems.

CHEMICAL TRANSPORTATION ADVISORY COMMITTEE; SUBCOMMITTEE ON LIQUEFIED GAS VESSELS

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. I) notice is hereby given of a meeting of the Chemical Transportation Advisory Committee's Subcommittee on Liquefied Gas Vessels to be held on Wednesday, October 25, 1978, beginning at 9 a.m., room 8236, Nassif Building, 400 7th Street SW., Washington, D.C. 20590. The agenda for this meeting is as follows:

To discuss design and construction standards for internal insulation systems for liquefied gas cargo tanks.

Attendance is open to the interested public. With the approval of the chairman, members of the public may present oral statements. Any member of the public may present a written statement to the subcommittee at any time.

FOR ADDITIONAL INFORMATION, CONTACT:

Capt. William N. Spence, Commandant (G-MHM/83), U.S. Coast Guard, Washington, D.C. 20590, 202-426-2306.

For scheduling and for providing adequate seating, those wishing to present oral statements or attend the meeting should notify the above office no later than the day before the meeting.

Issued in Washington, D.C., on September 18, 1978.

HENRY MCBELL,
Rear Admiral, U.S. Coast Guard, Chief, Office of Merchant Marine Safety.

[CGD 78-127]

PROPOSED BRIDGE ACROSS THE ST. JOHNS RIVER AND MILL COVE AT JACKSONVILLE, (DAME POINT), FLA.

Public Hearing

Notice is hereby given that the Commandant has authorized a public hearing to be held by the Commander, Seventh Coast Guard District, at the Prudential Insurance Co., first floor auditorium, 841 Frudential Drive, Jacksonville, Fla., from 5:30 p.m. to 10:30 p.m. on Monday, November 6, and Wednesday, November 8, 1978. The purpose of the hearing is to consider the application from the Jacksonville Transportation Authority for a permit to construct a highway bridge across the St. Johns River and Mill Cove at Jacksonville (Dame Point), Fla. All interested persons may present data, views, and comments orally or in writing at the public hearing concerning the impact of the proposed bridge on the environment and its effect on navigation. A final environmental impact statement prepared by Federal Highway Administration (FHWA) as lead agency has been filed with the Council on Environmental Quality on May 20, 1977, in compliance with the National Environmental Policy Act.

A public hearing was held on November 17 and 18, 1976, in accordance with FHWA guidelines. The public hearing included the entire project corridor. All comments presented at the hearing concerning the effects of the proposed project on the quality of the human environment and those to be presented at the scheduled hearing will be made a part of the record and will be given full consideration in the permitting process. Of particular importance at this time are effects of the proposed bridge alinement and the vertical and horizontal clearances on navigation. Presentations should include factual data to support comments presented.

The hearing will be informal. A Coast Guard representative will preside at the hearing, make a brief opening statement describing the proposed bridge and announce the procedures to be followed at the hearing. Each person who wishes to make an oral statement should notify the Commander (oan), Seventh Coast Guard District, Federal Building, 51 Southwest First Avenue, Miami, Fla. 33130, by November 1, 1978. Such notification should include the approximate time required to make the presentation. A transcript will be made of the hearing and may be purchased by the public. Interested persons who are unable to attend this hearing may also participate in the consideration of this bridge permit application by submitting their comments, in writing, on or before December 8, 1978, to the Commander (oan), Seventh Coast Guard District. Each comment should state the reasons for any objections, comments or proposed changes to the plans, and the name and address of the person or organization submitting the comment.

Copies of all written communications will be available for examination by interested persons at the office of the Commander (oan), Seventh Coast Guard District. All comments received will be considered before final action is taken on the proposed bridge permit application. After the time set for the submission of comments, the Commander, Seventh Coast Guard District, will forward the record, including all written comments, and his recommendations to the Commandant, U.S. Coast Guard, Washington, D.C. 20590. The Commandant will make the final determination of the bridge permit.

(Sec. 502, Act of Aug. 2, 1946, as amended; 33 U.S.C. 525, 49 U.S.C. 1655(g)(6)(C); 49 CFR 1.46(c)(10).)

Dated: September 15, 1978.

F. P. SCHUDERT,
Captain, U.S. Coast Guard, Acting Chief, Office of Marine Environment and Systems.

TANKER SAFETY AND POLLUTION PREVENTION

Revision to Regulatory Implementation Plan Schedule

PURPOSE

The purpose of this notice is to inform the public of a revision to the schedule of the Coast Guard plan for regulatory implementation of the results of the International Conference on Tanker Safety and Pollution Prevention (TSPP) sponsored by the Intergovernmental Maritime Consultative Organization (IMCO) from February 6 through 17, 1978.

DISCUSSION

In the April 20, 1978 FEDERAL REGISTER, Volume 43, No. 77, pages 16886 through 16890, the Coast Guard issued a notice to inform the public of the results of the International Conference on Tanker Safety and Pollution Prevention and to provide the public with the anticipated plan for regulatory implementation of the results of the conference. At the TSPP Conference new measures and procedures to improve the safety of oil tankers and reduce pollution of the sea from ships were developed which expanded the requirements of the 1974 Safety of Life at Sea Convention (SOLAS 74) and the 1973 Marine Pollution Convention (MARPOL 73). It is the intention of the Coast Guard to implement these new measures and procedures into Federal regulations. Table 2 on page 16890 of the April 20 FEDERAL REGISTER set forth the expected schedule necessary to develop and finalize these Federal regulations and the effective implementation dates once the regulations become final.

It was originally estimated that final regulations for inert gas systems (IGS) and second radar systems would be issued during August 1978, with final regulations for segregated ballast tanks (SBT), clean ballast tanks (CBT), crude oil washing (COW), and improved steering standards to be issued in February 1979. The preparatory work necessary for the development and issuance of the SBT, CBT, COW, improved steering standards, and IGS regulations was delayed because project personnel were simultaneously tasked with conducting a study to determine if tanker safety and pollution prevention measures, additional to those developed at the TSPP Conference, should be applied to U.S. tank vessels in domestic trade. As a result of this, the schedule for these final regulations has been revised.

NOTICES

Final regulations for SBT, CBT, COW, and improved steering standards will be issued in April 1979. Final regulations for IGS will be issued in November 1978. Final regulations for second radar systems were not affected by the delay and were issued ahead of schedule on July 24, 1978. Table 2, Coast Guard Regulatory Implementation Plan for TSPP Results (Revised), shows the new schedule. The new time frame remains consistent with the Coast Guard's original intention to utilize the effective implementation dates developed by the TSPP Conference which range from June 1979 through June 1985.

Dated: September 15, 1978.

HENRY H. BELL,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Merchant
Marine Safety.

VETERANS ADMINISTRATION

SPECIAL MEDICAL ADVISORY GROUP

Meeting

The Veterans Administration gives notice pursuant to Pub. L. 92-463, that a meeting of the Special Medical Advisory Group, authorized by 38 U.S.C. 4112(a), will be held in the Administrator's Conference Room at the Veterans Administration Central Office, 810 Vermont Avenue NW., Washington, D.C., on October 2 and 3, 1978. The purpose of the Special Medical Advisory Group is to advise the Administrator and the chief medical director relative to the care and treatment of disabled veterans, and other matters pertinent to the Veterans Administration's Department of Medicine and Surgery.

The general sessions will convene at 8:30 a.m., on October 2, and at 9 a.m., on October 3. These will be open to the public up to the seating capacity of the room. Because this capacity is limited, it will be necessary for those wishing to attend to contact Mr. Harrison Owen, Acting Executive Secretary, Special Medical Advisory Group, Veterans Administration Central Office, phone 202-389-3588, prior to September 27, 1978.

The executive session portion of the meeting, October 3, 1978, 11 a.m. to 12 noon, will be closed for discussions of personnel matters in the department of medicine and surgery, pursuant to section 10(d), Pub. L. 92-463, the Federal Advisory Committee Act (5 U.S.C. app. sec. 10d) since such portion will deal only with the VA's internal personnel rules and practices.

Dated: September 15, 1978.

MAX CLELAND,
Administrator.

[7035-01]

INTERSTATE COMMERCE COMMISSION

[Ex Parte No. 349; Sub-No. 1]

DECISION ON INCREASED FREIGHT RATES AND CHARGES, 1978, NATIONWIDE

Authority to File Master Tariff

SEPTEMBER 15, 1978.

By petition and verified statements filed September 11, 1978, the eastern railroads listed in apendix I of the petition, and certain water and motor carriers having joint rates with the appendix I railroads, seek to reopen Ex parte No. 349 for authority to increase freight rates and charges within eastern territory on 24 SPC groups by 3 to 20 percent. These commodities with the respective percentage increases are listed in the attached appendix to this decision. The commodities in question are stated to be generally transported at marginal or non-compensatory rates. The proposed increases are also allegedly being filed to comply with the Commission's decision in Ex parte No. 349, served June 7, 1978, which directed the carriers "to take immediate steps to remedy [the] situation" regarding non-compensatory rates. A copy of the petition and verified statements may be obtained from Charles C. Rettberg, Jr., Esq., 527 American Railroad Building, 1920 "L" Street NW., Washington, D.C. 20036.

Petitioners seek permission to make the proposed increases effective October 11, 1978, subject to the condition that refunds shall be made in the event that, after any investigation that the Commission deems necessary, no increase or a lesser increase than that requested is authorized. Petitioners also seek entry of an order modifying all outstanding Commission orders to the extent necessary to enable the railroads to file and make effective the proposed increased rates and charges. Such order is also requested to allow the entry of appropriate orders under sections 4 and 6 of the Interstate Commerce Act.

The evidence submitted in support of this petition consists of the record previously submitted in Ex parte No. 349, which was filed pursuant to the requirements set forth in Ex parte No. 290, *Procedures Governing Rail General Increase Proceedings*, 49 CFR 1102, effective January 1, 1978, and Ex parte No. 290 (Sub-No. 1), *Procedures-Rail Car General Increase Proceedings*, 349 ICC 22 (1974). Further, the petitioners have filed and served 9 verified statements constituting their additional evidential case for the subject increases in this proceeding.

The petitioners have given notice of the petition and have furnished data to the public in compliance with Ex parte No. 286, *Notice of Increases in Frt. Rates and Pass. Fares*, 349 ICC 741 (1975), and with section 5b of the Interstate Commerce Act.

The railroads also incorporate by reference the supplemental environmental evaluation submitted in Ex parte No. 349, which is required by Ex parte No. 55 (Sub-No. 4), *Revised Guidelines for the Implementation of the National Environmental Policy Act of 1969*, 352 ICC 451 and 49 CFR 1108. The petitioners contend that the requested increases will have no significant adverse effects upon the movement of the traffic or transportation of recyclable commodities by rail. Any person or persons believing that the requested increases, if authorized, would have a significant impact upon the quality of the human environment are invited to comment upon this matter in verified statements authorized to be filed pursuant to this order. Environmental matters and the requirements of the National Environmental Policy Act of 1969 will be considered by this Commission in any subsequent action on the merits of the requested general increases.

It is ordered:

The petition to reopen the Ex parte No. 349 proceeding is granted, and:

1. All common carriers by railroad in eastern territory are made respondents to this proceeding.

2. Under the special permission authority granted in conjunction with this order, the tariff schedules shall be published and filed upon not less than 30 days' notice effective not earlier than October 20, 1978, nor later than November 20, 1978,[1] subject to protest and possible suspension. These schedules are to contain an appropriate refund provision.

3. Any person opposing or wishing to comment on the proposed increase in rates and charges shall file and serve verified statements, as provided below, on or before October 5, 1978.[2]

(a) The verified statements shall contain all evidence relevant and material to the issues in this proceeding which the parties desire to have considered by the Commission as a basis for a decision on the merits. Any submission on asserted environmental impact shall be set forth under an appropriate subheading in order to identify properly such subject matter.

(b) Verified statements may include arguments in support of an affiant's position but such argument shall be set forth in a separate section of the document containing the verified statement. If desired, such argument may be contained in a separate document simultaneously filed and served.

(c) Each verified statement shall be signed in ink by affiant and verified (notarized) in the manner provided by rule 28 and form No. 6 of the Commission's rules of practice (see 49 1100.48 and appendix B, form No. 6, to 49 CFR 1100). The post office address of affiant or his counsel shall be shown.

(d) Verified statements and arguments shall be filed and served as follows:

The original and 20 copies of each such document for the use of the Commission shall be addressed to the Secretary, and sent to the Office of Proceedings, Room 5342, Interstate Commerce Commission, Washington, D.C. 20423, except that a lesser number of copies may be filed with the Commission in this matter shall contain the following notation on the envelope: Ex parte No. 349 (Sub-No. 1).

One copy shall be served upon the representative of the petitioning railroads, Charles C. Rettberg, Jr., Esq., 527 American Railroads Building, 1920 "L" Street NW., Washington, D.C. 20036, which service shall constitute service upon all respondents. However, all parties able to do so shall serve 20 copies upon the railroads' representative. In all cases, where service is made by mail, the document shall be mailed in time to be received by the respective due dates.

(e) Each verified statement shall contain a certificate of service stating that it has ben timely served on opposing parties, as herein provided.

(f) Verified statements and arguments by persons opposed to the proposed increases in rates and charges shall include all matters which they desire the Commission to consider with respect to the statutory suspension of the rates pending completion of the investigation, as well as evidence relevant to the ultimate decision.

4. On or before October 10, 1978, the respondents shall file with the Commission and serve upon opposing parties such replies to protests or other pleadings and rebuttal evidence on the merits of the proceeding as they desire to present. Such evidence shall be in the form and served in the same manner as the opening statements filed in accordance with the regulations published in 49 CFR 1102, except that replies and rebuttal evidence need be served only upon the party (and his counsel if known) to whose evidence the reply or rebuttal is directed. However, replies or rebuttal statements proposing changes in the tariff shall be served on all parties. All such statements shall be furnished to interested parties upon request.

5. The Commission plans to act upon this proposed increase on October 13, 1978.

6. The request for fourth-section relief will be considered following the filing of verified statements and replies.

By special permission order No. 78-4200 served (in conjunction with this order, the Commission is authorizing the filing of tariff schedules increasing rates and charges sought in the petition. These tariff schedules are to become effective upon not less than 30 days' notice to the Commission and the general public, subject to protest and possible suspension as provided by the Interstate Commerce Act. All documents filed with the Commission in this matter shall contain the following notation on the envelope: Ex parte No. 349 (Sub-No. 1).

SPECIAL PERMISSION No. 78-4200

It is ordered:

1. All eastern railroads, and water and motor carriers to the extent they have joint rates with the railroads, and their tariff-publishing agents, are authorized to depart from the Commission's tariff publishing rules in Tariff Circular No. 20 (49 CFR 1300), when publishing and filing tariffs, and tariff amendments, to become effective upon not less than 30 days' notice to the Commission and the public but not earlier than October 20, 1978, nor later than November 20, 1978, providing for increased rates and charges as set forth in the petition.

(a) By publishing and filing a master tariff of increased rates and charges, and supplements to the master tariff, providing increases by means of conversion tables of rates and charges, which shall include and maintain in effect, a refund provision reading as follows:

In the event any increases resulting from the application of this tariff exceed the increases subsequently approved or prescribed by the Interstate Commerce Commission, the carriers will refund the difference between the increase resulting from the application thereof and any increases which may subsequently be approved or prescribed by the Interstate Commerce Commission with percent interest.[3]

In the event any increase resulting from the application of the tariff is disapproved by the Commission and no increase is authorized, the carriers will refund the full amount of the increase collected with — percent interest.[4]

The master tariff shall be indicated to expire on interstate and foreign commerce with a date not beyond 1 year after the effective date, which may not be extended or cancelled except upon specific authorization of this Commission, and all relief granted in this order expires with that date. Respondents are placed on notice that they must comply with the regulations, 49 CFR 1300.32, governing the transfer of railroad general increases from master tariffs. The master tariff must initially contain all provisions for application of the increases (including provisions for no increase, part of the overall proposal) following which (unless suspended) any provisions other than those of a general character may be cancelled and transferred to the particular tariff affected upon a common effective date with appropriate notation to that effect in the master tariff amendment.

(b) By publication and filing of a connecting link supplement to each tariff to be made subject to the master tariff, connecting such tariffs with the master. Such supplements may be blanket supplements (a common supplement issued to two or more tariffs).

(c) The master tariff and connecting link supplements issued and filed under this order shall not provide for nonapplication on interstate traffic competitive with intrastate traffic between the same points unless the interstate rates and routes are specifically identified in the connecting link supplements.

(d) By publication and filing of tariffs or amendments to tariffs effective concurrently with the master tariffs and upon the same notice which provide specifically increased rates and charges but which do not result in an increase in charges for transportation and other services greater than those specified in the petition, provided all such publication is identified in the tariffs and made subject to a refund clause worded substantially as in paragraph 1(a) above.

(e) By publication of provisions in tariffs or amendments thereto subjecting rates and charges therein to the provisions of the master tariff, subject to the restriction in (c) above.

2. (a) The master tariff, as amended, and all other tariffs and amendments to tariffs, that employ the shortform methods authorized herein shall bear the notation: Form of publication authorized, ICC permission No. 78-4200.

(b) Tariffs or amendments to tariffs publishing specifically increased rates or charges hereunder shall bear a notation reading: Publication made in accordance with ICC permission No. 78-4200.

3. Connecting-link supplements authorized herein shall be exempted from the Commission's tariff-publishing rules governing the number of supplements and the volume of supplemental matter permissible.

4. The master tariff filed under this order shall not be amended except to correct errors and to comply with findings and orders of the Commission, except when specifically authorized to do so. The terms of rule 9(e) (40 CFR 1300.9(e)) are not waived as to supplements to the master tariff.

5. Outstanding orders of the Commission are hereby modified only to the extent necessary to permit the filing of tariff publications containing the proposed increases, and all tariff

[1] In the event the tariff is not filed prior to September 29, 1978, the due date specified for the filing of protests and verified statements will be extended to a date 20 days prior to the effective date, and the reply date will be correspondingly extended.

[2] Section 15(3)(d) of the Interstate Commerce Act specifically requires the filing of verified complaints seeking suspension of proposed rate changes.

[3] The interest rate to be inserted in the refund provision shall be equal to the average yield (on the date such schedule is filed) of marketable securities of the United States which have a duration of 90 days. See section 15(8)(e) of the Interstate Commerce Act.

[4] See footnote 3.

V 43/184 SE

publication filed shall be subject to protest and possible suspension and rejection. In that regard, we direct petitioners' attention to our admonitions in prior general increase proceedings concerning maintenance and preservation of existing port relationships. See, for example, *Increased Freight Rates and Charges, 1972*, 341 ICC 288, 336, and *Increased Freight Rates, 1970 and 1971*, 339 ICC 125, 188. The rate increase table on grain shall progress in one-half cent increments.

Notice of the filing of a railroad general increase petition will be given by sending a copy of this decision to each party to the Ex parte No. 349 proceeding, to the Governor and public utility regulatory body of each State, the Environmental Protection Agency, the Special Assistant to the President for Consumer Affairs, and by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register for publication in the FEDERAL REGISTER.

By the Commission, Chairman O'Neal, Vice Chairman Christian, Commissioners Brown, Stafford, Gresham, and Clapp, Commissioners Stafford and Clapp absent and not participating.

H. G. HOMME, Jr.
Acting Secretary.

PETITIONS, APPLICATIONS, AND FINANCE MATTERS (INCLUDING TEMPORARY AUTHORITIES)

SEPTEMBER 13, 1978.

PETITIONS FOR MODIFICATION, INTERPRETATION OR REINSTATMENT OF OPERATING RIGHTS AUTHORITY

The following petitions seek modification or interpretation of existing operating rights authority, or reinstatement of terminated operating rights authority.

All pleadings and documents must clearly specify the suffix (e.g., M1 F, M2 F) numbers where the docket is so identified in this notice.

An original and one copy of protests to the granting of the requested authority must be filed with the Commission within 30 days after the date of this notice. Such protests shall comply with special rule 247(e) of th Commission's general rules of practrice (49 CFR 1100.247) [1] and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statments in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's representative, or petitioner if no representative is named.

MC 43867 (Sub-25) (M1F) (notice of filing of petition to modify certificate) filed July 13, 1978. Petitioner: A LEANDER McALISTER TRUCKING CO., a corporation, P.O. Box 2214, Wichita Falls, TX 76307. Representative: John T. Wirth, 2310 Colorado State Bank Building, 1600 Broadway, Denver, CO 80202. Petitioner holds a motor *common carrier* certificate in MC 43867 (Sub-25), issued January 27, 1976, authorizing transportation, over irregular routes, as of: (1) *Noise silencers, liquid cooling systems, vapor condensing systems, water plant systems, waste water disposal systems, sewerage treatment systems, conveyors and parts and equipment* for the abovenamed commodities, restricted to the transportation of commodities which because of size or weight, require the use of special equipment, from Cisco and Wichita Falls, TX, to points in the United States (except AK and HI); and (2) *equipment, materials, and supplies* used in the construction or installation of the commodities described in part (1) above, from points in the United States (except AK and HI), to Cisco and Wichita Falls, TX. Restriction: The service authorized herein is restricted to the transportationof shipments originating at or destined to the facilities of Burgess Industries, Inc., B-W Fabricators, Inc., The Baker Corp., and Wallace Manufacturing Co., and Sinclair-Wallace Co., at or near Wichita Falls, TX, and the facilities of Burgess Industries, Inc., at or near Cisco, TX. By the instant petition, petitioner seeks to add the facilities of Texas Division of Tranter, Inc. at or near Wichita Falls, TX to the restriction.

[1] Copies of special rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

MC 57239 (Sub-9 and 14) (M1F) (notice of filing of petition to modify certificate), filed August 4, 1978. Petitioner: REENER'S EXPRESS, INC., 1350 South West Street, Indianapolis, IN 46206. Representative: Roland Rice, Suite 501, Perpetual Building, 1111 East Street NW., Washington, D.C. 20004. Petitioner holds a motor *common carrier* certificate in MC 57239 (Sub-14) issued August 4, 1971, authorizing transportation over regular routes of: (1) *General commodities* (except articles of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between numerous points in KY including Louisville and between Scottsville, KY and Nashville, TN. This authority, under the second commodity description in Sub-14, is restricted, in part, as follows: Service at Nashville, TN, restricted against the handling of traffic originating at, destined to, or interchanged at Louisville, KY, and its commercial zone, as defined by the Commission; (2) general commodities, as defined above between numerous points in KY under the third commodity description in Sub-14 restricted as follows: Carrier shall not transport any shipment moving between Nashville, TN and Louisville, KY; (3) bedding and bedding products from Munfordville, KY to Elizabeth, KY serving no intermediate points, and serving Elizabethtown for purposes of joinder only, restricted as follows. The operations authorized under the commodity description next above are restricted against the transportation of shipments moving from Nashville, TN to Louisville KY. By the instant petition, petitioner seeks to modify the authority in Sub-14 deleting the three enumerated restrictions which prohibit transportation of traffic moving between Louisville, KY and Nashville TN. Petitioner holds authority in MC 57239 (Sub-9) issued October 11, 1966, for transportation of: General commodities, as defined above, between Coldwater, MI and Marshall, MI restricted as follows: The above authority between Marshall and Tekonsha, MI, and intermediate points thereto is restricted against any service except on traffic moving to or from other points on the above specified routes. By the instant petition, petitioner seeks to modify the authority in Sub-9 by deleting this restriction.

MC 61825 (Sub-60) (M1F) (correction) (notice of filing of petition to modify certificate by changing shipper and modifying territory) filed April 14, 1978, previously noticed in the FEDERAL REGISTER issue of August 17, 1978. Petitioner: ROY STONE TRANSFER CORP., P.O. Box 385, Collinsville, VA 24078. Representative: John D. Stone (same address as petitioner). Petitioner holds a motor *common carrier* certificate in MC 61825 (Sub-60) issued May 11, 1976, authorizing transportation, over irregular routes, of: *Foodstuffs* (except frozen foodstuffs and commodities in bulk), from Red Creek, Egypt, Rushville, Waterloo, Fairport, Lyons, Newark, and Syracuse, NY, to points in GA, MD, NC, SC, TN, VA, WV, and DC. Restriction: The operations authorized herein are restricted to the transportation of shipments originating at the facilities of Comstock foods, Division of Borden, Inc., at the above-named origins and destined to the above-named destinations. By the instant petition, petitioner seeks to modify the above authority by adding Alton, Leicester, Le Roy, Shortsville, South Dayton, Oakfield, and Phelps, NY as origin points and to modify the restriction to read: The operations authorized herein are restricted to the transportation of shipments originating at the facilities of Curtice-Burns, Inc., at the above-named origins and destined to the above-named destinations.

NOTE.—The purpose of this correction is to indicate the correct modification sought by this petition.

MC 109802 (Sub-33) (M1F) (notice of filing of petition to modify certificate) filed June 29, 1978. Petitioner: LAKELAND BUS LINES, INC., East Blackwell Street, Dover, NJ 07801. Representative: Bernard Flynn (same address as petitioner). Petitioner holds a *common carrier* certificate in MC 109802 (Sub-33) issued July 9, 1976, authorizing transportation, over regular routes, of: *Passengers and their baggage, and express*, in the same vehicle with passengers, between Netcong, NJ, and Hanover Township, NJ, serving all intermediate points: From Netcong over U.S. Hwy 206 to junction NJ Hwy 24, in the borough of Chester, NJ, then over NJ Hwy 24 to Morristown, NJ, then over city streets and access roads in Morristown, NJ, to junction Interstate Hwy 287 in Morristown, NJ, then over Interstate Hwy 287 to junction NJ Hwy 10 in Hanover Township, NJ, and return over the same route. Restriction: The operations authorized herein are restricted against the transportation of passengers and their baggage and express between Morristown, NJ, on the one hand, and, on the other, New York, NY. By the instant petition, petitioner seeks to modify the above authority by deleting the restriction.

MC 109821 (Sub-5) (M2F) (notice of filing of petition to add additional base points) filed August 8, 1978. Petitioner: TAYNTON FREIGHT SYSTEM, INC. 40 Main Street, Wellsboro, PA 16901. Representative: Dewey T. Whitford (same address as petitioner). Petitioner holds motor *common carrier* certificate in MC 109821 (Sub-5) issued May 9, 1957, reissued March 3, 1978, authorizing transportation as pertinent, over irregular routes of: *Manufactured glass products* and *commodities and equipment* used in the manufacture, sale and shipment of manufactured glass products, between Buffalo, Corning, Elmira, and Horseheads, NY, Boyertown, Bradford, Charleroi, Port Allegany, Wellsboro, and Dale Summit, PA, and Fairmont and Parkersburg, WV on the one hand, and, on the other, points in CT, IN, KY, MA, NJ, NY, OH, PA, RI, and WV (except that no traffic shall be transported between Bradford and Port Allegany, PA on the one hand, and, on the other points in that part of NY on and west of a line beginning at Oswego, NY and extending along NY Hwy 57 to Syracuse, NY and then along U.S. Hwy 11 to the NY-PA State line). By the instant petition, petitioner seeks to add Bluffton, IN, Danville, KY, and Paden City, WV as additional base points to the above authority.

MC 124774 (Subs-86 and 99), (M1F) (notice of filing of petition to modify certificate) filed June 21, 1978. Petitioner: MIDWEST REFRIGERATED EXPRESS, INC., P.O.. Box 7344, Omaha, NE 68107. Representative: Arlyn Westergren, 7171 Mercy Road, Omaha, NE 68106. Petitioner holds motor *common carrier* certificates in MC 124774 (Subs-86 and 99) issued February 7, 1975 and January 24, 1978, respectively. MC 124774 (Sub-86) authorizes transportation, over irregular routes, of: *Games, toys, hobby* and *craft articles, gym sets, wading pools,* and *children's vehicles,* from points in CT, IN, IA, MD, MA, MI, NH, NJ, NY, OH, PA, RI, VA, and WI, to the facili-

V 43/184 SE 21 78

ties of Mutual Distributing Co., at Omaha, NE. MC 124774 (Sub-99) authorizes transportation, over irregular routes, of: *Games, toys, hobby* and *craft articles, gym sets, wading pools,* and *children's vehicles,* from points in AR, IL, KY, MN, MS, MO, and TN to the facilities of Mutual Distributing Co., at Omaha, NE. By the instant petition, petitioner seeks to modify the territorial descriptions in both certificates to include the facilities of Acme Sales Co., at Des Moines, IA as destination points.

MC 129600 (Subs-15 and 26) (M1F) (notice of filing of petition to modify permits) filed July 27, 1978. Petitioner: POLAR TRANSPORT, INC., P.O. Box 44, Hanover, MA 02339. Representative: Frank J. Weiner, 15 Court Square, Boston, MA 02108. Petitioner holds motor *contract carrier* permits in MC 129600 (Subs-15 and 26) issued August 7, 1974 and December 29, 1977 respectively. MC 129600 (Sub-15) authorizes transportation, over irregular routes, of: *Vegetable oil shortening,* from Decatur, IN, to points in AL, CT, DE, GA, FL, IL, IA, KS, KY, ME, MD, MA, MN, MS, MO, NE, NH, NJ, NY, NC, ND, OH, PA, RI, SC, SD, TN, VT, VA, WV, WI, and DC, under contract(s) with Central Soya, Co., Inc., of Fort Wayne, IN. MC 129600 (Sub-26) authorizes transportation, over irregular routes, of *Eggs, poultry,* such commodities as are dealt in by farm supply companies and such commodities as are manufactured, sold, distributed or used by persons engaged in the manufacturing, processing or milling of grain and soybean products (except commodities in bulk and except commodities which because of size or weight require special equipment) between Guntersville and Montgomery, AL, Jacksonville, FL, Athens, Canton and Tifton, GA, Chicago, East St. Louis, Gibson City, and Dundee, IL, Decatur, Indianapolis, Rushville and Portland, IN, Belmond, Des Moines, and Muscatine, IA, Abilene, KS, Clinton, Louisville and Park City, KY, Portland, MI, Jackson and Mendenhall, MS Hastings and Omaha, NE, Kansas City, Moberly, Salisbury, Springfield and St. Joseph, MO, Monroe, Robersonville and Wilson, NC, Bellevue, Delphos, Gallipolis, Marion and Ravenna, OH, Camp Hill and New Brighton, PA, Newberry and Orangeburg, SC, Chattanooga, Memphis and Nashville, TN, Fort Worth and Lockhart, TX, and Madison, WI, on the one hand, and, on the other, points in AL, AR, CT, DE, FL, GA, IL, IN, IA, KS, KY, LA, ME, MD, MA, MI, MN, MS, MO, NE, NH, NJ, NY, NC, ND, OH, OK, PA, RI, SC, SD, TN, TX, VT, VA, WV, WI, and DC, under contract(s) with Central Soya Co., Inc. of Fort Wayne, IN. By the instant petition, petitioner seeks to modify the above two permits by consolidating them into one permit to read: Eggs, poultry, such commodities as are dealt in by farm supply companies and such commodities as are manufactured, sold, distributed, or used by persons engaged in the manufacturing or processing or milling of grain and soybean products (except commodities in bulk and except commodities which because of size or weight require special equipment) between points in the United States in and east of ND, SD, NE, KS, OK, and TX, under contract(s) with Central Soya Co., Inc. of Fort Wayne, IN.

MC 130438 (M1F) (notice of filing of petition for modification of broker's license), filed August 4, 1978. Petitioner: DELORES P. LARSON, d.b.a. AMERICAN MOTOR COACH TOURS, 16816 Lake Street, Minnetonka, MN 55343. Representative: J. G. Dail, Jr., P.O. Box 567, McLean, VA 22101. Petitioner holds a license No. MC 130438, issued May 11, 1978, authorizing petitioner to engage in operations at Minnetonka, MN, as a broker of passengers and their baggage, in special and charter operations, between points in the United States, including Alaska, but excluding Hawaii. By the instant petition, petitioner seeks to substitute St. Paul, MN, for Minnetonka, MN, as the office location.

MC 134599 (Sub-133) (M1F) (notice of filing petition to modify permit), filed June 15, 1978. Petitioner: INTERSTATE CONTRACT CARRIER CORP., P.O. Box 30303, Salt Lake City, UT 84125. Representative: Richard A. Peterson, P.O. Box 81849, Lincoln, NE 68501. Petitioner holds a motor *contract carrier* permit in MC 134599 (Sub-133) issued May 24, 1978, authorizing transportation, over irregular routes, of: *Rubber compound, molded rubber products, carpet cushion,* and *materials and supplies* used in the manufacture of rubber compound, molded rubber products, and carpet cushion (except commodities in bulk or those which because of size or weight require special equipment), between Dyersburg, TN, on the one hand, and, on the other, points in the United States (except AK, GA, HI, ID, NM, and VT), under a continuing contract(s) with Colonial Rubber Works, Inc., of Dyersburg, TN. By the instant petition, petitioner seeks to modify the above authority by substituting Dayco Corp. of Dayton, OH as the contracting shipper in lieu of Colonial Rubber Works, Inc. of Dyersburg, TN.

MC 135170 (Sub-12) (M1F) (notice of filing of petition to modify territorial description), filed June 14, 1978. Petitioner TRI-STATE ASSOCIATES, INC., P.O. Box 188, Federalsburg, MD 21632. Representative: James C. Hardman, 33 North LaSalle Street, Chicago, IL 60602. By permit issued March 7, 1978, Tri-State Associates, Inc. holds authority to operate as a *contract carrier,* by motor vehicle, over irregular routes, transporting: *Containers, container closures* and *materials, equipment and supplies* used in the manufacture, sale and distribution of containers and container closures (except commodities in bulk and those which because of size or weight require the use of special equipment) between Baltimore, MD, Hillside and South Brunswick, NJ, and Chambersburg, Easton, Edison Township, Forks Township, Lemoyne, Morrisville, and Philadelphia, PA, on the one hand, and, on the other, points in DE, MD, NJ, NC, PA, VA, and WV. Restriction: The operations authorized herein are limited to a transportation service to be performed, under a continuing contract or contracts with American Can Co. By the instant petition for modification of permit, petitioner requests that Edison, NJ be substituted in lieu of "Edison Township, PA" in the instant permit.

MC 135973 (Sub-1) (M2F) (notice of filing of petition to modify permit), filed May 19, 1978. Petitioner: EXPEDITED TRANSPORTATION CORP., 5 Wood Avenue, Secaucus, NJ 07094. Representative: Madelyn C. Littman, 235 East 42nd Street, New York, NY 10017. Petitioner holds a motor *contract carrier* permit in MC 135973 (Sub-1) issued July 16, 1975 authorizing transportation, over irregular routes, of: *Film, video tape,* and *sound tracks,* between points in New York, NY, on the one hand, and, on the other, Wilmington, DE, under a continuing contract(s) with (1) Proctor and Gamble Co., of Cincinnati, OH, (2) Grey Advertising, Inc., of New York, NY, and (3) Doyle Dane Bernbach, Inc., of New York, NY. By the instant petition, petitioner seeks to modify the above authority by adding Colgate-Palmolive Co. as an additional contracting shipper.

MC 138866 (Sub-2) (M1F) (notice of filing of petition to modify permit), filed August 8, 1978. Petitioner: SES TRUCKING, INC., 720 Argyle Avenue, Nashville, TN 37203. Representative: Roland M. Lowell, 618 United American Bank Building, Nashville, TN 37219. MC 138866 (Sub-2) (notice of filing of petition for modification of permit), filed August 8, 1978. Petitioner holds a motor *contract carrier* permit in MC 138866 (Sub-2), issued March 22, 1977, authorizing transportation over irregular routes, of: *Crushed limestone and asphalt,* from the facilities of Ralph Rogers and Co., Inc. located eight (8) miles west of Ewing, VA, on U.S. Highway 58, to points in Bell, Knox, Laurel, Whitley, Clay, Jackson, Harlan, and Leslie Counties, KY; Claiborne, Hancock, and Campbell Counties, TN; and Lee County, VA. Restriction: The operations authorized above are limited to a transportation service to be performed, under a continung contract, or contracts, Ralph Rogers & Co., Inc., of Nashville, TN. *Asphalt:* From points in Knox County, KY, to points in Claiborne, Hancock, and Campbell Counties, TN, and Lee County, VA. Restriction: The operations authorized next-above are limited to a transportation service to be performed, under a continuing contract, or contracts, with Leonard Lawson & Son, East Division of Bowling Green, KY. By the instant petition, petitioner seeks to modify its permit by adding Mid-South Pavers, Inc. as an additional contracting shipper with respect to the first portion of its permit authorizing transportation of crushed limestone and asphalt. (Hearing site: Nashville, TN.)

MC 141450 (Sub-1) (M1F) (Correction) (notice of filing of petition to modify territorial description), filed April 18, 1978, previously noticed in the FEDERAL REGISTER issue of July 27, 1978. Petitioner: OLIN WOOTEN, d.b.a. WOOTEN TRANSPORT CO., P.O. Box 731, Hazelhurst, GA 31539. Representative: Sol H. Proctor, 1101 Blackstone Building, Jacksonville, FL 32202. Petitioner holds a motor *contract carrier* certificate in MC 141450 (Sub-1), issued January 12, 1977, authorizing transportation over irregular routes, of: (1) Tin cans, tin can parts, steel pails and drums, from Piscataway, NJ, to points in AL, FL, GA, LA, NC, OH, PA, SC and VA; and (2) Materials and supplies used in the manufacture of the commodities described in (1) above, (except in bulk), from points in AL, FL, GA, LA, NC, OH, PA, SC, and VA, to Piscataway, NJ, under a continuing contract, or contracts with Prospect Industries Corp. of Piscataway, NJ. By the instant petition, petitioner seeks to change the authority from Piscataway, NJ to Somerville; NJ.

NOTE.—The purpose of this correction is to indicate the correct spelling of Somerville.

MC 142508 (Sub-4) (M1F) (notice of filing of petition to modify certificate), filed July 31, 1978. Petitioner: NATIONAL TRANSPORTATION, INC., P.O. Box 37465, Omaha, NE 68137. Representative: Joseph Winter, 33 North LaSalle Street, Chicago, IL 60602. Petitioner holds a motor *common carrier* certificate in MC 142508 (Sub-4) issued March 28, 1978, authorizing transportation, over irregular routes, of (1) *Fruit and berry products, and condiments* (except commodities in bulk), (a) from the facilities utilized by Ocean Spray Cranberries, Inc. at or near North Chicago, IL and Kenosha, WI to points in AL, AR, CO, GA, KS, MS, MO, NE, OK, LA, TN and TX, and (b) from the facilities utilized by Ocean Spray Cranberries, Inc. at or near Markham, WA to points in AZ, CA, NV, OR, UT and WY, (2) *Foodstuffs and materials, equipment and supplies* used in the manufacture, sale or distribution of foodstuffs (except commodities in bulk in tank vehicles), between the facilities utilized by Ocean Spray Cranberries, Inc. at Chicago, IL, Bordentown, NJ, Middleboro, MA, North East, PA, Markham, WA and Kenosha, WI, and (3) *Materials and supplies* used in the manufacture of fruit and berry products (except empty containers, frozen commodities and commodities in bulk), from points in CA to the facilities utilized by Ocean Spray Cranberries, Inc. at Markham, WA. Restriction: The authority granted herein is restricted to traffic originating at the named origins and destined to the named destinations. By the instant petition, petitioner seeks to modify the above authority by adding the facilities utilized by Ocean Spray Cranberries, Inc. at Yuba City, CA and Montgomery, AL as service points in part (2) of the certificate so that part (2) of the certificate will authorize the following: (2) *Foodstuffs and materials, equipment and supplies used in the manufacture, sale or distribution of foodstuffs* (except commodities in bulk in tank vehicles), between the facilities utilized by Ocean Spray Cranberries, Inc. at Montgomery, AL, Yuba City, CA, Chicago, IL, Middleboro, MA, Bordentown, NJ, North East, PA, Markham, WA and Kenosha, WI. Restriction: The authority granted herein is restricted to traffic originating at the named origins and destined to the named destinations.

MC 143406 (M1F) (notice of filing of petition to modify permit), filed August 2, 1978. Petitioner: MICHEL PROPERTIES, INC., Stenersen Lane, Cockeysville, MD 21030. Representative: Walter Evans, 7401 Wisconsin Avenue, Washington, DC 20014. Petitioner holds a motor *contract carrier* authority in MC 143406, issued June 30, 1978, authorizing transportation over irregular routes of: *Such merchandise* as is dealt in by wholesale, retail and chain grocery and food business houses, and equipment, materials, and supplies used in the conduct of such businesses (except frozen foods and commodities in bulk), between Cockeysville and Timonium, MD, on the one hand, and, on the other, points in DE, NJ, NC, PA, and VA. Under a continuing contract or contracts with Michel Warehousing Corp., of Cockeysville, MD. By the instant petition, petitioner seeks to modify the radial portion of the territorial description by adding points in MD and DC.

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

The following applications are governed by special rule 247 of the Commission's general rules of practice (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(e)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail and method—whether by joinder, interline, or other means—by which protestant would use a such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally, protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. All pleadings and documents must clearly specify the "F" suffix where the docket is so identified in this notice. If the protests includes a request for oral hearing, such requests shall meet the requirements of section 247(e)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission decision which will be served on each party of record. Broading amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the

proceeding has been assigned for oral hearing.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

MC 14138 (Sub-7F), filed April 3, 1978, and previously published in the FEDERAL REGISTER issue of July 20, 1978, and republished this issue. Applicant: HEAVY TRANSPORT, INC., 6142 Paramount Boulevard, Long Beach, CA 90805. Representative: William P. Jackson, Jr., 3426 North Washington Boulevard, P.O. Box 1240, Arlington, VA 22210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting III: (1) *Gypsum board and accessories therefor* (except commodities in bulk), from the facilities of the Celotex Corp., at or near Hamlin, TX, to points in CA; and (2) *materials and supplies* used in the manufacture, distribution, or installation of commodities named in (1) above, from points in CA, to the facilities of the Celotex Corp., at or near Hamlin, TX, restricted to the transportation of shipments originating at or destined to points named in part III above. (Hearing site: Los Angeles, CA.)

NOTE.—This republication is to indicate that the above restriction applies only to part III of the application.

MC 95540 (Sub-1004F), filed March 20, 1978, and previously published in the FEDERAL REGISTER issue of May 11, 1978 and June 29, 1978, and republished this issue. Applicant: WATKINS MOTOR LINES, INC., 1144 West Griffin Road, P.O. Box 1636, Lakeland, FL 33802. Representative: Benjy W. Fincher (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods* (except in bulk), from (1) the facilities utilized by Terminal Ice and Cold Storage Company, located at or near Plover, WI; and (2) the facilites utilized by Ore-Ida Foods, Inc., located at or near Plover, WI, to points in AL, AR, FL, GA, LA, MS, NC, SC, TN, and TX. (Hearing site: San Francisco, CA, or Washington, DC.)

NOTE.—The purpose of this republication is to name the origin of Plover, WI, to indicate the sub number as 1004F in lieu of 100F. Common control may be involved.

MC 112822 (Sub-460F), filed July 31, 1978. Applicant: BRAY LINES INC., 1401 North Little Street, Cushing, OK 74023. Representative: Dudley G. Sherrill (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bentonite clay and lignite coal*, (A) from points in Phillips County, MT, and Crook County, WY, to points in CA, OK, TX, LA, WA, WI, MN, and IL; and (B) from points in Butte County, SD; Weston and Big Horn Counties, WY; and Bowman County, ND, to points in CA, OK, TX, and LA, restricted in (A) and (B) above to traffic originating at the facilities of American Colloid Co. Common control may be involved. Hearing: October 10, 1978 (4 days), at 9:30 a.m. local time, at Denver, CO, in a hearing room location to be later designated.

MC 119176 (Sub-20F), filed March 31, 1978, and previously published in the FEDERAL REGISTER issue of July 6, 1978, and republished this issue. Applicant: THE SQUAW TRANSIT CO., a corporation, P.O. Box 9368, Tulsa, OK 74107. Representative: Clayte Binion, 1108 Continental Life Building, Fort Worth, TX 76102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Bentonite clay and lignite coal* (except commodities in bulk), from points in Crook County, WY, and those in Phillips County, MT, to points in the United States (except AK and HI); and (2) *bentonite clay* (except in bulk), and *lignite coal*, from points in Big Horn County, WY, and *lignite coal*, from points in Bowman County, ND, to points in OK, LA, TX, NM, AZ, and CA, restricted to the transportation of traffic originating at the facilities of American Colloid Co. (Hearing: October 10, 1978 (4 days), at 9:30 a.m. local time, at Denver, CO, in a hearing room location to be later designated.)

NOTE.—This republication is to broaden the destination points and add additional hearing information.

MC 125951 (Sub-28F), filed April 4, 1978, and previously published in the FEDERAL REGISTER issue of June 8, 1978, and republished this issue. Applicant: SILVEY REFRIGERATED CARRIERS, INC., 7000 West Center Road, Suite 325, Omaha, NE 68106. Representative: Robert M. Cimino (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat byproducts, and articles distributed in meat packinghouses*, as described in sections A and C of appendix I to the report in Description in Motor Carrier Certificates, 61 MCC 209 and 766 (except hides and commodities in bulk), from the facilities of Spencer Foods, Inc., at or near Schuyler and Fremont, NE, to points in NY, NJ, PA, MA, and MD.

NOTE.—This republication is to indicate the addition of "meat products" to the commodity description. Applicant holds contract carrier authority in MC 135033, therefore dual operations may be involved. (Hearing site: Omaha, NE.)

MC 138732 (Sub-16F), filed August 17, 1978. Applicant: OSTERKAMP TRUCKING, INC., 764 North Cypress Street, Box 5546, Orange, CA 92667. Representative: Steven K. Kuhlmann, P.O. Box 82028, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Bentonite clay and lignite coal*, from points in Phillips County, MT and Crook and Big Horn Counties, WY, to points in AZ, CA, CO, NV, NM, OK, TX, and UT; and (2) *lignite coal*, from points in Bowman County, ND, to points in AZ, CA, CO, NV, NM, OK, TX, and UT, restricted in (1) and (2) above to traffic originating at the facilities of American Colloid Co. (Hearing: October 10, 1978 (4 days), at 9:30 a.m. local time, at Denver, CO, in a hearing room location to be later designated.)

NOTE.—Applicant holds contract carrier authority in MC 133928 and subs thereunder, dual operations may be involved. Common control may also be involved.

MC 139482 (Sub-35F), filed February 13, 1978, and previously published in the FEDERAL REGISTER issues of March 30, 1978, May 11, 1978, and May 18, 1978. Applicant: NEW ULM FREIGHT LINES, INC., P.O. Box 347, New Ulm, MN 56073. Representative: James E. Ballenthin, 630 Osborn Building, St. Paul, MN 55102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foodstuffs* (except commodities in bulk), in vehicles equipped with mechanical refrigeration, from the facilities of Terminal Ice & Cold Storage Co., at or near Bettendorf, IA, to points in CT, DE, IL, IN, IA, KY, ME, MD, MA, MI, MN, MO, NH, NJ, NY, NC, OH, PA, RI, SC, TN, VT, VA, WV, WI, and DC; and (2) *returned, rejected, and refused foodstuffs* (except commodities in bulk), from points in the destination States named in (1) above, to the facilities of Terminal Ice & Cold Storage Co., at or near Bettendorf, IA. (Hearing site: Chicago, IL.)

NOTE.—The purpose of this republication is to amend applicant's destination points.

MC 140273 (Sub-F), filed August 16, 1978. Applicant: BUESING BROS TRUCKING, INC., North 520 Tamarack Avenue, Long Lake, MN 55356. Representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, MN 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lignite coal and bentonite clay*, from the facilities of American Colloid Co., at points in Phillips County, MT, and Crook County, WY, to points in MT, WY, CO, KS, NE, SD, ND, MN, IA, MO, KY, IL, IN, OH, and MI. (Hearing: October 10, 1978 (4 days), at 9:30 a.m. local time, at

Denver, CO, in a hearing room location to be later designated.

FINANCE APPLICATIONS

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control through ownership of stock, of rail carriers or motor carriers pursuant to sections 5(2) or 210a(b) of the Interstate Commerce Act.

An original and two copies of protests against the granting of the requested authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with special rules 240(c) or 240(d) of the Commission's General Rules of Practice (49 CFR 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant, if no representative is named.

MC-F-13702F. Authority sought for purchase by MISSOURI TRANSIT LINES, INC., 104 North Clark Street, Moberly, MO 65270, of a portion of the operating rights of Greyhound Lines, Inc., Greyhound Tower, Phoenix, AZ 85077, and for acquistion by Dorthy Koch, 550 Keo Way, Moines, IA 50309, of control of such rights through the transaction. Representative: Elvin S. Douglas, Jr., Professional Building, P.O. Box 280, Harrisville, MO 64701, and Anthony P. Carr, Greyhound Tower, Phoenix, AZ 85077. Operating rights sought to be purchased: *Passengers and their baggage, express and newspapers*, in the same vehicle with passengers, as a *common carrier*, over regular routes (a) between Prairie City, IA, and Ottumwa IA, over IA Hwy 163 and U.S. Hwy 63 and (b) between Buckner, MO, and Booneville, MO, over U.S. Hwy 24, U.S. Hwy 65, MO Hwy 41, and U.S. Hwy 40. Service is authorized to and from all intermediate points on the above-described routes. Vendee is authorized to operate pursuant to certificate MC 36524 as a common carrier of passengers in States of MO and IA. Application has not been filed for temporary authority under section 210a(b).

NOTE.—MC 1515 (Sub-251F), is a directly related matter. MC 36524 (Sub-17F), is a directly related matter.

MC-F-13714F. Authority sought for the KAPLAN TRUCKING CO., 2900 Chester Avenue, Cleveland, Ohio 44114, to control Dan's Transit, Inc., 239 Woodmont Road, Milford, CT 06460, and also for acquisition by The Kaplan-Halpert Foundation, Inc. of control through the transaction. Attorney: A. Charles Tell, Suite 1800, 100 East Broad Street, Columbus, OH 43215. Operating rights sought to be controlled: (1) *Commodities*, the transportation of which because of size or weight requires the use of special equipment, and *related machinery parts and related contractors' materials and supplies*, when their transportation is incidental to the transportation by carrier of commodities which by reason of size or weight require special equipment, as a *common carrier*, over irregular routes, between points in that part of CT west of the Connecticut River, on the one hand, and, on the other, points in VT, NH, MA, RI, NY, NJ, and PA. (2) *Scrap brass, bronze, copper, and cupro-nickel*, loose, in bulk, between Bridgeport, CT, on the one hand, and, on the other, New York, NY, points in Hudson, Bergen, Passaic, Essex, and Union Counties, NJ, points in that part of Middlesex County, NJ, north of the Raritan River, and points in Westchester, Rockland, Nassau, and Suffolk Counties, NY. (3) *Iron and steel angles, banding, bars, billets, channels, circles, discs, pipe, rails, rods, roof and floor decking, stripping, strapping, studding, tubing, and wire in coils*, between points in that part of CT west of the Connecticut River on the one hand, and, on the other, points in VT, NH, MA, RI, NY, NJ, and PA. Vendee is authorized to operate over regular and irregular routes in MC 2304 in the States of CT, DE, IL, IN, KY, MD, MA, MI, MO, NJ, NY, OH, PA, RI, TN, and WV. Application has not been filed for temporary authority under section 210a(b).

MC-F-13718F. Authority sought for control by the Standard Slag Co., 1200 Stambaugh Building, Youngstown, OH 44501, of Tajon Transport, Inc., 1149 East Fifth Street, P.O. Box 41, Ashtabula, OH 44404, through ownership of stock. Attorney: Paul F. Beery, Beery & Spurlock Co., L.P.A., 275 East State Street, Columbus, OH 43215. Authority to be controlled: *Commodities* usually transported in bulk, in dump trucks, as a *common carrier* over irregular routes, between Ashtabula County, OH, on the one hand, and on the other, points in OH. Vendee is a noncarrier. Its subsidiary, the Portsmouth Trucking Co., operates as a *contract carrier* under MC 135917 transporting *commodities* in bulk, in dump vehicles, between points in WV, KY, and OH. Application has not been filed for temporary authority under section 210a(b). (Hearing site: Columbus, OH.)

NOTE.—MC 121289 (Sub-27F), is a directly related matter.

MC-F-13721F. Authority sought for purchase by OSTERKAMP TRUCKING, INC., 764 North Cypress, Orange, CA 92667, of the operating rights of La Cresta, Inc., d.b.a. California Bulk Express, 12912 Camino Del Valle, Poway, CA 92064, and for acquisition by Anthony H. Osterkamp, Jr., 764 North Cypress, Orange, CA 92667, of control of such rights through the transaction. Attorney: Scott E. Daniel, P.O. Box 82028, Lincoln, NE 68501. Operating rights sought to be transferred: *Sand*, as a *common carrier*, over irregular routes, from Oceanside, CA, to points in AZ and NV, with no transportation for compensation on return except as otherwise authorized; and, *volcanic ash, clay, calcium carbonate, bentonite, saponite, and hectorite*, from the facilities of Industrial Mineral Ventures, Inc., near Lathrop Wells, NV, to points in CO, NM, ND, OK, TX, and UT, with no transportation for compensation on return except as otherwise authorized. Vendee is authorized to operate as a *contract carrier* in CA, AZ, CO, NV, NM, TX, UT, CO, and ID. Application has been filed for temporary authority under section 210a(b).

MC-F-13722F. Authority sought for purchase by SCHANNO TRANSPORTATION INC., 5 West Mendota Road, West St. Paul, MN 55118, of a portion of the operating rights of Davis & Randall Inc., 42 Central Avenue, Fredonia, NY 14063, of control of such rights through purchase. Representative: Robert P. Sack, P.O. Box 6010, West St. Paul, MN 55118. Operating rights sought to be purchased: *Malt beverages and advertising materials* related thereto when moving therewith, as a *common carrier*, over irregular routes, from New York, NY, and Hoboken, NJ, to points in WI and MN, with no transportation for compensation on return except as otherwise authorized. *Malt beverages* (except in bulk, in tank vehicles), as a *common carrier*, over irregular routes, from New York, NY, to Louisville, KY, and points in IL, IN, MI, MO, and OH, with no transportation for compensation on return except as otherwise authorized. *Advertising materials*, when moving in mixed loads with malt beverages, from Newark, NJ, to Louisville, KY, and points in MO and OH, with no transportation for compensation on return except as otherwise authorized. From New York, NY, to Lousiville, KY, and points in MO and OH with no transportation for compensation on return except as otherwise authorized. *Malt beverages and advertising materials*, as a *common carrier*, over irregular routes, from Belleville, IL, to points in MO, IA, and WI, with no transportation for compensation on return except as otherwise authorized. *Malt beverages and advertising materials*, as a *common carrier*, over irregular routes, from Newark, NJ, to points

in TN, with no transportation for compensation on return except as otherwise authorized. Transferee is authorized to operate as a *common carrier* in all the States in the United States (except AK, HI). Application for temporary authority has not been filed.

MC-F-13723F. Authority sought for control by DENVER-MIDWEST MOTOR FREIGHT, INC., 5555 East 58th Avenue, Commerce City, CO, of the operating rights of Load & Go Truck Line, 420 South Third Avenue, Phoenix, AZ, through the purchase of its stock and merger, and for control by General Industries, Inc., and Howard E. Holdcroft. Representative: Earl H. Scudder, Jr., P.O. Box 82028, 500 The Atrium, Lincoln, NE 68501. Operating rights sought to be controlled and merged: *General commodities*, between Phoenix, AZ, and Grand Junction, CO, serving the intermediate points of Delta and Montrose, CO. Transferee is authorized to operate in IN, IL, IA, MN, NE, SD, KS, MO, and CO. Application has been filed for temporary authority under section 210a(b).

MC-F-13728F. Authority sought for purchase by DART TRANSIT CO., 2102 University Avenue, St. Paul, MN 55114, of the operating rights of Fleetline, Inc., 1984 Oakdale Avenue, West St. Paul, MN 55118, and for acquistion by Donald G. Oren, 3105 Sandy Hook Drive, St. Paul, MN 55113, and Diane O. Koughan, 21 Peninsula Road, St. Paul, MN 55100, of control of such rights through the purchase. Attorney: James C. Hardman, Suite 2108, 33 North LaSalle Street, Chicago, IL 60602. Operating rights sought to be purchased: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment) which are at the time moving on bills of lading of freight forwarders, as a *common carrier*, over irregular routes, from Chicago, IL, to Minneapolis, MN. Vendee is authorized to operate as a *common carrier* in all points in the United States except AK and HI as more specifically described in MC 114457 and sub numbers thereto. Application has been filed for temporary authority under section 210(a)(b). (Hearing site: St. Paul, MN, or Chicago, IL.)

MC-F-13729F. Authority sought for purchase by Johnston's Fuel Liners, Inc., P.O. Box 100, Newcastle, WY 82701, of a portion of the operating rights of Becker Corp., P.O. Box 1050, El Dorado, KS 67042, and for acquisition by Eldon Johnston, Route 2, Wheatland, WY 82201, and C. Wilson Burnette, Box 100, Newcastle, WY 82701, of control of such rights through the purchase. Attorneys: T. M. Brown, 223 Ciudad Building, Oklahoma City, OK 73112, and Truman A. Stockton, Jr., The 1650 Grant St. Building, Denver, CO 80203. Operating rights sought to be purchased: (a) *Petroleum products*, in bulk, in tank vehicles, from the site of a pipeline terminal at or near Geneva, NE to points in that part of SD on and west of U.S. Hwy 83; (b) *anhydrous ammonia*, in bulk, in tank vehicles, from the plantsite of Consumers Cooperative Association near Hastings, NE, to points in SD on and west of U.S. Hwy 83; (c) *liquefied petroleum gas*, in bulk, in tank vehicles from the site of the pipeline terminal of Northern Gas Products Co. at or near Plattsmouth, NE to points in SD on and west of U.S. Hwy 83; (d) *anhydrous ammonia and fertilizer solutions*, in bulk, in tank vehicles, from the plantsite of Phillips Petroleum Co. plant at or near Hoag, NE, to points in that part of SD on and west of U.S. Hwy 83; and (e) *liquid feed ingredients and liquid feed supplements*, in tank vehicles, from the plantsite of Feed Commodities, Inc., at or near Fremont, NE, to points in that part of SD on and west of U.S. Hwy 83. The operating rights involved do not duplicate any authority of vendee. Vendee does not request authority to tack this authority with its existing authority. Vendee is authorized to transport similar commodities in AZ, CO, ID, KS, MT, NE, NM, ND, OK, SD, TX, UT, and WY. In addition vendee has authority to transport unrelated commodities in FL, IL, ME, MD, MA, MN, NJ, NY, OR, PA, RI, VT, WI, and DC. Application has not been filed for temporary authority. (Hearing site: Denver, CO.)

OPERATING RIGHTS APPLICATION(S) DIRECTLY RELATED TO FINANCE PROCEEDINGS

The following operating rights application(s) are filed in connection with pending finance applications under section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with transfer applications under section 212(b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the authorities must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with special rule 247(e) of the Commission's General Rules of Practice (49 CFR 1100.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative or applicant if no representative is named.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

MC 1515 (Sub-251F), filed August 7, 1978. Applicant: GREYHOUND LINES, INC., Greyhound Tower, Phoenix, AZ 85077. Representative: A. P. Carr (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle over regular routes, transporting: *Passengers and their baggage and express and newspapers*, in the same vehicle with passengers, between junction U.S. Hwy 41 and U.S. Hwy 40 (also designated Interstate Hwy 70) and Booneville, MO, serving no intermediate points: from junction U.S. Hwy 41 and Interstate Hwy 70 over Interstate Hwy 70 to junction Interstate Hwy 70 and U.S. Hwy 40, then over U.S. Hwy 40 to Booneville, MO, and return over the same route. (Hearing site: St. Louis, MO.)

NOTE.—The purpose of this application is to enable applicant to continue to provide service between Kansas City and St. Louis, MO. This application is directly related to MC-F-13702F, published in the previous section of this FEDERAL REGISTER issue.

MC 8973 (Sub-52F) (correction), filed July 17, 1978 previously noticed in the FEDERAL REGISTER issue of August 10, 1978. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Avenue, North Bergen, NJ 07047. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 11th Street NW., Washington, DC 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plastic articles, and materials, equipment, and supplies used in the manufacture or distribution of plastic articles* (except commodities in bulk), between points in CT, NJ, and those in NY located on or east of U.S. Hwy 11, and on or south of U.S. Hwy 20, on the one hand, and, on the other, points in the United States (except AK and HI), (2) *aluminum articles, aluminum products, building materials, and materials, equipment, and supplies used in the manufacture, sale, processing, distribution, and installation of the commodities listed in (2) above* (except commodities in bulk), between NY, NY, on the one hand, and, on the other, points in the United States (except AK and HI), (3) *chemicals and coal tar products, in containers*, between points in Bergen, Middlesex, and Morris Counties, NJ, on the one hand, and, on the other, points in CT, and NJ and those in NY on or east of U.S. Hwy 11 and on or south of U.S. Hwy 20, (4) *such building materials and materials, equipment, and supplies used in the manufacture, sale, processing, distribution or installation of building materials, as are chemicals or coal tar products, in containers*, between points in CT, NJ, and those points in NY located on or east of U.S. Hwy 11 and on or south of U.S. Hwy 20, on the one hand, and, on the other, points in the United States (except AK and HI), (5) *such asphalt, composition roofing products, urethane and urethane products, are chemicals or coal tar products, in containers*, from points in CT, NJ, and those points in NY on or east of U.S. Hwy 11 and on or south of U.S. Hwy 20, to points in AL, AR, IL, IN, KY, LA, MI, MS, OH, TN, AND WV, and (6) *resins*, from points in CT and NJ and those points in NY on or east of U.S. Hwy 11 and on or south of U.S. Hwy 20 to points in OH, VA, MD, DE, PA, NJ, NY, MA, CT, ME, RI, NH, VT, and DC, restricted in (6) above to the transportation of shipments having a prior movement by water and destined to the points named above. (Hearing site: New York, NY).

NOTE.—This application is directly related to finance proceeding MC-F-13640F, published in a previous section of this FEDERAL REGISTER issue. Through the present filing, applicant seeks to eliminate gateways resulting from the finance transaction as follows: (1) Woodbridge or Ridgefield, NJ; (2) Woodbridge, NJ; (3) New York, NY; (4) Woodbridge, NJ; (5) Bergen County, NJ; and (6) New York, NY. The purpose of this correction is to indicate the correct authority as sought.

MC 36524 (Sub-17F) filed August 7, 1978. Applicant: MISSOURI TRANSIT LINES, INC., 104 North Clark Street, Moberly, MO 65270. Representative: Elvin S. Douglas, Jr., Professional Building, P.O. Box 280, Harrisonville, MO 64701. Authority sought to operate as a *common carrier*, by motor vehicle over regular routes, transporting: *Passengers and their baggage and express and newspapers*, in the same vehicle with passengers, (1) between Kansas City and Buckner, MO, serving all intermediate points: From Kansas City over U.S. Hwy 24 to Buckner, and return over the same route, (2) between Prairie City and Des Moines, IA, serving all intermediate points: From Prairie City over IA Hwy 163 to Des Moines, and return over the same route. (Hearing site: Kansas City, MO, and Des Moines, IA).

NOTE.—The purpose of this application is to enable applicant to provide service (1) between Boonville and Kansas City, MO, and (2) between Ottumwa and Des Moines, IA by connecting the authority requested above and the authority sought to be purchased in MC-F-13702F.

MC 57393 (Sub-7F) (partial correction), filed July 14, 1978, previously noticed in the FEDERAL REGISTER issue of August 31, 1978. Applicant: WINTERS TRUCK LINES, INC., 2620 McCormick Street, Wichita, KS 67202. Representative: Charles J. Kimball, 350 Capitol Life Center, 1600 Sherman Street, Denver, CO 80203. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: (A) *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment) (5) From the junction of old KS Hwy 42 and new KS Hwy 42 at a point located at or near Milton, then over new KS Hwy 42 to the junction of old KS Hwy 42 at or near Viola, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only. (Hearing site: Wichita, KS.)

NOTE.—The purpose of this partial correction is to indicate the correct authority sought. The purpose of this application is to convert a certificate of registration to a certificate of public convenience and necessity, and is directly related matter to MC-F-13670F published in a previous section of this FEDERAL REGISTER issue.

MC 68100 (Sub-22F) (partial correction) filed July 18, 1978, previously noticed in the FEDERAL REGISTER issue of August 10, 1978. Applicant: D. P. BONHAM TRANSFER, INC., 318 South Adeline, P.O. Drawer G, Bartlesville, OK 74003. Representative: John E. Jandera, 641 Harrison Street, Topeka, KS 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials*, and *supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum, and their products and by-products; and *Machinery, materials, equipment and supplies* used in or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe line, including the stringing and picking up thereof (except in connection with main pipe lines) (g) Between those points in OK on and north of a line beginning at the OK-AR State line on U.S. Hwy 62, west on U.S. Hwy 62 to U.S. Hwy 75, south on U.S. Hwy 75 to Interstate Hwy 40, west on Interstate Hwy 40 to U.S. Hwy 75, south on U.S. Hwy 75 to OK Hwy 9, west on OK Hwy 9 to the OK-TX State line, on the one hand, and, on the other, points in MS on and south of a line beginning at the MS-AL State line at the TN border, west along the MS-TN State line to U.S. Hwy 45, south on U.S. Hwy 45 to MS Hwy 30, west on MS Hwy 30 to MS Hwy 6, west on MS Hwy 6 to MS Hwy 322, and continuing west on MS Hwy 322 to the AR-MS State line. (Gateway to be eliminated: Tulsa, OK and points within 5 miles of Tulsa). (k) between points in Quary, Curry, Roosevelt, and Lea Counties, NM, on the one hand, and, on the other, points in CO on and north of a line beginning at the CO-KS State line on U.S. Hwy 36, west on U.S. Hwy 36 to CO Hwy 71, south on CO Hwy 71 to Interstate Hwy 70, west on Interstate Hwy 70 to CO Hwy 86, continuing west on CO Hwy 86 to CO Hwy 67, continuing west on CO Hwy 67 to U.S. Hwy 285, southwest on U.S. Hwy 285 to CO Hwy 9, north on CO Hwy 9 to Interstate Hwy 70 and west on Interstate Hwy 70 to the CO-UT State line. (Gateways to be eliminated: Angeles, TX; Bronco, TX; El Paso, TX; Farwell, TX, and Glenrio, TX). (Hearing site: Tulsa or Oklahoma City, OK.)

NOTE.—The purpose of this partial correction is to indicate the correct authority sought. The purpose of this application is to eliminate the gateways as above and is directly related to an application under section 5 of the Act in D. P. Bonham Transfer, Inc.—Control and Merger—Grever Trucking Co., Inc. docketed MC-F-13673F.

MC 19550 (Sub-5F) (correction) filed June 30, 1978, previously noticed in the FEDERAL REGISTER issue of August 10, 1978. Applicant: THE OBSERVER TRANSPORTATION CO., a corporation, Post Office Box 1123, Charlotte, NC 28201. Representative: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Avenue, Memphis, TN 38137. Authority is sought to operate as a *common carrier* by motor vehicle, in interstate commerce, over irregular routes, transporting: (1) *Motion picture films, materials, supplies and equipment* used or useful in a motion picture theatre, *newspapers, magazines, periodicals and other publications*, (a) Between points in Berkeley, Charleston, Clarendon, Dorchester, Florence, Sumter, and Williamsburg Counties, SC, and that part of Orangeburg County, SC, on and east of a line beginning at the Santee River and extending along U.S. Hwy 15 to junction U.S. Hwy 176, and then along U.S. Hwy 176 to the Orangeburg-Berkeley County line. (b) Between Charlotte, NC, on the one hand, and, on the other, points in Berkeley, Charleston, Clarendon, Dorchester, Florence, Sumter, and Williamsburg Counties, SC and that part of Orangeburg County, SC, on and east of a line beginning at the Santee River and extending along U.S. Hwy 15 to junction U.S. Hwy 176, and then along U.S. Hwy 176 to the Orangeburg-Berkeley County line. (2) *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, in packages not to exceed 250 pounds in weight. Between points in Berkeley, Charleston, Clarendon, Dorchester, Florence,

Sumter, and Williamsburg Counties, SC, and that part of Orangeburg County, SC, on and east of a line beginning at the Santee River and extending along U.S. Hwy 15 to junction U.S. Hwy 176, and then along U.S. Hwy 176 to the Orangeburg-Berkeley County line. Between Charlotte, N.C., on the one hand, and, on the other, points in Berkeley, Charleston, Clarendon, Dorchester, Florence, Sumter, and Williamsburg Counties, SC, and that part of Orangeburg County, SC, on and east of a line beginning at the Santee River and extending along U.S. Hwy 15 to junction U.S. Hwy 176 and then along U.S. Hwy 176 to the Orangeburg-Berkeley County line. (Hearing site: Charlotte, NC.)

NOTE:—This application is directly related to finance Docket No. MC-F-13636F published in a previous section of this FEDERAL REGISTER issue.

The purpose of this filing is to eliminate the gateway of Florence, SC.

The purpose of this correction is to indicate the correct authority sought.

MC 110689 (Sub-9F) (partial correction), filed April 26, 1978, previously noticed in the FEDERAL REGISTER issues of July 20, 1978, and August 17, 1978. Applicant: AIRWAY TRUCKING CO., a corporation, 1605 Chapin Road, Montebello, CA 90022. Representative: Fred H. Mackensen, 9454 Wilshire Boulevard, Suite 400, Beverly Hills, CA 90212. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, those requiring special equipment, and motor vehicles), between all points within the following described areas: 1. Beginning at the point the Ventura County-Los Angeles County boundary line intersects the Pacific Ocean; then northeasterly along said county line to the point it intersects CA Hwy 118, approximately 2 miles west of Chatsworth; easterly along CA Hwy 118 to Sepulveda Boulevard, northerly along Sepulveda Boulevard to Chatsworth Drive; northeasterly along Chatsworth Drive to the corporate boundary of the city of San Fernando; westerly and northerly along said corporate boundary of the city of San Fernando to Maclay Avenue; northeasterly along Maclay Avenue and its prolongation to the Angeles National Forest boundary; southeasterly and easterly along the the Angeles National Forest and San Bernardino National Forest boundary to Mill Creek Road (CA Hwy 38); westerly along Mill Creek Road to Bryant Street; southerly along Bryant Street to and including the unincorporated community of Yucaipa; westerly along Yucaipa Boulevard to Interstate Hwy 10; northwesterly along Interstate Hwy 10 to Redlands Boulevard; northwesterly along Redlands Boulevard to Barton Road; westerly along Barton Road to La Cadena Drive; southerly along La Cadena Drive to Iowa Avenue; southerly along Iowa Avenue to CA Hwy 60; southeasterly along CA Hwy 60 and U.S. Hwy 395 to Nuevo Road; easterly along Nuevo Road via Nuevo and Lakeview to CA Hwy 79; southerly along CA Hwy 79 to CA Hwy 74; then westerly to the corporate boundary of the city of Hemet; southerly, westerly, and northerly along said corporate boundary to the Atchison, Topeka & Santa Fe right-of-way; southerly along said right-of-way to Washington Road; southerly along Washington Road through and including the unincorporated community of Winchester to Benton Road; westerly along Benton Road to Winchester Road (CA Hwy 79) to Jefferson Avenue; southerly along Jefferson Avenue to U.S. Hwy 395; southerly along U.S. Hwy 395 to the Riverside County-San Diego County boundary line; westerly along said boundary line to the Orange County-San Diego County boundary line; southerly along said boundary line to the Pacific Ocean; northwesterly along the shoreline of the Pacific Ocean to point of beginning, including the point of March Air Force Base. 2. Beginning at the point the San Francisco-San Mateo County line meets the Pacific Ocean; then easterly along said county line to a point 1 mile west of CA Hwy 82; southerly along an imaginary line 1 mile west of and paralleling CA Hwy 82 to its intersection with Southern Pacific Co. right-of-way at Arastradero Road; southeasterly along the Southern Pacific Co. right-of-way to Pollard Road, including industries served by the Southern Pacific Co. spur line extending approximately 2 miles southwest from Simla to Permanente; easterly along Pollard Road to West Parr Avenue; easterly along West Parr Avenue to Capri Drive; southerly along Capri Drive to Division Street; easterly along Division Street to the Southern Pacific Co. right-of-way; southerly along the Southern Pacific right-of-way to the Campbell-Los Gatos City limits; easterly along said limits and the prolongation thereof to South Bascom Avenue (formerly San Jose-Los Gatos Road); northeasterly along South Bascom Avenue to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden road to Hillsdale Avenue; easterly along Hillsdale Avenue to CA Hwy 82; northwesterly along CA Hwy 82 to Tully Road; northeasterly along Tully Road and the prolongation thereof to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to CA Hwy 238 (Oakland Road); northerly along CA Hwy 238 to Warm Springs; northerly along CA Hwy 238 (Mission Boulevard) via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard and MacArthur Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard to Warren Boulevard (CA Hwy 13); northerly along Warren Boulevard to Broadway Terrace; westerly along Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland boundary line; northerly along said boundary line to the campus boundary of the University of California; westerly, northerly, and easterly along the campus boundary to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to San Pablo Avenue (CA Hwy 123); northerly along San Pablo Avenue to and including the city of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco waterfront at the foot of Market Street; westerly along said waterfront and shoreline to the Pacific Ocean; southerly along the shoreline of the Pacific Ocean to point of beginning. 3. Beginning at an imaginary line at a point approximately 4 miles north of La Jolla on the Pacific Coast shoreline running east to Miramar on U.S. Hwy 395, then following an imaginary line running southeasterly to Lakeside on CA Hwy 67; then southerly on County Road S17 (Sand Diego County) and its prolongation to CA Hwy 94; easterly on CA Hwy 94 to Jamul; then due south following an imaginary line to the CA-Mexico boundary line; then westerly along the boundary line to the Pacific Ocean and north along the shoreline to point of beginning. And between said territories serving all points on and within 10 miles laterally of Interstate Hwy 5, between Stockton and San Diego; U.S. Hwy 101, or CA Hwy 1, between Los Angeles and San Francisco, CA; CA Hwy 99 between Stockton and Wheeler Ridge and CA Hwy 4 between its junction with Interstate Hwy 80 near Pinole, CA and Stockton, CA. (Hearing site: Los Angeles, CA.)

NOTE.—The purpose of this partial correction is to indicate the correct authority sought. The rest of the publication remains the same. The purpose of the application is to convert a certificate of registration to a certificate of public convenience and necessity. This application is directly related to three section 5(2) finance proceedings, docketed MC-F-13589, MC-F-13590, and MC-F-13591, each published in the FEDERAL REGISTER issue of July 20, 1978.

MC 121298 (Sub-27F), filed August 30, 1978. Applicant: TAJON TRANSPORT, INC., 1149 East Fifth Street, P.O. Box 41, Ashtabula, OH 44404. Representative: Paul F. Beery, 275 East State Street, Columbus, OH 43215. Authority sought to operate as a *common carrier*, over irregular routes, transporting: *Bulk commodities*, in dump trucks, between Ashtabula County, OH, on the one hand, and, on the other, points in OH. (Hearing site: Columbus, OH.)

NOTE.—This matter is directly related to the Standard Slag Co.—Control—Tajon Transport, Inc., in MC-F-13718F, published in a previous section of this FEDERAL REGISTER issue. The purpose of this application is to convert a certificate of registration to a certificate of public convenience and necessity.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

[Notice No. 715]

ASSIGNMENT OF HEARINGS

SEPTEMBER 15, 1978.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the official docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC-F-13490, Hyman Freightways, Inc.—purchase (portion)—Keomah Truck Lines, Inc. and MC 1-8835 (Sub-43F), Hyman Freightways, Inc. transferred to modified procedure.
MC-F-13604, Yellow Freight System, Inc.—purchase (portion)—Schaller Trucking Corp. and MC 112713 (Sub-214F), Yellow Freight System, Inc., transferred to modified procedure.
MC 140123 (Sub-5F), Graham Transfer, Inc., now assigned for hearing on September 20, 1978, at Nashville, TN is canceled and transferred to modified procedure.
MC 143059 (Sub-16F), Mercer Transportation Co., now being assigned October 10, 1978 (4 days), at Denver, CO, in a hearing room to be later designated.
MC 109397 (Sub-398F), Tri-State Motor Transit Co., is now assigned for hearing October 30, 1978 at Dallas, TX (1 day) and will be held at Room 5A15-17 Federal Building, 1100 Commerce Street.
MC 110098 (Sub-166F), Zero Refrigerated Lines now assigned October 18, 1978 at Des Moines, IA (2 days) is canceled and transferred to modified procedure.
MC 41404 (Sub-130), Argo-Collier Truck Lines Corp., now assigned September 18, 1978 at Milwaukee, WI (3 days), is canceled and transferred to modified procedure.
MC 144041 (Sub-11F) Downs Transportation Co., Inc., now assigned October 17, 1978 at Chicago, IL is canceled and transferred to modified procedure.
MC 142789, Wetco, Inc., d.b.a. Key Limousine, now assigned October 16, 1978, at Salt Lake City, UT, in Room 3421, Federal Building, 125 South State Street.
MC 113651 (Sub-269F), Indiana Refrigerator Lines, Inc., now assigned September 20, 1978, at Boston, MA, is postponed indefinitely.
MC 144464F, United States Student Travel Service, Inc., d.b.a. Travelon Tours now assigned October 17, 1978 at Washington, DC at the offices of the Interstate Commerce Commission.

H. G. HOMME, Jr.,
Acting Secretary.

[7035-01]

[Corrected Service Order No. 1304; Exception No. 11]

DECISION

SEPTEMBER 7, 1978.

Chicago and North Western Transportation Co.

The Chicago and North Western Transportation Co. (CNW) owns 4,522 jumbo covered hopper cars subject to Corrected Service Order No. 1304. On August 1, 1978, 904, or 20.0 percent of these cars were being used in unit-grain-train services, 2,852 for general grain traffic and 766 for transporting commodities other than grain.

On September 5, 1978, CNW reported that it had an adequate number of jumbo covered hopper cars available for general grain traffic but that because of the provisions of Corrected Service Order No. 1304 limiting to twenty percent (20%) of ownership the number of jumbo covered hopper cars it may use in unit-grain-train services, it is unable to furnish an additional twenty-five-car unit-grain-train for five trips as requested by one of its shippers. Use by CNW of an additional twenty five (25) of its cars in unit-grain-train service will not impair its ability to furnish jumbo covered hopper cars to general grain shippers at the present level of orders for these cars.

It is ordered, Pursuant to the authority vested in the Railroad Service Board by section (a)(6) of Corrected Service Order No. 1304, the Chicago and North Western Transportation Co. (CNW) is authorized to place an additional twenty five (25) jumbo covered hopper cars in unit-grain-train service for five trips regardless of the provisions of section (a)(1) and of section (a)(5) of this order. The cars to be used must not be withdrawn from general grain service in order to furnish cars for this movement.

By the Railroad Service Board, members Joel E. Burns, Robert S. Turkington, and John R. Michael.

Effective September 7, 1978.

Expires November 15, 1978.

JOEL E. BURNS,
Chairman,
Railroad Service Board.

[FR Doc. 78-26554 Filed 9-20-78; 8:45 am]

[7035-01]

[Rev. S.O. 1332; Exception No. 2]

DECISION

SEPTEMBER 5, 1978.

Various railroads have stored empty cars used by the automobile industry. These cars are not being used at the present time account model changeover. These cars are described in items 1660, 1665, and 1915 of Agent D. M. Rogers' Tariff 4-K, ICC H-74. These cars are not suitable for general freight because of their specialized construction. Compliance with Revised Service Order No. 1332 would require that these cars be returned to their owners, thus creating unnecessary empty mileage and excessive switching.

Order. Pursuant to the authority vested in the Railroad Service Board by section (a)(v) of Service Order No. 1332, empty cars described in items 1660, 1665, and 1915 of Agent D. M. Rogers' Tariff 4-K, ICC H-74, are exempt from the provisions of this order.

Effective September 5, 1978.

Expires October 31, 1978.

JOEL E. BURNS,
Chairman,
Railroad Service Board.

[FR Doc. 78-26553 Filed 9-20-78; 8:45 am]

[7035-01]

[Corrected S.O. 1304; Exception 10]

DECISION

SEPTEMBER 5, 1978.

The Chicago, Rock Island and Pacific Railroad Co. (RI) owns 5,701 jumbo hopper cars subject to Corrected Service Order No. 1304. On August 1, 1978, 564, or 9.9 percent of these cars were being used in unit-grain-train services, 4,069 for general grain traffic and 1,068 for transporting commodities other than grain.

Several shippers have financed repairs of RI jumbo covered hopper cars,

V 43/184 SEP 21 78

and many of the cars are still in a payback status. These cars have been placed in assigned service to the shipper who financed repairs. Some shippers need to use a number of these cars in unit-grain-train service. Use by RI of these shipper financed jumbo hopper cars in unit-grain-train service will not impair its ability to furnish jumbo covered hopper cars to general grain shippers at the present level of orders for these cars.

It is ordered, Pursuant to the authority vested in the Railroad Service Board by section (a)(6) of Corrected Service Order No. 1304, Chicago, Rock Island and Pacific Railroad Co. is authorized to use shipper financed repaired Rock Island jumbo covered hopper cars in unit-grain-train service of the specific shippers who financed the rehabilitation of the cars regardless of the provisions of section (a)(1) and section (a)(5) of this order.

By the Railroad Service Board, members Joel E. Burns, Robert S. Turkington, and John R. Michael.

Effective September 5, 1978.

Expires December 15, 1978.

JOEL E. BURNS,
Chairman,
Railroad Service Board.

[FR Doc. 78-26588 Filed 9-20-78; 8:45 am]

[7035-01]

[Rev. S.O. 1332; Exception No. 3]

DECISION

SEPTEMBER 11, 1978.

Chicago, Rock Island and Pacific Railroad Co. (RI) has purchased new "XM" boxcars which will be delivered to Burlington Northern Inc. (BN) at Portland, Oreg., for movement to the RI. RI has allowed BN to load these cars on the west coast for movement east. Reduced loadings of these cars on the BN to destinations as directed by RI means the BN will hold some of the cars beyond the 60 hours permitted in section (a)(2)(ii) of this order prior to placing of cars for loading.

Order. Pursuant to the authority vested in the Railroad Service Board by section (a)(1)(v) of Revised Service Order No. 1332, Burlington Northern, Inc. is authorized to assemble and hold up to 150 new Chicago, Rock Island and Pacific Railroad Co. "XM" boxcars for loading on the west coast, regardless of the provisions of section (a)(2)(ii) of this order.

These cars shall become fully subject to all provisions of Revised Service Order No. 1332 when loading is completed and instructions for forwarding are received from the shipper.

Effective September 11, 1978.

Expires October 31, 1978.

JOEL E. BURNS,
Chairman,
Railroad Service Board.

[FR Doc. 78-26562 Filed 9-20-78; 8:45 am]

[7035-01]

[Ex Parte 241; Exemption No. 151]

EXEMPTION UNDER PROVISIONS OF THE MANDATORY CAR SERVICE RULES

It appearing, That there is an emergency movement of military supplies from Crane, Ind., to Charleston, S.C.; that the originating carrier has insufficient system cars of suitable dimensions immediately available for loading with this traffic; that sufficient cars of other ownerships having suitable dimensions are available on the lines of the originating carrier and on its connections; and that compliance with car service rules 1 and 2 would prevent the timely assembly and use of such cars.

It is ordered, That pursuant to the authority vested in me by car service rule 19, the car service division of the Association of American Railroads is authorized to direct the movement to the Chicago, Milwaukee, St. Paul and Pacific Railroad Co. (Milwaukee), the railroads designated by the car service division are authorized to move to, and the Milwaukee is authorized to accept, assemble, and load not to exceed 20 empty plain boxcars with military supplies from Crane, Ind., to Charleston, S.C., regardless of the provisions of car service rules 1 and 2.

It is further ordered, That this exemption shall constitute a modification of the provisions of section (a)(2)(ii) of Revised Service Order No. 1332, and of all provisions of Revised Service Order No. 1301.

Effective September 5, 1978.

Expires September 25, 1978.

INTERSTATE COMMERCE COMMISSION,
JOEL E. BURNS,
Agent.

[FR Doc. 78-26555 Filed 9-20-78; 8:45 am]

[7035-01]

[33d Rev. Exemption No. 12]

EXEMPTION UNDER PROVISION OF THE MANDATORY CAR SERVICE RULES

It appearing that the railroads named herein own numerous plain boxcars; that under present conditions there is virtually no demand for these cars on the lines of the car owners; that return of these cars to the car owners would result in their being stored idle on these lines: that such cars can be used by other carriers for transporting traffic offered for shipments to points remote from the car owners; and that compliance with car service rules 1 and 2 prevents such use of plain boxcars owned by the railroads listed herein, resulting in unnecessary loss of utilization of such cars.

It is ordered, That pursuant to the authority vested in me by car service rule 19, plain boxcars described in the Official Railway Equipment Register, ICC-RER No. 408, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation "XM" or "XMI"*, and bearing reporting marks assigned to the railroads named below, shall be exempt from the provisions of Car Service Rules 1(a), 2(a), and 2(b).

[Notice No. 108]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under section 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no signficant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the applications, which may include a request for oral hearing, must be filed

*Revised to add "XMI" cars.

with the Commission on or before October 23, 1978. Failure reasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularlity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopses form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

MC-FC-77679, filed May 19, 1978. Transferee: RICCI TRANSPORTATION CO., INC., Odessa, Avenue at Aloe Street, Pomona, NJ 08240. Transferor: John Viano and Edward Viano, d.b.a. Viano Bros., Harding Highway, Landisville, NJ 08326. Representative: J. Raymond Clark, Attorney, 600 New Hampshire Avenue NW., Suite 1150, Washington, DC 20037. Authority sought for purchase by transferee of a portion of the operating rights of transferor, as set forth in certificates MC 60122 (Sub-6) and MC 60122 (Sub-8), issued December 27, 1972 and August 19, 1977, Respectively, as follows: *Malt beverages,* in containers, from Winston-Salem, NC and Syracuse, NY to Landisville, NJ. Transferee presently holds authority from this Commission under the lead docket MC 127955 MC 138510. Application has not been filed for temporary authority under section 210a(b).

REPUBLICATION

MC-FC-77709, filed June 13, 1978. Transferee: WESTERN CARRIERS, INC., 2100 Alaska Way, Seattle, WA 98121. Transferor: Everett Trucking, Inc., P.O. Box 1105, Mount Vernon, WA 98273. Representative: George R. LaBissoniere, Esq., 1100 Norton Building, Seattle, WA 98104. This amends the notice published in the FEDERAL REGISTER on August 14, 1978, to include the requested transfer of the operating rights of transferor as set forth in certificate MC 135518 (Sub-4) issued August 7, 1978, as follows: *Foodstuffs,* in vehicles equipped with mechanical refrigeration, from points in a described portion of CA to points in OR and WA.

MC-FC-77760, filed July 13, 1978. Transferee: CON WEIMAR CORP., P.O. Box 434, 401 Commerce Road, Linden, NJ 07036. Transferor: Twin Haulage Co., 401 Commerce Road, Linden, NJ 07036. Representative: George A. Olsen, Practitioner, P.O. Box 537, Gladstone, NJ 07934. Authority sought for purchase by transferee of the operating rights of transferor as set forth in certificate MC 105607 (Sub-5) issued November 10, 1977, as follows: *Animal fats, animal fatty acids, inedible animal tallows, and animal greases,* from Vineland, Camden, South Plainfield, Elizabeth, Newark, Harrison, Kearny, Guttenberg, and Paterson, NJ, to points in that part of the New York, NY commercial zone, as defined in Commercial Zones and Terminal Areas, 53 MCC 451, within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Interstate Commerce Act (the "exempt" zone), from Kearny, Harrison, and Newark, NJ, to Bristol and Philadelphia, PA, from Chester, NY to points in that part of the New York, NY commercial zone, as defined in Commercial Zones and Terminal Areas, 53 MCC 451, within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Act (the "exempt" zone), Newark, Harrison, and Jersey City, NJ, *inedible animal tallows and aminal greases,* from points in that part of the New York, NY commercial zone, as defined in Commercial Zones and Terminal Areas, 53 MCC 451, within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Interstate Commerce Act (the "exempt" zone), to Kearney, Newark, and Camden, NJ and Philadelphia, PA, *animal fats, inedible animal tallows and animal greases,* from Philadelphia, PA to Newark, NJ and points in that part of the New York, NY commercial zone, as defined in Commercial Zones and Terminal Areas, 53 MCC 451, within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Act (the "exempt" zone), *animal or red oil,* from Newark, NJ to Philadelphia, Conshohocken, and Northampton, PA, *fish oil and sea aminal oil,* from Guttenberg, NJ, to points in that part of the New York, NY commercial zone, as defined in Commercial Zones and Terminal Areas, 53 MCC 451, within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Act (the "exempt" zone), Conshohocken and Philadelphia, PA, *coconut oil and palm oil,* from Guttenberg, NJ to Bristol and Philadelphia, PA. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under section 210a(b).

MC-FC-77779, filed July 25, 1978. Transferee: ALVIN O. PETERSON, d.b.a. K & A TRUCKING, Route 4, Eau Claire, WI 54701. Transferor: Robert S. Ryan, d.b.a. Ryan Trucking, Route 4, Box 208A, Eau Claire, WI 54701. Representative: Samuel Rubenstein, Practitioner, 301 North Fifth Street, Minneapolis, MN 55403. Authority sought for purchase by transferee of the operating rights of transferor as set forth in permit No. MC 142646 (Sub-2) issued June 23, 1978, as follows: *Meat scraps and bone,* from Eau Claire, WI to points in IL, IA, and MN, restricted to a transportation service to be performed under contract with Eau Claire Rendering Co., Inc., of Eau Claire, WI. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under section 210a(b).

MC-FC-77791, filed August 1, 1978. Transferee: CENTROPOLIS STEEL TRANSPORTATION, INC., 701 North Sterling, Sugar Creek, MO 64054. Transferor: Centropolis Transfer Co., Inc., 701 North Sterling, Sugar Creek, MO 64054. Representative: Frank W. Taylor, Jr., Esq., Suite 600, 1221 Baltimore Avenue, Kansas City, MO 64105. Authority sought for purchase by transferee of that portion of the operating rights of transferor set forth in certificate MC 61955, issued October 14, 1976, as follows: *Fencing, construction steel, angles, bars, etc.,* between Kansas City, MO, on the one hand, and, on the other, points in MO and KS, and such iron and steel articles as are used on construction projects from Kansas City, MO, to points in NE. Transferee presently holds no authority from this Commission. No application for temporary authority has been filed under section 210a(b).

MC-FC-77797, filed July 27, 1978. Transferee: QUASAR EXPRESS, INC., 1812 K Avenue, Sioux Falls, SD 57101. Transferor: Williams Truck Service, Inc., 1812 K Avenue, Sioux Falls, SD 57101. Representative: Scott E. Daniel, Esq., Suite 500, The Atrium, 1200 N Street, P.O. Box 82028, Lincoln, NE 68501. Authority sought by transferee to purchase the operating rights issued in the name of Ray Williams and Arlene Williams, a partnership, d.b.a. Williams Truck Service, as set forth in permit Nos. MC 111720 and (Subs-1, -3, -5, -7, -8, -10, and -11), on December 20, 1950, May 26, 1953, November 18, 1960, October 30, 1964, March 25, 1969, March 12, 1970, May 14, 1974, and April 12, 1974, respectively, and acquired by transferor in MC-FC-76847, consummated December 8, 1977, as follows: Specified commodities

V 43 / 184 SEP 21 1978

from, to, or between specified points and counties in CT, DE, GA, IL, IN, IA, KY, ME, MD, MA, MI, MN, NH, NJ, NY, NC, OH, PA, RI, SC, SD, TN, VT, VA, WV, and DC. Authority also sought for purchase by transferee of the transferor as set forth in permit MC 111720 (Sub-13), issued May 3, 1978, as follows: *Meat, meat products, meat byproducts and articles distributed by meat packinghouses,* from the facilities of Geo. A. Hormel & Co., at or near Fremont, NE and Ottumwa, IA, to points in VA, WV, and NC. Transferee presently holds no authority from this Commission. Application for temporary authority under section 210a(b) was granted August 17, 1978.

MC-FC-77815. Transferee: BANDERA DRILLING CO., INC., d.b.a. Bandera Trucking Co., P.O. Box 471, Abilene, TX 79604. Transferor: J. Murrell Brown Oil Field Trucking, Inc., P.O. Box 1354, Levelland, TX 79336. Representative: Albert G. Walker, Jr., Attorney for the Transferee, 612 Capital National Bank Building, Austin, TX 78701. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in certificate of registration MC 96801 (Sub-1), issued March 11, 1976, as follows: *Pipe,* when used in the construction and maintenance of water lines, *oil field equipment and pipe,* when moving as oilfield equipment, *specified construction machinery and equipment and parts thereof,* when said commodities are not moving as oilfield equipment and only when such equipment requires the use of special devices, facilities, or equipment, between points in TX. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under section 210a(b).

H. G. HOMME, Jr.,
Acting Secretary.

[Ex Parte No. MC-120]

PETITION TO RELAX ENTRY ON THE TRANSPORTATION OF SMALL SHIPMENTS WEIGHING 500 POUNDS OR LESS

AGENCY: Interstate Commerce Commission.

ACTION: Extension of filing deadline.

SUMMARY: The Commission published a notice of the filing of the above-captioned petition in the FEDERAL REGISTER on August 22, 1978, at pages 37329-37330. The notice provided that written comments on the proposal were due on or before October 6, 1978. Because of the great interest in the proposal and the complexity of the issues involved, the Commission, by this notice, is extending the deadline for filing comments until November 6, 1978. No further extensions are contemplated.

FOR FURTHER INFORMATION CONTACT:

Michael Erenberg, 202-275-7292.

Decided September 15, 1978.

By the Commission, J. Patterson King, Acting Director, Office of Proceedings.

H. G. HOMME, Jr.,
Acting Secretary.

[ICC Order No. 62; Rev. S.O. 1252; Amdt. 4]

REROUTING OF TRAFFIC

Upon further consideration of ICC Order No. 62 (the Chesapeake & Ohio Railway Co.) and good cause appearing therefor:

It is ordered, ICC Order No. 62 is amended by substituting the following paragraph (g) for paragraph (g) thereof:

(g) *Expiration date.* This order shall expire at 11:59 p.m., September 30, 1978, unless otherwise modified, changed, or suspended.

Effective date: This amendment shall become effective at 11:59 p.m., September 15, 1978.

This amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association. A copy of this amendment shall be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., September 15, 1978.

INTERSTATE COMMERCE COMMISSION,
JOEL E. BURNS,
Agent.

1

[M-164, Amdt. 1; Sept. 15, 1978]

CIVIL AERONAUTICS BOARD.

Notice of addition of items to the September 20, 1978, meeting agenda.

TIME AND DATE: 10 a.m., September 20, 1978.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: 9a. Docket 29789, Houston/New Orleans-Yucatan Route Proceeding—Opinion and Order (OGC). 9b. Docket 26487, Transatlantic—Transpacific and Latin American Service Mail Rate Investigation (OGC).

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: Item 9a is being added to the September 20, 1978, calendar because the public target date for release of the Board's opinion in this case is September 25 and there appears to be no other meeting before that date. The original meeting for September 20, 1978, was issued before it was realized that Docket 26487, Item 9b needs to be discussed at the September 20, 1978, meeting. Accordingly, the following members have voted that agency business requires the addition of these items to the agenda and that no earlier announcement of the additions was possible.

Chairman, Alfred E. Kahn
Member, Richard J. O'Melia (disapproves)
Member, Elizabeth E. Bailey

All amendments to previously announced agendas are publicly posted at the Board's offices, sent to the FEDERAL REGISTER for publication, and mailed to parties to docketed cases affected by the change. We regret any inconvenience that may be caused by these changes or the delayed receipt of our notices.

[M-164, Amdt. 2, Sept. 15, 1978]

CIVIL AERONAUTICS BOARD.

Notice of addition of item to the September 20, 1978, agenda.

TIME AND DATE: 10 a.m., September 20, 1978.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: 8a. Docket 32049, Application of Hughes Air Corp., d.b.a. Hughes Airwest to amend its permit for route 76F to add two new U.S. and five new Mexican coterminal points (BIA, OGC).

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, The Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: Hughes Airwest, Inc., informed the Board on September 14 that it wishes to commence service on the routes applied for in Docket 32049 on October 29, 1978. The carrier has advertised the service and has fully booked flights beginning on that date. We are acting on the attached show cause order on short notice to allow maximum time for approval of a final order by the President before the carrier's proposed inauguration of service on October 29. Accordingly, the following Members have voted that agency business requires the addition of item 8a on September 13, 1978, and that no earlier announcement of this addition was possible:

Chairman, Alfred E. Kahn
Member, Richard J. O'Melia (disapproves)
Member, Elizabeth E. Bailey

All amendments to previously announced agendas are publicly posted at the Board's offices, sent to the FEDERAL REGISTER for publication, and mailed to parties to docketed cases affected by the change. We regret any inconvenience that may be caused by these changes or the delayed receipt of our notices.

3

[M-164, Amdt. 3; Sept. 15, 1978]

CIVIL AERONAUTICS BOARD.

Notice of addition of item to the September 20, 1978, agenda.

TIME AND DATE: 10 a.m., September 20, 1978.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: 9c. Docket 31738, *International Air Cargo Corporation, Egypt;* Order on Discretionary Review (OGC).

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: The staff has requested that item 9c be added to the agenda for September 20. The announced target date for adopting a decision is September 22, and the meeting of the 20th will be the last meeting before that date. Accordingly, the following Members have voted that agency business requires the addition of item 9c and that no earlier announcement of this addition was possible:

Chairman, Alfred E. Kahn
Member, Richard J. O'Melia
Member, Elizabeth E. Bailey

All amendments to previously announced agendas are publicly posted at the Board's offices, sent to the FEDERAL REGISTER for publication, and mailed to parties to docketed cases affected by the change. We regret any inconvenience that may be caused by these changes or the delayed receipt of our notices.

SECURITIES AND EXCHANGE COMMISSION.

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94-409, that the Securities and Exchange Commission will hold the following meetings during the week of September 25, 1978, in Room 825, 500 North Capitol Street, Washington, D.C.

An open meeting will be held on Thursday, September 28, 1978, at 10 a.m. Closed meetings will be held on Tuesday, September 26, 1978, at 10 a.m., and on Thursday, September 28, 1978, immediately following the open meeting.

The Commissioners, their legal assistants, the Secretary of the Commission, and recording secretaries will attend the closed meetings. Certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the closed meetings may be considered pursuant to one or more of the exemptions set forth in 5 U.S.C. 552b(c) (4), (8), (9)(A), and (10) and 17 CFR 200.402(a)(8), (9)(i), and (10).

Commissioners Loomis, Evans, Pollack, and Karmel determined to hold the aforesaid meetings in closed session.

The subject matter of the closed meeting scheduled for Tuesday, September 26, 1978, at 10 a.m., will be:

Access to investigative files by Federal, State or self-regulatory authorities.
Dismissal of administrative proceeding of an enforcement nature.
Formal orders of investigation.
Freedom of Information Act appeals.
Institution of injunctive actions.
Other litigation matters.

The subject matter of the open meeting scheduled for Thursday, September 28, 1978, at 10 a.m., will be:

Consideration of a release announcing the adoption of Form SECO-4-78 which establishes the annual fees and assessment schedule for SECO broker-dealers for fiscal year 1978. For further information, please contact Daniel L. Bateman at 202-755-1300.

The subject matter of the closed meeting immediately following the open meeting scheduled for Thursday, September 28, 1978, will be:

Institution of injunctive action.
Other litigation matter.

FOR FURTHER INFORMATION, PLEASE CONTACT:

Beverly Rubman at 202-755-1103.

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

SEMIANNUAL REGULATIONS AGENDA AND REVIEW LIST

[4910-62]

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

[OST Docket No. 58; Notice 78-10]

DEPARTMENT REGULATIONS AGENDA AND REVIEW LIST

Semi-Annual Summary

AGENCY: Department of Transportation.

ACTION: Department Regulations Agenda and Review List.

SUMMARY: The Regulations Agenda is a semi-annual summary of each proposed and each final regulation that the Department of Transportation expects to publish in the FEDERAL REGISTER during the succeeding 12 months or such longer projected period as may be anticipated. The Regulations Review List is a semiannual summary of the existing regulations that the Department of Transportation has selected for review and possible revocation or revision. The Agenda and the Review List provide the public with information about the Department of Transportation's regulatory activity. It is expected that this information will enable the public to be more aware of, and allow it to more effectively participate in, the Department's regulatory activity.

ADDRESS: The mailing address for the initiating offices of the Department which appear in the Agenda and the Review List are 400 Seventh Street SW., Washington, D.C. 20590, except for the Federal Aviation Administration and the St. Lawrence Seaway Development Corporation, which are located at 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT: For further information on the Agenda or the Review List, in general, contact:

Neil Eisner, Assistant General Counsel, Office of Regulation and Enforcement, Department of Transportation, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-4723.

For information about any particular item on the Agenda or the Review List, contact the individual listed in the column headed "Contact" for that item. Unless otherwise indicated, the telephone area code for each of these individuals is 202.

SUPPLEMENTARY INFORMATION:

BACKGROUND

Improvement of Government regulations has been a prime goal of the Carter administration. There should be no more regulations than necessary, and those that are issued should be simpler, more comprehensible, and less burdensome. Regulations should not be issued without appropriate involvement of the public; once issued, they should be periodically reviewed and revised, as needed, to assure that they continue to meet the needs for which they originally were designed.

To help the Department of Transportation ("Department") achieve these goals, on January 31, 1978, the Secretary of Transportation issued a statement of policies and procedures for simplification, analysis, and review of regulations (43 FR 9582, March 8, 1978). These policies and procedures took effect on March 1, 1978. They include a requirement that the Department prepare a semiannual Department Regulations Agenda for publication in the FEDERAL REGISTER. The Agenda summarizes each proposed and each final regulation that the Department expects to publish in the FEDERAL REGISTER during the succeeding 12 months or such longer projected period as may be anticipated. They also include a requirement that the Department prepare a semiannual list of existing regulations it has selected for review and possible revocation or revision for publication in the FEDERAL REGISTER.

The Department's first Agenda and Review List were published in the FEDERAL REGISTER on June 1, 1978 (43 FR 23884 and 23918). In accordance with the Department's current regulatory policies and procedures, the Department's subsequent Agendas and Review Lists are to be based on reports submitted by the initiating offices by the last working days of June and December of each year. After these reports are consolidated for review by the Department Regulations Council, the Department's Regulations Agenda and Review List are prepared and published in the FEDERAL REGISTER. This document is being published under that schedule.

The Agenda has been expanded from its first publication; it now includes the additional information that, although not currently required, will eventually be required in accordance wiith Executive Order 12044, "Improving Government Regulations" (43 FR 12661, March 24, 1978), and with the Department's proposed regulatory policies and procedures (43 FR 23925, June 1, 1978).

DEFINITIONS

The Agenda and the Review List cover all rules and regulations of the Department, including those which establish conditions for financial assistance. The following definitions are provided for ease in understanding the information in this document.

(1) *Initiating office* means an operating administration or other organizational element within the Department, the head of which is authorized by law or delegation to issue regulations or to formulate regulations for issuance by the Secretary.

(2) *Significant regulation*[1] means a regulation that is not an emergency regulation and that in the judgment of the head of the initiating office or the Secretary or the Deputy Secretary—

(a) Requires a regulatory analysis or is otherwise costly;

(b) Concerns a matter on which there is substantial public interest or controversy;

(c) Has a significant impact on another operating administration or other parts of the Department or other Federal agency; or

(d) Otherwise involves import and Department policy.

(3) *Emergency regulation* means a regulation that, in the judgment of the head of the initiating office, circumstances require to be issued without notice and opportunity for public comment or made effective in less than 30 days after publication in the FEDERAL REGISTER.

(4) *Nonsignificant regulation* means a regulation that, in the judgment of the head of the initiating office, is neither a significant nor an emergency regulation.

A regulatory analysis is required for each proposed regulation that—

(1) Could produce a major effect on the general economy in terms of cost, consumer prices, or production;

(2) Could produce a major increase in costs or prices for individual industries, levels of government, geographic regions, or specific elements of the population; or

(3) The Secretary or head of the initiating office determines deserves such an analysis.

EXPLANATION OF INFORMATION IN THE REGULATIONS AGENDA

The Regulations Agenda is divided by initiating offices. For each initiating office there is a subdivision for: (1) Significant regulations, (2) non-significant regulations, and (3) routine and frequent non-significant regulations. For each proposed and final regulation expected to be published, the Agenda provides the following information: (1) A short descriptive title; (2) a summary; (3) the earliest expected publication date (if a decision is made to issue the proposal or the regulation); and (4) a contact office or official who can provide additional information. If final action has been taken on an item included on the previous semi-annual Agenda, that item is still contained in this Agenda and the final action is indicated under the "summary" column for that item.

[1] To conform with the Executive order, the Department's procedures have been amended to change the term "major regulation" to "significant regulation" and that change is reflected in this Agenda.

For a significant regulation, the summary includes: (1) A description of the proposed or final regulation; (2) a brief statement as to why it is considered significant; (3) a statement as to whether a regulatory analysis will be required; (4) a brief statement of why the regulation is needed; (5) the legal basis for the action being taken; (6) the past and anticipated chronology of the development of the regulation, including any final action taken since the last semiannual Agenda and (7) the related regulatory citation in the Code of Federal Regulations. It should be noted that, even though a regulatory analysis is not required for some items on the Agenda, either because the criteria are not met or because the regulatory project is covered by earlier regulatory requirements, the Department requires an economic evaluation for all of its regulations.

For nonsignificant regulations issued routinely and frequently as part of an established body of technical requirements (such as the Federal Aviation Administration's airspace rules) to keep those requirements operationally current, only the general category of the regulations, the identity of a contact office or official, and an indication of the expected number of regulations are included; individual regulations are not listed.

If a regulatory docket number has already been established, it is contained in parentheses immediately following the short descriptive title of the regulation. If a member of the public desires further information regarding a particualr proposal or regulation, reference should be made to this docket number. The Federal Highway Administration also provides an FHPM number at this point for easier reference by those who use the Federal-aid Highway Program Manual (FHPM). The numbers following the FHPM represent, respectively, the volume, chapter, section and subsection at which the material is located in the FHPM.

In the "Date" column, abbreviations are used to indicate the particular documents being considered for issuance by that date. ANPRM stands for advance notice of proposed rulemaking, NPRM for notice of proposed rulemaking, and FR for final rule. Listing a date in this column is not an indication that a proposal or a final rule will be issued on that date; it is the date on which a final decision is expected to be made on whether to issue the document listed. If any document is issued, publication in the FEDERAL REGISTER would follow within a few days. These dates are based on current schedules. Subsequently, received information could result in a decision not to take regulatory action or in changes to proposed publication dates. For example, the need for further evaluation could result in a later publication date; evidence of a greater need for the regulation could result in an earlier publication date.

It should be noted that some of the items on the Agenda result from programs which were established to review existing regulations and revoke or revise those regulations which the initiating office determines are not achieving their intended purpose. For example, the anticipated rulemaking actions listed by the Federal Highway Administration (FHWA) are primarily in response to the implementation of FHWA's Regulations Reduction Review recommendations adopted in late 1977. As a result of those recommendations, FHWA is currently in the process of systematically reviewing and, where appropriate, revising all of its existing regulatory material to assure consistency with its policy on the minimization of red tape, issued on October 20, 1977. This policy was published in the FEDERAL REGISTER (43 FR 10578, FHWA docket No. 76-21, notice 4) on March 14, 1978. As indicated on the Agenda, many of the Federal Aviation Administration's proposed regulatory actions also result from one of its many regulatory reviews. Projects under regulatory development that resulted from a review of existing regulations to determine whether they should be revoked or revised are preceded by the word "review" in the "Title" column. Because some reviews can be large-scale undertakings, and because there are already a number of these in the regulatory development process, the Department thought it would provide the public with valuable information if it indicated not only which regulatory reviews are under consideration but also which reviews have now reached the stage where proposed revisions are being, or have been, prepared. The number of regulatory projects that an initiating office can handle is limited by available resources. Therefore, the number of reviews in the regulatory development stage limits the number that can be added to the consideration stage.

EXPLANATION OF THE INFORMATION IN THE REGULATIONS REVIEW LIST

The Regulations Review List is divided by initiating offices. For each office, it provides the following information: (1) A short description of the existing regulations involved, including the related citation to the Code of Federal Regulations; (2) a brief description of the reasons for each selection; (3) a contact office or offcial who can provide additional information; and (4) the target date for completing the review and determining the corrective course of action to be taken. The action taken can be revocation or revision of the regulation, or it can be a determination that no regulatory action is necessary because the regulation is found to be achieving its goals and the goals and objectives of Executive Order 12044 and the Department regulatory policies and procedures. If final action has been taken on the previous semiannual Review List, that item is still contained in this Review List and the final action is indicated under the "Reasons for Selection" column for that item.

PURPOSE

The Department is publishing this Regulations Agenda and Review List in the FEDERAL REGISTER to share with interested members of the public the Department's preliminary expectations regarding its future regulatory actions. This should enable the public to be more aware of the Department's regulatory activity. Knowledge of the nature and scope of this activity, as well as the specific proposals and reviews being considered, should result in more effective public participation in the Department's regulatory activity. For example, awareness of the dates when notices may be issued seeking public comment should allow appropriate planning and more efficient use of the comment period. By providing the expected date for a decision on whether to issue a final rule, the Department expects that more appropriate planning by those concerned with the regulation will also be possible.

This publication in the FEDERAL REGISTER does not impose any binding obligation on the Department, or any of the offices within the Department, with regard to any specific item on the Agenda or the Review List. Regulatory action in addition to the items listed is not precluded.

If further information is desired on any of the items listed in the Agenda or the Review List, the public is encouraged to contact the individual listed for the particular item. Additional information concerning the Agenda or the Review List, in general, or the Department's regulatory policies and procedures may be obtained from Neil Eisner, whose address and telephone number appear above.

Issued in Washington, D.C. on September 7, 1978.

BROCK ADAMS,
Secretary of Transportation.

DEPARTMENT OF TRANSPORTATION, SEMIANNUAL REGULATIONS AGENDA

OFFICE OF THE SECRETARY

SIGNIFICANT REGULATIONS

Title	Summary	Contact	Decision date
Nondiscrimination on the Basis of Handicap in DOT-Funded Programs and Activities. Notice of proposed rulemaking, docket No. 56.	A. *Description:* Proposed regulation woud implement sec. 504 of Rehabilitation Act of 1973 (29 U.S.C. 794), prohibiting discrimination against handicapped persons in federally funded programs. The regulation establishes requirements for recipients of DOT financial assistance to meet the mandate of sec. 504. B. *Why significant:* The proposed regulation would have a major impact on DOT programs, particularly those administered by FAA, FRA, UMTA, and FHWA. All recipients of DOT aid must take positive actions to make their federally funded programs accessible to the handicapped. C. *Regulatory analysis:* Will be required. D. *Need:* These regulations implement regulations issued by the Department of Health, Education, and Welfare (HEW) and 29 U.S.C. 794. They are needed to ensure that recipients of financial assistance from DOT make the programs operated in existing facilities accesible to handicapped persons, and to ensure that new facilities are constructed so as to be readily accessible to handicapped persons. E. *Legal basis:* 29 U.S.C. 794. F. *Chronology:* HEW issued regulations on Jan. 13, 1978, requiring Federal agencies to integrate the requirements of sec. 504 into their respective programs and activities (43 FR 2132). An NPRM was published on June 8, 1978 (43 FR 25016). By supplemental notice the comment period has been extended to Oct. 20, 1978 (3 FR 30585). Pubild hearings have been scheduled for New York City, Sept. 7; Chicago, Sept. 11; Denver, Sept. 13; San Francisco, Sept. 15; and Washington, D.C., Sept. 19 (43 FR 34171). The Regulatory Analysis Review Group has selected this regulation to review for its economic impact. G. *Citation:* 49 CFFR pt. 27.	Richard R. Clark, 202-426-4723	FR March 1979.
Title VI Civil Rights Regulations	A. *Description:* The proposed regulations would assemble in one package all DOT procedures and requirements concerning all recipients of financial assistance under title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d-d4). B. *Why significant:* Substantial public interest is anticipated and it will effect all of the DOT elements and the administration of all grant programs. C. *Regulatory analysis:* Will not be required. D. *Need:* The Department has an existing Title VI regulation dating from 1970, and a title VI order promulgated by Secretary Coleman on Jan. 19, 1977 and reaffirmed by Secretary Adams in March of that year. A new regulatory package is being developed to replace the previous layering of regulations. E. *Legal basis:* 42 U.S.C. 2000d-d4. F. *Chronology:* Proposal is currently under review. It will then be submitted to the Department of Justice for approval. G. *Citation:* 49 CFR pt. 21.	Robert J. Coates, 202-426-4754	NPRM November 1978.
Minority Business Enterprise Program.	A. *Description:* This regulation would implement the requirements of DOT order 4000.7A for DOT operating elements to take affirmative action to assure that minority business enterprises participate in departmental procurement and financial assistance programs. B. *Why significant:* Substantial public interest is anticipated given the proposed action's potential impact on DOT's procurement and assistance programs. C. *Regulatory analysis:* Will not be requried. D. *Need:* To implement the provisons of the DOT order 4000.7A by providing detailed instructions for carrying out the affirmative action requirements of the order. E. *Legal basis:* Executive Order 11625; 49 U.S.C. 1730; 45 U.S.C. 803; 49 U.S.C. 1608(f). F. *Chronology:* Proposal is currently under review by the DOT elements. G. *Citation:* No CFR citation as yet.	Ellen Feingold, 202-426-4646 Richard Lorr, 202-426-4710	NPRM October 1978.
Financial Assistance to participants in Rulemaking Proceedings.	A. *Description:* If propsoed, these regulations would permit, but not require, each agency of the Department to fund eligible members of the public for the reasonable and actual costs of preparing and presenting their views at selected agency rulemaking proceedings. B. *Why significant:* This issue concerns a matter on which there is substantial public interest and controversy and will have a significant impact on the operating administrations and the Office of the Secretary. C. *Regulatory analysis:* Will not be required. D. *Need:* Such a rule would substantially increase the number of active, informed, and independent participants at many rulemaking proceedings within the Department, thereby increasing the diversity and balance of views presented to the Department, and enhancing the Department's knowledge of the interests likely to be affected by its proposed rules. E. *Legal authority:* The Department's rulemaking authority under the Department of Transportation Act, 49 U.S.C. 1651 et seq. and related statutes.	Richard Lorr, 202-426-4723	NPRM January 1979.

OFFICE OF THE SECRETARY—Continued

SIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
	F. *Chronology:* On Jan. 13, 1977, the Department published regulations for a one-year demonstration program to provide financial assistance to certain participants in rulemaking proceedings of NHTSA. (42 FR 2863.) At the same time the Department issued an ANPRM, inviting public comments on the feasibility, wisdom, and scope of a permanent departmentwide program of financial assistance. Upon conclusion of the demonstration program, NHTSA evaluated the program and recommended that the Department establish an amended version of the program throughout the Department. On Mar. 16, 1978, the demonstration program in NHTSA was extended until the Secretary decided whether to issue final, permanent Department regulations (43 FR 10918). G. *Citation:* No CFR citation as yet.		
Public Availability of Information	A. *Description:* Revision of DOT's Freedom of Information Act regulations. Specific areas to be revised may include the fee schedule and the policy on waivers of fees for public interest groups and the press. B. *Why significant:* Substantial public interest. C. *Regulatory analysis:* Not required. D. *Need:* Freedom of Information regulations need periodic revision to keep current with changes in case law, policy, and implementation costs. E. *Legal basis:* 5 U.S.C. 552 (Freedom of Information Act). F. *Chronology:* Regulations last revised in 1975 (40 FR 7915). Revision currently under internal development. NPRM expected October 1978. G. *Citation:* 49 CFR pt. 7	Rebecca H. Lima, 202-426-4542	NPRM October 1978.

OFFICE OF THE SECRETARY

NONSIGNIFICANT REGULATIONS

Consolidation of Transportation Grants U.S. Territories.	The regulation would comply with title V of Pub. L. 95-134 which permits departments and agencies to consolidate grant programs, reduce reporting requirements, and waive the local matching funds requirement.	Carolina Mederos 202-426-9605	NPRM August 1978.
Standard Time Zone Boundaries	The regulation would correct a mistaken reference to "North Dakota-Nebraska boundary" in "description of" the eastern-central time zone boundary (49 CFR 7.31(b)).	Robert I. Ross, 202-426-4723	FR September 1978.
Maintenance of Aecess to Records Pertaining to Individuals.	This regulation would revise the Department's Privacy Act regulations (49 CFR pt. 10).	John Windsor, 202-426-1877	NPRM August 1978.
Official Seal	Revision of regulations governing description and use of the Department's official seal (49 CFR pt. 3).	Robert I. Ross, 202-426-4723	FR October 1978.

U.S. COAST GUARD

SIGNIFICANT REGULATIONS

Review: Construction and Operating Standards for Mobile Offshore Drilling Units (Docket No. CGD 73-251).	A. *Description:* Would establish one set of uniform, comprehensive regulations applicable to all mobile offshore drilling units. B. *Why significant:* Considered significant due to increased public awareness and concern regarding offshore oil and gas development, also substantial congressional interest. C. *Regulatory analysis:* Will not be required. D. *Need:* At present there are no comprehensive regulations applicable to the offshore industry. This industry has grown so rapidly in the last few years that it needs its own dedicated set of requirements. E. *Legal basis:* Sec. 2, 87 Stat. 418 (46 U.S.C. 86); sec. 3, 82 Stat. 341, as amended (46 U.S.C. 367); R.S. 4405, as amended (46 U.S.C. 375); R.S. 4405, as amended (46 U.S.C. 4001); R.S. 4429, as amended (46 U.S.C. 407); R.S. 4430, as amended (46 U.S.C. 408); 88 Stat. 423 (46 U.S.C. 411); R.S. 4434, as amended (46 U.S.C. 412); R.S. 4462, as amended (46 U.S.C. 416); sec. 1, 73 Stat. 475 (46 U.S.C. 481); sec. 4, 87 Stat. 462 (43 U.S.C. 1333(e)). F. *Chronology:* Project commenced 1973. Environmental and economic analysis completed March 1977. NPRM published 42 FR 22296. Public hearing held June 1977. G. *Citation:* 33 CFR pt. 155, 46 CFR pts. 10, 12, 30, 31, 35, 70, 90, 98, 105, 151, and 157.	LCDR Harmes, 202-426-2190	FR October 1978.
Review: Qualifications of the Person in Charge of Oil Transfer Operations, Tankerman Requirements (docket No. CGD 74-44, 74-44a).	A. *Description:* Would redefine and establish qualifying criteria for certifying individuals engaged in the carriage and transfer of the various categories of dangerous cargoes in bulk. B. *Why significant:* Considered significant because this is a Presidential initiative. C. *Regulatory analysis:* Will not be required. D. *Need:* Most pollution incidents are the result of personnel error; consequently the minimum qualifications of persons involved in handling polluting substances should be specified. E. *Legal basis:* 86 Stat. 427, as amended (46 U.S.C. 391a); sec. 6(b)(1), 80 Stat. 937 (49 U.S.C. 1655(b)(1); 49 CFR 1.46(n)(4). F. *Chronology:* Environmental analysis and inflationary impact statement completed February 1977. NPRM published 42 FR 21190. Public hearing June 1977. G. *Citation:* 33 CFR pt. 155, 46 CFR pts. 10, 12, 30, 31, 35, 70, 90, 98, 105, 151, and 157.	CDR Hess, 202-426-225	FR October 1978.

U.S. COAST GUARD—Continued
SIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Review: Revision of Electrical Regulations (docket No. CGD 74-125).	A. *Description:* General revision and updating to conform with latest technology and to include steering requirements. B. *Why significant:* Considered significant since it incorporates the steering requirements of the Presidential initiatives. C. *Regulatory analysis:* Will not be required. D. *Need:* The industrial standards for electrical engineering have changed in the past few years and the regulations must be brought up-to-date to reflect the lastest industry practice. E. *Legal basis:* 46 U.S.C. 170, 367, 369, 375, 390(b), 391(a), 392, 408, 416, 445, 389, 526p, 49 U.S.C. 1655(b). F. *Chronology:* NPRM published 42 FR 32700. A new NPRM will be issued September 1978. G. *Citation:* 46 CFR pts. 110-113.	Mr. R. Tweedie, 202-426-2205	NPRM September 1978.
Standard for new Self-Propelled Vessel Carrying Bulk Liquefied Gases (docket No. CGD 74-289).	A. *Description:* These regulations would adopt the Intergovernmental Maritime Consultative Organization (IMCO) resolution, the code for construction and equipment of ships carrying liquefied gases in bulk. B. *Why significant:* This is a significant rulemaking involving matters of substantial public interest. C. *Regulatory analysis:* Will not be required. D. *Need:* The increased use of liquefied gases for energy sources has produced a dramatic increase in the manufacture and use of vessels designed for the cargo. Due to the unusual and unique hazards associated with liquefied gases, these vessels must be addressed in regulations specially tailored to their unique situation. E. *Legal basis:* R.S. 4472 as amended (46 U.S.C. 170); sec. 201, 86 Stat. 42), as amended (46 U.S.C. 391); sec. 6(b)(1), 80 Stat. 937 (49 U.S.C. 1655(b)(1). F. *Chronology:* Economic and environmental impact assessments and negative declarations were prepared before the NPRM was published 41 FR 43822. Public hearing held November 1976. G. *Citation:* 46 CFR pts. 31, 34, 40, 54, 56, 98, 154, and 154a.	LCDR Rowek, 202-426-1477	FR September 1978.
Whitewater Rafts Inspection (docket No. CGD 75-020).	A. *Description:* These proposed regulations would set forth safety requirements for whitewater rafts that would recognize the unique construction, arrangement, equipment, and general operation of these vessels. B. *Why significant:* This project is considered significant because of the potential significant cost to a minor industry with small businesses and substantial congressional interest. C. *Regulatory analysis:* Will not be required. D. *Need:* Increased popularity of whitewater rafting as a commercial recreational activity has increased the potential for casualties to paying passengers. Since these rafts are engaged in interstate commerce, by law, they are subject to inspection to insure that they meet minimum levels of safety. E. *Legal basis:* 46 U.S.C. 390. F. *Chronology:* This project commenced in 1974. Public hearings will be held after the 1978 operating season. G. *Citation:* 46 CFR pts. 175-187.	LCDR Anderson, 202-426-2183	NPRM November 1978.
Review: Upgrade New Tank Barge Construction (docket No. CGD 75-083), Upgrade Existing Tank Barge Construction (docket No. CGD 75-083a).	A. *Description:* This action is comprised of two regulatory projects centered on tank barge construction standards which resulted from the Presidential initiatives directing a study of the tank barge pollution problem. One project will address new barge construction while the other will pertain to existing barges. Regulatory documents for both will be published at the same time and joint public hearings will be held. B. *Why significant:* Considered significant due to substantial congressional and public interest. C. *Regulatory analysis:* A joint regulatory analysis will be developed for both projects due to the conbined impact upon a single industry. D. *Need:* Increased public awareness of the oil pollution problem, as well as international and domestic interest in this area have made increased design standards necessary as a menas of reducing the possibility of pollution. E. *Legal basis:* See 201, 86 Stat. 427, as amended (46 U.S.C. 391a). F. *Chronology:* The upgrade of tank barge construction standards was published as a NPRM in the FEDERAL REGISTER of Dec. 24, 1971. As a result of the 63 written comments received, it was decided that the standards needed to be studied further, especially as they would apply to existing barges. In 1974, the Coast Guard and the Maritime Administration performed a joint study of the tank barge pollution problem which found that certain construction techniques might provide a significant advantage for eliminating oil pollution from tank barges. However, the study had several weaknesses and regulatory action was not taken. In July 1977, the Coast Guard began a reexamination of the tank barge construction standards. It was determined that new construction should be treated separately from existing barges. An ANPRM will be issued to gather additional data and assess impacts related to existing barges. G. *Citation:* 46 CFR pts. 32-40.	LCDR Johnson, 202-426-4431 LCDR Sampson, 202-426-2183	NPRM October 1978. ANPRM October 1978.

U.S. COAST GUARD—Continued
SIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Review: Pollution Prevention, Vessel and Oil Transfer Facilities (docket No. CGD 75-124).	A. *Description:* Would reduce accidental discharge of oil or oily wastes during vessel operations and during the transfer of oil or oily wastes to or from vessels. B. *Why significant:* Considered significant due to intense opposition from the owners/operators of offshore marine service vessels and inland waterways vessels to the oil-water separator requirements of 33 CFR 155.330. Also, considerable expense is estimated to be incurred by the towing service to install separators and monitors or alarms. C. *Regulatory analysis:* Will not be required. D. *Need:* (1) Necessity to reduce the number of accidental spills. (2) Clarification of existing rules. (3) Additional requirement for oil-water separators under the 1973 International Convention for the Prevention of Pollution from Ships. E. *Legal basis:* Sec. 311(j)(1) (C) and (D) of the Federal Water Pollution Control Act (86 Stat. 816, 818); 33 U.S.C. 1321(j)(1) (C) and (D). F. *Chronology:* NPRM published 42 FR 32670. Supplemental NPRM published 42 FR 56625. Public hearings held: New Orleans, La., Nov. 22, 1977, St. Louis, Mo., Nov. 30, 1977, Washington, D.C., Nov. 28, 1977. Final rule anticipated July 1978. G. *Citation:* 33 CFR pats. 154, 155, and 156.	LCDR J. Busavage, 202-426-9578	FR October 1978.
Oil Pollution Liability Fund Requirements (docket No. CGD 77-055).	A. *Description:* Would establish procedural rules concerning administration and operation of fund, including liability limits for certain facilities, financial responsibility factors, damage claim settlement procedures, et al. B. *Why significant:* Involves probable matters of substantial public interest and important DOT policy. C. *Regulatory analysis:* Will be required. D. *Need:* To communicate and clarify statutory provisions and executive branch implementing requirements to affected public. E. *Legal basis:* Forthcoming legislation. F. *Chronology:* Authorizing legislation appears imminent. Expect congressional mandate of 180 days for FR. At least two public hearings will be held. G. *Citation:* 33 CFR pt. 152.	F. Martin, 202-426-2606	NPRM October 1978.
Inert Gas System (docket No. CGD 77-057).	A. *Description:* Would require oil tankers of 20,000 dwt and over to be fitted with inert gas system. B. *Why significant:* This is a result of a Presidential initiative and meets major cost impact criteria. C. *Regulatory analysis:* Will be required. D. *Need:* As part of the President's initiatives to reduce marine pollution, this regulation will reduce the possibility of in-tank explosions which have been the cause of some pollution incidents. E. *Legal basis:* See 201, 86 Stat. 427, as amended (46 U.S.C. 391a); 49 CFR 1.46(n)(4). F. *Chronology:* Inflationary impact statement completed May 1977. NPRM published 42 FR 24874. Public hearing held in Washington, D.C., and San Diego, Calif. June 1977. G. *Citation:* 46 CFR 32.53.	Mr. D. Sheehan, 202-426-2205	FR September 1978.
Segregated Ballast/CBT/COW (docket No. CGD 77-058).	A. *Description:* On Mar. 17, 1977, President Carter directed the Secretary of Transportation to issue new rules for oil tanker standards which were to include segregated ballast on all tankers and double bottoms on all new tankers which call at American ports. The provisions of this regulation proposed have been changed by the February 1978 IMCO Conference to include crude oil washing (cover) and clean ballast tanks (CBT). B. *Why significant:* This rulemaking is considered significant because of substantial congressional and public interest. C. *Regulatory analysis:* Will not be required. D. *Need:* As part of the President's initiatives to reduce pollution, this regulation is needed to help reduce the possibility of a marine collision due to a loss of steering. E. *Legal basis:* See 201, 86 Stat 427, as amended (46 U.S.C. 391a); 49 CFR 1.46(n)(4). F. *Chronology:* NPRM was published 42 FR 24868. As a result of the Intergovernmental Maritime Consultative Organization (IMCO) February 1978 Tanker Safety and Pollution Prevention Conference, a new NPRM will be issued. G. *Citation:* 33 CFR pt. 157.	CDR Ireland, 202-426-4431	NPRM September 1978.
Steering Gear design standards to provide redundancy (docket No. CGD 77-063).	A. *Description:* On Mar. 17, 1977, President Carter directed the Secretary of Transportation to issue new rules to provide for back-up steering systems for all tankers calling at U.S. ports. B. *Why significant:* This rulemaking is considered significant because of congressional and public interest. C. *Regulatory analysis:* Will not be required. D. *Need:* As part of the President's initiatives to reduce pollution, this regulation is needed to help reduce the possibility of a marine collision due to a loss of steering. E. *Legal basis:* Title II, sec. 201, 86 Stat 427, as amended (46 U.S.C. 391a); 49 CFR 1.46. F. *Chronology:* NPRM published 42 FR 24869. As a result of the IMCO February 1978 Tanker Safety and Pollution Prevention Conference, a new NPRM will be issued. G. *Citation:* 46 CFR pt. 58.	CDR Williams, 202-426-2160	NPRM September 1978.

U.S. COAST GUARD—Continued
SIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Review: Construction and Equipment Existing Self-Propelled Vessels Carrying Bulk Liquefied Gases (docket No. 77-069).	A. *Description:* Would amend regulations of existing self-propelled vessels that carry bulk liquefied gases by including the substantive requirements of the "Code for Existing Ships Carrying Liquefied Gases In Bulk" adopted by IMCO which would increase safety levels of existing gas ships. B. *Why significant:* This is significant because it involves a large number of existing United States and foreign flag liquefied gas ships and is the subject of substantial public interest. C. *Regulatory analysis:* Will not be required. D. *Need:* Increased use of liquefied gases has intensified the problems associated with this product. Since this product has unique properties and dangers, a dedicated set of regulations is needed to address them. E. *Legal basis:* R.S. 4472 as amended (46 U.S.C. 170). Sec. 201, 86 Stat. 427, as amended (46 U.S.C. 391a); see 6(b)(1), 80 Stat. 937 (49 U.S.C. 1655(b)(1). F. *Chronology:* An advance notice of proposed rulemaking was published 42 FR 33353. An environmental impact assessment should be completed October 1978. G. *Citation:* 46 CFR pts. 31, 34, 38, 40, 54, 98, and 154.	LCDR Pluta, 202-426-2160	NPRM February 1979.
Review: Licensing of Pilots (docket No. CGD 77-084).	A. *Description:* This proposal would require recency of service for each route upon which a pilot is authorized to serve; licenses to be issued with tonnage limitations commensurate with pilot experience; and consideration of shiphandling simulator training for pilots of large vessels (very large crude carriers—(VLCC)). B. *Why significant:* Considered significant because there is substantial interest among marine personnel on this matter with opposition expected from Federal pilots. C. *Regulatory analysis:* Will not be required. D. *Need:* Increased ship size has led to unusual handling characteristics with which some pilots may not be familiar. This rule will allow use of simulator training for these kinds of vessels. E. *Legal Basis:* 49 U.S.C. 1955; 46 U.S.C. 405. F. *Chronology:* A regulatory analysis should be completed September 1978. Public hearing will probably be held February 1979. G. *Citation:* 46 CFR pt. 10.	LCDR Norman, 202-426-2240	NPRM December 1978.
Tank Vessel Operations Regulations, Puget Sound (docket No. CGD 78-041).	A. *Description:* The Coast Guard is considering issuing regulations governing the operation of tank vessels in the Puget Sound area to protect against environmental harm resulting from vessel or structure damage, destruction, or loss. B. *Why significant:* This is considered a significant rulemaking due to congressional and public interest. In addition it may generate controversy among the public, environmentalists, and the oil industry. C. *Regulatory analysis:* Will not be required. D. *Need:* To reduce the possibility of environmental harm resulting from oil spills in Puget Sound by governing the operation of tankers to reduce the risk of collision or grounding. E. *Legal basis:* Port and Waterways Safety Act of 1972 (33 U.S.C. 1221). F. *Chronology:* Secretary Adams signed 180 day interim rule on Mar. 14, 1978, prohibiting entry of oil tankers in excess of 125,000 dwt in Puget Sound (43 FR 12257). ANPRM published 43 FR 12840 with public hearing held April 1978. An extension of the interim rule will be published in the FEDERAL REGISTER in order to allow the Coast Guard adequate time to complete this rulemaking. G. *Citation:* 33 CFR pts. 160 and 161.	CDR R. Janecek, 202-426-1935	NPRM (uncertain pending completion of environmental impact statement).
Personnel Job Safety Requirements for Industrial Vessels.	A. *Description:* To develop safety requirements for personnel employed on vessels engaged in oil field exploration and development. B. *Why significant:* This action concerns a matter that is of significant public interest and which will impact on other Federal agencies. Action mandated by pending Outer Continental Shelf legislation. C. *Regulatory analysis:* Will not be required. D. *Need:* Exploration and development of the offshore resources requires a growing fleet of vessels which perform a variety of industrial functions. The regulations will provide more comprehensive protection for personnel employed on these vessels. E. *Legal basis:* 43 U.S.C. 1333(e) and proposed legislation pending. F. *Chronology:* Prepare work plan November 1978. G. *Citation:* 46 CFR subchs. I and IA.	CDR Cronk, 202-472-5160	ANPRM April 1979.
Personnel Job Safety Requirements for Fixed Installations on the Outer Continental Shelf.	A. *Description:* To develop personnel safety and health requirements for artificial island, fixed installations and other devices on the Outer Continental Shelf (OCS). B. *Why significant:* This action concerns a matter that is of significant public interest and which will impact on other Federal agencies. Action mandated by pending Outer Continental Shelf legislation. C. *Regulatory analysis:* Will not be required. D. *Need:* More comprehensive requirements will improve personnel working conditions and the level of safety on fixed installations on the OCS. The regulations will also help fulfill the mandates for safety and health in the pending legislation on the OCS Land Act Amendments of 1978.	CDR Cronk, 202-472-5160	ANPRM December 1978.

NONSIGNIFICANT REGULATIONS

Vessel Traffic Service, Berwick Bay, La. (docket No. CGD 73-186).	Would codify certain operating procedures now being done under local order (33 CFR pt. 161).	ENS Molessa, 202-426-4958	NPRM September 1978.
Review: Lights on Pipelines (docket No. CGD 73-216).	Would require warning lights on unattended dredge pipelines (33 CFR pt. 82).	.....do	FR August 1978.
Review: Cargo Location Signs and Cargo Information Cards on Barges (docket No. CGD 73-243).	Would require notification of crew of the hazards and locations of dangerous cargoes carried on barges (46 CFR pt. 35).	Mr. Query, 202-426-1217	NPRM November 1978.
VTS Louisville, Ky (docket No. CGD 73-244).	Would make mandatory a now voluntary vessel traffic service (33 CFR pt. 161).	ENS Molessa, 202-426-4958	NPRM October 1978.
VTS San Francisco, Calif. (docket No. CGD 73-724).	.....do.....	Mr. Schwer, 202-426-4958	NPRM December 1978.
VTS Houston-Galveston, Tex. (docket No. CGD 74-029).	.....do.....	ENS Molessa, 202-426-4958	Do.
Powered Pilot Hoists and Ladder (docket No. CGD 74-140).	Would establish new regulation for pilot hoists and revise regulations for pilot ladders and chain ladders (46 CFR pts. 160 and 163).	Mr. Markle, 202-426-1445	NPRM October 1978.
Review: Provisions to allow for Foreign Inspection of Liferafts (docket No. CGD 74-208).	Would establish an acceptable mechanism for ships operating in foreign ports to have necessary safety inspections performed (46 CFR 160.051).	Mr. Daniels, 202-426-1445	ANPRM November 1978.
Review: Measurement of Vessels Size of Accesses to Exemptible Water Ballast Spaces (docket No. CGD 74-211).	Would establish measurement of vessel size of accesses to exemptible water ballast space (46 CFR pt. 69).	Mr. Stitt, 202-426-2192	NPRM October 1978.
Review: Fixed Fire Extinguishing Systems on Uninspected Vessels (docket No. CGD 74-284).	Would establish standards for the construction and installation of Halon 1301 and other fixed fire extinguishing systems (46 CFR 160.29).	Mr. K. Wahle, 202-426-1444	NPRM November 1978.
Elevators and Dumbwaiters (docket No. CGD 75-001).	Would adopt the ANSI standard safety code with certain modifications for vessel construction (46 CFR pt. 58).	Mr. B. Jackson, 202-426-2205	FR December 1978.
Review: Bulk Concentrate Cargoes (docket No. CGD 75-033).	Would establish stability standards for high moisture content bulk concentrate cargoes in accordance with Intergovernmental Maritime Consultative Organization (IMCO) (42 CFR 93.25).	Mr. D. Ewing, 202-426-2187	NPRM August 1978.
Review: Compatibility of Bulk Liquid Cargoes (docket No. CGD 75-059).	Would establish cargo loading standards to prevent the intermingling of cargo likely to create dangerous conditions (46 CFR pt. 150).	Mr. R. Query 202-426-1217	NPRM May 1979.
Benzene Carriage Requirements Vapor Exposure Limitations (docket No. CGD 75-075).	Proposed requirements to prevent exposure of crew to hazardous vapors (46 CFR pts. 151 and 153).	LT Haas, 202-426-1019	NPRM August 1978.
Review: Measurement of Vessels (docket No. CGD 75-078).	Proposed deduction for spaces, to collect, carry and process vessel waste material (46 CFR pt. 69). FR published July 1978 (43 FR 32109).	Mr. F. Stitt, 202-426-2192	Action complete.
Review: Cargo transfer Manual (docket No. CGD 75-148).	Proposed requirement for standard procedures to be contained in a manual available for the crew's use (46 CFR pt. 354).	LCDR Anderson, 202-426-2183	NPRM November 1978.
Review: Ocean Operator (docket No. CGD 75-178).	Proposed licensing requirements for rank of ocean operator (46 CFR pts. 157 and 186).	CDR Pensom, 202-426-2240	FR August 1978.
Review: Launching Devices for Liferafts (docket No. CGD 75-217).	Proposed specification for approval of devices used for launching inflatable liferafts (46 CFR pts. 160 and 063).	Mr. M. Daniels, 202-426-1445	NPRM November 1978.
Review: Helicopter Operations with Tank Vessels (docket No. CGD 75-221).	Would establish guidelines for helicopter operations on tank vessels and LNG vessels (46 CFR pts. 32, 34, and 35).	LTJG Sedlak, 202-426-2197	NPRM August 1978.
Review: Pilots on Self-Propelled Vessels (docket No. CGD 75-236).	Would require pilots in certain areas not now covered by State laws (46 CFR pt. 163).	Mr. F. Schwer, 202-426-1934	Do.
Review: Advance Notice of Arrival (docket No. CGD 75-238).	Would require advance notice to Captain of the Port (COTP) of vessel arrivals, departures and hazardous conditions. NPRM published 43 FR 25958 (33 CFR pt. 161).	LCDR Bonekemper, 202-426-1927	FR October 1978.
Marine Occupational Safety and Health Standards, Commercial Diving Regulations (docket No. CGD 76-009).	Proposed equipment and operational standards for commercial divers (46 CFR pts. 54 and 197).	CDR Muth 202-426-2307	FR September 1978.
Review: Stability Standards for Tug Boats (docket No. CGD 76-018).	Would establish intact stability standards for vessels normally engaged in towing operations to increase their resistance to capsizing (46 CFR pt. 42).	Mr. F. Perrini, 202-426-1287	NPRM September 1978.
Review: Tug Assistance in Confined Waters (docket No. CGD 76-025).	Would require tug assistance for large vessels operating in confined waters. ANPRM published 41 FR 18770 (33 CFR pt. 164).	Mr. F. Schwer, 202-426-4958	NPRM June 1979.
Review: Lights and Retro-Reflective Material for Life Preservers and Other Lifesaving Equipment (docket No. CGD 76-023).	Would require lights and retro-reflective material on life preservers in order to aid rescue effects (46 CFR pts. 25, 33, 75, 94, 161, 167, 180, and 192).	LCDR Anderson, 202-426-2183	FR August 1978.
Review: Lifesaving Systems for Great Lakes Vessels (docket No. CGD 76-033).	Would amend lifesaving equipment regulations to improve chances of personnel survival following abandonment of vessel (46 CFR subchs. D, H, I, T, and Q).	Mr. R. Markle, 202-426-1445	NPRM January 1979.
Review: Exposure Suits on Great Lakes Vessels (docket No. CGD 76-033a).	Proposed approval specification and vessel requirements for low-temperature exposure. NFRM published 43 FR 25000 (46 CFR pts. 33, 75, 96, and 160).	.....do	FR February 1979.
Review: Factory Inspection Approval Procedures (docket No. CGD 76-048).	Proposed procedures to allow third-party inspection of specified equipment (46 CFR pt. 159).	Mr. F. Thompson, 202-426-2174	NPRM September 1978.
Review: Factory Inspector, Distress Signal (docket No. CGD 76-048a).	Proposed procedures to allow third-party inspection of specified equipment (46 CFR pt. 160).	Mr. R. Markle, 202-426-1445	Do.

V 43 / 184 SE 21 78 V

U.S. COAST GUARD—Continued
NONSIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Minumum Net Bottom Clearance (docket No. CGD 76-051).	Would require vessels to maintain a minimum net bottom clearance while transmitting certain navigable waters of the United States. ANPRM published 41 FR 18770 (33 CFR pt. 164).	Mr. F. Schwer, 202-426-4958	NPRM June 1979.
Review: Subdivision of Passenger Vessels (docket No. CGD 76-053).	Proposed more flexible regs by allowing compliance with Intergovernmental Maritime Consultative Organization as an alternative to existing requirements (46 CFR pts. 73 and 74).	Mr. J. Howell, 202-426-2187	NPRM December 1978.
Review: Stability Standards for Hopper Dredges (docket No. CGD 76-060).	Would improve dredge's capability to withstand flooding caused by damage to hull or interior piping (46 CFR pt. 93).	Mr. D. Ewing, 202-426-2187	NPRM August 1978.
Review: Cargo Manifest; Foreign Tankers (docket No. CGD 76-081).	Proposed to alert the crew to the identify of cargo (46 CFR pt. 35).	LCDR Anderson, 202-426-2183	Supplemental NPRM August 1978.
Requirements for Boat Ventilation (docket No. CGD 76-082).	Would establish requirements for ventilation of fuel and engine compartments on boats. NPRM published July 1976 (43 FR 32606) (33 CFR pt. 183).	Mr. L. Granholm, 202-426-4027	FR February 1979.
Review: Combination Fire Hose Nozzles (docket No. 76-086).	Proposed requirement for an approved combination nozzle on most vessels (46 CFR pts. 34, 76, 95, 162, and 193).	Mr. F. Thompson, 202-426-2174	FR October 1978.
Review: Cadets of the Coast Guard (docket No. CGD 76-087).	Would revise present regulatory language to indicate desired procedures for cadet appointments. NPRM published 41 FR 47944 (33 CFR pt. 40).	LTJG Marshall, 202-426-9264	FR August 1978.
Oil/Water Separator (docket No. CGD 76-088a).	Would establish approval procedures and specifications for oil-water separators, cargo and bilge monitors and bilge alarms for use on merchant vessels (46 CFR pt. 162).	Mr. L. Martin, 202-426-1445	Do.
Tank Vessel Regulations, (docket No. 76-088b).	Proposed requirements for installation and use of oil-water separator (33 CFR pt. 157).	.....do	FR October 1978.
Deepwater Port Safety Zone Regulation (docket No. CGD 76-096).	Would establish regulations for safety zones in the vicinity of deep water ports (33 CFR pt. 150).	Mr. F. Martin, 202-426-2606	NPRM September 1978.
Review: Lights on Barges (docket No. CGD 76-109).	Would extend requirements for flashing yellow lights at heads of tows to all inland waters (33 CFR 80.16).	Mr. W. McGovern, 202-426-4958	Do.
Review: Revision to subch. N (docket No. CGD 76-125).	Proposed general revisions to the subch. N, artificial islands and fixed structures on the Outer Continental Shelf (33 CFR pt. 140).	CDR Cronk, 202-426-5160	Do.
Review: Applicability of Western Rivers/Inland Rules (Chief Counsel's interpretive rules) (docket No. CGD 76-129).	Would define where the inland and western rivers rules apply on the Port Allen-Morgan City alternate and landside routes (33 CFR 80.04 and 33 CFR 95.02).	Mr. W. McGovern, 202-426-4958	FR August 1978.
Review: Approval Procedures—Shapes (docket No. CGD 76-131).	Would prescribe approval procedures for the manufacture of day shapes required by the 72 COLREGS (33 CFR pt. 87).	.....do	NPRM November 1978.
Review: Approval Procedures Whistles (docket No. CGD 76-132).	Would prescribe approval procedures for the manufacture of whistles required by the 72 COLREGS (33 CFR pt. 87).	.....do	Do.
Review: Amendments to Vessel Numbering Requirements (docket No. CGD 76-155).	Would make minor changes to the vessel numbering and accident reporting requirements to make them more consistent and efficient (33 CFR pts. 173, 174).	LT Gauthier, 202-426-4176	FR September 1978.
Review: Certification Expiration Date Stickers for Small Passenger Vessels (docket No. CGD 76-162).	Would inform passengers of expired approvals for small passenger vessels. FR published July 1978 (43 FR 30771) (46 CFR pt. 176).	Mr. J. Crawford, 202-472-7964	Action complete.
Review: Casualty Reporting (docket No. 76-170).	Would update the regulation by changing the monetary and other damage criteria (46 CFR 4.05).	CAPT Hampton, 202-472-7964	NPRM September 1978.
Review: Licensing of Deck Officers (docket No. CGD 76-173).	Proposed general revision and updating of licensing requirements for deck and engineer officers to include provision of the Intergovernmental Maritime Consultative Organization conference on standard of training and watchkeeping (46 CFR 10.05).	LCDR Norman, 202-426-2240	NPRM April 1979.
Review: Licensing of Engineering Officers (docket No. CGD 76-174).	Proposed revision and updating of licensing requirements for deck and engineer officers to include provision of the Intergovernmental Maritime Consultative Organization Conference (46 CFR 10.10).	.....do	NPRM December 1978.
Visual Distress Signals for Boats (docket No. CGD 76-183).	Would require visual distress signals to be carried on boats when operating on coastal waters and on the high seas. NPRM published 43 FR 15118 (33 CFR pt. 175).	LT Gauthier, 202-426-4176	FR December 1978.
Visual Distress Signals for Boats (docket No. CGD 76-183a).	Would establish approval specifications for certain new visual distress signals to be required in CGD 76-183 (above entry) (33 CFR pt. 175 and 46 CFR pt. 160).	.....do	NPRM September 1978.
Review: Use of Dangerous Articles as Ships' Stores and Supplies on Board Vessels (docket No. CGD 76-191).	Proposed storage and labeling requirements (46 CFR pt. 147)	Mr. J. McAnulty, 202-426-1587	NPRM December 1978.
Review: Radar Observer Endorsement for Personnel (docket No. CGD 76-193a).	Would require specialized training in use of radar equipment. This will be a supplemental notice based on a document published earlier (46 CFR pt. 10).	CDR Hess, 202-426-2251	NPRM August 1978.
Review: Reexamination Procedures for Unlicensed Ratings (docket No. CGD 76-203).	Would eliminate confusion about reexamination procedures (46 CFR pt. 12).	CDR Hess, 202-426-1577	FR September 1978.
Review: Shipboard Fumigation Standards (docket No. CGD 76-206).	Proposed operational requirements for fumigation procedures on vessels (46 CFR pt. 147A).	LT Norris, 202-426-1577	NPRM August 1978.
Review: Exemption for Cargo Vessels in Alaska Serving Remote Villages, (docket No. CGD 76-223).	Would allow special uses for specific vessels serving in the Alaskan trade (46 CFR pts. 6, 30, 42, 43, 70, 90, and 151; 33 CFR pt. 1).	LCDR Sampson, 202-426-2183	NPRM October 1978.
Requirement to Stop to Permit Boarding (docket No. CGD 76-232).	Would require boat operations to stop when ordered to do so by Coast Guard boarding officer (33 CFR pt. 177).	ENS Strickland, 202-426-4176	NPRM August 1978.
Review: Administrative Amendment to Delete Incorrect References and Add New Proper Reference (docket No. CGD 77-014).	Would revise incorrect reference in the code of Federal Regulations (46 CFR pt. 2).	LT Rock, 202-426-2183	FR August 1978.
Second Radar and Withdraws Collision Avoidance Radar (docket No. 77-016).	Would require second radar on large vessels. FR published July 1978 (43 FR 32112) (33 CFR pt. 164).	Mr. F. Schwer, 202-426-4958	Action complete.

U.S. COAST GUARD—Continued
NONSIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Review: Marine Safety Investigations (docket No. CGD 77-018).	Would implement investigation authority under Ports and Waterways Safety Act (33 CFR pt. 168).	LCDR Bonekemper, 202-426-1927	NPRM August 1978.
Ocean Dumping Surveillance Equipment Requirements (new part) (docket No. CGD 77-029).	Would establish equipment requirements to conduct surveillance to prevent unlawful dumping of material into ocean waters (33 CFR pt. 158).	LT Voyik 202-426-9573	Do.
Casualty Reporting Regulations Elimination of Dual Reporting Requirements (docket No. CGD 77-036).	Would eliminate a duplicative report FR issued June 1976 (43 FR 25820) (46 CFR pt. 4).	LT Regalbuto, 202-426-1445	Action complete.
Review: Suspension and Revocation Proceedings—Consolidation of Regulations (docket No. CGD 77-037).	Would combine disparate regulations into a unified whole (46 CFR pts. 1 and 5).	.....do	FR September 1978.
Review: Semiportable Fire Extinguishers (docket No. 77-039).	Would amend specification to allow approval of wheeled units for use on stable platforms (46 CFR 162.039).	Mr. F. Thompson, 202-426-2174	NPRM August 1978.
Review: Manning of Uninspected Towing Vessels (docket No. CGD 77-062).	Would clarify the applicability of the three watch system to towing vessels (46 CFR pt. 157).	CDR Pensom, 202-426-2240	NPRM September 1978.
Review: Designation of Oceanographic Vessels (docket No. CGD 77-081).	Would delegate means of designating an oceangraphic research vessel to officers in charge, marine inspection (OCMI) (46 CFR pt. 188).	.....do	NPRM August 1978.
Review: Amendment to Clarify (docket No. CGD 77-083).	Editorial correction (46 CFR 157.15.5; 46 CFR pt. 157)	.....do	FR October 1978.
Operational Specification for Radar (docket No. CGD 77-085).	Would develop specifications for radar systems on vessels over 1,600 gross tons (33 CFR pt. 164).	Mr. W. McGovern, 202-426-4958	NPRM December 1978.
VTS New York, N.Y. (docket No. CGD 77-087).	Would establish regulations for vessel traffic service in New York Harbor (33 CFR pt. 161).	Mr. F. Schwer, 202-426-4958	FR December 1978.
Realignment of CCGD12 COTP/OCMU Zones (docket No. CGD 77-088).	Would realign captain of the ports/officer in charge, marine inspection zones in 12th Coast Guard district. FR issued June 1978 (43 FR 25955) (33 CFR 3.60).	Mr. Molessa, 202-426-4958	Action complete.
Requirement for First Purchaser List Kept by Boat Dealers (docket No. CGD 77-116).	Would require boat dealers to assist in creating a list of retail purchasers so manufacturers could send notice to alert of safety defects (33 CFR pt. 179).	CDR Greenough, 202-426-1757	NPRM August 1978.
Review: Optional Numbering Requirements (docket No. CGD 77-117).	Would make certain vessel numbering requirements applicable to States optional for the States (33 CFR pts. 173 and 174).	LT Gauthier 202-426-4176	NPRM September 1978.
Numbering Requirements for Leased Vessel (docket No. CGD 77-117a).	Would increase to 7 days the period during which owner of a based vessel can keep the certificate of number. FR issued June 1978 (43 FR 17940) (33 CFR pt. 173).	.....do	Action complete.
Review: Waterfront Facilities (docket No. CGD 77-128).	Would revise waterfront facility regulations by consolidating and updating general regulations. ANPRM 43 FR 15108 (33 CFR pt. 126).	LCDR Bonekemper, 202-426-1927	NPRM June 1979.
Review: Amendments to Alternative Compliance (docket No. CGD 77-136).	Would provide editorial improvement and clarification of existing regulations (33 CFR pt. 87).	Mr. W. McGovern, 202-426-4958	FR December 1978.
Review: Barge Loadline Exemptions (docket No. CGD 77-135).	Would provide exemption for river barges operating on waters between Chicago and Burns Harbor and between St. Marks and Carabelle (46 CFR pt. 42).	Mr. D. Ewing, 202-426-2187	NPRM September 1978.
Specification for Flotation Materials (docket No. CGD 77-145).	Would establish performance specification for foam flotation material in boats to resist fuel and solvents (33 CFR pt. 183).	Mr. L. Cranholm, 202-426-4027	FR August 1978.
Review: Acceptance of ASME, U, or UM stamped class I, II, and III pressure vessels (docket No. CGD 77-147).	Would accept pressure vessels bearing the ASME "U" or "UM" stamp without U.S. Coast Guard inspection (46 CFR pt. 54).	Mr. H. Hime, 202-426-2160	NPRM September 1978.
Review: Amendments to Customs Regulations for Boats (docket No. CGD 77-157).	Would amend the joint Treasury-Coast Guard Customs regulations for imported boats. Minor revision to improve administrations of the regulation (19 CFR pt. 12).	ENS Ziegenfuss, 202-426-1757	Do.
Damage Stability Information on Cargo Ships (docket No. CGD 77-161).	Would require masters of vessels to have damage stability information on board (46 CFR pt. 93).	LTJG McKay/ Mr. J. Howell, 202-426-2187	ANPRM October 1978.
Review: Appointment to Officer Status (docket No. CGD 77-165).	Would reflect changing requirements for commissioning licensed officers of the Merchant Marine (33 CFR pt. 33).	LCDR Zawadzki 202-426-0935	NPRM September 1978.
Electronic Navigation Equipment (docket No. CGD 77-168).	Would require Loran-C or alternative system on all vessels 1600 gross tons and greater (33 CFR pt. 164).	Mr. F. Schwer, 202-426-4958	Supplemental NPRM October 1978.
Review: Establishment of Second-Class Ocean Operator (docket No. CGD 77-176).	Would establish qualification for a second operator on small passenger vessels required to have more than one ocean operator on board. NPRM published 43 FR 12218 (46 CFR pts. 157, 186, and 187).	CDR Pensom, 202-426-2240	FR October 1978.
Written Warning for Violation of Marine Sanitation Device Regulations (docket No. CGD 77-182).	Would inform the public of CG policy of issuing warnings for first time violations of marine sanitation device regulations FR issued May 1978 (43 FR 22657) (33 CFR pt. 1).	LT Welsh, 202-426-4176	Action complete.
Review: Amend Navigation Safety Regulations (docket No. CGD 77-183).	Would relax some navigation requirements for Great Lakes and provide editorial corrections (33 CFR pt. 164).	Mr. F. Schwer, 202-426-4958	NPRM August 1978.
Review: Exception for Standards for Raceboats (docket No. CGD 77-191).	Would exempt raceboats from standards meant for purely recreational boats. ANPRM published 43 FR 22411 (33 CFR pt. 183).	Mr. Gray, 202-426-4027	NPRM October 1978.
Designation of Confined or Congested Waters (docket No. CGD 77-196).	Would establish list of waters to be designated as "confined or congested"—in accordance with navigation safety regulations (33 CFR pt. 164).	Mr. C. Liana, 202-426-4958	NPRM September 1978.
Review: Second Class Operators for Towing Vessels (docket No. CGD 77-204).	Would allow for able seaman service on ocean going vessels to be credited toward second class towboat license. NPRM published 43 FR 22653 (46 CFR pt. 10).	LCDR Norman, 202-426-2240	FR September 1978.
Delaware Bay Regulated Navigation Area (docket No. CGD 77-211).	Would establish equipment requirements and operating restrictions on vessels transiting Delaware Bay and River (33 CFR pt. 161).	Mr. D. Ziegfeld, 202-426-1934	FR December 1978.
Notification of Tank Vessel Ownership Information and Name (docket No. CGD 77-213).	Would require tank vessel owners/operators to advise USCG of identity and ownership of tank vessels entering navigable waters of U.S. NPRM published 43 FR 15583 (33 CFR pt. 161).	LCDR Bonekemper, 202-426-1927	FR October 1978.

V 43 / 184 SEP 21 1978 V

U.S. COAST GUARD—Continued

NONSIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Review: Inland Waterways Navigation Regulations (docket No. CGD 77-217).	Would provide editorial changes to certain regulations previously issued by the Corps of Engineers and transferred to the Coast Guard under the Ports and Waterways Safety Act of 1972. (33 CFR pt. 162).	ENS Molessa, 202-426-4958	FR September 1978.
Review: Oxygen Resuscitators on Chemical Tankers (docket No. CGD 77-222).	Would clarify what is an acceptable resuscitator (46 CFR pt. 153).	Mr. R. Query, 202-426-1217	Do.
Review: Port Security Regulations Update (docket No. CGD 77-228).	Would eliminate outdated material in port security regulations (33 CFR pts. 6, 121, 124, 125, and 127).	LTJG Dickman, 202-426-1927	FR August 1978.
Review: Halon 1301 fire Extinguishing Systems for Merchant Vessels (docket No. CGD 77-232).	Would allow Halon 1301 for specific types of installation (46 CFR 164.017).	Mr. R. Eberly, 202-426-2197	NPRM September 1978.
Navigation Lights for Small Vessels (docket No. CGD 77-233).	Would specify approval procedures and installation requirements for international rules navigation lights for small vessels (33 CFR pt. 89).	Mr. C. Llana, 202-426-4958	NPRM August 1978.
Administrative Change COTP/MIO LA-LB (docket No. CGD 77-234).	Would correct address of relocated Marine Inspection Office. FR issued May 1978 (43 FR 18553) (33 CFR 3.55).	Mr. Molessa, 202-426-4958	Action complete.
Review: Administrative Update COTP Areas (docket No. CGD 77-241).	Would make editorial changes to listing of certain captain of the port aareas (33 CFR pt. 3).	ENS Molessa, 202-426-4958	FR December 1978.
Review: Loran Position Transmitting Device (docket No. CGD 77-243).	Would amend Prince Williams Sound vessel traffic regulations to require loran position transmitting devices (33 CFR pt. 82).	Mr. F. Schwer, 202-426-4958	NPRM September 1978
Great Lakes Winter Navigation (docket No. CGD 77-246).	Would establish three regulated navigation areas for Great Lakes (33 CFR pt. 128).	Mr. D. Ziegfeld, 202-426-1934	NPRM August 1978.
Review: Safety Orientation for Passenger Vessels (docket No. CGD 78-009).	Would alert passengers to locations and use of safety devices. NPRM published 43 FR 28426 (46 CFR pts. 185 and 26).	LT Rock, 202-426-2183	FR December 1978.
PFD Thread Specifications (docket No. CGD 78-012).	Would amend personal flotation device specification to allow use of alternative threads in several seams. FR issued June 1978 (43 FR 27152) (46 CFR pt. 160).	Mr. F. Thompson, 202-426-2173	Action complete.
Great Lakes Pilotage Rate Increase (docket No. CGD 78-016).	Would increase U.S. pilotage rates by 10 percent, retroactive to Apr. 1, 1978, in all three pilotage districts, except the Welland Canal. FR issued June 1978 (43 FR 24996) (46 CFR pt. 401).	Mr. J. Hartke, 202-755-8683	Do.
Review: Waterfront Facilities Update (docket No. 78-023).	Would eliminate errors and outdated cross references in existing waterfront facilities regulations (33 CFR pt. 126).	LCDR Bonekemper, 202-426-1927	FR August 1978.
Requests for Temporary Documents (docket No. CGD 78-024, 78-24a).	Would allow a merchant seaman to request a temporary document pending an appeal of a suspension to the commandant, and publish a list of administrative law judges (46 CFR pts. 5 and 7).	LCDR O'Pezio, 202-426-2215	Do.
Removable Hazardous Substances, Pollution Prevention for Vessels and Marine Transfer Facilities (docket No. CGD 78-032).	Would establish regulations for pollution prevention for removable hazardous substances for vessels and marine transfer facilities (33 CFR pts. 154, 155, and 156).	LCDR Busavage, 202-426-9578	ANPRM September 1978
Review: Amendment to Boat Capacity labels (docket No. CGD 78-034).	Would make information in safe loading capacity labels clearer and easier to use (33 CFR pt. 183).	Mr. L. Granholm, 202-426-4027	NPRM September 1978.
Review: Safety Standards for Boat Gasoline Fuel Systems (docket No. CGD 78-036).	Would extend application dates of certain parts of regulation, to permit time for equipment changes (33 CFR pt. 183).	.....do.....	FR August 1978.
LNG Facility Regulations (docket No. CGD 78-038).	Would establish Liquified natural gas waterfront facility safety regulations in accordance with memorandum of understanding between USCG and MTB (33 CFR pt. 126).	LCDR Bonekemper, 202-426-1927	ANPRM August 1978.
Oil and Nonremovable Hazardous Substances, Pollution Prevention Vessels and Marine Transfer Facilities (docket No. CGD 78-039).	Would establish regulations for pollution prevention for nonremovable hazardous substances for vessels and marine transfer facilities (33 CFR pts. 154, 155, and 156).	LCDR Busavage, 202-426-9578	ANPRM September 1978
Review: COTP Houston, Editorial Changes (docket No. CGD 78-051).	Would make an editorial change to the description of the Captain of the Port Houston area (33 CFR pt. 163).	ENS Molessa, 202-426-4958	FR September 1978.
Tows Navigating the Pass Manchac Bridge, La. (docket No. CGD 78-050).	Would provide for regulation of tows navigating the waters in the vicinity of the Pass Monchac Bridge, La. (33 CFR pt. 162).	.....do.....	NPRM November 1978.
Review: COLREGS 72, Demarcation Line (docket No. CGD 78-052).	Would change regulations to provide for amendment to COLREGS 72 establishing demarcation line in Florida (33 CFR pt. 82).	.....do.....	NPRM October 1978.
Review: Safety Standards for Boat Electrical Systems (docket No. CGD 78-070).	Extends application date for ignition protection requirements (33 CFR pt. 183).	Mr. L. Granholm, 202-426-4027	FR August 1978.
Review: Appointment of the Permanent Commissioned Teaching Staff (docket No. CGD 78-077).	Would delete regulatory language to conform to the admissions process desired by the Superintendent, U.S. Coast Guard Academy (33 CFR pts. 33, 40).	LT Lee, 202-426-9866	FR September 1978.
Crane Operator Qualifications for Fixed Installations, Industrial Vessels and Mobile Drilling Units on the Outer Continental Shelf.	Would develop required qualifications for crane operators employed on the Outer Continental Shelf (33 CFR pts. 148 and 46 CFR pt. 92).	CDR Cronk, 202-472-5160	ANPRM December 1978.
Deepwater Port Liability Fund Requirements.	Would implement provisions of the Deepwater Port Act of 1974 to establish and administer liability limits and compensation relative to accidental oil spills at deepwater port sites (33 CFR pt. 150).	Mr. F. Martin, 202-426-2606	ANPRM March 1979.

ROUTINE AND FREQUENT NONSIGNIFICANT REGULATIONS

Title	Total	Contact	Decision date
Safety Security Zone Regulations	10	LCDR R. Frank, 202-426-1927	June 1978 to June 1979.
Anchorage Area Regulations	16	LCDR H. Snow, 202-426-1940	Do.

U.S. COAST GUARD—Continued

ROUTINE AND FREQUENT NONSIGNIFICANT REGULATIONS—continued

Title	Total	Contact	Decision date
Drawbridge Regulations	90	Mr. F. Teuton, 202-426-1380	Do.

FEDERAL AVIATION ADMINISTRATION

SIGNIFICANT REGULATIONS

Title	Summary	Contact	Decision date
Sec. 30 Regulations—Civil Rights (docket No. 16419).	A. *Description:* Develop regulations to implement sec. 30 of the Airport and Airway Development Act of 1970, as amended by the Airport and Airway Development Act Amendments of 1976 (Act). The regulations would assure that no person is excluded on the grounds of race, creed, color, national origin, or sex from participating in any project for airport development, airport master planning, or airport system planning conducted with or benefiting from funds received from a grant made under the Act. B. *Why significant:* The proposed regulations implementing sec. 30 are considered significant inasmuch as there is substantial public interest and they involve important Department policy. C. *Regulatory analysis:* Will not be required. D. *Need:* To assure that minorities and minority businesses are afforded full and equal opportunity with respect to employment contracting, and leasing of concessions on airports operated by aponsors receiving grants from airport development projects. E. *Legal basis:* Sec. 30 of the Airport and Airway Development Act of 1970 (49 U.S.C. 1730) and § 1.47(f)(1) of the regulations of the Office of the Secretary of Transportation (49 CFR 1.47(f)(1)). F. *Chronology:* The proposed regulations were set forth in a notice of proposed rulemaking (notice No. 77-1) on Jan. 13, 1977 (42 FR 2850). The regulations are proposed to be included in existing pt. 152 as new subpt. E—nondiscrimination in airport aid program. The public was invited to comment on the proposed rule by Mar. 14, 1977, which date was twice extended (to May 20, 1977), upon numerous requests from the public. G. *Citation:* 14 CFR pt. 152.	Paul Galis, 202-426-3831	FR December 1978.
Deletion of Three-Pointer Altimeter (docket No. 17151).	A. *Description:* Proposed revision to prohibit the use of three-pointer altimeters on all turbine engine powered airplanes. B. *Why significant:* This proposal is considered to be a significant regulation because it may generate substantial public interest and require considerable funds to be expended by owners/operators of turbine engine powered airplanes. C. *Regulatory analysis:* Will be required. D. *Need:* To evaluate recommended action of special air safety advisory groups that use of three-pointer altimeters on large turbine-powered airplanes be prohibited. E. *Legal basis:* Secs. 313(a), 601, and 604 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1424), sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c). F. *Chronology:* Prohibition of three-pointer altimeters from use in airplanes was first recommended by the special air safety advisory group at the completion of its survey of the cockpit environment in air carrier aircraft in 1975. Thereafter, the matter was researched and it was deemed necessary to solicit comments from interested persons. Accordingly, advance notice of proposed rulemaking (ANPRM) No. 77-18 was published in the FEDERAL REGISTER on Aug. 29, 1977 (42 FR 43408), with a comment closing date of Nov. 28, 1977. An evaluation of comments received in response to that ANPRM indicated that an NPRM should be issued. Accordingly, a notice of proposed rulemaking (NPRM) is being prepared. G. *Citation:* 14 CFR pts. 23, 25, 91, 121, and 135.	Joe Sullivan, 755-8716	NPRM November 1978.
Flammability Standard for Crewmember Uniforms (docket No. 14451).	A. *Description:* Proposed revision to establish flammability specifications for crewmember uniforms that will provide protection against heat and flame. B. *Why significant:* This proposal is considered significant rulemaking project due to substantial public interest and potential cost to airlines. C. *Regulatory analysis:* Will be required. D. *Need:* To establish basic flammability specifications for crewmember uniforms, since clothing now used is made of conventional fabrics which may be ignited under many of the emergency conditions that may result. E. *Legal basis:* Secs. 313(a), 601, and 604, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421(a), 1422), 6(c) DOT Act (49 U.S.C. 1655(c)). F. *Chronology:* Prior to April 1974, a number of informal conferences were held with members of the public including the Association of Flight Attendants (AFA), regarding flammability of flight attendant uniforms. A project was established to examine AFA claims regarding uniform flammability. National Bureau of Standards (NBS) Center for Fire Research was selected as	Joe Sullivan, 755-8715	NPRM December 1978.

	research contractor. An advance notice of proposed rulemaking (ANPRM) No. 75-13 was issued Mar. 16, 1975 (40 FR 11737) to solicit public information and comments. A follow-on contract was established with the NBS to evaluate comments and conduct further testing. Contract in effect March 1978. G. *Citation:* 14 CFR pt. 121.		
Parts Manufacturer Approvals (docket No. 17147).	A. *Description:* Proposes to revise the parts manufacturer approval application and reporting requirements and provisions related to showing identicalness of parts. B. *Why significant:* The proposed revision is considered to be significant because it is controversial. C. *Regulatory analysis:* Will not be required. D. *Need:* Differences of opinion exist with respect to the methods available for showing identicalness of parts. Also the parts manufacturer approval application and reporting requirements may be unnecessarily burdensome. E. *Legal basis:* Secs. 313(a), 601, and 608 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423). F. *Chronology:* Project No. 76-257-R was initiated Dec. 23, 1975. NPRM No. 77-19 published in the FEDERAL REGISTER (42 FR 43985). Comment period later reopened until Jan. 4, 1978 (NPRM No. 77-19A, 42 FR 61046), and again reopened until May 15, 1978 (NPRM No. 77-19B, 43 FR 15432). Portions of NPRM dealing with other subjects to be handled separately. G. *Citation:* 14 CFR pt. 21.	Joe Sullivan, 202-755-8716	FR March 1979.
Post Crash Fuel Fires (docket No. 12274).	A. *Description:* Proposed rulemaking would have established standards for fuel systems to prevent postcrash explosions or fires. B. *Why significant:* This was a significant proposal because it would have required all existing and newly manufactured turbine engine powered transport airplanes to have protective fuel systems installed by specified dates. The proposal has generated considerable public interest and controversy with respect to technological and economic impacts, and the adequacy of the proposals. C. *Regulatory analysis:* Will not be required. D. *Need:* To determine practicability and availability of aircraft systems and techniques for reducing the hazards of fuel system fires and explosions associated with survivable turbine powered transport category airplane accidents. E. *Legal basis:* Secs. 313(a), 601, 608, and 604, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423, and 1424), sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)). F. *Chronology:* A petition for rulemaking was received from aviation consumer action project (ACAP) in September 1977, to require installation and use of nitrogen inerting systems on transport category aircraft. NPRM 74-16 (39 FR 12260; Apr. 4, 1974) was issued in March 1974. NPRM 74-16A, issued in May 1974 (39 FR 13288; May 24, 1974). NPRM 77-16B, issued in April 1977 (42 FR 21202, Apr. 25, 1977). A public hearing was held in June 1978 on these NPRM's. The comment period on these notices closed in August 1978. The proposed regulations will be withdrawn in August 1971, pending further study by the agency and an advisory committee. G. *Citation:* 14 CFR pts. 25 and 121.	Joe Sullivan, 755-8716	Withdrawal August 1978.
Aircraft Wheels and Wheel-Brake Assemblies.	A. *Description:* The objective is to upgrade the requirements for wheels and brakes for small and transport airplanes. B. *Why significant:* This is a significant proposal due to substantial public interest because wheel and brake integrity is considered critical to the safety of rejected takeoffs. C. *Regulatory analysis:* Will not be required. D. *Need:* Service experience indicates a possible need to improve the standards applicable to aircraft wheels and wheel-brake assemblies. E. *Legal basis:* Secs. 313(a) and 601 of the Federal Aviation Act of 1958. (49 U.S.C. 1354(a) and 1421). F. *Chronology:* Project initiated Sept. 7, 1977, to develop a notice of proposed rulemaking. G. *Citation:* 14 CFR pts. 23, 25, and 37.	Joe Sullivan, 202-755-8716	NPRM September 1978.
Lithium Sulfur Dioxide Batteries	A. *Description:* Proposed airworthiness directive (AD) requiring removal of lithium sulfur dioxide (LiSO) batteries from all aircraft including those installed in emergency locater transmitters (ELT's), and companion technical standard order (TSO) prescribing standards for acceptable batteries. B. *Why significant:* Considered significant project due to considerable public interest. C. *Regulatory analysis:* Will be required. D. *Need:* Service experience indicates that current LiSO batteries are susceptible to a number of potentially dangerous problems. E. *Legal basis:* Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958. (49 U.S.C. 1354(a), 1421, and 1423). F. *Chronology:* Regional and headquarters team established July 1976, to write draft LiSO TSO. Draft completed December 1976. TSO updated August 1977. Proposed AD and TSO combined in one regulatory package December 1977. G. *Citation:* 14 CFR pts. 37 and 39.	Joe Sullivan, 202-755-8716	NPRM November 1978.

FEDERAL AVIATION ADMINISTRATION—Continued

SIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Compartment Interior Material Toxic Gas Emission (docket No. 14230).	A. *Description:* Project objective was to determine whether regulations should be amended to include requirements pertaining to toxic gas emission characteristics of compartment materials. B. *Why significant:* This was a significant proposal due to substantial public interest and because postmortem examination often indicated that the blood of accident victims contains lethal amounts of toxic gases emitted by burning materials. C. *Regulatory analysis:* Will not be required. D. *Need:* To determine need for standards governing the toxic gas emission characteristics of compartment interior materials used in transport category airplanes. E. *Legal basis:* Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423, and of sec. 6(c) of Department of Transportation Act (49 U.S.C. 1655(c)). F. *Chronology:* An advance notice of proposed rulemaking 74-38 was issued on Dec. 19, 1974 (39 FR 453044, Dec. 31, 1974). Public hearing on compartment materials was held Nov. 14-17, 1977. The proposed regulations will be withdrawn pending further study by the agency and an advisory committee. G. *Citation:* 14 CFR pt. 2.	Joe Sullivan, 755-8716	Withdrawal August 1978.
Aircraft Tires	A. *Description:* The objective of this project is to determine if the aircraft tire standards in the regulations should be upgraded, and if so, the details of the upgrading. B. *Why significant:* This is considered a significant project due to substantial public interest because tire integrity is considered critical to takeoff roll ground handling conditions. C. *Regulatory analysis:* Will not be required. D. *Need:* Service experience indicates a possible need to improve the standards applicable to aircraft tires. E. *Legal basis:* Secs. 313(a) and 601 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a) and 1421). F. *Chronology:* Project initiated November 1977. G. *Citation:* 14 CFR pt. 37.167.	Joe Sullivan, 202-755-8716	NPRM December 1978.
Air Ambulance Standards (docket No. 17046).	A. *Description:* Proposed standards for air transportation of persons requiring medical attention or care enroute. B. *Why significant:* The proposed regulation was considered significant because there is substantial public interest in it. C. *Regulatory analysis:* Will not be required. D. *Need:* To insure that the medical needs of persons requiring medical attention while in flight are met without compromising safety. E. *Legal basis:* Secs. 313(a), 601, and 604, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1424); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)). F. *Chronology:* DOT working group formed to develop standards during December 1974, two public hearings held in July 1975, and an ANPRM 77-14 (42 FR 37825, July 25, 1977) was issued in July 1977. Based on the comments received, the FAA has reconsidered this matter and the proposed regulation will be withdrawn. G. *Citation:* 14 CFR pt. 135.	Joe Sullivan, 755-8716	Withdrawal August 1978.
Review: FAR Pt. 91 Upgrade	A. *Description:* To upgrade standards applicable to the operation of certain aircraft, when not operated as an air carrier. B. *Why significant:* This is considered significant due to substantial public interest in the constraints to be proposed for safer operations of large aircraft under pt. 91. C. *Regulatory analysis:* Will not be required. D. *Need:* Experience indicates that these proposed regulations are necessary to replace the current regulations with clearer regulations that are based upon safety, rather than economic criteria. E. *Legal basis:* Secs. 313(a) and 601-610 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a) and 1421-1430) and sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)). F. *Chronology:* Project approved in March 1978. G. *Citation:* 14 CFR pt. 91.	Joe Sullivan, 775-8716	NPRM October 1978.
Aircraft Cabin Ozone Contamination (docket No. 16854).	A. *Description:* Proposed revision to limit the concentration of high altitude ozone allowed in an aircraft cabin. B. *Why significant:* The notice of proposed rulemaking is considered a significant project because it involves an area of substantial public interest and will be controversial. C. *Regulatory analysis:* Will not be required. D. *Need:* To alleviate physical discomfort to crewmembers and passengers, due to ozone gas, or high altitude flights. E. *Legal basis:* Secs. 313, 601, 603, and 604, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354, 1421, 1423, and 1424); and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)). F. *Chronology:* In winter of 1976, FAA became aware of crew and passenger complaints of discomfort on high altitude flights and in March 1977, ozone gas was believed to be probable cause. An Advisory Circular, No. 00-52, Ozone Irritation During High Altitude Flight, was published July 21, 1977, defining ozone, its causes, and its symptoms. On May 26, 1977, FAA initiated a project to study the short- and long-term health effects of exposure to high altitude ozone. An ANPRM was issued on Oct. 6, 1977 (42 FR 54427), seeking information from all interested persons. A notice of proposed rulemaking is being developed. G. *Citation:* 14 CFR pts. 25 and 121.	Joe Sullivan, 775-8716	NPRM September 1978.

FEDERAL AVIATION ADMINISTRATION—Continued
SIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Review: Operations Review Notice No. 78-3 (docket No. 17669).	A. *Description:* Proposes to revise the flight and duty time limitations and rest requirements for flight crewmembers used by domestic, flag, and supplemental air carriers, commercial operators of large aircraft, and air travel clubs. B. *Why significant:* This proposal is considered a significant regulation because of the controversy associated with the complexity and enforcement problems of the current rules. C. *Regulatory analysis:* Will not be required. D. *Need:* This proposal is needed to eliminate the complexity of the current regulations and to assure that flight and duty time limitations are based upon today's operating environment. E. *Legal basis:* Secs. 313(a), 601, and 604 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1424) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)). F. *Chronology:* The proposals contained in this notice are based on related proposals discussed at the December 1975, Operations Review Conference. The notice was published in the FEDERAL REGISTER on Feb. 27, 1978, with a closing date of May 30, 1978, for public comments. Initial comment period was extended to July 14, 1978, with reply comments allowed on or before Aug. 18, 1978 (43 FR 22540, May 25, 1978). G. *Citation:* 14 CFR pts. 121 and 123.	Joe Sullivan, 755-8716	FR May 1979.
Review: Operations Review Notice No. 13.	A. *Description:* Proposes to establish regulations for flight and duty time limitations and rest requirements for flight attendants used by domestic, flag, and supplemental air carriers, commercial operators of large aircraft, and air travel clubs. B. *Why significant:* This proposal is considered a significant regulation because there is substantial public interest in it. C. *Regulatory analysis:* Will not be required. D. *Need:* Because flight attendants perform important duties relating to the safety of flight, flight and duty time limitations and rest requirements are necessary to prevent excessive fatigue from adversely affecting the performance of those duties. E. *Legal basis:* Secs. 313(a), 601, and 604 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1424) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)). F. *Chronology:* The proposals contained in this notice are based on related proposals discussed at the December 1975, Operations Review Conference. G. *Citation:* 14 CFR pts. 121 and 123.	Joe Sullivan, 755-8716	NPRM December 1978.
Review: Part 135 Regulatory review (docket No. 16097).	A. *Description:* Proposes to substantially revise the requirements for operations conducted by air taxi and commercial operators of small aircraft to provide a higher level of safety. B. *Why significant:* This amendment is considered a significant regulation because of the costs and the controversy associated with the general upgrading of the current rules. C. *Regulatory analysis:* Will not be required. D. *Need:* The amendments are necessary because there has been considerable growth in the air taxi industry in recent years and many operators have requested that they be allowed to operate large and more complex aircraft. E. *Legal basis:* Secs. 313(a), 314(a), 601 through 610, and 1102 of the Federal Aviation Act (49 U.S.C. 1354(a), 1355(a), 1421 through 1430, and 1502); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)). F. *Chronology:* This amendment resulted from proposals discussed at the November 1976, pt. 135 Regulatory Review Conference. Notice 77-17 was published in the FEDERAL REGISTER on Aug. 29, 1977 (42 FR 43490) with a closing date of Nov. 28, 1977, for public comment. Comments have been analyzed and evaluated and a draft amendment is being prepared. G. *Citation:* 14 CFR pt. 135.	Joe Sullivan, 755-8716	FR September 1978.
Review: Pt. 135 Regulatory Review Program: Additional Airworthiness Requirements for 10 or More Passenger Small Airplanes Over 12,500 Pounds (docket No. 17325).	A. *Description:* This proposal would amend the airworthiness standards for certain turbopropeller powered multiengine small airplanes to allow their certification and operation at weights above 12,500 lb. B. *Why significant:* This proposal is considered significant because it will generate substantial public interest since it represents a departure from a long-standing line of demarcation between "large" and "small" airplanes, insofar as airworthiness standards and operating rules are concerned. C. *Regulatory analysis:* Will not be required. D. *Need:* The need for the regulation is related to providing for more efficient aircraft utilization. E. *Legal basis:* Secs. 313(a), 601, 603, and 604 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423, and 1424). F. *Chronology:* Advance notice 77-25 (40 FR 56702; Oct. 27, 1977) dealt with the general question of the need for a new FAR airworthiness part for use by commuter air carriers. The maximum weight issue is one of many that are involved. G. *Citation:* 14 CFR pts. 21, 23, and 135.	Joe Sullivan, 202-755-8714	NPRM August 1978.
Review: Airworthiness Review Amendment No. 8: Miscellaneous and Procedural Amendments (docket No. 14779).	A. *Description:* Proposed amendments to improve and update the airworthiness standards that apply to the type certification of aircraft, engines, propellers, related operating and maintenance rules, and procedural requirements.	Joe Sullivan, 202-755-8716	FR February 1978.

SIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
	B. *Why significant:* This group of amendments is considered significant because it includes a number of costly and controversial amendments (dealing generally with cabin safety) that require modification of aircraft in service. C. *Regulatory analysis:* Will not be required. D. *Need:* The need to update and improve the Federal aviation regulations as covered in this group of amendments, was emphasized at public conferences held in conjunction with the airworthiness review program. E. *Legal basis:* Secs. 307, 313(a), 502, 601, 603, 604, and 605 of the Federal Aviation Act of 1958 (49 U.S.C. 1348, 1354(a), 1402, 1421, 1423, 1424, and 1425). F. *Chronology:* Notice 75-31 (40 FR 29140) appeared in the FEDERAL REGISTER on July 11, 1975. The final amendment is being prepared. G. *Citation:* 14 CFR pts. 1, 21, 23, 25, 27, 29, 31, 33, 35, 43, 45, 91, and 121.		
Review: Security of Persons and Property in Air Transportation (docket No. 16245).	A. *Description:* Proposed revision of regulations to update, clarify, and add provisions to the regulations to provide more effective security for persons and property in air transportation. B. *Why significant:* May involve substantial public interest or controversy. C. *Regulatory analysis:* Will not be required. D. *Need:* The amendment is intended to update and clarify airport security regulations, and to provide more effective protection of persons and property in air transportation or intrastate air transportation against acts of criminal violence and aircraft piracy. E. *Legal basis:* Secs. 313, 315, 316, and 601, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354, 1356, 1357, and 1421); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)). F. *Chronology:* Started June 30, 1975. NPRM issued June 1977 (42 FR 30766; June 16, 1977). G. *Citation:* 14 CFR pt. 107.	Richard A. Noble, 202-426-8768	FR August 1978.
SST Noise Rule (docket No. 15376)	A. *Description:* The rule—(1) requires all SST's except Concordes with flight time before Jan. 1, 1980, to comply with the stage 2 noise limits (an airplane that has been shown to comply with noise limits originally applied to subsonic jets) of 14 CFR pt. 36 in order to operate in the United States; (2) prohibits modifications of current SST types that increase their noise; (3) places operational restrictions on SST's that do not comply with the stage 2 noise limits of pt. 36; and (4) adds procedures adapting the flight test conditions and noise limits of pt. 36 to SST's. A proposal to improve protection of the United States from sonic boom is also included. B. *Why significant:* The rule is considered major because of the high degree of public concern regarding SST noise and the international implications of SST operating limits. C. *Regulatory analysis:* Not required. D. *Need:* These provisions respond to the public need for the control of sonic boom and SST in accordance with sec. 611 of the Federal Aviation Act of 1958 as amended by the Noise Control Act of 1972. E. *Legal basis:* Secs. 307, 313(a), 601(c), 603, 611, Federal Aviation Act of 1958, as amended (49 U.S.C. secs. 1348, 1354(a), 1421(a), 1423, and 1431); sec. 6(c), Department of Transportation Act (49 U.S.C. sec. 1655(c); Title I, National Environmental Policy Act of 1969 (42 U.S.C. sec. 4321 et seq.); Executive Order 11524, Mar. 5, 1970. F. *Chronology:* ANPRM 70-33 issued Aug. 4, 1970, requested public input on the general pattern of SST noise. The NPRM was, in part, a response to an Environmental Defense Fund suit on the subject. Notice 75-15, issued Mar. 25, 1975, contained EPA proposals, including 8 options to contest SST Noise. Two public hearings (Los Angeles and Washington) were held in May 1975. Notice 76-1 issued Feb. 6, 1976, contained a further EPA proposal clarifying those in Notice No. 75-15. A public hearing was held in Washington in April 1976. Notice 77-23, issued Oct. 11, 1977, added further FAA proposals to the EPA proposals. Public hearings were held in Hawaii (January 1978) and Los Angeles (February 1978). Final rule was issued on June 26, 1978 (43 FR 28406). G. *Citation:* 14 CFR pts. 21, 36, and 91.	James Densmore, 202-755-9468	Action complete.
Review: Airport Aid Program	A. *Description:* Proposed amendment to simplify and clarify requirements for receipt of aid and to implement certain provisions of the Airport and Airway Development Act Amendments of 1976. B. *Why significant:* This notice of proposed rulemaking is considered a major project because it might involve an area of substantial public interest and controversy. C. *Regulatory analysis:* Will be required. D. *Need:* To update airport aid requirements in accordance with Airport and Airway Development Act Amendments. E. *Legal basis:* Airport and Airway Development Act of 1970 (49 U.S.C. 1701). F. *Chronology:* Initiated as a result of final report and recommendations of Airports Task Group, Mar. 10, 1975. G. *Citation:* 14 CFR pt. 152.	Paul Galis, 202-426-3831	NPRM November 1978.

FEDERAL AVIATION ADMINISTRATION—Continued

SIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Administrative User Charges	A. *Description:* This notice proposes to revise existing FAA fees for aircraft registration and for recording conveyances affecting title to, or any interest in, aircraft. In addition, it proposes to establish fees for FAA certification of pilots, instructors, and other airmen, including medical certification. It is intended that this proposed rule will provide for the recovery of expenses that the FAA incurs in these activities. The proposed action would be in accordance with the sense of the Congress. B. *Why significant:* This proposal is considered a significant project because it involves an area of substantial public interest and controversy. C. *Regulatory analysis:* Will not be required. D. *Need:* This proposal will provide for the recovery of expenses that the FAA incurs in these activities and is in accordance with the sense of Congress. E. *Legal basis:* Secs. 313, 503, 505, 601, and 602, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354, 1401, 1403, 1421, and 1422); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c), Title V; Independent Offices Appropriation Act of 1952 (31 U.S.C. 483(a)). F. *Chronology:* NPRM published on April 20 (43 FR 16924). Closing date for comments is July 19, 1978. G. *Citation:* 14 CFR pts. 47, 49, 61, 63, 65, 67, 143, and 187.	John M. Rodgers, 426-3420	FR October 1978.
Occupational Safety and Health Regulations.	A. *Description:* The rule as proposed would require inclusion in air carrier manuals of standards, instructions, and information acceptable to the Administrator, which provides protection for occupational health and safety of the certificate holder's employees in the performance of those duties necessary to provide adequately for safety in air commerce. B. *Why significant:* The rule is considered significant because it concerns a matter on which there is substantial public interest or controversy and could have a significant impact on other administrations, other parts of the Department (DOT) and other Federal Agencies (DOL). C. *Regulatory analysis:* Will be required. D. *Need:* To develop regulations concerning employee health and safety. E. *Legal basis:* Secs. 313(a), 601, 603, 604, and 605 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423, 1424, and 1425); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)). F. *Chronology:* The OSHA Act of 1970 was enacted by Congress to assure safe and healthful working conditions for working men and women. Sec. 4(b)(1) of the OSHA Act excludes employees working conditions which are covered by other Federal agencies under statutory authority. On July 7, 1975, the FAA issued "Occupational Safety and Health Standards for Aircraft Crewmembers," Guidance Information (40 FR 29114, July 10, 1975). G. *Citation:* 14 CFR pts. 121, 127, and 135.	Joe Sullivan, 202-755-8716	NPRM January 1979.
Wind Shear	A. *Description:* Proposed revision to require all large passenger-carrying aircraft be equipped with a device that will display wind shear information to the pilots. B. *Why significant:* The advance notice of proposed rulemaking is considered a significant project because it will generate substantial public interest and will be controversial. C. *Regulatory analysis:* Will be required. D. *Need:* As a result of several accidents involving wind shear the FAA believes it is necessary to identify equipment that will enable pilots to identify low level wind shear conditions. E. *Legal basis:* Secs. 313(a), 601 and 604 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1424), and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)). F. *Chronology:* In 1975, the FAA began a 2 year effort to develop a wind shear program. FAA began work to develop a wind shear warning and pilot aiding devices which has achieved encouraged results. G. *Citation:* 14 CFR pt. 121.	Joe Sullivan, 426-8716	ANPRM July 1979.

FEDERAL AVIATION ADMINISTRATION

NONSIGNIFICANT REGULATIONS

Third Attitude Gyro	Proposed amendment to add flight instrument requirement for all multiengine turbojet-powered airplanes not already required to have a third gyroscopic attitude instrument independently powered in case of total aircraft electrical failure (14 CFR pts. 23, 25, 91, and 121).	Joe Sullivan, 202-755-8716	NPRM January 1979.
Export Airworthiness Approvals (docket No. 17147).	Proposed amendment (1) to provide for the issuance of export certificates of airworthiness for unassembled normal category rotorcraft, and (2) to provide for the issuance of export airworthiness approvals for aeronautical products that do not meet certain requirements if the importing country agrees to accept the products in such condition (14 CFR pt. 21).	do	FR December 1978.
Review: Aircraft Engine Regulatory Notice (docket No. 16919).	Proposed amendment to resolve a number of regulatory issues raised by engine manufacturers and to update those standards (14 CFR pts. 23, 25, 27, 29, and 33).	do	NPRM June 1979.

FEDERAL AVIATION ADMINISTRATION—Continued

NONSIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Delegation of authority	Proposed amendment to delegate certain authority of the Administrator to officials within the FAA (14 CFR pt. 11).	Howard A. Bartnick, 202-426-3493	FR August 1979.
General Operating Flight Rules—Landing Minimum.	Proposed rule to clarify prescribed conditions for approach and landing under specified weather conditions (14 CFR pts. 91 and 121).	Joe Sullivan, 202-755-8716	NPRM September 1978.
Triennial Aircraft Registration Report.	Proposed rule to establish a requirement that holders of a certificate of aircraft registration file a report with the FAA aircraft registry on the current eligibility of the aircraft for registration, whenever 3 years have elapsed since the registry has received information indicating registration eligibility (14 CFR pt. 47).	Virginia Swimmer, 405-686-2264	NPRM August 1978.
Controlled Visual Flight	Proposed revision to provide a means of improving ATC separation of VFR and IFR aircraft above 12,500 ft (14 CFR pt. 91).	Maurice Taylor, 202-426-3128	ANPRM April 1979.
Airport Noise Regulatory (docket No. 16279).	EPA proposed revision to require airport noise certification as a condition for ADAP funding (14 CFR pt. 91).	Jim Densmore, 202-755-9468	FR April 1979.
Review: Operations Review Notice No. 11.	Proposed revision to update and improve the rules applicable to mechanic certification, repair stations and aircraft equipment (14 CFR pts. 121, 145, and 183).	Joe Sullivan, 202-755-8716	NPRM October 1978.
Review: Operations Review Notice No. 12.	Proposed extensive revisions to update and improve regulations applicable to aircraft maintenance, preventive maintenance, rebuilding, and alteration of aircraft (14 CFR pts. 43 and 91).	do	NPRM November 1978.
Review: Operations Review Notice No. 14.	Proposed miscellaneous revisions and other editorial and clarifying changes to parts (14 CFR pts. 43, 63, 65, 91, 105, 121, 123, 127, 143, 145, and 147).	do	NPRM February 1979.
Airworthiness Review Program: Amendment No. 7; Airframe Amendments.	Proposed amendments would update and improve the airframe and crashworthiness standards that apply to aircraft certification, and would make certain related changes in the operating rules (14 CFR pts. 23, 25, 27, 29, and 121).	do	FR September 1978.
Transport Category Airplane Fatigue Regulatory Review Amendments (docket No. 16280).	Proposed amendment revising the structural fatigue evaluation requirements and incorporating related guidance, to take into account state-of-the-art development and service experience (14 CFR pt. 25).	do	FR April 1979.
Delayed Landing Flap Procedure for Turbojet-Powered Airplanes (docket No. 15020).	Proposed regualtion which would require landing flap setting for turbojet-powered airplanes be delayed until at or below 1,000 ft above airport elevation for purpose of noise abatement on approach and landing (14 CFR pt. 91).	do	FR February 1979.
Review: Operations Review Amendment No. 4 (docket No. 16383).	Miscellaneous amendments concerning aircraft maintenance, airmen certification, general operating and flight rules, parachuting, certification, and operation of air carriers, air travel clubs, repair stations, and aviation maintenance technical schools. Final rule issued on May 19, 1978, effective June 26, 1978 (43 FR 27535 May 25, 1978) (14 CFR pts. 43, 61, 63, 65, 91, 105, 121, 123, 127, 135, 137, 145, 147, and 149).	do	Action complete.
Review: Operations Review Amendment No. 5 (docket No. 17034).	Miscellaneous amendments to requirements pertaining to airmen and crewmembers, training programs, flight operations, dispatching, and records and reports of air carrier and commercial operators of large aircraft. Final rule issued on May 18, 1978, effective June 26, 1978 (14 CFR pt. 121).	do	Do.
Review: Operations Review Amendment No. 6 (docket No. 17154).	Proposed amendments to flight rule fuel requirements, VOR equipment checks, safety belts and harnesses, and other clarifying changes to 14 CFR pts. 23, 25, 27, 29, 91, and 121.	do	FR September 1978.
Review: Operations Review Amendment No. 8.	Proposed amendment to update and improve airmen and crewmembers rules, training programs, flight operations, dispatching, records and reports of air carriers and commercial operators and scheduled air carriers with helicopters. NPRM issued with comment period closing on Aug. 11, 1978 (14 CFR pts. 121 and 127).	do	FR February 1979.
Review: Operations Review Notice No. 9.	Proposed revision to update and improve equipment, maintenance, and operating rules of aircraft, airmen certification, certificated operators and agencies, flight attendants, and training requirements (14 CFR pts. 63, 65, and 121) NPRM published Aug. 17, 1978 (43 FR 36464).	do	FR June 1979.
Review: Operations Review Notice No. 10.	Proposes revision to update and improve the equipment and operating rules of aircraft operated by scheduled air carriers of large aircraft and agricultural aircraft operators (14 CFR pts. 25, 123, 127, and 137).	do	NPRM August 1978.
Agricultural Aircraft Night Operations (docket No. 14621).	Rule to permit special VFR night operations by agricultural aircraft operators without complying with certain instrument flight requirements since agricultural aircraft are not usually IFR equipped and have need to conduct operations under special VFR conditions. Final rule issued on June, 21, 1978, effective July 28, 1978 (14 CFR pt. 137).	do	
Airborne Vibration Monitors (docket No. 13969).	Proposed rule to require an indicator system for detecting rotor imbalance for each engine in specified wide-bodied airplanes (14 CFR pt. 121).	do	Withdrawal August 1978.
Special Aircraft Certificates (docket No. 13954).	Proposed rule to limit the issuance of "experimental" certificates under 14 CFR pt. 21 to aircraft engaged in genuine experimental operations except for certain amateur-built aircraft (14 CFR pts. 21, 43, 45, 65, and 91).	do	Do.
Review: Operations Review Program (docket No. 16220).	The agency's proposed action on certain proposals presented during the 1975-76 operations review program.	Maurice Taylor, 202-426-3128	FR August 1978.
Review: Part 91 Notice (docket No. 16431).	The agency conducted a Regulatory Review Conference of 14 CFR pt. 91, subpt. B, in Sept. 1977, in order to update that part. This action will cover all proposals covered by the review except for lost communications (14 CFR pt. 77).	do	FR February 1978.
Review: Part 91 Review Lost Communications (docket No. 16431).	The FAA conducted a Regulatory Review Conference of 14 CFR pt. 91, subpt. B, in Sept. 1977, in order to update that part. This action will cover the special proposal on lost communications.	do	FR February 1979.

FEDERAL AVIATION ADMINISTRATION—Continued

NONSIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Pearson Airpark	Proposal to exclude persons from the requirement of communicating with Portland Tower while operating in the Pearson Airpark traffic pattern (14 CFR pt. 93).	Charles Stratton, 202-426-3128	NPRM August 1978.
Review: Objects Affecting Navigable Airspace (docket No. 16920).	Proposal to amend regulations including areas such as notice requirements, obstruction standards, aeronautical studies, determinations, antenna farm areas, and discretionary review/petition procedures (14 CFR pt. 77).	O. E. Falsetti, 202-426-8777	NPRM April 1979.
Reimbursement of Security Screening Costs (docket No. 17326).	Proposes a procedure for compensating air carriers for certain security screening costs in foreign air transportation (14 CFR pt. 121).	R. P. Jones, 202-426-8409	FR September 1978.
Security Screening to Charter Flights (docket No. 17676).	Extends security screening to charter passenger flights conducted by certain certificate holders. Final rule issued on June 6, 1978, effective on July 25, 1978 (14 CFR pts. 121 and 129).	....do	Action complete.
Special Aircraft Registration Numbers (docket No. 17331).	Proposed revison to delete all references to and provisions for special aircraft registration numbers thereby eliminating registration number changes on aircraft (14 CFR pt. 45).	Elizabeth Bowman, 405-686-2284	FR December 1978.
Registration of Aircraft by Resident Aliens.	Proposed revision to comply with sec. 14 of Pub. L. 95-163 enacted by Congress effective Nov. 9, 1977, amended Mar. 8, 1978, which provides for U.S. registration of aircraft by resident aliens and by corporations which do not qualify for registration as citizens (14 CFR pt. 47).	Florine G. Crockett, 405-686-2284	NPRM November 1978.
Civil Helicopter Noise Certification (docket No. 17556).	This project would establish noise certification levels and pfocedures for civil helicopters (14 CFR pt. 36).	James Densmore, 202-755-9468	FR April 1979.
Designated Manufacturing Inspection Representatives (docket No. 16622).	Proposed rule to permit designated manufacturing inspection representatives (DMIR's) to conduct evaluation inspections and to perform all of their authorized functions outside the manfacturing plant at which they are employed (14 CFR pt. 183).	Joe Sullivan, 202-755-8716	FR May 1979.
Identification (ID) Plates (docket No. 15977).	Proposed rule to prohibit the removal, change, or placement of information on identification plates required by the regulation and the removal and installation of ID plates on aircraft, aircraft engines, propellers, and propeller blades and hubs, without the approval of the Administrator (14 CFR pt. 45).	....do	Do.
Implementation of OMB Circular A-95 (docket No. 17337).	Final procedures and regulations (pt. 152) implementing OMB Circular A-95 (coordination of Federal assistance programs with State, areawide, and local planning agencies), based on public comment on interim procedures in Special Federal Aviation Regulation 35 (14 CFR pt. 152).	Edward F. Rancourt, 202-426-8090	FR Feburary 1979.
Implementation of Energy Policy (docket No. 16617).	Implementation of the Energy Policy and Conservation Act (14 CFR pt. 11).	Cynthia Zook, 202-426-3420	FR September 1978.
Review: Update of Part 139	Revision of 14 CFR pt. 139 to update and clarify the part and to update firefighting agent substitution rates and reduce the exonomic burden of firefighting requirement (14 CFR pt. 139).	Harry Hink, 202-426-3087	NPRM October 1978.
Experimental Certificates	Proposed revision to 14 CFR pt. 21 to allow special airworthiness certificates for air racing, exhibition and amateur built aircraft to be issued for periods in excess of 1 year (14 CFR pt. 21).	Joe Sullivan, 202-755-8716	NPRM November 1978.
Foreign Airman Certificate	Proposed revisions to provide for the issuance of special purpose airman certificates to foreign pilots and other flight crew members to permit those persons to operate U.S. registered civil aircraft leased by foreign operators for carriage of persons and property for compensation or hire (14 CFR pts. 61 and 63).	....do	NPRM October 1978.
Publication of Petitions for Rulemaking and Exemptions.	Proposed rule to establish procedures for the publication in the FEDERAL REGISTER of the summaries of certain petitions for rulemaking and exemptions. This proposal also provides for publication of summaries of denials of petitions for rulemaking and summaries of grants and denials of petitions for exemptions. NPRM published July 24, 1978 (43 FR 31936) (14 CFR pt. 11).	Edward P. Faberman, 202-426-3073	FR December 1978.
Protective Breathing Equipment	Proposed rule to establish minimum performance standards and operating rules for protective breathing equipment (14 CFR pts. 25, 29, 37, 91, and 121).	Joe Sullivan, 202-755-8716	NPRM March 1979.
Supplemental Oxygen	Proposed rule to permit certain wide-body turbojet airplanes to operate to flight level of 45,000 ft above sea level without requirements for the pilot to use supplemental oxygen (14 CFR pts. 25, 29, 37, 91, and 121).	....do	NPRM February 1979.
Type Certification Standards	Proposed revision of Special Federal Aviation Regulation 13 as applicable to DC-3 airplanes to provide a basis for approval of the installation of 3 turbo-propeller engines in place of 2 reciprocating engines (14 CFR pt. 25; SFAR 13).	....do	FR July 1979.
Status of FAA Pilots on Test Flights (docket No. 14611).	Proposed clarification of the status of both applicants and FAA pilots during flight tests required for certification of aircraft (14 CFR pt. 21).	....do	Withdrawal August 1978.
Leakage of Fluids (docket No. 15534)	Proposed standards for certification, maintenance, and equipment to prevent inflight overboard leakage of fluids subject to freezing (14 CFR pts. 25, 91, and 121).	....do	Do.
Cargo Pallets, Nets, and Containers (docket No. 16140).	Proposed updated standards for cargo pallets, nets, and containers in accordance with the changes in technology and specifications which have taken place since 1970, when the current standards were developed (14 CFR pt. 37).	....do	FR December 1978.
Determination of Aircraft Approach Categories (docket No. 17536).	Proposed regulation to eliminate use of maximum certificated landing weight as a criterion for grouping aircraft in approach categories in order to facilitate aircraft categorization and simplify determination of landing minimums (14 CFR pt. 97).	....do	FR April 1979.

SIGNIFICANT REGULATIONS

Title	Summary	Contact	Decision date
Review: Outdoor Advertising Control and Acquisition (FHPM 7-6-2).	A. *Description:* This regulation would provide definition of "effective control" of outdoor advertising per 23 U.S.C. 131. It would also set forth requirements for signs exempt from control under the statute and establish the basic framework for State development of police power regulations and procedures. The regulation would also outline the requirements for Federal participation in the acquisition of compensable nonconforming outdoor advertising devices. B. *Why significant:* This proposal may involve substantial public interest, is controversial and involves important Departmental policy. C. *Regulatory analysis:* Will not be required. D. *Need:* This regulation is necessary for the maintenance of national uniformity in the outdoor advertising control program. Since 23 U.S.C. 131 is regulatory in nature, it is necessary to establish and maintain minimum Federal program requirements. E. *Legal basis:* 23 U.S.C. 131, 148, and 315; 49 CFR 1.48. F. *Chronology:* The proposal involves the consolidation of two existing regulations, 23 CFR pt. 750, subpts. D and G, and one interim regulation, 23 CFR pt.750, subpt E. The regulations have been in effect since Sept. 16, 1975 and July 29, 1974, respectively. The interim regulations have been in effect since Oct. 18, 1976. The proposed consolidation will be issued as NPRM. G. *Citation:* 23 CFR pt. 750, subpt. C.	Richard Moeller, 202-245-0021.	NPRM August 1978, FR November 1978.
Traffic Safety in Highway and Street Work Zones (docket No. 76 14; Proposed (FHPM 6-4-2-12).	A. *Description:* This regulation would provide guidance and establish procedures to assure that adequate consideration is given to motorists, pedestrians, and construction workers on all Federal-aid construction projects. B. *Why significant:* This regulation concerns a matter on which there is substantial public interest and could have a considerable cost impact. C. *Regulatory analysis:* Will not be required. D. *Need:* This regulation will be needed to help achieve safety in highway and street work zones. E. *Legal basis:* 23 U.S.C. 109(b), 109(d), 315, and 402(a); 23 CFR 1.48(b). F. *Chronology:* An ANPRM was published on Sept. 23, 1976, and a NPRM was published on Aug. 25, 1977. G. *Citation:* 23 CFR pt. 630, subpt. J.	Mr. J. Daves, 202-426-4647.	FR August 1978.
Review: Air Quality Guidelines (FHPM 7-7-9-1).	A. *Description:* This regulation would establish administrative procedures on: (1) funding sanctions, (2) conformity of highway plans, programs, and projects with air quality implementation plans, and (3) priority to highway improvements with air quality benefits during an interim period. This regulation will be in addition to existing FHPM 7-7-9, Air Quality Guidelines. B. *Why significant:* This regulation is considered major because it affects another Federal agency and may be controversial. C. *Regulatory analysis:* Will be required. D. *Need:* Currently, administrative procedures on funding sanctions, priority of highway improvements with air quality benefits, and conformity of highway plans, programs, and projects with air quality implementation plans are lacking. These are a result of the Clean Air Act Amendments of 1977 which became law in August 1977. E. *Legal basis:* Clean Air Act Amendments of 1977 (42 U.S.C. 7401). F. *Chronology:* Preliminary work on developing draft regulations is underway. NPRM planned for August 1978. G. *Citation:* 23 CFR pt. 770.	Harter M. Rupert, 202-426-4836.	NPRM August 1978.
Employee Safety and Health Standards (docket No. MC-64).	A. *Description:* This regulation would provide safety and health standards to govern employes engaged in the operation, maintenance, and loading and unloading of motor vehicles, designed to eliminate uncertainty with regard to the jurisdictional authority of OSHA. B. *Why significant:* This proposal may have a significant impact on the Department of Labor's Occupational Safety and Health Administration (OSHA). C. *Regulatory analysis:* Will not be required.	Gerald J. Davis, 202-426-9767.	FR March 1979.

FEDERAL HIGHWAY ADMINISTRATION—Continued

NONSIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
	D. *Need:* These standards are designed to eliminate uncertainty with regard to the jurisdictional authority of the Occupational Safety and Health Administration and to improve safety and health standards for employees of motor carriers. E. *Legal basis:* 49 U.S.C. 304 and 1655. F. *Chronology:* A notice of proposed rulemaking was issued Mar. 2, 1978, and the closing date for the comment period was May 31, 1978. NPRM was published in FEDERAL REGISTER (43 FR 25156) June 9, 1978, extending the comment period to June 30, 1978. G. *Citation:* 49 CFR pt. 399.		
Minimum Cab Space Dimensions (docket No. MC-79).	A. *Description:* This regulation would specify minimum size for the cab portion of the regulated commercial vehicles manufactured after a certain date. B. *Why significant:* This proposal has the potential of being costly if extensive changes to cab configuration become necessary C. *Regulatory analysis:* Will be required. D. *Need:* Changes in truck technology and maximum limitation on size by States have led to the development of reduced cab space in favor of increased cargo space to remain within State length limitations. The impact on safe operations and driver workplace may be negatively affected. E. *Legal basis:* 49 U.S.C. 304 and 1655. F. *Chronology:* The advance notice of rulemaking was issued on Feb. 14, 1976. Comment period closed on July 14, 1978. G. *Citation:* 49 CFR 393.	D. W. Morrison, 202-426-1700.	NPRM March 1979.
Review: State Highway Agency Equal Employment Opportunity Programs (FHPM 2-2-2).	A. *Description:* This regulation would set forth Federal Highway Administration (FHWA) Federal-aid policy and FHWA and State responsibilities relative to a State highway agency's internal equal employment opportunity program and for assuring compliance with the equal employment opportunity requirements of federally assisted highway construction contracts. B. *Why significant:* There is substantial public interest relative to this FHPM. C. *Regulatory analysis:* Will not be required. D. *Need:* To set forth responsibilities for State highway agencies' equal employment opportunity programs and to insure compliance with the equal opportunity requirements of federally assisted highway construction contracts. E. *Legal basis:* 23 U.S.C. 140(a); Executive Order 11246 as amended. F. *Chronology:* The FHWM is awaiting decisions by the Equal Employment Opportunity Commission relative to the future direction of State EEO programs. G. *Citation:* 23 CFR pt. 230, subpt. C.	Ted B. Sennett, 202-426-0693.	NPRM December 1978.
Review: Construction Contract Equal Opportunity Compliance Procedures (FHPM 2-2-3).	A. *Description:* This regulation would prescribe policies and procedures to standardize the implementation of the equal opportunity contract compliance program, including compliance reviews, consolidated compliance reviews, and the administration of areawide plans. B. *Why significant:* There is substantial public interest relative to this FHPM. C. *Regulatory analysis:* Will not be required. D. *Need:* To standardize the implementation of the equal opportunity contract compliance program. E. *Legal basis:* Executive Order 11246 as amended, 23 U.S.C. 112(b) and 140(a). F. *Chronology:* The FHWA is awaiting decisions by the Department of Labor relative to the future direction of the contract compliance program. G. *Citation:* 23 CFR pt. 320, subpt. D.	Ted B. Sennett, 202-426-0693.	NPRM December 1978.
Geometric Design Criteria for Resurfacing, Restoration, and Rehabilitation (R-R-R) of Streets and Highways Other than Freeways (docket No.77-4).	A. *Description:* This regulation would contain criteria intended to provide additional flexibility in some of the basic geometric features of design, primarily those in which modification would result in appreciable savings in costs and other impacts while improving safety. B. *Why significant:* This regulation is considered significant because the adoption of new design criteria specifically for R-R-R projects has proven to be controversial. C. *Regulatory analysis:* Will not be required. D. *Need:* To implement the 1976 amendment to 23 U.S.C. 101 redefining "construction" to include resurfacing, restoration, and rehabilitation. Optimum geometric design standards are needed to effectively administer a R-R-R program for preservation work on the Federal-aid highway systems. E. *Legal basis:* 23 U.S.C. 109, 315, and 402; 49 CFR 1.48(b). F. *Chronology:* FHWA docket No. 77-4, published in the FEDERAL REGISTER of Aug. 25, 1977, offered three alternatives. Because of the adverse comments all alternatives were rejected and FHWA decided to develop a new set of criteria for resurfacing, restoration, and rehabilitation (R-R-R) projects. G. *Citation:* 23 CFR pt. 625.	Alvin R. Cowan, Seppo Sillan, 202-426-0312.	NPRM August 1978.
Certification of Motor Vehicle Size and Weight Enforcement (docket No. 77-21; FHPM 6-8-5).	A. *Description:* This is a proposed revision of existing regulations dealing with annual certifications by the States that all size and weight laws are being enforced. Anticipated is a requirement for an annual enforcement program against which the States' efforts could be measured at the end of the year.	David W. Baldwin, 202-426-1993.	NPRM November 1978.

FEDERAL HIGHWAY ADMINISTRATION—Continued

SIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
	B. *Why significant:* The regulation is significant because failure on the part of the State is cause for the withholding of Federal-aid highway projects approval. C. *Regulatory analysis:* Will be required. D. *Need:* This regulation is needed to implement 23 U.S.C. 141, enforcement of requirements. E. *Legal basis:* 23 U.S.C. 141. F. *Chronology:* ANPRM was issued in January 1978, with comments due Apr. 15, 1978. Thirty comments were received. G. *Citation:* 23 CFR pt. 658.9.		
Withdrawal of Interstate Segments and Substitution of Alternative Projects (docket No. 77-9).	A. *Description:* The regulations would implement secs. 103(e)(2) and 103(e)(4) of title 23, U.S.C. 103(e)(2) provides for the withdrawal of nonessential interstate routes and the substitution of alternative interstate routes. Sec. 103(e)(4) provides for the withdrawal of nonessential interstate routes and the substitution of other transportation projects, both highway and nonhighway. B. *Why significant:* There is substantial public interest and controversy concerning this proposal. C. *Regulatory analysis:* Will be required. D. *Need:* This regulation is needed to implement the provisions of 23 U.S.C. 103 enacted in the 1976 Federal-Aid Highway Act. E. *Legal basis:* 23 U.S.C. 103(e)(2) and 103(e)(4). F. *Chronology:* The current substitution regulations were issued on June 12, 1974. The Federal-Aid Highway Act Amendments of 1974 and the Federal-Aid Highway Act of 1976 amended the original statutory provisions enacted by the Federal-Aid Highway Act of 1973. G. *Citation:* 23 CFR pt. 476, subpt. D, and pt. 450.	L. A. Staron, 202-426-0404, F. Calhoun, 202-426-0762.	NPRM August 1978, FR December 1978.
Payback for Interstate System Withdrawals and Modifications.	A. *Description:* The regulations would prescribe the disposition and use of property acquired with Federal-aid funds for highway projects which are later modified, withdrawn, or terminated. They would also prescribe the requirements for repayament (payback) of Federal-aid funds expended on such projects. B. *Why significant:* There is substantial public interest and controversy concerning the withdrawal under 23 U.S.C. 103(e)(4) of routes designated after Aug. 13, 1973, and the question of payback. C. *Regulatory analysis:* Will be required. D. *Need:* This regulation is needed to implement the provisions of 23 U.S.C. 103 enacted in the 1976 Federal-aid Highway Act, and the provisions of OMB Circular 102. E. *Legal basis:* 23 U.S.C. 103(e). F. *Chronology:* Proposed regulations on payback were issued on Nov. 17, 1975 (40 FR 53252). Sec. 110(b) of the Federal-Aid Highway Act of 1976 required substantial changes in the proposed regulations. The proposed regulations were withdrawn by an ANPRM on Sept. 27, 1976 (41 FR 42221). New proposed regulations were published on Aug. 7, 1978 (43 FR 35008). G. *Citation:* 23 CFR pt. 476.	L. A. Staron, 202-426-0404, F. Calhoun, 202-426-0762.	FR November 1978.
Hours of Service of Drivers (docket No. MC-70-1).	A. *Description:* The Federal Highway Administration (FHWA) is proposing a revision of the regulations pertaining to hours of service limitations for commercial vehicle drivers engaged in interstate or foreign commerce. B. *Why significant:* This proposal may be controversial and could have a major cost impact on the motor carrier industry. C. *Regulatory analysis:* Will be required. D. *Need:* This action is being taken in response to numerous petitions and requests from public interest groups, labor organizations, and individual drivers for the revision of these regulations. E. *Legal basis:* 49 U.S.C. 304 and 1655. F. *Chronology:* An advance notice of proposed rulemaking which stated that FHWA was considering an extensive review of the hours of service of drivers regulation was published on Feb. 12, 1976 (docket MC-70, notice 76-14, 49 FR 6275). A second ANPRM was issued on May 22, 1978, setting forth three plans for comments. G. *Citation:* 49 CFR pt. 395.	Gerald J. Davis, 202-426-9767.	NPRM January 1980.
Commercial Motor Vehicle Inspection Repair and maintenance (docket No. MC-48).	A. *Description:* FHWA is considering amending the regulation on commercial motor vehicle inspections, repair and maintenance to reduce vehicle defect related accidents caused by inadequate inspection and maintenance procedures. B. *Why significant* This proposal may be controversial. C. *Regulatory analysis:* Will not be required. The regulation has been revised to reduce its cost impact. D. *Need:* Roadside inspections of vehicles in operation in interstate commerce, supported by safety survey inspections at carrier facilities indicate that carrier maintenance practices are less than satisfactory. This prbposal is intended to provide guidance for systematic vehicle inspection and maintenance by carriers and drivers in order to assure vehicle condition is satisfactory for safe operations. E. *Legal basis:* 49 U.S.C. 304 and 1655. F. *Chronology:* This proposed amendment was issued as an NPRM on Apr. 5, 1977. Based upon the review of public comments and data submitted, as a result of the NPRM, the FR will be modified to eliminate the potential of a major cost impact on the motor carrier industry.	Donnell W. Morrison, 202-426-1700.	FR August 1978.

FEDERAL HIGHWAY ADMINISTRATION—Continued

SIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
	G. *Citation:* 49 CFR pt. 396.		
State or Local Land Use Actions Affecting Outdoor Advertising (docket No. 77-20).	A. *Description:* The FHWA is considering the promulgation of regulations regarding the review of State or local land use actions that result in the removal of outdoor advertising signs without compensation or that permit the erection of off-premise signs prohibited by 23 U.S.C. 131 B. *Why significant:* This proposal may involve substantial public interest, is controversial, and involves important departmental policy. C. *Regulatory analysis:* Will not be required. D. *Need:* The ANPRM is necessary in order to solicit comments for determining the best method of examining State or local land use control or zoning actions for compatability with 23 U.S.C. 131. E. *Legal basis:* 23 U.S.C. 131 and 315; 49 CFR 1.48. F. *Chronology:* An FHWA legal opinion on this issue was released by the Federal Highway Administrator on Dec. 8, 1976. The ANPRM requests comments on alternate methods of implementing the December 8 opinion. G. *Citation:* 23 CFR pt. 750.708.	Richard Moeller, 202-245-0021.	ANPRM September 1978.
Review: Environmental Impact and Related Statements (FHPM 7-7-2).	A. *Description:* This regulation would implement the National Environmental Policy Act and sec. 136 of the Federal-Aid Highway Act. It would specify the procedures to be used by FHWA in the preparation and processing of environmental impact and sec. 4(f) statements. B. *Why significant:* These regulations will involve substantial public interest and controversy and will implement important Departmental policy. C. *Regulatory analysis:* Will not be required. D. *Need:* Executive Order 11991 authorizes the Council on Environmental Quality (CEQ) to issue regulations to implement the National Environmental Policy Act. These CEQ regulations are expected to be in final form in the near future and they are expected to require substantive revisions to FHPM 7-7-2. E. *Legal basis:* Revisions to FHPM 7-7-2 are required because of regulations which will be promulgated by CEQ. F. *Chronology:* The CEQ regulations were published for public comment in the FEDERAL REGISTER on June 9, 1978. It is anticipated that the final regulations will be published in early fall of 1978 and that FHPM 7-7-2 revisions will be ready for publication in the spring of 1979. G. *Citation:* 23 CFR pt. 771.	Rex I. Wells, 202-426-0106.	NPRM March 1979.
Review: Urban Transportation Planning Process (FHPM 4-4-2), and Review: Transportation Improvement Program (FHPM 4-4-6).	A. *Descriptions:* Revisions to these regulations may include: (1) Periodic rather than annual certification. (2) Elimination of narrative discussion on merging long-range and transportation systems management (TSM) plan elements and inclusion of nonfederally funded projects in the transportation improvement program (TIP). (3) Added flexibility in initiating and selecting highway project. (4) Implementation of the planning aspects of the 1977 Clean Air Act Amendments. B. *Why significant:* These are significant regulations since they significantly impact the Urban Mass Transportation Administration (UMTA) and can substantially streamline transportation planning. C. *Regulatory analysis:* Will not be required. D. *Need:* Continuing review has identified areas where added flexibility will not impair effectiveness. Air quality planning must be included in accordance with the DOT-EPA memorandum of understanding. E. *Legal basis:* 23 U.S.C. 104(f)(3), 134, and 315. F. *Chronology:* The recommendations of the FHWA regulations reduction task force were adopted in October 1977. Following agreement with UMTA and EPA, insofar as air quality is concerned, proposed regulatory changes will be prepared. G. *Citation:* 23 CFR pt. 450, subpts. A and C.	V. Paparella, 202-426-2961.	NPRM November 1978.
Equal Employment Opportunity on Federal-aid Highway Construction Contracts (FHPM 6-4-1-2).	A. *Description:* This regulation would simplify procedures relating to equal employment opportunity on Federal-aid highway construction contracts. B. *Why significant:* This regulation concerns a matter on which there is substantial public interest. C. *Regulatory analysis:* Will not be required. D. *Need:* This regulation is needed to achieve administrative effectiveness and efficiency. E. *Legal basis:* 23 U.S.C. 140 and 315. F. *Chronology:* An NPRM will be published in October 1978. G. *Citation:* 23 CFR pt. 230, subpt. A.	K. L. Ziems, 202-426-4847.	NPRM October 1978.
Rural and Small Urban Public Transportation.	A. *Description:* Proposed regulation would implement proposed new transportation legislation providing for a continuing program of rural and small urban public transportation including operating subsidies. B. *Why significant:* The proposed new program involves FHWA and UMTA and impacts State and local transportation programs. C. *Regulatory analysis:* Will not be required. D. *Need:* The proposed regulation would implement legislation by providing for administration of the rural and small urban public transportation assistance program.	FHWA Donald Morin, 202-426-0210 UMTA Lillian Liburdi, 202-426-4050.	NPRM November 1978.

FEDERAL HIGHWAY ADMINISTRATION—Continued

SIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
	E. *Legal basis:* Proposed legislation. F. *Chronology:* A DOT rural and small urban working group is now summarizing the policy issues for the proposed program. Field trips are now in progress for Federal officials to visit States and rural and small urban projects. The NPRM is to be published in November 1978. G. *Citation:* No CFR citation as yet.		
Effects of Delayed or Halted Projects	A. *Description:* Would seek to alleviate adverse conditions created by halted or delayed highway projects for certain affected persons. B. *Why significant:* There is substantial public interest in the conditions created by these delays and halts. C. *Regulatory analysis:* Will not be required. D. *Need:* Many property owners whose property will be acquired are being subjected to serious adverse living and working conditions due to the delays and halts. E. *Legal basis:* 23 U.S.C. 315, 49 CFR 1.48(b), 23 CFR 1.32. F. *Chronology:* The notice is expected to be issued in the FEDERAL REGISTER during September 1978, with a closing date for comments in November 1978. G. *Citation:* 49 CFR 1.48(b), 23 CFR 1.32.	Robert G. King, 202-426-0116, Stanley Abramson, 202-246-0791.	ANPRM September 1978.

NONSIGNIFICANT REGULATIONS

Review: New Research and Development (R. & D.) Studies and Work Programs (FHPM 5-4-1).	This regulation would cover the starting of new R. & D. studies funded with Federal-aid highway funds and for programing R. & D. work (23 CFR pts. 530 and 540).	Harry H. Hersey, 202-426-0241	FR November 1978.
Review: R. & D. Management—General (FHPM 5-2-1).	This regulation would have covered the management of R. & D. studies using Federal-aid highway funds. Will be withdrawn in November 1979 because content covered by legislation and other regulations (23 CFR pt. 520).	.....do	Withdrawal November 1978.
Review: R. & D. Reports and Implementation Activities (FHPM 5-4-3).	This regulation would cover documentation of the results of R. & D. studies funded with Federal-aid highway funds without State matching to finance pooled fund studies (23 CFR pt. 544).	.....do	FR January 1979.
Review: Federal-Aid Funds Without State Matching (FHPM 5-6-1).	This regulation would cover the use of Federal-aid highway funds without State matching to finance pooled fund studies (23 CFR pt. 560).	.....do	Do.
Review: R. & D. Management Option (FHPM 5-2-4).	This regulation would provide an alternate procedure for State highway agencies which meet specified management standards (23 CFR pt. 524).	.....do	Do.
Review: Administration of Negotiated Contracts (proposed FHPM 1-7-2).	The existing 3 regulations (23 CFR pts. 62, 420, and 170) would be combined to coordinate and minimize requirements and to bring FHWA contracting procedures in conformance with Office of Management (OMB) circular A-102, specifically attachment "O" which deals with procurement standards for use by grantees (23 CFR pt. 170).	W. Bullard, 202-426-0175	NPRM August 1978, FR October 1978.
Review: Program Approval and Authorization (FHPM 4-1-2-1).	This regulation would reflect recent policy changes in management of the highway planning and research program, e.g., allowing separate projects for metropolitan planning organizations, applying matching ratio to time periods rather than a fiscal year fund, etc. (23 CFR pt. 420).	.....do	Do.
Review: Public Road Mileage for Apportionment of Highway Safety Funds, Off-System Roads Funds, High Hazard Location Project Funds, and Roadside Obstacle Elimination Funds (FHPM 4-5-3).	The revised regulation would expand the existing one, which includes only highway safety funds, to include the other listed programs in the revised title (23 CFR pt. 460).	D. W. Briggs, 202-426-0199	NPRM September 1978, FR December 1978.
Review: Incentive Grants—Statistics for Highway Planning (FHPM 4-5-2).	The proposed regulation would document the procedures to be used in connection with 23 U.S.C. 402(j) for highway safety incentive grants which are based on improved highway fatality rates (fatalities/100 million vehicle miles of travel) (23 CFR pt. 1214).	F. E. Jarema, 202-426-0160	Do.
Review: Joint Development of Highway and Multiple Use of Roadway Properties (FHPM 7-7-6).	This regulation would state FHWA policy to encourage State/local action to plan highway corridors cooperatively; describe joint development feasibility studies and reports which are stages in joint development planning; describe what features, facilities, etc., can receive Federal funding participation; and describe use restrictions and maintenance responsibilities of multiple use sponsors (23 CFR 1.32).	K. C. Anderson, 202-426-9173	NPRM December 1978.
Review: Historic and Archeological Preservation (FHPM 7-7-4).	This regulation would replace obsolete policy and procedures memorandum (PPM) 20-7 and incorporate all FHWA regulations in the historic and archeological preservation subject area into one directive. It would present a simple process to accomplish all legal and regulatory obligations, but tailor the procedures to insure compatibility with the highway development process (23 CFR pt. 765).	A. M. Love III, 202-426-9173	Do.
Review: Procedures for Abatement of Highway Traffic Noise and Construction Noise (FHPM 7-7-3).	This revision would make several minor technical changes to the existing regulation. It would also establish new FHWA policy on approval of noise prediction methods (23 CFR pt. 772).	H. M. Rupert, 202-426-4636	FR August 1978.
Review: Procedures for Abatement of Highway Traffic Noise and Construction Noise (FHPM 7-7-3) (long-term revisions).	This revision would make substantial reductions in the detailed procedures and interpretive information in the existing regulation. This is being done pursuant to the FHWA regulation reduction task force recommendations (23 CFR pt. 772)	.....do	NPRM August 1978.

Title	Summary	Contact	Decision date
Review: Public Road Mileage for Apportionment of Highway Safety Funds, Off-System Roads Funds, High Hazard Location Project Funds, and Roadside Obstacle Elimination Funds (FHPM 4-5-3).	A. *Description:* The revised regulation would expand the existing one, which includes only highway safety funds, to include the other listed programs in the revised title (23 CFR pt. 460). B. *Why significant:* There is substantial public interest in the conditions created by these delays and halts. C. *Regulatory analysis:* Will not be required. D. *Need:* Many property owners whose property will be acquired are being subjected to serious adverse living and working conditions due to the delays and halts. E. *Legal basis:* 23 U.S.C. 315, 49 CFR 1.48(b), 23 CFR 1.32. D. *Need:* This regulation would implement legislation by providing for administration of the historic and archeological preservation subject area. E. *Legal basis:* 23 U.S.C. 315, 49 CFR 1.48(b), 23 CFR 1.32. F. *Chronology:* The notice is expected to be issued in the FEDERAL REGISTER during September 1978, with a closing date for comments in November 1978. G. *Citation:* 49 CFR 1.48(b), 23 CFR 1.32.	A. M. Love III, 202-426-9173	Do.

FEDERAL HIGHWAY ADMINISTRATION—Continued

NONSIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Review: Environmental Impact and Related Statements (FHPM 7-7-2) (interim revisions).	The revisions will: (a) Allow a nonmajor action classification for FHWA projects which have a minimal effect on properties protected under sec. 4(f) of the DOT Act or sec. 106 of the National Historic Preservation Act; provided that the nonmajor classification is appropriate under other existing criteria, and (b) allow Federal Highway Administrator to delegate to the regional administrators for all projects other than those processed with nondelegated environmental impact statements. Final rule published in FEDERAL REGISTER on May 16, 1978; effective May 19, 1978 (23 CFR pt. 771).	R. G. Clour, 202-426-0142	Action complete.
Review: General Policy and Definitions (FHPM 7-1-1).	This regulation prescribes the general policy of FHWA regarding the acquisitions of real property for highway and related purposes and defines certain terms used in FHWA right-of-way acquisition regulations (23 CFR pt. 710).	Douglas A. Wubels, 202-426-0142	Regulation to be canceled April 1979.
Review: State Highway Department Responsibilities (FHPM 7-1-2).	This regulation would prescribe the general responsibilities of State highway departments in the acquisition of rights-of-way for the Federal-aid highway systems (23 CFR pt. 710).	.....do	NPRM December 1978.
Review: Reimbursement Provisions (FHPM 7-1-3).	This regulation would set forth provisions governing reimbursement to a State highway department for right-of-way costs incurred in connection with a Federal or Federal-aid highway project (23 CFR pt. 710).	.....do	Do.
Review: Civil Rights (FHPM 7-1-4).....	This regulation prescribes the general policy of the FHWA in the area of civil rights relative to the right-of-way acquisition function (23 CFR pt. 710).	.....do	Regulation to be canceled April 1979.
Review: The Acquisition Function—Policy (FHPM 7-2-1).	This regulation would prescribe FHWA policy regarding the acquisition function (23 CFR pt. 712).	Tom Johns, 202-426-0142	NPRM December 1978.
Review: The Acquisition Function—General Provisions and Project Procedures (FHPM 7-2-2).	This regulation would prescribe FHWA project provisions and procedures regarding the acquisition of real property for highway and highway related projects (23 CFR pt. 712).	.....do	Do.
Review: The Acquisition Function—General Provisions and Project Procedures Functional Replacement of Real Property in Public Ownership (FHPM 7-2-2-1).	This regulation would prescribe FHWA policies on functional replacement of real property in public ownership (23 CFR pt. 712).	.....do	Do.
Review: The Acquisition Function—Negotiations (FHPM 7-2-3).	This regulation would prescribe FHWA procedures regarding the acquisition of real property by negotiations (23 CFR pt. 712).	.....do	Do.
Review: The Acquisition Function—Administrative Settlements, Legal Settlements, and Court Awards (FHPM 7-2-4).	This regulation would prescribe FHWA policies regarding the settlement of acquisitions through administrative means and legal processes. This regulation will be combined with the regulation on reimbursement provisions (FHPM 7-1-3) (23 CFR pt. 712).	.....do	Do.
Review: Appraisal and Appraisal Review Policy (FHPM 7-3-1).	This regulation would establish FHWA requirements for the preparation and review of appraisal reports for the acquisition of lands necessary for Federal-aid highway projects (23 CFR pt. 720).	Douglas A. Wubbels, 202-426-0142	NPRM August 1978, FR February 1979.
Review: Property Management (FHPM 7-4-1).	This regulation would prescribe FHWA policies and procedures for the management of real property acquired in connection with Federal-aid highway projects (23 CFR pt. 713).	Tom Johns, 202-426-0142	NPRM December 1978.
Review: Disposal of Rights-of-Way (FHPM 7-4-2).	This regulation would prescribe FHWA policies and procedures for disposal of portions of highway rights-of-way no longer needed for highway purposes (23 CFR pt. 713).	.....do	Do.
Review: Junkyard Control and Abatement (FHPM 7-6-4).	This regulation would provide definition of "effective control" of junkyards per 23 U.S.C. 136. It would identify alternative methods for abating nonconforming junkyards and establish the basic framework for State development of police power regulations and procedures. It would also identify items which are eligible for Federal participation in the various abatement techniques such as screening, removal, and relocation (23 CFR pt. 751).	Richard Moeller, 202-245-0021	NPRM October 1978, FR February 1979.
Review: Relocation Assistance—General (FHPM 7-5-1).	This regulation would prescribe the general provisions and procedures for the uniform implementation and conduct of the nationwide relocation assistance program to assure the fair and equitable treatment of persons displaced by highway programs (23 CFR pt. 740).	R. G. King, 202-426-0116	FR February 1979.
Review: Relocation Assistance—Relocation Services (FHPM 7-5-2).	This regulation would set forth the requirements for that portion of the relocation program dealing with the services and assistance to be made available to persons displaced by or adversely affected by highway and related projects (23 CFR pt. 740).	.....do	Do.
Review: Relocation Assistance—Moving Payments (FHPM 7-5-3).	This regulation would prescribe the moving payments and other benefits available to individuals, families, businesses, farm operations, nonprofit organizations, and owners of outdoor advertising devices forced to relocate due to highway activities (23 CFR pt. 740).	.....do	Do.
Review: Relocation Assistance—Replacement Housing Payments (FHPM 7-5-4).	This regulation would prescribe the payments and eligibility requirements for home owners and tenants forced to vacate their dwellings located on lands needed for highway purposes (23 CFR pt. 740).	.....do	Do.
Review: Relocation Assistance—Mobile Homes (FHPM 7-5-5).	This regulation would set forth the special provisions for payments and benefits applicable to owners and occupants of mobile homes located on lands required for highway purposes (23 CFR pt. 740).	.....do	Do.
Review: Relocation Assistance—Replacement Housing As Last Resort (FHPM 7-5-6).	This regulation would implement sec. 206 of Pub. L. 91-646 and prescribe the procedures and methods for providing replacement housing "as a last resort" when it is determined that a Federal or Federal-aid highway project cannot proceed to actual construction because comparable replacement housing is not available for persons to be displaced from their dwellings because of such construction (23 CFR pt. 740).	.....do	Do.

FEDERAL HIGHWAY ADMINISTRATION—Continued

NONSIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Review: Land Service Facilities (FHPM 7-2-2-2).	This regulation would establish FHWA policy on participation in costs of facilities to provide or restore access to affected real property (23 CFR pt. 712).	Tom Johns, 202-426-0142	NPRM December 1978.
Review: Right-of-Way Revolving Fund (FHPM 7-2-7).	This regulation would prescribe FHWA policy on acquisition of right-of-way with funding pursuant to 23 U.S.C. 108(c) (23 CFR pt. 712).	.....do	Do.
Review: Management of Airspace (FHPM 7-4-3).	This regulation would prescribe FHWA policy on the use of airspace on Federal-aid highways for nonhighway purposes (23 CFR pt. 713).	.....do	Do.
Review: State Audit Expense—Contract Costs (FHPM 1-4-2-3).	This regulation would establish (a) the State's responsibility for the audit of costs incurred by "third parties" pursuant to a State/claimant contract on Federal-aid and other highway projects undertaken cooperatively with the Federal Highway Administration (FHWA) and (b) the reimbursement criteria for Federal participation in audit expense to be incurred (23 CFR pt. 140).	J. E. Lewis, 202-426-0562	FR December 1978.
Review: Application for and Obligation of Federal-aid Funds for Education and Training (FHPM 3-1-2).	This regulation would prescribe for programing ½ of 1 pct Federal-aid highway funds for training and education (23 CFR pt. 260).	J. Coe, 202-426-9141	FR August 1978.
Construction Engineering Costs.....	This regulation would prescribe policies and procedures to claim reimbursement for eligible construction engineering costs and to request and approve an increase in statutory limitations from 10 pct to 15 pct of construction costs (23 CFR pt. 140).	J. E. Lewis, 202-426-0562	FR September 1978.
Review: State Legal Expense—Contract Claims (FHPM 1-4-2-4).	This regulation would establish the basis of eligibility for reimbursement of administrative settlement costs, and other legal expenses, including attorney salaries and fees, in the defense of contract claims on Federal-aid projects, including any Federal projects performed by a State under Federal-aid procedures (23 CFR pt. 140).	.....do	FR August 1978.
Review: Incentive payments for Controlling Outdoor Advertising on the Interstate System (FHPM 1-4-7).	This regulation would prescribe project procedures for making the incentive payments authorized by 23 U.S.C. 131(j) (23 CFR pt. 190).	.....do	Do.
Review: Bond Issue Projects (FHPM 1-4-8).	This regulation would prescribe policies and procedures for making the use of Federal funds in aiding the States in the retirement of the principal of bonds, pursuant to 23 U.S.C. 122 (23 CFR pt. 140).	K. C. Kippley, 202-426-0673	FR September 1978.
Review: Advance Construction of Federal-aid Projects (FHPM 6-3-2-7).	This regulation would prescribe procedures for the construction by a State of projects on any of the Federal-aid systems, in advance of apportionment of Federal-aid funds, or in lieu of apportioned funds for the interstate system only, and for the subsequent reimbursement to the State of the Federal share of the cost of project, pursuant to 23 U.S.C. 115 as amended (23 CFR pt. 630).	.....do	Do.
Review: Reimbursement Vouchers PR-20 and PR-21 (FHPM 1-4-1).	This regulation would prescribe the procedures to be followed by States in claiming and supporting costs incurred for work performed (23 CFR pt. 140).	J. E. Lewis, 202-426-0673	FR December 1978.
Review: Recordkeeping and Retention Requirements for Federal-aid Highway Records of State Highway Agencies (FHPM 1-6-2).	This regulation would provide retention requirements for Federal-aid highway records of State highway agencies (23 CFR pt. 17).	John Schnackenberg, 202-426-0534	FR August 1978.
Review: Reimbursement for Employment of Public Employees of Federal-aid Projects (FHPM 1-4-5).	This regulation would prescribe policies and procedures governing the extent to which Federal funds may participate in the cost of salaries and wage and related labor costs, incurred by public forces of State highway departments, counties, cities, or other political subdivisions (23 CFR pt. 140).	J. E. Lewis, 202-426-0562	FR December 1978.
Review: Tire Requirements	The FHWA is considering amending the tire requirements regulation (49 CFR 393.75) for the purpose of (1) exempting front tires on single unit vehicles from tire marking requirements, (2) exempting all vehicles operating in commercial zones from tire marking requirements, and (3) providing an exemption for tire overloading for vehicles operating under State permits (49 CFR pt. 393).	Donnell W. Morrison 202-426-1700	NPRM September 1978.
Review: Disqualifying Offenses, Drugs.	The FHWA is considering amending the disqualification of drivers regulation (49 CFR 391.15) by reviewing and enlarging that group of substances and drugs, whose use by drivers, operating commercial motor vehicles, is forbidden and is considered a disqualifying offense (49 CFR pt. 391).	Gerald S. Davis, 202-426-9767	NPRM January 1979.
Review: Visual Acuity.....	The FHWA is considering amending the physical qualification for drivers regulation (49 CFR 391.41) by reviewing and determining minimum visual acuity in each eye separately as well as binocular acuity for commercial vehicle drivers (49 CFR pt. 391).	.....do	Do.
Review: Highway Safety Improvements Program (docket No. 78-4; FHPM 8-2-3).	When setting priorities for railroad-grade crossing improvements, present regulations require States to consider hazard rating, accident history, and the results of on-site inspections. It is necessary that consideration also be given to other factors which have the potential for catastrophic accidents. The proposed change in regulation would add 2 more factors to be used in determining priority for grade crossing projects: (1) The frequency with which trains carrying hazardous materials use the crossing; (2) the number of persons exposed to the crossing (passenger load of train; crossing use by school or passenger bus, pedestrians or other situations involving large numbers of people). NPRM was published in FEDERAL REGISTER on April 7, 1978 (23 CFR pt. 924).	J. L. Rummel 202-426-2131	FR October 1978.

FEDERAL HIGHWAY ADMINISTRATION—Continued

NONSIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Review: Indian Reservation Roads (FHPM 6-3-2-8).	This regulation would contain procedures implementing 23 U.S.C. 208 and the FHWA Bureau of Indian Affairs (BIA) (Department of Interior) interagency agreement covering FHWA overview of BIA highway projects.	George Hutzelmann 202-426-0460	ANPRM September 1978, NPRM November 1978, FR February 1979.
Review: Public Lands Development Roads and Trails (FHPM 6-9-4-2).	This regulation would contain procedures implementing 23 U.S.C. 214 and the FHWA Bureau of Land Management (BLM) (Department of Interior) interagency agreement covering FHWA overview of BLM highway projects.	.....do	ANPRM October 1978, NPRM December 1978, FR March 1979.
Review: Forest Highways (FHPM 6-9-2-1).	This regulation would contain procedures applicable to forest highways projects administered by direct Federal offices and State highway departments (23 CFR pt. 660).	.....do	ANPRM November 1978, NPRM January 1979, FR April 1979.
Review: Special Bridge Replacement Program (FHPM 6-7-4-1).	This regulation would describe the policies and procedures followed by FHWA in administering the special bridge replacement program including what projects are eligible, how applications are filed and evaluated, and how projects are funded. FR issued August 9, 1978 (23 CFR pt 650).	L. A. Herr or Stanley Gordon 202-472-7697	Action complete.
Review: Location and Hydraulic Design of Encroachments on Flood Plains (FHPM 6-7-3-2).	This regulation would establish FHWA policy and procedures to assure good flood plain management practices are followed in the Federal aid highway programs (23 CFR pt. 650).	Frank L. Johnson or Philip L. Thompson, 202-472-7690	NPRM September 1978, FR December 1978.
Review: Erosion and Sediment Control on Highway Construction Projects (FHPM 6-7-3-1).	This regulation would prescribe practices for the prevention and abatement of erosion and sediment damage on highway projects (23 CFR pt. 650).	Frank L. Johnson 202-472-7690	FR October 1978.
Review: Permits for Highway Work in or Adjacent to Streams (FHPM 6-7-1-1).	This regulation would contain procedures dealing with permits and include memoranda of understanding with the Coast Guard and the Corps of Engineers as appendixes. (23 CFR pt. 650).	.....do	Do.
Review: Coordination of Water Resources Development Projects (FHPM 6-1-1-4).	This regulation would prescribe policy and procedure for the coordination and financing of highway-water resources development projects.	Joseph W. Burdell 202-426-0442 or Frank L. Johnson 202-472-7690	Do.
Fracture Control Plan (for Bridges Containing Fracture-Critical Members).	This regulation would supersede provisions of materials and welding specifications published by the American Association of State Highway and Transportation Officials (AASHTO) and the American Welding Society (AWS), where the materials and welding are to be used in tension components of a bridge whose failure could result in the collapse of the bridge (23 CFR pt. 650).	Mr. L. A. Herr or Mr. C. E. Hartbower 202-426-0428	NPRM October 1978.
Review: Highways for National Defense (FHPM 6-9-5).	This regulation would update and simplify requiremens. The regulation would essentially provide guidance in administering defense access-road funds where requirements differ from normal Federal-aid procedures. Defense-access funds are transferred from the Department of Defense for use on certain defense related or impacted roads (23 CFR pt. 660).	Emmett C. Kaericher, Jr. 202-426-0466	FR September 1978.
Review: Required Contract Provisions—Federal-aid Contract (FHPM 6-4-1-1).	This regulation would update and clarify revisions of the required contract provisions for Federal-aid construction contracts (23 CFR pt. 633).	K. L. Ziems 202-426-4847	FR October 1978.
Review: Contract Procedures (FHPM 6-4-1-6).	This regulation would simplify Federal-aid contract procedures (23 CFR pt. 635).	.....do	NPRM August 1978, FR October 1978.
Review: Contract and Force Account, Justifications Required for Force Account Work (FHPM 6-4-1-14).	This regulation would simplify procedures relating to Federal-aid construction work performed by other than competitively awarded contract (23 CFR pt. 635).	.....do	FR September 1978.
Review: General Material Requirements (FHPM 6-4-1-16).	This regulation would simplify procedures relating to general material requirements for Federal-aid construction work (23 CFR pt. 635).	.....do	FR October 1978.
Review: Physical Construction Authorization (FHPM 6-4-2-1).	This regulation would simplify procedures relating to authorization of the physical construction (23 CFR pt. 635).	.....do	Do.
Review: Sampling and Testing of Materials and Construction (FHPM 6-4-2-7).	This regulation would revise current procedures relating to sampling and testing of materials and construction in Federal-aid highway projects except those constructed pursuant to 23 U.S.C. 117 which deals with certification acceptance and projects constructed under direct supervison of the Federal Highway Administration (23 CFR pt 637).	Ross Martinez 202-426-0420	NPRM October 1978.
Review: Inspection of Federal-Aid Construction Projects (FHPM 6-4-2-8).	This regulation would prescribe the policies, procedures, and guides for inspection and approval of Federal-aid highway construction projects, except those constructed pursuant to 23 U.S.C. 117 which deals with certification acceptance (23 CFR pt. 637).	Donald Steinke 202-426-0436	NPRM December 1978.
Review: Landscape and Roadside Development (FHPM 6-2-5-1).	This regulation prescribes policies and procedures relating to highway landscaping and plant establishment, safety rest areas and information centers and systems, and scenic strips in connection with Federal-aid highway projects. Interim Final Regulations published in FEDERAL REGISTER May 5, 1978 (23 CFR pt. 752).	Ken Rickerson 202-426-0314	FR August 1978.
Review: Pedestrian Facilities and Bikeways.	This regulation strengthens the policy requiring consideration of pedestrian and bicycle facilities on all Federal-aid highway projects and specifies participation limits on bikeways on independent alignment. Final Regulation published in FEDERAL REGISTER April 27, 1978 (23 CFR pt. 652).	.....do	Action complete.
Review: Pavement Design Policy (FHPM 6-2-4-1).	This regulation would set forth general pavement design policy for Federal-aid highway projects including stage construction (23 CFR pt. 626).	Leon M. Noel 202-426-0327	FR September 1978.
Resurfacing, Restoration, and Rehabilitation (R-R-R) Work (FHPM 6-2-4-2).	This regulation would set forth policy and project procedures for implementing R-R-R provisions of the 1976 Federal-aid Highway Act.	.....do	FR November 1978.
Review: Skid Resistant Surface Design (FHPM 6-2-4-3).	This regulation would set forth pavement design policy as it pertains to skid resistance on Federal-aid highway projects.	.....do	NPRM January 1979.

FEDERAL HIGHWAY ADMINISTRATION—Continued

NONSIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Pavement Type Selection and Alternate Bids (FHPM 6-2-4-4).	This regulation would set forth policy for the selection of pavement type on Federal-aid projects, and procedures to be used for bidding on more than 1 alternate.	.....do	NPRM March 1979.
Review: Design Standards for Highways (FHPM 6-2-1-1).	This regulation designates standards, specifications, policies, guides, and references that are acceptable for use on Federal-aid highway projects. Final Regulations published in FEDERAL REGISTER April 7, 1978 (23 CFR pt. 625).	Alvin R. Cowan 202-426-0312	Action complete.
Review: Plans, Specifications, and Estimates (FHPM 6-3-3-1).	This regulation would prescribe policies and procedures relating to the preparation, submission and approval of plans, specifications, and estimates and supporting documents for Federal-aid projects (23 CFR pt. 630).	.....do	NPRM September 1978.
Review: Traffic Operations Program to Increase Capacity and Service (TOPICS) (FHPM 6-8-2-2).	This regulation would propose a revision to shorten and simplify the regulations relating to the topics program (23 CFR pt. 655).	Chester F. Phillips 202-426-0323	FR September 1978.
Review: Traffic Control Devices on Federal-aid and Other Streets and Highways (FHPM 6-8-3-1).	This regulation would prescribe the policies and procedures of FHWA relative to obtaining basic uniformity in the visible features and functioning of traffic control devices on all highways open to public travel in accordance with the Manual on Uniform Traffic Control Devices for Streets and Highways (23 CFR pt. 655).	Donald P. Ryan 202-426-0411	FR October 1978.
Review: Motorist Aid Systems (FHPM 6-8-3-3).	This regulation would provide policies and procedures relating to motorist-aid systems on Federal-aid highways (23 CFR pt. 655).	Robert Hays 202-426-0411	Do.
Review: Traffic Surveillance and Control (FHPM 6-8-3-4).	This regulation would establish policies and procedures relating to the expenditure of Federal-aid funds for traffic surveillance and control measures and equipment to reduce congestion, improve traffic flow and increase safety (23 CFR pt. 655).	.....do	Do.
National Standards for Specific Information Sign (Docket No.: 77-6, FHPM 6-8-3-8).	This regulation would expand existing standards for specific information signs on the Interstate System and other freeways on the primary system to other primary highways as authorized by section 122(a), Federal-Aid Highway Act of 1976 (23 CFR pt. 655).	Donald P. Ryan 202-426-0411	FR January 1979.
Great River Road (FHPM 6-9-15)	This regulation would outline procedures to be followed in the funding, programing, and execution of a program for a national scenic and recreational highway in the Mississippi River Valley known as the Great River Road (23 CFR pt. 661).	V. Ciletti 202-426-0540	NPRM October 1978.
Review: Relinquishment of Highway Facilities (FHPM 6-1-1-8).	This regulation would prescribe Federal Highway Administration procedures relating to relinquishment of highway facilities (23 CFR pt. 620).	R. J. Kreklau or C. R. Green 202-426-0334	NPRM September 1978.
Certification Acceptance (FHPM 6-5-2).	This regulation which provides for instructions for preparation and acceptance of State certification proposals to accomplish the policies and objectives of 23 U.S.C. 117 would be amended to eliminate the requirement that States mark and submit State laws, regulations, etc., with a certificate acceptance request (23 CFR pt. 140).	C. R. Green 202-426-0334	FR September 1978.
Review: Reimbursement for Railroad Work (FHPM 1-4-3).	This regulation would prescribe policies and procedures on reimbursement to the States for railroad work done on projects undertaken pursuant to the provisions 23 CFR 646B (23 CFR pt. 140).	J. A. Carney 202-426-0104	NPRM December 1978.
Review: Utility Reclamation and Adjustment (FHPM 1-4-4).	This regulation would prescribe the policies and procedures for the adjustment and relocation of utility facilities on Federal-aid highway projects and projects under the direct supervision of the Federal Highway Administration (23 CFR pt. 145).	.....do	NPRM November 1978.
Review: Accommodation of Utilities (FHPM 6-6-2-3).	This regulation would prescribe policies and procedures for accommodating utility facilities on the rights-of-way of Federal and Federal-aid projects (23 CFR pt. 645).	.....do	Do.
Review: Railroad Highway Projects (FHPM 6-6-2-1).	This regulation would prescribe policies and procedures for advancing Federal-aid projects involving railroad facilities (23 CFR pt. 646).	.....do	NPRM December 1978.
Review: Federal Program Approval and Project Authorization (FHPM 6-3-2-2).	This regulation would prescribe policies and procedures for preparation and submission of programs for utilization of highway construction funds and describes authorization procedures FR issued August 11, 1978 (23 CFR pt 630).	V. Ciletti 202-426-0104	Action complete.
Review: Emergency Funds Procedure (FHPM 6-3-2-10).	This regulation would outline the procedures to be followed in the administration of emergency funds for the repair or reconstruction of Federal roads and Federal-aid highways damaged or destroyed by material disasters or catastrophic failures (23 CFR pt. 630).	.....do	FR October 1978.
Review: Public Lands Highways (FHPM 6-9-4-1).	This regulation would outline the procedures to be followed in administering funds authorized for Public Lands Highways (23 CFR pt. 660).	.....do	Do.
Review: Project Agreements (FHPM 6-3-1-1).	This regulation would prescribe the forms and procedures for the preparation and execution of the project agreement required by 23 U.S.C. 110(a) for Federal-aid projects (23 CFR pt. 630).	L. Pettigrew or C. R. Green 202-426-0334	NPRM December 1978.
Review: Exemption From Preparing Driver's Daily Logs for Operations Between Certain Fixed Locations (docket No. MC-70-2).	This regulation would propose to exempt certain drivers from preparing the driver's log when they operate between specified fixed locations or over the same route day after day within the allowable hours of service (49 CFR pt. 395).	Gerald J. Davis 202-426-9767	NPRM January 1979.
Review: Rear End Underride Protection (docket No. MC-77).	This regulation would propose to provide improved rear end protection on heavy motor vehicles manufactured after a certain date to prevent the underriding of vehicles which impact the rear of those vehicles (49 CFR pt. 393).	D. W. Morrison 202-426-1700	NPRM March 1979.

V 4 3 / 1 8 4 S E 2 1 7 8 V

FEDERAL HIGHWAY ADMINISTRATION—Continued

NONSIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Review: 100-Mile Exemption—Driver's Logs (docket No. MC-78).	This regulation would propose to increase the present 50-mile radius exemption from the daily log requirement to a radius of 100 miles (49 CFR pt. 395).	Gerald J. Davis 202-426-9767	FR January 1979.
Toxic Gases in Truck Cabs (docket No. MC-80).	This regulation would set maximum toxic gas levels in truck cabs (49 CFR pt. 399).	....do	NPRM January 1979.
Ambient Temperature in Heavy Duty Truck Cabs (docket No. MC-81).	This regulation would set maximum permissible ambient temperature in truck cabs (49 CFR pt. 399).	....do	Do.
Review: Parts and Accessories Necessary for Safe Operations (docket No. MC-82).	This regulation would aline the Federal Motor Carrier Safety Regulations with the Federal Motor Vehicle Safety Standards of the National Highway Traffic Safety Administration to ensure manufacturing and operational compatibility (49 CFR pt. 393).	D. W. Morrison 202-426-1700	FR March 1979.
Air-brake System on Commercial Motor Vehicles—NHTSA Standard No. 121 (docket No. MC-83).	This regulation would require that any antilock system installed on the drive axle of truck tractors to comply with FMVSS No. 121 be kept operative. Comment period extended indefinitely as a result of order issued by 9th circuit court, U.S. Court of Appeals in the *ACCAR, et al. v. NHTSA* case (49 CFR pt. 393).	....do	FR February 1979.
Review: Multi-day Log (docket No. MC-69-2).	This regulation amends the existing regulation dealing with the hours of service of drivers by extending the use of the multiday log past June 1978. Amendment published in the FEDERAL REGISTER on July 7, 1978 extending effect of driver log to Sept. 30, 1978 (49 CFR pt. 395).	Gerald J. Davis 202-426-9767	Action complete.
Review: Relocation Assistance Moving Payments—Moving Expense Schedules (FHPM 7-5-3).	This regulation would set forth the FHWA approved moving expense schedules which are applicable to all residential moves necessitated by all Federal programs administered by all Federal agencies. These schedules are reviewed and updated by each State highway department on a semiannual basis and approved by FHWA prior to final publication in the FEDERAL REGISTER semiannually (49 CFR 25).	R. G. King 202-426-0116	FR October 1978, FR March 1979.
Vegetation Planting Obscuring Legal Outdoor Advertising Signs (77-13).	An ANPRM was planned to address the possibility FHWA prohibiting Federal-aid assistance in new landscape plantings that may now or in the future obscure legal outdoor advertising signs. This proposal is no longer considered necessary.	Ken Rickerson 202-426-0314	Action complete.
Employment and Materials Report PR-47 (FHPM 6-4-1-9).	This regulation would implement new reporting procedures for the collection data on usage of highway construction materials, supplies and labor.	I. Staron 202-426-0404	NPRM September 1978.
Roadway Drainage	This regulation would provide FHWA policy and procedures for the design of roadway drainage systems for conveying runoff from highways (23 CFR pt. 650).	Frank L. Johnson or Philip L. Thompson 202-426-7890	NPRM June 1979.
Uniform Criteria for Warning Devices at Railroad-Highway Grade Crossings.	This ANPRM would invite comments and would request information relative to the issuance of uniform nationwide criteria for the selection of various types of warning devices to be installed at railroad-highway grade crossings, ANPRM issued Aug. 10, 1978 (23 CFR pt. 646).	J. A. Carney 202-426-0104	NPRM August 1979.

FEDERAL RAILROAD ADMINISTRATION

SIGNIFICANT REGULATIONS

Title	Summary	Contact	Decision date
Improved Glazing Materials for Railroad Rolling Equipment (docket No. RSGM-1).	A. *Description:* Glazing materials that resist puncture by bullets and rocks are available. FRA is considering requiring the use of these materials in the windows of locomotives, passenger cars, and cabooses. B. *Why significant:* Anticipated degree of controversy based on the responses to the ANPRM and an initial identification of cost factors in comparison with benefits achievable under such a rule. C. *Regulatory analysis:* Will be required. D. *Need:* Increasing frequency of incidents in which rocks and bullets are being directed at trains resulting in personal injuries or death for train crews and passengers. E. *Legal basis:* The Federal Railroad Safety Act of 1970 (45 U.S.C. 431). F. *Chronology:* The ANPRM was published Mar. 10, 1977 (42 FR 13309). Subsequently, demonstration testing has been done at Aberdeen Proving Grounds to evaluate some of the potential materials. FRA is evaluating the responses to the ANPRM and the demonstration testing to determine future action. G. *Citation:* No CFR citation as yet.	Philip J. Brannigan, 202-426-9186	NPRM September 1978.
Strobe Lights on Locomotives (docket No. RSGC-2).	A. *Description:* Lighted warning devices that include strobe lights have been shown to be more readily visible than normal lighting devices. FRA is considering requiring the installation of strobe lights on locomotives. B. *Why significant:* Anticipated interest on the part of State and local governments; intensity of controversy over bad side effects from strobe light exposure for train crews and degree of controversy reflected by response to ANPRM. C. *Regulatory analysis:* Will be required. D. *Need:* Grade crossing accidents represent the single largest group of railroad related fatalities each year. Available data indicate that the conspicuity of locomotives may be a factor in many of these accidents. Limited research with one railroad has indicated that equipping locomotives with strobe lights will improve their conspicuity and may lead to a reduction in these accident statistics. E. *Legal basis:* The Federal Railroad Safety Act of 1970 (45 U.S.C. 431).	John A. McNally, 202-426-9178	NPRM September 1978.

FEDERAL RAILROAD ADMINISTRATION—Continued

SIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Final Station Program Cost Sharing Determination (FRA Intercity Passenger docket No. 1).	F. *Chronology:* The ANPRM was published Mar. 7, 1978 (43 FR 9328). FRA is evaluating the responses to the ANPRM and is conducting a test program to obtain operational data concerning these devices. G. *Citation:* No CFR citations as yet. A. *Description:* Title VII of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 851 et seq.) provides for the upgrading by the Secretary of Transportation of the passenger railroad system between Washington, D.C., and Boston, Mass., including the funding of certain station improvements. Non-Federal parties will have to bear one-half of the cost of the nonoperational portions of stations (as determined by the Secretary) used in intercity passenger service and of related facilities. This notice would set forth the Department's proposed determination as to what will constitute a "nonoperational portion" of a station and a "related facility" for purpose of allocating station project costs between the Federal Government and other participating entities. B. *Why significant:* Anticipated great interest on the part of State and local transportation agencies due to the shared cost implication of the Secretary's determination. C. *Regulatory analysis:* None required. D. *Need:* Required by statute. E. *Legal basis:* Sec. 703(1)(b) of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 853(1)(b)). F. *Chronology:* A proposed determination was published at 43 FR 18394 (Apr. 28, 1978). It had been under development since early 1977. G. *Citation:* No CFR citation as yet.	Christopher Moffitt, 202-464-7737	FR October 1978.

NONSIGNIFICANT REGULATIONS

Blue Signal Protection of Workmen (docket No. RSOR-3, notice 14).	The proposed rule seeks to amend the regulation to resolve various operational difficulties created by current regulatory language (49 CFR pt. 218).	John A. McNally, 202-426-9179	Revised NPRM August 1978.
Construction of Railroad Employees Sleeping Quarters (docket No. HS-2).	The final rule would implement congressional directive in Hours of Service Act (45 U.S.C. 62(a)(4)) making it unlawful to begin construction of sleeping quarters in the immediate vicinity of a railroad yard. FR issued July 19, 1978 (43 FR 31006).	Grady C. Cothen, 202-426-8285	Action complete.
Railroad Bridge Safety Standards	The proposed rule would establish safety standards for inspection and rating of load capacity for railroad bridges.	William R. Paxton, 202-426-0912	NPRM December 1978.
Railroad Noise Emission Compliance Regulations (docket No. RNE-1).	The proposed rule would amend FRA railroad noise emission compliance regulations to reflect EPA standards for fixed railroad facilities that are to be issued by Aug. 30, 1978 (49 CFR pt. 210).	John A. McNally, 202-426-9178	NPRM February 1979.
Locomotive-Wheel Slip/Slide Indicators (docket No. LI-4).	The final rule would require wheel slip/slide indicators on locomotives and that these devices be repaired immediately if they become defective in service (49 CFR pt. 230).	Philip J. Brannigan, 202-426-9186	FR September 1978.
Track Safety Standards	The proposed rule would seek to make technical amendments to track safety standards to reflect research results and experience with current standards. (49 CFR pt. 213).	William R. Paxton, 202-426-0912	NPRM September 1978.
Rules, Standards, and Instructions for Railroad Signal Systems.	The proposed rule would seek to make miscellaneous technical amendments to the signal inspection rules (49 CFR pt. 236).	....do	NPRM October 1978.
Signal Systems Reporting Rules	The proposed rule would seek to require the reporting of failures of active grade crossing warning devices (49 CFR pt. 233).	....do	Do.
Safety Standards for Cabooses (docket No. RSC-76-8).	The proposed rule would seek to establish comprehensive safety standards for cabooses.	Philip J. Brannigan, 202-426-9186	NPRM December 1978.
Noise Levels for Train Crew Members	This action would explore feasibility of reducing noise exposure for train crews in both locomotive cabs and cabooses.	John A. McNally, 202-426-9179	ANPRM January 1979.
Speed Indicators on Locomotives	This proposed rule would seek to amend existing locomotive inspection rules to require speed indicators on locomotives and to require their immediate repair if they become defective in service (49 CFR pt. 230).	Philip J. Brannigan, 2092-426-9186	NPRM October 1978.
Maintenance, Inspection and Testing of Grade Crossing Devices (docket No. RSGC-1).	This proposed rule would seek to establish standards for the inspection, testing and maintenance of active highway grade crossing of warning devices.	William R. Paxton, 202-426-0912	NPRM August 1978.
Procedures for Considering Environmental Impacts (docket No. EP-1).	This action would set forth procedures for the construction, preparation and processing of environmental impact statements and related documents for FRA actions.	Brigid Hynes-Cherin, 202-426-8220	FR September 1978.
Rail Service Assistance to States Under Section 5 of the DOT Act (FRA Economic docket No. 4).	This action would amend 49 CFR pt. 266 to provide guidelines for a more comprehensive application for substitute service assistance.	Larry A. Friedman, 202-426-7710	FR October 1978.
Rail Banking Under Section 810 of the 4R Act of 1976 (FRA State Rail docket No. 1).	This action would amend the interim rail bank regulations (49 CFR pt. 270) based upon comments received. Congressional action on S. 2981 would repeal the authorized legislation and eliminate the need for further action.	....do	Do.
Intermodal Terminal Regulations Amendments (FRA State Rail docket No. 2).	On May 2, 1978, the regulations were amended to exclude certain functions transferred by law out of DOT, and to extend the deadlines for filing of applications. Although the regulations were issued in final form, comments were solicited until July 1, 1978. As warranted, changes will be made on the basis of the comments received.	Julius Gonoza, 202-755-9332	FR September 1978.

FEDERAL RAILROAD ADMINISTRATION—Continued

ROUTINE AND FREQUENT NONSIGNIFICANT REGULATIONS

Title	Summary	Contact	Decision date
Rear Markers on Trains (docket No. RSRM-1).	This final rule would establish penalty schedules for violations of rear marker requirements (49 CFR pt. 221).	John A. McNally, 202-426-9179	FR November 1978.
Rules for Use of Radio in Train Operations (docket No. RSOR-5).	This final rule would establish penalty schedules for violations of radio rule requirements (49 CFR pt. 220).	....do	FR December 1978.
Safety Appliances for Freight Cars	The proposed rule would seek to establish Safety Appliance Standards for newly designed equipment (49 CFR pt. 231).	Philip J. Brannigan, 202-426-9186	NPRM January 1979.
Accident/Incident Reporting Rules (docket No. RAR-2).	The proposed rule would seek to amend the accident reporting requirements by changing the monetary damage threshold for accidents required to be reported to FRA. This is a biennial adjustment to account for price changes (49 CFR pt. 275).	John A. McNally, 202-426-9179	NPRM November 1978.
Freight Car Safety Standards	This proposed rule would seek to make technical amendments to existing Freight Car Safety Standards to eliminate various problem areas (49 CFR pt. 215).	Philip J. Brannigan, 202-426-9186	NPRM January 1978.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

SIGNIFICANT REGULATIONS

Uniform Tire Quality Grading System (docket No. 25).	A. *Description:* Grade tires on tread-life, wet traction and temperature resistance. An effective date for radial tires needs to be issued. B. *Why significant:* This rule is considered significant because of public interest. C. *Regulatory analysis:* Will not be required. D. *Need:* This regulation is congressionally mandated and the Agency is under court order requiring its issuance. E. *Legal basis:* National Traffic and Motor Vehicle Safety Act of 1966, as amended. Title II. sec. 203. 15 U.S.C. 1453. F. *Chronology:* NPRM (38 FR 6194) issued in 1973 and final rule issued in May 1975 (40 FR 23073). The rule was challenged by the domestic manufacturers but was upheld, except for remand for minor changes, by the sixth circuit court of appeals. Final rule establishing effective dates for bias and belted bias tires issued July 12, 1978. G. *Citation:* 49 CFR 575.	Michael Brownlee, 202-426-1740	FR March 1979, (radials).
Light Trucks Fuel Economy Rulemaking.	A. *Description:* Would set average fuel economy standards for model years 1982-84 light trucks. B. *Why significant:* The rule is considered significant because of the impact on the automotive industry, the public, and energy consumption. C. *Regulatory analysis:* Will be required. D. *Need:* Conservation of petroleum. E. *Legal basis:* Motor Vehicle Information and Cost Savings Act, as amended. 15 U.S.C. 2002. F. *Chronology:* None yet. G. *Citation:* 49 CFR pt. 533.	Richard Strombotne, 202-426-0846	NPRM March 1979.
Air Brake Systems (docket No. 75-16).	A. *Description:* Proposes a moratorium on the antilock requirements of FMVSS 121 for trailers and the establishment of a test program to determine the effects of antilock. B. *Why significant:* The rule is considered significant because of the level of public and congressional interest. C. *Regulatory analysis:* Will not be required. D. *Need:* In response to complaints from truck users about the safety and reliability of the antilock systems. E. *Legal basis:* National Traffic and Motor Vehicle Safety Act of 1966, as amended (15 U.S.C. 1381 et seq.). F. *Chronology:* NPRM issued in March 1978 (43 FR 9626). The ninth circuit court of appeals, in April 1978, partially invalidated FMVSS 121. NHTSA has filed a petition for certiorari to the Supreme Court. The ninth circuit's ruling is stayed at least until the Supreme Court rules on the petition. The comment period on the NPRM was extended indefinitely by supplemental notice published June 8, 1978 (43 FR 24871). NHTSA will take appropriate action on this matter when the Supreme Court rules. G. *Citation:* 49 CFR pt. 121.	A. Malliaris, 202-426-0842	Dependent upon court actions.
Passenger Automobile Fuel Economy Rulemaking.	A. *Description:* Reevaluates average fuel economy standards for model years 1984 and 1985 passenger automobiles and would set average fuel economy standards for model year 1986 passenger automobiles. B. *Why significant:* The rule is considered significant because of the impact on the automotive industry, the public, and energy consumption. C. *Regulatory analysis:* Will be required. D. *Need:* Conservation of petroleum. E. *Legal basis:* Motor Vehicle Information and Cost Savings Act, as amended, 15 U.S.C. 2002. F. *Chronology:* None yet. G. *Citation:* 49 CFR 531.	Richard Strombotne, 202-426-0846	NPRM March 1979, FR December 1979.
Confidential Business Information	A. *Description:* Would codify existing method of processing confidential information from manufacturers. B. *Why significant:* This rule is considered significant because of the controversial nature of confidential business information. C. *Regulatory analysis:* Will not be required.	Joe Levin, 202-426-9511	FR November 1978.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION—Continued

SIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
	D. *Need:* To assure the manufacturer a more predictable process of information gathering and to streamline and speed up NHTSA use of data. E. *Legal basis:* National Traffic and Motor Vehicle Safety Act of 1966, as amended, and the Motor Vehicle Information and Cost Savings Act, as amended, 15 U.S.C. 1381; 15 U.S.C. 2002. F. *Chronology:* NPRM issued May 25, 1978 (43 FR 22412). G. *Citation:* 49 CFR 512.		

NONSIGNIFICANT REGULATIONS

School Bus Crash Protection (docket No. 73-03).	Would extend Federal Motor Vehicle Safety Standard (FMVSS) 222 to cover day-care center buses (49 CFR 571.222).	A. Malliaris 202-426-0842	NPRM September 1978.
Seat Belt Assemblies (docket No. 74-14).	Would improve seat belt comfort, convenience, reliability, and effectiveness by prescribing parameters for performance and dynamic testing of seat belt assemblies (49 CFR 571.208).	.....do	NPRM December 1978.
Child Restraint Systems (docket No. 74-9).	Would upgrade performance of all child restraints by performing dynamic tests using child and infant dummies; regulate infant restraints. NPRM issued May 10, 1978 (49 CFR 571.213).	.....do	FR October 1979.
School Bus Passenger Seating and Crash Protection (docket No. 73-03).	Would amend FMVSS 222 to increase the maximum allowable seat spacing in school buses from 20 to 21 inches; this spacing would accommodate large high school students while still ensuring a safe level of school bus seat performance (49 CFR 571.222).	.....do	FR November 1978.
School Bus Crash Protection (docket No. 73-03).	Would amend pt. 571.3 definitions to include a subclassification for "School Activities Bus" and amend FMVSS 222 as it would apply to this vehicle class (49 CFR 571.222).	.....do	NPRM July 1979.
Test Dummies Representing 3-year and 6-Month Old Children (docket No. 73-8).	Would provide specifications for dummies to be used in testing for compliance with FMVSS 213, child restraint systems, in conjunction with proposal to amend that standard to provide for dynamic testing and to extend its applicability. NPRM issued May 10, 1978 (49 CFR pt. 572).	.....do	FR October 1979.
Adjudicative Procedures—Fuel Economy.	Would establish procedures and rules of practice for adjudications to enforce the fuel economy provisions in title V of the Motor Vehicle Information and Cost Savings Act. This will be issued as an intermin regulation August 1978. The public will be invited to comment on the interim regulation. FR will be published December 1978.	Stephen Wood 202-426-2992	Interim regulation August 1978 FR December 1978.
Low Volume Manufacturers Fuel Economy Rulemaking (docket No. FE 76-04).	A rule may be proposed to refine the requirements regarding the contents of and procedures for disposition of petitions from low volume manufacturers for exemption and for establishment of alternative standards (49 CFR pt. 525).	Richard Strombotne 202-426-0846	NPRM November 1978.
Occupant Protection in Interior Impacts.	Would extend to trucks, buses, and multipurpose vehicles of 10,000 lbs or less, the current standard for passenger cars designed to cushion impact of passengers striking interior vehicle structures (49 CFR 571.201).	A. Malliaris 202-426-0842	NPRM September 1978.
Collapsible Steering Column	Extend to light trucks and possible upgrade (49 CFR 571.203).	.....do	Do.
Steering Control Rearward Displacement.	Extend to light trucks and possible upgrade (49 CFR 571.204).	.....do	Do.
Low Tire-Pressure Warning Indicator.	Would require a low pressure tire warning indicator on all vehicles which can be present to show a specified drop from recommended pressure (new).	.....do	NPRM December 1978.
Vehicle Exterior Protrusions	Would eliminate protrusions of the ornamental/identification type and sharp edges, both of which could cause injury to pedestrians, cyclists, and others (new).	.....do	NPRM September 1978.
Rearview Mirror (docket No. 74-20)	This technical amendment would modify the existing FMVSS 111 to improve compliance procedures, provide for optional plain and convex mirrors on trucks and upgrade heavy truck mirror systems (49 CFR 571.111).	.....do	NPRM January 1980.
Door Locks and Door Retention Components.	This technical amendment would clarify existing test procedures and extend the applicability of FMVSS 206 such that present side door requirements cover transverse rear doors (49 CFR 571.206).	.....do	NPRM December 1978.
Gross Coupling Weight Rating (docket No. 73-15).	An amendment to the regulations on certification (49 CFR 567) and of vehicles manufactured in 2 or more stages (49 CFR 568) would require labeling of the gross coupling weight rating for semitrailers.	Roger Compton 202-426-1767	FR September 1978.
Road Wheel Identification and Selection.	This proposal would establish certain requirements of wheel rims to reduce misapplication of wheels and thereby reduce accidents caused by radial overloading and cornering weakness (new).	A. Malliaris 202-426-0842	NPRM January 1979.
Fields of Direct View (docket No. 70-7).	This proposal would establish requirements for the maximum allowable size of obstructions in the field of view of drivers, the luminous transmittance of glazing, and the location and functional characteristics of sun visors (new).	.....do	NPRM August 1978.
Rear View Mirrors (docket No. 71-3a)	This proposal would amend FMVSS 111 to: (a) reduce the blind areas by upgrading mirror visibility using improved compliance testing procedures, (b) upgrade occupant protection requirements and add pedestrian protection requirements using shatter resistant and breakaway or foldaway tests, (c) set specifications for day-night reflectance requirements to reduce headlight glare, (d) set specifications for convex mirror quality and use, and (e) minimize obstruction of the forward view by establishing mirror location specifications (49 CFR 571.111).	.....do	Do.
Lamps, Reflective Devices, and Associated Equipment (docket No. 69-19).	This proposal will revise the minimum size requirement of lenses used on moped stop lamps. It is in response to a petition that the current requirements are excessively stringent (49 CFR 571.108).	.....do	NPRM October 1978.
Vehicle Identification Number (VIN) (docket No. 1-22).	This proposal would amend the VIN to extend its applicability and specify its content and format. NPRM issued Jan. 16, 1978 (49 CFR 571.115) FR issued Aug. 17, 1978.	.....do	Action complete.

V 43/184 SEP 21 1978

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION—Continued

NONSIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Occupant Crash Protection (docket No. 74-14).	Permit the use of continuous spool release mechanism in passive belts. NPRM issued May 22, 1978 (49 CFR 571.208).	....do	FR September 1978.
Seat Belt Anchorages (docket No. 2-14).	Responds to petition to exempt passive belts from requirements regarding location of anchorages. NPRM issued May 26, 1978 (49 CFR 571.210).	....do	FR August 1978.
Hydraulic Brake Systems (docket No. 70-27).	This proposal would extend coverage of FMVSS 105-75 from passenger cars to multi-purpose vehicles, buses, and all trucks (49 CFR 571.105).	....do	NPRM July 1979.
Headlight Candlepower	This proposal would increase the maximum allowable candlepower of motor vehicle headlighting systems from 75,000 cp to 150,000 cp. It would also require an identification code for headlamps. FR published July 27, 1978 (43 FR 32416) (49 CFR 571.108).	....do	Action complete.
Brake System Inspectability	Would establish certain levels of brake degradation as unsafe and to establish test procedures and criteria for measurement. The ANPRM would request technological approaches (new).	....do	ANPRM January 1979.
Theft Protection (docket No. 1-21)	Would amend existing standards to require separate keys for doors and ignition, door lock modifications, internal control of hood latch, modification in ignition wiring and ignition key alarm. Would apply to passenger cars, light trucks and vans. NPRM issued May 1, 1978 (49 CFR 571.114).	....do	FR February 1979.
Controls and Displays (docket No. 1-18).	This rule requires the use of symbols and allow the use of additional words if the manufacturer desires. Symbols allowed would generally conform to those adopted by the international standards organization to create an internationally uniform scheme. FR issued June 21, 1978 (43 FR 27541) (49 CFR 571.101).	....do	Action complete.
Brake Hoses (docket No. 1-5)	This amendment to FMVSS 106 relieves several restrictions relating to assembly labelling requirements. FR issued May 11, 1978 (49 CFR 571.106).	....do	Do.
Fuel Economy Exemptions			
Exemption from and Establishment of Fuel Economy Standards (docket No. LVM 77-01).	Analysis of petition of exemption from 1978 standard and setting of alternative standard for Avanti Motor Corp. FR issued June 29, 1978 (49 CFR 525).	R. Strombotne 202-426-0840	Do.
Do	Analysis of petition for exemption from 1979 and 1980 standards and setting of alternative standards for Avanti Motor Corp (49 CFR 525).	....do	NPRM September 1978, FR October 1978.
Exemption from and Establishment of Fuel Economy Standards (docket No. LVM 77-03).	Analysis of petition of exemption from 1978 standard and setting of alternative standard for Checker Motors NPRM issued June 8, 1978. FR issued Aug. 7, 1978 (43 FR 34785) (49 CFR 525).	....do	Action complete.
Do	Analysis of petition for exemption from 1979 and 1980 standards and setting of alternative standards for Checker Motors (49 CFR 525).	....do	NPRM September 1978, FR October 1978.
Exemption from and Establishment of Fuel Economy Standards (docket No. LVM 77-02).	Analysis of petition for exemption from 1978 standard and setting of alternative standard for Rolls-Royce Motor, Inc. NPRM issued July 15, 1978 (43 FR 30081) (49 CFR 525).	....do	FR September 1978.
Do	Analysis of petition for exemption from 1979 and 1980 standards and setting of alternative standards for Rolls-Royce Motors, Inc. (49 CFR 525).	....do	NPRM September 1978, FR December 1978.
Exemption from and Establishment of Fuel Economy Standards (docket No. LVM 77-04).	Analysis of petition for exemption from 1979-80 standards and setting of alternative standards for Aston Martin Lagonda. (49 CFR 525).	....do	NPRM October 1978, FR November 1978.
Exemption from and Establishment of Fuel Economy Standards (docket No. LVM 77-05).	Analysis of petition for exemption from 1978 standard and setting of alternative standard for Excalibur Automobile Corp. NPRM issued July 31 1978 (43 FR 33268) (49 CFR 525).	....do	FR September 1978.
	Analysis of petition for exemption from 1979 and 1980 standards and setting of alternative standards for Excalibur Automobile Corp. (49 CFR 525).	....do	NPRM August 1978, FR October 1978.
Exemption from and Establishment of Fuel Economy Standards.	Analysis of petition for exemption from 1978 standard and setting of alternative standard for Lamborghini S.p.A. (49 CFR 525).	....do	NPRM August 1978, FR September 1978.
Do	Analysis of petition for exemption from 1979 and 1980 standards and setting of alternative standards for Lamborghini, S.p.A. (49 CFR 525).	....do	NPRM December 1978, FR February 1979.
Do	Analysis of petition for exemption from 1978 standard and setting of alternative standard for Maserati S.p.A (49 CFR 525).	....do	NPRM August 1978, FR September 1978.
Do	Analysis of petition for exemption from 1979 and 1980 standards and setting of alternative standards for Maserati, S.p.A. (49 CFR 525).	....do	NPRM November 1978, FR January 1979.

URBAN MASS TRANSPORTATION ADMINISTRATION

SIGNIFICANT REGULATIONS

Withdrawal of Interstate Segments and Substitution of Alternative Projects (docket No. 77-9).	A. *Description:* The regulations would implement secs. 103(e)(2) and 103(e)(4) of Title 23, U.S.C. sec. 103(e)(2) provides for the withdrawal of nonessential interstate routes and the substitution of alternative interstate routes. Sec. 103(e)(4) provides for the withdrawal of nonessential interstate routes and the substitution of other transportation projects, both highway and nonhighway. B. *Why significant:* There is substantial public interest and controversy concerning this proposal. C. *Regulatory analysis:* Will be required. D. *Need:* This regulation is needed to implement the provisions of 23 U.S.C. sec. 103 enacted in the 1976 Federal-aid Highway Act.	R. White, 202-472-6991	NPRM August 1978, FR December 1978.

URBAN MASS TRANSPORTATION ADMINISTRATION—Continued

SIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
	E. *Legal basis:* 23 U.S.C. 103(e)(2) and 103(e)(4). F. *Chronology:* The current substitution regulations were issued on June 12, 1974. The Federal-Aid Highway Act Amendments of 1974 and the Federal-Aid Highway Act of 1976 amended the original statutory provisions enacted by the Federal-Aid Highway Act of 1973. G. *Citation:* 23 CFR pt. 476 subpt. D, and pt. 450.		
Payback for Interstate System Withdrawals and Modifications.	A. *Description:* The regulations would prescribe the disposition and use of property acquired with Federal-aid funds for highway projects which are later modified, withdrawn, or terminated. They would also prescribe the requirements for repayment (payback) of Federal-aid funds expended on such projects. B. *Why significant:* There is substantial public interest and controversy concerning the withdrawal under 23 U.S.C., 103(e)(4) of routes designated after Aug. 13, 1973 and the question of payback. C. *Regulatory analysis:* Will be required. D. *Need:* This regulation is needed to implement the provisions of 23 U.S.C. 103 enacted in the 1976 Federal-Aid Highway Act, and the provisions of OMB Circular 102. E. *Legal basis:* 23 U.S.C. 103(e). F. *Chronology:* Proposed regulations on payback were issued on Nov. 17, 1975 (40 FR 53252). Sec. 110(b) of the Federal-Aid Highway. Act of 1976 required substantial changes in the proposed regulations. The proposed regulations were withdrawn by an ANPRM on Sept. 27, 1976 (41 FR 42221). New proposed regulations were published on Aug. 7, 1978 (43 FR 35008). G. *Citation:* 23 CFR pt. 476.	R. White, 202-472-6991	FR November 1978.
Section 3(e) Regulations	A. *Description:* Pursuant to sec. 3(e) of the UMT Act, UMTA plans to publish procedures regarding the involvement of private mass transit operators in federally assisted programs. B. *Why significant:* While these regulations would implement statutory requirements, this is a controversial issue for both the transit industry and private operators. C. *Regulatory analysis:* Will not be required. D. *Need:* To resolve an area of continuing controversy. E. *Legal basis:* Sec. 3(e) of the UMT Act. F. *Chronology:* NPRM to be prepared by November 1978. G. *Citation:* 49 CFR pt. 619.	Robert Batchelder, 202-426-1908	NPRM November 1978.
Paratransit Policy	A. *Description:* UMTA will publish a policy regarding the availability of Federal assistance for public and private operators in the provision of paratransit services. In addition, an ANPRM will be issued seeking comments on development of more specific guidelines concerning paratransit and the involvement of private operators in the planning and provision of service. B. *Why significant:* Any major policy regarding UMTA assistance such as this will be of public interest. C. *Regulatory analysis:* Will not be required. D. *Need:* To provide uniform guidance to public and applicants. E. *Legal basis:* The UMT Act, 49 U.S.C. 1601. F. *Chronology:* ANPRM to be prepared and issued by September 1978. G. *Citation:* None.	Douglas Birnie, 202-426-4060	NPRM September 1978.
Urban Transportation Planning Process, and Transportation Improvement Program.	A. *Description:* Revisions to these regulations may include: (1) Periodic rather than annual certification. (2) Elimination of narrative discussion on merging long-range and transportation systems management plan elements and inclusion of nonfederally funded project in the transportation improvement program. (3) Added flexibility in initiating and selecting highway projects. (4) Implementation of planning related aspects of the 1977 amendments to the Clean Air Act (NPRM August 1978). B. *Why significant:* These are significant regulations since they can substantially streamline transportation planning and would have substantial impact on FHWA. C. *Regulatory analysis:* Will not be required. D. *Need:* Continuing review has identified areas where added flexibility will not impair effectiveness. The air quality planning must be included in accordance with the DOT-EPA memoranda of understanding. E. *Legal basis:* 23 U.S.C. 104(f)(3), 134 and 315. F. *Chronology:* Following agreement with FHWA and EPA with respect to air quality, proposed regulatory changes will be prepared. G. *Citation:* 23 CFR pt. 450, subpts. A and C.	Urban Mass Transportation Administration, Bob Kirkland, 202-426-4991; Federal Highway Administration, Vincent Paparella, 202-426-2961	NPRM November 1978.
Environmental Procedures	A. *Description:* The Council on Environmental Quality will be issuing new procedures to implement the National Environmental Policy Act. These procedures will require all Federal agencies to implement new environmental regulations. B. *Why significant:* UMTA policy in this area may be expected to be of substantial interest to both UMTA grantees and the public. C. *Regulatory analysis:* Will not be required. D. *Need:* To provide uniform guidance to the public and applicants. E. *Legal basis:* NEPA, CEQ regulations, and DOT order 5610.1. F. *Chronology:* NPRM to be issued by January 1979. G. *Citation:* 49 CFR pt. 617.	Daniel Duff, 202-426-1907	NPRM January 1979.

URBAN MASS TRANSPORTATION ADMINISTRATION

SIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Rural and Small Urban Public Transportation.	A. *Description:* Proposed regulation would implement proposed new transportation legislation providing for a continuing program of rural and small urban public transportation including operating subsidies. B. *Why significant:* The proposed new program involves FHWA and UMTA and impacts State and local transportation programs. C. *Regulatory analysis:* Will not be required. D. *Need:* The proposed regulation would implement legislation by providing for administration of the rural and small urban public transportation assistance program. E. *Legal basis:* Proposed legislation. F. *Chronology:* A DOT rural and small urban working group is now summarizing the policy issues for the proposed program. Field trips are now in progress for Federal officials to visit States and rural and small urban projects. The NPRM is to be published in November 1978. G. *Citation:* No CFR citation as yet.	UMTA, Lillian Liburdi 202-426-4050; FHWA, Donald Morin, 202-426-0210	NPRM November 1978.
NONSIGNIFICANT REGULATIONS			
Charter and School Bus Regulations (49 CFR Pt. 604 and Pt. 605).	These regulations provide more detailed information regarding the restrictions placed on charter and school bus operations in sec. 3(f) and 3(g) of the UMT Act, 49 U.S.C. 1601. UMTA has received considerable comment as a result of a NPRM dated Jan. 25, 1977, and it is now planning to issue another NPRM for comment.	Prentis Cook, 202-426-1906	NPRM October 1978.

SAINT LAWRENCE SEAWAY DEVELOPMENT CORPORATION

Rules of Procedure of the Joint Review Board.	*Nonsignificant regulations:* Revision of joint United States-Canadian procedures for the appeal of the classification of a particular commodity under the joint Seaway tariff of tolls. FR Issued July 1978.(43 FR 30533).	Robert D. Kraft, 202-426-3574	Action complete.
Operational Regulations	*Routine and frequent:* Annual update of operational regulations developed for the most part jointly with Seaway Authority of Canada.	Frederick A. Bush, 315-764-0271	March 1979.

RESEARCH AND SPECIAL PROGRAMS ADMINISTRATION

SIGNIFICANT REGULATIONS

Highway Routing of Radioactive Materials.	A. *Description:* This regulation would establish routing requirements for the highway carriage of radioactive materials. B. *Why significant:* There is substantial public interest and controversy over the regulation and it would have significant impact on another operating administration. C. *Regulatory analysis:* Will not be required. D. *Need:* To generate public comments which will aid in deciding whether additional Federal routing requirements are necessary for the highway transportation of radioactive materials. E. *Legal basis:* 49 U.S.C. 1803, 1804, and 1808. F. *Chronology:* Administrative ruling: Published a public notice and invitation to comment on Aug. 15, 1977 (42 FR 41202); public hearing was held on Nov. 10, 1977 (42 FR 54487); ruling published Apr. 20, 1978 (42 FR 16954); rulemaking: targeted date of issuance of NPRM July 1979: targeted date of final rule, July 1980. G. *Citation:* 49 CFR pt. 177.	D. Crockett, 202-755-4972	ANPRM August 1978.
Development of New Standards for Transportation of Hazardous Waste Materials (Docket No. HM-145A).	A. *Description:* Would establish new standards and procedures for the transportation of hazardous waste materials. B. *Why significant:* This regulation would have a significant impact on the operating administrations and another Federal agency. C. *Regulatory analysis:* Will not be required. D. *Need:* These standards are necessary to govern the transportation of hazardous waste materials and to provide consistency with the hazardous waste materials regulations to be promulgated by EPA under the Resource Conservation and Recovery Act. E. *Legal basis:* (49 U.S.C. 1803, 1804, and 1808). F. *Chronology:* NPRM jointly developed with EPA, public hearing held on Oct. 26, 1977 (42 FR 51625); NPRM issued May 25, 1978 (43 FR 22626); public hearing on NPRM held on June 20, 1978 (43 FR 22626); targeted date of final rule to be issued March 1979. G. *Citation:* 49 CFR pts. 171, 172, 173, 174, 175, 178, and 177.	A. Roberts, 202-426-0656	FR March 1979.
Development of new standards for LNG facilities (docket No. OPSO-46).	A. *Description:* Comprehensive new standards would be proposed for the siting, design, construction, operation, and maintenance of LNG facilities. B. *Why significant:* There will be substantial public interest and controversy over this regulation. C. *Regulatory analysis:* Will not be required. D. *Need:* The concerns of Federal, State, and local agencies over LNG safety. E. *Legal basis:* 49 U.S.C. 1672.	P. Hammond, 202-426-0135	NPRM December 1978.

RESEARCH AND SPECIAL PROGRAMS ADMINISTRATION—Continued

SIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
	F. *Chronology:* ANPRM (42 FR 20776) Apr. 21, 1977, closing date for comments December 1977. NPRM (siting and design) December 1978. NPRM (construction, operation, and maintenance) March 1979. Final rules (siting and design) August 1979. Final rules (construction, operation, and maintenance) December 1979. G. *Citation:* 49 CFR pt. 193 (new).		
NONSIGNIFICANT REGULATIONS			
Retrofit Program for DOT 112 and 114 Tank Cars (docket No. HM-144).	Consideration of possible changes in the current schedule to retrofit DOT 112 and 114 tank cars with safety devices. NPRM issued May 1976 (49 CFR pt. 179). FR issued July 1978 (43 FR 30057).	W. Black, 202-426-2748	Action complete.
Repairs and Maintenance of Vehicles (docket No. HM-110).	Would establish conditions under which repair and maintenance may be performed on motor vehicles containing hazardous materials (49 CFR 177.854).	J. Horning, 202-755-4902	FR August 1978.
Intermodal Portable Tank	Proposed standards for new specifications for portable tanks and procedures for use of these portable tanks for certain hazardous materials (new sections, pt. 178).	E. Altemos, 202-426-0656	NPRM September 1978.
Location of Manhole Assemblies and Certification Plates on Cargo Tanks (docket No. HM-136).	Would specify the location of a manhole assembly on a cargo tank and authorize the attachment of certification plates to an integral supporting structure of certain cargo tanks (49 CFR 178.337, 178.340).	J. Horning, 202-755-4902	FR August 1978.
Review: Recodification of radioactive requirements.	Proposed consolidation, simplification and recodification of the existing requirements applicable to the transportation of radioactive materials (new pt. 127).	R. Rawl, 202-426-2311	NPRM September 1978.
Blasting Agents (docket No. HM-143).	Proposed new standards for the transportation of blasting agents (49 CFR 173.98).	C. Schultz, 202-755-4906	FR September 1978.
Transportation of Asbestos (docket No. HM-160).	Proposed standards to control asbestos emissions during transportation (49 CFR 172.101, 173.1090).	A. Roberts, 202-426-0656	Do.
Safety Improvement Program for DOT 105 Tank Cars.	Consideration of possible changes to current safety performance standards of DOT 105 tank cars (49 CFR pt. 179).	W. Black, 202-426-2748	NPRM September 1978.
Color Coding of Compressed Gas Packages (docket No. HM-141).	Reconsideration of color standard to be applied to compressed gas cylinders as a safety measure (49 CFR pt. 172).	P. Seay, 202-755-4906	Withdrawal September 1978.
Commercial Detonators and Detonating Primers (docket No. HM-161).	Proposed standards for establishing appropriate shipping descriptions and hazard classifications for many detonators which are currently used in commercial service; NPRM issued May 1978 (49 CFR 172.101).	C. Schultz, 202-755-4906	FR October 1978.
Use of Metric System	Proposal to allow the use of metric system of measurements in place of the present U.S. liquid measure and the avoirdupois weight measurement. NPRM issued June 1978 (49 CFR 173.26).	A. Roberts, 202-426-0656	Do.
Cryogenic Liquids (docket No. HM-115).	Proposed standards and procedures for the transportation of cryogenic liquids (49 CFR 172.101, 173.316).	P. Seay, 202-755-4906	NPRM November 1978.
Operating Safety Concerns for Aircraft.	Proposed standards for the safe operation of aircraft having certain hazardous materials aboard (49 CFR pt. 175).	L. Metcalfe, 202-755-4902	Do.
Availability of Shipping Papers to Emergency Response Personnel.	Proposal to require shipping papers covering hazardous materials to be made available by train crew to emergency personnel (49 CFR 174.24).	J. Horning, 202-755-4902	Do.
Use of United Nations Materials Shipping Terminology/Numbers.	Proposed incorporation of shipping descriptions and serial numbers from United Nations regulations covering the transport of dangerous goods (49 CFR 172.101).	E. Altemos, 202-426-0656	NPRM December 1978.
Definition of a Flammable Solid (docket No. HM-118).	Proposed new standards for classifying a material as a flammable solid (49 CFR 173.150)	C. Schultz, 202-755-4906	NPRM March 1979.
Radiation Exposure of Transportation Workers.	Consideration of methods which will reduce radiation exposure levels to transportation workers (new sections).	R. Rawl, 202-426-2311	Do.
Requirements for Radioactive Materials (docket No. HM-152).	Proposed revision of certain sections of pt. 175 which will reduce the exposure to radioactive materials for passengers aboard aircraft (49 CFR pt. 175).	do	FR January 1979.
Forbidden Materials (docket No. HM-159).	Proposed standards to add the names of materials to the hazardous materials table that are known to be too hazardous to be permitted in commercial transportation (49 CFR 172.101).	C. Schultz, 202-755-4906	NPRM February 1979.
Review: Recodification of Operating Procedures for Motor Vehicles.	Proposed simplification and recodification of the existing operating procedures for transportation of hazardous materials by motor vehicles as prescribed in pt. 177 (49 CFR pt. 177).	D. Goodman, 202-426-1700	NPRM March 1979.
Revision of Certain Requirements Applicable to Radioactive Materials.	Proposal to require labeling of excepted radioactive materials packages and notation on shipping papers regarding losses of radioactive shipments. This proposal has been reconsidered; no regulations are being developed.	A. Grella, 202-426-2311	Action complete.
Qualification and Design of Steel Pipe (docket No. 77-10).	The manufacturing and design requirements for steel pipe (including grade X-70) in the 1977 editions of API5LX and API 5LS would be incorporated by reference. FR issued May 1978 (49 CFR pts. 192, 195).	P. Cory, 202-426-2082	Do.
Safety Plans for Normal Operations and Emergencies for Pipelines Carrying Highly Volatile Liquids, e.g., LPG/NH$_3$ (49 CFR pt. 195) (project No. 175-7).	Criteria would be proposed to govern a carrier's plans for preventing and handling emergencies for pipelines carrying highly volatile liquids (LPG/NH$_3$).	do	NPRM August 1978.
Standards to Reduce Spill Size Risks, Associated with Pipeline Transportation of Highly Volatile Liquids Such as Liquid Petroleum Gas (project No. 173-7).	Valve spacing or other requirements would be proposed to minimize the amount of commodity or vapor that can spread into populated areas in event of a spill (49 CFR pt. 195).	F. Robinson, 202-426-2082	NPRM August 1978.

RESEARCH AND SPECIAL PROGRAMS ADMINISTRATION—Continued

NONSIGNIFICANT REGULATIONS—continued

Title	Summary	Contact	Decision date
Joining and Testing Plastic Pipe (project No. 178-8).	Requirements involving joining procedures, personnel training, or field tests would be proposed to assure the integrity of plastic pipe joints (49 CFR pt. 192).	P. Cory, 202-426-2082	NPRM September 1978.
Standards to Reduce Pipeline Failure Rates in Pipelines Carrying Highly Volatile Liquids (LPC/NH_3) (project No. 52-41).	Testing or operating requirements would be proposed to assure the safe operation of existing pipeline transporting highly volatile liquids (49 CFR pt. 195).	G. Mocharko, 202-426-2082	NPRM October 1978.
System Failure Warning (docket No. OPS-29).	Advance notice of proposed rulemaking on use of telemetry for pressure or flow measurements to warn of system failure would be withdrawn (49 CFR pt. 192).	L. Furrow, 202-426-0135	Withdrawal September 1978.
Definition of "Gathering Line" (docket No. OPS-31).	Notice of proposed rulemaking to redefine the term "gathering line" would be withdrawn (49 CFR pt. 192).	....do....	Do.
Corrosion Control (project No. 176-7).	Changes would be proposed to current cathodic protection requirements to alleviate compliance burdens (49 CFR pt. 192).	G. Mocharko, 202-426-2082	NPRM August 1978.
Requirements for Reporting Gas Incidents (docket No. OPS-49).	The present reporting forms would be revised to provide additional and more appropriate information about gas safety problems and to require reports from certain systems not now covered. NPRM issued June 1978 (49 CFR pt. 191).	A. Garcia, 202-426-2082	FR November 1978.
ROUTINE AND FREQUENT NONSIGNIFICANT REGULATIONS			
Conversion of Individual Exemptions to Regulations of General Applicability (docket No. HM-139).	NPRM approximately every 3 mo.; with FR targeted approximately 2 mo. thereafter.	D. Raines, 202-755-4963	June 1978 to June 1979.
Minor Regulatory Adjustments to Regulations of General Applicability (docket No. HM-DOD).	NPRM approximately every 4 mo.; with FR targeted approximately 2 mo. thereafter.	....do....	June 1978 to June 1979.
Matter Incorporated by Reference (docket No. HM-22).	NPRM every 6 mo.; with FR targeted 2 mo.; thereafter.	J. Horning, 202-755-4902	June 1978 to June 1979.
Withdrawal of certain delegations of authority to the Bureau of Explosives (docket No. HM-163).	Prior responsibilities delegated to the Bureau of Explosives would be withdrawn in series of rulemaking actions. NPRM every 3 mo.; with FR targeted 2 mo. thereafter.	D. Raines, 202-755-4963	June 1978 to June 1979.

DEPARTMENT OF TRANSPORTATION, REGULATIONS REVIEW LIST

U.S. COAST GUARD

REVIEWS UNDER CONDITION

Regulations selected for review	Reasons for selection	Contact	Decision date
Charges for duplicate medals and sales of personal property, equipment, or services and rental (33 CFR 1.26).	Length of time since last evaluated; changing economic factors.	Mr. A. Bell, 202-426-1863	October 1978.
Delegation of authority (33 CFR 1.01).	Section is out-of-date and will be reviewed for possible consolidation with other related sections	Mr. B. Novak, 202-426-2299	Do.
Regulations, U.S. Coast Reserve (33 CFR pt. 8).	Length of time since last evaluated; need to reflect changed procedures.	Capt Grover, 202-426-2348	December 1978.
Boating safety: Equipment requirements—personal flotation devices (33 CFR 175.15).	Length of time since last evaluated; research and development project initiated to determine need for carriage regulations revision.	Lt Gauthier, 202-426-4176	August 1980.
Boats and associated equipment: Safe loading (33 CFR pt. 183, subpt. C).	Length of time since last evaluated; standards may not be effective for all boats to which these regulations apply.	Mr. L. Gray, 202-426-4027	January 1979.
Boats and associated equipment: Safe powering (33 CFR pt. 183, subpt. D).	....do....	....do....	January 1980.
Boats and associated equipment: Flotation Standards (33 CFR pts. 90-105).	Length of time since last evaluated; standards may be limited in applicability.	....do....	August 1980.
Marine investigation regulations (46 CFR pt. 4).	Being reviewed for purposes of simplification, clarification, and accuracy. Review completed on June 1978, and no revision is planned.	CDR Whaley, 202-426-1455	
Suspension and revocation proceedings (46 CFR pt. 5).	....do....	Ldr O'Pezio, 202-426-2215	
Vessel inspection (46 CFR pt. 2).....	Being reviewed for purposes of simplification, clarification, and accuracy.	Ldr Anderson, 202-426-2183	December 1978.
Regattas and marine parades (33 CFR pt. 100).	Length of time since last evaluated; survey of district commanders will determine whether changes in existing regulations are needed.	Lt Gauthier, 202-426-4176	Do.
	FEDERAL AVIATION ADMINISTRATION		
	REVIEWS UNDER CONSIDERATION		
Objects affecting navigable airspace (14 CFR pt. 77).	These regulations were selected for review to determine whether the requirements for evaluation of objects intruding into the navigable airspace need to be clarified and to determine the FAA's proper role and functions in obstruction evaluation. A decision was made to proceed with regulatory development. For further information regarding this item see the FAA's portion of the agenda for nonsignificant regulations.	O. E. Falsetti, 212-426-8777	
Rotorcraft review.....	These regulations were selected for review to determine the need for (1) developing IFR airworthiness standards for rotorcraft certification, and (2) improving and updating the rotorcraft airworthiness requirements and operating regulations.	Joe Sullivan, 212-755-8716	October 1978.
	FEDERAL HIGHWAY ADMINISTRATION		
	REVIEWS UNDER CONSIDERATION		
	FHWA has conducted, since 1977, reviews of all the regulations in the Federal-aid highway program manual and the Federal motor carrier safety regulations. The reviews have been completed. There are, consequently, no reviews currently under consideration. The FHWA portion of the agenda lists those regulatory actions that will be taken in the next 12 mos. as a result of the reviews.	Dennis Judycki, 202-426-0848	
	FEDERAL RAILROAD ADMINISTRATION		
	REVIEWS UNDER CONSIDERATION		
General safety inquiry.....	FRA has initiated a general railroad safety inquiry to obtain information from the public to assist in evaluating and improving the effectiveness of its safety regulatory program. A series of public hearings, each focused on a single regulatory topic covered by FRA regulations, will be held throughout the remainder of 1978. See 43 FR 19696 for a listing of the topics to be covered and the hearing dates.	Rolf Mowatt-Larssen, 202-426-0924	Completion December 1978.
Freight car safety standards (49 CFR pt. 215).	A large number of complaints and petitions have been received relative to these regulations. The railroad industry alleges that parts of these regulations are not truly safety requirements. Amendments could incorporate new safety requirements based on laboratory and service tests as well as operating experience.	Philip J. Brannighan, 202-426-9186	Completion June 1979.
Guarantee of certificates of trustees of railroads in reorganization (pursuant to the Emergency Rail Services Act of 1970) (49 CFR pt. 250).	This program is likely to become active again due to the July 1, 1978 repayment of $50 million in trustee certificates by the Penn Central trustees. The regulations will be reviewed to determine whether the information requirements should be modified to make them consistent with the regulation issued under FRA's other loan guarantee program. (49 CFR pt. 260).	Robert Vermut, 202-426-7737	August 1978.

FEDERAL RAILROAD ADMINISTRATION—Continued
REVIEWS UNDER CONSIDERATION—continued

Regulations selected for review	Reasons for selection	Contact	Decision date
Nondiscrimination on federally assisted railroad programs (49 CFR pt. 265).	In working with the "sec. 905" regulations regularly for a year or more, FRA has found that there are inconsistencies in definitions compared with other Federal regulations and programs concerned with barring discrimination against minorities. Further, although the regulations cover the northeast corridor improvement project ("NECIP"), they are not written to accommodate a construction contract program, making application of the regulations to the NECIP needlessly cumbersome and difficult. Further, consideration is being given to developing criteria for determining "bona fides" of minority businesses.	Rufus Watson, 202-472-5438	September 1978.
Loans under the Emergency Rail Facilities Restoration Act (49 CFR pt. 252).	The programs to which these regulations apply have accomplished their purpose and been terminated. Termination notice issued June 1978.	Jeffery Mercer, 202-426-7737	Action complete
Payments to trustees of railroads in reorganization for the continued provision of essential transportation services pursuant to sec. 213(a) of the Regional Rail Reorganization Act of 1973 (49 CFR pt. 253).	....do	....do	Do.
Agreements pursuant to sec. 215 of the Regional Rail Reorganization Act of 1973 (49 CFR pt. 254).	....do	....do	Do.
Acquisition and modernization loan assistance (49 CFR pt. 257).	The authority for these regulations is found in secs. 402 and 403 of the Regional Rail Reorganization Act of 1973. Those sections were repealed as of Apr. 1, 1978, pursuant to sec. 806 of the Railroad Revitalization and Regulatory Reform Act of 1976. This program has never been funded and is inactive. Termination notice issued June 1978.	Patrick O'Driscoll, 202-426-7710	Do.
Assistance to State, local and regional transportation authorities in the northeast region for continuation of local rail services (49 CFR pt. 255).	Sec. 402 of the Regional Rail Reorganization Act of 1973 was repealed as of Apr. 1, 1978. Because grants entered into prior to Apr. 1, 1978 are still in effect and subject to the regulations, a determination will be made as to when 49 CFR pt. 255 will be repealed after the grants have expired.	Larry Friedman, 202-426-7710	Expiration of sec. 402 grants—June 1981.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

DEPARTMENT OF STATE

[Public Notice 627]

FISHERY CONSERVATION AND MANAGEMENT ACT OF 1976

Applications for Permits To Fish Off the Coasts of the United States

The Fishery Conservation and Management Act of 1976 (Pub. L. 94-265) (the "Act") provides that no fishing shall be conducted by foreign fishing vessels in the fishery conservation zone of the United States after February 28, 1977, except in accordance with a valid and applicable permit issued pursuant to section 204 of the Act.

The Act also requires that all applications for such permits be published in the FEDERAL REGISTER.

Applications for fishing during 1978 have been received from the Governments of Japan, the Polish People's Republic, and the Socialist Republic of Romania, and are published herewith.

Dated: September 12, 1978.

BRIAN S. HALLMAN,
Acting Director,
Office of Fisheries Affairs.

SUBCHAPTER B—TAKING, POSSESSION, TRANSPORTATION, SALE, PURCHASE, BARTER, EXPORTATION, AND IMPORTATION OF WILDLIFE

PART 20—MIGRATORY BIRD HUNTING

Late Seasons, and Bag and Possession Limits for Certain Migratory Game Birds in the United States

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: This rule prescribes the late open seasons, shooting hours, areas, and bag and possession limits for certain migratory game birds, i.e., general waterfowl seasons; special seasons for scaup and goldeneyes; extra scaup and blue-winged teal in regular seasons; most sandhill crane seasons in the Central Flyway; coots, gallinules, and snipe in the Pacific flyway; and additional falconry seasons. The taking of the designated species of migratory birds is prohibited unless open hunting seasons are specifically provided. The rules will permit taking of the designated species within specified periods of time beginning as early as September 30, as has been the case in past years, and benefit the public by opening the seasons which are presently closed.

EFFECTIVE DATE: September 21, 1978.

FOR FURTHER INFORMATION CONTACT:

John P. Rogers, Chief, Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C., telephone 202-254-3207.

SUPPLEMENTARY INFORMATION: The Migratory Bird Treaty Act of July 3, 1918 (40 Stat. 755; 16 U.S.C. 703 et seq.), as amended, authorizes and directs the Secretary of the Interior, having due regard for the zones of temperature and for the distribution, abundance, economic value, breeding habits, and times and lines of flight of migratory game birds to determine when, to what extent, and by what means such birds or any part, nest, or egg thereof may be taken, hunted, captured, killed, possessed, sold, purchased, shipped, carried, exported, or transported.

The annual process for developing migratory game bird hunting regulations is divided into those for "early" seasons and those for "late" seasons. Early seasons include those which open before September 30, while late seasons open on or after September 30. Regulations are developed independently for early and late seasons. The early season regulations cover mourning doves, white-winged doves, band-tailed pigeons, rails, gallinules, woodcock, common snipe, sea ducks in the Atlantic Flyway, teal in September in the Central and Mississippi Flyways, sandhill cranes in North Dakota and South Dakota, doves in the Virgin Islands and Hawaii, all migratory game birds in Puerto Rico and Alaska, and some special falconry seasons. Late seasons include the general waterfowl seasons; special seasons for scaup and goldeneyes; extra scaup and blue-winged teal in regular seasons; most sandhill crane seasons in the Central Flyway; coots, gallinules, and snipe in the Pacific Flyway; and additional special falconry seasons.

Certain general procedures are followed in developing regulations for both the early and the late seasons. Initial regulatory proposals are first announced in a FEDERAL REGISTER document in mid-February, and opened to public comment. As additional information becomes available, and comments on the initial proposals are received and considered, supplemental proposed rulemakings are published in the FEDERAL REGISTER. At the terminatin of the comment periods and following a public hearing, the Service develops and publishes the proposed frameworks for times of seasons, season lengths, shooting hours, daily bag and possession limits, and other regulatory restraints or options. Following another public comment period and after consideration of additional comments, the Service publishes in the FEDERAL REGISTER the final frameworks. Using these frameworks, State conservation agencies select hunting season dates and offered options. States may select more restrictive seasons and options than those offered in the Service's frameworks. The final regulations, reflected in amendments to Subpart K of 50 CFR Part 20 then appear in the FEDERAL REGISTER, and become effective upon publication.

This year the process was implemented as follows. On February 14, 1978, the Service published for public comment in the FEDERAL REGISTER (43 FR 6275) proposals to amend 50 CFR Part 20, with a comment period ending May 16, 1978. That document dealt with the establishment of seasons, limits, and shooting hours for migratory birds under §§ 20.101 through 20.107 of subpart K. On May 25, 1978, the Service published for public comment in the FEDERAL REGISTER (43 FR 22421) the second document in the series consisting of supplemental proposed rulemaking dealing specifically with a number of additional or modified proposals and clarification or correction of minor portions of the earlier document. On June 28, 1978, the Service also published for public comment in the FEDERAL REGISTER (43 FR 28012) the third document in the series consisting of supplemental proposed rulemaking dealing specifically with proposed frameworks for early season migratory bird hunting regulations from which, when finalized, States could select season dates and daily bag and possession limits for the 1978-79 season. On June 30, 1978, the Service published in the FEDERAL REGISTER (43 FR 28499) the fourth document in the series consisting of final rulemaking dealing specifically with final frameworks from which wildlife conservation agency officials in Alaska, Puerto Rico, and the Virgin Islands could select season dates for hunting certain migratory birds in Alaska, Puerto Rico, and the Virgin Islands during the 1978-79 season. On July 24, 1978, the Service published in the FEDERAL REGISTER (43 FR 32098) the fifth document in the series consisting of final rulemaking dealing specifically with final frameworks for early season migratory bird hunting regulations in all States during the 1978-79 season from which States selected early season dates and daily bag and possession limits for the 1978-79 season. On August 11, 1978, the Service published in the FEDERAL REGISTER (43 FR 35900) the sixth document in the series consisting of final rulemaking amending subpart K of 50 CFR Part 20 to set open hunting seasons, certain closed areas, shooting hours and bag and possession limits for mourning doves, white-winged doves, band-tailed pigeons, rails, woodcock, snipe, and gallinules; September teal seasons; sea ducks in certain defined areas of the Atlantic Flyway; sandhill cranes in designated portions of North Dakota and South Dakota; and migratory game birds in Alaska, Hawaii, Puerto Rico, and the Virgin Islands. On August 11, 1978, the Service also published for public comment in the FEDERAL REGISTER (43 FR 35890) the seventh document in the series consisting of supplemental proposed rulemaking dealing specifically with proposed frameworks for late season migratory bird hunting regulations from which, when finalized, States could select season dates and daily bag and possession limits for the 1978-79 season. On August 25, 1978, the Service published in the FEDERAL REGISTER (43 FR 38010) the eighth document in the series consisting of an amendment to correct typographical errors in season

dates for mourning doves in Texas. On September 1, 1978, the Service published in the FEDERAL REGISTER (43 FR 39286) the ninth document in the series consisting of final frameworks for late season migratory bird hunting regulations from which States selected late season dates and daily bag and possession limits for the 1978-79 season. The present document is the 10th in the series of proposed, supplemental, and final rulemaking documents for migratory game bird hunting regulations and consists of final rulemaking amending subpart K of 50 CFR Part 20 to set open hunting seasons, certain closed areas, shooting hours, and bag and possession limits for waterfowl, coots, and gallinules; sandhill cranes in parts of New Mexico, Texas, Colorado, Oklahoma, Montana, and Wyoming; common snipe in the Pacific Flyway; and additional extended falconry seasons.

On June 21, 1978, a public hearing was held in Washington, D.C., as announced in the FEDERAL REGISTER on February 14, 1978 (43 FR 6275), and May 25, 1978 (43 FR 22421), to review the status of mourning doves, woodcock, band-tailed pigeons, white-winged doves, rails, gallinules, sandhill cranes in North Dakota and South Dakota, and common snipe. Proposed hunting regulations for these species were discussed plus those governing migratory game birds in Alaska, Puerto Rico, and the Virgin Islands; Mourning doves in Hawaii; September teal seasons in the Mississippi and Central Flyways; and special sea duck seasons in the Atlantic Flyway. Statements or comments were invited.

On August 2, 1978, a public hearing was held in Washington, D.C., as announced in the FEDERAL REGISTER on February 14, 1978 (43 FR 6275), and May 25, 1978 (43 FR 22421), to review information on population status and proposed hunting regulations for waterfowl, coots, and gallinules; sandhill cranes in Colorado, New Mexico, Oklahoma, Texas, Montana, and Wyoming; common snipe in the Pacific Flyway; and special falconry regulations. Statements or comments were invited.

STEEL SHOT REGULATIONS

Nontoxic shot requirements in some areas apply to waterfowl regulations being finalized here. On February 28, 1978, the Service published in the FEDERAL REGISTER (43 FR 8144) final regulations regarding zones in all flyways in which shot shells loaded with steel shot will be required for waterfowl hunting in seasons commencing in 1978. The intended effect of establishing these steel shot regulations is to reduce the number of waterfowl deaths caused by ingesting spent lead pellets. On June 30, 1978, the Service published in the FEDERAL REGISTER (43 FR 28501) an amendment modifying descriptions of some of the zones published on February 28 in order to reduce the size of zones in New York and Texas, and permit shooting tests to be conducted within zones in Illinois and California. On June 29, 1978, the Service published in the FEDERAL REGISTER (43 FR 28205) a final rule extending the 1977 ruling (42 FR 39106; Aug. 2, 1977) allowing possession of the shells loaded with toxic shot in gauges other than 12 gauge while hunting waterfowl in nontoxic shot zones during the 1978-79 season. The extension was allowed because supplies of shells in gauges other than 12 gauge will not be available in 1978. The regulations appear under 50 CFR, §§ 20.21 and 20.108, and will also be summarized in the Service's regulations leaflets to be published late this summer.

NEPA CONSIDERATION

The "Final Environmental Statement for the Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FES 75-54)" was filed with the Council on Environmental Quality on June 6, 1975, and notice of availability was published in the FEDERAL REGISTER on June 13, 1975 (40 FR 24241). The final environmental assessment on shooting hours (42 FR 36495; July 15, 1977) supplemented the discussion on shooting hours in FES 75-54. In addition, several environmental assessments have been prepared on specific matters which serve to supplement the material in the final environmental statement.

ENDANGERED SPECIES ACT CONSIDERATION

Compliance with the Endangered Species Act, insofar as late season regulations frameworks are concerned, was described in the FEDERAL REGISTER, dated September 1, 1978 (43 FR 39286). In a biological opinion dated August 24, 1978, Acting Director Keith M. Schreiner concluded "that the late season of 1978-79 regulations frameworks in not likely to jeopardize the continued existence of the species addressed herein. I further conclude that the Service had taken all reasonable measures to insure that these regulations are compatible with other conservation programs being carried out for each of these species." The Service wishes to reiterate that delays or closures of migratory bird hunting seasons will be considered, and invoked when justified, for the protection of endangered species.

The Service's biological opinions and threshold examination reports resulting from its consultation under section 7 are considered public documents and are available for public inspection in the Office of Endangered Species at 1612 K Street NW., Room 1100, Washington, D.C., and the Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Room 555, Matomic Building, 1717 H Street NW., Washington, D.C. 20240, or may be obtained by mail from the addresses listed.

AUTHORSHIP

The primary author of this final rule is Henry M. Reeves, Office of Migratory Bird Management, working under the direction of John P. Rogers, Chief.

REGULATIONS PROMULGATION

After analysis of the migratory game bird survey data obtained through investigations conducted by the Service, State conservation agencies, and other sources, and consideration of all comments received on the late season proposals (43 FR 6275, Feb. 14, 1978; 43 FR 22421, May 25, 1978; and 43 FR 35890, Aug. 11, 1978), the Service published in the FEDERAL REGISTER on September 1, 1978 (43 FR 39286), final late season frameworks. Copies of the final frameworks were also sent to the officials of the State conservation agencies who were invited to submit selections for hunting seasons which complied with the shooting hours, daily bag and possession limits, season times and lengths, and areas specified in the frameworks.

The taking of the designated species of migratory birds is prohibited unless open hunting seasons are specifically provided. The amendments will permit taking of the designated species within specified time periods beginning as early as September 30, as has been the case in past years, and benefit the public by opening the seasons which are presently closed.

The rulemaking process for migratory bird hunting must, by its nature, operate under severe time constraints. However, the Service is of the view that every attempt should be made to give the public the greatest possible opportunity to comment on the regulations. Thus, when the proposed rulemakings were published on February 14, May 25, and August 11, the Service established what it believed were the longest periods possible for public comment. In doing this, the Service recognized that at the periods' close, time would be of the essence. That is, if there were a delay in the effective date of these regulations after this final rulemaking, the Service is of the opinion that the printing and distribution of Federal and State regulatory announcements and leaflets would be

delayed to the extent that hunters would not have regulatory information available prior to the beginning of the hunting seasons. The Service has determined that "good cause" exists, within the terms of 5 U.S.C. 553(d)(3), and these regulations will, therefore, take effect immediately upon publication.

Accordingly, each State conservation agency having had an opportunity to participate in selecting the hunting seasons desired for its State on those species of migratory birds for which open seasons are now to be prescribed, and consideration having been given to all other relevant matters presented, certain sections of title 50, chapter I, subchapter B, part 20, subpart K, are amended to read as follows:

Section 20.104 is revised to read as follows:

§ 20.104 Seasons, limits, and shooting hours for rails, woodcock, and common (Wilson's) snipe.

Subject to the applicable provisions of the preceding sections of this part, the areas open to hunting, the respective open seasons (dates inclusive), the shooting hours, and the daily bag and possession limits on the species designated in this section are prescribed as follows:

	Rails (sora and Virginia)	Rails (clapper and king)	Woodcock	Common snipe
Daily bag limits	[1]25	[2]	5	8
Possession limits	[1]25	[2]	10	16

Shooting hours: One-half hour before sunrise until sunset daily on all species, except as noted otherwise.

Check State regulations for additional restrictions, including area descriptions.

Remainder of State	do	do	do	Oct. 14 to Jan. 14.
Wyoming [3]	Sept. 30 to Dec. 8	do	do	Sept. 30 to Dec. 31.

[1] The bag and possession limits for sora and Virginia rails apply singly or in the aggregate of these two species.

[2] In addition to the limits on sora and Virginia rails, in Connecticut, Delaware, Maryland, New Jersey, and Rhode Island, there is a daily bag limit of 10 and possession limit of 20 clapper and king rails, singly or in the aggregate of these two species, and in Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Texas, and Virginia, there is a daily bag limit of 15 and possession limit of 30 clapper and king rails, singly or in the aggregate of these two species.

[3] For description of zones or management units within a State, see State regulations.

[4] In New York, shooting hours for woodcock are sunrise to sunset daily.

[5] In Michigan, in the counties of Arenac, Bay, Huron, Macomb, Monroe, St. Clair, Tuscola, and Wayne, and adjacent Great Lakes and connecting waters, the snipe and rail seasons shall open concurrently with the duck season and shall run continuously in all areas through Nov. 14.

[6] On the first day the season opens at 12 noon.

[7] The Central Flyway portion consists of: Colorado and Wyoming—the area lying east of the Continental Divide; Montana—the area lying east of Hill, Chouteau, Cascade, Meagher, and Park Counties; New Mexico—the area lying east of the Continental Divide but outside the Jicarilla Apache Indian Reservation. The remainder portions of these States are in the Pacific Flyway.

[8] Seasons apply to Pacific Flyway portion of State only. The Pacific Flyway portion consists of: Colorado and Wyoming—the area lying west of the Continental Divide; Montana—the counties of Hill, Chouteau, Cascade, Meagher, and Park, and all counties west thereof; New Mexico—the area lying west of the Continental Divide plus the Jicarilla Apache Indian Reservation.

Section 20.105 is amended to read as follows:

§ 20.105 Seasons, limits, and shooting hours for waterfowl, coots, and gallinules.

Subject to the applicable provisions of the preceding sections of this part, the areas open to hunting, the respective open seasons (dates inclusive), the shooting hours, and the daily bag and possession limits on the species designated in this section are prescribed as follows:

(a) *Sea ducks.* (1) An open season for taking scoter, eider, and oldsquaw ducks is precribed according to the following table during the period between September 16, 1978, and January 20, 1979, in all coastal waters and all waters of rivers and streams seaward from the first upstream bridge in Maine, New Hampshire, Massachusetts, Rhode Island, and Connecticut; in those coastal waters of New York lying in Long Island and Block Island Sounds and associated bays eastward from a line running between Miamogue Point in the town of Riverhead to Red Cedar Point in the town of Southampton, including any ocean waters of New York lying south of Long Island; in any waters of the Atlantic Ocean and, in addition, in any tidal waters of any bay which are separated by at least 1 mile of open water from any shore, island, and emergent vegetation in New Jersey, South Carolina, and Georgia; and in any waters of the Atlantic Ocean and/or in any tidal waters of any bay which are separated be at least 800 yards of open water from any shore, island, and emergent vegetation in Delaware, Maryland, North Carolina, and Virginia: *Provided*, That any such areas have been described, delineated, and designated as special sea duck hunting areas under the hunting regulations adopted by the respective States. In all other areas of these States and in all other States in the Atlantic Flyway, sea ducks may be taken only during the regular open season for ducks.

(2) The daily bag limit is 7 and the possession limit 14, singly or in the aggregate of these species. During the regular duck season in the Atlantic Flyway, States may set in addition to the limits prescribed for such seasons a daily bag limit of 7 and possession limit of 14 scoter, eider, and oldsquaw ducks, singly or in the aggregate of these species.

(3) Shooting hours are one-half hour before sunrise until sunset daily.

CHECK STATE REGULATIONS FOR ADDITIONAL RESTRICTIONS

Seasons in:	
Connecticut	Oct. 7 to Jan. 6.
Delaware	Sept. 30 to Jan. 13.
Georgia	Nov. 22 to Jan. 20.
Maine	Oct. 2 to Jan. 16.
Maryland	Oct. 6 to Jan. 20.
Massachusetts	Do.
New Hampshire	Sept. 18 to Jan. 2.
New Jersey	Oct. 2 to Jan. 16.
New York	Sept. 21 to Jan. 5.
North Carolina	Oct. 6 to Jan. 20.
Rhode Island	Do.
South Carolina	Do.
Virginia	Do.

(4) Notwithstanding the provisions of this part 20, the shooting of crippled waterfowl from a motorboat under power will be permitted in Maine, Massachusetts, New Hampshire, Rhode Island, Connecticut, New York, Delaware, Virginia, and Maryland in those areas described, delineated, and designated in their respective hunting regulations as being open to sea duck hunting.

V 43/184 SEP 21 78

(b) *Teal.* September season:

* * * * *

(c) *Gallinules.*

Limits in the Atlantic, Mississippi, and Central Flyways:

Daily bag limit	15
Possession limit	30

Limits in the Pacific Flyway: The daily bag and possession limits are 25 gallinules and coots singly or in the aggregate of these two species.

Shooting hours: One-half hour before sunrise to sunset.

CHECK STATE REGULATIONS FOR ADDITIONAL RESTRICTIONS

Seasons in the Atlantic Flyway:	
Connecticut	Sept. 1 to Nov. 8.
Delaware	Sept. 1 to Nov. 9.
Florida[1]	Sept. 2 to Nov. 10.

Remainder of State	Oct. 14 to Jan. 14.
Wyoming[4]	Closed.

[1]The gallinule season in Florida applies to the common or Florida gallinule only. No open season on purple gallinules in Florida.
[2]On the first day the season opens at 12 noon.
[3]Seasons apply to Central Flyway portion of State only.
[4]Seasons apply to Pacific Flyway portion of State only.

(d) *Waterfowl and coots in Atlantic, Mississippi, Central and Pacific Flyways.*

FLYWAYWIDE RESTRICTIONS

In all States in the Atlantic Flyway:

Wood ducks—No more than two wood ducks may be taken daily nor more than four wood ducks may be possessed. Exceptions: During duck seasons prior to October 16, 1978, in North Carolina and Virginia, under conventional regulations, no special restrictions within the regular daily bag and possession limits shall apply to wood ducks; under the point system, the point value of wood ducks shall be 25. In Pennsylvania, the possession limit is two wood ducks.

Hooded mergansers—In States selecting conventional regulations, no more than one hooded merganser may be taken daily nor more than two hooded mergansers may be possessed.

Brant—The season is closed on brant.

Canvasbacks and redheads—Except in closed areas, the limit on canvasbacks and redheads—is one canvasback daily and one in possession or one redhead daily and one in possession under conventional regulations. Under the point system canvasbacks count 100 points each, except in closed areas, and redheads count 70 points each, except in closed areas. The areas closed to canvasback and redhead hunting are:

New York—Upper Niagara River between the Peace Bridge at Buffalo, N.Y., and the Niagara Falls. All waters of Lake Cayuga.

New Jersey—Those portions of Monmouth County and Ocean County lying east of the Garden State Parkway.

Maryland—That portion lying east of U.S. Highway 1.

North Carolina and Virginia—Closed statewide.

CHECK STATE REGULATIONS FOR ADDITIONAL RESTRICTIONS AND DELINEATIONS OF GEOGRAPHICAL AREAS. SPECIAL RESTRICTIONS MAY APPLY ON FEDERAL AND STATE PUBLIC HUNTING AREAS

Shooting (including hawking) hours: One-half hour before sunrise to sunset daily except as otherwise restricted.

The season dates for mergansers and coots are the same as those for ducks in the following tables:

	Season dates	Limits: Bag	Limits: Possession
Connecticut:			
Ducks		4	8
North zone [1]	Oct. 21 to Nov. 4 and Nov. 18 to Dec. 22.		
South zone [1]	Oct. 21 to Oct. 25 and Dec. 1 to Jan. 13.		
Including no more than: Black ducks.		2	4

[1] In Connecticut, the north zone is that portion of the State north of Interstate 95. The south zone is that portion of the State south of Interstate 95.

[3] In Maine, on the first day the season opens at sunrise.

[4] In Maryland, the Delmarva Peninsula includes the counties of Caroline, Cecil, Dorchester, Kent, Queen Annes, Somerset, Talbot, Wicomico, and Worcester.

[6] Season closed on wood ducks in Nantucket County.

[7] In New Jersey, the green-winged teal is assigned 25 points.

[8] In New Jersey, the south zone is that portion of the State south of the Atlantic City Expressway from its juncture with Interstate 78 near Camden east to Atlantic City.

[9] In New York, the west zone is that portion of Upstate New York lying west of a line commencing at the north shore of the Salmon River and its junction with Lake Ontario and extending easterly along the north shore of the Salmon River to its intersection with Interstate Highway 81, then southerly along Interstate Highway 81 to the Pennsylvania border. The north and south zones are bordered on the west by the boundary of the west zone and are separated from each other as follows: starting at the intersection of Interstate Highway 81 and New York Route 49 and extending easterly along Route 49 to its junction with Route 6 in Utica, then southerly along Route 8 to its intersection with U.S. Highway 20 in Bridgewater, then easterly along U.S. Highway 20 to the Massachussets border.

[10] In North Carolina, the east zone is that portion of the State east of U.S. Highway 1. The west zone is that portion of the state west of U.S. Highway 1.

[9] No special daily bag and possession limit restrictions apply to wood ducks during the October 4-7 season.

[10] In Pennsylvania, on the first day the season opens at 12 noon.

[11] In Pennsylvania, the southeastern zone is that portion of the State lying east and south of a boundary beginning at Interstate Highway 83 at the Maryland border and extending north to Harrisburg, then east on U.S. Highway 22 to the New Jersey border.

[12] In Pennsylvania, in Butler, Crawford, Erie, and Mercer Counties, and the Middle Creek Wildlife Management Area, the Canada goose daily bag limit is 1 and the possession limit is 2.

[13] See State regulations for further limit restrictions for Dead Creek Area, Addison County, Vt.

[14] In Virginia, the wood duck is assigned 25 points during the Oct. 4–Oct. 7 season.

[15] In Virginia, the Back Bay area is defined for Canada geese as those portions of the cities of Virginia Beach and Chesapeake lying east of U.S. Highway 17 and Interstate 64.

[16] In Virginia, the Back Bay area is defined for snow (including blue) geese as the waters of Back Bay and its tributaries and the marshes adjacent thereto, and on the land and marshes between Back Bay and the Atlantic Ocean from Sandbridge to the North Carolina line, and on and along the shore of North Landing River and the marshes adjacent thereto, and on and along the shores of Lake Tecumseh and Red Wing Lake and the Marshes adjacent thereto.

MISSISSIPPI FLYWAY

Shooting hours: One-half hour before sunrise to sunset daily except as otherwise restricted.

FLYWAYWIDE RESTRICTIONS

In all States in the Mississippi Flyway selecting conventional regulations:

Mallards and black ducks—No more than two mallards or two black ducks or one of each may be taken daily nor more than four mallards or four black ducks or four in the aggregate may be possessed.

Wood ducks—No more than two wood ducks may be taken daily nor more than four wood ducks may be possessed, except in the Pymatuning area of Ohio, the possession limit is two wood ducks.

Hooded mergansers—No more than one hooded merganser may be taken daily nor more than two hooded mergansers may be possessed.

Canvasbacks and redheads—Except in closed areas, the limit on canvasbacks and redheads is one canvasback daily and one in possession or one redhead daily and one in possession under conventional regulations. Under the point system canvasbacks count 100 points each, except in closed areas, and redheads count 70 points each,

except in closed areas. The areas closed to canvasback and redhead hunting are:

Mississippi River—Entire river, both sides, from Alton Dam upstream to Prescott, Wis., at confluence of St. Croix River.

Alabama—Baldwin and Mobile Counties.

Louisiana—Caddo, St. Charles, and St. Mary Parishes; that portion of ward 1 formerly designated as ward 6 of St. Martin Parish; and Catahoula Lake in LaSalle and Rapides Parishes.

Michigan—Arenac, Bay, Huron, Macomb, Monroe, St. Clair, Tuscola, and Wayne Counties, and those adjacent waters of Saginaw Bay south of a line extending from Point au Gres in sec. 6, T. 18 N., R. 7 E. (Arenac County) to Sand Point in sec. 11, T. 17 N., R. 9 E. (Huron County), the St. Clair River, Lake St. Clair, the Detroit River, and Lake Erie, under the jurisdiction of the State of Michigan.

Minnesota—Douglas, Mahnomen, Polk, Pope, and Sibley Counties. Where the county line of any of the above counties crosses any portion of a lake, that entire lake is closed. In addition, all land in sec. 13, T. 130 N., R. 31 W. (i.e., land between Lake Christina and Pelican Lake) is closed.

Ohio—Land and water areas comprising Erie, Ottawa, and Sandusky Counties.

Tennessee—Kentucky Lake lying north of Interstate Highway 40.

Wisconsin—In the Mississippi River Zone, all that portion of Wisconsin west of the Burlington-Northern Railroad in Grant, Crawford, Vernon, LaCross, Trempealeau, Buffalo, Pepin, and Pierce Counties. Also, the following lakes and waters, including a strip of land 100 yards wide adjacent to the shorelines thereof: Lake Poygan in Winnebago and Waushara Counties and Lakes Winneconne and Butte des Morts, including the connecting waters thereof, in Winnebago County.

White-fronted geese—No more that two white-fronted geese may be taken daily or possessed.

CHECK STATE REGULATIONS FOR ADDITIONAL RESTRICTIONS AND DELINEATIONS OF GEOGRAPHICAL AREAS. SPECIAL RESTRICTIONS MAY APPLY ON FEDERAL AND STATE PUBLIC HUNTING AREAS

The season dates for mergansers and coots are the same as those for ducks in the following tables.

	Season dates	Limits: Bag	Limits: Possession
Alabama:

[1] In Alabama, the south zone consists of Mobile and Baldwin Counties. The north zone consists of the remainder of Alabama.

[2] In Arkansas, the season is closed on Canada geese in those portions of the State encompassed by the boundaries described as follows: (1) Beginning at the junction of State Highway 139 and the Arkansas-Missouri border near Monette, then south on State Highway 139 to State Highway 158, then east on State Highway 158 to the Arkansas-Tennessee border on the Mississippi River near Luxora. All lands along the Arkansas-Missouri and Arkansas-Tennessee State boundaries within this area are included. (2) Beginning at the junction of Interstate Highway 40 and the Arkansas-Tennessee border on the Mississippi River, then west on Interstate Highway 40 to Interstate Highway 55, then north on Interstate Highway 55 to State Highway 118, then east on State Highway 118 to the Arkansas-Tennessee border on the Mississippi River near Pecan Point. All Arkansas lands along the Arkansas-Tennessee State boundary within this area are included. (3) Beginning at the junction of U.S. Highway 49 and the Arkansas-Mississippi border near Helena, then west on U.S. Highway 49 to U.S. Highway 79, then west on U.S. Highway 79 to State Highway 33, then south on State Highway 33 to State Highway 153, then southeasterly on State Highway 153 to State Highway 1, then east on State Highway 1 to State Highway 17, then south on State Highway 17 to State Highway 44, then west on State Highway 44 to County Road 96 at Tichnor, then south on County Road 96 to Arkansas Post Canal lock No. 2, then west along the Arkansas Post Canal to the Arkansas River, then southeasterly along the Arkansas River to the Arkansas-Mis- sissippi border. All Arkansas lands along the Arkansas-Mississippi State boundary within this area are included.

[3] In Illinois the readhead is assigned 100 points.

[4] In Illinois, the north zone is that portion of the State north of U.S. Highway 50. The south zone is the remainder of Illinois.

[5] Shooting hours for geese are sunrise until 3 p.m. local time.

[6] In Illinois, at Rend Lake and the Baldwin Fish and Wildlife Management Area, the season is Nov. 2 to Dec. 27. See State regulations.

[7] In Illinois and Wisconsin, the kill of Canada geese will be limited to 50,000 in each State. In the Ballard County zone of Kentucky, the kill will be limited to 15,000 birds. In the Swan Lake zone of Missouri the kill of Canada geese will be limited to 30,000 birds. In the Lac Qui Parle zone of Minnesota, the kill of Canada geese will be limited to 7,000 birds. When it is determined by the Director, U.S. Fish and Wildlife Service, that the quota of Canada geese allotted to the southern Illinois zone, the Swan Lake zone of Missouri, or the Ballard County zone of Kentucky will have been filled, the season for taking Canada geese in the respective area will be closed by the Director upon giving public notice through local information media at least 48 hours in advance of the time and date of closing.

[8] In Indiana, the north zone consists of that portion of the State north of State Highway 18. The south zone consists of the remainder of Indiana.

[9] In Kentucky, the Ballard County zone is the same as described in 1977 Federal regulations and current State regulations.

[10] In Louisiana the west zone is described as follows: That portion of Louisiana west of a boundary beginning at the Arkansas-Louisiana border on Louisiana Highway 3; then south along Louisiana Highway 3 to Shreveport; then east along Interstate 20 to Minden; then south along Louisiana Highway 7 to Ringgold; then east along Louisiana Highway 4 to Jonesboro; then south along U.S. Highway 167 to Lafayette; then southeast along U.S. Highway 90 to Houma; then south along the Houma Navigation Channel to the Gulf of Mexico through Cat Island Pass. The east zone consists of the remainder of Louisiana.

[11] In Michigan, the 10-point category is assigned 15 points.

[12] See State regulations for area descriptions.

[13] In Michigan, in Baraga, Dickinson, Delta, Gogebic, Houghton, Iron, Keweenaw, Marquette, Menominee and Ontonagon, the daily bag limit is 2 Canada geese or 2 white-fronted geese or 1 of each and the possession limit is 2 Canada and 2 white-fronted geese.

[14] In Michigan, in the southestern Canada Goose Management Area—(as described in 1977 Federal regulations and current State regulations)—from Oct. 11 through Nov. 14, the daily bag limit is 1 Canada goose or 2 white-fronted geese or 1 of each, and the possession limit is 1 Canada and 2 white-fronted geese; from Nov. 15 through Dec. 9, the daily bag limit is 2 Canada geese or 2 white-fronted geese or 1 of each, and the possession limit is 2 Canada and 2 white-fronted geese.

[15] In Minnesota, the shooting hours for ducks vary as follows: Oct. 1—9 a.m. to 4 p.m.; Oct. 2 through Oct. 20—½ hour before sunrise to 4 p.m.; and Oct. 21 through Nov. 19—½ hour before sunrise through sunset.

[16] In Minnesota, the Lac Qui Parle zone is that area encompassed by a boundary described as follows:

Beginning at Montevideo, then west on U.S. Highway 212 to U.S. Highway 75, then north on U.S. Highway 75 to State Highway 7 at Odessa, then north on County State Aid Highway 21, Big Stone County, to U.S. Highway 12, then east on U.S. Highway 12 to County State Aid Highway 17, Swift County, then south on C.S.A.H. 17 and C.S.A.H. 9, Chippewa County, to State Highway 40, then east on State Highway 40 to State Highway 29, then south on State Highway 29 to point of beginning at Montevideo.

[32] In Minnesota, the southeastern zone is described in State regulations.

[33] In Mississippi the Sardis Reservoir area is that area encompassed by Interstate Highway 55 on the west, State Highway 7 on the east, State Highway 310 on the north and State Highway 6 on the south.

[34] In Missouri the north zone consists of that portion of the State north of a line running easterly from the Kansas-Missouri border along U.S. Highway 160 to the junction of U.S. Highway 60 in Springfield, along U.S. Highway 60 to the junction of State Highway 21, along State Highway 21 to the junction of State Highway 34, and along State Highway 34 to the Illinois-Missouri border along the Mississippi River at Cape Girardeau. The south zone consists of the remainder of Missouri.

[35] In the Swan Lake zone of Missouri, through November 26, the daily bag limit is 1 Canada goose or 2 white-fronted geese, or 1 of each; the possession limit is 2 Canada and 2 white-fronted geese. After November 26, the daily bag limit is 2 Canada geese, or 2 white-fronted geese, or 1 of each; the possession limit is 4 Canada and white-fronted geese in the aggregate, of which no more than 2 may be white-fronted geese.

[36] On the first day the season opens at 12 noon.

[37] In Ohio the north zone consists of that portion of Ohio north of Interstate Highway 70. The south zone consists of the remainder of the State.

[38] In Tennessee the season is closed in the Canada goose restoration areas. See State regulations.

[39] In Wisconsin the point-system season is split, with different point values assigned during each split season by State regulation. See Wisconsin regulations for point values assigned by the State for various species during each season.

CENTRAL FLYWAY

The Central Flyway consists of Colorado (east of the Continental Divide), Kansas, Montana (east of Hill, Chouteau, Cascade, Meagher, and Park Counties), Nebraska, New Mexico (east of the Continental Divide and outside the Jicarilla Apache Indian Reservation), North Dakota, Oklahoma, South Dakota, Texas, and Wyoming (east of the Continental Divide).

Dark geese include Canada geese and white-fronted geese.

Light geese include snow (and blue) geese and Ross' geese.

Shooting (including hawking) hours: One-half hour before sunrise to sunset daily except as otherwise restricted.

FLYWAYWIDE RESTRICTIONS

Canvasbacks and redheads—Except in closed areas, the daily bag and possession limits may include no more than 1 canvasback or 1 redhead. Except in closed areas, canvasbacks count 100 points each and redheads 70 points each under the point system.

The areas closed to canvasback and redhead hunting are:

North Dakota—That portion lying east of State Highway 3, including all or portions of 27 counties.

South Dakota—All of Marshall County; that portion of Day County east of State Highway 25; that portion of Codington County south of State Highway 20 and west of U.S. Highway 81; that portion of Hamlin County west of U.S. Highway 81; and that portion of Kingsbury County east of State Highway 25 and north of U.S. Highway 14.

Texas—The counties of Brazoria, Chambers, Galveston, Harris, Jefferson, and Orange.

Mallards—No more than 4 mallards of which no more than 1 may be a female may be included in the aggregate daily bag limit on ducks, and no more than 8 mallards of which no more than 2 may be females may be possessed.

Wood ducks—No more than 2 wood ducks may be included in the aggregate daily bag limit on ducks, and no more than 4 wood ducks may be possessed.

Mergansers—All mergansers are to be included within the daily bag and possession limits under conventional and point system regulations. No more than 1 hooded merganser may be included in the aggregate daily bag limit, and no more than 2 hooded mergansers may be possessed.

Ross' geese—No more than 1 Ross' goose may be taken daily or possessed.

CHECK STATE REGULATIONS FOR ADDITIONAL RESTRICTIONS AND DELINEATIONS OF GEOGRAPHICAL AREAS WITHIN STATES. SPECIAL RESTRICTIONS MAY APPLY ON FEDERAL AND STATE PUBLIC HUNTING AREAS.

The season dates for mergansers and coots are the same as those for ducks in the following tables:

	Season dates	Limits	
		Bag	Possession
Colorado:			
Ducks	Sept. 30 to Oct. 13 and Nov. 11 to Jan. 18.	Point system.	
Coots		15	30
Geese	Nov. 4 to Jan. 21	2	4
Kansas:			
Ducks		Point system.	
In High Plains area	Oct. 28 to Dec. 17 and Dec. 23 to Jan. 21.		
In remainder of State	Oct. 28 to Dec. 17 and Dec. 23 to Dec. 31.		
Coots		15	30
Geese		5	5
Dark geese		2	2
Including no more than:			
Canada	Oct. 14 to Dec. 24	1	2
White-fronted		1	2
Light geese	Oct. 28 to Jan. 21		
Snow (including blue)		5	5
Montana:			
Ducks	Sept. 30 to Nov. 26 and Dec. 11 to Jan. 2.	Point system.	
Coots		15	30
Geese	Sept. 30 to Dec. 31	2	4
Nebraska:			
Ducks:			
In High Plains area	Oct. 14 to Jan. 4	Point system.	
In remainder of State	Oct. 7 to Oct. 8 and Oct. 14 to Dec. 10		
Coots		15	30
Geese		5	5
East of U.S. Highway 183:			
Dark geese	Oct. 7 to Dec. 17	2	2
Including no more than:			
Canada		1	2
White-fronted		1	2
Light geese	Sept. 30 to Dec. 24		
Snow (including blue)		5	5
West of U.S. Highway 183: Dark geese	Oct. 7 to Dec. 17		
Including no more than:			
Canada	Oct. 7 to Nov. 19	2	4
	Nov. 20 to Dec. 17	1	2
White-fronted		1	2
Canada and white-fronted geese combined.	Oct. 7 to Nov. 19	2	4
	Nov. 20 to Dec. 17	2	2
Light geese	Sept. 30 to Dec. 24		
Snow (including blue)		5	5
New Mexico:			
Ducks	Oct. 21 to Jan. 21	Point system.	
Coots		15	30
Geese		5	5
In Bernalillo, Sandoval, Sierra, Valencia and Socorro Counties [1].	Dec. 16 to Dec. 31		
Including no more than:			
Canada		1	2
White-fronted		1	2
Canada and white-fronted geese combined.		1	2
Snow (including blue)	Oct. 21 to Jan. 21	5	5
In remainder of State	Oct. 21 to Jan. 21		
Including no more than:			
Canada		2	4
White-fronted		2	4
Canada and white-fronted geese combined.		2	4
Snow (including blue)		5	5
North Dakota:			
Ducks	Sept. 30 to Nov. 26 and Dec. 2 to Dec. 3.	5	10
Including no more than:			
Male mallards		4	8
Female mallards		1	2
Wood ducks		2	4
Canvasback or redhead		1	1
Coots		15	30
Geese		5	5
Dark geese	Sept. 30 to Nov. 12	2	2

	Season dates	Limits	
		Bag	Possession
Including no more than:			
Canada		1	2
White-fronted		2	2
Light geese	Sept. 30 to Dec. 10		
Snow (including blue)		5	5
Oklahoma:			
Ducks		Point system.	
In High Plains area	Oct. 14 to Jan. 4		
In remainder of State	Oct. 21 to Nov. 12 and Dec. 2 to Jan. 7.		
Coots		15	30
Geese		5	5
In Alfalfa, Bryan, Johnston, and Marshall Counties:			
Dark geese	Nov. 2 to Nov. 12 and Dec. 2 to Jan. 12.	2	2
Including no more than:			
Canada		2	2
White-fronted		1	2
Light geese	Oct. 7 to Nov. 12 and Dec. 2 to Jan. 19.		
Snow (including blue)		5	5
In remainder of State: Dark geese	Oct. 14 to Nov. 12 and Dec. 2 to Jan. 12.	2	2
Including no more that:			
Canada		2	2
White-fronted		1	2
Light geese	Oct. 7 to Nov. 12 and Dec. 2 to Jan. 19.		
Snow (including blue)		5	5
South Dakota:			
Ducks		Point system.	
In High Plains area	Sept. 30 to Nov. 28 and Dec. 16 to Jan. 7.		
In remainder of State	Sept. 30 to Nov. 28		
Coots		15	30
Geese		5	5
In Buffalo, Brule, Campbell, Charles Mix, Corson east of S.D. Highway 65, Dewey, Gregory, Hughes, Hyde, Lyman, Potter, Stanley, Sully, and Walworth Counties: Dark geese.	Sept. 30 to Nov. 26	2	2
Including no more than:			
Canada		1	2
White-fronted		1	2
Light geese	Sept. 30 to Dec. 24		
Snow (including blue)		5	5
In remainder of State: Dark geese.	Sept. 30 to Dec. 10	2	2
Including no more than:			
Canada [1]		1	2
White-fronted geese		1	2
Light geese	Sept. 30 to Dec. 24		
Snow (including blue)		5	5
Texas:			
Ducks (except fulvous tree duck, black-bellied tree duck, and masked duck).		Point system.	
In High Plains area	Oct. 21 to Jan. 21		
In remainder of State;	Nov. 4 to Nov. 26 and Dec. 16 to Jan. 21.		
Fulvous tree duck, black-bellied tree duck, and masked duck.	Closed season		
Coots		15	30
Geese		5	5
East of U.S. Highway 81: Dark geese.	Nov. 4 to Dec. 8 and Dec. 16 to Jan. 21.	1	2
Including no more than:			
Canada		1	2
White-fronted		1	2
Light geese	Nov. 4 to Jan. 21		
Snow (including blue)		5	5
West of U.S. Highway 81: Dark geese.	Oct. 31 to Jan. 21	2	4
Including no more than:			
Canada		2	4
White-fronted		2	4
Snow (including blue)		5	5
Wyoming:			
Ducks and coots	Sept. 30 to Oct. 29 and Nov. 16 to Jan. 7.	Point system. [3]	
Geese	Oct. 7 to Jan. 7	2	4

[1] See State and other Federal regulations for special restrictions on Bosque del Apache National Wildlife Refuge.
[2] See State regulations for special seasons and limits on Canada geese in local areas.
[3] In Wyoming, coots are assigned 10 points.

PACIFIC FLYWAY

The Pacific flyway consists of Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington; those portions of Colorado and Wyoming lying west of the Continental Divide; New Mexico west of the Continental Divide plus the Jicarilla Apache Indian Reservation; and in Montana, the counties of Hill, Chouteau, Cascade, Meagher, and Park, and all counties west thereof.

Dark geese are defined as Canada geese and white-fronted geese.

White geese are defined as snow (and blue) geese and Ross' geese.

Shooting (including hawking) hours: One-half hour before sunrise to sunset daily.

FLYWAYWIDE RESTRICTIONS

In all States in the Pacific Flyway:

Aleutian Canada geese—the season is closed on Aleutian Canada geese throughout the flyway.

Canvasbacks/redheads—No more than two canvasbacks or two redheads or one of each may be taken daily nor more than four singly or in the aggregate may be possessed.

Hooded mergansers—No more than one hooded merganser may be taken daily nor more than two may be possessed.

Dark geese—No more than three dark (Canada and white-fronted) geese may be taken daily nor more than six may be possessed.

Snow geese—No more than three snow geese may be taken daily nor more than six may be possessed.

Ross' geese—No more than one Ross' goose may be taken daily or may be possessed.

CHECK STATE REGULATIONS FOR ADDITIONAL RESTRICTIONS AND DELINEATIONS OF GEOGRAPHICAL AREAS WITHIN STATES—SPECIAL RESTRICTIONS MAY APPLY ON FEDERAL AND STATE PUBLIC HUNTING AREAS

The season dates for mergansers, coots, gallinules and snipe are the same as those for ducks in the following tables. Throughout the flyway the following limits apply except as otherwise noted: Mergansers (except hooded), 5 daily and 10 in possession; hooded mergansers, 1 daily and 2 in possession; and coots and gallinules (singly or in the aggregate), 25 daily and in possession. These limits are in addition to the regular waterfowl limits.

	Season dates	Limits	
		Bag	Possession
Arizona:			
Ducks [1]	Oct. 19 to Jan. 19	7	14
Geese		6	6
Mohave and Yuma Counties	Nov. 9 to Jan. 7		
Including no more than:

Snow		2	4
Ross'		1	1
Island, Skagit, Snohomish, and Whatcom Counties.	Oct. 14 to Dec. 31	3	6
Including no more than:			
Snow		2	4
Ross'		1	1
In remainder of State	Oct. 14 to Jan. 14	3	6
Including no more than:			
Snow		2	4
Ross'		1	1
Brant—statewide	Nov. 18 to Feb. 18	3	6
Wyoming:			
Ducks (including mergansers and coots), singly or in the aggregate.	Sept. 30 to Dec. 31	7	14
Geese		2	2
In all of the drainage of the Green River in Teton, Sublette, Sweetwater, Uinta, Carbon, and Lincoln Counties.	Sept. 30 to Dec. 10	2	2
Including no more than: Ross'.		1	1
Those portions of the above named counties not in the drainage of the Green River.	Sept. 30 to Dec. 31	2	2
Including no more than: Ross'		1	1

[1] In Arizona and New Mexico, in the following areas, the daily bag and possession limits on hen mallards and Mexican-like ducks, either singly or in the aggregate, shall be 2 and 4, respectively. In Arizona—that portion of Cochise County, Ariz., lying south and east of the boundary described as follows: Interstate Highway 10 from the New Mexico-Arizona border west to Benson, south on U.S. Highway 80 to the San Pedro River, and south along the San Pedro River to the United States-Mexican border. In New Mexico—that portion of New Mexico lying south and west of the boundary described as follows: Interstate Highway 10 from the New Mexico-Arizona border east to the Continental Divide, then south along the Continental Divide to the United States-Mexico border

[2] In California the Sacramento Valley area is encompassed as follows: Beginning at Willows in Glenn County proceeding south on Interstate Highway 5 to the junction with Hahn Road north of Arbuckle in Colusa County; then easterly on Hahn Road and the Grimes-Arbuckle Road to Grimes on the Sacramento River, then south on the Sacramento River to the Tisdale Bypass; then easterly on the Tisdale Bypass to where it meets O'Banion Road; then easterly on O'Banion Road to State Highway 99; then northerly on State Highway 99 to its junction with the Gridley-Colusa Highway in Gridley in Butte County; then westerly on the Gridley-Colusa Highway to its junction with the River Road; then northerly on the River Road to the Princeton Ferry; then westerly across the Sacramento River to State Highway 45; then northerly on State Highway 45 to its junction with State Highway 162; then continuing northerly on State Highway 45–162 to Glen; then westerly on State Highway 162 to the point of beginning in Willows.

[2] In California the San Joaquin Valley is the area described as follows: Beginning at Modesto in Stanislaus County proceeding west on State Highway 132 to the junction of Interstate 5; then southerly on Interstate 5 to the junction of State Highway 152 in Merced County; then easterly on State Highway 152 to the junction of State Highway 59; then northerly on State Highway 59 to the junction of State Highway 99 at Merced, then northerly and Westerly to the point of beginning in Modesto.

[3] In Colorado, that portion of Moffat County west of County Road from Greystone to Rock Springs, Wyo., and north of Cottonwood Creek, Green River, and Pot Creek.

[4] In Idaho, in Benewah, Bonner, Boundary, Kootenai, and Shoshone Counties, no more than 1 wood duck may be taken daily nor more than 1 may be possessed

[5] In Nevada, the season is closed on all geese in the Pahranagat Valley of Lincoln County; the season is closed on snow and Ross' geese in the Ruby Valley of Elko County and White Pine County.

[6] The southwest portion of New Mexico consists of the area lying south and west of a line running easterly from the Arizona line along Interstate Highway 10 to the Continential Divide, then south along the Continental Divide to the United States-Mexico border.

[7] Western Oregon consists of all counties west of the summit of the Cascades excluding Klamath and Hood River Counties.

[8] See State regulations for days that hunting is permitted.

(e) *Point system—ducks, mergansers, and coots.* The States selecting the point system bag limits on designated species are listed in the table under § 20.105(d).

(1) The point values assigned to the species and sexes are as follows:

ATLANTIC FLYWAY

100 points	70 points	10 points	25 points
Canvasback (except in closed areas) Florida only: Fulvous tree duck	Female mallard Black duck Mottled duck Wood duck [1] Redhead (except in closed areas) Hooded merganser	Pintail Blue-winged teal Green-winged teal [2] Shoveler Gadwall Wigeon Scaup Sea ducks [3] Mergansers (except hooded)	Male mallard and all other species of ducks

[1] In Virginia prior to October 16 the wood duck counts 25 points.

[2] In New Jersey the point value for green-winged teal is 25 by State regulation.

[3] Sea ducks count 10 points each during the point-system season, but during any part of the regular sea duck season falling outside the point-system season, sea duck daily bag and possession limits of 7 and 14, respectively, apply.

MISSISSIPPI FLYWAY [1]

100 points	70 points	10 points [2]	35 points
Canvasback (except where closed)	Female mallard Black duck Wood duck Redhead (except where closed) [3] Hooded merganser	Pintail Blue-winged teal Green-winged teal Cinnamon teal Wigeon Shoveler Gadwall Scaup Mergansers (except hooded)	Male mallard and all other species of ducks

[1] In Wisconsin the point-system season is split, with different, more restrictive point values assigned during each split season by State regulation. See Wisconsin regulations for point values assigned by the State for various species during each season.

[2] In Michigan the point values for pintail, blue-winged teal, green-winged teal, cinnamon teal, wigeon, shoveler, gadwall, scaup and mergansers (except hooded) are 15 points each, by State regulation.

[3] In Illinois the redhead is assigned 100 points by State regulation.

CENTRAL FLYWAY

High Plains Unit

100 points	70 points	10 points [1]	20 points
Canvasback (except where closed)	Female mallard Mexican-like duck Wood duck Redhead (except where closed) Hooded merganser	Pintail Blue-winged teal Green-winged teal Cinnamon teal Shoveler Gadwall Wigeon Scaup Merganser (except hooded)	Male mallard and all other species of ducks

Low Plains Unit

100 point	70 points	10 points	25 points
Canvasback (except where closed)	Female mallard Wood duck Redhead (except where closed) Hooded merganser	Pintail Blue-winged teal Green-winged teal Cinnamon teal Shoveler Gadwall Wigeon Scaup Merganser (except hooded)	Male mallard and all other species of ducks

[1] In Wyoming the coot is assigned 10 points.

V 43 / 184 SEP 21 1978

Pacific Flyway: There is no point system in the Pacific flyway.

Coots have no point value (except in Wyoming) but conventional bag limits of 15 daily and 30 in possession apply.

(2) The daily bag limit is reached when the point value of the last bird taken added to the sum of the point values of the other birds already taken during that day reaches or exceeds 100 points. The possession limit is the maximum number of birds of species and sex which could have legally been taken in 2 days. The shooting (including hawking) hours are one-half hour before sunrise until sunset daily unless otherwise indicated.

(f) *Scaup only season.* A special hunting season for scaup only is prescribed according to the following table in those areas which are described, delineated, and designated in the hunting regulations of the respective States.

Daily bag limit	5
Possession limit	10

Shooting (including hawking) hours: One-half hour before sunrise to sunset daily.

CHECK STATE REGULATIONS FOR ADDITIONAL RESTRICTIONS AND DELINEATIONS OF GEOGRAPHICAL AREAS WITHIN STATES

West Virginia	Oct. 4 to Oct. 21.
	Dec. 13 to Jan. 13.

[1]Shooting hours on first day begin at sunrise.
[2]Shooting hours on first day begin at 12 noon.

(i) *Special scaup and goldeneye season.* A special hunting season for scaup and goldeneye is prescribed according to the following table in the Lake Champlain areas which are described, delineated, and designated in the hunting regulations of the respective States.

The daily bag limit is three scaup or three goldeneyes or three in the aggregate.

The possession limit is six scaup or six goldeneyes or six in the aggregate.

Shooting (including hawking) hours: one-half hour before sunrise to sunset daily.

Check State regulations for additional restrictions and delineations of geographical areas within States.

Seasons in the Lake Champlain area only:	
New York	Nov. 25 to Dec. 10.
Vermont	Do.

Section 20.106 is amended as follows:

§ 20.106 Seasons, limits, and shooting hours for sandhill cranes.

Subject to the applicable provisions of the preceding sections of this part, open seasons are prescribed for taking sandhill cranes with a daily bag limit of three and a possession limit of six, and with shooting (including hawking) hours from one-half hour before sunrise until sunset, in the following areas for the dates indicated:

(a) In the Central flyway portion of Colorado except the San Luis Valley area, season dates are September 30 through November 5, 1978.

(b) In the New Mexico counties of Chaves, Curry, De Baca, Eddy, Lea, Quay, and Roosevelt, and in that portion of Texas west of a boundary from the Oklahoma border along U.S. Highway 287 to U.S. Highway 87 at Dumas, along U.S. Highway 87 (and including all of Howard and Lynn Counties) to U.S. Highway 277 at San Angelo, and along U.S. Highway 277 to the International Toll Bridge in Del Rio, season dates in the New Mexico portion are October 28, 1978, through January 28, 1979, and in the Texas portion, October 31, 1978, through January 31, 1979.

(c) In that portion of Oklahoma lying west of U.S. Highway 81, and in that portion of Texas east of a boundary from the Oklahoma border along U.S. Highway 287 to U.S. Highway 87 at Dumas, then along U.S. Highway 87 to San Angelo, and west of a line running north from San Angelo along U.S. Highway 277 to Abilene, along State Highway 351 to Albany, along U.S. Highway 283 to Vernon, and then along U.S. Highway 183 east to the Oklahoma border, season dates in the Oklahoma portion are November 25, 1978, through January 21, 1979, and in the Texas portion, December 5, 1978, through January 31, 1979.

(d) In the North Dakota counties of Kidder, Stutsman, Benson, Emmons, Pierce, McLean, Sheridan, and Burleigh, and in the South Dakota counties of Campbell, Walworth, Potter, Dewey, and Corson, the season dates are September 7 through September 11, 1978.

(e) In all of the Central flyway portion of Montana except Sheridan County and that area south and west of Interstate Highway 90 and the Big Horn River, the season dates are September 30 through November 5, 1978.

(f) In Platte and Goshen Counties, Wyo., the season dates are October 7 through November 5, 1978.

(g) Every hunter participating in the sandhill crane hunting season must obtain and carry in his possession while hunting sandhill cranes a Federal sandhill crane hunting permit available without cost from conservation agencies in the States where crane hunting seasons are allowed. The permit must be displayed to an authorized law enforcement official upon request.

Section 20.107 is amended as follows:

§ 20.107 Seasons, limits, and shooting hours for whistling swans.

Subject to the applicable provisions of the preceding sections of this part, open seasons are prescribed for taking a limited number of whistling swans in the States of Montana, Nevada, and Utah, subject to the following conditions:

(a) The season must run concurrently with the season for ducks.

(b) In Montana, no more than 500 permits may be issued authorizing each permittee to take one whistling swan in the county of Teton. The season dates are September 30, 1978, through December 31, 1978.

(c) In Nevada, no more than 500 permits may be issued authorizing each permittee to take one whistling swan in the county of Churchill. The season dates are October 7, 1978, through January 7, 1979.

(d) In Utah, no more than 2,500 permits may be issued authorizing each permittee to take one whistling swan. The season dates are October 7, 1978, through January 7, 1979.

(e) Permits and correspondingly numbered metal locking seals must be issued by the appropriate State conservation agency on an equitable basis without charge.

* * * * * *

Section 20.109 is amended as follows.

§ 20.109 Extended seasons, limits, and hours for taking migratory game birds by falconry.

Subject to the applicable provisions of this part, the areas open to hunting, the respective open seasons (dates inclusive), the hawking hours, and the daily bag and possession limits on the species designated in this section are prescribed as follows:

Daily bag limit	3 singly or in the aggregate.
Possession limit	6 singly or in the aggregate.

These limits apply during both regular hunting seasons and extended falconry seasons.

Hawking hours: One-half hour before sunrise until sunset daily, unless otherwise noted.

CHECK STATE REGULATIONS FOR ADDITIONAL RESTRICTIONS

Atlantic flyway:	
Maryland:	
Mourning doves	Sept. 1 to Oct. 14.
	Nov. 14 to Jan. 15.
Rails and gallinules	Sept. 1 to Dec. 16.
Woodcock	Oct. 5 to Jan. 19.
Ducks, geese, mergansers, and coots (except Canada geese in the Delmarva Peninsula).	Oct. 6 to Jan. 20.
Canada geese in the Delmarva Peninsula.	Oct. 12 to Jan. 26.
Massachusetts:	
Ducks, geese, and coots	Oct. 11 to Jan. 20.
Virginia:	
Mourning doves and rails	Sept. 9 to Dec. 11.
	Dec. 23 to Jan. 4.
Ducks, geese, mergansers, and coots (except Canada geese in the Delmarva Peninsula).	Oct. 4 to Oct. 7.
	Oct. 10 to Jan. 20.
Canada geese in the Delmarva Peninsula.	No extended falconry season.
Mississppi flyway:	
Illinois:	
All species of migratory game birds allowed under regular seasons (except mourning doves and sora/Virginia rails).	Nov. 11 to Jan. 15.
Mourning doves and sora/Virginia rails.	Dec. 10 to Jan. 15.
Indiana:	
Rails and gallinules	Nov. 11 to Dec. 17.
Woodcock	Sept. 1 to Sept. 15.
	Oct. 2 to Oct. 6.
Ducks, mergansers, and coot:	
North Zone	Oct. 1 to Oct. 20.
South Zone	Oct. 1 to Nov. 10.
Michigan:	
Rails and woodcock	Sept. 11 to Nov. 14.
Snipe	Sept. 1 to Dec. 16.
Gallinules	Oct. 1 to Dec. 9.
Ducks, geese, mergansers, and coots.	Oct. 1 to Dec. 15.
Minnesota:	
All species of migratory game birds allowed under regular seasons.	Oct. 1 to Nov. 30 [1]
Missouri:	
Mourning doves only	Sept. 1 to Dec. 16.
Ducks, geese, mergansers, and coots.	Oct. 24 to Jan. 20.
Central flyway:	
Colorado:	
Geese	Oct. 21 to Nov. 4.
New Mexico:	
Daily bag and possession limits in New Mexico are 2 and 4, respectively, singly or in the aggregate of migratory species named below and resident game species..	
Mourning doves, white-winged doves, and band-tailed pigeons.	Sept. 1 to Nov. 16.
	Nov. 23 to Dec. 22.
Ducks, geese, mergansers, coots, and gallinules.	Oct. 7 to Jan. 21.
Sandhill cranes	Oct. 14 to Jan. 28.[2]
Oklahoma:	
Ducks, geese, mergansers, and coots,.	Oct. 16 to Jan. 19.
Pacific flyway:	
Colorado:	
Geese	Oct. 21 to Nov. 3.
Idaho:	
Mourning doves only	Sept. 1 to Oct. 20.
Ducks and mergansers	Oct. 7 to Jan. 21.
New Mexico:	
Daily bag and possession limits in New Mexico are 2 and 4, respectively, singly or in the aggregate of migratory species named below and resident game species..	
Mourning doves, white-winged doves, and band-tailed pigeons.	Sept. 1 to Nov. 16.
	Nov. 23 to Dec. 22.
Ducks, geese, mergansers, coots, and gallinules.	Oct. 7 to Jan. 21.
Utah:	
Ducks, geese, mergansers coots, and snipe only.	Oct. 7 to Jan. 21.
Washington:	
All species of migratory game birds allowed under regular seasons:.	
Eastern Washington (area defined elsewhere).	Oct. 7 to Oct 13.
	Jan. 15 to Jan. 21
Western Washington (area defined elsewhere).	

[1]In Minnesota, the Hawking hours for ducks vary as follows: Oct. 1—9 a.m. to 4 p.m.; Oct. 2 through Oct. 20—½ hour before sunrise to 4 p.m.; and Oct. 21 through Nov. 19—½ hour before sunrise through sunset.

[2]In New Mexico, open only in the counties of Chavez, Curry, DeBaca, Eddy, Lea, Quay, and Roosevelt.

ECONOMIC IMPACT REVIEW

The Service has determined that this document does not contain a major action requiring preparation of an economic impact statement under Executive Order 11949 and OMB Circular A-107.

Dated: September 7, 1978.

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION [1]

PART 212—MANDATORY PETROLEUM PRICE REGULATIONS

Passthrough of Increased Processing and Marketing Costs in the Price of Natural Gas Liquids and Natural Gas Liquid Products

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Final rule.

SUMMARY: Effective November 1, 1978, the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) amends subpart K of the mandatory petroleum price regulations to permit the passthrough of increased processing and marketing costs in the price of natural gas liquids and natural gas liquid products. The amendments provide for categories of allowable processing and marketing costs which may be used in calculating increased costs and delete the prior $0.005 per gallon limit on nonproduct cost passthroughs. The amendments also provide for the allocation of increased processing costs among firms, allow for the "banking" of all increased costs and require corrections for overrecoveries of increased costs.

EFFECTIVE DATE: November 1, 1978.

SUPPLEMENTAL INFORMATION:

I. Background; comments received.
II. Amendments adopted.
A. Definition of "gas plant."
B. Passthrough of increased processing costs.
1. In general.
2. Cost calculation periods.
3. Allowable costs.
4. Extraordinary or irregular costs.
5. Processing costs deemed incurred by a firm; processing fees.
C. Marketing Costs.
1. Transfer pricing.
2. Marketing costs of gas processors governed by subpart K.
D. Banking of increased costs.
III. Additional matters.
A. Economic impact of amendments.
B. Effect of amendments adopted upon future and outstanding exception relief.
C. Further rulemaking on other issues.

[1] EDITORIAL NOTE.—Ch. II will be renamed at a future date to reflect that it contains regulations administered by the Economic Regulatory Administration of the Department of Energy.

I. BACKGROUND; COMMENTS RECEIVED

On June 3, 1977, the Federal Energy Administration (FEA) issued a notice of proposed rulemaking and public hearing, in which it made certain specific proposals to amend subpart K of the mandatory petroleum price regulations (10 CFR 212.161 et seq.) to permit the passthrough of increased costs of processing and marketing natural gas liquids (NGL's) and natural gas liquid products (NGL products) (42 FR 29490, June 9, 1977). In that same proceeding, FEA also solicited comments concerning certain other issues under subpart K on which specific proposals were not then being made. FEA reserved the right to adopt such other amendments to subpart K, or any other subpart of the mandatory petroleum price regulations, as might be necessary to implement fully any specific proposals which were ultimately adopted. The background of these matters was extensively discussed in the June 3 notice, and will not be repeated here except where necessary to fully explain the amendments adopted today.

Written comments, including 19 late comments and several supplemental submissions, were received from a total of 62 interested parties in response to the June notice. FEA held public hearings on its proposals in Washington, D.C., on July 20 and 21, 1977, at which a total of 20 persons presented oral statements. In addition, two written statements not accompanied by oral presentations were submitted in connection with such hearings. These comments and statements have been analyzed and considered in formulating the amendments adopted today. The substance of the comments, and our position with respect to such comments, will be discussed where appropriate in connection with the particular matters to which they relate.

Effective October 1, 1977, all functions previously performed by FEA were transferred to the DOE (Department of Energy Organization Act, Pub. L. 95-91 (DOE Act); Executive Order No. 12009, 42 FR 46267, Sept. 15, 1977). Section 705(b)(1) of the DOE Act provides in part that:

> The provisions of this Act shall not affect any proceedings • • • pending at the time this Act takes effect before any department, agency, commission, or component thereof, functions of which are transferred by this Act; but such proceeding • • • to the extent that they relate to functions so transferred, shall be continued • • •

Pursuant to the above provision, this rulemaking proceeding, begun by FEA prior to the activation of the DOE, has been continued by the DOE.

In addition, by DOE delegation order No. 0204-4, the Secretary of Energy delegated to the Administrator of the Economic Regulatory Administration (ERA) the authority to take such action, including the adoption of rules, as is necessary and appropriate to administer several functions, including the allocation and pricing of crude oil and refined petroleum products, pursuant to the provisions of the EPAA. Under the authority of this delegation order, we adopt the regulations set forth below.

The amendments adopted today pertain to those matters (increased processing and marketing costs) that were the subject of specific proposals in the June 3 notice, and include certain provisions which were not specifically proposed but which the ERA has determined to be necessary fully to implement the decisions reached on those specific proposals. We received numerous comments pertaining to the other issues identified in the June 3 notice, and we anticipate issuing a further notice of proposed rulemaking and public hearing in the future in which specific proposals on these other issues will be made for public comment. However, we have concluded that we can and should adopt provisions dealing with processing and marketing costs today, rather than delay these rules until we can prepare additional proposals on other issues.

II. AMENDMENTS ADOPTED

A. DEFINITION OF A "GAS PLANT"

In the June 3 notice, FEA asked for comments on whether gathering facilities should be expressly included in the definition of a gas plant. Although no specific proposal was included in the notice, FEA discussed the general issues on this topic. We have concluded that it is important and necessary in the present proceeding to clarify and expand the definition of a gas plant to deal expressly with gathering facilities, for the following reasons:

First, § 212.165, as adopted today, provides for the passthrough of increased processing costs, including increased costs of depreciation, which are generally limited to those "attributable to gas plant operations."

Second, § 212.164(e) provides for increased adjusted May 15, 1973, prices in cases of post-January 1, 1975, expansions of gas plants where additional capital expenditures equal at least 50 percent of the original cost of the "plant." Thus, the definition of a gas plant is important for each of these two cost calculations.

Gathering facilities may often constitute a significant investment to a firm. Inclusion of such facilities in the definition of a gas plant would result in their costs being available to the firm in calculating increased depreciation costs, or in calculating the firm's entitlement to a price adjustment under § 212.164(e). (As discussed below, a firm may not pass through its increased costs of depreciation for a given plant under § 212.165 and also receive the price adjustment provided in § 212.164 (c)-(e) for the same plant.) Because of the potential significance of capital costs associated with gathering facilities for NGL and NGL product prices under these provisions, we believe it necessary to clarify and specify the treatment of such facilities for these purposes.

The action taken today amends the definition of "gas plant" in § 212.162 generally to include natural gas and natural gas liquid gathering facilities, including the transportation lines connecting such facilities to the plant proper, for purposes of calculating increased processing costs and/or determining eligibility for the incentive prices of § 212.164(e). However, with respect to natural gas gathering systems (as opposed to NGL gathering systems, if any) the gas processor (that is, the first seller of the NGLs who has incurred the cost and whose lawful price is at issue) may not include any costs attributable to these facilities in such NGL or NGL product prices if he also has a beneficial interest in the residue gas from the plant.

The comments received on this issue generally urged the incorporation of all gathering facilities into the definition of a gas plant. They asserted that most gas processors have always considered such facilities to be a part of their gas plants and that such facilities are an absolute necessity for the production of NGL's and NGL products. Thus, they contended that such facilities are an integral part of the gas plant.

On the other hand, the information received by FEA (ERA) in connection with this rulemaking confirms the observation made in the June 3 notice that natural gas gathering functions also benefit gas transportation and sales operations as well as liquid sales. Where this is so, it cannot reasonably be maintained that the gathering and transportation costs are entirely attributable to gas plant operations. We are also aware that all or a portion of the costs of gathering natural gas may be included in the cost of service considered by the Federal Energy Regulatory Commission (FERC) (formerly the Federal Power Commission (FPC)) for purposes of determining just and reasonable rates, and that recent general rate orders issued by the FPC (now FERC) have allowed an increment to producer gas sales prices intended to permit recovery of gathering costs. In view of these considerations, we have concluded that it is inappropriate to incorporate all natural gas gathering facilities into the definition of a gas plant.

Where the gas processor (that is, the first seller of the NGL's in question who has incurred the cost and whose lawful price is at issue) has no beneficial interest in the residue gas from the plant, we have determined that the processor's natural gas gathering facilities should be included in the definition of a gas plant for purposes of processing cost calculations and entitlement to the incentive prices of § 212.164(e). Only in such cases is it clear that the party bearing these costs must recover these costs in NGL and NGL product prices or not recover them at all. Where the processor has a beneficial interest in the residue gas, costs attributable to his gathering facilities may be covered by the FERC rates for the residue gas and in any event the costs benefit the residue gas as well as the liquids.

However, not all gas processors falling within the category of those not having an interest in the residue gas are necessarily entitled to pass through all of their increased costs attributable to gas gathering facilities. We are aware that oftentimes the gas processor who has a gathering system charges a "gathering fee" to the producer who retains all rights to the residue gas. Without a consideration of these fees in the regulations, certain processors could recover their gathering costs twice—first through the fees and again by passing through the costs in the first sale price of the liquids. The "processing fee" provisions of § 212.165(d)(3), adopted today, would prevent this result, by requiring the processor to deduct from its otherwise allowable costs either the amount of the fees received or the processing (including gathering) costs attributable to the liquids owned by the payor of the fee (after processing). In brief, the "gathering fee" is treated the same as a "processing fee" or any other payment received from another firm, for purposes of reducing the amount of costs available for passthrough in NGL and NGL product prices by the processor. (The processing fee provisions are explained subsequently herein.)

Although we recognize that in some cases a portion of the costs associated with gathering facilities could logically be considered attributable to liquids even where the entity bearing such costs also has an interest in the residue gas, we have concluded that the passthrough of any of these costs in NGL and NGL product prices should not be permitted until we obtain further information which assures that these costs will not also be recovered in gas sales prices. Then it may be possible for us to prescribe a rule with more specific conditions and limitations for the passthrough of those costs in NGL prices. Thus, the present amendment does not necessarily reflect our final determination on the appropriateness of provisions for allocating gathering costs between the residue gas and the NGL's and NGL products. However, in the absence of definitive information providing assurance that gas processors would not be recovering these costs twice, we have chosen to act conservatively at this time by limiting the passthrough of gathering costs to those situations in which such an allowance is clearly and categorically appropriate.

Some commenters asserted that in some cases gathering facilities have implicitly been treated by the Office of Hearings and Appeals of the DOE (formerly the Office of Exceptions and Appeals of the FEA and subsequently the Office of Administrative Review of the ERA) as being a part of the "gas plant" in determining whether and in what amount to grant exception relief from the provisions of prior § 212.165, and have contended that therefore such gathering systems should be included in the definition of a "gas plant" in this rulemaking proceeding. However, it does not appear that the cases cited addressed the fact that such gathering functions benefit the gas sales (or other) operations of the owners of the gas stream. In addition, exceptions decisions do not purport to be definitive interpretations of the regulations. Finally, in view of the fact that capital costs are now being recognized under § 212.165 as adopted today, and in view of the fact that such costs may be a substantial contributor to allowable nonproduct costs, it is particularly important to assure that NGL and NGL product prices do not reflect investments and operations that benefit the residue gas owned by the firm incurring such costs.

In contrast to the treatment of natural gas gathering systems, we have concluded that there is no reason not to permit increased costs in the construction, operation, and maintenance of natural gas liquids gathering facilities to be reflected in their entirety in the gas processor's NGL and NGL product prices (provided that such

processor has incurred such cost). These facilities are not "field" facilities in the sense that they gather NGL's into an extraction plant, since NGL's do not have a separate physical existence (as distinguished from a potentially separate contractual or commercial existence) apart from the wet gas stream until they are extracted in such a plant. However, in many cases NGL's which are extracted in one plant are transported through pipelines to a separate fractionation facility. For purposes of these amendments, it is these facilities that are considered to be natural gas liquid gathering facilities, and the allowable costs (as defined in § 212.165(b)(2)) attributable to such facilities are deemed to be "costs attributable to gas plant operations."

It should be emphasized that the inclusion of natural gas and NGL gathering facilities in the definition of "gas plant" is for the limited purposes of calculating processing costs under § 212.165 and determining eligibility for the incentive prices of § 212.164(e). This amendment does not permit gas processors utilizing the "inlet-outlet method" of calculating costs of natural gas shrinkage (as described in FEA Ruling 1975–18) to calculate inlet gas volumes on any basis other than measurement at the inlet to the plant proper, nor does it in any other fashion alter the existing method of calculating product costs. Furthermore, the amended definition of "gas plant" does not support any contention that liquids condensing in natural gas gathering facilities are in fact NGL's rather than condensate. In all of these situations the "inlet" of a gas plant remains the inlet to the extraction plant proper.

B. PASSTHROUGH OF INCREASED PROCESSING COSTS

In the June 3 notice, FEA set forth the background of the original nonproduct cost provisions of subpart K. It indicated that more comprehensive nonproduct cost provisions were not originally adopted, and that instead nonproduct cost passthroughs were subject to specified ceilings, primarily because of the unusual complexity of gas plant operating arrangements. The June 3 notice proposed to adopt more comprehensive and specific processing cost provisions and to remove the preexisting ceilings upon increased nonproduct cost passthroughs. The latter proposal would free gas processors from the need to seek and obtain exceptions relief from these ceilings on a regular basis.

The comments received in this proceeding have again confirmed the complex and varied nature of gas plant operating arrangements, and have impressed upon us the difficulty of prescribing self-executing processing cost passthrough provisions. However, after carefully analyzing these comments we have concluded that we can adopt processing cost provisions to permit the passthrough of legitimate increased processing costs without allowing unwarranted price increases. Accordingly, we hereby adopt a new § 212.165, as described more fully below.

1. *In general.* Amended § 212.165 deletes the prior ceilings upon increased non-product cost passthroughs in NGL and NGL product prices, and prescribes the specific allowable processing costs which may be recognized in NGL and NGL product prices. The amendments prescribe the method of calculating increased processing costs, set forth general accounting requirements for the calculation of such costs and provide for the allocation of contract payments (including processing fees) among firms.

The particular provisions of amended § 212.165 are discussed below. However, that discussion is generally limited to those provisions which have been substantially altered from the June 3 proposals, or upon which substantial comments were received, regardless of whether changes were made. With respect to other particulars of the amendments adopted today, the discussion of the provisions in the June 3 Notice should be consulted.

2. *Cost calculation periods.* Increased processing costs which may be added to base period prices in any current month are to be determined monthly on a per unit basis, as proposed. However, we have required firms to calculate their base period costs on the basis of a "base quarter." The processor must determine current month processing costs by dividing total allowable costs incurred in a given plant or group of plants in the current month by the production from that plant or plants to derive a "per gallon" cost of processing for that month. A processor must determine base period costs, however, by dividing its allowable costs incurred during the base quarter by its production in that quarter to derive a certain "per gallon" cost of processing for that period. Increased processing costs which may be recovered in sales in the current month (see § 212.165(d)) are the difference between the "per gallon" current month and base quarter costs of processing multiplied by the number of gallons produced in the current month. See generally § 212.165(b)(1).

The "base quarter," for purposes of calculating base period costs, is that fiscal quarter of the firm that includes May 1973; and, for firms commencing gas processing operations after May 1973, it is the first full fiscal quarter after production commences. See § 212.165(a).

We have adopted the "base quarter" concept in response to several comments stating that the calculation of base period costs on the basis of a single month might perpetuate anomalies in the calculation of increased processing costs. The single month of May 1973, or the date upon which the item was first sold (for "new" firms operating under the "new item" rule of § 212.111) might not have been reasonably representative of average costs in the base period. The amendment also reflects the generally satisfactory base quarter approach which has previously been applied in calculating exceptions relief.

We understand the argument that both base period and current period costs should be spread over a period longer than a month, in view of the seasonality of NGL and NGL product prices and in order to measure base period and current costs on a comparable basis. However, we have determined that the calculation of the allowable increased processing cost increment to NGL prices should be on a monthly basis, for two main reasons. First, the demands of relative certainty in calculating allowable prices, both on the part of processors and on our part, require that such prices be calculated on a reasonably frequent basis. Second, the use of any period longer than a month would necessarily require either anticipation of future costs, or calculation of current costs on the basis of "old" costs, or both. In either case, as the "current cost" period extends beyond the current month, the magnitude of potential error in reflecting actual current costs increases.

We further recognize that a processor's cost experience in a given current month could be anomalous, just as it could be in the month of May 1973. However, the effect of such anomalies is lessened by today's amendments, which require extraordinary costs to be prorated and allow unrecovered costs to be banked without limitation. In any event, the crucial distinction between an unrepresentative base month and an unrepresentative current month is that an unrepresentative current month is not carried forward as part of the calculation of increased costs in every subsequent current month, whereas an unrepresentative base month would be perpetuated in every subsequent calculation. Therefore, we believe that the cost calculation periods adopted today should be generally satisfactory for calculating increased processing costs.

3. *Allowable costs.* The June 3 notice proposed several specific categories of processing costs which could be passed through in the prices of NGL's and

NGL products. The particular cost elements comprising these categories were set forth, and gas processors would have been required to calculate increased costs separately for each category.

A substantial number of comments were received on this issue, and we have carefully considered them. Several comments urged us not to specify the categories of allowable costs but to simply allow processors to pass through all increases in processing costs under generally accepted accounting practices historically and consistently applied by the firm concerned. We recognize that such an approach would reduce at least the appearance of regulatory complexity. However, we have concluded that specification of allowable costs is necessary and appropriate, for several reasons.

First, there is no evidence that the existing accounting standards in the gas processing industry are sufficiently exact to insure that similarly situated processors, using their historic accounting methods, will pass through similar types of costs. (Indeed, the comments received on whether gathering facilities should be included in the definition of a gas plant disclosed differences in whether costs attributable to gathering facilities have historically been assigned to gas plant operations, and if so whether in full or only in part.) Second, we are concerned that the absence of specific standards could permit cost manipulation, particularly where a firm did not have extensive cost accounting procedures before the imposition of price controls. Finally, we believe that, although the recovery of costs should be limited both by identifiable historic accounting practices of the firm and by general principles of accounting (see § 212.165(c)(1)), mere accounting or "book" costs should not generate increased NGL and NGL product prices.

An example of accounting costs which should not be allowed on a broad unqualified basis is that of "general and administrative costs." Several commenters urged us to permit the allocation to that category of the costs of corporate administrative personnel and other similar indirect costs. As discussed subsequently, a "general and administrative" cost category has been adopted today, but only with respect to levels of corporate organization which are engaged exclusively in gas plant operations and in no other activity. We are fully aware that, as a matter of abstract economic and accounting theory, a gas processing unit benefits from higher level corporate activity. However, it does not follow that allocated costs of higher organizational levels are actually a "cost" of gas plant operations, because the firm itself may be engaged in several other, unregulated activities which are more than sufficient to justify the bulk of corporate "G&A." Because of these considerations, we believe that allocated corporate costs should not generally be passed through in NGL prices, even though such an allocation might be entirely appropriate from an accounting point of view. However, permitting processors to price NGL's solely on the basis of their historical accounting practices could have permitted such a result.

On the other hand, we have determined that our regulations should not require unnecessary revisions in existing accounting systems. Many commenters who have existing and reasonably precise accounting systems objected that the proposed requirement to calculate costs separately for each specific cost category would impose an undue burden upon them by requiring a change in their accounting systems. (Others, however, who presumably do not now have extensive established accounting systems or for whom the categories set forth presumably paralleled their own, did not object to this proposed requirement.) Since we have no desire to unnecessarily upset existing accounting systems, we have not adopted the proposed requirement to calculate costs separately for each stated category, although firms are free to do so. Nevertheless, regardless of how firms may categorize a particular expenditure within their own accounting systems, they are limited, in calculating allowable costs under this section, to the specific elements of cost described in § 212.165(b)(2). Only these costs are recognized as allowable costs for use in calculating increased processing costs, regardless of how the costs may be stated by the firm in its accounting categories.

Finally, we have substantially revised the description of the categories of allowable costs, in many cases in response to comments received. The cost categories adopted today are set forth in § 212.165(b)(2) as follows:

a. *Depreciation.* Section 212.164(c)–(e) provides a price incentive for qualified gas plant investments made after January 1, 1975. The incentive price's purpose is to stimulate additional plant construction for increased NGL and NGL product supply. In the June 3 notice, FEA recognized that allowance of depreciation cost increases might provide an alternative method by which firms could recover increased capital expenditures if they did not qualify for the incentive price.

The Office of Hearings and Appeals has previously not permitted firms to pass through their increased depreciation costs, because such costs do not represent out-of-pocket outlays for which exception relief was determined to be appropriate. However, as the period of price controls lengthens, we believe that these increased costs should be permitted to be passed through in order to encourage replacement of aging gas plants and improvements in existing ones.

Accordingly, we have adopted a provision permitting firms to pass through the increased costs of depreciation of capital investments so long as the firm does not also use the incentive prices of § 212.164(c)–(e). A firm must elect, on a plant-by-plant basis, between use of the adjusted price and the passthrough of increased costs of depreciation. The choice is irrevocable and applies to all investments made at the particular plant. The election is made when the firm first uses the adjusted price or first passes through increased depreciation costs. For existing plants utilizing the incentive prices of § 212.164(c)–(e), this means that increased costs of depreciation may not be passed through at those plants, since the processor has already used the incentive prices. The processor made its investments in reliance upon the incentive prices and has also presumably recovered a substantial portion of its invested capital through the incentive prices. Moreover, any additional investments made at a plant with respect to which the processor is utilizing the incentive prices should ordinarily be returned in the form of increased volumes of liquids receiving the incentive price or in the plant fuel efficiency incentive provisions adopted today (see section II.B.3.c., below). Where these provisions are not sufficient to provide an adequate return on capital to stimulate energy-efficient investments, exception relief is available for that purpose (see the subsequent discussion in this section).

For gas plants where the gas processor has not used the incentive prices, either because the plant is very new and NGL's have not yet been produced and sold, or because investments in the particular plant made after the base quarter do not qualify for the incentive price, the gas processor may pass through its increased costs of depreciation incurred subsequent to the effective date of these amendments. In all cases, increased depreciation costs attributable to the period from the base quarter to the effective date of these amendments may not be passed through in any manner. Depreciation costs with respect to existing capital assets must be based on the depreciated book value of the assets on the effective date of these amendments.

After further consideration of the manner in which increased depreciation costs should be calculated for NGL pricing purposes, we have determined to require that both base period and current period costs of depreciation be calculated on a "units of pro-

V 43 / 184 SEP 21 78 V

duction" basis. That is, the capital investment is to be treated as if it were to be amortized equally over every gallon of NGL's (or NGL products, as the case may be) that will be produced from that facility, regardless of the period during which it will be produced. Thus, we have determined at this time not to recognize depreciation costs calculated on a "straight-line" basis or on any other basis than the above-described total units of production method.

Our primary reason for requiring the units-of-production method for calculating depreciation costs is that it appears to correspond most nearly to the probable economic judgments underlying investment in gas plant facilities, and that it will avoid increased NGL prices based on little more than an accounting treatment having no necessary relation to the underlying economic realities. Unlike crude oil refineries, gas plants are typically tied to a specific site or group of sites for the production of their basic feedstock, raw natural gas. Whereas crude oil refineries can through various transportation and/or exchange arrangements, maintain a reasonably constant feedstock flow and a corresponding constant volume of output, it is in the nature of gas processing plants to experience a decline in liquid production as the fields providing their feedstocks are depleted. Under these circumstances, if unit depreciation costs were calculated by amortizing investments on a straight-line basis, the unit depreciation costs would increase simply as a result of reduced plant output, rather than as a result of increased levels of capital expenditures. However, we believe that the typical gas plant owner, recognizing the depleting nature of his feedstock, would in fact base his economic decision as to whether or not to invest in a plant by determining his probable return over the entire productive life of the field the plant would serve. In brief, the relevant economic decision would turn upon whether the discounted value of future liquid revenues, at present prevailing prices and taking into account declining yields in future years, would be sufficient to justify the investment. Thus, we believe that a units-of-production method of accounting most nearly corresponds to the actual economic considerations involved in gas plant investment decisions.

Liquids produced from gas plants in existence during the base period were presumptively being sold at prices reflecting the recovery of all costs, including capital costs, associated with their production. In any event, that is the premise upon which the basic structure of these cost-based regulations rests. However, if, as indicated above, gas plant investments existing on that date were expected to be recovered on a total units-of-production basis, it could result in unjustified windfalls to gas processors to permit a subsequent, but anticipated, decline in production to create an increase in the unit price of liquids produced from those facilities. Since it is the purpose of providing for increased costs of depreciation to permit the recovery of capital expenditures which are not already implicity being recovered in the base period price, we have concluded that increased depreciation costs should not be recognized simply because production from a given plant declines.

For these reasons, we have prescribed that depreciation costs in both the base period and the current period be calculated according to the units-of-production method, that is, that investments be amortized equally across all liquid volumes attributable to those investments. With respect to the base period, the gas processor must establish the total dollar value of existing assets (at original cost, regardless of when the investment was made) and the total volume in gallons of liquids expected to have been produced from those facilities. With respect to the current period, the gas processor must establish similar figures for investments made after the base period, using actual original cost and estimated units-of-production (at the time the investment is put to productive use) attributable to those investments. In this fashion, the processor should be able to calculate unit costs of depreciation in both the current period and the base period, and thus calculate increased costs of depreciation.

We recognize that the units-of-production method prescribed requires some degree of estimation, particularly with respect to new plants. It is possible that these estimates will be in error to some extent. Therefore, we are also requiring that gas processors establish and maintain records demonstrating the data and analytical method by which these estimates are reached. We reserve the right to disallow all or a part of increased depreciation costs in appropriate compliance proceedings in the event that inadequate data or analysis results in an unreasonable overstatement of such costs. In addition, in no event may a gas processor recover, in the form of increased depreciation costs, an amount in excess of 100 percent of the cost of any investment since the base period.

The amendments adopted today also recognize depreciation costs only for investments which create a useful physical asset or prolong the useful life of such an asset. Where one firm acquires an existing facility from another firm, the acquiring firm must utilize the same depreciation costs for that facility as the seller utilized, regardless of the consideration paid and the estimated production at the time of the acquisition.

In this fashion, a change in ownership of an asset not resulting in an increased useful life of the asset will not result in any additional current depreciation costs for purposes of calculating increased depreciation cost passthroughs; depreciation costs will be taken on the same basis with respect to the same asset, regardless of changes in ownership. This should avoid any artificial incentives to engage in ownership changes, and it will assure that depreciation cost passthroughs are directed at new "real" investments. In addition, the first day on which the asset is put to its intended use is the first day on which increased depreciation costs may be deemed to be incurred.

The comments received on this topic uniformly favored the passthrough of increased depreciation costs. Several commenters, however, argued that inflation had substantially eroded the real dollar margin permitted them under existing regulations and that recovery of increased costs only would not guarantee an incentive to gas processors to continue to invest in gas plant operations. They argued that provisions for a reasonable rate of return on investment would be needed to stimulate added investment and prevent diversion of capital to other uses. These commenters suggested upward adjustment of base period prices (and the incentive prices of § 212.164(c)–(e)) for inflation, or the allowance of both the passthrough of increased depreciation costs and the use of the incentive price of § 212.164(c)–(e) to permit a reasonable return on investment.

We have decided not to adopt the alternatives suggested by these commenters. The suggestions raised in the comments may merit further consideration, but they address topics, namely inflation adjustments and rate of return pricing, which require more detailed data and study to permit us to determine whether to adopt such an approach and, if so, the appropriate amounts involved and their impact upon present prices. We believe that allowing firms to choose either the incentive prices or increased costs of depreciation will serve to facilitate the recovery of capital costs in a manner not previously permitted and thus provide additional incentives for future investment.

We wish to emphasize that it is the ultimate objective of the DOE to permit gas processors to obtain an adequate return on new gas plant investments, where the investment contemplated is energy-efficient in the sense

that it will result in increased supplies of energy at a reasonable cost to consumers and will thus promote the realization of fundamental national energy policies. By providing for the recovery of increased costs of depreciation, and by providing for a general plant fuel efficiency incentive (discussed subsequently), we have attempted to enhance new gas plant investments to the extent it is possible to do so by general rules within the scope of this proceeding. However, we recognize that there may be particular cases in which the operation of our general rules is not adequate to permit a sufficient return on investment.

Therefore, the office of hearings and appeals of the DOE will entertain requests for exception relief to permit a gas processor to increase NGL prices above those otherwise permitted by the price regulations, where it is shown that a proposed investment will be energy-efficient and that exception relief is required in order to permit an adequate return on the investment and thus stimulate the investment.

In a proposed decision and order issued to MAPCO, Inc. (*MAPCO, Inc.*, Case No. DEE–0532, July 14, 1978), the DOE reviewed an application for exception relief submitted by a firm that proposed to undertake a substantial investment in more efficient liquid extraction techniques, with the result that more liquids and more residual natural gas would be made available to consumers of these commodities than is true under present operating methods of the plant in question. However, in view of the operation of the subpart K regulations (as they then existed) and of the relevant FERC (FPC) rate schedule for the natural gas, it was determined that the incremental revenues to the firm as a result of the investment would be insufficient to permit the firm to recover its investment and earn a reasonable return thereon. Therefore, and in consideration of the fact that incremental cost to consumers of NGLs and natural gas with the exception relief compared favorably with prevailing prices for new gas and crude oil, the DOE has proposed to grant the firm exception relief to permit it to increase NGL prices above the level that would otherwise be permitted by subpart K in an amount sufficient to permit the recovery of the capital invested and a reasonable return thereon.

It should be noted that the subpart K provisions as they existed at the time of the proposed decision and order would have operated to cause a reduction in lawful first sale prices of NGLs from the production attributable to the plant in question, so that the net effect of the proposed exception relief would be to permit only a relatively small increase in NGL prices over prior levels. It should also be noted that, after today's amendments, which provide for a fuel efficiency incentive as well as for increased costs of depreciation for plants not utilizing the incentive prices of § 212.164(c)–(e), the need for and appropriate amount of this type of exception relief for this firm and all others should be reduced. Finally, it should be noted that the exception relief was conditioned upon the applicant's filing and diligently pursuing its remedies before the FERC, in view of the fact that the bulk of the energy (Btu's) to be saved by the investment are in the form of residual natural gas. All of these factors have been and will continue to be considered in determining (and subsequently adjusting, if appropriate) the amount of exception relief, if any, to be afforded in the form of increased NGL prices.

However, the MAPCO case is illustrative of the policy of the DOE to provide appropriate exception relief to afford an opportunity for a firm to receive a reasonable return on investments calculated to further fundamental national energy goals, where the operation of our general regulations would otherwise operate to inhibit such activities.

b. *Labor.* In the June 3 notice, FEA proposed to restrict allowable labor costs to those for personnel employed at a gas plant or "directly and exclusively" involved in gas plant operations. The intent of the quoted language was to insure that only those labor costs directly attributable to gas plant operations were passed through in the prices of NGLs and NGL products. Many comments indicated that the words "and exclusively" would result in the disallowance of labor costs for personnel who do not spend all of their time directly involved in gas plant operations. It was not intended that the assignment of such costs to gas plant operations should be precluded, and to avoid any possibility of confusion we have eliminated the words "and exclusively."

However, we stress that personnel whose remuneration is included in this category consists of only those employees who are directly involved in gas plant operations. Labor costs do not include the salaries of, for example, executive or staff personnel whose responsibility spans a broad range of functions and who, on occasion, may become involved with gas plant operations in that capacity. On the contrary, labor costs include only remuneration to employees whose primary responsibility is for gas plant operations, but who occasionally may become involved in other matters. These limitations complement the limitation on general and administrative costs (discussed subsequently), namely, that only costs attributable to a corporate administrative unit directly and exclusively involved in gas plant operations may be passed through by the firm.

Costs of personal services provided by personnel which own any portion of, or receive any profits from, the firm involved are excepted from the definition of allowable labor costs. This exception does not include personnel who own stock in the firm, if it is a publicly held and publicly controlled corporation, or participants in any type of profit sharing plan historically offered by the firm. While this exception was not proposed explicitly in the June 3 notice, we have adopted it as a reasonable and necessary clarification of the definitions of both labor costs and general and administrative costs.

We note that an identical exception was proposed and is adopted today in § 212.166 governing the passthrough of marketing costs. Similar limitations appear in the provisions of subpart F. This exception is directed at privately held or controlled firms where the owners, whose salaries are at issue, are likely to perform personal services in connection with both marketing and processing operations. There is no rational basis for distinguishing the treatment of such salaries, for purposes of calculating increased processing costs, from the treatment of the the same salaries for purposes of calculating increased marketing costs. The purpose of the exception is to insure that owners of privately held or controlled firms, who exercise practical control over the financial policies of such firms, do not merely disguise profits of the firm as "labor" which are used, in turn, to boost the allowable prices for NGL's and NGL products.

We recognize the argument that the reasonable value of an owner's personal services may have increased, and that some increased opportunity costs might appropriately be allowed in such cases. However, information available at this time is inadequate for us to determine adequate standards for the allowance of such increases. Furthermore, it is not clear that the economic concept of owner opportunity costs always or necessarily reflects such actual opportunities for owners as would justify increasing NGL prices. Consequently, we have adopted the general exception to allowable labor costs and will study ways of allowing the passthrough of some increased owner salaries under appropriate circumstances.

c. *Plant fuel.* Under FEA Ruling 1975–18, the increased cost of natural gas processed at the plant and utilized as plant fuel in connection with the extraction of liquids is accounted for

V 43 / 184 SEP 21 1978

as an increased product cost, i.e., as a component of increased costs of natural gas shrinkage. Unlike subpart E for crude oil refiners, subpart K did not provide a fuel efficiency incentive for gas processors. In the June 3 notice, FEA proposed no change in the treatment of the costs of processed gas used as plant fuel, but solicited comments on whether and how to provide an incentive for fuel efficiency. Several comments were received on this matter, with opinion divided between those favoring an incentive and those favoring retention of the previous method of accounting for costs of plant fuel.

We have determined that gas processors should have the option of using a fuel efficiency incentive, primarily in order to encourage conservation and to prevent waste of valuable commodities (natural gas or purchased NGL's) in the production of NGL's. In addition, the optional incentive will put refiners and gas processors on an equal footing.

We recognize that declines in fuel efficiency are often beyond the control of the gas plant operator due to declines in field pressures and liquid content of the gas processed. Under these circumstances, it would be inappropriate to require use of a formula which penalize some processors for increased fuel usage. On the other hand, we believe it important to provide a positive incentive to reduce fuel consumption. Accordingly, we have determined to permit processors to elect whether to apply the fuel efficiency incentive or to calculate fuel costs in the normal fashion on a plant-by-plant basis.

If the fuel incentive is used, depreciation costs associated with investments which effect fuel conservation may not be passed through, nor may the cost of the fuel conservation equipment be used to qualify for the incentive prices provided in § 212.164.

The fuel efficiency incentive adopted today parallels the incentive provided to refiners under subpart E. In computing the fuel efficiency incentive the "gas plant fuel cost increase" is the base gas plant fuel usage multiplied by the gas plant input for the current month and by the difference between the average gas plant fuel cost rate in the current month and in the base quarter. The "average gas plant fuel cost rate" is the weighted average cost of gas plant fuel per unit of energy utilized as fuel—for example, dollars per MMBTU or MCF. Where natural gas processed at the gas plant is utilized as plant fuel, the total dollar amount of gas plant fuel for any particular period is determined by multiplying the volume of fuel by the sales price of the residue gas in that period. Where residue gas has been sold on a different basis in the current month than in the base quarter—for example, MMBTU versus MCF—a conversion factor shall be used to equate the current month basis to the base quarter basis. "Base gas plant fuel usage" is the amount of gas plant fuel in units of energy (MMBTU or MCF) divided by the MCF or MMBTU of gas plant input during the base quarter. Finally, "gas plant input" is the volume of raw natural gas processsed at the gas plant during the relevent period. The effect of this method of calculation is to permit the processor to retain any fuel cost savings resulting from reduced fuel usage, and thus to encourage reduction in plant fuel usage.

d. *Maintenance.* This category is adopted as proposed in the June 3 notice.

e. *General and Administrative.* In the June 3 notice FEA proposed a category of overhead cost as follows:

> Overhead cost is the dollar amount of costs of insurance, outside legal and accounting fees, and inter-gas plant transportation costs directly attributable to gas plant operations.

This was identical to the correspnding category in subpart E. Numerous comments objected to the allowance of only outside legal and accounting fees, and to the otherwise restrictive nature of this category. We believe these objections have merit, within limits. Whatever the appropriateness of these restrictions when applied to crude oil refiners, they are likely to prevent many gas processors from passing through increased costs they have actually incurred and which they would not have incurred in the absence of their conduct of gas processing operations. Consequently, we are substituting for overhead a category entitled "General and Administrative Costs," which consists of the ordinary and necessary expenses of management and administration attributable to gas plant operations. However, we have concluded that, to the extent that such costs are incurred by a corporate or other organizational administrative unit which is involved with activities other than gas plant operations, these costs may not be passed through by the firm in the prices of NGL's and NGL products. This provision allows only those administrative costs incurred by an organizational unit that is directly and exclusively involved in gas processing operations to be passed through in NGL's and NGL products.

We have determined that the above limitation on general and administrative costs is appropriate primarily because it cannot reasonably be presumed that those higher level organizational "G&A" costs would be eliminated in the absence of gas plant operations where the firm also engages substantially in other operations. As previously discussed, the concept of an accounting cost, although entirely valid for many purposes, does not automatically justify increased prices for NGL's and NGL products. Although certain activities may be deemed to benefit NGL operations, it does not necessarily follow that the costs associated with those activities would no longer be incurred, or would be substantially reduced, were NGL operations terminated. Moreover, general and administrative costs of organizational units not directly and exclusively involved in gas plant operations also benefit other, often non-price-controlled, activities. Therefore, we have determined not to permit the passthrough of these costs in NGL's and NGL products.

For the reasons set forth in the discussion of labor costs, and in order to prevent the inclusion under this definition of costs not allowed under the definition of labor costs, we have also excepted from the category of general and administrative costs the costs of services provided by personnel who own any portion of, or receive any profits from, the firm involved. This exception does not include personnel who own stock in the firm, if it is a publicly held and publicly controlled corporation, or participants in any type of profit sharing plan historically offered by the firm.

f. *Federal, State and Local Tax.* This category is adopted as proposed except for the deletion of the reference to corporate or other general business taxes, as well as the provisions which would have disallowed "any tax of any description which is measured by net income or gross receipts." These clauses do not appear in subpart E and do not appear to be necessary in this subpart. The changes are intended to permit the passthrough of taxes such as sales taxes levied on gross income (permitted by FEA ruling 1974-4), but to retain the prohibition against the passthrough of income taxes.

However, the provisions adopted do not permit production or severance taxes to be recognized as allowable costs. Although commenters contended that such taxes should be permitted to be passed through in NGL prices, they did not satisfactorily demonstrate that these taxes were associated with gas plant operations. Our understanding is that such taxes are, in fact, levied upon the production or "severance" of crude oil and natural gas from the property and that the FERC has permitted increases in natural gas rates to reflect increased production or severance taxes. In the absence of additional information specifically justifying the passthrough of such costs in NGL prices, we conclude that such taxes should not be passed through in the prices of NGL's.

g. *Utilities.* This category is adopted as proposed in the June 3 notice.

h. *Interest.* This category, as adopted, is more flexible than as proposed. As proposed, borrowing from an unrelated entity for the purpose of constructing, expanding, or operating a gas plant would have been allowed as a processing cost. As adopted today, § 212.165(b)(2)(viii) provides that interest on any borrowing (from an unrelated entity) which is for the purpose of constructing, expanding or operating a gas plant, or which is otherwise attributable to gas plant operations, is an allowable cost.

Comments received indicated that borrowed capital is often used to provide working and investment capital for all of its operations, but that the borrowing cannot be associated with a particular use. Of course, where the particular borrowing can be traced to a particular use by reference to representations made in loan request documents, security agreements, or other relevant evidence, that borrowing will ordinarily be deemed to be for the use so described. (Where the borrower's recourse is against the earnings or assets of more than one type of operation of the firm, then the borrowing will ordinarily be deemed to be attributable to all of such operations.) However, in many cases, both in the base period and the current period a firm may borrow on a general line of credit or for otherwise unspecified purposes, and in such cases it is necessary to determine the amount to be attributed to gas plant operations for purposes of determining allowable costs under § 212.165 for the relevant period. In such cases, general borrowings may be allocated to gas plant operations on the basis of the costs of gas plant operations or the investment costs associated with gas plants (as a percentage of total firm-wide costs of operations or investment, respectively). Of course, the method of allocation used in the base period must be used also in determining current month costs.

The purpose of permitting an allocation of general interest costs is simply to recognize that corporate borrowings represent an accumulation of funds necessary to permit the conduct of all of its businesses, that it is dufficult if not impossible to trace specific funds, and that where such borrowings are not for a discrete purpose they actually benefit all of such operations. The principle of allocating on the basis of either proportionate costs or proportionate investment is intended to provide for an allocation on the basis of the relative need for capital of one type of operation vis-a-vis other corporate operations. We believe that an allocation of interest costs on this basis should be a rational means of attributing such capital costs to gas plant operations.

We recognize that the allocation of general interest costs as described above would permit the passthrough of some costs that may be only indirectly attributable to gas plant operations. However, we have determined that such treatment is warranted for this limited category of capital costs, for the above reasons.

i. *Operating materials and supplies.* Many commenters asserted that the proposed allowable cost categories omitted certain essential items of cost, such as absorption oil used in the liquid extraction process, process chemicals, and various items of hardware which are essential to gas plant operations but which are not depreciable assets under general accounting principles. Such costs are necessary and legitimate, and their omission in the proposal was inadvertent. Therefore, § 212.165(b)(2)(ix), as adopted today, allows increases in these costs, which are collectively defined as "Costs of Operating Materials and Supplies," to be passed through.

4. *Extraordinary or irregular costs.* In the June 3 notice, FEA proposed to adopt a requirement for the proration of costs which are irregular or extraordinary. These costs would include annual taxes, extraordinary maintenance (such as that involved in shutdowns), and any other item of cost which is paid or incurred less frequently than monthly. They would also include those costs paid or incurred in each month but in significantly different amounts, independent of variations in the amount of production. FEA proposed to require the annualization of such costs if the firm had not historically prorated such costs over an appropriate period, but also proposed to deem such costs to have been incurred 6 months prior to their actual incurrence in order to permit firms to recover unusually high costs on a faster basis. Irregular base period costs were required to be annualized over the entire fiscal year which included the base period. The proposal's purpose was to prevent prices of NGL's and NGL products from suddenly inflating in one month as a result of the payment of irregular costs which have no reasonable connection with the regular monthly costs of gas plant operations.

The comments raised many disparate objections concerning various aspects of this proposal. Some comments stated that forced proration of each cost item that fluctuates would impose an unnecessary accounting burden either because historical experience indicates that monthly fluctuations in the various cost items tend to be self-compensating over an extended period, or because the amounts of the monthly fluctuations were not significant. Other comments urged us to allow firms to choose the appropriate period over which to prorate their current costs, rather than to require them to annualize the costs as proposed. One comment argued against adoption of the proposal because firms would be required to estimate actual future costs and to constantly adjust those estimates. Commenters further argued that this provision is not needed because the present competition in the NGL market limits a firm's ability to increase the price of its products at any time. Other commenters urged the proration only of annual costs such as taxes, and still other commenters proposed incorporation of a threshold dollar limit to exempt from the proration requirement any cost item under a certain dollar amount.

After careful review, we have decided to retain the requirement, with some modifications, that extraordinary and irregular costs be prorated. A firm which, in any one current month, incurs extraordinary and/or irregular costs amounting to less than $0.0025 per gallon of liquids produced in that month is not required to prorate those costs under § 212.165(c)(2) as adopted today. Otherwise, firms are required to prorate extraordinary and irregular costs over the appropriate period. We have excluded costs of less than $0.0025 per gallon from the proration requirement both in order to ease the administrative and accounting burdens on gas processors and because such a de minimis rule is consistent with the basic purpose of the proration requirement, i.e., to insure that purchasers of liquids in one month do not bear significant costs that are in fact attributable to production in other months. Costs of $0.0025 per gallon or less, even where a purchaser buys a large volume of liquids, do not appear to represent a sufficiently significant sum to outweigh the administrative burdens that would result from proration of such costs.

If a firm has prorated its significant extraordinary or irregular costs (under generally accepted accounting principles historically and consistently applied by the firm) over an appropriate period, it must continue to do so. If a firm has not historically so prorated such costs, it must nevertheless prorate such costs over an appropriate period as determined under generally accepted accounting practices, both for purposes of calculating current period costs and for purposes of calculating base period costs. We are requiring firms to maintain records setting forth the data and the rationale under which the appropriate proration period is established, both for the base quarter and for any current month. Thus, there is no fixed requirement in

V 43 / 184 SEP 21 1978

§ 212.165(c)(2) as adopted today that firms annualize their extraordinary or irregular costs. Firms are to use the appropriate period to which such costs are attributable, and the burden is on each firm to select the proper period. For exmple, for taxes and insurance the appropriate period would ordinarily be for the period covered by the tax or insurance premium. It should be noted that, although costs which occur both in relatively constant amounts and with regular periodicity (for example, taxes and insurance) may be accrued over the appropriate period, costs which do not occur both at regular intervals and in relatively constant amounts (for example, shutdown costs) may not be accrued but must be prorated after incurrence.

We realize that this proration requirement may place an increased burden on some firms, but any such burden will be lessened considerably by excluding extraordinary and irregular costs of $0.0025 per gallon or less and by not imposing a requirement of annualization as set forth in the June 3 notice. We conclude that some proration requirement is reasonably necessary to insure that significant costs attributable to a period greater than 1 month will be borne equally by all purchasers during that period. We cannot presently conclude that competition in the NGL markets is sufficient to restrain sudden increases in the prices of NGL's and NGL products; therefore, we cannot conclude that this provision is unnecessary.

We note that no firm is prevented from recovering all of its increased costs, particularly in view of the banking provisions adopted today in § 212.169. Nevertheless, if subsequent information demonstrates that modification of this proration requirement is necessary, we will consider appropriate modifications.

5. *Processing costs deemed incurred by a firm; processing fees.* In its June 3 notice, FEA recognized that subpart K contained no express provisions governing the allocation of increased processing costs among firms. FEA pointed out that there appeared to be a need for such a method of allocating increased processing costs among different firms, because ownership of a gas plant, and/or ownership of the production from a gas plant, and ultimate responsibility for the costs of operating such a plant are frequently divided among several firms. However, even where the interests in a gas plant or gas plant production are multipartite, a single firm typically undertakes to opearate the plant on its own behalf and on behalf of the other interests. This operator is the firm that typically incurs the initial actual processing costs. This firm may then be reimbursed by the other owners, either in proportion to their interests or in some other agreed upon fashion. This reimbursement may be in cash, or it may take the form of an in-kind transfer of a portion of the liquids. Or, rather than being reimbursed on the basis of an after-the-fact determination of costs, the operator may receive a specified cash amount per unit of volume processed or a specified percentage of the liquids produced (above any amounts deriving from the operator's ownership interest, if any, in the gas) as compensation for its processing services. Similar arrangements may be made between firms which from time to time, or for a period of time, have their gas streams processed by another firm as an "accommodation."

In any of these cases, there is a need to determine the increased costs which may be passed through by each firm. FEA sought to meet this need by proposing to adopt the relatively new concept of "related entities," which were defined as firms which are not affiliated with or controlled by each other, but which have an ownership interest in one or more of the same gas plants or in the production from such plant or plants.

The intent of the proposal was to establish a method of allocating the increased costs of processing natural gas or NGL's in a particular plant or plants among the relevant firms, while preventing those firms from passing through more than the total amount of the allowable increased processing costs actually incurred at the particular plant or plants.

The proposal would have required a gas processor to certify to the payor of the processing fees (the "processee") the amount of allowable processing costs incurred in a given period which were attributable (on a volumetric basis) to the NGL's and NGL products produced in the plant and owned by the processee. The processee would then have considered the certified costs as having been incurred by it for purposes of § 212.165. The processor would have been required to deduct the same amount from the costs otherwise allowable for passthrough in its NGL prices. With some modifications, a similar allocation was proposed for "in-kind" processing fee payments. In addition, FEA proposed a general rule requiring the volumetric allocation of costs to NGL's and NGL products for firms that had a continuing interest in the same gas plant or plants. In all of these cases, the firms involved were considered to be "related entities," and the proposal attempted to allocate to the particular related entity, for passthrough in the prices of its NGL and NGL products, the actual processing costs borne by that entity through its contract payments, without at the same time depriving the processing entity of its profit, if any, under its processing arrangements.

Numerous comments objected to these proposed revisions. The most frequent objections were that the proposal would: Intrude into the bargaining process between processees and processors; destroy bargaining among gas plant owners; unnecessarily interfere with existing contracts; and carry with it anticompetitive overtones with respect to the exchange of confidential information concerning processing costs. Other comments stated that efficiencies in the industry would be harmed because consolidation of gas plant operations would be discouraged, and duplicative construction of new gas plants would be encouraged, because the proposals would negate the cost savings which motivate joint production or contractual processing arrangements.

We recognize the force of these contentions, and also the difficulty of accommodating all of the pertinent considerations. We have considered these comments in attempting to resolve these complex issues, and we have substantially modified the proposals in the amendments adopted today.

The scope of § 212.165(c)(3), as adopted, includes virtually all firms currently making or receiving processing fee (including so-called "gathering fee") payments. Section 212.165(c)(3) applies to all firms that make or receive payments in return for processing (or "gathering") natural gas or NGL's, whether such payments are in cash or in kind and regardless of how such payments may be characterized by the firms concerned, except for: (1) Those sellers that are exclusively sellers in "net-back" sales, in which the "seller" retains only an interest in a percentage of the revenues derived from the first sale of the NGL's and/or NGL products and is not a first seller of any NGL's and/or NGL products; and (2) gas processors that do not engage in first sales of NGL's or NGL products. The intent of these provisions is to account for all contract payments among firms that are first sellers (as defined in § 212.162) of any NGL's or NGL products, but to ignore cash payments or in-kind transfers from or to entities that do not engage in such first sale transactions of NGL's of NGL products. We do not at this time seek to regulate payments to or from a firm that is not a first seller of NGL's or NGL products, except to the extent that "net-back" sales prices and payments are already regulated under §§ 212.163 and 212.166 (§ 212.167 as renumbered by today's amendments).

The processing cost allocation provisions adopted today address two distinct forms of payments between firms. We understand that one type of

arrangement is a relatively straight cost-sharing arrangement, in which the party operating the plant periodically bills the other parties having an interest in the plant, or the plant production, for the latter's contractually predetermined share of operating costs. Such an arrangement is ordinarily evidenced by a basic gas plant operating agreement among "joint venturers" or other parties having a continuing interest in the plant or its production, and under which arrangement the operation of the gas plant (as opposed to the sale of NGL's and NGL products and/or residue gas) is not a profit-oriented undertaking. The other basic type of arrangement is that in which the parties stand more nearly in the position of separate "processor" and "processee." Under such an arrangement, there is a genuine fee payment, which is typically fixed but may be subject to escalation, and under which in any case the payments are not intended to be merely a direct reimbursement of a share of actual operating costs. In such cases, the activity of the processor is intended to be profitmaking, although, as noted in the June 3 notice, the payments also serve in part to reimburse the processor for a portion of his costs.

Section 212.165(c)(3)(ii) addresses the former situation, and § 212.165(c)(3)(iii) addresses the latter situation. Both of these rules are exceptions to the general rule of § 212.165(c)(3)(i) that only that firm actually incurring increased allowable costs may increase its NGL and NGL product prices to reflect such costs. Therefore, if contract payments do not fall within the provisions of §§ 212.165(c)(3) (ii) or (iii), the general rule of § 212.165(c)(3)(i) controls.

Section 212.165(c)(3)(ii) provides a general rule for the allocation of costs among firms which are not in the relationship of processor and processee but are in the relationship of parties to a basic gas plant operating agreement(s) which provide in substance for straight costsharing. Typically, such agreements constitute joint ventures, or a continuing relationship between producers and processors with respect to the same plant. Also typically, these agreements specify the responsibilities of the various parties for the costs of operating the gas plant or plants. In these cases, we have concluded that the allocation of allowable plant operating costs as provided in such agreements is appropriate: *Provided,* That the agreement insures that all of the parties combined will not recover, in their NGL and NGL product prices, more than the total allowable costs of operating the plant. The parties are jointly and severally responsible for insuring that no more than the total allowable costs are passed through. In the absence of a written agreement specifically allocating the operating costs, costs will be deemed to be attributable, on a volumetric basis, to the NGL's or NGL products owned by the respective parties.

Under the provisions of § 212.165(c)(3)(iii), a firm currently paying a processing fee to another firm may, in effect, add the total amount of such payments to the allowable costs which the paying firm has inurred in the current month, and may calculate its current unit processing costs accordingly. However, the paying firm must also add the amount of processing fee payments made in the base quarter to its allowable costs incurred in the base quarter in calculating its base quarter unit processing costs. Thus, the calculation of increased processing costs must account for such payments in both the current month and in the base quarter. Where a firm closes down a plant and goes "on fee" with another processor, the processing fee payments which it may pass through will be offset to the extent that its actual processing costs at the closed plant fall to zero. Therefore, there is no need for an imputed base quarter processing fee where such a change has occurred.

On the other hand, the recipient of processing fees must deduct, from the allowable costs incurred by it, the lesser of the payments received or the amount of processing costs allocable (on a volumetric basis) to the NGL's and NGL products produced in the plant and owned (after payment) by the paying firm. The recipient likewise deducts the lesser of these two amounts in calculating base quarter processing costs, and then calculates its increased processing costs in the same basic manner as indicated above for the paying firm. That is, the amounts to be deducted in any period will be netted against other processing costs in the same period.

Section 212.165(c)(3)(iii) also governs in-kind payments—that is, payments in the form of a transfer of the liquids (or the rights to such liquids) to the processor in return for the processor's processing of the gas or liquids. These in-kind processing fee provisions apply equally to in-kind processing fee payments formally designated as such as well as to any other transaction by which the processee transfers and the processor obtains liquids in return for processing. (Again, if the processee does not make any first sales of NGL's or NGL products, then the provisions of §§ 212.165(c)(3) (ii) and (iii) do not apply.)

Section 212.165(c)(3)(iii) provides for the valuation of in-kind transfers. The payor and the payee calculate the addition to, or subtraction from, their allowable processing costs by multiplying the number of gallons transferred by the base period price. The payor determines this amount by using its base period price; the payee, by using its base period price. If both the payor and payee are currently using the adjusted prices of § 212.164, then the amount to be added to, or subtracted from, their respective current processing costs would be the same (since the volume of liquids transferred is of course the same). However, for purposes of determining the amount to be added to, or subtracted from, the base period processing costs, the processor and processee would each use their own actual May 15, 1973, price.

Two examples help to illustrate the application of § 212.165(c)(3)(iii) to in-kind payments. The first example is simplistic, with one processee and one processor. The second example is more complex and assumes multiple processees and processors.

Example 1. On May 15, 1973, the processee sold propane at $0.05 per gallon and the processor sold propane at $0.06 per gallon. In the base quarter the processee transferred 10,000 gallons to the processor as an in-kind fee. In the current month the processee transferred 15,000 gallons to the processor as an in-kind fee. The processor received no other in-kind fees in either the base quarter or the current month. In the current month both the processee and the processor utilized a base period price for propane of $0.085 per gallon (the adjusted base period price under § 212.164 (a)).

The processor would deduct ($0.06 per gallon × 10,000 gallons =) $600 from allowable costs in the base quarter, and ($0.085×15,000 gallons =) $1,275 in the current month (unless the allocable processing costs for the liquids owned by the processee after transfer of the in-kind fee are less than these amounts, in which case those lesser costs would be deducted in the applicable periods).

The processee would add ($0.05 per gallon×10,000 gallons =) $500 to allowable costs in the base quarter, and ($0.085 per gallon×15,000 gallons =) $1,275 in the current month (any decreases in allowable processing costs directly incurred by the processee would be subtracted from allowable costs).

Example 2. On May 15 1973, the processee sold propane at $0.05 per gallon and the processor sold propane at $0.06 per gallon. In the base quarter the processee transferred a total of 10,000 gallons to its various processors as in-kind fees, and the processor received a total of 5,000 gallons from its various processees as in-kind fees. In the current month the processee transferred a total of 15,000 gallons to its various processors and the processor received a total of 8,000 gallons from its various processees. In the current month both the processee and the processor utilized a base period price for propane of $0.085 per gallon (the adjusted base period price under § 212.164 (a)). Both the processor and the processee aggregate costs on a firmwide basis.

The processor would deduct ($0.06 per gallon×5,000 gallons =) $300 from allowable costs in the base quarter, and ($0.085 per gallon×8,000 gallons =) $680 in the current

V 43 / 184 SEP 21 1978

month (unless the allocable processing costs for the liquids owned by the processee after payment are less than these amounts, in which case those lesser amonts would be deducted in the applicable periods).

The processee would add ($0.05 per gallon×10,000 gallons =) $500 to allowable costs in the base quarter, and ($0.085 per gallon×15,000 gallons =) $1,275 in the current month (decreases in allowable processing costs directly incurred by the processee would be subtracted from allowable costs).

The foregoing examples illustrate several points. First, § 212.165(c)(3)(iii) as adopted today does not require the certification of processing costs between a processor and a processee. Both the processor and the processee are able to calculate their increased processing costs based upon their own cost information. This is as true for cash processing fee payments as for in-kind payments and eliminates one major objection of the commenters to the proposal.

Second, we are not adopting the requirement proposed in the June 3 notice that generated the necessity for certification, namely, that no more than the total costs of operating a given gas plant in a given period may be passed through by the processor and processee together. Based upon our analysis of the comments received, we have concluded that such a rigid requirement upon the parties to gas processing agreements is not necessary. Although we believe that fixed processing fee payments are not properly to be considered costs attributable to gas plant operations under prior regulations, inasmuch as they do not bear any necessary or direct relationship to the actual cost of gas plant operations, we nevertheless conclude that such payments do reflect actual out-of-pocket costs to the payor and so should be recognized in their entirety hereafter, together with a correlative obligation on the part of the processor to reduce his cost passthrough in an amount that reflects a reimbursement of costs through receipt of the fee without depriving the processor of his profit on the processing service and without requiring a certification of costs. In this connection, we conclude that processees will not ordinarily willingly pay higher processing fees simply to increase their NGL prices, since such increases would gain them no increased profits.

Third, we recognize the claim of gas processors that their profits on gas processing arrangements are often necessary to maintain their gas plants in operation, and that so long as such profits do not result in unwarranted increases in NGL prices we should not deprive them of this incentive to continue their operations. For this reason, the provisions adopted today do not require a straight dollar-for-dollar reduction in a processor's allowable costs for fees received, but instead require a reduction equal to the lesser of the fees received or the costs allocable to the processee's liquids. In this fashion, the processor may retain the profits on its fee processing activities.

With respect to the valuation of in-kind transfers, the approach adopted today was suggested in some comments. Its premise is that the processee in the current month gives up its opportunity to sell the liquids transferred at its adjusted base period price. That is, regardless of whether it has or would have incurred any increased costs since the base period, it could ostensibly have sold its fee liquids at its base period price. In the base quarter it gave up its opportunity to sell the liquids transferred at its actual May 15, 1973, price. The difference in value of the liquids in the two periods is the processee's increased cost. The processor, on the other hand, now gains the opportunity to sell these fee liquids it receives at is base period price (regardless of cost), and the measure of its increased fee is the difference between its actual base period price and its adjusted base period price (if higher), multiplied by the volumes received in the base period and in the current period respectively.

Sections 212.165(c)(3) (ii) and (iii) are mutually exclusive provisions. Where firms jointly operate a gas plant and share the costs incurred, they must allocate their processing costs solely under § 212.165(c)(3)(ii). Where firms pay or receive a fee for processing natural gas they must calculate the passthrough of those fees solely under § 212.165(c)(3)(iii).

It is to be emphasized that today's amendments make it clear that only bona fide processing fees may be passed through in accordance with § 212.165(c)(3). Firms may not enter into mutually beneficial reciprocal processing agreements, whereby they agree to process each other's gas streams on a fee basis, nor may they otherwise alter their existing business practices with the purpose or substantial effect of increasing their gas processing profits in the form of increased NGL prices. While we have no information indicating any proclivity on the part of firms to circumvent the intent of regulations, we must retain the power to disallow cost and price increases when that is the purpose or effect of these practices.

C. MARKETING COSTS

In its June 3 notice, FEA discussed the recoverability of increased marketing costs under subpart K, and proposed specific rules for the recovery of such costs. FEA recognized the issue of whether increased marketing costs incurred by distinct reselling entities of independent gas processors (i.e., gas processors that do not also refine crude oil) are or should be governed by subpart F (§ 212.91 et seq.), rather than subpart K. FEA proposed to adopt a provision specifically incorporating the "single firm" concept into subpart K.

Upon review and consideration of the comments received in this proceeding, we have determined to adopt the proposed subpart K provisions pertaining to the recoverability of increased marketing costs (§ 212.166) substantially in the form proposed, modified only to make § 212.166 more similar to the cognate provisions of subpart F. We have further adopted in subpart K an express definition of the term "firm," to make clear what has always been implicit in subpart K, namely, that subpart K applies to all of the operations of a firm—including a parent and its directly and indirectly controlled entities—that engages in gas processing and does not also refine crude oil. We conclude that "transfer pricing," under which sales by reselling affiliates of gas processors would be governed under subpart F rather than subpart K, is not now provided for in the regulations and should not be adopted in this proceeding.

1. *Transfer pricing.* A few commenters, notably those gas processors that do not also refine crude oil and that have historically engaged in extensive NGL marketing operations through separate subsidiaries, have contended that the existing regulations effectively provided for a "transfer price" between the gas processing entity and affiliated reselling entities. That is, they contended that the subpart K "first sale" rules, including the adjusted base period prices of § 212.164, applied to such a transfer, and that the costing and pricing of NGL's and NGL products in the hands of the affiliated reseller/retailer were governed by subpart F, and not subpart K. In support of their contention, commenters argued that FEA's failure to incorporate in subpart K a specific definition of the term "firm" (as including controlled entities) such as exists in subpart E, indicates that FEA did not intend to apply the "single-firm" rule to gas processors. Commenters further argued that the applicability provisions of subpart K (§ 212.161(a)) dictated the conclusion that such a transfer price was intended. Section 212.161(a), prior to its amendment today, provided as follows:

(a) *Scope.* This subpart applies to *all sales* of natural gas liquids and natural gas liquid products, *including transfers between affiliated entities,* by all firms, including gas plant operators, producers of natural gas, natural gas royalty owners, and refiners *except sales by resellers or retailers,* which are subject to subpart F of this part. [Emphasis supplied.]

The commenters asserted that the underscored language necessarily implies that: (i) Transfers between affiliated entities were "sales" within the meaning of subpart K, and that the first transfer of NGL's from the gas processor to the affiliated reseller was therefore a "first sale" to which the adjusted prices of § 212.164 were applicable; and (ii) that "resales" of such transferred liquids by the affiliated resellers were subject to the cost and price rules of subpart F.

Commenters also stated that, in any event, recognition of a transfer price (presumably at or near the gas plant outlet) would merely preserve historic methods of doing business, would avoid undue disruption in the NGL distribution system, and would better effectuate the underlying policies and purposes of subpart K.

We conclude that the provisions of the prior regulations may not properly be construed as providing for a transfer price. Moreover, we do not believe that there is adequate information upon which we could adopt a transfer pricing provision in this proceeding and also treat gas processors uniformly and fairly. However, we do recognize that the policy arguments for the express recognition of a transfer price merit further analysis. We will consider adopting a transfer pricing (or "plant gate" pricing) provision if such a provision would treat gas processors uniformly regardless of their organizational form, would not unduly increase NGL prices, and would also insure against any abuses by firms.

a. *Prior regulations.* The absence of a specific definition of the term "firm" in subpart K provides little support for the contention that transfer pricing was recognized. Subpart K arose out of FEA's conclusion that the provisions of subpart E, which had previously governed the operation of gas processors, were not altogether well-suited to the regulation of gas processors. (39 FR 44407, Dec. 24, 1974). Thus, subpart K was an effort to "carve" special rules applicable to gas processors out of the rules previously applicable both to gas processors and crude oil refiners. The preexisting subpart E rules provide the backdrop for the construction of subpart K since the provisions of subpart K evolved from those of subpart E.

The "single-firm" concept was well established and understood under subpart E prior to the promulgation of subpart K, and it applied to both refiners and gas processors. The definition of "firm", currently found in § 212.82, includes "a parent and the consolidated and unconsolidated entities (if any) which it directly or indirectly controls," and has been in the refiner price regulations from their inception. (39 FR 1924, Jan. 15, 1974). Wholly owned subsidiaries of a parent are, of course, "controlled" by the parent within the meaning of this definition.

Against this backdrop, the FEA promulgated subpart K, without specifically defining "firm." Had FEA intended to exempt gas processors from the single firm concept, a fundamental basis of the price regulations from their inception, this would have been a major amendment. In such circumstances a specific recognition of this change, accompanied by a statement of reasons in support of such a change, would logically be expected. No such language appears in any of the relevant notices or final rules, nor is there any other indication of any intent to alter the single firm rule that previously applied to gas processors. There is no evidence that FEA intended the term "firm" in § 212.161(a) or in any other section of subpart K to have a meaning other than the single firm meaning it then had in subpart E. Nor can there fairly arise a presumption of different treatment because of FEA's failure to expressly incorporate a specific facet of subpart E in subpart K. The burden of expressly incorporating every well-defined preexisting concept of subpart E in subpart K would have been an unreasonable one to put on FEA, particularly in view of the imperative necessity to deal expressly with the specific differences between gas processors and crude oil refiners. Mere failure to incorporate a basic preexisting concept does not indicate an intent by FEA to alter that concept in subpart K.

For the above reasons, the "single-firm" concept has always been implicit in subpart K, notwithstanding the absence of a specific definition of the term "firm." Of course, the application of this concept does not per se preclude the allowance of transfer pricing if other provisions permit such pricing. Several commenters contended that other provisions do just that. They argue that the language "all sales • • •, including transfers between affiliated entities," in § 212.161(a) (quoted in full above), necessarily means that transfers between affiliated entities are "sales" for subpart K purposes, and that the first transfer for a unit "price" is therefore a "first sale" within the meaning of subpart K.

However, this language, in the context of the entire § 212.161(a) and in view of the considerations discussed subsequently, can reasonably be read to mean only that subpart K governs all "sales," including transfers between affiliated entities, by all firms, except for resales by "resellers" within the meaning of subpart F (and except to the extent that crude oil refiners are to calculate maximum allowable selling prices for their gas plant production under subpart E pursuant to § 212.161(b)). Thus, all transfers are deemed to occur within the scope of subpart K, and the ultimate "first sale" to nonaffiliated purchasers is the point at which the product moves out of the coverage of subpart K and into either the coverage of subpart F or into the coverage of other appropriate price regulations. Transfers between affiliated entities are not recognized as first sales for the purposes of subpart K, except where the affiliated reseller qualifies as a "reseller" under subpart F. This result is consistent with the single firm" concept. *Enterprise Products Co.*, interpretation 1975-3. (42 FR 23722, May 10, 1977.)

The proposition, that the relevant "sale" to which the first sale price rule (including the adjusted first sale price of § 212.164) is directed under subpart K is the first transfer to an unaffiliated entity, is further supported by the terms of that first sale rule. The general first sale price rule of § 212.163(a) provides that an entity may not charge a price that is higher than the price that was charged "in transactions with the class of purchaser concerned" on May 15, 1973. The adjusted price provisions of § 212.164(a) provide for adjustments "in first sale transactions with a class of purchaser." The term "transaction" (now in § 212.31) has consistently been defined as "an arm's-length sale between unrelated persons which are not members of a controlled group • • •." Thus, this is further evidence of an intention that the relevant first sale prices (including any adjustments) were to be determined with respect to transfers between unaffiliated entities.

Moreover, the argument that § 212.161(a) recognizes a "transfer price" between affiliated entities proves too much. Not only would transfers between a particular gas processing entity and an affiliated reselling entity qualify for the transfer price, but also transfers between two affiliated gas processing entities would qualify for the same treatment. It would also require the shifting back and forth between subparts F and K where a "reseller" purchases NGL's, and "sells" them to an affiliated gas plant entity for fractionation, which then "sells" the fractionated products to yet another affiliated reseller. Such a situation would result in potentially absurd regulatory hopscotching, and it is thus apparent that an unqualified "transfer price" rule could open the door to many possible "layering" abuses in a variety of similar situations. We emphasize that we have no reason to believe that any particular firm is, in fact, engaging in artifices of this nature; but, in view of certain prior similar abuses in the petroleum

V 4 3 / 1 8 4 SE 2 1 7 8 V

industry, which were well-known to FEA at the time subpart K was adopted, it is not reasonable to ascribe to FEA an intention literally to consider "all • • • transfers between affiliated entities" to be "sales." In view of these considerations, the only reasonable reading of the quoted language is that all interaffiliate transfers are subsumed by subpart K, and that only the ultimate sale to a third party is the "first sale" under subpart K.

Of course, a transfer by a gas plant entity to an affiliated marketing entity would have qualified as a first sale, if the affiliated marketer qualified as a "reseller" under § 212.91 and would thus have come within the "resale" provisions of § 212.161(a), quoted previously. However, § 212.91 provides that an entity of a "refiner" may qualify as a "reseller" subject to subpart F only if, among other requirements, that entity purchases fewer than 5 percent of its products from the affiliated refiner. Gas processors are refiners within the meaning of the definition of "refiner" contained in § 212.31, and prior to the adoption of subpart K were clearly subject to this "5 percent rule." For the same reasons that the "single-firm" rule is applicable to gas processors, so the "5 percent rule" of § 212.91 is applicable to gas processors. There is no evidence that FEA intended to alter this situation by the language of § 212.161(a), and again such a fundamental change in basic and familiar rules would reasonably be expected to have been highlighted and specifically explained. Thus, the "5 percent rule" of § 212.91, which remains literally applicable to gas processors as "refiners," militates against the transfer pricing interpretation espoused by the commenters.

Commenters further contended that the purposes and policies behind § 212.164 of subpart K support the recognition of a transfer price. They argued that the proper location for the application of the adjusted prices of § 212.164 is at the gas plant outlet, rather than at some point distant in miles or in levels of distribution. They contended that the purpose of the adjusted prices was to maintain incentives to extract NGL's and NGL products from "wet" gas, rather than leaving such liquids in the gas, and thus that these adjusted prices were directed only toward increasing the prices of products at the point of processing. Consequently, unless eligibility for the adjusted price were determined at the gas plant outlet by establishing a gas plant price, actual base period first sale prices would reflect substantial transportation costs and/or other marketing costs which would reduce the adjustments otherwise allowable under § 212.164. This, in turn, would distort the effect sought under § 212.164 by lessening the incentives to extract NGL's and NGL products.

We recognize that application of the incentive prices of § 212.164 was generally intended to be at or near the gas plant outlet. However, the rules actually adopted by FEA did not effect such a plant gate valuation where actual sales were not made at that point. In fact, in 40 FR 49105 (Oct. 21, 1975), FEA stated that while the adjustment provided under § 212.164 was generally based on prices at or near plant gates, the rules actually adopted had provided for adjustments to be made only at the point of the actual first sale. FEA requested comments on whether some provision should be adopted for imputing a gas plant price and how an imputed gas plant "sale" price (value) should be established. However, in 41 FR 24110 (June 15, 1976), FEA determined not to adopt such a provision.

We view this action by FEA as a construction of the regulations as they then existed. No change having since been made, that construction continues to apply. We cannot alter that construction or remake the history of subpart K.

The single firm concept continues to apply, transfer pricing is not permitted, and the price adjustments allowed by § 212.164 (a) and (b) must continue to be made at the point of first sale.

b. *Amendments adopted today.* To make explicit what has always been implicit in the regulations, and to prevent any further alleged confusion, we today adopt a definition of "firm" in § 212.162 and delete from § 212.161(a) the words "including transfers between affiliated entities." The definition of firm includes a parent and all consolidated and unconsolidated entities which it directly or indirectly controls. The definition is identical to that in subpart E.

It is possible that we may propose at least a limited form of plant gate pricing in the future. Information currently available to us indicates that the majority of gas processors are not currently using a transfer price, so that maintaining the status quo for the time being should not generally disrupt pricing in the NGL industry. In proposing any plant gate price provision, we will be especially concerned with assuring equality of treatment among gas processors, regardless of the particular form of organization employed, and the economic impact of allowing plant gate pricing. Further, if any form of transfer pricing is proposed it will be under appropriate safeguards to assure that firms do not insert marketing affiliates which serve no economic purpose into their chain of distribution solely to create "paper costs."

2. *Marketing costs of gas processors governed by subpart K.* In the June 3 notice, FEA indicated that marketing costs, as such, were not expressly recognized in subpart K. FEA also indicated that such costs had generally been allowed under prior § 212.165, but that more specific and precise treatment of such costs, generally intended to parallel the nonproduct (marketing) cost provisions of subpart F, appeared to be warranted. Accordingly, it proposed a separate § 212.166 to deal specifically with marketing costs of gas processors. We have today adopted a new § 212.166, providing for the calculation of marketing costs and for the recovery of increased marketing costs. Section 212.166 applies to the marketing operations of gas processors unless a reselling affiliate of a gas processor qualifies for subpart F treatment under § 212.91. We also note that the provisions of subpart E continue to govern the passthrough of marketing costs for gas processors that also refine crude oil. These new marketing cost provisions apply only to independent gas processors, and the provisions of § 212.161(b) have been revised to make clear that crude oil refiners that also engage in gas processing are governed by subpart K with respect to product and processing costs, but not marketing costs, associated with gas plant production.

As FEA noted in the June notice, many gas processors incur marketing costs similar to those incurred by firms subject to subpart F. Several have extensive marketing operations run by subsidiaries. Therefore, we have concluded that it is appropriate for the marketing cost provisions to parallel the similar provisions of subpart F to the maximum extent feasible. Section 212.166, as proposed, closely paralleled the cognate provisions of subpart F, and is adopted today largely as proposed. However, some changes were made in response to comments received and we note them below.

First, the base period for calculating base period marketing costs has been changed to correspond with that provided for NGL product resellers under subpart F. Second, under § 212.166 as adopted, increased marketing costs may be passed through with respect to NGL's as well as NGL products. Subpart F resellers are not expressly permitted to passthrough NGL marketing costs, because those resellers would not ordinarily purchase and sell raw mixed liquids. Unlike resellers under subpart F, many subpart K "marketers" are likely to be selling mixed NGL's as well as NGL products to third parties, and to be incurring increased costs of transportation and/or storage in connection with such sales.

Third, we have revised the cost aggregation and allocation provisions for marketing costs in § 212.166(b)(3) to make clear that the aggregation of marketing costs on a "separate inventory" basis is limited to the first such inventory point below the gas plant level. This is consistent with the general rules of subpart F, which permit product costs (costs of product in inventory) but not nonproduct (marketing) costs to be aggregated on the basis of separate inventories. The "cost of product in inventory" under subpart F includes only those transportation costs to the first inventory point (see § 212.92). Thereafter transportation costs become nonproduct costs to be aggregated on a firmwide basis as "overhead" (see § 212.93 (b)(4)). In this connection, we have expanded the "overhead" cost provisions of § 212.166(b)(2)(vii) to make clear that costs of transportation to the first inventory level may be allocated to products in that inventory, if the firm aggregates costs on a separate inventory basis.

However, unlike subpart F, the provisions of § 212.166(b)(3) do not require the aggregation of marketing costs on a firmwide basis, if the processor is entitled and elects to apply marketing costs on a "separate inventory" basis; they require aggregation only up to the level of the first inventory point. Thus, § 212.166 requires that all costs attributable to any "secondary" or lower level of inventory be attributed up to the first inventory level, and applied equally to all ultimate purchasers from the first inventory level; however, that section does not require the aggregation of costs at one primary inventory level with those at another primary inventory level. Of course, costs which are incurred at a firmwide level, or which are otherwise attributable to more than one inventory, must be allocated among all of the inventories to which such common costs are attributable under generally accepted accounting principles. In addition, costs that are common to gas plants and to marketing operations must be aggregated at the gas plant level (see § 212.166(b)).

We have determined that these provisions are necessary and appropriate to provide general parity of treatment of NGL product resellers under subpart F and NGL and NGL product resellers under subpart K and also to assure purchasers from the firm that they will not be subjected to entirely individualized pricing.

We must mention one further aspect of the separate inventory marketing cost provisions. As gas plant production may be "drawn down" to the first inventory level, such production must necessarily carry with it into such inventory the increased product and processing costs attributable thereto. Thus, such a drawdown depletes the pool of product and processing costs at the gas plant level, and correspondingly increases the cost pool at the inventory to which it is drawn. If this were not required, increased product and processing costs might be allocated only or primarily to sales directly from a gas plant. This would be unfair to direct purchasers, and might unduly benefit pruchasers from inventory. Thus, for purposes of allocating increased product and processing costs only, a drawdown into inventory is to be considered an irrevocable allocation of costs from the gas plant to the inventory level attributable to the production drawn down. Furthermore, any "banks" of unrecovered product or processing costs of products thus drawn down exist at the inventory level, for application to sales made from that inventory, and not at the gas plant level.

The allowable cost categories described in § 212.166(b)(2) have not been changed except to the extent indicated above. Several commenters contended that the cost categories should be expanded to cover certain particular items. However, we do not see that the matters raised in this connection are unique to gas processors as opposed to resellers. In fact, most of the comments related to matters or items that were considered and excluded from the allowable nonproduct costs permitted NGL product resellers under subpart F. The purpose of providing marketing costs under subpart K was to provide equality of treatment with subpart F, and since the objections raised are directed at subpart F as much as at subpart K, we believe that these comments will be better addressed in proceedings concerned with NGL marketing costs generally. We wish to avoid treating marketing costs under subpart K and subpart F individually in order to avoid the possibility of uneven treatment in different proceedings. Accordingly, and in order to permit us at a later time to focus upon marketing costs in the context of both subpart K and subpart F, we have determined not to incorporate any substantive revisions in the definitions of allowable marketing costs under subpart K at this time.

For the same reasons, we have determined not to take any present action with regard to marketing costs under subpart E (applicable to crude oil refiners). Some NGL product resellers have contended that the specific limitations of subpart E on the permissible passthrough of marketing costs for propane are operating to create distortions in the retail sector by forcing refiner/retailers to sell at prices substantially below those of independent retailers. We are interested in determining whether and to what extent this is true, and we will be considering possible remedial action if necessary. However, such action goes beyond the primary purposes of this proceeding, and appears better addressed in a proceeding directed toward general retail operations.

D. BANKING OF INCREASED COSTS

In its June 3 notice, FEA proposed the addition of a new § 212.169 to subpart K, which provided a specific mechanism for the banking of all increased costs (product, processing, and marketing) and for correcting for over-recoveries of such costs. The proposal limited recovery of banked costs in substantially the same manner as provided under subpart E for crude oil refiners, and provided, in effect, for the establishment of separate banks for each "cost center." Under the section as proposed, costs which were 2 or more months old could have been passed through in current prices only in an amount which did not exceed the greater of: (1) 10 percent of the largest amount of costs in the 2-month-old bank in any month; or (2) an amount which results in an increase of not more than 10 percent in the price at which at least 25 percent of the product concerned was lawfully priced in the preceding month. With respect to banked increased marketing costs, however, there was no proposed limitation on carry forwards, a result which would have paralleled the increased marketing cost banking provisions of subpart F.

Proposed § 212.169 also specified an order of recovery for increased costs, and it further directed that over recoveries be corrected in prices for the product and class of purchaser with respect to which such overrecoveries occurred, within 3 months from the month in which they occurred.

The proposal's objectives were threefold: (1) To permit firms whose pricing is governed by subpart K the opportunity to recover all allowable costs even if not recovered in the month of incurrence; (2) to clarify the requirement that overrecoveries of allowable costs be corrected and to provide a specific mechanism to accomplish this; and (3) to provide some measure of price stability in periods and markets experiencing unusually short supply or high demand by limiting the carry forward of banked costs. Nevertheless, FEA recognized that the subpart E limitations on recovery of banked costs might not be fully responsive to NGL market patterns and solicited comments on this issue.

Commenters overwhelmingly objected to the proposed limitations on the carrry forward of unrecovered increased costs, both on economic grounds and on grounds that such

V 43 / 184 SE 21 78 V

limitations would impose severe accounting burdens on gas processors, many of whom are small firms. Upon review of these comments, we have determined not to adopt limitations on the carry forward of increased costs.

The NGL industry is characterized by wide seasonal fluctuation. The winter months are the peak demand months, and the summer months are the weak demand months. Prices vary correspondingly, with the highest prices being paid in the winter. It is also during the winter that gas processors would be better able to recover any banks of increased costs. The proposed limitations would have severely limited their ability to recover such banked costs during that period.

The subpart E banking limitations were developed for the crude oil industry, whose seasonal fluctuations are not as great as those of the NGL industry. As several comments indicated, the subpart E limitations are not suited to the NGL industry, and their adoption would carry with it a danger that gas processors might never be able to recover all of their allowable costs. The comments urged that the restrictions either be eliminated or substantially reduced.

As the June 3 notice made clear, gas processors that also refine crude oil are not governed by subpart K with respect to banking provisions. They are governed by subpart E and are subject to that subpart's banking limitations. The great majority of NGL's and NGL products are currently priced under subpart E, since they are processed by firms which also refine crude oil. To the extent that the proposed subpart K provisions sought to provide price stability in periods of unusually short supply or high demand, this goal would be accomplished by the present subpart E banking restrictions.

Thus, we have concluded that extending the subpart E restrictions to gas processors under subpart K would not contribute significantly to price stability; yet, it would significantly increase the likelihood that such processors, who are primarily small independent concerns, would not be able to recover their allowable costs. Adoption of subpart E restrictions would also increase the administrative and accounting burden on such firms.

Consequently, although we do not believe that we are required to adopt these banking provisions, as a matter of policy we adopt a new § 212.169(a) which allows firms that are not also crude oil refiners to bank the increased product, processing and marketing costs which they do not recover in the current month without any carry forward limitations. As proposed, separate banks must be established for each cost center at which the firm aggregates its relevant increased costs. Thus, for example, it requires a separate bank of unrecovered increased product and processing costs incurred with respect to a particular plant if the firm calculates and aggregates its increased costs on that basis. On the other hand, banked increased marketing costs are to be aggregated on the same basis that current increased marketing costs are aggregated. Thus, for example, if a firm aggregates marketing costs on a separate inventory basis, any banked marketing costs in that inventory remain in that inventory, and may not be redistributed to gas plants or other inventories.

As explained previously in the discussion of increased marketing costs, a "draw down" of products from a gas plant to a first inventory is deemed to carry with it a ratable share of processing and product costs. Section 212.169 makes this clear, and also specifies the basis for calculating the amount of increased costs so drawn down.

The banks of unrecovered increased costs are available for application only in the prices of NGL's and NGL products sold from the cost center with which such banks are associated. These unrecovered increased costs may not be transferred to any other cost center, except for gas plant drawdowns as previously indicated. Further, unrecovered increased costs in any bank can be allocated among products and classes of purchaser only with respect to the cost center with which they are associated and only in accordance with the permissible allocation of current increased costs. Thus, for example, the application of banked increased costs are subject to the special propane rule contained in § 212.168(c) (as so renumbered by today's amendments).

Because we have not adopted any carry-forward limitations on increased costs, the proposed order of recovery provision for current and banked increased costs is not required and is not adopted.

Section 212.169(b) requires firms to correct for overrecoveries of increased costs. Firms must adjust their prices by reducing their May 15, 1973, selling prices for those products, cost centers, or classes of purchaser with respect to which such overrecoveries occurred, not later than the third month following such overrecoveries. (However, the proper allocation of increased costs to propane will continue to be determined pursuant to the "12-month" rule provided under § 212.167(c) (renumbered § 212.168(c) by today's amendments).)

As explained in the June 3 notice, prior regulations implicitly required the correction of overrecoveries. Section 212.169(b) now makes that requirement explicit and provides a mechanism for making the corrections.

Several comments urged us to allow firms to create an historic bank composed of unrecovered increased processing costs incurred since the imposition of price controls. Such a bank would presumably include: costs for which exception relief was available but for which the firm did not seek exceptions relief; costs such as depreciation which were not recoverable through the exceptions process; and increased costs falling within the $0.005 and $0.01 per gallon "gap" for which exceptions relief was not given. We have concluded that there is no compelling reason to allow prior unrecovered processing costs to be banked under § 212.169. These amendments provide for prospective recovery of particular costs incurred after the effective date of these amendments and are not intended to allow firms to recover prior costs which they either could have recovered through the exceptions process, or which were not deemed at the time to be costs appropriate for exceptions relief. Consequently, the banks allowed under § 212.169 may consist only of those increased costs incurred subsequent to the effective date of these provisions.

III. Additional Matters

A. Economic Impact of Amendments

The Department of Energy has prepared an economic analysis which concludes that these amendments will not result in a major economic impact, since the potential price increases resulting from the amendments are likely to be less than $100 million per year.

This regulation alters the amount of nonproduct costs that can be passed through in NGL and NGL product prices and generally incorporates the criteria for exception relief established by the Office of Hearings and Appeals (OHA). It differs from current OHA criteria in that it allows the passthrough of some additional interest costs and also increased depreciation costs for investments in gas processing plants since the base period. However, the new regulations limit certain nonproduct cost categories, such as certain corporate general and administrative expenses, which OHA currently generally includes as costs eligible for passthrough.

The original study of the economic impact of these regulations was conducted by the Office of the Assistant Administrator for Applied Analysis, Energy Information Administration, in November 1977. Since that time, we have reviewed all nonproduct cost exception cases processed by OHA during the period February 1, 1978, through July 31, 1978. Approximately

600 cases where exception relief was granted were processed during this period. The average exception relief amounted to 2.1 cents per gallon. The production for which the relief was granted averaged approximately 15.5 million barrels of NGL's per month, which represents 32.5 percent of total monthly domestic gas plant production during the period. For this production, nonproduct costs are currently being passed through on NGL's in the amount of $164.7 million per year. These amendments are not likely to result in a significant increase in the amount of nonproduct cost increases that can be passed through on such production, except with regard to depreciation cost increases, which are discussed below.

We believe it is reasonable to assume that the nonproduct cost increases applicable to the remaining 67.5 percent of production that would be allowed to be passed through under these new regulations would be approximately 0.25 cent per gallon. Under the current regulations, gas processors may passthrough up to 0.5 cent per gallon of nonproduct cost increases, as long as they substantiate such increase. Since OHA has granted exception relief for nonproduct cost increases greater than 1 cent per gallon, most of the gas processors that would benefit from these new regulations are those with nonproduct cost increases since May 15, 1973, of more than 0.5 cent per gallon but less than 1 cent per gallon. While some of these processors are probably near the exceptions threshold of 1 cent per gallon, it is reasonable to assume that others are substantially lower and some may have incurred increased nonproduct costs below the previous 0.5-cent-per-gallon regulatory ceiling. Thus, the conclusion that the average nonproduct cost price increase for 67.5 percent of gas plant production has been 0.75 cent per gallon—which is half way between what has been allowed by prior regulations and the threshold for exception relief—appears reasonable. This would result in a total estimated price increase for NGL products of $42 million per year.

Depreciation cost passthroughs are limited by two factors noted elsewhere in this preamble. First: They may not be computed on a basis such that a reduction in gas plant production would result in increased unit depreciation costs. Second: Depreciation cost increases may not be passed through by a gas plant operator who has already elected to use incentive prices under the prior regulations. Assuming that depreciation cost increases roughly parallel increases in other costs, we conclude that depreciation could result in increased costs averaging about 0.14 cents per gallon for all natural gas processors.

The potential impact on NGL product prices of both these categories of increased nonproduct costs is estimated to be about $78 million per year.

Accordingly, based upon the information available, we have concluded that the impact of these amendments is not likely to be major within the meaning of Executive Order No. 12044 on improving government regulations.

The economic analysis is available for public inspection and copying at the DOE's Freedom of Information Reading Room, Room 2107, 12th and Pennsylvania Avenue NW., Washington, D.C.

B. Effect of Amendments Adopted Upon Future and Outstanding Exception Relief

As indicated in the June notice, a major purpose of this proceeding has been to obviate the necessity for gas processors to seek and obtain exceptions relief on a routine and recurring basis from the prior $0.005 per gallon limitation upon the passthrough of nonproduct cost increases in NGL product prices. By deleting the prior ceiling limitation, and by providing a self-executing scheme for the definition, calculation, and passthrough of allowable increased costs on a dollar-for-dollar basis, we intend that these amendments will generally supplant the prior exceptions system with respect to these costs.

In large measure, these amendments are intended to maintain a general status quo with reference to the gas processing industry's allowable cost passthroughs. However, some changes have been made, for reasons of policy generally set forth in this notice, and it is not our intention that either particular firms or the industry generally should be considered to have any prescriptive rights or disabilities arising from their prior treatment in the exceptions process. Of course, exceptions relief remains available for a firm that can show that the general regulations affect it so uniquely and/or adversely as to constitute a gross inequity or serious hardship, or where the regulations are operating to frustrate fundamental national energy policies (*see MAPCO, Inc., supra*). However, a bare claim that these regulations may not, in some cases or with respect to some costs, be affording as much of a passthrough as prior exceptions decisions will not justify future exceptions relief.

There are also a number of exceptions decisions of this type presently outstanding. Inasmuch as the relief given in these cases is intended to be prospective in nature, and inasmuch as these amendments will now generally vitiate the basis for continuation of this relief, firms presently receiving this relief will be notified in those cases where DOE proposes to terminate such relief effective on the effective date of these amendments. In such cases, the firms involved will have an opportunity to respond before exception relief is terminated.

C. Further Rulemaking on Other Issues

In the June 3 notice FEA also identified, discussed, and sought comments concerning several other issues pertaining to the operation of subpart K which were not accompanied by specific proposals, but which might merit further consideration in the context of a rulemaking proceeding. We are continuing to review comments received in response to these issues, as well as comments directed at other issues not identified in the June 3 notice. We expect to issue in the future one or more notice(s) of proposed rulemaking containing specific proposals on many of the more significant issues. We are not adopting final rules on any of these issues now because we desire first to receive comments on specific proposals and alternatives. In addition any attempt to formulate additional rules in this proceeding would only further delay the issuance of rules which we can and should adopt now.

The amendments adopted today may contain inadvertent omissions or unintended consequences. Therefore, either in connection with the next contemplated rulemaking, or by a separate rulemaking issued at any time, we may propose or adopt further provisions or changes concerning the subjects addressed in today's amendments. We reserve the right to make any such additional changes to subpart K or any other relevant subpart necessary to perfect the purposes of these amendments, at any time and (if appropriate) with an effective date contemporaneous with that of today's amendments.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159, as amended, Pub. L. 93-511, Pub. L. 94-99, Pub. L. 94-133, Pub. L. 94-163, and Pub. L. 94-385; Federal Energy Administration Act of 1974, Pub. L. 93-275, as amended, Pub. L. 94-332, Pub. L. 94-385, Pub. L. 95-70, Pub. L. 95-91; Energy Policy and Conservation Act, Pub. L. 95-91; Energy Organization 11790, 39 FR 23185; Energy Organization 12009, 42 FR 46267.)

In consideration of the foregoing, part 212, chapter II, of Title 10, Code of Federal Regulations is amended as set forth below, effective November 1, 1978.

Issued in Washington, D.C., September 14, 1978.

DAVID J. BARDIN,
Administrator, Economic Regulatory Administration.

1. Section 212.161 is amended to read as follows:

§ 212.161 Applicability and relationship to other subparts.

(a) *Scope.* This subpart applies to all sales of natural gas liquids and natural gas liquid products by all firms, including gas plant operators, producers of natural gas, natural gas royalty owners, and refiners, except that this subpart does not apply to sales by resellers or retailers subject to subpart F of this part. This subpart does not apply to sales of lease or plant condensate which is defined as crude oil under § 212.31.

(b) *Relationship to other subparts.*—(1) *Gas plant operators.* Refiners that only refine liquid hydrocarbons from oil and gas field gases and do not refine crude oil shall determine their maximum lawful prices pursuant to this subpart K and are not also subject to subpart E.

(2) *Crude oil refiners which are also gas plant operators.*—(i) *General.* Refiners that refine liquid hydrocarbons from oil and gas field gases, and also refine crude oil, shall determine their May 15, 1973, selling prices and increased product and processing costs for natural gas liquids and natural gas liquid products produced in gas plants pursuant to this subpart, but shall determine their maximum lawful selling prices pursuant to subpart E.

(ii) *Calculation of increased product costs.* Such refiners shall calculate the increased product costs of all natural gas liquids and the increased product costs attributable to natural gas liquid products pursuant to §§ 212.167 and 212.168, and shall add the amount of increased product costs so determined to the amount of increased product costs incurred in each month of measurement and determined to be allocable to the appropriate product category under the refiner's cost allocation formulae of § 212.83(c)(1): *Provided,* That the amount of such increased product costs allocable to propane prices is limited pursuant to the provisions of § 212.168(c) and § 212.83(c)(1)(ii)(F).

(iii) *Calculation of increased processing costs.* Such refiners shall calculate increased processing costs attributable to natural gas processing pursuant to § 212.165, and shall add the amount of increased processing costs so determined to the amount of increased nonproduct costs attributable to refinery operations incurred in each month of measurement and determined to be allocable to prices charged for covered products pursuant to the formulae in § 212.83(c).

(iv) *Calculation of increased marketing costs.* Such refiners shall calculate allowable increased marketing costs pursuant to § 212.83.

* * * * *

2. Section 212.162 is amended by adding a definition of "Firm," after the definition of "Cost of natural gas shrinkage" and before the definition of "First sale," and by revising the definition of "Gas plant," to read as follows:

§ 212.162 Definitions.

* * * * *

"Firm" means a parent and the consolidated and unconsolidated entities (if any) which it directly or indirectly controls.

* * * * *

"Gas plant" means a facility in which natural gas liquids are separated from natural gas, or in which natural gas liquids are fractionated or otherwise separated into natural gas liquid products, or both. For purposes of computing increased processing costs under § 212.165, and for purposes of determining the eligibility of production from a plant to receive the prices specified in § 212.164(e), a "gas plant" includes any natural gas or natural gas liquid gathering facilities and the transportation lines (including compression stations) connecting these facilities to the actual physical plant at which the natural gas or natural gas liquids are processed: *Provided,* That natural gas gathering facilities and related transportation lines shall be considered a part of a gas plant for these purposes only if the first seller of the natural gas liquids or natural gas liquid products produced in the plant has no beneficial interest in the residue gas from the plant.

3. Section 212.165 is amended to read as follows:

§ 212.165 Increased processing costs.

(a) *Rule.* Subject to the limitations and requirements set forth in this section, a firm may increase the first sale price of natural gas liquids and natural gas liquid products which it sells to reflect, on a dollar-for-dollar basis, increased processing costs which it has incurred since the firm's base quarter. For purposes of this section, the base quarter for any firm is that fiscal quarter which includes the month of May 1973, except that if the firm commenced gas processing operations after May 1, 1973, the base quarter is the first full fiscal quarter of the firm after the the commencement of gas plant production.

(b) *Calculation of increased processing costs.* (1) For any firm, processing costs with respect to any gas plant or plants for any current month are the total amount of allowable costs incurred (or deemed under this section to have been incurred) by that firm with respect to that gas plant or plants in that month, divided by the volume of natural gas liquids and natural gas liquid products owned by the firm (after processing) and produced in that plant or plants in that month. Processing costs with respect to such plant or plants for the base quarter are the total amount of allowable costs incurred, or deemed to have been incurred, by that firm with respect to such plant or plants in the base quarter, divided by the volume of natural gas liquids and natural gas liquid products owned by the firm and produced in that plant or plants in the base quarter. *Provided,* That in calculating such processing costs, the rules hereinafter set forth in this paragraph (b) and in paragraph (c) of this section shall be followed. Increased processing costs for any current month are the difference between processing costs for the current month and processing costs for the base quarter, mulitiplied by the volume of natural gas liquids and natural gas liquid products owned by the firm (after processing) and produced in the current month in the plant or plants for which processing costs are being measured. Total increased processing costs are the net of increases in particular items of allowable costs (including payments made or received under paragraph (c)(3) of this section), less decreases in other particular items of allowable costs (including payments made or received under paragraph (c)(3) of this section).

(2) *Allowable costs.* Allowable costs, for purposes of calculating processing costs and increased processing costs, are those costs defined below which are attributable to gas plant operations: *Provided,* That no costs shall be included in any particular category of processing costs if they are included in any other category of processing costs, or are included in product costs or marketing costs.

(i) *Depreciation cost.* Depreciation cost is the cost attributable to the depreciation of gas plant facilities and equipment used for processing natural gas or natural gas liquids. Depreciation costs for any gas plant facility or equipment shall be calculated, for both the base quarter and the current month, on a total-units-of-production basis, i.e., by amortizing the original cost of the particular investment equally over the total volume of natural gas liquids and natural gas liquid products reasonably expected to be

produced from the facility or equipment, regardless of the volumes actually produced or to be produced in the base quarter or in any current month. A firm claiming increased costs of depreciation shall establish and maintain records setting forth the data and analytical method by which base quarter and current month unit depreciation is calculated under these rules. A firm which purchases an existing facility shall use the same unit depreciation costs for that facility as the seller used, and shall obtain a certification from the seller as to such unit depreciation costs prior to attributing any depreciation to the facility purchased. In no event may a firm or firms claim, in cumulative increased depreciation costs for a particular capital asset, an aggregate amount of more than the total original dollar investment in that capital asset (counting any improvements as part of the original investment), nor shall any firm be permitted to claim increased depreciation costs to the extent that the cost of the asset is deemed under these rules to have been attributable to production of natural gas liquids or natural gas liquid products prior to October 1, 1978. If a firm calculates plant fuel costs under paragraph (b)(2)(iii)(B) of this section, no depreciation costs shall be allowed for capital investments which effect fuel conservation. At any gas plant where the firm uses an adjusted May 15, 1973, first sale price pursuant to § 212.164 (c), (d), or (e), depreciation shall not constitute an allowable processing cost. A firm may elect, on a plant-by-plant basis and at the time of first selling natural gas liquids or natural gas liquid products from that plant, to claim increased depreciation costs or to use the adjusted price under § 212.164 (c), (d), or (e) (where permitted). A firm shall be bound by its election in all subsequent months. A firm utilizing the adjusted prices of § 212.164 (c), (d), or (e) at any time prior to the effective date of this § 212.165(b)(2)(i) shall be deemed to have elected such method for the plant or plants in question in lieu of claiming increased costs of depreciation.

(ii) *Labor cost.* Labor cost is the total amount of direct and indirect remuneration or inducement for personal services which are reasonably subject to valuation for those personnel employed at a gas plant or directly involved in gas plant operations, including that portion of the costs of any contract with an unrelated entity attributable to personnel other than employees that perform such services. Labor costs shall not include costs of personal services provided by personnel which own any portion of, or receive any profits from, the firm involved. (This exception does not include personnel who own stock in the firm if it is a publicly held and publicly controlled corporation or participants in any type of profit sharing plan historically offered by the firm.) For purposes of this paragraph (b)(2)(ii), an "unrelated entity" is an entity which is not part of the firm and which has no equity interest in any gas plant or plants (or in the natural gas liquids or natural gas liquid products produced therefrom) in which the firm has such an interest.

(iii) *Plant fuel cost.*— (A) *In general.* Plant fuel cost is the total amount of cost for fuels utilized to operate a gas plant. Except as provided in paragraph (b)(2)(iii)(B) of this section, if and to the extent that natural gas processed at the plant is used for plant fuel, no costs attributable thereto shall be accounted for as processing costs, but may be accounted for as cost of natural gas shrinkage under § 212.167.

(B) *Optional plant fuel incentive.* For any plant, a firm may calculate increased costs of plant fuel in the following manner: *Provided,* That the firm shall neither claim depreciation costs associated with capital investments which effect plant fuel conservation, nor use the cost of those investments to qualify for the incentive price of § 212.164 (c)–(e) if it calculates increased plant fuel costs in such fashion: Multiply the base gas plant fuel usage by the gas plant input for the current month and by the amount which represents the difference between average gas plant fuel cost rate in the current month and the average gas plant fuel cost rate in the base quarter where:

"Average gas plant fuel cost rate" means the weighted average cost of gas plant fuel per unit of energy utilized as fuel (e.g., dollars per million British Thermal Units (MMBtU) or dollars per thousand cubic feet (McF)). Where the plant fuel is natural gas processed at the plant, the total dollar amount of gas plant fuel for any period is determined by multiplying the volume of fuel by the sales price of the residue gas in that period. Where residue gas has been sold on a different basis in the current month than in the base quarter (e.g., MMBtU versus McF), base quarter costs shall be converted into the unit under which residue gas is sold in the current month.

"Base gas plant fuel usage" means the amount of gas plant fuel, in units of energy (MMBtU or McF), used per McF or MMBtU of gas plant input during the base quarter.

"Gas plant input" means the volume of raw natural gas processed at the gas plant during the period in question.

(iv) *Maintenance cost.* Maintenance cost is the dollar amount of costs attributable to normal gas plant maintenance and repair, including the cost of contract maintenance under contract with an unrelated entity. For purposes of this paragraph (b)(2)(iv), the term "unrelated entity" has the meaning given that term in paragraph (b)(2)(ii), of this section.

(v) *General and administrative costs.* General and administrative costs are the ordinary and necessary expenses of management and administration (including overhead) attributable to gas plant operations under generally accepted accounting principles historically and consistently applied by the firm. *Provided,* That any such costs which are attributable to, or incurred by, a corporate or other organizational administrative unit not directly and exclusively involved with gas plant operations shall not be an allowable cost. Costs in this category include legal and accounting fees and intergas plant transportation cost, but do not include costs of personal services provided by personnel which own any portion of, or receive any profits from, the firm involved. (This exception does not include personnel who own stock in the firm if it is a publicly held and publicly controlled corporation or participants in any type of profit-sharing plan historically offered by the firm.)

(vi) *Federal, State, and local tax cost.* Federal, State, and local tax cost is the cost of Federal, State, and local property, excise, franchise, and other similar taxes incurred with respect to gas plants or gas plant operations. However, the term does not include Federal, State, or local income taxes. The term also does not include production or severance taxes.

(vii) *Utility cost.* Utility cost is the dollar amount of costs incurred for utilities necessary for the operation of a gas plant.

(viii) *Interest cost.* Interest cost is the dollar amount incurred for interest on the amount of money borrowed from an unrelated entity for the purpose of constructing, expanding, or operating a gas plant, or which is otherwise attributable (based on relative operating costs or investment costs) to gas plant operations. For purposes of this paragraph (b)(2)(viii), the term "unrelated entity" has the meaning given that term in paragraph (b)(2)(ii) of this section.

(ix) *Cost of operating materials and supplies.* Operating materials and supplies cost is the cost of materials and supplies which are directly attributable to gas plant operations. This category includes materials such as absorption oil, process chemicals, and other industrial supplies which are not depreciable assets under generally ac-

V 43/184 SEP 21 78 V

V 43 / 184 SEP 21 1978

cepted accounting practices historically and consistently applied by the firm.

(3) *Limitations on increased processing costs for new plants.* Notwithstanding any other provision of this § 212.165, if: (i) A firm had an interest in one or more gas plants (or in the production from one or more gas plants) which were operating in the base quarter, and if (ii) the firm separately calculates and aggregates increased processing costs for a gas plant or group of gas plants which were not in existence and operating in the base quarter, then, in calculating the increased processing costs for a new plant, the new plant's base quarter processing costs shall be equal to the firm's firmwide base period processing costs. If a particular volume of natural gas or natural gas liquids is currently being processed by another firm under a fee or cost-sharing arrangement, and such natural gas or natural gas liquids were being processed directly by the paying firm in the base quarter, base quarter processing costs for such natural gas or natural gas liquids shall include the costs of processing such natural gas or natural gas liquids.

(c) *Accounting procedures for calculating processing costs incurred by a firm.*— (1) *General.* All processing costs shall be calculated in accordance with generally accepted accounting practices historically and consistently applied by the firm for certified annual financial statements filed by or on behalf of such firm with the Securities and Exchange Commission or a comparable State regulatory agency (or if no certified financial statements are so filed, according to generally accepted accounting practices historically and consistently applied by the firm for certified annual financial reports prepared by an independent accounting firm), except as otherwise provided in this section. No capital investments may be included in processing costs as expenses, but must be capitalized and depreciated as specified in the definition of depreciation costs.

(2) *Extraordinary or irregular costs.* Any item of cost which: (i) Is paid or incurred at greater than regular monthly intervals, or (ii) is paid or incurred each month but in significantly different amounts independent of variations in the amount of production shall be prorated or accrued over the appropriate period pursuant to generally accepted accounting practices historically and consistently applied for purposes of calculating processing costs under this section. In selecting the appropriate period for either the current month or the base quarter the burden shall be on the firm to choose that period which accurately reflects the period to which the particular item of cost is attributable. A firm shall maintain records setting forth the data and rationale under which the appropriate proration period is established, both for the base quarter and for any current month in which such extraordinary or irregular costs may be incurred. Costs in this category include, but are not limited to, annual taxes, insurance, and extraordinary maintenance expenses. However, if the total amount of all such irregular or extraordinary costs incurred in any current month is less than $0.0025 per gallon, such costs need not be prorated. Notwithstanding any other provisions of this paragraph (c)(2), costs which are not incurred at regular intervals, or which are incurred in amounts which vary substantially from period to period, may not be accrued, but must be prorated subsequent to their incurrence.

(3) *Processing costs deemed incurred by a firm.*—(i) *General rule.* Except as otherwise provided in this subparagraph (3), a firm's processing costs are only those costs attributable to gas plant operations, as defined in paragraph (b)(2) of this section, which the firm actually incurs. A firm shall deduct from its processing costs, pursuant to the following paragraphs (c)(3) (ii) and (iii) of this section, all or a portion of the amounts paid to it by other firms on account of the firm's processing (including gathering) of natural gas or natural gas liquids for such other firms. Subparagraphs (3)(ii) and 3(iii) of this § 212.165(c)(3) apply to all firms that make or receive payments to or from another firm for the processing (including gathering) of natural gas or natural gas liquids, no matter how such payments are characterized. Firms that do no engage in any first sales (as defined in § 212.162) of natural gas liquids or natural gas liquid products are not required to account for processing fee or other payments made or received; however, if the other party or parties to such payments engage in any first sales of natural gas liquids or natural gas liquid products, such party or parties shall account for such payments as provided in this § 212.165(c)(3).

(ii) *Apportionment of costs under gas plant operating agreements.* Firms having an interest in the same gas plant (or in the production from the same gas plant) under a general gas plant operating agreement in which the parties agree to share the costs of operating the gas plant, either directly or by reimbursement to the actual gas plant operator, shall be deemed to have incurred allowable processing costs in accordance with the firms' applicable written agreement for the sharing of costs. In the absence a written cost sharing agreement, such firms shall be deemed to have incurred a portion of the total allowable processing costs at that gas plant determined as follows. The ratio of the firm's costs in the relevant period to total allowable costs of operating the gas plant in the same period shall be equal to the ratio of the volume of the natural gas liquids and natural gas liquid products produced at the plant and owned by the firm in the relevant period to the total volume of the production at the plant during the same period. Each firm shall be jointly and severally responsible for insuring that no more than the total amount of actual allowable costs (as defined in paragraph (b)(2) of this section) attributable to the natural gas liquids and natural gas liquid products produced in the plant or plants are allocated among all relevant firms. Payments which reflect a direct reimbursement of processing costs under a basic gas plant operating agreement shall not be treated under § 212.165(c)(3)(iii) below, but shall be accounted for under this subparagraph. Conversely, bona fide fee payments made or received in return for processing of natural gas or natural gas liquids shall not be treated under this subparagraph, but shall be accounted for under § 212.165(c)(3)(iii) below.

(iii) *Payment and receipt of cash or in-kind consideration for processing natural gas or natural gas liquids.* Where a firm makes or receives a bona fide payment, whether in cash or in the form of an in-kind transfer of natural gas liquids or natural gas liquid products, to or from another firm in return for the processing of natural gas liquids or natural gas liquid products, the firm shall calculate increased processing costs incurred by it as follows:

(A) The firm making such payments shall add to its otherwise allowable processing costs (as defined in paragraph (b)(2) of this section), in both the current month and the base quarter, the amount of such payments made in the current month and the amount of such payments made in the base quarter, respectively. The firm shall then derive its increased processing costs as provided in paragraph (b)(1) of this section. Where increased processing costs are aggregated under paragraph (c)(4) of this section on a basis such that there are no base quarter costs attributable to the natural gas liquids or natural gas liquid products on account of which such payments are made, base quarter processing costs for such natural gas liquids or natural gas liquid products shall be calculated under paragraph (b)(3) of this section in the same manner as for new plants.

(B) The firm receiving such payments shall deduct from its otherwise allowable processing costs (as defined in paragraph (b)(2) of this section), in

both the current month and the base quarter, the lesser of the amount of the payment received in the current month and the base quarter, respectively, or the amount of allowable processing costs attributable on a volumetric basis to the natural gas liquids or natural gas liquid products produced in the plant and owned by the paying firm after payment in the current month and the base quarter, respectively. The firm shall then derive its increased processing costs as provided in paragraph (b)(1) of this section. Where increased processing costs are aggregated under paragraph (c)(4) of this section on a basis such that there are no base quarter costs attributable to the natural gas liquids or natural gas liquid products on account of which such payments are made, base quarter processing costs for such natural gas liquids or natural gas liquid products shall be calculated under paragraph (b)(3) of this section in the same manner as for new plants. A firm shall value payments made in the form of in-kind transfers of natural gas liquids or natural gas liquid products under this paragraph (c)(3)(iii), by multiplying the number of gallons of the products paid or received by the firm's applicable base period price for the natural gas liquids or natural gas liquid products. To value base quarter transfers the firm shall use its actual May 15, 1973, selling price for the products transferred, and to value current period transfers the firm shall use the higher of its actual May 15, 1973, price of the applicable adjusted price of § 212.164. Once the transfers are valued a firm shall calculate its increased processing costs with respect to such in-kind payments in accordance with paragraphs (c)(3)(iii) (A) and (B) of this section.

(4) *Aggregation and allocation of increased processing costs.* The provisions of § 212.168 (a), (b), (c) and (e), which provide for the exclusion of increased product costs attributable to ethane, the aggregation of increased product costs, the allocation of increased product costs to propane, and the allocation of increased product costs among classes of purchaser, shall also apply to increased processing costs. Increased processing costs attributable to particular products shall be aggregated on the same basis and allocated to the same products as are increased product costs.

(d) *Recovery of increased processing costs.* Increased processing costs incurred by a firm shall be available for recovery in sales by that firm of natural gas liquids or natural gas liquid products in the current month, *Provided,* That such increased processing costs are allocated as provided in paragraph (c)(4) of this section. Subject to the provisions of § 212.169, those increased processing costs shall also be available for recovery in sales of natural gas liquids and natural gas liquid products in months following the current month, provided that such costs are allocated as provided in paragraph (c)(4) of this section.

§§ 212.166 and 212.167 [Renumbered as §§ 212.167 and 212.168]

§§ 212.168–212.171 [Renumbered as 212.170–212.173]

4. Sections 212.166 and 212.167 are renumbered §§ 212.167 and 212.168 respectively. Sections 212.168, 212.169, 212.170, and 212.171, are renumbered §§ 212.170, 212,171, 212.172, and 212.173; respectively.

5. A new § 212.166 is added, to read as follows:

§ 212.166 Increased marketing costs.

(a) *Rule.* Subject to the limitations and requirements of this section, a firm may increase the first sale price of natural gas liquids and natural gas liquid products to reflect, on a dollar-for-dollar basis, increased marketing costs which it has incurred in the sale of such products since the base period.

(b) *Calculation of increased marketing costs.* (1) For any firm, marketing costs for any current month are the total amount of allowable costs incurred by that firm in that month with respect to sales of natural gas liquids and natural gas liquid products in that month, divided by the total volume of those products sold by that firm in that month. Base period marketing costs are the total amount of allowable costs incurred by the firm in the base period with respect to sales of natural gas liquids and natural gas liquid products in the base period, divided by the total volume of those products sold by the firm in the base period. In calculating current and base period marketing costs, a firm shall follow the rules hereinafter set forth in this paragraph (b) and in paragraph (c) of this section. Increased marketing costs for any current month are the difference between marketing costs for the current month and marketing costs for the base period, multiplied by the volume of natural gas liquids and natural gas liquid products sold by the firm in the current month. For purposes of this section the base period is the 9-month period beginning January 1, 1973, and ending September 30, 1973, plus the result of adding the 3-month period beginning October 1, 1972, and ending December 31, 1972, and the 3-month period beginning October 1, 1973, and ending December 31, 1973, and dividing that sum by 2.

(2) *Allowable costs.* Allowable costs, for purposes of calculating marketing costs and increased marketing costs, are costs which fall within the following categories and which are attributable, under generally accepted accounting practices historically and consistently applied by the firm, to natural gas liquid and natural gas liquid products sales operations. No costs shall be included in any particular category of marketing costs if they are included in any other category of marketing costs, or are included in product costs of processing costs. Common costs attributable both to sales operations and to gas plant operations shall be attributed solely to gas plant operations and treated as processing costs.

(i) *Labor cost.* Labor cost is the total dollar amount of direct and indirect remuneration or inducement for personal services, which are reasonably subject to valuation, for those personnel employed by the firm and directly involved in the sales operations of natural gas liquids and natural gas liquid products, except personal services provided by personnel which own any portion of, or receive any profits from, the firm involved. (This exception does not include personnel who own stock in the firm if it is a public corporation or participants in any type of profit sharing plan historically offered by the firm.) No amount treated as a maintenance cost may be allowed as a labor cost.

(ii) *Utility cost.* Utility cost is the dollar amount of costs incurred for utilities.

(iii) *Interest cost.* Interest cost is the dollar amount of costs incurred for interest on borrowing from an unrelated entity to the extent that such borrowing is for the purpose of financing any of the marketing costs set forth in subdivisions (i)–(vii) of this paragraph (b)(2) (including costs of acquiring facilities on which depreciation is allowable under paragraph (b)(2)(vi) of this section).

(iv) *Federal, State, and local tax cost.* Federal, State, and local tax cost is the dollar amount of Federal, State, and local property, excise, franchise, and other similar taxes incurred which are associated with the sales operations of natural gas liquids and natural gas liquid products. Federal, State, and local income taxes are not includable in this amount.

(v) *Maintenance cost.* Maintenance cost is the dollar amount of operating cost attributable to maintenance operations which are associated with the sales operations of natural gas liquids and natural gas liquid products. Maintenance cost increase includes the cost of contract maintenance.

(vi) *Depreciation cost.* Depreciation cost is the cost attributable to the depreciation of equipment, machinery, and facilities which are associated with the sales operations of natural gas liquids and natural gas liquid products: *Provided,* That these costs are

V 43 / 184 SEP 21 78

not otherwise covered by this section. If form 10-K is filed with the Securities and Exchange Commission, or an analogous report is filed with a State regulatory agency, the amount computed for depreciation cost increase shall be consistent with the figures used in preparing form 10-K or the analogous report. Accounting procedures used to compute depreciation cost increase by firms which do not file such form or report, or on whose behalf such form or report is not filed, shall be generally accepted accounting practices historically and consistently applied by the firm concerned for certified annual financial reports prepared by an independent accounting firm. No capital investments may be included in marketing costs as expenses, but all such investments must be capitalized and depreciated.

(vii) *Overhead cost.* Overhead cost is the dollar amount of costs of rent of real property, postage, office supplies, normal gas losses, insurance, employees' uniforms, outside legal and accounting fees, and transportation costs directly attributable to the sales operations of natural gas liquids and natural gas liquid products and not included in the calculation of increased product or processing costs. These costs shall be computed according to generally accepted accounting practices historically and consistently applied by the firm. Notwithstanding anything in this paragraph (b)(2)(vii) to the contrary, if a firm aggregates and allocates marketing costs on the basis of separate inventories as provided under paragraph (b)(3) of this section, the costs of transporting natural gas liquids or natural gas liquid products from a gas plant to the first separate inventory point shall be considered a cost attributable to that inventory.

(3) *Aggregation and allocation of increased marketing costs.* A firm may aggregate and allocate increased marketing costs to its entire, undivided stock of natural gas liquids and natural gas liquid products, or to that portion of total stock which constitutes a separate inventory at the point in the firm's distribution system where the product first comes to rest beyond the gas plant, or to the separate products propane, butane, and natural gasoline, under generally accepted accounting practices historically and consistently applied by the firm. Where costs are attributable to more than one product and/or more than one inventory, a firm shall allocate them according to generally accepted accounting practices to all of the products and/or inventories to which they are attributable. The provisions of § 212.168 (c) and (d), which apply to the allocation of increased product costs to propane, shall also apply to increased marketing costs. Inventories not in existence in the base period shall have as their base period marketing costs the entire firm's base period marketing costs for that product.

(c) *Recovery of increased marketing costs.* A firm may recover increased marketing costs in sales of natural gas liquids and natural gas liquid products in the current month. Subject to the provisions of §212.169, a firm may also recover these costs in months following the current month, provided that such costs are aggregated and allocated as provided in paragraph (b) (3) of this section.

§ 212.168 [Renumbered from § 212.167 and amended].

6. Section 212.168 (so renumbered from § 212.167 by amendment No. 5 herein) is amended by deleting paragraph (f) in its entirety.

7. A new § 212.169 is added, to read as follows:

§ 212.169 Carry-forward of increased costs; corrections for overrecovery of increased costs.

(a) *Carry forward of increased costs.* Subject to the requirements and limitations contained in this section, a firm may include in the prices of natural gas liquids and natural gas liquid products the increased product, processing, and marketing costs which it has not previously recovered. Increased processing and marketing costs incurred prior to October 1, 1978, shall not however be permitted to be recovered under this section. Increased costs which a firm has not previously recovered shall retain the aggregated or segregated character that they had as current increased costs under the applicable provisions of this subpart, and shall be allocated only to products distributed from the same center of aggregation. However, a firm that maintains separate inventories for calculating increased marketing costs, and distributes products from a gas plant to a particular first inventory shall allocate to that inventory an amount of increased product and processing costs equal to the greater of: (1) An amount determined by multiplying current increased unit product and processing costs by the number of units distributed from the gas plant, or (2) the unit amount recovered in sales from that gas plant to nonaffiliated purchasers multiplied by the number of units distributed from the gas plant.

(b) *Corrections for overrecovery of increased costs.* If in any month a firm charges prices for natural gas liquids or natural gas liquid products that result in the recovery of an amount greater than the increased costs which it is allowed under this subpart, the firm shall subtract the excess amount recovered from its May 15, 1973, selling prices for the product, cost centers and class of purchaser with respect to which such overrecoveries occurred, not later than the third month after the month in which it recovers the excess amount. A firm shall not deem any increased costs to have been overallocated to propane except on an annual basis, as provided in § 212.168(c), § 212.165(c)(4), and § 212.166(b)(3).

8. Section 212.172 (so renumbered from § 212.170 by amendment No. 5) is amended to read as follows:

§ 212.172 Records required to be maintained.

Prices otherwise permitted to be charged pursuant to this subpart to reflect increased product costs, increased processing costs, and increased marketing costs shall not be charged unless records adequate to demonstrate such increased product costs, increased processing costs, and increased marketing costs are maintained. The ERA will treat gas plant operators as responsible in the first instance for maintaining such records, without, however, relieving gas plant owners and other entities subject to these regulations of the responsibility for compliance with these regulations. Where one or more gas plants are under common ownership, the records required by this section may be kept in the aggregate for all of the gas plants concerned.

9. Section 212.173 (so renumbered from § 212.171 by amendment No. 5 herein) is amended to read as follows:

§ 212.173 Certification requirements.

(a) *Certification to purchasers of natural gas liquids.* Each seller of natural gas liquids shall certify to each purchaser in a first sale transaction the per gallon increment included in the price charged to that purchaser which results from the use by the seller of an adjusted May 15, 1973, selling price under § 212.164, in determining the lawful price to that purchaser.

PART VI

DEPARTMENT OF TRANSPORTATION

Coast Guard

BOATS AND ASSOCIATED EQUIPMENT

Display of Capacity Information

[4910-14]

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 183]

[CGD 78-034]

BOATS AND ASSOCIATED EQUIPMENT

Display of Capacity Information

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: The Coast Guard is proposing to change the format for the display of capacity information on certain boats under 20 feet in length and to require that the persons capacity be stated in terms of the number of persons, in addition to the maximum weight of persons. The present label standard does not require display of important safe loading capacity information in a manner readily understandable by boat users. Lack of understanding and awareness of the boat's safe load-carrying capabilities adversely affects boating safety. Amending the format of the capacity label and the method of presenting the safe loading capacity information should increase the boat user's understanding of safe loading capacities and enhance boating safety.

DATES: Comments must be received on or before November 20, 1978.

ADDRESSES: Comments should be submitted to Commandant (G-CMC/81), (CGD 78-034), U.S. Coast Guard, Washington, D.C. 20590. Comments will be available for examination at the Marine Safety Council (G-CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590. Copies of studies referred to in this document are available for examination at the above address. A copy of the economic evaluation from which the economic summary in this document is taken is also available for examination at the above address.

FOR FURTHER INFORMATION CONTACT:

Mr. Lars E. Granholm, Office of Boating Safety (G-BBT-2/TP42), Room 4314, Department of Transportation, Trans Point Building, 2100 Second Street SW., Washington, D.C. 20590, 202-426-4027.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, data, or arguments. Persons submitting comments should include their name and address, identify this notice (CGD 78-034) and the specific section of the proposal to which a comment applies, and give the reasons for the comment. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal. No public hearing is planned but one may be held at a time and place to be set in a later notice in the FEDERAL REGISTER if requested in writing by an interested person raising a genuine issue and desiring to comment orally at a public hearing.

DRAFTING INFORMATION

The principal persons involved in drafting this proposal are: Mr. Lars E. Granholm, Project Manager, Office of Boating Safety, and Lt. Robert R. Meeks, Project Attorney, Office of Boating Safety.

DISCUSSION OF THE PROPOSED AMENDMENT

Since the capacity label standards became effective in 1972 the Coast Guard has continuously reviewed the effectiveness of the capacity label and its impact on boating safety. Studies conducted by the Coast Guard to determine the effectiveness of capacity labels in making boat users aware of and understanding the safety information on the labels, indicate that both the format and the information presented on the capacity labels are unsatisfactory.

These studies indicated that many boaters either fail to read or do not remember the labeled capacities of their boats. Approximately half the boat users surveyed could not state the labeled persons capacity of their boat within 150 pounds. The Coast Guard believes that part of the reason for this difficulty is that persons capacity is currently expressed in pounds rather than the number of persons the boat can safely carry. Also, testing and evaluation of label designs rates the present label format very low compared to other available techniques for communicating information. Since the purpose of the labeling regulations is to inform the public of a boat's safe capacity, in order to minimize the number of overloading accidents, it is imperative that the labels actually impart information that will be remembered and used. The inadequacy of the present capacity label to efficiently and effectively communicate safety information to the boater warrants revision of the current label format.

The Coast Guard has developed a capacity label design, based on the Coast Guard studies, which it believes provides a more efficient and effective means of communicating safe loading information to the boat users. The new label design takes into account the following factors: Color contrast, letter and number sizes, format readability, and directness and brevity of information. Less important information has been eliminated or deemphasized.

The most important piece of safety information on the capacity label is the maximum persons capacity. This is because it is the one variable constantly involved in boating accidents where improper loading was a contributory cause. The number of passengers carried from one outing to the next typically varies. If the boat user does not understand the persons capacity information, a hazardous loading situation may inadvertently arise. Because persons in a boat can move about changing the stability of the boat, the number of persons which the boat can safely carry is the most critical item of information. The maximum weight capacity on the other hand, reflects an upper safety limit that represents a static loading situation and normally exceeds the persons capacity because it considers additional static weights such as machinery and gear. Therefore, maximum persons capacity should receive more emphasis on a capacity label than maximum weight. In the same vein, the maximum horsepower for a boat is generally considered only when the boat is being purchased and should be subordinated to the more important maximum persons capacity information. This approach is used in the new capacity label design.

The label effectiveness studies also reveal that persons capacity in whole numbers of persons is a more effective means of communication than persons capacity in pounds and that people can better identify and comprehend information presented in that way. Accordingly, the proposed capacity label format highlights persons capacity as a whole number (of persons). Additional attention is drawn to this information by requiring that it be displayed on a yellow background in large characters.

Since the maximum persons capacity information affects all persons onboard the boat, the proposal would also require that the capacity label be displayed where it can be easily seen by passengers as well at boat operators.

The Coast Guard considered several methods of calculating persons capacity as a whole number. Methods used by international boating safety organizations, State boating safety programs, and various voluntary standards were examined.

Several major factors are important in determining an appropriate formula for computing persons capacity as a whole number. One is the assumed weight of the average person, which, when divided into the persons capacity in pounds, results in the number of persons that may be carried. The weight of the average person as used in industry standards, State laws, and international standards ranges from 150 to 165. Studies of boating accidents have indicated average weights of 162 and 157 pounds. The Coast Guard has adopted 160 pounds as the weight of an average person.

Another major factor is the grouping of persons in the typical boating outing, which is usually a combination of adults and children indicating that some adjustment in the number of persons that may be carried is necessary. The typical group on a boating outing is three to four persons as indicated in the surveys conducted by the Coast Guard. This group is typically a boating family of two adults and one or two children.

A third major factor is the different types of boats to which the formula will apply. Because of the variations in boat sizes and resulting loading capacities it is imperative that the formula apply equally to all boats without unduly restricting the usage of some boats and without allowing excessive capacities for other boats, which could be hazardous.

An analysis of boats and their respective persons capacities was conducted taking into consideration the factors discussed above. The result was a straight line graph which converted a boat's persons capacity in pounds to a persons capacity in whole numbers of persons. In order to avoid errors of interpolation the graph was reduced to a simplified mathematical formula which involves adding 32 pounds to the persons capacity in pounds, dividing the result by 141, and rounding off the answer to the nearest whole number.

Under the proposed formula a boat that has a maximum persons capacity of 500 pounds has a whole number persons capacity of four. Some existing State laws require dividing the 500 pounds by the average weight of a person and displaying a fraction of a person on the capacity label. In this example, using 160 pounds for a person, the result would be approximately 3.12 persons. This result discriminates against the typical boating family of two adults and two children whose combined weight would not normally exceed 500 pounds. The Coast Guard does not consider that permitting a typical boating family of four persons in a boat with a 500-pound persons capacity would adversely affect boating safety. On the other hand, a boat with a persons capacity of 320 pounds would not be allowed to carry more than 2 persons according to the proposed formula. The Coast Guard believes that the small lightweight boats with persons capacities of less than 320 pounds cannot safely accommodate three persons, even if one or more of the persons is a child. The small lightweight boats are generally very unstable and are easily affected by the motions of persons on board. Other boats affected by this proposed amendment would be similarly affected as the examples described above depending on their persons capacity in pounds.

The present Coast Guard standard allows larger persons capacities in pounds than would be allowed by voluntary standards for most outboard boats. The proposed formula would allow the persons capacities in numbers of persons to further exceed the capacities allowed by the voluntary standards. The Coast Guard considers the variance between voluntary standards and the present standard to be acceptable. However, a further increase is not in the best interests of boating safety. Accordingly, the proposal adopts the method for calculating persons capacity, in pounds, for outboard boats found in voluntary standards. The method used in the voluntary standards requires that the maximum persons capacity in pounds not exceed the lesser of the static stability test value for persons capacity in pounds or the value obtained by subtracting outboard motor, battery, and fuel tank weights from the maximum weight capacity.

This proposed amendment will apply to all boats affected by the safe loading standards and will afford the boating public the following advantages:

(1) Boats users will be able to readily understand and apply the prescribed boat safe loading capacities in terms at the number of persons which may be carried;

(2) Passengers of boats will be able to identify a boat's safe load carrying capacities; and

(3) Boating safety will be enhanced because of increased awareness of safe load carrying capacities.

This proposed amendment does not apply to sailboats, canoes, kayaks, and inflatable boats as prescribed in section 183.21 of subpart B.

A discussion of the proposed amendment to subpart B and subpart C of part 183 follows:

SUBPART B

Section 183.23 prescribes that each boat to which the standard applies be marked with the appropriate capacity label format described in § 183.25 and that the capacity label marking be properly affixed as required in § 183.27.

Paragraphs 183.23 (b) and (c) of the present standard will be deleted because they are no longer applicable.

Paragraph 183.23(a) in the proposed amendment adds the requirement that the capacity label marking be displayed so that it is clearly visible to passengers as well as to the boat operator. The requirements for label formats include label dimensions letter and number dimensions, and label print colors.

SUBPART C

The proposal amends §§ 183.39, 183.41, and 183.43 of subpart C. The amendment adds a new paragraph to each section that includes the proposed formula for determining persons capacity as a whole number. The paragraphs in the sections are renumbered to conform to the change.

Section 183.39 is revised by adding a new paragraph(b) which is the formula for calculating persons capacity as a whole number. The formula for persons capacity is derived by using the maximum persons capacity value in pounds that as calculated in the new § 183.39(a), adds 32 pounds to it, and dividing it by 141. The resulting number is rounded off to the nearest whole number by rounding down to the next lower whole integer for fractions less than one-half and rounding up to the next higher integer for fractions greater than or equal to one-half. This rounding off procedure is also used in the proposed formula in §§ 183.41 and 183.43.

The proposal incorporates the revised method for calculating maximum persons capacity, in pounds, for outboard boats within a new paragraph 183.41(a). Paragraph 183.41(b) contains the method for determining maximum persons capacity as a whole number. The amendment proposes that the maximum persons capacity, in pounds, not exceed the lesser of the static stability test value or the value obtained by subtracting outboard motor, battery, and fuel tank dry weights from the maximum weight capacity determined in § 183.35.

Section 183.43 is revised by adding a new paragraph(b) which contains the proposed method for calculating persons capacity as a whole number for boats rated for manual propulsion. Also, a new paragraph(c) is added which contains the proposed method for boats rated for motors of 2 horsepower or less. The proposed method is the same method as described in the discussion for paragraph 184.39(b).

The National Boating Safety Advisory Council has been consulted regarding the substance of this proposed amendment. The Council concurs that the proposed amendment be published as an amendment to subparts B and C. Transcripts of the proceedings of the National Boating Safety Advisory Council at which this amendment was discussed are available for examination in room 4224, U.S. Coast Guard Headquarters, Trans Point Building, 2100 Second Street SW., Washington, D.C. The minutes of the meeting are available from the Executive Director,

National Boating Safety Advisory Council, c/o U.S. Coast Guard (G-BA/TRPT), Washington, D.C. 20590.

The Coast Guard has considered this proposal under Department of Transportation policies for improving government regulations published March 8, 1978, 43 FR 9582. A draft evaluation has been prepared and is available for public inspection at the Marine Safety Council. The proposed amendment should result in negligible cost to industry and the consumer since it merely changes the label format, color, and the size of lettering.

PROPOSED EFFECTIVE DATE

The changes outlined in this proposal will become effective on August 1, 1979, so as to coincide with the new model year. This will allow manufacturers to clear their inventory of present labels and to order new ones.

In consideration of the foregoing, it is proposed to amend part 183 of chapter I of title 33 of the Code of Federal Regulations as follows:

Subpart B—Display of Capacity Information

1. By revising § 183.23 to read as follows:

§ 183.23 Capacity marking required.

Each boat must be marked in the manner prescribed in § 183.25 and § 183.27 with the maximum persons capacity in whole numbers of persons and in pounds, the maximum weight capacity in pounds, determined under § 183.33 through 183.43, and the maximum horsepower capacity determined under § 183.53.

2. By revising paragraph 183.25(a) and adding a new paragraph 183.25 (b) and (c) to read as follows:

§ 183.25 Display of markings.

(a) Each marking required by § 183.23 must be permanently displayed in a legible manner where it is clearly visible to the operator and passengers when getting the boat underway.

(b) The information required to be marked by § 183.23 must be displayed in the following manner—

(1) For outboard boats:

U.S. COAST GUARD MAXIMUM CAPACITIES	
Persons or pounds	XXX
Pounds, persons, motor, gear	XXX
Horsepower, motor	XXX

or

U.S. COAST GUARD MAXIMUM CAPACITIES	
Persons or pounds	XXX
Pounds, persons, motor, gear	XXX
Horsepower, motor with remote steering	XXX
Horsepower, motor without remote steering	XXX

(2) For inboard boats and inboard-outdrive boats:

U.S. COAST GUARD MAXIMUM CAPACITIES	
Persons or pounds	XXX
Pounds, persons, gear	XXX

(3) For boats rated for motors of 2 horsepower or less

U.S. COAST GUARD MAXIMUM CAPACITIES	
Persons or pounds	XXX
Pounds, persons, motor, gear	XXX
Horsepower, motor	XXX

(4) For boats rated for manual propulsion:

U.S. COAST GUARD MAXIMUM CAPACITIES	
Persons or pounds	XXX
Pounds, persons, gear	XXX

THIS BOAT RATED FOR MANUAL PROPULSION

ALL DIMENSIONS ARE MINIMUM

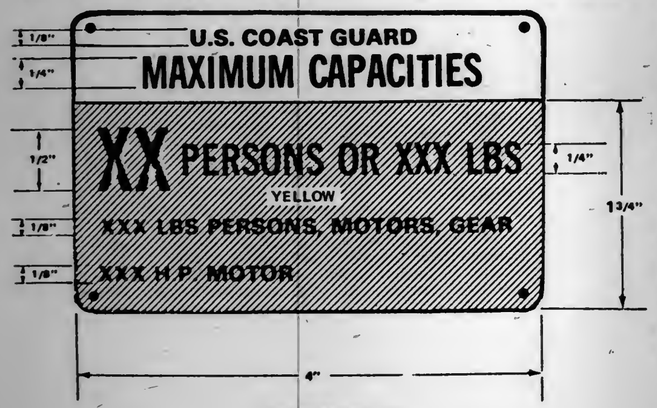

FIGURE 183.25

(c) The capacity information displays required in paragraph (b) must meet the following as illustrated in figure 183.25:

(1) All displays must have a yellow area with minimum dimensions of 1¾ inches in height and 4 inches in width into which the maximum capacity values required in § 183.23 must be placed;

(2) The persons capacity in whole numbers must be black print with the following dimensions:

(i) The height must not be smaller than one-half inch;

(ii) The width of the numbers must be three-fifths of the height, except for the number "4," which shall be one stroke width wider, and the number "1," which shall be one stroke in width;

(iii) The stroke width shall be one-sixth of the height; and

(iv) The minimum space between the numbers shall be one stroke width.

(3) The caption "PERSONS OR XXX POUNDS" must be a least one-quarter inch in height but not larger than one-half the height of the persons capacity number and of a color contrasting with yellow;

(4) All remaining captions required to be within the yellow area required in paragraph (c)(1) must be at least one-eighth inch in height, but no larger than one-half the height of the persons capacity number;

(5) All other required captions on the displays must be located outside the yellow area on a background color which contrasts with yellow;

(6) The caption "MAXIMUM CAPACITIES" must be at least one-quarter inch in height and of color constrasting with its background; and

(7) The caption "U.S. COAST GUARD" must be at least one-eighth inch in height and of color contrasting with its background.

3. By revising § 183.27 to read as follows:

§ 183.27 Construction of markings.

Each marking required by § 183.23 must be—

(a) Capable of withstanding the combined effects of exposure to water, oil, salt spray, direct sunlight, heat, cold, and wear expected in normal operation of the boat, without loss of legibility; and

(b) Resistant to efforts to remove or alter the information without leaving some obvious sign of such efforts.

Subpart C—Safe Loading

1. By revising § 183.39 to read as follows:

§ 183.39 Persons capacity: Inboard and inboard-outdrive boats.

(a) The persons capacity in pounds marked on a boat that is designed or intended to use one or more inboard engines or inboard-outdrive units must not exceed the lesser of—

(1) The maximum weight capacity determined under § 183.33 for the boat, or

(2) The maximum persons capacity in pounds determined in the following manner:

(i) Float the boat in calm water with all its permanent appurtenances, including installed engines, full fuel system and tanks, control equipment, drive units, and batteries.

(ii) Gradually add weights along one outboard extremity of each passenger carrying area, at the height of the seat nearest the center of that area, but no higher than the height of the gunwale, and distributed equally forward and aft of that center in a plane parallel to the floorboards, until the boat assumes the maximum list or trim, or both, without water coming aboard.

(iii) Compute the persons capacity in pounds in the following formula:

Persons capacity = A/0.6 where A is the total of the weights added in paragraph (a)(2)(ii) of this section.

(b) The maximum persons capacity in whole numbers of persons marked on a boat that is designed or intended to use one or more inboard engines or inboard-outboard units must not exceed the value obtained by adding 32 pounds to the value determined in paragraph (a)(2)(iii), dividing the sum by 141 and rounding off the result to the nearest whole number. If the fraction is less than one-half, round down to the next whole integer and if the fraction is equal to or greater than one-half round up to the next higher whole integer.

2. By revising § 183.41 to read as follows:

§ 183.41 Persons capacity: Outboard boats.

(a) The persons capacity in pounds marked on a boat that is designed or intended to use one or more outboard motors for propulsion must not exceed the lesser of—

(1) The maximum weight capacity determined under § 183.35 for the boat minus the motor and control weight, battery weight, and full portable fuel tank weight (dry) from table 183.67(a), or

(2) The maximum persons capacity determined by the following test in calm water:

(i) Float the boat with all its permanent appurtenances.

(ii) Add, in normal operating positions, the dry motor and control weight, battery weight, and full portable fuel tank weight, if any, shown in table 183.67(a) for the maximum horsepower capacity marked on the boat. Permanently installed fuel tanks shall be full of fuel.

(iii) Gradually add weights along one outboard extremity of each passenger carrying area, at the height of the seat nearest the center of that area, but no higher than the height of the gunwale, and distributed equally forward and aft of that center in a plane parallel to the floorboards until the boat assumes the maximum list or trim, or both, without water coming aboard.

(iv) Compute the persons capacity in pounds using the following formula:

Persons capacity = A/0.6 where A is the total of the weights added in paragraph (a)(2)(iii) of this section.

(b) The maximum persons capacity in whole numbers of persons marked on a boat designed or intended to use one or more outboard motors for propulsion must not exceed the value obtained by adding 32 pounds to the lesser of the values determined in paragraph (a)(1) or (a)(2)(iv), dividing the sum by 141, and rounding off the result to the nearest whole number. If the fraction is less than one-half, round down to the next lower whole integer and if the fraction is equal to or greater than one-half round up to the next higher whole integer.

3. By revising § 183.43 to read as follows:

§ 183.43 Persons capacity: Boats rated for manual propulsion and boats rated for motors of 2 horsepower or less.

(a) The persons capacity in pounds marked on a boat that is rated for manual propulsion or for motors of 2 horsepower or less must not exceed—

(1) For boats rated for manual propulsion, 90 percent of the maximum weight capacity in pounds; and

(2) For boats rated for motors of 2 horsepower or less, 90 percent of the maximum weight capacity in pounds, less 25 pounds.

(b) The maximum persons capacity in whole numbers of persons marked on a boat that is rated for manual propulsion must not exceed the value obtained by adding 32 pounds to the value determined in paragraph (a)(1), dividing the sum by 141, and rounding off the result to the nearest whole number. If the fraction is less than one-half, round down to the next lower integer and if the fraction is equal to or greater than one-half round up to the next higher whole integer.

(c) The maximum persons capacity in whole numbers of persons marked on a boat rated for motors of 2 horsepower or less must not exceed the value obtained by adding 32 pounds to the value determined in paragraph (a)(2), dividing the sum by 141, and rounding off the result to the nearest whole number.

If the fraction is less than one-half, round down to the next lower whole integer and if the fraction is equal to or greater than one-half round up to the next higher whole integer.

AUTHORITY: 85 Stat. 215, 216 (46 U.S.C. 1454, 1456); 49 CFR 1.46(n)(1).

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended, and OMB Circular A-107.

Dated: September 13, 1978.

J. B. HAYES,
Admiral, U.S. Coast Guard
Commandant.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA/FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
CSA	CSC		CSA	CSC
	LABOR			LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

NOTE: As of August 14, 1978, Community Services Administration (CSA) documents are being assigned to the Monday/Thursday schedule.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

PROCLAMATION 4598

National Guard Day, 1978

By the President of the United States of America

A Proclamation

Three hundred and forty-two years ago, the First Militia Regiment of the Massachusetts Bay Colony was organized to enable the colonists to defend themselves and their settlement. That step toward citizen self-defense was the beginning of our National Guard, the oldest military organization in the United States.

Over those three centuries, names have changed—Militia, State Troops, State Volunteers, and, finally, the National Guard—but the spirit of the citizen-soldier has been constant. It is exemplified by those who stand prepared to leave their civilian occupations, don the uniform of their Country, and serve their States and their Nation when the need arises.

In time of war, the Guard is always ready to serve. At King's Mountain, the Meuse-Argonne, Bataan, Omaha Beach, and the Iron Triangle, during the Berlin Airlift and Vietnam, the Guard has served in every major conflict in which this country has engaged.

When disaster strikes in time of peace, the Guard is equally ready to serve—as it has, in recent years, at Johnstown, Texas City, and in the wake of Hurricane Agnes.

In recognition of the debt of gratitude owed by the people of the United States to those who serve as members of the National Guard, the Congress has authorized and requested the President to issue a proclamation designating October 7, 1978, as National Guard Day.

NOW, THEREFORE, I, JIMMY CARTER, President of the United States of America, ask all Americans to celebrate Saturday, October 7, 1978, as National Guard Day and to honor the Army and Air National Guard of the United States for service to their communities, to their States and to their Nation.

IN WITNESS WHEREOF, I have hereunto set my hand this twentieth day of September, in the year of our Lord nineteen hundred seventy-eight, and of the Independence of the United States of America the two hundred and third.

Jimmy Carter

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 930—PROGRAMS AND SPECIFIC POSITIONS AND EXAMINATION (MISCELLANEOUS)

Subpart B—Appointment, Pay, and Removal of Administrative Law Judges

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: This document amends the regulations to reflect the Civil Service Commission's determination that administrative law judges are not eligible to receive monetary or honor awards under the Government Employees Incentive Awards Act of 1954 for superior accomplishment in performing their adjudicatory functions.

EFFECTIVE DATE: September 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Charles J. Dullea, Director, Office of Administrative Law Judges, U.S. Civil Service Commission, 1900 E Street NW., Room 2470, Washington, D.C. 20415, Telephone: 202-632-4604.

SUPPLEMENTARY INFORMATION: In December 1960 the Commission held that administrative law judges (then known as hearing examiners) could be granted awards under the Government Employees Incentive Awards Act. In responding to a recent inquiry by an agency as to whether administrative law judges could be granted monetary of honor awards for superior accomplishments, the Commission reexamined its earlier determination. As a result of its reexamination, the Commission has determined that the granting of such awards to Administrative law judges represents an evaluation of their work-related performance and an adjustment in compensation by an agency in violation of the provisions of section 11 of the Administrative Procedure Act which exmpts administrative law judges from the Performance Rating Act and assigns responsibility for determining their compensation to the Commission. This amendment does not prevent an agency from granting awards for accomplishment by administrative law judges unrelated to the performance of their adjudicatory responsibilities.

Accordingly, 5 CFR part 930, subpart B, is amended by revising paragraph (c) of § 930.210 to read as follows:

§ 930.210 Pay.

* * * * *

(c) An agency shall not grant a quality increase under section 5336(a) of title 5, U.S.C., or a monetary or honorary award under section 4503 of title 5, U.S.C., for superior accomplishment by an Administrative Law Judge in the performance of adjudicatory functions.

* * * * *

(5 U.S.C. 1305, 4503.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[3410-02]

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS: FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Orange, Grapefruit, Tangerine, and Tangelo Reg. 2; Grapefruit Reg. 2]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

PART 944—FRUITS; IMPORT REGULATIONS

Grade and Size Regulations

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: These regulations specify minimum grade and size requirements applicable to the handling of Florida oranges, grapefruit, tangerines and tangelos and imported grapefruit. The action is necessary to assure the shipment of ample supplies of fruit of acceptable grades and sizes in the interest of growers and consumers.

EFFECTIVE DATE: September 25 through November 12, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-6393.

SUPPLEMENTARY INFORMATION: Findings. (1) Pursuant to the marketing agreement and Order No. 905, both as amended (7 CFR Part 905; 42 FR 59367, 61853), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and the recommendations of the committee established under the marketing agreement and order, and upon other available information, it is found that the regulation of shipments of Florida oranges, including Navel, Temple, Valencia, Leu Gim Gong, and similar late maturing oranges of the Valencia type, grapefruit, tangerines, and tangelos, and the regulation of imported grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The specified minimum grade and size requirements reflect the Department's appraisal of the need for regulation of the designated varieties of oranges, grapefruit, tangerines, and tangelos during the period September 25 through November 12, 1978, based on the available supply and current and prospective market demand conditions. Available data indicate that during the 1978-79 season fresh market outlets will take about 19,500 carlots of round oranges, 4,000 carlots of Temple oranges, 10 carlots of seeded grapefruit, 37,500 carlots of seedless grapefruit, 4,800 carlots of tangelos, and 6,100 carlots of tangerines.

The specified minimum grade and size requirements for imported grapefruit are consistent with section 8e of the act. This section requires that

whenever specified commodities, including grapefruit, are regulated under a Federal marketing order, imports of that commodity must meet the same or comparable grade, size, quality, or maturity requirements as those in effect for the domestically produced commodity.

The grade and size requirements for export shipments of oranges, grapefruit, tangerines, and tangelos are necessary to assure the exportation of good-quality fruit and thereby aid the expansion of export markets.

It is concluded that the grade and size requirements hereinafter set forth are necessary to establish and maintain orderly marketing conditions and to provide acceptable quality fruit in the interest of producers and consumers pursuant to the declared policy of the act.

(3) It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of these regulations until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information became available upon which these regulations are based and the time when these regulations must become effective in order to effectuate the declared policy of the act is insufficient; the recommendation and information for regulation of the aforesaid fruits was developed at an open meeting at which interested persons were afforded an opportunity to submit their views; and the regulations will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time.

Accordingly, it is found that the requirements for the handling of Florida oranges, grapefruit, tangerines, and tangelos and for the handling of imported grapefruit should be and are established as follows:

1. Section 905.302 is added to read:

§ 905.302 Orange, grapefruit, tangerine and tangelo regulation 2.

Order. (a) During the period specified in column (2) of table I no handler shall ship between the production area and any point outside thereof in continental United States, Canada, or Mexico, any variety of fruit listed in column (1) of such table unless such variety meets the applicable minimum grade and size (with tolerances for size as specified in paragraph (c) hereof) specified for such variety in columns (3) and (4) of such table.

TABLE I

Variety	Regulation Period	Minimum Grade	Minimum Diameter (inches)

TANGELOS			
Tangelos	9/25/78-11/12/78	U.S. No. 1	2-4/16

(c) *Size Tolerances:* In the determination of minimum size as prescribed in tables I and II, the following tolerances are permitted (1) for oranges, as set forth in § 51.1152 of the U.S. standards for grades of Florida oranges and tangelos, except that such tolerances for other than Navel and Temple oranges shall be based only on the oranges in the lot measuring 2 1/16 inches or smaller in diameter, and the tolerance for Honey tangerines shall be as specified in § 51.1818 of the U.S. standards for grades of Florida tangerines; (2) for grapefruit, as specified in § 51.761 of the U.S. standards for grades of Florida grapefruit; (3) for tangerines, as specified in § 51.1818 of the U.S. standards for grades of Florida tangerines; and (4) for tangelos, as set forth in § 51.1152 of the U.S. standards for grades of Florida oranges and tangelos.

(d) Terms used in the marketing order, including improved No. 2 grade for grapefruit, when used herein, mean the same as is given to the terms in the order; Florida No. 1 grade for Honey tangerines means the same as provided in rule No. 20-35.03 of the regulations of the Florida Department of Citrus, and terms relating to grade, except improved No. 2 grade for grapefruit, and diameter shall mean the same as is given to the terms in the revised U.S. standards for grades of Florida oranges and tangelos (7 CFR 51.1140-51.1180), the revised U.S. standards for Florida tangerines (7 CFR 51.1810-51.1835), or the revised U.S. standards for grades of Florida grapefruit (7 CFR 51.750-51.784).

2. Section 944.102 is added to read:

§ 944.102 Grapefruit regulation 2.

(a) *Applicability to imports.* Pursuant to section 8e of the act and part 944—Fruits; Import Regulations during the period specified in column (2) of table I, § 905.302, the importation into the United States of any variety of grapefruit listed in column (1) of said table is prohibited unless such variety meets the applicable minimum grade and size specified for such variety in columns (3) and (4) of said table. In the determination of minimum size as prescribed in table I, a tolerance is permitted as specified in paragraph (c) of § 905.302.

(b) The Federal or Federal-State Inspection Service, Fruit and Vegetable Quality Division, Food Safety and Quality Service, United States Department of Agriculture, is designated as the governmental inspection service for certifying the grade, size, quality, and maturity of grapefruit that are imported into the United States. Inspection by the Federal or Federal-State Inspection Service with evidence thereof in the form of an official inspection certificate, issued by the respective service, applicable to the particular shipment of grapefruit, is required on all imports. The inspection and certification services will be available upon application in accordance with the rules and regulations governing inspection and certification of fresh fruits, vegetables, and other products (7 CFR Part 2851) and in accordance with the procedure for requesting inspection and designating the agencies to perform required inspection and certification (7 CFR Part 944; 43 FR 19340).

(c) Notwithstanding any other provisions of this regulation, any importation of grapefruit which, in the aggregate, does not exceed 10 standard packed cartons, equivalent to four-fifths (⅘) of a United States bushel of grapefruit, each, or equivalent quantity, may be imported without regard to the requirements specified herein.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: September 19, 1978, to become effective September 25, 1978.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[3410-02]

[Lemon Reg. 165]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona lemons that may be shipped to market during the period September 24-30, 1978. Such action is needed to provide for orderly marketing of fresh lemons for this period due to the marketing situation confronting the lemon industry.

EFFECTIVE DATE: September 24, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader 202-447-6393.

SUPPLEMENTARY INFORMATION: *Findings.* Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, and upon other information, it is found that the limitation of handling of lemons, as hereafter provided, will tend to effectuate the declared policy of the act.

The committee met on September 19, 1978, to consider supply and market conditions and other factors affecting the need for regulation and recommended a quantity of lemons deemed advisable to be handled during the specified week. The committee reports the demand for lemons remains good for sized 140's and larger, but weaker on 165's and smaller.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and post-

pone the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

§ 910.465 Lemon Regulation 165.

Order. (a) The quantity of lemons grown in California and Arizona which may be handled during the period September 24, 1978, through September 30, 1978, is established at 200,037 cartons.

(b) As used in this section, "handled" and "carton(s)" mean the same as defined in the marketing order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: September 21, 1978.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 78-26956 Filed 9-21-78; 11:54 am]

[3410-02]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Amendment of Rules and Regulations

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This document amends the rules and regulations to reapportion the grower member representation on the Lemon Administrative Committee. This action is based on a recommendation of the Lemon Administrative Committtee. The action would reapportion the grower members of the Committee based on proportional amounts of lemons handled by the respective groups

DATES: To become effective September 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-6393.

SUPPLEMENTARY INFORMATION: The rules and regulations (Subpart—Rules and Regulations; 7 CFR 910.100-910.180) are effective pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

The amendment of said rules and regulations was unanimously recommended by the Lemon Administrative Committee established under the order as the agency to administer its terms and provisions.

The amendment increases by one the number of grower member positions from district 3 allocated to independents (growers not affiliated with any cooperative marketing organization) and decreases by one the number of grower member positions from district 3 allocated to the category of cooperative marketing organization which does not market more than 60 percent of the volume of lemons. The amendment is consistent with § 910.22(h) of the order which provides for reapportionment of the grower members of the committee based on proportional amounts of lemons handled by the respective groups and production within the three districts which comprise the production area.

After consideration of all relevant matter presented, including the recommendation of the committee and other available information, it is hereby found that the amendment, as hereinafter set forth, of said rules and regulations is in accordance with said amended marketing agreement and order and will tend to effectuate the declared policy of the act.

It is further found that it is unnecessary and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) reapportionment of the grower members of the Lemon Administrative Committee, as described herein, is based on committee records of production and shipment of lemons during the 1977-78 crop year, (2) the recommendation of the committee was made at a public meeting at which all interested parties were afforded an opportunity to attend, and (3) the amendment should be made effective as provided herein to permit the prompt nomination and selection of members of the committee based on said reapportionment for the term which began August 1, 1978.

Therefore, § 910.120 is amended to read as follows.

§ 910.120 Change in grower representation.

Pursuant to § 910.22(h) grower representation on the Lemon Administrative Committee for purposes of §§ 910.20 and 910.22 shall be as follows:

	Co-op more than 60 pct.	Other co-ops	Indepen dents
District 1	1	0	0
District 2	2	1	1
District 3	1	0	2

(Secs. 1-19, 48 Stat. 31 as amended; 7 U.S.C. 601-674.)

Dated: September 15, 1978, to become effective September 22, 1978.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS AND GRANTS PRIMARILY FOR REAL ESTATE PURPOSES

[FmHA Instruction 444.5]

PART 1822—RURAL HOUSING LOANS AND GRANTS

Subpart D—Rural Rental Housing Loan Policies, Procedures, and Authorizations

RENTAL ASSISTANCE AGREEMENTS; LEVELS OF OCCUPANCY

AGENCY: Farmers Home Administration, USDA.

ACTION: Interim rule.

SUMMARY: The Farmers Home Administration (FmHA) amends its regulations regarding the size of families permitted to occupy apartment units under the terms of rental assistance agreements. The intended effect of this action is to allow the State Director to authorize exceptions to the established levels of occupancy under unusual circumstances. This amendment is necessary to provide flexibility in meeting the housing needs of low- to moderate-income families.

EFFECTIVE DATE: September 22, 1978. Comments must be received on or before October 23, 1978.

ADDRESSES: Submit written comments to the Office of the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6316, Washington, D.C. 20250. All written comments made pursuant to this notice will be available for public inspection at the address given above.

FOR FURTHER INFORMATION CONTACT:

Paul R. Conn, 202-447-7207.

SUPPLEMENTARY INFORMATION: Section 5 of Exhibit R-2, Subpart D, Part 1822 of Chapter XVIII, Title 7, Code of Federal Regulations, is amended to authorize the State Director to grant exceptions to the established levels of occupancy for apartments covered by a rental assistance agreement. It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the exemption of 5 U.S.C. 553 with respect to such rules. This amendment, however, is being published effective on an interim basis. This action is being taken to allow State Directors to authorize exceptions to the established levels of occupancy in apartments under unusual circumstances. Any delay in implementing this amendment would be contrary to the public interest because a delay in implementation could result in some low- and moderate-income families being denied adequate housing. Comments made pursuant to this notice will be considered in the development of the final rule.

As amended, Exhibit R-2 Section 5 reads as follows:

EXHIBIT R-2—RENTAL ASSISTANCE AGREEMENT

* * * * *

Section 5—Borrower will not permit any tenant to initially occupy a unit and receive rental assistance (or interest credit) if the number of authorized persons in the units is less or in excess of the following:

	Occupants Min.	Max.
0=bedroom	1	1
1=bedroom	1	2
2=bedroom	2	4
3=bedroom	4	6
4=bedroom	6	6
5=bedroom	8	10

In some cases, however, such as a labor housing project being built under the housing standards of the Department of Labor Occupational Safety and Health Administration (OSHA), or when a unit cannot be rented because a family of the size needed to rent the unit is not available, the State Director may, with the prior consent of the National Office, authorize an exception to this section.

(42 U.S.C. 1480; 5 U.S.C. 301; delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 7 CFR 2.70.)

Dated: September 8, 1978.

GORDON CAVANAUGH,
Administrator, Farmers Home Administration.

[3410-34]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 94—RINDERPEST, FOOT-AND-MOUTH DISEASE, FOWL PEST (FOWL PLAGUE), NEWCASTLE DISEASE (AVIAN PNEUMOENCEPHALITIS), AFRICAN SWINE FEVER, AND HOG CHOLERA: PROHIBITED AND RESTRICTED IMPORTATIONS

Denmark Declared To Be Free of Rinderpest and Foot-and-Mouth Disease

AGENCY: Animal and Plant Health Inspection Service, (USDA).

ACTION: Final rule.

SUMMARY: The purpose of these amendments is to add Denmark to the list of countries declared to be free of rinderpest and foot-and-mouth disease in § 94.1(a)(2) and to the list of specified countries in § 94.11(a) which are declared to be free of rinderpest and foot-and-mouth disease but which may export meat and animal products into the United States under restrictions only. This action is taken because data furnished to the Department establishes that Denmark qualifies for such status as to rinderpest and foot-and-mouth disease.

EFFECTIVE DATE: September 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Dr. J. D. Roswurm, USDA, APHIS, VS, Federal Building, Room 819, Hyattsville, Md. 20782, 301-436-8499.

SUPPLEMENTARY INFORMATION: Veterinary Services has reviewed all the pertinent information and documents submitted by the authorities of Denmark in support of their position that Denmark is free of both rinderpest and foot-and-mouth disease and has concluded that Denmark qualifies for listing as a country declared to be free of rinderpest and foot-and-mouth disease § 94.1(a)(2) of the regulations (9 CFR 94.1(a)(2)). Accordingly, the regulations are being amended to add Denmark to the list of countries, appearing in § 94.1(a)(2) of the regulations, which are declared to be free of both rinderpest and foot-and-mouth disease.

However, Denmark supplements its meat supply through importations of live ruminants and swine and fresh, chilled, or frozen meat of ruminants and swine from countries designated to be infected with rinderpest or foot-and-mouth disease. It also imports these animals and their meat from the infected countries under conditions less restrictive than would be acceptable for importation into the United States. These animals and meat may be commingled with the animals, meat and animal products produced in Denmark, resulting in an undue risk of introducing rinderpest or foot-and-mouth disease into the United States. In addition, Denmark shares a common land border with the Federal Republic of Germany (West Germany), which is designated in § 94.1(a) of the regulations as being affected with rinderpest or foot-and-mouth disease. This proximity offers a potential for the reintroduction of one or both diseases into Denmark. Therefore, meat, animals, and animal products from Denmark shall be imported into the United States only under the restrictions specified in § 94.11 of the regulations (9 CFR 94.11). Accordingly, Denmark is added to the list of countries appearing in § 94.11(a) (9 CFR 94.11 (a)).

Accordingly, Part 94, Title 9, Code of Federal Regulations, is amended in the following respects:

§ 94.1 [Amended]

1. Section 94.1(a)(2) is amended by adding to the list of countries therein the name of the country of "Denmark" before the reference to "Finland."

§ 94.11 [Amended]

2. Section 94.11(a) is amended by adding to the list of countries therein the name of the country of "Denmark" before the reference to "Finland."

(Sec. 306, 46 Stat. 689, as amended (19 U.S.C. 1306); 37 FR 28464, 28477; 38 FR 19141.)

Insofar as the amendments relieve certain restrictions presently imposed but no longer deemed necessary to prevent the introduction and dissemination of the contagion of rinderpest and foot-and-mouth disease, they should be made effective immediately to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, it is found upon good cause, under the administrative procedure provisions in 5 U.S.C. 553, that further notice and other public procedure with respect to the amendments

are impracticable and unnecessary and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 15th day of September 1978.

NOTE.—The Animal and Plant Health Inspection Service has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107.

PIERRE A. CHALOUX,
Deputy Administrator,
Veterinary Services.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Z; FC-0152]

PART 226—TRUTH IN LENDING

Official Staff Interpretation; Suspension of Effective Date and Republication for Public Comment

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Effective date of official staff interpretation suspended; its text reprinted for public comment.

SUMMARY: The Board is suspending the effective date of official staff interpretation FC-0152, regarding the methods by which creditors may disclose a hypothetical immediate increase in the annual percentage rate in variable rate transactions, published on August 8, 1978 (43 FR 35025) and is republishing it for public comment. The agency is taking this action in response to a request for public comment submitted in accordance with 12 CFR 226.1(d)(3).

DATES: The effective date of FC-0152 is suspended until further notice. Comments must be received on or before October 23, 1978.

ADDRESS: Comments including reference to FC-0152 to Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

FOR FURTHER INFORMATION CONTACT:

Glenn E. Loney, Section Chief, Division of Consumer Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, 202-452-3867.

SUPPLEMENTARY INFORMATION: (1) The effective date, September 7, 1978, of official staff interpretation FC-0152, is suspended in accordance with 12 CFR 226.1(d)(2)(ii). This interpretation may not be relied upon until final action is taken. Notice of such action will be published in the FEDERAL REGISTER in approximately 60 days and will become effective upon publication.

(2) The text of official staff interpretation FC-0152, which follows, is republished for comment. Identifying details have been deleted to the extent required to prevent a clearly unwarranted invasion of personal privacy. The Board maintains and makes available for public inspection and copying a current index providing identifying information for the public subject to certain limitations stated in 12 CFR 261.6

(3) Interested persons are invited to submit relevant comments. All material should be submitted in writing to: Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, and should be received not later than October 23, 1978. Comments will be made available for inspection and copying upon request, except as provided in § 261.6(a) of the Board's rules regarding availability of information (12 CFR 261.6(a)).

(4) After comments are considered, this official staff interpretation may be amended, may be rescinded or may remain unchanged. Final action regarding this official staff interpretation will appear in the FEDERAL REGISTER.

(5) Authority: 15 U.S.C. 1640(f).

§ 226.8(b)(8). Variable rate hypothetical examples may be based on increases in contract interest rate rather than in APR (partially rescinds Letter 1232).

Variable rate hypothetical examples must assume that rate increase is immediate and in specified amount; examples showing changes in different amounts or at different times may also be given as additional information.

JULY 18, 1978.

This will reply to your letter of * * *, in which you request clarification of Public Information Letter 1232, concerning the provisions of § 226.8(b)(8) with regard to variable rate mortgages. You ask staff to elaborate on methods creditors could use to determine the increased number of payments or the increased payment amount which would result from a hypothetical immediate increase in the annual percentage rate, in order to make the disclosures called for by § 226.8(b)(8) (iii) and (iv). Specifically, you ask whether appendix B to volume I of the Annual Percentage Rate Tables published by the Board of Governors can be used to make such calculations.

Use of the Board's tables is not required in order to comply with the regulation, but the tables do provide fairly simple methods for determining much of the information required to be disclosed under the regulation. Appendix B to volume I of the tables describes a method of determining the amount of the finance charge and the amount of the level payment in cases where the annual percentage rate is known in a single advance transaction involving equal payments and equal payment periods. These formulas can be used to compute the information called for by § 226.8(b)(8)(iii).

For example, assume a loan with an amount financed of $40,000, to be repaid in 360 monthly installments, with an annual percentage rate of 8 percent. From the annual percentage rate tables we can determine that the finance charge per $100 of amount financed is $164.16. The total finance charge for this loan is $65,664 ($164.16×400=$65,664) and the level monthly payment would be $293.51 (($65,664+$40,000) divided by 360). If we assume a hypothetical immediate increase of one quarter of one percent in the rate, as called for in § 226.8(b)(8)(iii), we can determine from the tables that the finance charge per $100 of amount financed at an annual percentage rate of 8¼ percent is $170.46. The total finance charge under this assumption would be $68,184 ($170.46×400=$68,184). The level monthly payment amount that would be required to amortize this hypothetically increased obligation would be $300.51 (($68,184+$40,000) divided by 360=$300.51), and this figure may be disclosed pursuant to § 226.8(b)(8)(iii). Alternatively, the increase in the payment amount may be expressed as the difference between $300.51 and $293.51, or $7.

Again, we would point out that use of the Board's tables and the calculation methods set out therein is not required in making Truth in Lending disclosures. You may, however, find the method outlined in this letter of some assistance in determining the information required to be disclosed pursuant to § 226.8(b)(8)(iii). You should note that this method cannot be used to determine the information required to be disclosed pursuant to § 226.8(b)(8)(iv); use of volume I of the Board's Annual Percentage Rate Tables requires that you know the number of payments involved, and that is the information that must be calculated.

This information can, however, be estimated in another way. Changes in the annual percentage rate in variable rate mortgages are generally caused by changes in the simple contract interest rate. Since the results from changing the simple contract interest rate on most long-term mortgages are almost equivalent to the result from changing the annual percentage rate, and since § 226.8(b)(8)(iv) calls for a statement of the estimated increase in the number of payments, it is staff's opinion that a creditor may use tables based on simple interest rates to calculate the increased number of payments that would result if the interest rate were increased by one quarter of one percentage point. This approach yields an estimated figure that may be disclosed pursuant to § 226.8(b)(8)(iv). This aproach may also be used, as an alternative to that outlined above, to determine the information called for by § 226.8(b)(8)(iii). To the extent that Public Information Letter 1232 states that the disclosures required by § 226.8(b)(8) (iii) and (iv) may never be made by reference to the contract interest rate, it is hereby rescinded. If this calculation approach is taken, the disclosures should be expressed as the effects of a one quarter of one percent increase in the interest rate.

Staff would like to point out that the alternatives expressed in this letter do not prohibit a creditor from basing its calculation on an increase in the annual percentage rate itself, which, we understand, is a calculation that can be made relatively simply on inexpensive calculators that are generally available on the market. The procedures outlined in this letter are merely viewed by staff as reasonable alternatives.

You point out in your letter that lenders frequently do not have the authority under applicable statutes or the underlying contract to increase rates immediately. Rather, you believe that most lenders are required to wait a specified period of time before effecting a change. Moreover, you point out that changes in the rate may often be in increments less than the hypothetical one quarter of one per cent mentioned in § 226.8(b)(8) (iii) and (iv). You ask, therefore, whether creditors may provide additional examples of rate changes pursuant to § 226.8(c). We assume that what you wish to disclose are examples of the effect of rate changes occurring at a time later than consummation of the loan as well as rate changes greater than or less than one quarter of one per cent.

The disclosures called for by § 226.8(b)(8) (iii) and (iv) must be made on the assumptions (1) that the rate increase takes effect immediately upon consummation, and (2) that the increase is in a certain amount, i.e., one quarter of one per cent. Although creditors may not effect an increase in that particular amount or at that particular time, the regulation requires that disclosures be made on these assumptions in order to ensure uniformity among lenders and to facilitate comparisons. If a creditor wishes to provide further examples of the effect of a rate change in a different amount or at a different time in the loan term, this may be done as additional information pursuant to § 226.6(c), provided the additional examples are not stated so as to mislead or confuse the customer or contradict obscure, or detract attention from the required information.

This is an official staff interpretation of regulation Z, issued in accordance with § 226.1(d)(2) of the regulation. It will become effective 30 days after publication in the FEDERAL REGISTER unless a request for public comment, made in accordance with the Board's procedures, is received and granted. We will notify you if the effective date of the interpretation is suspended because such a request is received.

Sincerely,

NATHANIEL E. BUTLER,
Associate Director.

Board of Governors of the Federal Reserve System, September 14, 1978.

JOHN M. WALLACE,
Assistant Secretary
of the Board.

[FR Doc. 78-26659 Filed 9-21-78; 8:45 am]

[8025-01]

Title 13—Business Credit and Assistance

CHAPTER I—SMALL BUSINESS ADMINISTRATION

[Rev. 4; Amdt. 7]

PART 108—LOANS TO STATE AND LOCAL DEVELOPMENT COMPANIES

Loans—LDC Participation

AGENCY: Small Business Administration.

ACTION: Final rule.

SUMMARY: This rule change will reduce the amount of a Local Development Company's (LDC) participation (cash or in-kind) in a project from 20 percent to 10 percent of the project cost. The intent of this rule is to reduce the confusion now existing in connection with the amount of participation of the company which varies for differing localities.

EFFECTIVE DATE: August 1, 1978.

FOR FURTHER INFORMATION CONTACT:

William B. Dean, Chief, Development Company Loan Program, Small Business Administration, Washington, D.C. 20416, 202-653-6375.

SUPPLEMENTARY INFORMATION: Section 108.502-1(e) sets the reasonable participation of the LDC as 20 percent of project cost with exceptions allowable in ghetto or target areas. This action will reduce the participation to 10 percent of the project cost without regard to location of project.

On June 26, 1978, a notice of a proposed rulemaking was published in the FEDERAL REGISTER (43 FR 27544), covering reduction of the LDC's injection and a proposed ceiling on fees chargeable to an applicant by an LDC. Interested parties were given an opportunity to submit comments by July 26, 1978.

No adverse comments were received on the proposal to reduce the LDC's required injection to 10 percent. This is being made effective. The final rule covering the ceiling on fees and charges will be published at a later date after review of the comments received.

NOTE.—The Small Business Administration has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A107.

Accordingly, pursuant to authority contained in section 308(c) of the Small Business Investment Act of 1958 (SBI Act), 15 U.S.C. 687, as amended notice is hereby given that SBA amends § 108.502-1 as follows:

(a) By amending the first four sentences of paragraph (e);

(b) By amending paragraphs (j) by reserving subparagraph (2) and revising subparagraph (3);

(c) By forming a new paragraph (j-1). (Fee ceiling to be published later.)

§ 108.502-1 Section 502 loans.

* * * * * *

(e) *Participation by the development company.* A development company may be required to furnish a reasonable part, as determined by SBA, of the funds necessary to accomplish the plant acquisition, construction, conversion or expansion, or the acquisition of land. For the purposes of this paragraph, the furnishing of not less than 10 percent of the necessary funds generally is considered a reasonable part. Exceptions for a lesser amount may be granted in extreme hardship cases where a project with a high impact would otherwise be lost to the community. SBA may require that the funds to be furnished by the development company be derived from paid-in capital or surplus of the development company, as well as from other sources. * * *

* * * * * *

(j) *Use of proceeds.* (1) * * *

(2) [Reserved]

(3) Evidence, satisfactory to SBA, shall be submitted prior to approval and disbursement of said loan, that the identifiable small business concern intends or has the right to use the said plant during a period of time equal at least to the maximum contract term of the section 502 loan or 5 years after full disbursement of the section 502 loan, whichever is the longer period; and that use of said proceeds will assist only the identifiable small business concern. Evidence of such intent and purpose shall be deemed to exist where the proceeds of the section 502 loan will be used by the development company to:

(i) Relend to the identifiable small business concern for acquisition, construction, conversion, or expansion of a plant owned, occupied, and used by said concern;

(ii) Acquire, construct, convert, or expand a plant to be sold immediately to the identifiable small business concern for its occupancy and use;

(iii) Acquire, construct, convert, or expand a plant owned by the development company to be leased to the identifiable small business concern with the right in such concern to apply rentals, under a purchase option arrangement, on the purchase price of the plant;

(iv) Acquire, construct, convert, or expand a plant owned by the development company to be leased to the identifiable small business concern without a purchase option arrangement, but with the right in such concern to occupy the plant during a period of time equal at least to the maximum contract term of the section 502 loan or 5 years after full disbursement of the section 502 loan, whichever is the longer.

(j-1) *Contract terms.* The contract between the development company and said concern will set forth terms, acceptable to the concern and SBA, that will provide the development company with total funds not in excess of those necessary (1) to repay with interest the section 502 loan; (2) for applicable taxes upon the maintenance of the plant; (3) to recover administrative costs and provide a reasonable sum as a reserve for contingencies to cover unusual costs or expenses; and (4) to recover capital investments and expenditures of the development company's own funds in the project with a reasonable return on such capital investments and expenditures.

* * * * *

(Catalog of Domestic Assistance Programs No. 59.013, State and Local Development Company Loans.)

Dated: September 1, 1978.

PATRICIA M. CLOHERTY,
Acting Administrator.

[FR Doc. 78-26572 Filed 9-21-78; 8:45 am]

[3510-17]

Title 15—Commerce and Foreign Trade

SUBTITLE A—OFFICE OF THE SECRETARY OF COMMERCE

PART 4b—PRIVACY ACT

Amendments to Rules and Appendices

AGENCY: Department of Commerce.

ACTION: Final rule.

SUMMARY: The Department of Commerce amends its rules which apply exemptions to Privacy Act systems of records to delete reference to three terminated systems of records and to change the name of a reorganized Department component; and revises appendices A and B, which are lists of Department officials to whom individuals should address Privacy Act requests and appeals, to reflect organizational changes.

EFFECTIVE DATE: September 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Mrs. Marilyn S. McLennan, U.S. Department of Commerce, Office of Organization and Management Systems, Washington, D.C. 20230, telephone 202-377-4217.

SUPPLEMENTARY INFORMATION: Sections 4b.13 and 4b.14 list the systems of records which are exempt from certain requirements of the Privacy Act. These sections include references to systems maintained by the Commerce Department's Domestic and International Business Administration (DIBA). Because of reorganization, this component is now the Industry and Trade Administration (ITA). Thus, all references to COMMERCE/DIBA systems should be changed to COMMERCE/ITA systems.

Section 4b.14(b)(4) lists the systems of records which are exempt from certain requirements of the Privacy Act because the records contain investigatory material, under section 3 of the Privacy Act (5 U.S.C. 552a(k)(5)). Two of the systems listed:

(b)(4)(iii) Trustees for Ship Sales—COMMERCE/MA-13, and (b)(4)(vii) USMMA Ship's Service Employees—COMMERCE/MA-20,

were terminated effective June 28, 1978 (43 FR 28028-29), and should be deleted from paragraph (b)(4).

Another of the systems listed:

(b)(4)(i) Indian Reservation Economic Development Planners and Applicants Records—COMMERCE/EDA-3,

was previously terminated (see 42 FR 6877), and should also be deleted from paragraph (b)(4).

Appendices A and B are revised to reflect organizational changes such as the position title of a Department official or the name of a Department component. Explanation of the changes to the appendices follows:

EXPLANATION OF CHANGES TO APPENDICES

In appendix A, "Officials to Receive Inquiries, Requests for Access and Requests for Correction or Amendment":

i. Change the designated privacy officer for the Bureau of Economic Analysis from "Special Assistant to the Director" to "Chief Planning and Evaluation Officer", and change the ZIP code for BEA from "20005" to "20230".

ii. Change "Domestic and International Business Administration" and "DIBA" to "Industry and Trade Administration" and "ITA", respectively.

iii. Change the designated privacy officer for the National Bureau of Standards from "Associate Director for Administration" to "Director of Administrative and Information Systems".

iv. Change "Office of Telecommunications" and "OTEL" to "National Telecommunications and Information Administration" and "NTIA", respectively; change the designated privacy officer for NTIA from "Administrative Officer" to "Privacy Officer"; and change the address from "1325 G St., N.W., Washington, D.C. 20005" to "U.S. Department of Commerce, Washington, D.C. 20504".

In appendix B, "Officials to Receive Appeals from Adverse Determination on Correction or Amendment":

v. Change the ZIP code for the Bureau of Economic Analysis from "20005" to "20230".

vi. Change "Domestic and International Business Administration" to "Industry and Trade Administration", and change the designated privacy appeals officer from "Assistant Secretary for Domestic and International Business" to "Assistant Secretary for Industry and Trade".

vii. Change "Office of Telecommunications" to "National Telecommunications and Information Administration"; and change the designated privacy appeals officer from "Director, Office of Telecommunications, 1325 G St., N.W., Washington, D.C. 20005" to "Assistant Secretary for Communications and Information, 1800 G St., N.W., Washington, D.C. 20504".

Because the amendments made to §§ 4b.13 and 4b.14, and appendices A and B, involve only administrative management (systems of records which are already terminated or internal organizational changes), the relevant provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, opportunity for public participation, and delay in effective date are inapplicable and unnecessary.

Accordingly, 15 CFR Part 4b is amended as follows:

1. Section 4b.13 is amended by revising paragraph (b)(1) to read as follows:

§ 4b.13 General exemptions.

* * * * *

(b) * * *

(1) *Individuals identified in Export Administration compliance proceedings or investigations—COMMERCE/ITA-1.* Pursuant to 5 U.S.C. 552a(j)(2), these records are hereby determined to be exempt from all provisions of the Act, except 5 U.S.C. 552a (b), (c) (1) and (2), (e)(4) (A) through (F), (e) (6), (7), (9), (10), and (11), and (i). These exemptions are necessary to insure the proper functioning of the law enforcement activity, to protect confidential sources of information, to fulfill promises of confidentiality, to maintain the integrity of the law enforcement process, to avoid premature disclosure of the knowledge of criminal activity and the evidentiary bases of possible enforcement actions, to prevent interference with law enforcement proceedings, to avoid disclosure of investigative techniques, and to avoid the endangering of law enforcement personnel. Section 7(c) of the Export Administration Act of 1969, as amended, also protects this information from disclosure.

* * * * *

2. Section 4b.14 is amended by revising paragraphs (a), (b)(1), (b)(2) (i) and (ii), and (b)(4) to read as follows:

§ 4b.14 Specific exemptions.

(a) Some systems of records under the Act which are maintained by the Department contain, from time to time, material subject to the exemption appearing at 5 U.S.C. 552a(k)(1), relating to national defense and foreign policy materials. The systems of records published in the FEDERAL REGISTER by the Department which are within this exemption are:

COMMERCE/ITA-1, COMMERCE/ITA-2, COMMERCE/ITA-3, COMMERCE/NOAA-11, COMMERCE/PAT-TM-4, COMMERCE/PAT-TM-6, COMMERCE/PAT-TM-7, COMMERCE/PAT-TM-8, COMMERCE/PAT-TM-9, COMMERCE/DEPT-12, COMMERCE/DEPT-13, and COMMERCE/DEPT-14.

The Department hereby asserts a claim to exemption of such materials wherever they might appear in such systems of records, or any systems of records, at present or in the future. The materials would be exempt from 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4) (G), (H), and (I), and (f). The reason therefor is to protect the materials required by Executive order to be kept secret in the interest of the national defense and foreign policy.

(b) The specific exemptions determined to be necessary and proper with respect to systems of records maintained by the Department, including the parts of each system to be exempted, the provisions of the Act from which they are exempted, and the justification for the exemption, are as follows:

(1) *Exempt under 5 U.S.C. 552a(k)(1).* The systems of records exempt hereunder appear in paragraph (a) of this section. The claims for exemption of COMMERCE/DEPT-12, COMMERCE/ITA-1, and COMMERCE/NOAA-11 under this paragraph are subject to the condition that the general exemption claimed in § 4b.13(b)(3) is held to be invalid.

(2) *Exempt under 5 U.S.C. 552a(k)(2).* The systems of records exempt (some only conditionally), the sections of the Act from which exempted, and the reasons therefor are as follows:

(i) Individuals identified in Export Administration compliance proceedings or investigations—COMMERCE/ITA-1, but only on condition that the general exemption claimed in § 4b.13(b)(1) is held to be invalid;

(ii) Individuals involved in export transactions—COMMERCE/ITA-2;

* * * * *

(4) *Exempt under 5 U.S.C. 552a(k)(5). The systems of records exempt (some only conditionally), the sections of the act from which exempted, and the reasons therefor are as follows:*

(i) Applications to U.S. Merchant Marine Academy (USMMA)—COMMERCE/MA-1;

(ii) USMMA Midshipman Medical Files—COMMERCE/MA-17;

(iii) USMMA Midshipman Personnel Files—COMMERCE/MA-18;

(iv) USMMA Non-Appropriated fund Employees—COMMERCE/MA-19;

(v) Applicants for the NOAA Corps—COMMERCE/NOAA-4;

(vi) Commissioned Officer Official Personnel Folders—COMMERCE/NOAA-7;

(vii) Conflict of Interest Records, Appointed Officials—COMMERCE/DEPT-3;

(viii) Investigative Records—Contract and Grant Frauds and Employee Criminal Misconduct—COMMERCE/DEPT-12, but only on condition that the general exemption claimed in § 4b.13(b)(3) is held to be invalid;

(ix) Investigative Records—Persons Within the Investigative Jurisdiction of the Department—COMMERCE/DEPT-13; and,

(x) Litigation, Claims, and Administrative Proceeding Records—COMMERCE/DEPT-14.

The foregoing are exempted from 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4) (G), (H), and (I), and (f). The reasons for asserting the exemption are to maintain the ability to obtain candid and necessary information, to fulfill commitments made to sources to protect the confidentiality of information, to avoid endangering these sources and, ultimately, to facilitate proper selection or continuance of the best applicants or persons for a given position or contract. Special note is made of the limitation on the extent to which this exemption may be asserted. The existence and general character of the information exempted will be made known to the individual to whom it pertains.

* * * * *

3. Appendices A and B are revised to read as follows:

APPENDIX A

OFFICIALS TO RECEIVE INQUIRIES, REQUESTS FOR ACCESS, AND REQUESTS FOR CORRECTION OR AMENDMENT [1]

For records in systems of record located in— [2]	Privacy officer
The Office of the Secretary and all departmental staff offices.	Director, Office of organization and Management Systems, Main Commerce Bldg., Washington, D.C. 20230.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

PART 422—POSTING OF MINIMUM OCTANE NUMBERS ON GASOLINE DISPENSING PUMPS

Revocation of Trade Regulation Rule

AGENCY: Federal Trade Commission.

ACTION: Revocation of trade regulation rule superseded by new Federal law.

SUMMARY: In December 1971, the Federal Trade Commission issued a trade regulation rule requiring the posting of minimum octane numbers on gasoline dispensing pumps. The rule was challenged in court shortly after it was promulgated, and has never become effective. Under title II of the Petroleum Marketing Practices Act, passed in June 1978, the Commission is required to promulgate rules governing the uniform certification and display of octane ratings by members of the automotive gasoline industry. The stated purpose of the Act is to insure prompt and permanent enforcement of an octane posting requirement.

This notice announces the fact that title II of the Act has effectively superseded the Commission's earlier trade regulation rule, and states the basis for the Commission's conclusion.

EFFECTIVE DATE: September 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles H. Slayman, Jr., 202-724-1478, James G. Mills, 202-724-1509, attorneys, Bureau of Consumer Protection, Federal Trade Commission, Washington, D.C. 20580.

SUPPLEMENTARY INFORMATION: On December 16, 1971, the Federal Trade Commission promulgated a trade regulation rule requiring the posting of octane ratings on gasoline pumps (16 CFR Part 422). In issuing the rule, the Commission found that the failure to disclose the minimum octane rating of gasoline constituted an unfair method of competition or an unfair or deceptive act or practice under the Federal Trade Commission Act.

Legal challenge has prevented enforcement of the rule since its promulgation. A suit by the National Petroleum Refiners Association challenged the authority of the Commission to issue such a trade regulation rule. On appeal by the Commission, the U.S. Court of Appeals upheld the Commission's right to promulgate trade regulation rules that have the effect of substantive law, and the case was remanded to the district court. (*National Petroleum Refiners Ass'n v. FTC*, 482 F. 2d 672 (D.C. Cir. 1973), cert. denied, 415 U.S. 951 (1974)). The case was dismissed without prejudice on October 27, 1977, but the district court ordered the Commission to complete an environmental impact statement before attempting to put the rule into effect. The court further ordered that it be notified by the Commission prior to the issuance of such a statement. The environmental impact statement has not been completed, and the rule has never become effective.

During its consideration of title II of the Petroleum Marketing Practices Act, Congress recognized that prolonged litigation has prevented enforcement of the Commission's rule. It is evident from the legislative history of the Act that Congress intended the requirements of title II to replace those of the Commission's 1971 rule. This conclusion is bolstered by the fact that the requirements of the Commission's rule have been completely superseded by title II. First, the rule's requirement that the minimum octane rating of the gasoline being dispensed from the pump be clearly and conspicuously disclosed has been legislatively mandated by section 202(c) of the Act. Second, the octane number or octane rating of a gasoline is to be determined under section 202(1) of the Act by the same method as required by the Commission's rule. Finally, the Act's provisions with regard to octane posting require the Commission to promulgate rules more comprehensive than the 1971 rule and permit the Commission to enforce such rules as it does other trade regulation rules.

Accordingly, the Commission, on the advice of counsel, concludes that title II of the Petroleum Marketing Practices Act supersedes 16 CFR Part 422. Therefore, title 16 of the Code of Federal Regulations, Part 422—Posting of Minimum Octane Numbers on Gasoline Dispensing Pumps—is hereby revoked.

By direction of the Commission dated September 19, 1978.

CAROL M. THOMAS,
Secretary.

[FR Doc. 78-26832 Filed 9-21-78; 8:45 am]

[4210-01]

Title 24—Housing and Urban Development

CHAPTER II—OFFICE OF ASSISTANT SECRETARY FOR HOUSING—FEDERAL HOUSING COMMISSIONER, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—MORTGAGE AND LOAN INSURANCE PROGRAMS UNDER THE NATIONAL HOUSING ACT

[Docket No. R-78-573]

PART 207—MULTIFAMILY HOUSING MORTGAGE INSURANCE

Mortgage Insurance for Existing Mulitifamily Housing

AGENCY: Department of Housing and Urban Development.

ACTION: Final rule.

SUMMARY: This rule extends the date by which incomplete projects financed with State or local assistance must be completed and applications for insurance of mortgages on such projects must be submitted from July 1, 1978 through January 1, 1979. This extension is needed to permit filing of applications for mortgage insurance which would otherwise be precluded by the present deadline.

EFFECTIVE DATE: September 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Sidney B. Severe, Multifamily Insurance Division, Department of Housing and Urban Development, Washington, D.C. 20410, 202-755-9280.

SUPPLEMENTARY INFORMATION: Section 207.32a(k)(1) presently requires that a project be fully completed by July 1, 1978, and that an application for mortgage insurance also be filed prior to that date. We are informed that these deadlines pose a serious hardship for some projects that would be determined ineligible unless an additional extension of 6 months is effected. In order to facilitate the success of this refinancing program and accommodate these projects, we are amending this regulation by extending the date for project completion and for filing of applications for mortgage insurance.

Since the amendments to part 207 are technical in nature and because the presently published expiration date has already passed, the Secretary has determined that advance publication, notice and public procedure are impracticable and unnecessary and that good cause exists for making these amendments effective upon publication. In addition, the Department is presently performing a review of this program, and the effect of these amendments will be evaluated within the scope of the review.

The Department has determined that an environmental impact statement is not required with respect to these amendments. The finding of inapplicability in accordance with HUD's environmental procedures is available for public inspection during regular business hours in the Office of the Rules Docket Clerk, Office of the General Counsel, Department of Housing and Urban Development, Room 5218, 451 Seventh Street SW., Washington, D.C. 20410.

Accordingly, part 207 is amended as follows:

Subpart A—Eligibility Requirements

§ 207.32a [Amended]

Section 207.32a(k)(1) is amended by deleting "July 1, 1978," wherever it appears, and inserting in lieu thereof "January 1, 1979".

(Sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).)

Issued in Washington, D.C., on September 11, 1978.

MORTON A. BARUCH,
Acting Assistant Secretary for Housing—Federal Housing Commissioner.

[FR Doc. 78-26663 Filed 9-21-78; 8:45 am]

[6560-01]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER N—EFFLUENT GUIDELINES AND STANDARDS

[FRL 955-8]

PART 423—STEAM ELECTRIC POWER GENERATING POINT SOURCE CATEGORY

Amendment to BPT Variance Clause

AGENCY: Environmental Protection Agency.

ACTION: Final amendments to rules.

SUMMARY: EPA is issuing amended regulations under the Clean Water Act which apply to the steam electric power industry. The amendments provide, contrary to EPA's original position, that economic factors are legally relevant when considering a powerplant's request for a variance from national effluent limitations guidelines. EPA has changed its original position

in order to comply with a judicial decision.

DATE: The amendments are effective on September 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Edward A. Kramer (EN-336), Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460, 202-755-0750.

SUPPLEMENTARY INFORMATION:

I. Background

A. EPA's original variance clause

On October 8, 1974, EPA published regulations under the Clean Water Act setting forth best practicable control technology (BPT) effluent limitations guidelines for the steam electric power industry. 40 CFR Part 423, 39 FR 3686 et seq.

For each subcategory in the power industry category, there was a "variance clause." 40 CFR 423.12(a), 423.22(a), 423.32(a) and 423.42 (introductory paragraph). This clause allowed case-by-case variances from national guidelines where one could show that certain plant-specific factors—such as age or size of the plant—were "fundamentally different" from the factors EPA considered in setting the national guidelines. The variance clause did not specify whether plant-specific economic factors could be considered.

Essentially the same variance clause was included in the BPT effluent limitations guidelines for almost all industries. On August 20, 1974, EPA published a legal interpretation which ruled that economic factors could not be considered in applying this standard variance clause. 39 FR 30073.

B. The fourth circuit's Appalachian order

On July 16, 1976, the U.S. Court of Appeals for the Fourth Circuit issued an opinion in response to various legal challenges to EPA's BPT (and other) regulations for the steam electric power industry. *Appalachian Power Co.* v. *Train*, 545 F.2d 1351. The court rejected EPA's exclusion of economic factors from the steam electric BPT variance clause. A request by EPA for recall of mandate as to this portion of the Court's opinion was denied (one judge dissenting) on September 26, 1977.

C. EPA's response to the fourth circuit's order

After the court's opinion was issued, EPA changed its position with regard to the steam electric power industry. On March 3, 1978 (43 FR 8812), EPA proposed clarifications to the steam electric variance clause to formalize its changed position.

As proposed, the variance clause allowed the permit issuer to consider "significant cost differentials" and other economic factors applicable to the particular source involved. The clause also specified that the August 20, 1974 legal interpretation would not be applicable to steam electric powerplants.

EPA requested that written public comments be submitted by April 3, 1978. The following parties submitted comments:

1. Consumers Power Co.
2. Richard J. Criqui, Jr.
3. Duke Power Co.
4. Natural Resources Defense Council (NRDC).
5. Synthetic Organic Chemical Manufacturers Association (SOCMA).
6. Union Carbide.
7. Utility Water Act Group (UWAG).

After considering all comments carefully, EPA has decided to issue the final variance clause amendments in the same form as they were proposed.

II. Response to Public Comments

A. Consideration of effluent reduction benefits

The proposed variance clause allowed case-by-case consideration of "significant cost differentials." Several commenters critized EPA for failing to specify that "effluent reduction benefits" were to be weighed against costs in each case.

Upon examination, these criticisms are apparently derived from the commenters' desire for variances based upon receiving water quality. Such types of variances, however, are plainly not authorized by the Act. As explained in detail in the Administrator's decision *In the Matter of Louisiana—Pacific Corp.* and *Crown Simpson Pulp Co.*, 10 ERC 1841 (September 15, 1977), the Act does not allow relaxations of BPT limitations based upon case-by-case variations in water quality impact.

EPA believes that the wording of the proposed regulation is fully consistent with the *Appalachian* decision. In fact, EPA's wording was taken verbatim from the court's opinion:

> In requiring that EPA give weight to the relevant statutory factors in developing a subsequent variance provision, we in no way intend to imply that EPA's regulations must provide for a detailed cost-benefit analysis at the permit granting stage. As we indicated in duPont, * * * an overall cost-benefit analysis for each category or subcategory satisfies the mandate of § 304 in this regard. The variance provision should, however, allow the permit issuer to consider significant cost differentials of the particular point source involved. 545 F.2d at 1360, n. 23 [emphasis added].

B. Limitation to "fundamentally different factors"

UWAG argues that the proposed variance clause improperly fails to distinguish between "facts" and "factors." UWAG states in concluding its argument that "the variance clause must turn on consideration of plant-specific variables, on facts which are fundamentally different from those used in establishing the limitations." [UWAG's emphasis.]

It is not clear to EPA what difference of opinion exists between EPA and UWAG. If UWAG fears that plant-specific variables may not be considered, then it has misinterpreted the clause. As EPA stated in proposing the amendment:

> This clause allows case-by-case variances from national guidelines where one can show that certain plant-specific factors—such as age or size of the plant—are "fundamentally different" from the factors considered in setting the national guidelines. 43 FR at 8812.

Alternatively, if UWAG fears that by the use of the word "factors," EPA intended to foreclose consideration of plant-specific "facts," UWAG is mistaken. Site-specific facts which are fundamentally different from the facts considered by EPA in applying the relevant statutory factors (i.e., raw materials, energy requirements, size of plant), may qualify a facility for a variance. In this sense, "facts" and "factors" mean the same thing.

If, however, UWAG is arguing that any plant-specific fact—even one which does not relate to the statutory factors EPA considered in formulating the regulations—should qualify a facility for a variance, then EPA disagrees with UWAG. Such an interpretation would be incompatible with the "goal of uniformity" in industrywide BPT limitations, *duPont* v. *Train*, 97 S.Ct. 965, 975 (1977), for there are unique site-specific facts at every steam electric plant in the United States.

The *Appalachian* opinion, in fact, directs that EPA's new variance clause take into consideration the "statutory factors" in sections 301(c) and 304. 545 F.2d at 1360 [emphasis added]. And in another case discussing national BPT limitations, the Fourth Circuit said that "the specified factors [in section 304] shall be applied by the permit issuer in determining whether the presumptively valid effluent limitations should apply to a particular source of discharge." *DuPont* v. *Train*, 541 F.2d 1018, 1030 [4th Cir. 1976, emphasis added].

C. Illegality of proposal

NRDC argued that the proposed variance clause is illegal because section 301(c), which provides the exclusive means for case-by-case economic hardship modifications, is limited by its terms to 1983-84 "best available technology" (BAT) limitations as distinguished from BPT. EPA cannot dispute this argument. As stated in the March 3 proposal at 43 FR 8813:

> EPA continues to believe that with respect to variances from national effluent limitations guidelines, economic factors may be considered only in § 301(c) proceedings to modify [BAT] requirements.

Nevertheless, EPA is compelled by the court's order in *Appalachian* to include section 301(c) factors into the BPT variance clause for steam electric powerplants. The court's order relates only to the power industry, however, so EPA has rejected the arguments of SOCMA and Union Carbide that this revision be made applicable to all industries.

D. Application to best available technology ("BAT") and new source performance standards ("NSPS")

Consumers Power Co. stated that the proposal was "deficient" because it did not apply to BAT or NSPS. (BAT and NSPS limitations are generally more stringent than BPT limitations.) The *Appalachian* Court, however, specifically rejected such an argument as to BAT. 545 F2d. at 1380. As to NSPS, the Supreme Court ruled in *duPont* v. *Train*, 97 S.Ct. 965 (1977) that variances were improper. 97 S.Ct. at 980. On September 26, 1977, the *Appalachian* Court recalled its mandate as to NSPS variances in response to the Supreme Court's decision.

E. States' rights

Duke Power Co. argued that EPA should require States which have a permit-issuing authority to consider economic factors when evaluating variance requests. Such a requirement would in EPA's view be inconsistent with the Act.

As noted in the March 3 proposal at 43 FR 8813, section 510 of the Act preserves the States' rights to impose more stringent limitations than required by Federal law. While one State may in its discretion refuse to relax nationally-applicable BPT regulations on the basis of site-specific economic factors, another State may allow relaxations to the fullest extent permissible under the Act. Section 510 insures that States have this freedom of choice.

Because States are free to ignore site-specific economic factors if they choose, it would be meaningless for EPA to require States to consider such factors.

III. Effectiveness

A. Transitional provisions

Because there has been some confusion with respect to BPT variances for steam electric plants since the *Appalachian* remand, EPA agrees with UWAG that a new 60-day application period should be provided. Until (60 days from Federal Register publication), any steam electric plant may apply to the appropriate permitting authority for a variance under today's amended clause. (As provided in 40 CFR 423.12(a), 423.22(a), 423.32(a), and 423.42, variances recommended by States must be approved by EPA before they become effective.)

Such an application will not automatically stay any enforcement proceeding which EPA has initiated or may initiate against the applicant. EPA will consider in each case whether a variance request is merely a procedural after-thought designed for delay. In this regard, EPA will consider whether a variance request is likely to succeed on the merits, whether the applicant was aware that EPA has been processing steam electric BPT variance requests for some time, and whether the applicant has made any effort to work out its problems with the appropriate enforcement authorities. It should be noted that any facility which is now in compliance with a BPT limitation may not rely upon a variance application as an excuse for falling out of compliance.

B. Immediate effectiveness

In order to provide an immediate opportunity for applications under the amended regulations and to expedite final resolution of such applications, I hereby find good cause to make these amendments effective immediately.

(Sec. 501(a), Clean Water Act, 33 U.S.C. 1361(a).)

Dated: September 15, 1978.

Douglas M. Costle,
Administrator.

§§ 423.12, 423.22, 423.32, and 423.42 [Amended]

40 CFR Part 423 is amended by adding the following two sentences to the end of §§ 423.12(a), 423.22(a), 423.32(a), and 423.42 (introductory paragraph):

* * * * * * *

* * * In accordance with the decision in *Appalachian Power Co.* v. *Train*, 545 F.2d 1351, 1358-60 (4th Cir. 1976), EPA's legal interpretation appearing at 39 FR 30073 (1974) shall not apply to this paragraph. The phrase "other such factors" appearing above may include significant cost differentials and the factors listed in section 301(c) of the Act.

Title 50—Wildlife and Fisheries

CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 230—WHALING

Taking of Bowhead Whales by Indians, Aleuts, or Eskimos for Subsistence Purposes

AGENCY: National Oceanic and Atmospheric Administration, National Marine Fisheries Service.

ACTION: Final rule.

SUMMARY: At its 30th annual meeting held in London on June 26-30, 1978, the International Whaling Commission (the "IWC") adopted an amendment to the schedule of the International Convention for the Regulation of Whaling, 1946 (the "Convention") which increased the quota for the taking of the Bering Sea stock of bowhead whales for calendar year 1978 from 12 landed or 18 struck, whichever occurs first, to 14 landed or 20 struck, whichever occurs first. By letter dispatched July 21, the IWC formally notified member countries of the action taken; under the rules of procedure of the IWC, the increased 1978 quota will become effective, in the absence of objection, on October 19, 1978.

On April 3, 1978, the National Oceanic and Atmospheric Administration (NOAA) promulgated regulations under the Whaling Convention Act of 1949, 16 U.S.C. 916, et seq., which allocated the then available 1978 quota among the nine Alaskan villages which engage in subsistence whaling. (43 FR 13883, amended May 24, 1978, 43 FR 22213.) This amendment revises the allocation for 1978 to include the two extra bowhead whales which may be landed or struck in 1978.

DATES: These regulations are effective as of September 22, 1978.

ADDRESSES: Assistant Administrator for Fisheries, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, 3300 Whitehaven Street NW., Washington, D.C. 20235.

FOR FURTHER INFORMATION CONTACT:

William P. Jensen, Marine Mammal and Endangered Species Division,

V 43/185 SEP 22 78

National Marine Fisheries Service, 3300 Whitehaven Street NW., Washington, D.C. 20235, telephone 202-634-7461.

SUPPLEMENTARY INFORMATION: On August 29, 1978 (43 FR 38609), the National Marine Fisheries Service (NMFS) published proposed regulations which set forth the proposed village-by-village allocation for the fall bowhead hunt. A minor error in the proposed regulation was corrected on September 8, 1978 (43 FR 40045). No comments were received on the proposed regulations, and the regulations are now being promulgated as proposed. Furthermore, because the fall hunt is imminent, and because it is imperative for each whaling village to know how many landings and strikes it has available to it, these regulations are effective as of the date of publication.

NOTE.—The Department of Commerce has determined that no environmental impact statement needs to be prepared in connection with these regulations. The National Marine Fisheries Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and 11949, and OMB Circular A-107.

Dated: September 19, 1978.

TERRY LEITZELL,
Assistant Administrator for Fisheries.

§ 230.74 [Amended]

50 CFR 230.74 is amended as follows:

1. Paragraph (a) is revised to read as follows:

(a) During the spring season of the calendar year 1978, the quota for bowheads is allocated among whaling villages as follows:

(1) Gambell—1 whale landed or 5 struck, whichever occurs first.
(2) Savoonga—1 whale landed or 1 struck, whichever occurs first.
(3) Wales—0 whales landed or 0 struck, whichever occurs first.
(4) Kivalina—0 whales landed or 0 struck, whichever occurs first.
(5) Point Hope—2 whales landed or 2 struck, whichever occurs first.
(6) Wainwright—2 whales landed or 2 struck, whichever occurs first.
(7) Barrow—4 whales landed or 5 struck, whichever occurs first.

2. Paragraphs (b) and (c) are redesignated as (c) and (d) respectively and a new paragraph (b) is added to read as follows:

(b) During the fall season of the calendar year 1978, the quota for bowheads is allocated among whaling villages as follows:

(1) Kaktovik—1 whale landed or 2 struck, whichever occurs first.

(2) Nuigsut—1 whale landed or 1 struck, whichever occurs first.

(3) Barrow—2 whales landed or 2 struck, whichever occurs first.

During the fall season, and prior to October 19, 1978, these villages shall not exceed a combined quota of 2 whales taken or 3 struck, whichever occurs first. Beginning October 19, 1978, these villages shall not exceed for the fall hunt a combined quota of 4 whales landed or 5 struck, whichever occurs first.

3. Paragraph (e) is added to read as follows:

(e) If for any reason the landing or struck quota for whaling villages is not reached, the part of the quota which remains may be reassigned by the Administrator, upon request of such village, to a second whaling village: *Provided*, That if any other whaling village has exceeded its quota at the time the reassignment is requested, the Administrator shall not reassign the quota if he determines that it is likely to result in the total number of whales landed or struck exceeding the bowhead quota then in effect under the Schedule to the International Convention for the Regulation of Whaling. In making such reassignment, the Administrator shall consult with representatives of as many whaling villages as time reasonably permits.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

[3410-37]

DEPARTMENT OF AGRICULTURE

Food Safety and Quality Service

[7 CFR Part 2852]

U.S. STANDARDS FOR GRADES OF CANNED GRAPES AND U.S. STANDARDS FOR GRADES OF CANNED PEARS [1]

Study Drafts Available for Review and Comments; Proposed Revision

AGENCY: Food Safety and Quality Service, USDA.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: The Fruit and Vegetable Quality Division of the Food Safety and Quality Service, U.S. Department of Agriculture, has study drafts available for review and comment in its consideration of the proposed revisions of the U.S. standards for grades of canned grapes and the U.S. standards for grades of canned pears.

DATE: Comments must be received on or before December 31, 1978.

ADDRESS: Send requests for study drafts and comments to: Howard W. Schutz, Standardization Section, Processed Products Branch, Fruit and Vegetable Quality Division, Food Safety and Quality Service, U.S. Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT:

Howard W. Schutz, 202-447-6247.

SUPPLEMENTARY INFORMATION: The preliminary proposed revisions for grades of canned grapes and grades of canned pears were developed following public requests for revision of the U.S. standards for grades of canned clingstone peaches.

The U.S. standards for canned clingstone peaches, effective June 1, 1978, are based on statistical procedures. Standards for the other major canned fruits are based on non-statistical procedures. Since many users of the canned clingstone peach standards process other major canned fruits, it was suggested that all U.S. standards for the major canned fruits be brought under the same format to avoid a proliferation of grading procedures.

The standards would be implemented on a voluntary basis and a charge would be made for the Department's services. When canned grapes and canned pears are officially graded, the "regulations governing inspection and certification of processed fruits and vegetables, processed products thereof, and certain other processed food products" (7 CFR 2852.1-2852.83) would be in effect. This advance notice of proposed rulemaking is issued under the authority of the Agricultural Marketing Act of 1946, secs. 203, 205, 60 Stat. 1087, as amended, 1090, as amended; (7 U.S.C. 1622, 1624).

Done at Washington, D.C., on September 18, 1978.

NOTE.—The Food Safety and Quality Service has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107.

SYDNEY J. BUTLER,
Acting Administrator, Food Safety and Quality Service.

[FR Doc. 78-26658 Filed 9-21-78; 8:45 am]

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or with applicable State laws and regulations.

[3410-37]

[9 CFR Part 316]

MARKING OR LABELING SMALL SAUSAGES WITH OFFICIAL INSPECTION LEGEND AND INGREDIENT STATEMENT

Proposed Rulemaking

AGENCY: Food Safety and Quality Service, USDA.

ACTION: Proposed rule.

SUMMARY: This document proposes to amend the Federal meat inspection regulations with respect to labeling certain sausages and other meat products in casings or link form to reflect weight limitations in kilograms rather than in pounds. This would not appear to have any significant effect upon the industry and consumers and would be in compliance with the U.S. policy to convert to the metric system.

DATES: Comments must be received on or before November 21, 1978.

ADDRESSES: Comments to: Ann Langlois, Executive Secretariat, Room 3167, South Building, Food Safety and Quality Service, U.S. Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT:

Mr. Irwin Fried, Acting Director, Products Standards and Labels Division, Food Safety and Quality Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-6042.

SUPPLEMENTARY INFORMATION:

COMMENTS

Interested persons are invited to submit comments concerning this proposal. Comments must be sent in duplicate to the Executive Secretariat and should bear a reference to the date and page number of this issue of the FEDERAL REGISTER. All comments submitted pursuant to this notice will be made available for public inspection in the office of the Executive Secretariat during regular hours of business.

BACKGROUND

For many years the Federal meat inspection regulations (9 CFR 316.10(a)) have required that small sausages and similar products, in casings or link form, bear one or more inspection legends and one or more lists of ingredients on each 2 pounds of product. This requirement makes readily available to the consumer the list of ingredients on each 2 pounds of product and assures the consumer that the product has been packed under Federal inspection. Fully labeled immediate containers of 10 pounds or less of product need not bear the official inspection legend and list of ingredients on each 2 pounds of product, since containers of product 10 pounds or less are customarily sold at retail intact.

The Food Safety and Quality Service has been requested to convert the 2 pound limitation to a kilogram (2.205 lbs) and the 10-pound container size to 5 kilograms (11.025 lbs). This change would comply with the U.S. policy to convert to the metric system. In converting to whole number kilograms, the result is an increase in the weight limitation. It does not appear that this increase would have a significant effect upon the industry or consumers.

Accordingly, it is proposed that § 316.10(b) of the Federal meat inspec-

tion regulations (9 CFR 316.10(b)) be amended to read as follows:

§ 316.10 Marking of meat food products with official inspection legend and ingredient statement.

• • • • •

(b) Inspected and passed sausage and other products, in casings or in link form, of the smaller varieties, shall bear one or more official inspection legends and one or more lists of ingredients in accordance with part 317 of this subchapter on each kilogram (2.205 lbs) of product, except where such products leave the official establishment completely enclosed in properly labeled immediate containers having a capacity of 5 kilograms (11.025 lbs) or less and containing a single kind of product: *Provided*, That such products in properly labeled closed containers exceeding 5 kilograms (11.025 lbs) capacity,• • •

• • • • •

NOTE—The Food Safety and Quality Service has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107.

Done at Washington, D.C., on September 18, 1978.

SYDNEY J. BUTLER,
Acting Administrator,
Food Safety and Quality Service.

FEDERAL TRADE COMMISSION

[16 CFR Part 306]

RULES GOVERNING THE CERTIFICATION AND POSTING OF OCTANE RATINGS UNDER TITLE II OF THE PETROLEUM MARKETING PRACTICES ACT

Proposed Rules

AGENCY: Federal Trade Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Petroleum Marketing Practices Act, passed in June 1978, requires the Federal Trade Commission to issue rules providing a uniform method for the certification and posting of octane ratings of automotive gasoline. This rule prescribes such uniform methods for members of the automotive gasoline industry. The rule is intended to provide consumers with important information to assist them in purchasing gasoline with the proper octane rating for their cars.

This notice sets out the text of the proposed rule, the procedures to be followed, a list of general questions and issues on which the Commission particularly desires comment, an invitation for written comments, and instructions for prospective witnesses and other interested persons who desire to testify or otherwise participate in the proceedings.

DATES: Notification of intention to present views orally must be received on or before October 6, 1978. Written comments must be received on or before October 20, 1978. Public hearings commence October 16, 1978, in Washington, D.C.

ADDRESS: Submit written comments and exhibits in quintuplicate to Denis E. Hynes, Presiding Officer, Office of the General Counsel, Federal Trade Commission, Washington, D.C. 20580. The hearing will be held at 633 Indiana Avenue, Room 524, Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

James G. Mills, Attorney, Bureau of Consumer Protection, Federal Trade Commission, Washington, D.C. 20580, 202-724-1509 or 202-724-1524.

SUPPLEMENTARY INFORMATION: The Petroleum Marketing Practices Act, passed in June 1978, requires refiners of automotive gasoline to test the octane ratings of their products and to certify those ratings to industry members who purchase the gasoline from them. Distributors who transfer automotive gasoline to other distributors or to retailers must certify the octane ratings of their products consistent with prior certifications received by them. Gasoline retailers must display, in a clear and conspicuous manner at the point of sale, the octane rating of any gasoline they dispense to consumers.

The statutory duties will take effect irrespective of any rules issued by the Federal Trade Commission. However, the Commission is required to promulgate, by December 20, 1978, uniform methods for the certification and posting of octane ratings by industry members. When a final rule takes effect, the statutory duties to certify and post can only be satisfied through compliance with the Commission's rule.

An octane rating is a measure of how well an automotive gasoline will resist "knocking" in an engine. Although the octane rating is only one of many gasoline features, it has great significance for consumers. Engine knocking, which is caused by spontaneous combustion in localized areas of an engine, wastes power and lowers the effectiveness of the engine. Persistent or severe knocking can seriously damage the engine. Thus, the consumer should buy gasoline with an octane rating that is high enough to prevent engine knocking.

On the other hand, since higher octane gasolines often cost more than the lower octanes, consumers who buy more octane than is needed to control engine knock may derive no benefit from the additional money they spend. Discouraging octane overbuying can save energy that is used to produce higher octane gasolines, and it may reduce air pollution caused by the lead in automobile exhaust gases.

By requiring the disclosure of octane ratings for automotive gasoline, the statute and the proposed rule seek to provide information without which it would be difficult for consumers to make an intelligent purchasing decision. With this information, consumers will have the opportunity simultaneously to conserve energy, save money, reduce air pollution, and protect their cars against engine damage.

Under the proposed rule, refiners and distributors who sell gasoline to other industry members are required to certify the octane rating of the gasoline. The rating must be determined in accordance with ASTM D439-78, Standard Specifications for Automotive Gasoline, and must be rounded to a whole number less than or equal to the rating. The Commission will not consider in this rulemaking proceeding whether a formula different from that prescribed in ASTM D439-78 should be used to determine gasoline octane ratings.

The proposed rule does not require the use of a special form for certifying octane ratings. Instead, the rule permits the use of ordinary transfer documents, such as delivery invoices or bills of lading, as long as certain prescribed information appears on the certifying document. Among other things, the certification document must identify the parties to the transaction, specify the octane rating, and indicate that the octane rating was determined in accordance with the provisions of the rule.

The statute requires the Commission to prescribe a uniform method by which gasoline retailers must display octane ratings at the pump. The Commission believes that this is best accomplished by requiring that a label disclosing minimum octane ratings appear in immediate proximity to the price per gallon of each different gasoline dispensed from the pump. Placement of this label near the price per gallon should help assure that the consumer sees the rating prior to purchase.

The proposed labels have bold, contrasting colors and are large enough to accommodate highly visible numbers. In addition, the labeling provisions specify such matters as adhesiveness, weatherproofing requirements, and the use of materials that are not harmed by gasoline. Despite the high

quality of the labels, the Commission believes that their cost will be minimal. To further minimize costs by encouraging bulk purchases of the labels, and to facilitate compliance by retailers, the proposed rule states that the person who determines the octane rating of the gasoline must supply the labels.

Interested persons are invited to comment on any of the proposed rule provisions, on any of the issues listed in section C after the proposed rule, or on any other issue of fact, law, or policy which may have some bearing on the proposed rule.

A memorandum of the Commission's staff discussing the proposed rule will be made available for examination during normal business hours (9 a.m. to 5 p.m., Monday through Friday) by interested persons in room 130 of the public reference room of the Federal Trade Commission Building, Pennsylvania Avenue at Sixth Street NW., Washington, D.C.

SECTION A. PROPOSED RULES

In consideration of the foregoing, the Commission proposes the following rule, pursuant to title II of the Petroleum Marketing Practices Act (Pub. L. 95-297), and section 553 of subchapter II, chapter 5, title 5 of the U.S. Code (Administrative Procedure). This would amend title 16, chapter 1 by adding to subchapter C—Regulations Under Specific Acts of Congress, a new part 306 of that subchapter. The new part 306 would read as follows:

PART 306—RULES GOVERNING THE CERTIFICATION AND POSTING OF OCTANE RATINGS UNDER TITLE II OF THE PETROLEUM MARKETING PRACTICES ACT

GENERAL

Sec.
306.0 Terms defined.
306.1 Persons to whom this part applies.
306.2 Prohibited acts or practices.
306.3 Severability.
306.4-306.9 [Reserved]

UNIFORM METHOD OF CERTIFYING OCTANE RATING

306.10 Delivery invoices.
306.11 Recordkeeping.
306.12-306.19 [Reserved]

UNIFORM METHOD OF DISPLAYING OCTANE RATING

306.20 Display of octane rating.
306.21 Face labels.
306.22 Supplying of labels.
306.23 Recordkeeping.

APPENDIX

Illustration: Layout for face label.

AUTHORITY: Title II of the Petroleum Marketing Practices Act (Pub. L. 95-297).

GENERAL

§ 306.0 Terms defined.

(a) The term "Act" means title II of the Petroleum Marketing Practices Act (Pub. L. 95-297).

(b) The term "octane rating" means the rating of the antiknock characteristics of a grade or type of automotive gasoline as determined by dividing by 2 the sum of the research octane number plus the motor octane number.

(c) The terms "research octane number" and "motor octane number" have the meanings given such terms by the American Society for Testing and Materials (ASTM) in ASTM D439-78, entitled "Standard Specifications for Automotive Gasoline." With respect to any grade or type of automotive gasoline, the research octane number and the motor octane number are to be determined in accordance with ASTM standard test methods designated D2699-75 and D2700-75.

(d) The term "knock" means the combustion of a fuel spontaneously in localized areas of a cylinder of a spark-ignition engine, instead of the combustion of such fuel progressing from the spark.

(e) The term "refiner" means any person engaged in—

(1) The refining of crude oil to produce automotive gasoline; or

(2) The importation of automotive gasoline.

(f) The term "distributor" means any person who receives automotive gasoline and distributes such automotive gasoline to another person other than the ultimate purchaser.

(g) The term "gasoline retailer" means any person who markets automotive gasoline to the general public for ultimate consumption.

(h) The term "ultimate purchaser" means, with respect to any item, the first person who purchases such item for purposes other than resale.

(i) The term "automotive gasoline" means gasoline of a type distributed for use as a fuel in any motor vehicle.

(j) The term "motor vehicle" means any self-propelled four-wheeled vehicle, of less than 6,000 pounds gross vehicle weight, which is designed primarily for use on public streets, roads, and highways.

(k) The term "consistent with" as used in section 306.10(a) means a whole number which is the same as or less than the octane rating as determined by the refiner.

(l) The term "consistent with" as used in section 306.10(b) means:

(1) In the case of automotive gasoline which consists of a blend, a whole number which is the same as or less than the average, weighted by volume, of the ratings which were certified for each gasoline in the blend; or

(2) In the case of automotive gasoline which does not consist of such a blend, the octane rating which was certified for such gasoline.

(m) The term "blend" means a mixture of two or more automotive gasolines for which different octane ratings have been certified.

(n) The term "delivery invoice" means a document that accompanies a distribution of automotive gasoline in commerce to any person other than the ultimate purchaser. It may be in the form of an invoice, bill of lading, bill of sale, terminal ticket, delivery ticket, or any other written evidence of transfer.

(o) The term "person who determines the octane rating" means:

(1) A refiner who tests automotive gasoline; or

(2) A distributor or retailer who computes the octane rating of a blend of automotive gasoline, pursuant to the requirements of section 306.0(1)(1).

(p) The term "Commission" means the Federal Trade Commission.

(q) The term "commerce" means any trade, traffic, transportation, exchange, or other commerce:

(1) Between any State and any place outside of such State; or

(2) Which affects any trade, transportation, exchange, or other commerce described in subparagraph (1).

(r) The term "State" means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, Guam, and any other commonwealth, territory, or possession of the United States.

(s) The term "person," for purposes of applying any provision of the Federal Trade Commission Act with respect to any provision of this part, includes a partnership and a corporation.

§ 306.1 Persons to whom this part applies.

Provisions of this part apply to refiners, distributors, and retailers engaged in distributing or marketing automotive gasoline in commerce.

§ 306.2 Prohibited acts or practices.

It is an unfair or deceptive act or practice in or affecting commerce within the meaning of section 5 of the Federal Trade Commission Act for a person to fail to comply with a requirement of this part that applies to such person.

§ 306.3 Severability.

If any part of this regulation is stayed or held invalid, the remaining provisions will continue in force.

V 43 185 SE 22 78 V

UNIFORM METHOD OF CERTIFYING OCTANE RATING

§ 306.10 Delivery invoices.

(a) Each refiner shall include a delivery invoice with each transfer of automotive gasoline to any person other than the ultimate purchaser. The delivery invoice under this subsection shall include:

(1) The name of the person who is transferring the gasoline and the name of the person to whom the transfer is made;

(2) The date of transfer;

(3) The quantity of gasoline transferred;

(4) The octane rating of the gasoline;

(5) The signature of the person who is transferring the gasoline; and

(6) The statement: "I certify that the octane rating specified on this delivery invoice is consistent with my determination of the octane rating."

(b) Each distributor of automotive gasoline shall include a delivery invoice with each transfer of such gasoline to any person other than the ultimate purchaser. The delivery invoice under this subsection shall include the information required under section 306.10(a) (1)-(5) and the statement: "I certify that the octane rating specified on this delivery invoice is consistent with the octane rating on the delivery invoice or invoices which accompanied the transfer of this gasoline."

(c) Information which is inconsistent with the requirements of this part may not appear on the delivery invoice.

§ 306.11 Recordkeeping.

(a) Records of tests performed by or for refiners and used as a basis for certification under section 306.10(a) shall be kept on file by such refiners for a period of three (3) years and be available for inspection by persons authorized to administer, investigate, or enforce the provisions of the Act or of this part.

(b) Delivery invoices received by distributors and used as a basis for certification under section 306.10(b) shall be kept on file by such distributors for a period of one (1) year and be available for inspection by persons authorized to administer, investigate, or enforce the provisions of the Act or of this part.

UNIFORM METHOD OF DISPLAYING OCTANE RATING

§ 306.20 Display of octane rating.

Each gasoline retailer shall display the octane rating of each automotive gasoline sold to ultimate purchasers, by attaching face labels to all automotive gasoline dispensing pumps.

(a) "Face" label refers to labels attached to that portion of an automotive gasoline dispensing pump where the price per gallon and price of purchase appear. The face label shall:

(1) Contain the octane rating certified to the retailer under section 306.10, or, if the gasoline consists of a blend, an octane rating which is a whole number the same as or less than the average, weighted by volume, of the ratings which were certified for each gasoline in the blend;

(2) Be a separate label for each gasoline with a different octane rating which is dispensed from a single pump; and

(3) Be attached to the face of the pump and appear in immediate proximity to the number representing the price per gallon of the gasoline.

(b) Retailers shall maintain or replace face labels as necessary to insure that the information may be seen and read easily by the ultimate purchasers of the automotive gasoline.

§ 306.21 Face labels.

All face labels required to be displayed by this part shall conform to the following specifications:

(a) *Layout.* The face label is 3 inches wide by 2½ inches long. The illustration appearing at the end of this part is a prototype label that demonstrates the proper layout. Helvetica type is used throughout to maintain uniformity and consistency for immediate consumer recognition and readability. Spacing of the label is ¼ inch between the top border and the first line of text, ⅛ inch between the first and second line of text, ¼ inch between the octane rating and the line of text above it. All text and numerals are centered within the interior borders.

(b) *Type size and setting.* The Helvetica series shall be used and is available in a variety of phototype setting systems and by linotype. The top line of the label is set in 10-point Helvetica Bold, all capitals, with letterspace set at 10½ points. The line "Minimum octane rating" is set in 12-point Helvetica Bold, with letterspace set at 12½ points, all capitals. The octane number is set in 96-point Helvetica Medium Bold with ⅛ inch space between the numbers.

(c) *Colors.* The basic color of all labels shall be process yellow. All type is process black. All borders are process black. Both colors must be nonface.

(d) *Paper stock.* The paper shall be pressure-sensitive with permanent adhesive having a minimum adhesive capacity of 40 ounces per inch width (P.S.T.C. No. 1).

(e) *Contents.* The contents are as shown in the illustration. The appropriate octane rating for each gasoline will be shown on the face label. No marks or information other than that specified in this part shall appear on the label.

(f) *Special label protection.* All labels shall be capable of withstanding extremes of weather conditions for a period of at least 1 year. The labels shall be resistant to gasoline, oil, grease, solvents, detergents, and water. Paper stock shall be 0.004 inch polyvinyl chloride including adhesive with a 0.001 inch clear lamination of mylar or equivalent material.

§ 306.22 Supplying of labels.

Labels required under this part to be posted on gasoline pumps shall be made available to the gasoline retailer by the person who determines the octane rating of the gasoline. Failure by this person to supply labels does not excuse the retailer from the duty to display the octane rating of the gasoline.

§ 306.23 Recordkeeping.

All delivery invoices received by gasoline retailers and used as the basis for the octane rating displayed under section 306.20(a)(1) shall be kept on file by such retailers for a period of one (1) year and be available for inspection by persons authorized to administer, investigate, or enforce the provisions of the Act or of this part.

All text and numerals
centered in box

Box is 2-1/2" x 3"

Illustration: Layout for face label

Six point border bleeds on all
four sides, rounded interior
corners, square exterior corners

1/4" space between border and first line of text

SECTION B. INVITATION TO COMMENT

All interested persons are hereby notified that they may submit to Denis E. Hynes, Presiding Officer, Federal Trade Commission, Washington, D.C. 20580, data views, or arguments on any issue of fact, law, or policy which may have some bearing upon the proposed rule. Such written comments will be accepted until October 20, 1978. To assure prompt consideration, comments should be identified as "Octane Certification and Posting Rule Comment" and furnished where at all possible in five (5) copies.

SECTION C. GENERAL QUESTIONS AND ISSUES

While interested persons are invited to address any questions of fact, law, or policy which they feel may have bearing upon the proposed rule, listed below are several general questions and issues of fact bearing upon certain aspects of the proposed rule concerning which the Commission particularly desires comment, orally or in writing, by persons concerned with and participating in this proceeding:

1. Under the proposed rule, only refiners may test the octane rating of automotive gasoline. Are there situations when it would be appropriate to permit distributors or retailers to test octane ratings? Is such testing currently performed by distributors or retailers? If so, to what extent and under what circumstances? Does distributor or retailer testing differ in any way from testing done by refiners? If so, how? If distributor or retailer testing were permitted, should any limitations be placed on such testing?

2. The proposed rule states that octance ratings must be rounded to minimum whole numbers. Should the rule require the use of exact numbers, rather than minimum whole numbers? If so, why?

3. Is there a more accurate method for determining the octane rating of blended gasoline than the weighted average formula prescribed by the proposed rule? If so, describe the method and explain why it is preferable to the weighted average formula. Is there a particular need for a different formula if distributor or retailer testing is not permitted? Does the use of minimum whole numbers, in conjunction with the weighted average formula for blends, result in unreliable octane ratings for blended gasolines? Are there any other problems, related to the blending of gasolines, of which the Commission should be aware? For example, to what extent does blending of leaded and unleaded gasolines occur? Is there any problem in accurately determining the octane rating of such a blend by the weighted average formula?

4. (a) The extent to which consumers understand octane ratings is unclear. Should the Commission require the disclosure of information explaining octane ratings to consumers? An example of such additional information might be the following:

Using gas with the proper octane rating can help you save money, protect against engine damage, conserve energy, and control air pollution. If your engine is knocking, try gas with a higher octane rating. If your car isn't knocking, you may be able to use a lower octane gas. Check your owner's manual or see your car dealer to find out what octane your car needs.

Is the information contained in this statement sufficient to enable consumers to understand octane ratings? If not, what additional information should be disclosed?

(b) If consumers need an explanation of octane ratings, at point of sale, how should the information be disclosed? Should the face label disclose, in addition to the octane rating of the gasoline, any relevant explanatory information? How large would the proposed label have to be in order to contain both a prominent octane number and an explanation that is easily readable from the driver's side of a car? Is there enough space on gasoline pump faces to accommodate larger face labels containing this information? Where on the gasoline pump should the label be placed to insure its visibility to consumers?

As an alternative, should the Commission require than any explanatory information be disclosed on a separate label? If so, where should this label be placed to insure that the information is communicated to the widest possible audience?

(c) Assuming that consumers do not understand octane ratings, does the Petroleum Marketing Practices Act authorize the Commission to require the disclosure of additional information explaining octane ratings? If so, is the use of the two labels, with one label disclosing the octane rating and the other label disclosing any necessary explanatory information, consistent with the provisions of the Act?

(d) Will differences in pump design make it difficult for some retailers to comply with the proposed requirement that face labels be displayed in immediate proximity to the price per gallon of the gasoline? If so, where on such pumps should the Commission require that labels be displayed? Would differing display requirements, based on pump design differences, be consistent with the statutory requirement that the method of display be uniform?

5. Approximately what percentage of cars on the road today have owner's manuals that recommend octane based only on the research octane number? Would a "conversion table" showing how the research octane number compares with the (R+M)/2 number help the owners of such cars to determine the octane requirements of their cars? If so, can conversion numbers be easily calculated, or are reliable tables available for this purpose? Where on the label should such a conversion table appear?

6. The proposed rule states that the person who determines the octane rating of the gasoline must supply labels to retailers. How will such labels be made available to the retailer? Should the labels be provided without charge, or at cost? Are there better means of providing labels, such as through retail dealer associations?

Distributors and retailers who blend gasoline are required under the proposed rule to supply their own labels. Is this an unduly burdensome requirement? If so, who should be required to supply labels when gasoline is blended?

7. What recordkeeping practices currently exist in the industry? Will it be possible under the recordkeeping provisions of the proposed rule to trace specific quantities of gasoline back through the chain of transfer? Will it be possible to determine what the tested octane rating of the gasoline was and what rating was certified by each link in the chain of transfer? What additional information should be included with the certification or testing records to facilitate this process?

8. Variations in the formula used for determining octane ratings will not be considered in this proceeding. However, the Petroleum Marketing Practices Act authorizes the Commission to initiate a separate rulemaking for the purpose of considering such variation. Although comments on the formula itself should not be submitted in this rulemaking proceeding, interested parties may state whether or not a separate rulemaking should be initiated at a future date to consider variations in the octane rating formula.

9. Under the Petroleum Marketing Practices Act, the statutory duties to certify and post octane ratings take effect on April 1, 1979. Assuming that the rule is promulgated in its final form by January 30, 1979, is there any reason why it should not take effect on April 1, 1979? How will industry members satisfy their statutory duties to certify and post-octane ratings if the Commission's rule does not take effect on April 1, 1979?

SECTION D. PUBLIC HEARINGS

Public hearings on the proposed rule will be held commencing on October 16, 1978, at 9 a.m. in room 524 of the Indiana Building, 633 Indiana Avenue NW., Washington, D.C. Persons desiring to present their views orally at these hearings should so advise Denis E. Hynes, Presiding Officer, 202-523-3421, Federal Trade Commission, Washington, D.C. 20580, no later than October 6, 1978.

SECTION E. MOTIONS OR PETITIONS

Any motions or petitions in connection with this proceeding must be filed with the presiding officer, who is responsible for the orderly conduct of the proceeding and shall have all powers necessary to that end, including the authority to rule on all motions or petitions filed. Applications for review of a ruling will not be entertained by the Commission prior to its review of the record unless the presiding officer certifies in writing to the Commission that a ruling involves a controlling question of law or policy as to which there is substantial ground for difference of opinion and that an intermediate review of the ruling may materially advance the ultimate termination of the proceeding or subsequent review will be an inadequate remedy.

SECTION F. INSTRUCTIONS TO WITNESSES

1. *Advance notice.* FTC invites any person who has an interest in the proposed rulemaking issued today, or who is a representative of a group or class of persons that has an interest, to make an oral presentation. Such a request should be directed to the presiding officer identified above and must be received no later than October 6, 1978. Witnesses are required to submit a written statement that can be entered into the record as submitted. It will, therefore, not be necessary to repeat this statement at the hearing. Submission of the written statement enables the witness to appear at the hearing, to answer questions posed by only the presiding officer and staff with regard to the written statement, and to deliver a short summary of the most important aspects of that statement within time limits which are established by the presiding officer. As a general rule, oral summaries should not exceed 10 minutes. There will be no opportunity for interested persons to cross-examine witnesses.

2. *Use of exhibits.* Use of exhibits during oral testimony is encouraged, especially when they are to be used to help clarify technical or complex matters. If you plan to offer documents as exhibits, file them as soon as possible during the general comment period, but no later than October 6, 1978. Mark each of the documents with your name, and number them in sequence, e.g., Jones exhibit 1. The presiding officer has the power to refuse to accept for the public record any hearing exhibits that are not furnished by the deadline.

3. *Expert witnesses.* If you are going to testify as an expert witness, you must attach to your statement curriculum vitae, biographical sketch, resumé or summary of your professional background and a bibliography of your publications. It would be helpful if you would also include documentation for the opinions and conclusions you express by footnotes to your statements or in separate exhibits. If your testimony is based upon or chiefly concerned with one or two major scientific works, copies should be furnished. The remaining citations to other works can be accomplished by using footnotes in your statement referring to those works.

4. *Results of surveys and other research studies.* If in your testimony you will present the results of a survey or other research study, as distinguished from simple references to previously published studies conducted by others, you must also present as an exhibit or exhibits in compliance with paragraph 2 above the following:

a. A complete report of the survey or other research study and the information and documents listed in (b) through (e) below if they are not included in that report.

b. A description of the sampling procedures and selection process including the number of persons contacted, the number of interviews completed, and the number of persons who refused to participate in the survey.

c. Copies of all completed questionnaires or interview reports used in conducting the survey or study if respondents were permitted to answer questions in words of their choice rather than to select an answer from one or more answers printed on the questionnaire or suggested by the interviewer.

d. A description of the methodology used in conducting the survey or other research study, including the selection of and instructions to interviewers, introductory remarks by interviewers to respondents, and a sample questionnaire or other data collection instrument.

e. A description of the statistical procedures used to analyze the data and all data tables which underlie the results reported.

Other interested persons may wish to examine the questionnaires, data collection forms and any other underlying data not offered as exhibits and which serve as a basis for your testimony. This information along with punch cards or computer tapes which were used to conduct analyses should be made available (with appropriate explanatory data) upon request of the presiding officer. The presiding officer will then be in a position to permit their use by other interested persons.

5. *Identification, number of copies, and inspection.* To assure prompt consideration, all materials, including written statements, filed by prospective witnesses pursuant to the instructions contained in paragraph 1-4 of this section should be identifed both on the document and on the envelope as "Octane Certification and Posting Statement" ("and Exhibits," if appropriate), and submitted in five copies when feasible and not burdensome not later than October 6, 1978.

Copies of all materials filed by witnesses will be made available for examination in Room 130, public reference room, Federal Trade Commission, Pennsylvania Avenue at Sixth Street NW., Washington, D.C.

6. *Reason for requirements.* The foregoing requirements are necessary to permit us to schedule the time for your appearance and that of other witnesses in an orderly manner. The Commission staff and the presiding officer must have your expected testimony and supporting documents available for study before the hearing to prepare appropriate questions. Also, such data should be of assistance to interested persons in the preparation of the filing of contradictory statements (rebuttal).

The deadline established by this notice will not be extended and hearing dates will not be postponed unless hardship to participants can be demonstrated.

SECTION G. POST-HEARING PROCEDURES

Interested persons will be afforded 10 days after the close of the hearings to file rebuttal submissions, which must be based only upon identified, properly cited matters already in the record. The presiding officer will reject all submissions which are essentially additional written comments in contrast to rebuttal. The 10-day rebuttal period will commence when the transcript of the final day of hearings is available.

Not later than 30 days after the close of the rebuttal period, the staff shall submit a recommendation for the final rule. The staff's report will be placed on the public record for 30 days, during which time interested persons will be afforded the opportunity to submit comments for consideration by the Commission in reaching a decision on this rule. Comments will be submitted to Secretary, Federal Trade Commission, Washington, D.C. 20580. To assure prompt consideration, each comment should be identified both on the document and on the envelope as "Octane Certification and Posting Rule Comment" and furnished when possible in five (5) copies.

V 43 / 185 SEP 22 78

SECTION H. COMPENSATION FOR REPRESENTATION IN RULEMAKING PROCEEDINGS

Funds may be available for reimbursement of public participation costs incurred in this proceeding to those who satisfy the requirements of § 1.17 of the Commission's rules. For further information, contact Bonnie Naradzay, Special Assistant for Public Participation, Office of the General Counsel, Federal Trade Commission, Sixth Street and Pennsylvania Avenue NW., Washington, D.C. 20580, 202-523-3520.

By direction of the Commission, dated September 19, 1978.

CAROL M. THOMAS,
Secretary.

COMMODITY FUTURES TRADING COMMISSION

[17 CFR Part 150]

LIMITS ON POSITIONS AND DAILY TRADING

Proposed Rulemaking and Request for Comment

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Commodity Futures Trading Commission is proposing to remove the daily limits on speculative trading for all commodities where such limits are now in effect in order to eliminate unnecessary restrictions on the markets and to enhance competition and market liquidity. The Commission has considered these limits, which were generally established prior to the creation of the Commission in 1974, and has concluded that daily trading limits (1) are not necessary to diminish, eliminate or prevent excessive speculation, and (2) may at times impede market liquidity.

DATES: Comments must be received on or before November 21, 1978.

ADDRESS: Comments on the proposal should be sent to: Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581. Attention: Secretariat.

FOR FURTHER INFORMATION CONTACT:

Blake Imel, Acting Chief Economist, Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581, 202-254-6124.

SUPPLEMENTARY INFORMATION: Section 4a(1) of the Commodity Exchange Act, as amended (the "Act"), 7 U.S.C. 6a(1) (1976), expresses a congressional determination that "excessive speculation" in commodity futures traded on contract markets causing sudden or unreasonable price fluctuations or unwarranted price changes is an undue burden on interstate commerce. In order to prevent these adverse effects, section 4a(1) of the Act authorizes the Commission to "fix * * * limits on the amount of trading which may be done or positions which may be held by any person * * * as the Commission finds are necessary to diminish, eliminate or prevent such burden." [1] Pursuant to this section of the Act, Commission rules 150.1(b), 150.2(b), 150.3(b), 150.4(b), 150.5(b), 150.10(b), 150.11(b), and 150.12(b) establish daily limits on speculative trading on a contract market in grains (defined to include oats, barley and flaxseed), cotton, rye, soybeans, eggs, potatoes, corn and wheat, respectively. Speculative position limits in these commodities were also adopted as subsection (a) of rules 150.1, 150.2, 150.3, 150.4, 150.5, 150.10, 150.11 and 150.12, respectively, to establish the maximum net positions a person may hold or control on a contract market.

The authority to fix limits on speculative activities had its origins in the longstanding congressional concern that the grain futures markets were either frequently or severely disrupted by large scale speculation, which involved the accumulation and liquidation of inordinately large positions.[2] When the Commodity Exchange Act was enacted in 1936, Congress empowered the Commodity Exchange Commission to fix limits on the amount of speculative trading that might be done. That Commission construed section 4a(1) to permit it to limit the net long or short positions of traders, as well as the volume of their trading.[3] Accordingly, in 1938 the Commodity Exchange Commission, pursuant to section 4a(1) of the Act, established both trading and position limits for grain futures.[4] On April 21, 1975, when the Commodity Futures Trading Commission was created, trading and position limits were in effect for grains (including wheat), cotton, rye, soybeans, eggs, potatoes, and corn. To date the Commission has maintained these trading and position limits, having amended only the levels specified for wheat.[5] Neither trading nor position limits have been established for any additional commodities.

The Commission has for some time been reviewing the efficacy of both trading and position limits. Among other things the Commission has considered the report of its Advisory Committee on the Economic Role of Contract Markets,[6] reports from its staff, and its own experience with potential and actual market disruptions.

The advisory committee considered the role of speculative trading and position limits and concluded that neither represented very effective regulatory tools. The advisory committee was of the view that the current daily trading limits are a greater threat to market liquidity than position limits. The committee recommended that daily trading limits be substantially liberalized by a conversion to daily limits on net position changes.

The Commission has also reviewed the proceedings which led to the establishment of the current trading and position limits. It appears that the original purpose in the establishment of position and trading limits was to prevent possible market disruptions arising from large positions and position changes effected by speculative traders. There is, however, little or no evidence that the Commodity Exchange Commission was concerned with large individual trading volume which did not result in large position changes. Accordingly, without questioning the initial premise for speculative position limits at this time, it does not appear that daily trading limits are required to diminish, eliminate or prevent "excessive speculation." It may also be that daily trading limits offer a real potential for diminishing market liquidity. Indeed, some professional speculative day traders who trade a large number of contracts without ever accumulating a large position may at times be limited in their activities by the current daily trading limits.

The Commission has considered several alternative means of deemphasizing or phasing out daily trading limits. These are: (1) Elimination of daily trading limits, (2) trading limits on intraday time brackets, (3) net daily position-change limits, (4) net daily trading limits, and (5) increasing the current gross daily limits. Alternatives (2) through (5) were each considered to be either too complex, of limited usefulness, and/or difficult to enforce effectively. Accordingly, the Commission believes that the most appropriate course of action is simply to eliminate its present daily trading limits. The Commission is not, however, proposing to alter the current position limits. The Commission understands that removing daily trading limits (with position limits remaining in effect) will allow larger daily position changes than were allowed by the trading limits. The Commission requests comment on its proposal.

In consideration of the foregoing, the Commission, pursuant to the authority contained in sections 4(a) and 8a of the Act, 7 U.S.C. 6a and 12a (1976), proposes to amend part 150 of chapter I of title 17 of the Code of Federal Regulations by deleting paragraph (b) from each of §§ 150.1, 150.2, 150.3, 150.4, 150.5, 150.10, 150.11 and 150.12 and effecting any further technical conforming amendments which are necessary to other paragraphs of those sections.

Issued in Washington, D.C., on September 18, 1978, by the Commission.

GARY L. SEEVERS,
Vice Chairman, Commodity Futures Trading Commission.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Parts 240, 241 and 249]

[Release No. 34-15159]

LOST AND STOLEN SECURITIES PROGRAM

Extension of Comment Period

AGENCY: Securities and Exchange Commission.

ACTION: Extension of public comment period for advance notice of intent to engage in rulemaking.

SUMMARY: The Commission today extended until October 15, 1978, the public comment period with respect to its advance notice of intent to engage in rulemaking concerning the lost and stolen securities program.

DATES: Comments must be submitted on or before October 15, 1978.

ADDRESSES: Persons wishing to submit written views, data, and comments should file three copies thereof with George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C. 20549. All submissions should refer to file No. S7-611 and will be available for public inspection.

FOR FURTHER INFORMATION CONTACT:

Gregory C. Yadley, Division of Market Regulation, Securities and Exchange Commission, Washington, D.C. 20549, 202-376-8129.

SUPPLEMENTARY INFORMATION: In Securities Exchange Act release No. 15015 (July 31, 1978) (43 FR 34790, August 7, 1978), the Commission issued an advance notice of intent to engage in rulemaking and requested public comment with respect to the provisions of 17 CFR 240.17f-1, the operation of the lost and stolen securities program to date, and the redesignation of Securities Information Center, Inc., to maintain and operate the data base of reported missing, lost, counterfeit or stolen securities.

Although the comment period expired on September 8, 1978, it has come to the Commission's attention that certain interested members of the public may require more time to complete their consideration of the advance notice of intent to engage in rulemaking and respond to the Commission's solicitation of comments. The Commission has determined that it is appropriate in the public interest to provide all persons sufficient time to make their views known, and, accordingly, the Commission hereby extends the period for public comment until October 15, 1978.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

SEPTEMBER 13, 1978.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 102]

[Docket No. 75N-0205]

COMMON OR USUAL NAMES FOR VEGETABLE PROTEIN PRODUCTS AND SUBSTITUTES FOR MEAT, SEAFOOD, POULTRY, EGGS, OR CHEESES WHICH CONTAIN VEGETABLE PROTEIN PRODUCTS AS SOURCES OF PROTEIN

Tentative Final Regulation; Extension of Comment Period

AGENCY: Food and Drug Administration.

ACTION: Notice of extension of comment period.

SUMMARY: The Food and Drug Administration is extending the comment period for the tentative final regulation establishing common or usual names for vegetabe protein products and for substitutes for meat, seafood, poultry, eggs, or cheeses which contain vegetable protein products as sources of protein. This action is based on requests for an extension. The extension will provide additional time for submitting comments.

DATE: Comments by November 13, 1978.

ADDRESS: Written comments to the Hearing Clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

L. Robert Lake, Bureau of Foods (HFF-302), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, D.C. 20204, 202-245-1254.

SUPPLEMENTARY INFORMATION: The Commissioner of Food and Drugs issued a tentative final regulation in the FEDERAL REGISTER of July 14, 1978 (43 FR 30472) that would establish common or usual names for vegetable protein products and substitutes for meat, seafood, poultry, eggs, or cheeses which contain vegetable protein products as sources of protein. Interested persons were invited to submit comments on the tentative final regulation by September 12, 1978.

The Commissioner has received written requests for a 60-day extension of the comment period from the Food Protein Council, National Fisheries Institute, Inc., and Booth Fisheries. Copies of these requests are on file

[1] Section 4a(1) does not require that both speculative trading and position limits be established in the event the Commission finds that one or the other is appropriate. Purchases and sales which fall within the definition of bona fide hedging contained in § 1.3(z) of the Commission's regulations, 17 CFR 1.3(z), as amended, 42 FR 42748 (August 14, 1977), are exempted from application of both the speculative trading and position limits.

[2] See H.R. Rep. No. 421, Accompanying H.R. 6772, 47th Cong., 1st Sess. 1 (1935).

[3] Although the Commodity Exchange Commission construed its authority under section 4a(1) to allow it to set limits on the amount of speculative buying and selling that may be done and on the size of positions that may be held, section 4a(1) specifically referred to "limits on the amount of trading." In 1968, section 4a(1) of the Act was amended to clarify the authority to impose limits on "positions which may be held." Section 4a(1) was also amended to provide that trading done and positions held by two or more persons acting pursuant to an express or implied understanding shall be treated as if done or held by a single person. See Rep. No. 947, 90th Cong., 2d Sess., 5 (1968). See also, Hearings on H.R. 11930 and H.R. 12317 before the House Committee on Agriculture, 90th Cong., 2d Sess. 1967.

[4] 3 FR 3145 (Dec 24, 1938).

[5] Effective August 20, 1976, the trading and position limits for wheat were specified separately from those for grain and raised from 2 million bushels to 3 million bushels (41 FR 35060 (Aug. 19, 1976)).

[6] July 17, 1976. This advisory committee was Chaired by Commissioner Gary L. Seevers.

with the hearing clerk, Food and Drug Administration.

Together, the requests for extension assert (1) that new technology may be needed for compliance with some of the nutrient provisions in the tentative final regulation that differ from the proposed provisions but that the comment period provided in the tentative final regulation is inadequate to determine whether the new technology will be successful; (2) that because the comment period runs across the major vacation months, it is difficult to arrange meetings of interested persons in order to review common concerns; and (3) that additional time is needed because of the complexity of the tentative final regulation.

Based upon his consideration of these requests for an extension, the Commissioner is extending the comment period on the tentative final regulation to November 13, 1978.

In addition to the requests for extension cited above, Ralston Purina Co. (in a letter received by the hearing clerk on September 6, 1978 and on file in that office) requested an extension to February 12, 1979 to permit the firm to conduct studies involving the manufacture and testing of experimental products which the firm asserts are necessary to evaluate fully the changes made in the tentative final regulation. A final decision has not been made on Ralston Purina Co.'s request. If any further extension is granted in the matter, notice of the extension will be given in the FEDERAL REGISTER.

Interested persons may, on or before November 13, 1978, submit to the hearing clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written comments (preferably four copies and identified with the hearing clerk docket number found in brackets in the heading of this ducument) regarding the revisions made to the proposal and issued as part of the tentative final regulation and new developments since the proposal that warrant consideration. Received comments may be seen in the office above from 9 a.m. to 4 p.m., Monday through Friday.

Dated: September 18, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Regulatory Affairs.

CHLORTETRACYCLINE-SULFAMETHAZINE TABLETS

Proposed Rulemaking

AGENCY: Food and Drug Administration.

ACTION: Proposal.

SUMMARY: This is a proposal to amend the animal drugs regulations by revoking the certification provisions for chlortetracycline-sulfamethazine tablets. This combination is subject to a notice of opportunity for hearing proposing its withdrawal which is published elsewhere in this issue of the FEDERAL REGISTER.

DATE: Comments by October 23, 1978.

ADDRESS: Written comments to the Hearing Clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

David Scarr, Bureau of Veterinary Medicine (HFV-214), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3183.

SUPPLEMENTARY INFORMATION: Elsewhere in this issue of the FEDERAL REGISTER, the Director of the Bureau of Veterinary Medicine is issuing a notice of opportunity for hearing on a proposal to withdraw approval of a new animal drug application (NADA 55-025) for Aureomycin Sulmet Oblets which contain 125 milligrams (mg) chlortetracycline in combination with 2.5 grams sulfamethazine and 100 mg nicotinic acid, 62,500 I.U. vitamin A, and 6,250 I.U. vitamin D. The grounds for the proposed withdrawal is that new information, with respect to the drug product, evaluated together with evidence available at the time of its approval, shows there is a lack of substantial evidence that the drug product will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

Consistent with the proposed withdrawal of NADA 55-025, the Director is proposing to amend the regulations by revoking the certification provision which provides for its use.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 507, 512, 59 Stat. 463 as amended, 82 Stat. 343-351 (21 U.S.C. 357, 306b)) and under authority delegated to the Commissioner (21 CFR 5.1) and redelegated to the Director (21 CFR 5.84), it is proposed that Part 546 be amended, by revoking § 546.110e chlortetracycline-sulfamethazine tablets.

Interested persons may, on or before October 23, 1978 file with the Hearing Clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written comments (preferably four copies and identified with the Hearing Clerk docket number found in brackets in the heading of this document) regarding this proposal, except that comments pertaining to issues which are the subject of the related notice of opportunity for hearing published elsewhere in this issue of the FEDERAL REGISTER shall be filed in accordance with that notice. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office between 9 a.m. and 4 p.m. during regular working hours.

In accordance with Executive Order 12044, the economic effects of this proposal have been carefully analyzed, and it has been determined that the proposed rulemaking does not involve major economic consequences as defined by that order. A copy of the regulatory analysis assessment supporting this determination is on file with the Hearing Clerk, Food and Drug Administration.

Dated: September 11, 1973.

LESTER M. CRAWFORD,
Director, Bureau of Veterinary Medicine.

[Docket No. 77N-0333]

HEARING AIDS

Oral Hearing on Proposed Regulation on State Applications for Exemption From Preemption of State and Local Requirements

AGENCY: Food and Drug Administration.

ACTION: Notice of hearing.

SUMMARY: This is an announcement that a public hearing will be held on the proposed rule on State applications for exemptions from preemption of State and local requirements governing the labeling and conditions of sale of hearing aids. In preparing a final regulation, the Commissioner will consider the administrative record of the hearing, along with all comments and other information received.

DATES: Written notices of appearance should be filed by October 10, 1978. The hearing will be held on October 31, 1978, and, if necessary, will continue on November 1, 1978.

ADDRESSES: Written notices of appearance (identified with the docket number found in brackets in the heading of this document) should be sent to the Hearing Clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857. The hearing will be held from 9 a.m. to 5 p.m. in Room 727-A, Department of Health, Education, and Welfare, Hubert H. Humphrey Building, 200 Independence Avenue SW., Washington, D.C. 20201.

FOR FURTHER INFORMATION CONTACT:

Joseph M. Sheehan, Bureau of Medical Devices (HFK-70), Food and Drug Administration, Department of Health, Education, and Welfare, 8757 Georgia Avenue, Silver Spring, Md. 20910, 301-427-7114.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of July 28, 1978 (43 FR 33180), the Commissioner of Food and Drugs published a proposed regulation responding to 19 applications requesting an exemption from federal preemption for certain State and local laws and regulations pertaining to hearing aids, allowing 60 days for comment. To enable expeditious review of any request for an oral hearing, the Commissioner had limited the period for requesting an oral hearing to the first 30 days of the comment period.

In the same issue of the FEDERAL REGISTER, the Commissioner announced an opportunity for interested persons to request an oral hearing on the proposed rule. The announcement explained that interested persons could request an oral hearing on or before August 28, 1978. The Commissioner has received several requests for an oral hearing.

Accordingly, the Food and Drug Administration announces that an oral hearing regarding State and local government applications for exemption from preemption of their laws and regulations governing the labeling and conditions for sale of hearing aids will be held on October 31, 1978, and if necessary to accommodate all those who request to make a presentation, November 1, 1978, from 9 a.m. to 5 p.m. in Room 727-A, Department of Health, Education, and Welfare, Hubert H. Humphrey Building, 200 Independence Avenue SW., Washington, D.C. 20201. The oral hearing will be chaired by David M. Link, Director, Bureau of Medical Devices, Food and Drug Administration.

After reviewing the comments and the notices, the Commissioner will schedule each appearance and notify each person of the time, date, and place of the hearing and the time allotted for each appearance. The procedures to govern the hearing are those applicable to a public hearing before the Commissioner under Part 15 (21 CFR Part 15).

Interested persons who wish to participate may, on or before October 10, 1978, submit a notice of appearance with the Hearing Clerk, Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857. All notices submitted should be identified with the hearing clerk docket number found in brackets in the heading of this notice and should contain the name, address, telephone number, and any business affiliation of the person desiring to make a presentation, a brief summary of the presentation, and the appropriate time requested for the presentation.

Groups having similar interests are requested to consolidate their comments and present them through a single representative. The Commissioner may require joint presentations by persons with common interests. The Commissioner will allocate the time available for the hearing among the persons who properly file a notice of appearance.

The administrative record of the proposed regulation will be open for 30 days after the hearing to allow comment on matters raised at the hearing.

The notice is issued under the Federal Food, Drug, and Cosmetic Act (sec. 521, 90 Stat. 574 (21 U.S.C. 360k)) and under authority delegated to the Commissioner (21 CFR 5.1).

Dated: September 18, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for regulatory Affairs.

Federal Insurance Administration

[24 CFR Part 1917]

[Docket No. FI-4536]

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Town of Pierce, Weld County, Colo.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the town of Pierce, Weld County, Colo. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City Hall, 240 Main Street, Pierce, Colo. Send comments to: Honorable Benjamin P. Gallatin, Mayor, Town of Pierce, Box 57, Pierce, Colo.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Pierce, Colo., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program reg-

ulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Spring Creek.....	Main St., 100 ft upstream of centerline.	5,033
	Corporate limit, 60 ft downstream of centerline of Rowe Ave.	5,040
Spring Creek overflow.	Weld County Rd. 88, 100 ft upstream of centerline.	5,017
	Main St., 100 ft upstream of centerline.	5,037
	Rowe Ave., 150 ft downstream of centerline.	5,044

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: September 13, 1978.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Cape Coral, Lee County, Florida.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Cape Coral, Lee County, Fla. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at city hall, 815 Nicholas Parkway, Cape Coral, Fla. Send comments to: Honorable Lyman Moore, Mayor, City of Cape Coral, P.O. Box 900, Cape Coral, Fla. 33904.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Cape Coral, Fla., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Gulf of Mexico.....	Intersection of Pine Island Rd. and Santa Barbara Blvd.	11
	Intersection of Chiquita Blvd. and Miracle Parkway.	10
	Intersection of Country Club Blvd. and Retunda Parkway.	11
	Intersection of Pelican Blvd. and Gleason Parkway.	10
	Intersection of Tropicana Parkway and Northwest 36th Ave.	10
	Intersection of Diplomat Parkway and Chiquita Blvd.	11
	Intersection of Pine Island Rd. and Nicholas Parkway.	11
	Intersection of Hancock Bridge Parkway and Del Prado Parkway.	11
	Intersection of West Cape Coral Parkway and South Chiquita Blvd.	10
	Junction of Sands Blvd. and West El Dorado Parkway.	11
	Intersection of Cape Coral Parkway and Coronado Parkway.	11

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: September 8, 1978.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for Bannock County, Idaho

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in Bannock County, Idaho. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Bannock County Courthouse, Pocatello, Idaho. Send comments to: Mr. Wayne Hall, Chairman, Bannock County Commissioners, Bannock County Courthouse, Pocatello, Idaho 83201.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for Bannock County, Idaho, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Portneuf River	Cheyenne Street—100 ft*.	4,465
	Confluence with Mink Creek.	4,485
	Fort Hall Mine Rd.—100 ft*.	4,492
	Union Pacific RR. (downstream crossing)—50 ft*.	4,516
	I-15—centerline	4,530
	Confluence with Robbers Roost Creek.	4,646
	U.S. Highway 91—centerline.	4,720
	North St.—centerline	4,762
	Confluence with Dempsey Creek.	4,959
	U.S Highway 30 (upstream crossing)—centerline.	5,085
Pocatello Creek	Corporate Limits—downstream.	4,685
	Confluence with North Fork Pocatello Creek.	4,865
North Fork Pocatello Creek.	South Fork Pocatello Creek Rd.—30 ft*.	4,870
Gibson Jack Creek	Bannock Highway—access road—centerline.	4,541
Mink Creek	Bannock Highway—10 ft*.	4,523
Fort Hall Mine Creek.	Private road—centerline	4,640
Rapid Creek	Jackson Creek Rd.—centerline.	4,626
	Confluence with Shaw Creek.	4,718
	Rapid Creek Rd.—75 ft*.	4,920
	Confluence with North Fork Rapid Creek.	5,061
North Fork Rapid Creek.	Hoot Owl Rd.—25 ft*	5,064
	Rapid Creek Road (downstream crossing)—50 ft*.	5,178
	Rapid Creek Rd. (upstream crossing)—50 ft*.	5,386
West Fork Rapid Creek.	Confluence with North Fork Rapid Creek.	5,061
	Private road (upstream crossing)—10 ft*.	5,354
Marsh Creek	Confluence with Portneuf River.	4,527
	Confluence with Walker Creek.	4,563
	Merrell Rd.—25 ft*	4,598
	Goodenough Rd.—100 ft downstream of centerline.	4,613
	Goodenough Rd. 25 ft*	4,621
	Robin Rd.—centerline	4,622
Walker Creek	Marsh Creek Rd.—20 ft*	4,614
Bell Marsh Creek	Marsh Creek Rd.—20 ft*	4,628
Unnamed tributary to Marsh Creek.	Marsh Creek Rd.—10 ft*	4,675
Dry Canyon Creek	Marsh Creek Rd.—40 ft*	4,729
Goodenough Creek.	Confluence with Rowe Creek.	4,699

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Lava Hot Springs, Bannock County, Idaho

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Lava Hot Springs, Bannock County, Idaho. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City Hall, Lava Hot Springs, Idaho. Send comments to: Honorable Mark Campbell, Mayor, City of Lava Hot Springs, P.O. Box 187, Lava Hot Springs, Idaho 83246.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line, (800) 424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Lava Hot Springs, Idaho, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation, feet, national geodetic vertical datum
Portneuf River	Center St. 75 ft*	4994
	Main St.-30 ft*	5005
	U.S. Highway 30-centerline.	5085

*Upstream of centerline.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Village of Willow Springs, Cook County, Ill.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the village of Willow Springs, Cook County, Ill. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the Willow Springs Village Hall, 8480 Archer Avenue, Willow Springs, Ill. 60480. Send comments to: Honorable Richard J. Dombrowski, Mayor of Willow Springs, 8480 Archer Avenue, Willow Springs, Ill. 60480.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the village of Willow Springs, Cook County, Ill. in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Des Plaines river...	Downstream corporate limits at Will County and village of Willow Springs.	596
	Willow Springs Rd	597
	Tri-State Tollway.....	597
	U.S. Routes 12, 20, 45	598
	Upstream corporate limits at Willow Springs and Hodgkins.	598
Flag Creek.....	Downstream corporate limit at Cook County and Willow Springs.	610
	German Church Rd.....	618
	Corporate limit 650 ft upstream of German Church Rd.	619
	Corporate limit 1,050 ft upstream of German Church Rd.	620
	Corporate limit 1,200 ft upstream of German Church Rd.	621
Tributary to Illinois and Michigan Canal.	Confluence with Illinois and Michigan Canal.	584
	Illinois Central Gulf RR	587
	Archer Ave.....	615

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
	Upstream corporate limits of Willow Springs and Cook County.	620

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Goshen, Elkhart County, Ind.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Goshen, Elkhart County, Ind. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the Goshen City Hall, 11 East Jefferson, Goshen, Ind. 46526. Send comments to: Honorable Steven Chisak, Mayor of Goshen, 11 East Jefferson, Goshen, Ind. 46526.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Goshen, Elkhart County, Ind., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 2001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures re-

quired by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Elkhart River	Downstream corporate limits.	772
	Upstream confluence of Rock Run.	780
	Upstream Shawklin Park Bridge.	783
	Downstream Goshen Dam.	787
	Upstream Goshen Dam	796
	Upstream corporate limits.	798
Rock Run Creek	Upstream Wilden Ave	785
	Upstream 5th St	789
	Upstream Cottage Ave	793
	Upstream Monroe St	798
	Upstream corporate limits.	800

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: September 12, 1978.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

[Docket No. FI-4550]

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Parsons, Labette County, Kans.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Parsons, Labette County, Kans. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Engineer's Office, Municipal Building, Parsons, Kans. Send comments to: Mr. Dick Williams, City Manager, City of Parsons, Municipal Building, Parsons, Kans. 67357.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Parsons, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Labette Creek	0.5 mi downstream of Southern Ave.	867
	Just downstream of St. Louis-San Francisco Ry.	869
	Just downstream of Marvel Park Rd.	872
	Just upstream of Main St.	873
	Just upstream of 10th St.	876
	Just upstream of 16th St.	880
	Just upstream of 21st St..	887
Railroad Drain	Just upstream of confluence with Labette Creek.	880
	Just upstream of Lincoln St.	881
	Just upstream of 21st St..	882
	Just upstream of 22d St.	885
	500 ft upstream of 22d St.	889
Oakwood Creek	Just upstream of confluence with Labette Creek.	871
	Just upstream of Leawood Rd.	874
	Just upstream of Main St.	892
	Just upstream of county road.	893
Little Labette Creek.	Just upstream of Missouri-Kansas-Texas RR.	868
	Just upstream of 16th St.	872
	Just downstream of Missouri-Kansas-Texas RR.	874
	Just upstream of 21st St..	878
	Just upstream of 32d St.	879
	Just downstream of southwest corporate limits.	881
37th St. drain	West corporate limit	886
	Just upstream of Main St.	889
Glenwood Creek	Just upstream of confluence with Little Labette Creek.	874
	Just upstream of Southern Ave.	877
	Just upstream of 24th St.	878

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: September 8, 1978.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Frostburg, Allegany County, Md.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the city of Frostburg, Allegany County, Md. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Frostburg Municipal Building, 37 Broadway Street, Frostburg, Md. 21532. Send comments to: Honorable David M. Linn, Mayor of Frostburg, Frostburg Municipal Building, 37 Broadway Street, Frostburg, Md. 21532.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the city of Frostburg, Allegany County, Md., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
George's Creek	70 ft downstream of corporate limits.	1,884
	Downstream of Grant St.	1,886
	Green St.	1,890
	Upstream corporate limits.	1,896
	600 ft upstream of corporate limits.	1,900

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Town of Loch Lynn Heights, Garrett County, Md.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the town of Loch Lynn Heights, Garrett County, Md. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Loch Lynn Heights Town Hall, Loch Lynn Heights, Md. Send comments to: Honorable Charles H. Tressler, Mayor of Loch Lynn Heights, 1610 Route 135, Mountain Lake Park, Md. 21550.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Loch Lynn Heights, Garrett County, Md., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Little Youghiogheny River.	Upstream corporate limits.	2,392
	Downstream corporate limits.	2,391

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Town of Luke, Allegany County, Md.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the town of Luke, Allegany County, Md. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Council Chambers, Luke City Hall, Luke, Md. 21540. Send comments to: Hon. James T. Warnick, Mayor of Luke, Grant Street, Box 7, Luke, Md. 21540.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the town of Luke, Allegany County, Md., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
North Branch Potomac River.	Downstream corporate limits.	930
	.....	
	(Old) Cromwell St.....	
	931.....	
	West Vaco conveyor.....	946
	West Maryland railroad sliding.	952
	West Vaco Dam	953
	Upstream corporate limits.	969

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

POLYCHLORINATED BIPHENYLS (PCB'S)

Manufacturing, Processing, Distribution in Commerce, and Use Bans

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule; extension of reply comment period.

SUMMARY: As a result of granting two requests for cross-examination of a participant in the informal hearing to be held on September 26, 1978 on the PCB ban rule, EPA is extending the period for reply comments.

DATE: Reply comments due on October 10, 1978.

ADDRESS: Send reply comments to: Office of Toxic Substances (TS-794), Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460, Attention: Joni T. Repasch.

FOR FURTHER INFORMATION CONTACT:

Peter P. Principe, Office of Toxic Substances (TS-794), Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460, telephone 202-755-0920.

SUPPLEMENTARY INFORMATION: EPA has granted two requests for cross-examination of a participant in the informal hearing on the proposed PCB ban rule (43 FR 24802). These requests were made by the Edison Electric Institute and the Electronic Industries Association. Both organizations requested permission to cross-examine Versar, Inc., which produced the report "Microeconomic Impacts of the Proposed 'PCB Ban Regulations'" under contract to EPA. The cross-examination will be held on September 26, 1978, beginning at 1 p.m. in room 3906, at EPA Headquarters, 401 M Street SW., Washington, D.C.

As a result of these requests for cross-examination and pursuant to section 750.4(b) of the procedures for rulemaking under section 6 of the Toxic Substances Control Act (42 FR 61259, Dec. 2, 1977), reply comments will now be due October 10, 1978, 2 weeks after the completion of cross-examination. Any person, including those who may already have filed reply comments, may submit reply comments, or further reply comments, by October 10, 1978.

Dated: September 18, 1978.

JOHN P. DEKANY,
Acting Assistant Administrator for Toxic Substances.

GENERAL SERVICES ADMINISTRATION

[41 CFR Part 105-64]

REGULATIONS IMPLEMENTING THE PRIVACY ACT OF 1974

Exemption of Records System

AGENCY: General Services Administration.

ACTION: Proposed rule.

SUMMARY: The General Services Administration proposes to amend 41 CFR Part 105-64 to exempt criminal investigation case files in the system of records GSA/ADM-24, Investigation and Personnel Security Case Files, from the provisions of the Privacy Act with certain exceptions, and to make other editorial changes. These changes are necessary to maintain the efficiency and integrity of investigations conducted by GSA.

DATE: Comments must be received by October 23, 1978.

ADDRESSES: Address comments to: General Services Administration (LR), Washington, D.C. 20405. Copies of all written comments received will be available for examination by interested persons in room 3101 of the GS building, 18th and F Streets NW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Ms. Rebecca Thompson, Administration and Records Division, Office of General Counsel, 202-566-1460.

SUPPLEMENTARY INFORMATION: In the 1977 annual publication of systems of records GSA/ADM-24, Investigation and Personnel Security Case Files, was revised to cover the complete civil, criminal, and administrative actions being performed by the Office of Investigations. Some of these activities were previously performed by the Federal Protective Service and were included as part of the system of records GSA/PBS-3, Incident Reporting System. A general exemption for criminal investigation case files in the system of records GSA/PBS-3 was contained in 41 CFR 105-64.601. The system of records notice for GSA/PBS-3 also cited the general exemption when the system of records GSA/ADM-24 was revised to cover these criminal investigation case files, a corresponding revision to 41 CFR 105-64.601 inadvertantly was not made. This proposed amendment will correct the omission. In addition to the proposed correction to § 105-64.601, GSA proposes to amend the following sections:

a. In the second sentence of § 105-64.302-3, "any other requester" will be changed to "any requester" to clarify the intent of waiving the fee requirement.

b. Sections 105-64.501 and 105-64.502 will be revised to delete the requirement for submission of GSA Form 3284, System of Records Covered by the Privacy Act of 1974, because this form is obsolete.

c. Subsection 105-64.602-2 will be deleted. This subsection pertains to specific exemptions for the system of records GSA/OAD-20, Test Material. This system of records is being deleted from the GSA systems of records notices because the system of records is covered by and duplicative of a U.S. Civil Service Commission system of records.

It is proposed to amend Part 105-64 as follows:

PART 105-64—REGULATION IMPLEMENTING THE PRIVACY ACT OF 1974

The table of contents for Part 105-64 is amended by deleting two entries as follows:

Sec.
105-64.602-1 [Deleted.]
105-64.602-2 [Deleted.]

Subpart 105-64.3—Individual Access to Records

Section 105-64.302-3 is revised to read as follows:

§ 105-64.302-3 Waiver of fee.

The system manager shall make one copy of a record, up to 50 pages, available without charge to a requester who is an employee of GSA. The system manager may waive the fee requirement for any requester if the cost of collecting the fee is an unduly large part of, or greater than, the fee, or when furnishing the record without charge conforms to generally established business custom or is in the public interest.

Subpart 105-64.5—Report on New Systems and Alter of Existing Systems

1. Section 105-64.501 is revised to read as follows:

§ 105-64.501 Reporting requirement.

(a) No later than 90 calendar days prior to the establishment of a new system of records, the prospective system manager shall notify the Controller-Director of Administration of the proposed new system. The prospective system manager shall include with the notification a complete description and a justification for each system of records that the system manager proposes to establish. If the Controller-Director of Administration determines that the establishment of the proposed system is in the best interest of the Government, the Controller-Director of Administration will submit, no later than 60 calendar days prior to the establishment of that system of records, a report of the proposal to the President of the Senate, the Speaker of the House of Representatives, and the Director of the Office of Management and Budget for their evaluation of the probable or potential effect of that proposal on the privacy and other personal or property rights of individuals.

(b) No later than 90 calendar days prior to the alteration of a system of records, the system manager responsible for the maintenance of that system of records shall notify the Controller-Director of Administration of

the proposed alteration. The system manager shall include with the notification a complete description and a justification for each system of records that the system manager proposes to alter. If the Controller-Director of Management and Budget determines that the proposed alteration is in the best interest of the Government, the Controller-Director of Administration shall submit, no later than 60 calendar days prior to the establishment of that alteration, a report of the proposal to the President of the Senate, the Speaker of the House of Representatives, and the Director of the Office of Management and Budget for their evaluation of the probable or potential effect of that proposal on that privacy and other personal or property rights of individuals.

(c) The reports required by this regulation are exempt from reports control.

2. Section 105-64.502 is revised to read as follows:

§ 105-64.502 Federal Register notice of establishment of new system or alteration of existing system.

The Controller-Director of Administration shall publish in the FEDERAL REGISTER a notice of the proposed establishment or alteration of a system of records when:

(a) The Controller-Director of Administration receives notice that the Senate, the House or Representatives, and the Office of Management and Budget do not object to the establishment of a new system of records or to the alteration of an existing system of records, or

(b) No fewer than 30 calendar days elapse from the date of submission of the proposal to the Senate, the House of Representatives, and the Office of Management and Budget without receipt by the Controller-Director of Administration of an objection to the proposal.

Subpart 105-64.6—Exemptions

1. Section 105-64.601 is revised to read as follows:

§ 105-64.601 General exemptions.

The following systems of records shall be exempt from all provisions of the Privacy Act of 1974 with the exception of subsections (b); (c) (1) and (2); (e)(4) (A) through (F); (e) (6), (7), (9), (10), and (11); and (i) of the act:

(a) Incident Reporting System GSA/PBS-3.

(b) Investigation and Personnel Security Case Files GSA/ADM-24.

The system of records GSA/PBS-3 and the criminal investigation case files of the system of records GSA/ADM-24 are exempt to the extent that information in the system pertains to the enforcement of criminal laws, including police efforts to prevent, control, or reduce crime or to apprehend criminals; to the activities of prosecutors, courts, and correctional, probation, pardon, or parole authorities; and to (1) information compiled for the purpose of identifying individual criminal offenders and alleged offenders and consisting only of identifying data and notations of arrests, the nature and disposition of criminal charges, sentencing, confinement, release, and parole and probation status; (2) information compiled for the purpose of a criminal investigation, including reports of informants and investigators, that is associated with an identifiable individual; or (3) reports identifiable to an individual compiled at any stage of the process of enforcement of the criminal laws, from arrest or indictment through release from supervision. These systems are exempted to maintain the efficacy and integrity of the Federal Protective Service and the GSA Office of Investigations law enforcement function.

2. Section 105-64/602-1 is deleted and made part of § 105-64.602. As revised, § 105-64.602 reads as follows:

§ 105-64.602 Specific exemptions.

The following systems of records shall be exempt from subsections (c)(3); (d); (e)(1); (e)(4) (G), (H), and (I); and (f) of the Privacy Act of 1974:

(a) Incident Reporting System GSA/PBS-3.

(b) Investigation and Personnel Security Case Files GSA/ADM-24.

The systems are exempt (1) to the extent that the systems consist of investigatory material compiled for law enforcement purposes; however, if any individual is denied any right, privilege, or benefit to which the individual would otherwise be eligible, as a result of the maintenance of such material, such material shall be provided to such individual, except to the extent that the disclosure of such material would reveal the identity of a source who furnish information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to the effective date of this section, under an implied promise that the identity of the source would be held in confidence and (2) to the extent the systems consist of investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment, military service, Federal contracts, or access to classified information, but only to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to the effective date of this section, under an implied promise that the identity of the source would be held in confidence. The systems have been exempted to maintain the efficacy and integrity of lawful investigations conducted pursuant to the GSA Federal Productive Service and Office of Investigations law enforcement responsibilities and responsibilities in the areas of Federal employment, Government contracts, and access to security classified information.

§ 105-64.602-1 [Deleted]

§ 105-64.602-2 [Deleted]

3. Sections 105-64.602-1 and 105-64.602-1 are deleted.

(Sec. 205(c), 63 Stat. 390, 40 U.S.C. 486(c); 88 Stat. 1897; 5 U.S.C. 552a.)

Dated: September 6, 1978.

ALLIE B. LATIMER,
General Counsel.

CIVIL AERONAUTICS BOARD

[Docket 33237]

CALIFORNIA-ARIZONA LOW FARE ROUTE PROCEEDING

Postponement of Prehearing Conference

Notice is hereby given that the prehearing conference in the above-entitled proceeding previously noticed to be held on October 31, 1978 (43 FR 41419, September 18, 1978) is postponed to November 7, 1978. The only change is in the date of the prehearing conference which will be held at 10 a.m. in Room 1003, Hearing Room A, Universal North Building, 1875 Connecticut Avenue NW., Washington, D.C.

Parties and interested persons are directed to the previous notice for detailed procedural information.

Dated at Washington, D.C., September 18, 1978.

FRANK M. WHITING,
Administrative Law Judge.

COMMISSION ON CIVIL RIGHTS

ILLINOIS ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Illinois Advisory Committee (SAC) of the Commission will convene at 10 a.m. on October 16, 1978, 230 South Dearborn Street, Room 3280, Chicago, Ill. 60604.

Persons wishing to attend this open meeting should contact the Committee chairperson, or the midwestern regional office of the Commission, 230 South Dearborn Street, 32nd Floor, Chicago, Ill. 60604.

The purpose of this meeting is to report on the Decatur education workshop; discussion and nominations for new membership; discussion and preplanning for the employment status of minority women in the Federal Government proposed project; and update on the Chicago school desegregation plan.

This meeting will be conducted pursuant to the provisions of the rules and regulations of the Commission.

Dated at Washington, D.C., September 19, 1978.

JOHN I. BINKLEY,
Advisory Committee Management Officer.

CIVIL SERVICE COMMISSION

ESTABLISHMENT OF NEW REQUIREMENTS FOR PROMOTION AND INTERNAL PLACEMENT

Comments Solicited

AGENCY: Civil Service Commission.

SUMMARY: Notice is given that the Civil Service Commission is soliciting

comments from interested parties on the revised text of a new Federal Personnel Manual Chapter 335: Promotion and Internal Placement. The new chapter is designed to reduce Commission requirements to the minimum needed to assure fair and systematic consideration for promotion, while broadening agency flexibility to develop and negotiate their own procedures where governmentwide uniformity is not essential.

BACKGROUND: Since 1973 agencies have had the option of operating their promotion programs under 10 basic requirements in subchapter 2 of the present chapter or under the more detailed instructions in the chapter as a whole. In the new chapter, outlined below, agencies will be subject to a single set of five requirements, and extensive guidance now contained in four existing subchapters will be dropped. The five requirements are modeled after the five requirements recommended by the personnel management project task force.

Aside from the five requirements, the chapter will contain an introductory section on the objectives of the program and its coverage, a special supplement on evaluation procedures which references the recently issued Uniform Guidelines on Employee Selection Procedures, and an appendix listing generally regulatory provisions.

DATE: Comments must be received by October 23, 1978. (Executive Order 12044 of March 23, 1978, requires that the public be allowed 60 days in which to comment on FEDERAL REGISTER notices involving proposed and final rulemaking. Since this notice involves neither of these, the 60-day period does not apply.)

ADDRESS: Submit comments to: Office of Staffing Policies, Room 6525, Bureau of Recruiting and Examining, United States Civil Service Commission, 1900 E Street NW., Washington, D.C. 20415.

FOR FURTHER INFORMATION CONTACT:

Morton I. Horvitz, 202-632-6817.

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

FEDERAL PERSONNEL MANUAL

Chapter 335

PROMOTION AND INTERNAL PLACEMENT

This chapter covers subjects relating to the assignment of an employee within the same agency, particularly selection for such assignment. The instructions in this chapter are augmented by Appendix A, General Regulatory Provisions and Corrective Action Procedures, and FPM Supplement 335-1, Evaluation of Employees for Promotion, together with two appendices to this Supplement.

CONTENTS

SUBCHAPTER 1. GENERAL PROVISIONS

1-1. Introduction.
1-2. Definitions.
1-3. Goals of a merit promotion program.
1-4. Merit promotion requirements.
1-5. Merit promotion plans.
1-6. Covered and excepted personnel actions.
1-7. Grievances.

1-1. INTRODUCTION

Section 335.103 of part 335 of the Commission's regulations requires each agency to adopt and administer a "program designed to insure systematic means of selection for promotion according to merit." The Federal merit promotion policy outlined in this chapter provides the means for insuring that agencies meet this requirement.

This chapter contains basic requirements for developing and administering a merit promotion program. It is designed to allow management the flexibility to negotiate with labor organizations under the provisions of the Federal labor-management program, and to enable agencies to devise and operate staffing procedures that are responsive to their needs.

1-2. DEFINITIONS

A. A position change is a promotion, demotion, or reassignment made during an employee's continuous service within the same agency. A position change by any of these methods may also involve a change of official headquarters or post of duty within the agency. (General regulatory provisions are contained in app. A.)

B. A promotion is the change of an employee to a position at a higher grade level within the same job classification system and pay schedule or to a position with a higher rate of basic pay in a different job classification system and pay schedule.

C. Demotion is the change of an employee to a lower grade when both the old and the new positions are under the general schedule, or under the same type graded wage schedule, or to a position with a lower rate of pay when both the old and new positions are under the same type ungraded wage schedule or in different pay-method categories.

D. Reassignment is the change of an employee from one position to another, without promotion or demotion.

E. The area of consideration is the area in which the agency makes an intensive search for eligible candidates in a specific promotion action. The minimum area of consideration is the area designated by the promotion plan in which the agency should reasonably expect to locate enough highly qualified candidates to fill vacancies in the position covered by the plan. (When the minimum area of consideration produces enough highly qualified candidates and the agency therefore does not make an intensive search in a broader area, the minimum area of consideration and the area of consideration are the same.)

F. Qualified candidates are those who meet or exceed the Commission's qualification standard for the position, with proper consideration for a given plan's procedural requirements.

(2) Best qualified candidates are measured against other candidates. They are qualified candidates who rank at the top when compared with other eligible candidates for a position. A reasonable number of the best qualified candidates are referred for selection.

(3) Selective factors are knowledge, skills, or abilities that are essential for satisfactory performance on the job and represent an addition to the basic standard for a position. The following are examples of appropriate selective factors for determining eligibility when the factors are essential for successful job performance.

(a) Ability to speak, read, and/or write a language other than English.

(b) Knowledge and abilities pertaining to a certain program or mission, when these cannot readily be acquired after promotion.

(c) Ability in a functional area (for example, ability to evaluate alternative ADP systems).

1-3. GOALS OF A MERIT PROMOTION PROGRAM

Agency programs must be developed with following goals in mind:

a. To provide a method by which agencies may meet their internal staffing needs.

b. To enhance organizational effectiveness by assuring that internal competitive actions are made by selection from among the available candidates who are most capable of performing the duties of the positions to be filled.

c. To give employees an opportunity to receive fair and appropriate consideration for advancement and developmental opportunities.

d. To provide incentive for employees to improve their performance and develop their knowledge, skills, and abilities.

e. To provide a proper balance between maximum utilization of an agency's employees and the infusion of new talent.

f. To assure that promotions are made only when there is an actual need for performance of higher level duties and only when an employee has the ability to perform at a higher level.

g. To foster employee understanding of and confidence in the agency's employee utilization policies.

1-4. MERIT PROMOTION REQUIREMENTS

REQUIREMENT 1

Each agency will establish procedures for promoting employees which are based on merit and are available in writing to candidates. Agencies must list appropriate exceptions, including those required by law or regulation (see 1-6).

REQUIREMENT 2

The scope and nature of competition will include areas of consideration sufficiently broad to insure the availability of high quality candidates. The area of consideration must take into account the nature and level of the positions covered. Agencies must also insure that employees absent on detail, on leave at training courses, in the military service, for service in public international organizations or on Intergovernmental Personnel Act Assignments receive appropriate consideration for promotion.

REQUIREMENT 3

To be eligible for promotion or placement, candidates must meet the minimum qualification standards prescribed by the Commission. Methods of evaluation for promotion and placement, and selection for training which leads to promotion, must be consistent with instructions in FPM supplement 335-1. Due weight shall be given to performance appraisals and incentive awards.

REQUIREMENT 4

Selection methods will provide for management's right to select or not select from among a group of best qualified candidates. They will also provide for management's right to select from other appropriate sources, such as reemployment priority lists, reinstatement or transfer eligibles, eligibles for handicapped or veterans readjustment appointments or those within reach on an appropriate Commission certificate. In deciding which source to use; agencies have an obligation to determine which is most likely to best meet the agency mission objectives, contribute fresh ideas and new viewpoints and meet the agency's affirmative action goals.

REQUIREMENT 5

Administration of the promotion system will include recordkeeping and the provision of necessary information to employees and the public, insuring that individuals' rights to privacy are protected. Each agency must maintain a temporary record of each promotion sufficient to allow reconstruction of the promotion action, including documentation on how candidates were rated and ranked. These records may be destroyed after 1 year or after the program has been formally evaluated by the Commission (whichever comes first) if the time limit for grievance has lapsed before the anniversary date.

1-5 MERIT PROMOTION PLANS

a. Responsibility for promotion plans. The agency headquarters is responsible for insuring that:

(1) There is a merit promotion plan covering all positions to which promotion is made;

(2) The agency's merit promotion plans operate compatibly with each other; and

(3) The Commission's requirements are met.

b. Coverage of merit promotion plans. (1) A merit promotion plan establishes the procedures and practices for filling specified types of positions. The number of plans will be determined by such factors as position groupings and location.

(2) A plan must be appropriate for all the positions covered. It may be necessary, for example, to develop a specific plan for coverage of positions at GS-16, GS-17, and GS-18, under the Executive Assignment System (ch. 305 and FPM supp. 305-1).

1-6 COVERED PERSONNEL ACTIONS

The competitive procedures of the plans developed under the merit promotion program of an agency apply to all promotions made under § 335.102 of the civil service regulations and to the following actions:

(1) Temporary promotions. Competitive inservice procedures must be used for temporary promotions over 120 days in higher graded positions (prior service under all details to higher graded positions or temporary promotions included whether competitive or noncompetitive during the preceding 12 months).

(i) Conditions for making temporary promotions:

(A) Temporary promotions must be for a definite period of 1 year or less, but may be extended for a definite period not to exceed 1 additional year (sec. 335.102(f)).

(B) The Commission may authorize a temporary promotion for a longer period than 2 years when it finds the needs of the service require it. Requests for prior approval must be sent to the Commission's Bureau of Recruiting and Examining.

(C) Adverse action procedures apply to the return of an employee to his or her regular position after a temporary promotion lasting more than 2 years (sec. 752.103(b)(5)).

(D) A temporary promotion may be made permanent without further competition provided the temporary promotion was originally made under competitive procedures and the fact that it might lead to a permanent promotion was made known to all potential candidates.

(E) A temporary promotion may not be used as a means of training or evaluating an employee in a higher grade position.

(2) Selections for details for more than 60 days to a higher grade position or to a position of known promotion potential (ch. 300, subch. 8).

(3) Selections for training which is given primarily to prepare employees for advancement and is required for promotion (that is, an employee is not eligible for promotion unless he or she has completed training).

(4) Reassignment or demotion to a position with more promotion potential than the position last held (except as permitted by reduction-in-force regulations).

(5) Transfers to a higher grade position.

(6) Reinstatement to a permanent or temporary position at a higher grade than the last grade held in a nontemporary position in the competitive service.

Competitive procedures do not apply to:

(1) A promotion resulting from the upgrading of a position without significant change in the duties and responsibilities due to issuance of a new classification standard or the correction of an initial classification error.

(2) A position change permitted by reduction-in-force regulations (see ch. 351).

Agencies may at their discretion except other actions from their plans. These include, but are not limited to:

(1) The two types of career promotions:

(i) Promotions without current competition when at an earlier stage an employee was selected from a civil service register or under competitive promotion procedures for an assignment intended to prepare the employee for the position being filled (the intent must be made a matter of record and career ladders must be documented in the promotion plan); or

(ii) Promotions resulting from an employee's position being reclassified at a higher grade because of additional duties and responsibilities.

(2) Career ladder promotions following noncompetitive conversion of cooperative education students in accordance with the requirements of FPM chapter 308.

(3) Position changes from a position having known promotion potential to a position having no higher potential.

(4) A temporary promotion of 120 days or less.

(5) Selection of candidates from Reemployment Priority Lists for positions at a higher grade than the one last held in the competitive service.

(6) Repromotion to a grade or position from which an employee was demoted without personal cause and not at his or her request.

(7) Consideration of candidates not given proper consideration in a competitive promotion action.

1-7 GRIEVANCES

Employees have the right to file a complaint relating to a promotion action. Such complaints shall be resolved under agency grievance procedures or negotiated grievance procedures as appropriate except when a complaint is covered by a statutory appeals procedures such as the discrimination complaint process under part 713 of the Commission's regulations. The standards for adjudicating complaints are set forth in part 300 of the Commission's regulations. While the procedures used by an agency to identify and rank qualified candidates are proper subjects for formal complaints or grievances, nonselection from among a group of properly ranked and certified candidates is not an appropriate basis for a formal complaint or grievance. There is no right of appeal to the Commission, but the Commission may conduct investigations of substantial violations of Commission requirements.

APPENDIX A.—*Basic FPM Chapter 335* (GENERAL REGULATORY PROVISIONS)

A-1 *Authority to make position changes.*

a. Delegations of authority.

1. Career and career-conditional employees may be promoted, demoted, reassigned, or transferred.

2. Overseas limited employees serving under appointments of indefinite duration or under overseas limited term appointments may be promoted, demoted, or reassigned to any other position to which an initial appointment of the same type is authorized by chapter 301.

3. Indefinite and status quo employees may be promoted, demoted, or reassigned if they meet legal and qualification requirements. This authority does not apply to a position an agency is authorized to fill by overseas limited appointment.

V43/185/SE 22 78 V

4. Term employees may be promoted, demoted, or reassigned to another position covered by the same term appointment authorization.

5. An employee on TAPER (temporary appointment pending establishment of a register) may be reassigned to any position to which his or her original appointment could have been made by the same appointing officer from the same recruiting list under the same order of consideration.

6. VRA appointees may be promoted, demoted, reassigned, or transferred in accordance with provisions prescribed in FPM chapter 307.

b. Limitations on delegation of authority.

1. Merit requirements. Although position changes are not subject to the policies governing appointments from civil service registers or temporary appointments outside of registers, they must be made with regard to applicable requirements of the merit system. Except as shown under (2) of this section the employee selected must meet the Commission qualification standards as well as legal requirements for the position (see FPM chapter 338) and the action must meet the requirements in subchapter 2 and any additional procedural requirement set forth in the agency's merit promotion program.

2. Prior approval of exceptions from standards and requirements. The authority of agencies to make position changes is subject to the requirement that prior approval of the Commission be secured for any action which would require an exception from the applicable standards and requirements in chapter 338. (The procedures for securing such approval are in FPM supplement 296-31.)

3. Prior approval of changes to positions in grades GS-16, -17, and -18. Prior approval is required for the position change to a position subject to the executive assignment system (see chapter 305) and to any other position in grades GS-16, -17, or -18 (see FPM supplement 296-31).

a. General. The tenure of an employee is not changed by promotion, demotion, or assignment except that:

1. The tenure of a status quo employee is changed as provided in chapter 316.

2. The tenure of a career employee is temporarily affected by change to an obligated position as provided in chapter 300.

b. Condition "subject to investigation." A position change of an employee does not change a "subject to investigation" condition on his or her appointment.

c. Probationary period. The promotion, demotion, or reassignment of a career or career-conditional employee before he or she has completed probation is subject to completion of the probationary period in the new position. No new probation is required if one is completed before the action (see chapter 315-8).

A-3 *Implementing a position change.*

Effective date: The effective date of a position change generally is determined by the agency. A position change cannot be made effective, however, before:

a. The position has been classified, if under the General Schedule (see chapter 511) or if the position has been graded under the Coordinated Federal Wage System;

b. The employee has met legal and qualification requirements; and

c. Applicable advance-notice requirements have been met if the position change involves reduction in rank or pay (see FPM chapters 751 and 752).

A-4 *Corrective actions.*

a. General. (1) Alternative actions. Failure to adhere strictly to laws, Commission regulations and instructions, agency policies and guidelines, and agency promotion plans is to be rectified promptly by the Commission or the agency involved. Action to rectify violation may involve the employee who was erroneously promoted, the employee or employees who were not promoted or considered because of the violation, or the officials who caused or sanctioned the violation. It also may involve correction of program deficiencies. The nature and extent of actions to be taken in any case have to be determined on the basis of all the facts in the case, with due regard to the circumstances surrounding the violation, to the equitable and legal rights of the parties concerned, and to the interests of the Government. Generally, any or all of the actions described below in paragraphs b, c, and d that are appropriate should be taken.

(2) Types of promotion violations.

(a) Procedural. A procedural violation occurs when a promotion action does not conform to the requirements of the applicable promotion plan. It may include, for example:

(i) Failure to consider an employee entitled to consideration;

(ii) Selection of an employee not in the best qualified group; or

(iii) Failure to give the required weight to an evaluation factor prescribed by the plan.

(b) Regulatory. A regulatory violation occurs when the promoted employee did not meet legal requirements or Commission regulatory requirements at the time of promotion. It may include, for example:

(i) Failure to meet time-in-grade requirements; or

(ii) Failure to meet Commission qualification requirements.

(c) Program. A program violation occurs when agency promotion guidelines do not conform to Commission requirements or agency promotion plans do not conform to agency guidelines. It may include, for example:

(i) Use of inappropriate evaluation methods;

(ii) Establishment of inappropriate minimum areas of consideration; or

(iii) Failure to consult employees and employee organizations when required.

a. Action involving erroneously promoted employee.

(1) Retention in position.

(a) General. The general rule is that an erroneously promoted employee may be retained in the position only if the promotion action can be corrected to conform essentially to all Commission and agency requirements as of the date the action was taken. As indicated above, however, corrective action decisions must be tempered by all the facts surrounding the violation. Under some conditions, it may be permissible to retain the employee in the position even when the general rule does not apply.

(b) Procedural violation. In this kind of violation, an employee may be retained in the position only if—

(i) Reconstruction of the promotion action shows that he could have been selected had the proper procedures been followed at the time the action was taken; or

(ii) The Commission office (regional or central) with geographic jurisdiction gives approval.

(c) Regulatory violation. In this kind of violation, an employee may be retained in the position only if—

(i) He now meets the necessary qualification or regulatory requirements; and

(ii) The Commission office (regional or central) with geographic jurisdiction gives approval.

(d) Program violation. In this kind of violation, an employee generally may be retained in the position if there was no accompanying procedural or regulatory violation. The Commission is to be notified of what program correction is being made.

(2) Corrective action. If an employee is not retained in the position, he must be returned to his former position or placed in another position for which he is qualified. If the latter position is in a higher grade or level than the position he was in before he was erroneously promoted, the position change is made under competitive promotion procedures as though the employee were still serving at the grade or level from which erroneously promoted.

(3) Commission approval. Commission approval for retaining an employee in his position will be dependent on the nature, extent, and seriousness of the violations involved in the particular situation. It will take into account such factors as:

(i) How close the employee was to meeting qualification or regulatory requirements at the time of promotion if a regulatory violation is involved.

(ii) How close the employee was to being in the best qualified group if a procedural violation is involved.

(iii) How much time has elapsed since promotion.

(iv) Whether identification can be made of employees who were or should have been in the group certified to the selecting official and whether they have been promoted or have left the agency.

c. Action involving nonselected employees.

(1) If the action taken to correct the erroneous promotion was to require that the position be vacated, an empoloyee who was not promoted or given proper consideration because of the violation (that is, an employee in the best-qualified group who was not selected or an employee who should have been in this group but was not) may be considered for promotion to the vacated position before candidates under a new promotion or other placement action are considered.

(2) If the corrective action did not include vacating the position, an employee who was not promoted or given proper consideration because of the violation may be given under a new promotion or other placement action are considered. Agencies, in consultation with their unions, may make the final determination on how they will handle actions involving nonselected employees. In doing so, they should keep in mind the possible impact of their decision.

d. Action involving responsible officials. Violations of the promotion program can have a serious impact on personnel management that goes beyond the particular cases involved. Proper promotion actions are essential to assure that the agency is being staffed by the best persons available and employees are receiving fair consideration. Thus, management officials have a special responsibility for seeing that violations do not occur either by error or design. An official who permits a violation to occur shall be informed of the violation and told what he should do to avoid repetition. If insufficient guidance to the official contributed to the violation, the agency shall correct this deficiency.

FPM SUPPLEMENT 335-1—EVALUATION OF EMPLOYEES FOR PROMOTION AND INTERNAL PLACEMENT

Contents

SUBCHAPTER S1—INTRODUCTION

S1-1 Purpose.
S1-2 Applicability.

SUBCHAPTER S2—RESPONSIBILITY FOR PROPER USE OF EVALUATION PROCEDURES

S2-1 Agency responsibilities.
S2-2 Need for technical competence.

SUBCHAPTER S3—RESPONSIBILITY FOR APPROVAL OF EVALUATION PROCEDURES

S3-1 General.
S3-2 Civil Service Commission evaluation procedures approved for inservice use.
S3-3 Evaluation procedures requiring specific Civil Service Commission approval.
S3-4 Criteria for acceptability of evaluation procedures.
S3-5 Documentation of evaluation procedures.
S3-6 Requests for advice before conducting test research and development.

SUBCHAPTER S4—PRINCIPLES OF APPLICATION

S4-1 Basic principles.
S4-2 Additional principles.

SUBCHAPTER S5—ADMINISTRATION OF EVALUATION PROCEDURES

S5-1 Assembled examinations and other procedures requiring controlled administration.
S5-2 Recording and reporting results of evaluation procedures.

SUBCHAPTER S6—SAFEGUARDING EXAMINATION MATERIALS

S6-1 Basic principles.
S6-2 Identification of examination materials.

SUBCHAPTER S7—REVIEW OF THE PERSONNEL MEASUREMENT PROGRAM

S7-1 General.

SUBCHAPTER S1—INTRODUCTION

S1-1 *Purpose.* This supplement presents instructions for use of evaluation procedures in accordance with requirement 3, FPM chapter 335. The term "use" includes the development or selection, application, security and interpretation of results of evaluation procedures. The purpose of these instructions is to insure that evaluation procedures used for promotion and other placement actions covered by FPM chapter 335 are valid and job related to the extent feasible and appropriate in order that principles of merit and equal employment opportunity are carried out in practice and that the effectiveness of agencies and individuals is enhanced.

S1-2 *Applicability.* This supplement sets forth basic responsibilities and principles for the use and review of personnel evaluation procedures for promotion and inservice placement. It does not cover detailed instructions on such essential elements of personnel measurement as job analyses, validation studies, and documentation. Guidance on these technical matters is found in appendixes A and B and in many technical sources outside Commission issuances. Appendix A contains the Uniform Guidelines on Employee Selection Procedures. These guidelines are intended to assist agencies in meeting responsibilities under the Equal Employment Opportunity Act of 1972. They are appended to this supplement to provide a set of principles applicable to agencies to help assure that their evaluation procedures are job related. Implementation of these guidelines will be a continuous responsibility for agencies. It is important at the outset that agencies inventory their evaluation procedures, prioritize needs for revision and devise implementation plans which will provide reasonable assurance that all evaluation procedures are valid and job related to the extent feasible and appropriate. As agencies gain experience in operating under the guidelines, it is expected that continuing progress will be made in strengthening the validity of evaluation procedures.

SUBCHAPTER S2—RESPONSIBILITY FOR PROPER USE OF EVALUATION PROCEDURES

S2-1 *Agency responsibilities.* Each agency must designate one or more persons who will be responsible for implementing these instructions and assuring the proper use of personnel measurement procedures. The general functions include:

a. Development or selection of evaluation procedures: The responsibility for assuring that as new procedures are developed these instructions are met. Likewise, procedures already in use should be reviewed for compliance with these instructions within a reasonable period of time. If new procedures are developed or obtained which require prior Civil Service Commission approval, the agency must submit the required information and obtain approval before authorizing the procedure for actual use.

b. Application of evaluation procedures: The responsibility for assuring that each procedure is used only for the specific purpose for which it is approved, that an acceptable procedure is developed for determining the meaning of the outcome or results and that the results are applied properly in the evaluation process.

c. Administration of evaluation procedures: The responsibility for assuring that the proccdures are administered to employees under standard conditions which provide all employees full opportunity to perform to their best abilities.

d. Security of evaluation procedures: The responsibility for determining the degree of security appropriate to the kind of procedure involved and maintaining control of materials requiring security so that unauthorized persons do not gain access to them.

e. Review of the personnel measurement program: The responsibility for reviewing the program to assure that all phases are being conducted properly and the program is fulfilling its purpose. This includes a review of the effectiveness of specific evaluation procedures.

S2-2 *Need for technical competence.* Proper development, selection, application and evaluation of evaluation procedures require knowledge of and ability to apply job analysis, personnel measurement concepts, and statistical measurement techniques. Agency headquarters that do not have staff members who are knowledgeable in these areas must acquire this competence in order to do an effective job. The number of persons needed to accomplish the above functions and their distribution between headquarters and field activities depends upon the nature of the program and size of the agency.

SUBCHAPTER S3—RESPONSIBILITY FOR APPROVAL OF EVALUATION PROCEDURES

S3-1 *General.* a. Procedures must meet one of the following conditions before being used for inservice placement purposes.

(1) The agency determines that the procedure meets these instructions on how, when, and by whom evaluation procedures may be used.

(2) The procedure is required for inservice placement by the Civil Service Commission for the position.

(3) The procedure has been given prior approval by the Commission. (See S3-2 and S3-3 below.)

b. The above requirement also applies when the procedure is used as part of the process for selecting employees for training which is given primarily to prepare employees for advancement and is required for promotion. Training agreements covering situations like these are not properly applied unless the procedure meets one of the above conditions.

c. Each procedure used for inservice placement must meet the requirements for acceptability contained in S3-4 below.

d. Agencies may delegate authority to approve evaluation procedures in accordance with these instructions to activities having the capability and agreeing to meet the responsibilities described under section S2-1 above. However, such delegation will not relieve agencies of maintaining proper program control and review; and authority to submit requests for Commission approval of evaluation procedures will be reserved by agency headquarters.

S3-2 *Civil Service Commission evaluation procedures approved for inservice use.* Appendix B contains information on widely used Civil Service Commission evaluation procedures approved for inservice use. These procedures may be used by any agency but only as indicated. Requests to use Civil Service Commission procedures other than those included in appendix B, required by Civil Service Commission standards, or otherwise approved for agency use by the Commission, must be submitted by the agency in accordance with section S3-3 below.

S3-3 *Evaluation procedures requiring specific Civil Service Commission approval.* a. The following kinds of evaluation procedures require Civil Service Commission approval before being used for inservice placement purposes:

(1) Civil Service Commission procedures other than those approved in appendix B, required by Civil Service Commission standards, or otherwise approved for agency use.

(2) Procedures developed primarily for clinical diagnostic purposes and intended to measure personality, temperament, or attitudes. (See restrictions in FPM chapter 337.)

(3) Procedures developed primarily to measure a variety of interest patterns.

(4) Other procedures not developed specifically by or for the agency (e.g., commer-

V 43/185 SE 22 78

cial tests, military tests, and U.S. Employment Service tests).

b. Requests for approval will be accepted only from agency headquarters and should be addressed to the Personnel Research and Development Center, Bureau of Policies and Standards, U.S. Civil Service Commission. The supporting information to be submitted should meet the criteria covered in section S3-4 below and the documentation requirement discussed in section S3-5 below.

S3-4 *Criteria for acceptability of evaluation procedures.* The following are minimum requirements for the acceptability of an evaluation procedure:

a. Demonstration of content, construct, or criterion-related validity, or a combination of these, for the procedure according to professionally accepted standards to the extent feasible and appropriate. Appendix A contains acceptable guidelines for meeting this requirement. In circumstances where it is not appropriate to validate an evaluation procedure or not feasible, the procedure, nevertheless, must be job related. Where validation is appropriate, the Civil Service Commission will evaluate agency plans and evidence of effort and achievement in bringing selection procedures into compliance within a reasonable period of time.

b. Standard directions for administering the procedure.

c. Standard scoring or rating instructions which enhance or ensure objectivity and reliability of scoring or rating.

d. A method for interpreting and combining results of the various methods and instruments in a manner consistent with a. above.

e. A method for recording results of evaluation procedures so that the record is meaningful and usable in the future.

f. Provisions for reporting the results of evaluation procedures in meaningful terms to individual employees and operating officials.

g. Assurance that the procedure has not been compromised where disclosure would give an undue advantage to some candidates over others and provisions to maintain the level of security appropriate to each instrument or procedure. (Only rarely will a commercial test meet this requirement.)

S3-5 *Documentation of evaluation procedures.* a. The determination of the acceptability of each procedure approved by an agency or submitted for approval to the Commission must be documented. The information must be retained as long as the procedure is in use for inservice placement actions and for at least 2 years after the procedure has been discontinued.

b. Documentation of evaluation procedures must follow the guidance in appendix A section I5, to the extent feasible. Additionally the documentation must include a discussion of the extent to which security precautions are applicable for the procedure and, where appropriate, how they will be carried out.

S3-6 *Requests for advice before conducting test research and development.* If there is any question about whether an evaluation procedure for which research is planned will meet Civil Service Commission approval because of the nature of the procedure, technical capability of staff, or technical feasibility, the agency should contact the Commission's Personnel Research and Development Center before conducting the research. This will preclude a situation in which the agency expends considerable time and effort developing a procedure which ultimately is disapproved.

SUBCHAPTER S4—PRINCIPLES OF APPLICATION

S4-1 *Basic principles.* a. Agencies must not establish a cutting score (or numerical passing point) on any single instrument or procedure as the sole factor to determine basic eligibility for promotion, or to define best qualified unless the cutting score is:

(1) Required by approved qualification standard;

(2) Otherwise approved by the Commission; or

(3) Necessary for a selective factor determination.

b. Agencies must use multiple measures in ranking employees to determine the best qualified unless otherwise authorized by the Commission.

c. Use of length of experience or service or level of formal education may be used only to the extent to which it can be shown to be a valid, job-related factor for the position being filled. (This limitation does not rule out use of length of service as a tie breaker if after all appropriate evaluation factors measuring quality have been applied, there are identical ratings among candidates.)

S4-2 *Additional principles.* a. An evaluation procedure will be used only for the specific purposes for which it is authorized by the agency or the Commission.

(1) If a procedure is approved for an occupation, a level within an occupation, or a specific job, use of the procedure may not be extended to other occupations or levels, or jobs without determining that the procedure meets the criteria for acceptability (see 3-4 above) for these additional uses.

(2) Civil Service Commission procedures listed in appendix B may be used only for the purposes designated unless special permission is obtained from the Commission.

(3) Procedures for which prior Civil Service Commission approval is obtained (under section S3-3 above) may be used only for the purpose authorized unless a new approval is obtained from the Commission.

b. The evaluation procedure is not to be used again in the ranking process for the same employees at two (or more) different levels of the same occupation or career field unless it can be shown that

(1) The procedure measures an element important for success in the higher level,

(2) Makes meaningful distinctions among employees, and

(3) Measures skills, knowledge, abilities, or other characteristics which are likely to change significantly over time. If the procedure is used in the evaluation of employees to fill jobs at the first level, the range of scores from this procedure for the employees who are later considered for promotion to a higher level will in most cases be very restricted. As a result, the difference in scores of various employees probably do not reflect real differences in ability.

SUBCHAPTER S5—ADMINISTRATION OF EVALUATION PROCEDURES

S5-1 *Assembled examinations and other procedures requiring controlled administration.* Considerations of validity and fairness necessitate that some procedures be administered under highly controlled conditions usually with candidates assembled to complete the procedure, and that security of materials be maintained against compromise. These procedures usually entail a limited range of responses or answers which are clearly identified as right or scaled for degree of appropriateness in a highly standardized manner. For purposes of this chapter such procedures are termed tests. While all evaluation procedures may in a general sense be considered tests, use of the term in this more limited sense to apply to highly standardized procedures which must be administered under controlled conditions has the advantage of grouping these types of procedures under a common term for which common administrative requirements apply. This definition applies most closely to written tests measuring cognitive abilities, job knowledge or achievement; performance tests which directly sample skills needed on the job; and oral tests. Some evaluation procedures, such as individual or group interviews and assessment centers are on the borderline between this restricted definition of tests and other selection procedures. The applicability of provisions a. through e. below to some evaluation procedures is a judgment which must be made on the basis of characteristics of the procedure. It is not required that agencies necessarily identify what is or is not a test; what is important is that a degree of administrative control be maintained consistent with requirements for insuring fairness, validity, and security of the procedure:

a. Employees permitted to take tests. Tests may be administered only to employees for whom the agency has a need for a test score. Before an employee takes the test, agency test records must be checked to insure that he or she has not already taken it. If he or she has, but wishes to be retested, the appropriateness of the retest must first be established. Employees must not be allowed to practice on the actual tests used for selection or placement but this prohibition does not preclude the use of sample questions or general instructions on how to take tests.

b. Testing facilities. Adequate physical facilities should be provided including ample space, control of auditory and visual distractions, adequate lighting, ventilation, and temperature control, accurate timing devices, adequate writing surfaces and seating facilities, and similar environment controls to provide all employees the opportunity to perform well.

c. Administration procedures. Proper test administration procedures must be used, including maintaining a friendly atmosphere and putting examinees at ease, following prescribed directions for conducting the tests assuring that everyone understands the instructions and uses the answer sheet properly, providing sufficient materials, keeping control of test materials, preventing cheating, and assuring accurate timing. Generally, test booklets should not be reused. If test booklets are reused, each page must be inspected to insure that there are no marks of any kind on the page.

d. Employee requests for rescoring. If an employee questions his or her score on a test, the test scoring is rechecked and any scoring error corrected, but he or she must not be shown the test nor told the content of the correct or incorrect answers. If the items and answers are revealed, the value and fairness of the test are impaired for future use. The employee should be assured; however, of the accuracy of the scoring procedures.

e. Retesting. Each agency must establish retesting provisions, including duration of acceptability of scores, for each written test

used within the agency. Consideration should be given to the likelihood of change in test scores. Ability tests usually are relatively stable measures, whereas training, experience, etc., have more influence on achievement test performance.

(1) An employee may not take the same test (or an alternate form of the test) twice within 6 months, unless a determination is made that the initial results may not be accurate because of conditions beyond the employee's control such as faulty test administration, or unless the applicant presents convincing reasons why significant improvements in the knowledge, skill, or abilities measured by the test have occurred in a shorter period.

(2) If an alternate form of the test is not used, an employee normally may not be retested within 1 year.

(3) An employee normally may not take the same form of a test more than twice. (Agencies are expected to construct alternate forms for tests developed within the agency.)

(4) Whenever an employee is retested, the most recent score is considered his or her official score. (As an acceptable alternative, an agency may establish that it will use the employee's highest score within the past 3 years; under this procedure the agency must establish a policy for situations in which the official score becomes more than 3 years old.)

(5) A score obtained by an employee on a Civil Service Commission test must be accepted by any agency using the same test, unless the employee desires to be retested.

S5-2 Recording and reporting results of evaluation procedures. a. Results of scoring or rating must be recorded in a manner which will permit use at a later date. The record includes, at a minimum, identification of the procedure (and the form taken, if alternate forms are used), the date(s) of submission and scoring or rating, the score or rating obtained, and the meaning of the score or rating in terms of the method for interpreting the results.

b. Examination results must be transmitted to selecting officials in a way which will assist them in evaluating the relative knowledge, skills, and abilities of the employees and thereby enable them to use this information properly in making their selection decision. Normally this will involve explaining to the selecting officials the meaning of the scores or ratings and interpreting whether or not the rankings of candidates represent meaningful distinctions among employees.

c. An employee's rating or score must not be made known to any person who does not have an official need to know the score. Control should be maintained of official records; reports to employees and selecting officials; and working records such as promotion rosters, skills files, and computer outputs which include scores or ratings.

SUBCHAPTER S6—SAFEGUARDING EXAMINATION MATERIALS

S6-1 *Basic principles.* Individuals responsible for the personnel measurement program must clearly identify those examination materials (such as test materials, rating guides, or crediting plans) which require security and control, and insure that proper security and control are maintained. Instructions must be issued to maintain the security and control of examination materials which, if exposed to unauthorized persons, might provide unfair advantage to some candidates or otherwise compromise the utility of the selection procedure. At a minimum, the instructions must cover procedures to be followed during development, printing, storage, distribution, and destruction. Material covered by the instructions must not be exposed to any persons, including management officials, members of employee organizations, or non-Federal personnel who do not have an official need to see the material. No evaluation procedure subject to security and control may be administered to an employee who has had access to the covered material. (This provision is not intended to apply to appropriate retesting situations.)

S6-2 *Identification of examination materials.* Examination materials subject to security and control should be clearly identified as such on the cover or face of each document. Agencies may wish to use a statement for their own materials similar to the one shown below:

LIMITED OFFICIAL USE

Do not copy, paraphrase, or remove this test booklet or any part of it from the examining room. This booklet is lent for official use subject to restrictions regarding the use of Government documents. It should not be reproduced in whole or in part without the express approval of (agency), nor should it be used by anyone for any private purpose whatsoever. Violations may be punished by appropriate legal actions.

SUBCHAPTER S7—REVIEW OF THE PERSONNEL MEASUREMENT PROGRAM

S7-1 *General.* Each agency must make provisions to review its personnel measurement program to assure that evaluation procedures are being properly administered, used, and controlled. To support continued use of specific procedures, the agency must have a system for reviewing the need and appropriateness of its procedures. This includes the gathering of data to illustrate the effectiveness of each procedure, and documentation called for in section S3-5. The Civil Service Commission will inspect agencies to see that the provisions of this supplement are being followed and will require an agency to modify or suspend any procedure which the Commission determines does not meet requirements of this supplement. The Commission will make periodic reviews of the use of evaluation procedures in all agencies in order to evaluate the effectiveness of these instructions.

(This supplement will also contain Appendix A—Uniform Guidelines on Employee Selection Procedures, and Appendix B—Guidelines for Evaluating Employees for Promotion and Internal Placement. The Uniform Guidelines were previously published in the FEDERAL REGISTER on August 25, 1978. Thus Appendix A is not included here. Appendix B, which is intended as guidance, is under revision to bring it into conformity with the Uniform Guidelines.)

[3510-03]

DEPARTMENT OF COMMERCE

Maritime Administration

[Docket No. S. 618, Sub. 1]

SUWANNEE RIVER FINANCE, INC., ET AL

Notice of Application

In the matter of applications by Suwannee River Finance Inc., Suwannee River SPA Finance, Inc., and Suwannee River Phosphate Finance, Inc.

Notice is hereby give that applications dated March 17, 1978, have been filed under the Merchant Marine Act, 1936, as amended (the Act) for operating-differential subsidy with respect to the operation of three liquid bulk integrated tug/barge vessels for service in the U.S. foreign trade. The proposed trade is from U.S. ports to various Baltic, Mediterranean, and Black Sea ports and ports in Europe, and would include the carriage of liquid and dry bulk cargoes in the export and import foreign commerce of the United States and between foreign ports. The vessels will be managed by Hvide Shipping, Inc., which is wholly-owned by Hans J. Hvide.

Inasmuch as affiliated or associated firms of Hvide Shipping, Inc., charter ships engaged in the domestic, intercoastal or coastwise service, written permission of the Maritime Administration under section 805(a) of the Act will be required if these applications for operating-differential subsidy and associated management agreements are to be granted and approved.

Hvide Shipping, Inc., charters two tug/barge vessels, through its subsidiaries, one each to the Diamond Shamrock Corp. and the Shell Oil Co. Terms of these charters allow the charterer to employ the vessels in the coastwise, intracoastal or intercoastal trades, or on bays, rivers, sounds or harbors of the United States or in foreign trade not prohibited to U.S.-flag vessels.

Any person, firm, or corporation having any interest (within the meaning of section 805(a)) in such application and desiring to be heard on issues pertinent to section 805(a) and desiring to submit comments or views concerning the application must, by close of business on September 28, 1978, file same with the Secretary, Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

V

V 43/185 SEP 22 78

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing will be held, the purpose of which will be to receive evidence under section 805(a) relative to whether the proposed operations (a) could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal service, or (b) would be prejudicial to the objects and policy of the Act relative to domestic trade operations.

(Catalog of Federal domestic assistance program No. 11.504 Operating-Differential Subsidies (ODS).)

By Order of the Assistant Secretary for Maritime Affairs.

Dated: September 19, 1978.

JAMES S. DAWSON, Jr.,
Secretary.

National Fire Prevention and Control Administration

ADVISORY COMMITTEE ON FIRE TRAINING AND EDUCATION FOR THE NATIONAL ACADEMY FOR FIRE PREVENTION AND CONTROL

Notice of Open Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following committee meeting:

Name: Advisory Committee on Fire Training and Education for the National Academy for Fire Prevention and Control (Committee).
Date of meeting: October 11, 1978.
Place: National Fire Prevention and Control Administration, 2400 M Street NW., Washington, D.C., First floor conference room.
Time: 9 a.m. to 4 p.m.
Proposed agenda: Acceptance and approval of the final report of the Committee.

The meeting will be open to the public with approximately 20 seats available on a first-come-first-served basis.

Minutes of the meeting will be prepared by the Committee and will be available for public viewing in Room 214, National Fire Prevention and Control Administration, 2400 M Street NW., Washington, D.C. Copies of the minutes will be available upon request 30 days after the meeting.

Dated: September 20, 1978.

HOWARD D. TIPTON,
Administrator, National Fire Prevention and Control Administration.

[FR Doc. 78-26830 Filed 9-21-78; 8:45 am]

National Oceanic and Atmospheric Administration

STADT NURNBERT

Issuance of Permit To Take Marine Mammals

On August 15, 1978, notice was published in the FEDERAL REGISTER (43 FR 36130), that an application had been filed with the National Marine Fisheries Service by Stadt Nurnbert, Tiergarten Nurnbert, Am Tiergarten 30, 8500 Nurnberg, West Germany, for a public display permit to take two (2) Atlantic bottlenose dolphins (*Tursiops truncatus*) for public display.

Notice is hereby given that on September 19, 1978, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a public display permit for the above taking to Tiergarten Nurnberg subject to certain conditions set forth therein. The Permit is available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street NW., Washington, D.C.; and
Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Koger Boulevard, St. Petersburg, Fla. 33702.

Dated: September 19, 1978.

WINFRED H. MEIBOHM,
Associate Director, National Marine Fisheries Service.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST 1978

Addition

AGENCY: Committee for Purchase From the Blind and Other Severely Handicapped.

ACTION: Addition to procurement list.

SUMMARY: This action adds to procurement list 1978 a service to be provided by workshops for the blind or other severely handicapped.

EFFECTIVE DATE: September 22, 1978.

ADDRESS: Committee for Purchase From the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Va. 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher, 703-557-1145.

SUPPLEMENTARY INFORMATION: On June 9, 1978, the Committee for Purchase From the Blind and Other Severely Handicapped published a notice (43 FR 25170) of proposed addition to procurement list 1978, November 14, 1977 (42 FR 59015).

After consideration of the relevant matter presented, the Committee has determined that the service listed below is suitable for procurement by the Federal Government under 41 U.S.C. 46-48c, 85 Stat. 77.

Accordingly, the following service is hereby added to procurement list 1978:

SIC 7349

Janitorial/Elevator Operator Service, Veterans Administration Clinic Building, 17 Court Street, Boston, Mass. (SH).

C. W. FLETCHER,
Executive Director.

[FR Doc. 78-26661 Filed 9-21-78; 8:45 am]

[6351-01]

COMMODITY FUTURES TRADING COMMISSION

APPLICATION OF KANSAS CITY BOARD OF TRADE FOR DESIGNATION AS A CONTRACT MARKET IN TRANSACTIONS FOR FUTURE DELIVERY BASED UPON 30 INDUSTRIAL STOCKS AVERAGE INDEX

Public Hearing

DATE: October 25, 1978, 10 a.m., fifth floor hearing room, Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581.

FOR FURTHER INFORMATION CONTACT:

William D. Grossman, Counsel to Commissioner David G. Gartner, 202-254-8541.

Pursuant to section 6 of the Commodity Exchange Act,[1] the Kansas City Board of Trade ("KCBT") has filed with the Commodity Futures Trading Commission an application for contract market designation for trading in futures contracts based on the 30 industrial stocks average index.[2] In accordance with its established policy, on January 5, 1978, the Commission announced that it was making available to the public this application for inspection and copying and also solicited public comment on the terms and conditions of the proposed contract (43 FR 997, Jan. 5, 1978). Substantial interest has been expressed in this application.

[1] 7 U.S.C. 8 (1976).

[2] "Application of KCBT for Approval and Designation for Futures Trading of a 30 Industrial Stock Average Times 50," filed Oct. 28, 1977, amended and resubmitted on Nov. 22, 1977. The KCBT explains that "[t]his futures contract is based on the much quoted average, for 30 selected Industrial Stocks" (application filed Nov. 22, 1977, Contract Rules, at 1, note **).

While the Commission previously has designated boards of trade as contract markets where the underlying commodity traded is a government-backed debt instrument or other form of financial instrument,[3] the Commission heretofore has not considered a designation application where the subject of the contract is an index of a class or group of equity securities (or, for that matter, an individual equity security). Nor has the Commission ever considered designating a contract market for trading with a "delivery-less" system, i.e., where performance under the contract is effected by cash settlement in all cases. Thus, this application presents significant questions of first impression to the Commission.

Moreover, certain of the issues raised by the proposed contract pertain to fundamental aspects of the Commission's regulation of futures trading. Accordingly, in an attempt to obtain the views of a broad segment of the affected public and the advice of interested governmental entities, the Commission will hold a public hearing on the KCBT's designation application on October 25, 1978, at 10 a.m. in the fifth floor hearing room at its headquarters in Washington, D.C. Interested persons are invited to present their views to the Commission at this time. Commissioner David G. Gartner will chair the hearing.

In order to insure the receipt of meaningful public comment at this hearing, the Commission is stating certain issues in this announcement which it considers to be of primary importance. While the Commission will permit witnesses to present their views on any matter involved in this proposed contract, it requests that they also address these issues:

1. Whether the proposed contract can meet the economic purpose and public interest tests required under the Commodity Exchange Act for designation as a contract market? Specifically, is there any evidence or reason to believe that "something more than occasional use of the contract for hedging or price basing exists, or can reasonably be expected to exist"? [4]

2. Does the Commodity Exchange Act contemplate that a "delivery-less" contract for futures delivery be the subject of trading on a contract market? Is such a delivery system an appropriate concept for efficient and sound futures markets?

Persons wishing to appear at this hearing should notify Ms. Jane K. Stuckey, Office of the Secretariat, 202-254-6126, no later than 4:45 p.m. on October 20, 1978. It is requested that participants bring 30 copies of their prepared statement to the hearing. During and subsequent to any person's oral presentation, questions may be asked by members of the Commission or the hearing panel.

Issued in Washington, D.C., on September 19, 1978, by the Commission.

GARY L. SEEVERS,
Vice-Chairman, Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581.

[FR Doc. 78-26662 Filed 9-21-78; 8:45 am]

[3] The Commission has designated a number of contract markets for trading in four types of financial instruments—short-term commercial paper, mortgage-backed certificates guaranteed by the Government National Mortgage Association, Treasury bonds and Treasury bills.

[4] Commodity Futures Trading Commission advisory guideline No. 1, issued May 13, 1975.

DEPARTMENT OF DEFENSE

Department of the Army

NATIONAL TRAINING CENTER, FORT IRWIN SITE

Filing of Environmental Impact Statement

In compliance with the National Environmental Policy Act of 1969, the Army, on August 25, 1978, provided the Environmental Protection Agency a draft environmental impact statement (DEIS) concerning the proposed National Training Center, Fort Irwin site. The alternatives of no actions and locating the NTC at MCB 29 Palms to Yuma Proving Ground are also analyzed. Copies of the statement have been forwarded to concerned Federal, State, and local agencies. Interested organizations or individuals may obtain copies for cost of reproduction from the Commander, Forces Command (FORSCOM), Fort McPherson, Atlanta, Ga. 30330.

In the Washington area, inspection copies may be seen during normal duty hours, in the Environmental Office, Office of Assistant Chief of Engineers, Room 1E676, Pentagon, Washington, D.C. 20310, phone 202-694-3434.

BRUCE A. HILDERBRAND,
Deputy for Environmental Affairs, Office of the Assistant Secretary of the Army (Civil Works).

PRIVACY ACT OF 1974

Amendments to Systems of Records

AGENCY: Department of the Army, DOD.

ACTION: Notices of amendments to systems of records.

SUMMARY: The Army proposes to amend two systems of records subject to the Privacy Act of 1974. Specific changes to the systems being amended are set forth below followed by the systems published in their entirety as amended.

DATE: These systems shall be amended as proposed without further notice on October 23, 1978, unless comments are received on or before October 23, 1978, which would result in a contrary determination and require republication for further comments.

ADDRESS: Any comments, including written data, views or arguments concerning the amendments should be addressed to the System Manager identified in the particular record system concerned.

FOR FURTHER INFORMATION CONTACT:

Mr. Cyrus H. Fraker, The Adjutant General, Center (DAAG-AMR-R), Department of the Army, 1000 Independence Avenue SW., Washington, D.C. 20314, telephone 202-693-0973.

SUPPLEMENTARY INFORMATION:

The Department of the Army systems of records notices inventory subject to the Privacy Act of 1974 (5 U.S.C. 552a) Pub. L. 93-579, have been published in the FEDERAL REGISTER as follows:

FR Doc. 77-28255 (42 FR 50396), September 28, 1977.
FR Doc. 77-32975 (42 FR 50999), November 15, 1977.
FR Doc. 78-1855 (43 FR 3151), January 23, 1978.
FR Doc. 78-9239 (43 FR 14713), April 7, 1978.
FR Doc. 78-9713 (43 FR 15353), April 12, 1978.
FR Doc. 78-17146 (43 FR 26606), June 21, 1978.
FR Doc. 78-17737 (43 FR 27882), June 27, 1978.
FR Doc. 78-18880 (43 FR 29600), July 10, 1978.
FR Doc. 78-19614 (43 FR 30594), July 17, 1978.
FR Doc. 78-21772 (43 FR 34520), August 4, 1978.
FR Doc. 78-23953 (43 FR 38070), August 25, 1978.
FR Doc. 78-25562 (43 FR 40272), September 11, 1978.

The proposed amendments are not within the purview of the provisions of 5 U.S.C. 552a(o) of the Act which requires the submission of a new or altered system report.

Dated: September 19, 1978.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

AMENDMENTS

A1015.01aDAAG

System name:

A1015.01 Dependent Children School Program Files.

System location:

Active students: Army-operated overseas dependents schools located in oversea areas or in the United States (US) at the following locations: Fort Benning, Ga; Fort Bragg, N.C.; Fort Campbell, Ky.; Fort Jackson, S.C.; Fort Knox, Ky.; Fort McClellan, Ala.; Fort Rucker, Ala.; Fort Stewart, Ga.; U.S. Military Academy, West Point, N.Y.

Former students: Washington National Records Center (WNRC), Washington, D.C. 20409.

Categories of individuals covered by the system:

Students in the Army-operated dependents schools located in oversea areas or in the United States at installations cited above.

Categories of records in the system:

Enrollment files: Documents relating to the admission, registration, and departure of dependent school students. Included are pupil enrollment applications, course preferences, admission cards, drop cards, and similar or related documents.

Daily attendance register files: Documents reflecting the daily attendance of pupils at dependent schools. Included are forms, printouts, bound registers, and similar or related documents.

Elementary school academic record files: Documents reflecting the standardized achievement, mental ability, yearly grade average, attendance of each student, and the teachers' comments. Included are forms, notes, and similar or related documents.

Elementary school report card files: Documents reflecting grades, personality traits, and promotion or failure. Included are report cards and similar or related documents.

Elementary school teacher class register files: Documents reflecting daily, weekly, semester, or annual scholastic grades and averages, absence and tardiness data.

Elementary school student files: Documents pertaining to individual elementary school students. Included in each folder are reading records and health records; intelligence quotient, achievement, aptitude and similar test results; notes related to pupil's progress and characteristics; and similar matters used by counselors and successor teachers.

Secondary school absentee files: Documents reflecting absence of students. Included are homeroom teachers' registers, secondary school daily attendance records of absentees reported by teachers, tardy slips for admission of students to classroom, transfer slips notifying teachers of new class or homeroom assignment, notices of change by school principal to teacher upon change of classroom, student applications for permission to be absent, student pass slips, and similar or related documents.

Secondary school academic record files (high school transcript): Documents reflecting student grades and credits earned. Included are forms, notes, and similar or related documents.

Secondary school report card files: Documents reflecting scholastic grades, personality traits, and promotion or failure. Included are report cards and related documents.

V 43 / 185 S E 22 78 V

Secondary school teacher class register files: Documents reflecting daily, weekly, semester, or annual scholastic marks and averages, absence and tardiness and withdrawal data. Included are class registers and similar or related documents.

Secondary school class reporting files: Documents reflecting teacher reports to principals and used as source documents for preparing secondary school academic record cards. Included are forms, correspondence, and similar or related documents.

Credit transfer certificate files: Documents reflecting secondary school scholastic credits earned. Included are certificates and similar or related documents.

Secondary school student files: Documents pertaining to individual secondary school students. Included in each folder are student health records, absence reports, and correspondence with parents/guardians pertaining to absence; records of achievement and aptitude tests; notes concerning participation in extracurricular activities, hobbies, and other special interests or activities of the student; and miscellaneous memoranda used by student counselors.

Authority for maintanenace of the system:

Title 20 U.S.C., chapter 25, Army-operated dependents schools located in oversea areas; Title 20 U.S.C., section 236.451, 242.245, Army-operated dependents schools located in the United States; and Pub. L. 93-380

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Dependent children school program files (general): Records of students attending the Army-operated dependents schools located in oversea areas are used by school officials, including teachers, to determine the eligibility of children to attend these schools; to schedule children for transportation; to record daily and/or class attendance of students, and date of withdrawal. Records of students attending the Army-operated dependents schools located in the United State at installations cited above are used by school officials, including teachers, and authorized representatives of the Secretary of Health, Education, and Welfare, to determine eligibility of children to attend these schools, to determine transportation requirements, to record daily and/or class attendance of students, and date of withdrawal. Documents of students attending the Army-operated dependents schools located in the United States are used also by officials of Federal and State agencies in connection with a student's application for, or receipt of, financial aid in connection with an audit and evaluation of Federally supported education programs, or in connection with the enforcement of the Federal legal requirements which relate to such programs; or by authorized representatives of the Comptroller General of the United States, the Secretary of Health, Education, and Welfare, or the Secretary of the Army, as authorized by Pub. L. 93-380 to insure compliance with Part 99 of Title 45 of the Code of Federal Regulations which provides for the privacy rights or parents/guardians and students regarding access to students' school records.

Dependent children school program files (elementary): Used by school officials, including teachers, in the current and/or gaining school to develop and provide an educational program for elementary students by school personnel cited above. Documents are used in the following manner: To record teacher or standardized test data; to record attendance, absences, and/or tardiness of each student; to record recommendations for promotion or retention including teacher comments; to record daily, weekly, semester, or annual grades; to develop and maintain reading records, health records, including school-related medical needs; to record notes related to the individual pupil's progress and learning characteristics useful to professional school personnel in counseling the student and in the determination of his/her proper placement.

Dependent children school program files (secondary): Used by school officials, including teachers, in the current and/or gaining school to develop and provide an educational program for secondary students. Documents are used by school personnel cited above in the following manner: To record teacher and/or standardized test data; to record attendance, absences, and/or tardiness of each student; to form the basis for a decision on a student request for permission to be absent from a class or classes; to determine proper class or grade placement or graduation; to determine scholastic grades and/or grade point averages; to form the basis for school recommendations for student financial aid for post secondary education; to form the basis for preparing the secondary school transcript; to determine secondary school academic credits earned; to determine school-related medical needs of a student; to determine, from correspondence from parents/guardians or medical authorities, the need for special attention in school activities; to note special interest or hobbies of the student.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper records in file folders.

Retrievability:

Elementary school academic record and secondary academic record (high school transcript) filed alphabetically by school, by school year, and last name of student.

Elementary school teacher class register file and secondary school teacher class register file are filed by school, school year, and by last name of teacher.

Remaining dependent school student files are filed by school, school year, and last name of student.

Safeguards:

Records maintained in files accessible only to authorized personnel.

Retention and disposal:

Enrollment files: Maintained at the respective school for 1 year after graduation, withdrawal, transfer, or death of the student, then destroyed.

Daily attendance register files: Destroyed after reviewing attendance registers for the next school year.

Elementary school academic record files: When a student transfers to another school, this file is forwarded by mail to the parent/guardian or official of the receiving school on request; or destroyed at the school 5 years after graduation, death, or withdrawal of the student.

Elementary school report card files: Released to parents/guardians or student at the end of the school year, or on transfer of student.

Elementary school teacher class register files: Destroyed at the school concerned after 5 years.

Elementary school student files: When a student transfers to another school, the reading record and health record are released to the parents/guardians or student for hand carrying to the receiving school. Remaining documents pertaining to the students are forwarded by mail to the official of the receiving school or the parent/guardian on request; if not requested, documents are destroyed at the school concerned 1 year after graduation, death, or withdrawal of the student.

Secondary school absentee files: Destroyed at the school after 1 year.

Secondary school academic records files (high school transcript): Destroyed after 70 years. When a student transfers to another Department of Defense (DOD) school, this file (transcript) is forwarded by mail to officials of the receiving school on request. When a student transfers to a non-DOD school, a copy of the transcript is forwarded to the receiving school on request. Files not forwarded are retained at the school concerned for 5 years and then retired to the WNRC, Washington, D.C. 20409.

Secondary school report card files: Released to parents/guardians or student at the end of the school year, or on transfer of student.

Secondary school teacher class register files: Retained at the school concerned for 5 years and then destroyed.

Secondary school class reporting files: Destroyed at the school after 1 year.

Credit transfer certificate files: Destroyed at the school after 1 year.

Secondary school student files: Retained at the school concerned for 2 years after graduation, death, or withdrawal of the student.

NOTE.—When a student transfers to another school, the reading record and health record are released to the parents/guardians or student for hand carrying to the receiving school. Remaining documents pertaining to the student are forwarded by mail to the official of the receiving school or the parent/guardian on request.

System manager(s) and address:

The Adjutant General, Headquarters, Department of the Army, the Pentagon, Washington, D.C. 20310.

Notification procedure:

Information may be obtained from officials of the school concerned or from the WNRC, as appropriate.

Record access procedures:

Written requests for information on the records system and for instructions concerning personal visits may be forwarded to the principal of the Army-operated dependents school located in the US at installations cited above, or from the WNRC. Written requests should contain the following information: Current name and, if different, the name used during the period inquirer was a student; date of birth; names of schools, locations, and dates of attendance.

Contesting record procedures:

The Army's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSMANAGER.

Record source categories:

Application for enrollment and related forms from the student or student's parents/guardians; teachers' comments, correspondence or documents from medical authorities; correspondence from parents/guardians; written requests from parents/guardians, students, or authorized officials to inspect the student's file and determinations thereto; determinations by school officials concerning the student's need for a particular course or educational program; recommendations for awards, commendations, or adverse notifications and decisions; notification concerning suspensions, expulsions, or dismissal; parent/guardian or student requests for permission to be tardy or absent; parent's/guardian's permission for student's participation in class field trips, other school related trips, athletic activities, or vocational training outside of the school.

Systems exempted from certain provisions of the act:

None.

DELAWARE RIVER BASIN COMMISSION

[D-75-128]

DOW CHEMICAL CO. BULK CHEMICAL STORAGE AND DISTRIBUTION FACILITY

Environmental Impact Statement

In accordance with the National Environmental Policy Act of 1969 and the Delaware River Basin Commission's rules of practice and procedure (article IV), notice is hereby given of the availability of the final environmental impact statement pertaining to the subject project.

The Dow Chemical Co. proposes to construct and operate a bulk chemical storage terminal along the Delaware River in Bordentown Township, N.J. Construction would involve dredging of 307,000 yd³ of river sediment to provide access from the river channel and to provide a berthing area for a marine off-loading terminal. Oceangoing tankers (30 per year) up to 700 feet in length and smaller barges would service the facility. Sixty-five storage tanks would be constructed on the 52-acre site to store more than 50 industrial chemicals, primarily intermediate organics. Related facilities would include a railroad siding and cargo transfer facility, a truck cargo transfer facility, a dry bulk transfer system and a storage and packaging warehouse.

The environmental impact statement identifies impacts on air, land, water, biota, and man, and evaluates alternate sites and methods. The statement may be examined in the library at the office of the Delaware River Basin Commission, 25 State Police Drive, Trenton, N.J., and in the library of the Water Resources Association of the Delaware River Basin, Davis Road, Valley Forge, Pa. A limited number of copies are available upon request.

The final statement has been submitted to the Environmental Protection Agency as of Septemer 15, 1978. Comments on the statement are requested before October 13, 1978.

W. BRINTON WHITALL,
Secretary.

[3128-01]

DEPARTMENT OF ENERGY

ECONOMIC REGULATORY ADMINISTRATION

[ERA Docket No. 77-006-LNG, FPC Docket Nos. CP77-330, el al.]

EL PASO EASTERN CO., ET AL.

Intent to Prepare a Supplement to an Environmental Impact Statement

AGENCY: Department of Energy, Economic Regulatory Administration.

ACTION: Notice of intent to prepare a supplement to an environmental impact statement (EIS) in connection with an application to import liquefied natural gas (LNG) from Algeria through facilities proposed for construction on Matagorda Bay, Tex.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) gives notice of its intent to prepare a supplement to the final EIS published by the former Federal Power Commission (FPC) in September 1977. The FPC published a final environmental impact statement for the Matagorda Bay project in connection with its evaluation of an application to import LNG from Algeria in the proceeding, El Paso Eastern Co., et al. (FPC docket Nos. CP77-330, et al.) The application is now pending before ERA, and a determination has been made by DOE that a supplement to the EIS must be prepared in order to satsify the requirements of the National Environmental Policy Act (NEPA).

SUPPLEMENTARY INFORMATION: In 1976 and 1977, El Paso Eastern Co., El Paso LNG Terminal Co. and El Paso Natural Gas Co. (hereinafter referred to collectively and individually as El Paso) filed applications and amended applications pursuant to sections 3 and 7 of the Natural Gas Act for authority to import LNG into the United States from Algeria; to construct, own and operate facilities for the receipt, storage, and regasification of the LNG at the proposed LaSalle Terminal on Matagorda Bay near Port O'Connor, Tex.; to construct additional pipeline and compression facilities; to transport, and to sell the resulting volumes of natural gas to customers in the State of California, the State of Texas and elsewhere. United Gas Pipe Line Co. and United LNG Co. (hereinafter referred to collectively and individually as United) filed applications, pursuant to section 7 of the Natural

V 4 3 / 1 8 5 SEP 22 78

Gas Act, to sell some of the imported natural gas in interstate commerce and to construct certain pipeline connecting facilities near Victoria, Tex.

The FPC consolidated all of these various proceedings and allowed interveners in any one of them to intervene in the consolidated proceeding. The consolidated proceedings are hereafter referred to as El Paso II. Hearings began on March 17, 1977, and were concluded on September 19, 1977.

On October 1, 1977, DOE was activated pursuant to Executive Order No. 12009, September 13, 1977, (42 FR 46267) and the authority to approve natural gas importation under section 3 of the Natural Gas Act was automatically transferred to and vested in the Secretary of Energy pursuant to sections 301 and 402(f) of the Department of Energy Organization Act (Pub. L. 95-91). The Secretary immediately delegated to the Federal Energy Regulatory Commission (FERC) the authority to carry out this function with respect to cases pending before it (DOE Delegation Order No. 0204-1, par. 11, October 1, 1977). By a DOE final rule issued October 1, 1977, entitled "Transfer of Proceedings to the Secretary of Energy and the Federal Energy Regulatory Commission," El Paso II was to continue under FERC jurisdiction until after the timely filing of all briefs on and opposing exceptions to the initial decision of the presiding administrative law judge. Judge Walter T. Southworth issued an initial decision on October 25, 1977, in which he approved, subject to conditions, the applications as amended under sections 3 and 7 of the Natural Gas Act. All briefs on exceptions and opposing exceptions to the initial decision were filed with the FERC by November 28, 1977. On December 7, 1977, the record in El Paso II was forwarded to DOE in compliance with the final rule.

Pursuant to paragraph 6 of DOE Delegation Order No. 0204-4, issued October 1, 1977, the Secretary had delegated the authority to issue a final order in this proceeding to the Administrator of the ERA.

In reviewing the record in this proceeding, DOE has determined that, before a final order can be issued, the FPC's EIS must be supplemented. Several Federal agencies and other interested organizations have expressed the concern that the EIS is substantively deficient in certain respects, including, inter alia, the analysis of offshore facility alternatives; the analysis of secondary, long-term, and cumulative impacts; and, the analysis of thermal, circulation, and salinity changes in Matagorda Bay and the resultant ecological impacts which would result from the extensive dredging and spoils disposal required for implementation of the project.

Accordingly, DOE has determined that the preparation of a supplement to the EIS covering the listed issues is the appropriate course to follow in order to assure compliance with NEPA.

Interested persons, agencies, and organizations desiring to submit comments or suggestions for consideration with respect to the preparation of this supplement are invited to do so. DOE encourages commenters to respond as soon as possible in order that suggestions may be reflected in the scope of the supplement. Upon completion of the draft supplement, its availability will be announced in the FEDERAL REGISTER, at which time public comments will again be solicited. Following the close of the comment period on the draft supplement, DOE will prepare a final supplement.

ADDRESS FOR COMMENTS: Finn K. Neilsen, Director, Import/Export Division, Economic Regulatory Administration, 2000 M Street NW., Room 6318, Washington, D.C., 20461, telephone 202-254-9730.

FOR FURTHER INFORMATION CONTACT:

Finn K. Neilsen, Director, Import/Export Division, Economic Regulatory Administration, 2000 M Street NW., Room 6318, Washington, D.C., 20461, telephone 202-254-9730.

Janine Landow-Esser, Office of General Counsel, 20 Massachusetts Avenue NW., Room 8217, Washington, D.C. 20461, telephone 202-376-4266.

Carol Borgstrom, Office of Environment, 12th and Pennsylvania Avenue NW., Federal Building, Room 7119, Washington, D.C. 20461, telephone 202-566-9760.

Issued in Washington, D.C., on September 11, 1978.

BARTON R. HOUSE,
Assistant Administrator, Fuels Regulation, Economic Regulatory Administration.

[3128-01]

REFINERS' CRUDE OIL ALLOCATION PROGRAM

Corrected Buy-Sell List for Allocation Period of October 1, 1978 through March 31, 1979

On August 28, 1978, the Economic Regulatory Administration (ERA) of the Department of Energy issued the buy-sell list specified in 10 CFR 211.65(g) of the refiners' crude oil allocation program for the allocation period of October 1, 1978 through March 31, 1979.(43 FR 39412, September 5, 1978). The refiner-sellers' portion of that buy-sell list was incorrect because of errors in computing (1) carryover of unsold refiner-seller sales obligations from previous allocation periods and (2) adjustments because of changes in refiner-buyers' allocations in previous allocation periods.

A corrected list of refiner-sellers' sales obligations for the allocation period commencing October 1, 1978, is appended to this notice. Refiner-buyers' allocations remain as set forth in the buy-sell list issued August 28, 1978.

Any questions concerning this notice should be addressed to: Chief, Crude Oil Allocation Branch, 2000 M Street NW., Washington, D.C. 20461.

This notice is issued pursuant to subpart G of DOE's regulations governing its administrative procedures and sanctions, 10 CFR part 205. Any person aggrieved hereby may file an appeal with DOE's Office of Hearings and Appeals in accordance with subpart H of 10 CFR part 205. Any such appeal shall be filed by October 23, 1978.

Issued in Washington, D.C., on September 18, 1978.

BARTON R. HOUSE,
Assistant Administrator, Fuels Regulation, Economic Regulatory Administration.

APPENDIX

The list of refiner-sellers for the period October 1, 1978, through March 31, 1979, is revised as follows. The list sets forth the identity of each refiner-seller, the fixed percentage share of each refiner-seller, and the volumes of crude oil that each such refiner-seller is required to offer for sale to refiner-buyers. Refiner-sellers' sales obligations were adjusted to reflect some refiner-buyers' allocations shown in error in prior allocation periods.

CRUDE OIL ALLOCATION PROGRAM SALES OBLIGATIONS

[for the period Oct. 1, 1978, to Mar. 31, 1979]

Refiner-sellers	Share	Sales obligation (barrels)
Amoco Oil Co	0.099	199,120

Western Area Power Administration

CENTRAL VALLEY PROJECT (CVP) POWER RATES

Changes in Dates for Public Comment in Supplemental Proceedings

AGENCY: Western Area Power Administration (WAPA), Department of Energy.

ACTION: Notice of changes in dates for public comment.

SUMMARY: The dates for various steps in the Supplemental Proceedings for Public Participation in Power Rate Adjustments for CVP, California, as published in the FEDERAL REGISTER for April 18, 1978, 43 FR 16391, are amended as follows: An additional information forum will be held in Sacramento, Calif., on September 27, 1978, to answer questions concerning revised tentative rates. Written comments will be due November 1 and rebuttal comments on November 24. A public comment forum will be held December 6 and final position summaries are due December 22.

DATES: An additional information forum will be held at 9:30 a.m., on Wednesday, September 27, 1978, at Caravan Inn, 2300 Auburn Boulevard, Sacramento, Calif. Written comments on the revised tentative rate schedules may be submitted on or before November 1, 1978. Written rebuttal comments may be submitted on or before November 24, 1978. The supplemental public comment forum will be held at the Caravan Inn at 9:30 a.m., on December 6, 1978. Written summaries of positions are due on or before December 22, 1978.

ADDRESSES: Three copies of written comments shall be mailed to each of the following:

Area Manager, Western Area Power Administration, Department of Energy, 2800 Cottage Way, Sacramento, Calif. 95825.

Administrator, Western Area Power Administration, Department of Energy, P.O. Box 3402, Golden, Colo. 80401.

Assistant Secretary for Resource Applications, Department of Energy RA-4, Washington, D.C. 20461.

In addition, a copy should be submitted to each person who has previously submitted comments. A list of such persons may be obtained from the area manager.

FOR FURTHER INFORMATION CONTACT:

Gordon R. Estes, Area Manager, Western Area Power Administration, Department of Energy, 2800 Cottage Way, Sacramento, Calif. 95825, 916-484-4251.

Clark L. Rose, Western Area Power Administration, Department of Energy, P.O. Box 3402, Golden, Colo. 80401, 303-234-7548.

SUPPLEMENTARY INFORMATION: This proceeding was started in September 1977 with the announcement that two alternative tentative rates were under consideration. See 42 FR 46619 (1977). Following public information and public comment forums, the customers requested more time to obtain information and submit comments. Accordingly, the procedures were revised to authorize the establishment of interim rates followed by supplemental proceedings, 43 FR 12076 (1978); and interim rates were established, 43 FR 12361 (1978), to become effective May 25, 1978.

In April 1978, the Department of Energy announced supplemental proceedings for public participation in CVP power rate adjustments before a final decision is made, 43 FR 16391 (1978). A supplemental information forum was held on April 27 and continued to June 9. A number of written comments were received on June 30. However, the dates for rebuttal comments, the public comment forum, and the position summaries were cancelled pending further developments.

One of the point made in the June 30 comments was that WAPA had not presented revised tentative rates to substitute for the tentative alternative rates announced in September 1977, so it was difficult for the customers to know what to comment on. In response to this comment, WAPA is preparing revised alternative tentative rates, based primarily on information already circulated, which will be submitted to interested persons at or before the forum on September 27, 1978. Questions concerning those revised rates will be answered at the forum, and the subsequent written and oral comments will be directed to them.

Issued in Washington, D.C. September 21, 1978.

WILLIAM P. DAVIS,
Deputy Director of Administration.

GENERAL SERVICES ADMINISTRATION

PRIVACY ACT OF 1974

Altered System of Records

AGENCY: General Services Administration.

ACTION: Alteration of a system of records.

SUMMARY: The system of records GSA/ADM-24, Investigation and Personnel Security Case Files, is being amended to exempt criminal investigation case files in the system from all provisions of the Privacy Act with the exception of subsections (b); (c) (1) and (2); (e)(4) (A) through (F); (e) (6), (7), (9), (10), and (11); and (l) of the act.

DATES: Any interested party may submit written comments regarding the proposed alteration. To be considered, comments must be received on or before October 23, 1978. The changes to the system of records shall become effective as proposed without further notice on October 23, 1978, unless comments are received which would result in a contrary determination.

ADDRESS: Address comments to General Services Administration (BR), Washington, D.C. 20405.

FOR FURTHER INFORMATION CONTACT:

Mr. William Hiebert, Records Management Branch, Paperwork Management Division, 202-566-0673.

BACKGROUND

In the 1977 annual publication of systems of records (42 FR 47730 through 47783), the system of records GSA/ADM-24, Investigations and Personnel Security Case Files, was revised to cover the complete civil, criminal, and administrative actions being performed by the Office of Investigations. These actions were previously performed by the Federal Protective Service and were included as part of the system of records GSA/PBS-3, Incident Reporting System. A general exemption for criminal investigation case files existed for the system of records GSA/PBS-3. When the system of records GSA/ADM-24 was revised to cover these criminal investigation case files, a corresponding revision to 41 CFR 105-64.601 for the general exemption was not made. The proposed rule published in the Proposed Rules section of today's FEDERAL REGISTER will correct this omission by adding the system of records GSA/ADM-24 to 41 CFR 105-64.601, general exemptions. This change is also being incorporated into the system of records notice. The proposed revised system of records is as follows:

GSA/ADM-24 (23-00-0024)

System name:

Investigation and Personnel Security Case Files GSA/ADM.

Security classification:

Some of the material contained in the system has been classified in the interests of the national security pursuant to Executive Order 11652.

System location:

The system is located in the Office of Investigations, GS Building, 18th and F Streets NW., Washington, D.C. 20405.

Categories of individuals covered by the system:

Individuals covered by the system are employees, applicants for employment, and former employees of GSA, and commissions, committees, and small agencies serviced by GSA. Also included are historical researchers, employees of contractors performing custodial or guard services in buildings under GSA jurisdiction, individuals who were the source of an individual complaint or an allegation that a crime had taken place, witnesses having information or evidence to any side of an investigation, and identification of possible and actual suspects in the criminal or civil actions that are subjects of investigations.

Categories of records in the system:

Investigative files contain information such as name, date, and place of birth, address, social security number, education, occupation, experienee, and investigatory material. These records are used as a basis for issuance of security clearances; suitability determinations; civil, criminal, and administrative action; and determinations in diiscrimination cases.

Authority for maintenance of the system:

Executive Order 10450, April 27, 1953; Executive Order 11478, August 8, 1969; Executive Order 11652, March 8, 1972; Executive Order 11246, September 24, 1965; and 40 U.S.C. 276a through a-7, 276c, 318 (a) through (d), and 327 through 331.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Records are used by officers and representatives of other Government agencies on a need-to-know basis in the performance of their official duties under the authorities set forth above and also those routine uses contained in the appendix following the GSA notices.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper records in card file folders.

Retrievability:

Retrieved manually by name from files that are indexed alphabetically and filed numerically by location and incident.

Safeguards:

Records are stored in locked alarmed vault type room and/or three-way combination dial safes with access limited to authorized personnel. Information released only to authorized officials on a need-to-know basis.

Retention and disposal:

Disposition of records is in accordance with the HB, GSA Records Maintenance and Disposition System (OAD P 1820.2). Records are destroyed either by burning or pulping.

System manager and address:

The official responsible for the system is the Director of Investigations, 18th and F Streets NW., Washington, D.C. Mailing address: General Services Administration (AWI), Washington, D.C. 20405.

Notification procedures:

Inquiries by individuals as to whether the system contains a record pertaining to themselves should be addressed to the Director of Investigations.

Record access procedures:

Requests from individuals for access to records should be addressed to the Director of Investigations and should include full name (maiden name where appropriate), address, and date and place of birth. Only general inquiries may be made by phone.

Contesting record procedures:

GSA rules for access to records and for contesting the contents and appealing initial determinations are promulgated in 41 CFR 105-64, published in the FEDERAL REGISTER.

Record source categories:

Individuals, employees, informants, law enforcement agencies, other Government agencies, employers, references, co-workers, neighbors, educational institutions, and intelligence sources.

Systems exempted from certain provisions of the act:

In accordance with 5 U.S.C. 552a(j), the criminal investigation case files in this system of records are exempt from all provisions of the act with the exception of subsections (b); (c) (1) and (2); (e)(4) (A) through (F); (e) (6), (7), (9), (10), and (11); and (i) of the act. In accordance with 5 U.S.C. 552a(k), the general investigation and personnel security case files in this system of records are exempt from subsections (c)(3); (d); (e)(1); (e)(4) (G), (H), and (I); and (f) of the act.

Dated: September 11, 1978.

JANICE K. MENDENHALL,
Controller-Director of Administration.

[4110-03]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

ADVISORY COMMITTEE

Meeting

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice announces a forthcoming meeting of a public advisory committee of the Food and Drug Administration (FDA). This notice also sets forth a summary of the procedures governing committee meetings and methods by which interested persons may participate in open public hearings conducted by the committees and is issued under section 10(a) (1) and (2) of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770-776 (5 U.S.C. app. I)), and FDA regulations (21 CFR pt. 14) relating to advisory committees. The following advisory committee meeting is announced:

Committee name	Date, time, and place	Type of meeting and contact person
Dermatology Subcommittee of the Anti-Infective and Topical Drugs Advisory Committee.	Oct. 26, 9 a.m., Conference Room G, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing 9 to 10 a.m.; open committee discussion 10 a.m. to 4:30 p.m.; Mary K. Bruch (HFD-140), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4310.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published in this FEDERAL REGISTER notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairman's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact person the approximate time of discussion.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of marketed and investigational prescription drugs for use in the treatment of infectious diseases, dermatological disorders, and ocular diseases.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the Committee.

Open committee discussion. The discussion will include Oxsoralen (NDA 9-048) with ultraviolet light in the treatment of psoriasis and update retinoic acid-possible photo-carcinogenicity in animals.

FDA public advisory committee meetings may have as many as four separable portions: (1) An open public hearing, (2) and open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing portion. Whether or not it also includes any of the other three portions will depend upon the the specific meeting involved. There are no closed portions for the meeting announced in this notice. The dates and times reserved for the open portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1 hour long unless public participation does not last that long. It is emphasized, however, that the 1-hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairman determines will facilitate the committee's work.

A list of committee members and summary minutes of meetings may be obtained from the Public Records and Documents Center (HFC-18), 5600 Fishers Lane, Rockville, Md. 20857, between the hours of 9 a.m. and 4 p.m., Monday through Friday. The FDA regulations relating to public advisory committees may be found in 21 CFR Part 14.

Dated: September 18, 1978.

JOSEPH P. HILE,
Associate Commissioner for Regulatory Affairs.

Food and Drug Administration

ADVISORY COMMITTEES

Meetings

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice announces forthcoming meetings of public advisory committees of the Food and Drug Administration (FDA). This notice also sets forth a summary of the procedures governing committee meetings and methods by which interested persons may participate in open public hearings conducted by the committees and is issued under section 10(a) (1) and (2) of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770-776 (5 U.S.C. App. I)), and FDA regulations (21 CFR Part 14) relating to advisory committees. The following advisory committee meetings are announced:

Committee name	Date, time, and place	Type of meeting and contact person
1. General and Plastic Surgery Device Section of the Surgical and Rehabilitation Devices Panel.	Oct. 12, 9 a.m., Room 425, 8757 Georgia Ave., Silver Spring, Md.	Open committee discussion 9 a.m. to 10 a.m.; closed committee deliberations 10 a.m. to 1 p.m.; open public hearing 1 p.m. to 2 p.m.; James G. Dillon, Ph.D., (HFK-410), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7238.

General function of the committee. The committee reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open committee discussion. Keith Lusted, M.D., Bureau of Medical Devices, will make a presentation to the panel on the product development protocol approach to premarket approval of new medical devices.

Closed committee deliberations. The panel will review a product development protocal submission from a medical device manufacturer. This portion of the meeting will be closed to permit discussion of trade secret information (5 U.S.C. 552b(c)(4)).

Open public hearing. Interested parties are encouraged to present information pertinent to the classification findings of the General and Plastic Surgery Device Section of the Surgical and Rehabilitation Devices Panel. Those desiring to make formal presentations should notify Mark F. Parrish, Ph.D., by October 5, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, references to any data to be relied on, and also an indication of the approximate time required to make their comments.

Committee name	Date, time, and place	Type of meeting and contact person
2. Immunology Device Section of the Immunology and Microbiology Devices Panel.	Oct. 30 and 31, 9 a.m., Room 1209, 8757 Georgia Ave., Silver Spring, Md.	Open public hearing Oct. 30, 9 a.m. to 10 a.m.; closed committee deliberations Oct. 30, 10 a.m. to 5 p.m., Oct. 31, 9 a.m. to 5 p.m.; William C. Dierksheide, Ph.D. (HFK-440), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7234.

General function of the committee. The committee reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present information pertinent to the classification of immunology devices to Dr. Srikrishna Vadlamudi. Submission of data relative to tentative classification findings is also invited. Those desiring to make formal presentations should notify Dr. Vadlamudi by September 29, 1978, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants. references to any data to be relied on, and also an indication of the approximate time required to make their comments.

Closed committee deliberations. The Panel will review and discuss premarket approval applications Nos. P780001 and 760001. This portion of the meeting will be closed to permit discussion of trade secret data (5 U.S.C. 552b(c)(4)).

Committee name	Date, time, and place	Type of meeting and contact person
3. Microbiology Devices Section of the Immunology and Microbiology Devices Panel.	Oct. 31 and Nov. 1, 9 a.m., Room 1209, 8757 Georgia Ave., Silver Spring, Md.	Closed committee deliberations Oct. 31, 9 a.m. to adjournment; open public hearing Nov. 1, 9 a.m. to 10 a.m.; open committee discussion Nov. 1, 10 a.m. to 4:30 p.m.; William C. Dierksheide, Ph. D., (HFK-440), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7234.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Closed committee deliberations. The panel will review and discuss antibiotic drug application N50-525. This portion of the meeting will be closed to permit discussion of trade secret data (5 U.S.C. 552b(c)(4)).

Open public hearing. Interested parties are encouraged to present information pertinent to the classification of microbiology devices to Thomas Tsakeris. Submission of data relative to tentative classification findings is also invited. Those desiring to make formal presentations should notify Thomas Tsakeris by September 29, 1978, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, references to any data to be relied on, and also an indication of the approximate time required for their comments.

Open committee discussion. The panel will discuss culture media labeling with a view toward specifying the minimum essential information required for proper use of these products by the user.

Each public advisory committee meeting listed above may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing portion. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. The dates and times reserved for the separate portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1-hour long unless public participation does not last that long. It is emphasized, however, that the 1-hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairman determines will facilitate the committee's work.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published in this FEDERAL REGISTER notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairman's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact person the approximate time of discussion.

A list of committee members and summary minutes of meetings may be obtained from the Public Records and Documents Center (HFC-18), 5600 Fishers Lane, Rockville, Md. 20857, between the hours of 9 a.m. and 4 p.m., Monday through Friday. The FDA regulations relating to public advisory committees may be found in 21 CFR Part 14.

The Commissioner, with the concurrence of the Chief Counsel, has determined for the reasons stated that those portions of the advisory committee meetings so designated in this notice shall be closed. The Federal Advisory Committee Act (FACA), as amended by the Government in the Sunshine Act (Pub. L. 94-409), permit such closed advisory committee meetings in certain circumstances. Those portions of a meeting designated as closed, however, shall be closed for the shortest possible time, consistent with the intent of the cited statutes.

The FACA, as amended, provides that a portion of a meeting may be closed where the matter for discussion involves a trade secret; commercial or financial information that is privileged or confidential; information of a personal nature, disclosure of which would be a clearly unwarranted invasion of personal privacy; investigatory files compiled for law enforcement purposes; information the premature disclosure of which would be likely to significantly frustrate implementation of a proposed agency action; and information in certain other instances not generally relevant to FDA matters.

Examples of portions of FDA advisory committee meetings that ordinarily may be closed, where necessary and in accordance with FACA criteria, include the review, discussion, and evaluation of drafts of regulations or guidelines or similar preexisting internal agency documents, but only if their premature disclosure is likely to significantly frustrate implementation of proposed agency action; review of trade secrets and confidential commercial or financial information submitted to the agency; consideration of matters involving investigatory files compiled for law enforcement purposes; and review of matters, such as personnel records or individual patient records, where disclosure would constitute a clearly unwarranted invasion of personal privacy.

Examples of portions of FDA advisory committee meetings that ordinarily shall not be closed include the review, discussion, and evaluation of general preclinical and clinical test protocols and procedures for a class of drugs or devices; consideration of labeling requirements for a class of marketed drugs or devices; review of data and information on specific investigational or marketed drugs and devices that have previously been made public; presentation of any other data or information that is not exempt from public disclosure pursuant to the FACA, as amended; and, notably, deliberative sessions to formulate advice and recommendations to the agency on matters that do not independently justify closing.

Dated: September 15, 1978.

SHERWIN GARDNER,
Acting Commissioner of Food and Drugs.

BUREAU OF DRUGS ADVISORY COMMITTEE CHAIRPERSONS

Meeting

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice announces a meeting of the Bureau of Drugs advisory committee chairpersons to be held on October 6, 1978, in Conference Room G, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, beginning at 9 a.m.

FOR FUTHER INFORMATION CONTACT:

Frank H. Desmond, Bureau of Drugs (HFD-22), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4090.

SUPPLEMENTARY INFORMATION: The preliminary agenda provides for the presentations listed below. Time will be provided for questions from the general public.

Topic and Presenter

FDA advisory committees: why we need them; how we use them. Donald Kennedy, Commissioner of Food and Drugs.

Philosophy of drug regulation, including the role of advisory committees in the evaluation of new drugs. J. Richard Crout, Director, Bureau of Drugs.

Use of advice and recommendations. Marion J. Finkel, Associate Director for New Drug Evaluation.

V 4 3 1 8 5 SEP 22 78 V

Relationships of advisory committees to divisions. Robert Temple, Director, Division of Cardio-Renal Drug Products.

The chairperson's perspective. Theodore King, Former Chairperson, Fertility and Maternal Health Drugs Advisory Committee.

The evaluation of candidates for committee membership. Jerome A. Halperin, Acting Deputy Director, Bureau of Drugs.

Federal conflict of interest statutes: Scope, impact, and pitfalls. Eric Blumberg, Associate Chief Counsel for Enforcement, Office of the General Counsel, Food and Drug Division.

Meeting management. Frank H. Desmond, Chief, Committee Management Branch.

After the presentations and discussion there will be a meeting with the division directors, executive secretaries, and division staffs.

Dated: September 14, 1978.

JOSEPH P. HILE,
Associate Commissioner for Regulatory Affairs.

Food and Drug Administration

[Docket No. 77N-0393; DESI 7245]

CERTAIN INHALATION BRONCHODILATORS

Withdrawal of Approval of New Drug Application; Correction

AGENCY: Food and Drug Administration.

ACTION: Correction.

SUMMARY: This document corrects a notice that was published in the FEDERAL REGISTER of Friday, July 14, 1978.

EFFECTIVE DATE: September 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Nathan J. Treinish, Bureau of Drugs (HFD-32), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3650.

SUPLEMENTARY INFORMATION: In FR Doc. 78-19229 in the FEDERAL REGISTER of Friday, July 14, 1978, on page 30348, column 3, the next to the last paragraph is corrected by changing in the second line "NDA 7-245" to read "NDA 11-726" and in the third line "NDA 11-726" to read "NDA 7-245."

Dated: September 13, 1978.

J. RICHARD CROUT,
Director, Bureau of Drugs.

[FR Doc. 78-26364 filed 9-21-78; 8:45 am]

[4110-03]

[Docket No. 78-0081; DESI 5803]

CERTAIN POORLY ABSORBED SULFONAMIDES FOR ORAL USE

Withdrawal of Approval of New Drug Applications

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice withdraws approval of the new drug applications for two poorly absorbed sulfonamides for oral use. The basis for the withdrawal is the lack of substantial evidence that the drug products are effective for their labeled indications. The drug products, which have been used in the treatment of various gastrointestinal disorders, are no longer marketed.

EFFECTIVE DATE: October 2, 1978.

ADDRESS: Requests for opinion of the applicability of this notice to a specific product should be identified with the reference number DESI 5803 and directed to the Division of Drug Labeling Compliance (HFD-310), Bureau of Drugs, Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Mary E. Catchings, Bureau of Drugs (HFD-32), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3650.

SUPPLEMENTARY INFORMATION: In a notice of opportunity for hearing published in the FEDERAL REGISTER of May 2, 1978 (43 FR 18771), the Director of the Bureau of Drugs proposed to issue an order withdrawing approval of the following new drug applications on the ground that the drug products lack substantial evidence of effectiveness for their labeled indications.

NDA 4-687; that portion of the NDA pertaining to Sulfasuxidine Tablets containing succinylsulfathiazole; Merck Sharp & Dohme, Division of Merck & Co., Inc., West Point, Pa. 19486.

NDA 6—593; Thalamyd Tablets containing phthalylsulfacetamide; Schering Corp., Galloping Hill Road, Kenilworth, N.J. 07003.

All drug products that are identical, related, or similar to the drugs named above and are not the subject of an approved new drug application are covered by the new drug applications reviewed and are subject to this notice (21 CFR 310.6). Any person who wishes to determine whether a specific product is covered by this notice should write to the division of Drug Labeling Compliance (address given above).

Neither the holders of the applications nor any other person filed a written appearance of election as provided by said notice. The failure to file such an appearance constitutes election by such persons not to avail themselves of the opportunity for a hearing.

The Director of the Bureau of Drugs, under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-1053, as amended (21 U.S.C. 355)), and under the authority delegated to him (21 CFR 5.82), finds that on the basis of new information before him with respect to these drug products, evaluated together with the evidence available to him when the applications were approved, there is a lack of substantial evidence that the drug products will have the effects they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in their labeling.

Therefore, pursuant to the foregoing finding, approval of NDA 6-593 and that part of NDA 4-687 providing for the drug product named above and all amendments and supplements applying thereto is withdrawn effective October 2, 1978.

Shipment in interstate commerce of the above products or of any identical, related, or similar product that is not the subject of an approved new drug application will then be unlawful.

Dated: September 15, 1978.

J. RICHARD CROUT,
Director, Bureau of Drugs.

[FR Doc. 78-26598 Filed 9-21-78; 8:45 am]

[4110-03]

[Docket No. 78N-0248]

CHLORTETRACYCLINE, SULFAMETHAZINE, AND VITAMIN TABLETS FOR ANIMAL USE

Opportunity for Hearing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is providing an opportunity for hearing to American Cyanamic Do., P.O. Box 400, Princeton, N.J. 08540, on a proposal to withdraw approval of a new animal drug application (NADA 55-025) for Aureomycin Sulmet Oblets, which contain chlortetracycline, sulfamethazine, vitamins A and D, and niacin for animal use. the ground for the proposed withdrawal is that new information evaluated together with evidence available at the time of the drug's approval shows a lack of substantial evidence of the drug's effectiveness.

DATE: Written appearances requesting a hearing, data, and information in support of hearing requests, and written comments by October 23, 1978.

ADDRESS: Written appearances data, information, and comments to the Hearing Clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

David Scarr, Bureau of Veterinary Medicine (HFV-214), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3183.

SUPPLEMENTARY INFORMATION: Elsewhere in this issue of the FEDERAL REGISTER, the Director of Bureau of Veterinary Medicine proposes to revoke § 546.110e *Chlortetracycline-sulfamethazine tablets* (21 CFR 546.110e), the certification provision for the use of the drug.

A. THE DRUG

Aureomycin Sulmet Oblets contain 125 milligrams (mg) chlortetracycline in combination with 2.5 grams sulfamethazine and 100 mg nicotinic acid, 62,500 international units (I.U.) vitamin A, and 6,250 I.U. vitamin D. The product is labeled for the oral treatment of bacterial scours in calves at a dosage of one oblet daily for calves up to 100 pounds, and two oblets daily for calves 100 to 200 pounds for up to 3 days; it is not to be administered within 5 days of slaughter for food.

B. BACKGROUND

The Bureau of Veterinary Medicine (BVM) informed American Cyanamid by letter dated October 2, 1974, that Aureomycin Sulmet Oblets had been rereviewed for efficacy under guidelines established by the National Academy of Sciences/National Research Council (NAS/NRC). The letter stated, in part, that the efficacy data in the new animal drug application for this combination drug did not meet the requirements for fixed dose combination drugs as set forth in § 514.1(b)(8)(v) (21 CFR 514.1(b)(8)(v)) and that dose response studies (incremental effectiveness, titration studies) were required to insure that the most effective level or levels for each drug is or are used. American Cyanamid has not submitted this additional data, as requested, establishing the drug's effectiveness.

C. DEMONSTRATION OF EFFECTIVENESS

Section 512 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b) requires that a drug have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling. With respect to fixed combination drugs, such as Aureomycin Sulmet Oblets, § 514.1(b)(8)(v) requires that each ingredient designated as active in any new animal drug combination contribute to the effect in the manner claimed or suggested in the labeling. Section 514.1(b)(8)(v) further requires that if, in the absence of express labeling claims of advantages for the combination, such a product purports top be better than either component alone, it must be established that the new animal drug has that purported effectiveness. The requirement of effectiveness includes the requirement that the most effective level for each component be used. In the case of drug combinations for concurrent therapy, such as Aureomycin Sulmet Oblets, the requirement of effectiveness also includes the requirement that the dosage of each component be such that the combination is safe and effective for a population of significant size, specifically described in the labeling as requiring such concurrent therapy.

To demonstrate that Aureomycin Sulmet Oblets are effective, American Cyanamid must submit, in accordance with section 512(d)(3) of the act, substantial evidence consisting of adequate and well-controlled investigations, as defined by § 514.111(a)(5) (21 CFR 514.111(a)(5)), including field investigation.

No data have been submitted by American Cyanamid purporting to show substantial evidence, based on adequate and well-controlled studies, that: (1) The combination of ingredients in the formulation of Aureomycin Sulmet Oblets is effective at the dosage level recommended in the product's labeling; (2) that each active ingredient in the formulation contributes to the effect in the manner claimed or suggested in the labeling; and (3) that the most effective level or levels of each ingredient drug are used as required by § 514.1(b)(8)(v).

D. CONCLUSION

On the basis of all the data and information available, the Director of the Bureau of Veterinary Medicine is unaware of any adequate and well-controlled clinical investigation, conducted by experts qualified by scientific training and experience, meeting the requirements of section 512 of the act and §§ 514.1(b)(8)(v) and 514.111(a)(5) of the regulations and thus demonstrating the effectiveness of this combination drug product. Accordingly, the Director concludes that, on the basis of new information with respect to this drug product evaluated together with the evidence available when the product was originally approved, there is a lack of substantial evidence that the drug product will have the effect it is purported of represented to have under the conditions of use prescribed, recommended, or suggested in its labeling.

Therefore, notice is given to American Cyanamid and to all other interested persons, that the Director proposes to issue an order under section 512(e) of the act and section 108(b) of the Animal Drug Amendments of 1968 (Pub. L. 90-399), withdrawing approval of NADA 55-025 on the ground that the drug product lacks substantial evidence of effectiveness as defined by section 512 (d)(3) and (e)(1)(C) of the act and §§ 514.1(b)(8)(v) and 514.111(a)(5) of the regulations.

This notice of opportunity for hearing encompasses, in addition to the grounds for the proposed withdrawal of the approval, all issues relating to the legal status of the drug product, i.e., any contention that such product is not a new animal drug within the meaning of section 201(w) of the act (21 U.S.C. 321(w)).

In accordance with the provisions of section 512 of the act, section 108 of Pub. L. 90-399, and the regulations promulgated thereunder (21 CFR Part 510), American Cyanamid is hereby given an opportunity for hearing to show why approval of NADA 55-025 should not be withdrawn and why § 546.110e, which provides for its use, should not be revoked in accordance with this proposed withdrawal of approval; and an opportunity to raise, for administrative determination, all issues related to the legal status of Aureomycin Sulmet Oblets. Any other person may also submit comments on this notice within the time and under the requirements specified in this notice.

American Cyanamid shall file, on or before October 23, 1978, a written appearance electing whether or not to avail itself of the opportunity for hearing. Such written appearance shall give the reason why the approval should not be withdrawn, together with a well organized and full factual analysis of the clinical and other investigational data in support of the opposition to the Director's proposal.

Such analysis should include all protocols and underlying raw data and shall be submitted according to the requirements of § 314.200 (c)(2) and (d) (21 CFR 314.200 (c)(2) and (d)), which are hereby made applicable to this notice by reference. Wherever in § 314.200(d) reference is made to the requirements of § 300.50 (21 CFR § 300.50), that reference shall be deemed, for the purposes of this notice, to be a reference to the requirements for combination drug products as expressed in § 514.1(b)(8) and this notice.

The failure of American Cyanamid to file a timely written appearance and request for hearing as required by § 514.200 (21 CFR 514.200) constitutes an election by American Cyanamid not to avail itself of the opportunity for hearing concerning the action proposed and also constitutes a waiver of any contentions concerning the legal status of the drug, and the Director will summarily enter a final order withdrawing approval of NADA 55-025. Aureomycin Sulmet Oblets may not thereafter lawfully be marketed.

A request for hearing may not rest upon mere allegations or denials, but must set forth specific facts showing a genuine and substantial issue of fact that requires a hearing. If a hearing is requested and justified by American Cyanamid's response to this notice of opportunity for hearing, the issues will be defined, an administrative law judge will be assigned, and a written notice of the time and place at which the hearing will commence will be issued as soon as praticable. If it clearly appears, from the data submitted and from the reasons and a factual analysis in the request for hearing, that no genuine and substantial issue of fact precludes the withdrawal of approval of Aureomycin Sulmet Oblets and revocation of the regulation that provides for its use (e.g., if no adequate and well-controlled clinical investigations to support the claims of effectiveness have been identified), the Commissioner of Food and Drugs will enter summary judgment against American Cyanamid, making findings and conclusions, and denying a hearing, and the applicable regulation will be immediately revoked, consistent with such determination, without further opportunity for objection or hearing.

All submissions responding to this notice shall be filed in five copies with the Hearing Clerk (HFA-305), Food and Drug Administration, room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, and shall be identified with the hearing clerk docket number found in brackets in the heading of this document. With the exception of data and information prohibited from public disclosure under section 301(j) of the act (21 U.S.C. 331(j)) or 18 U.S.C. 1905, submissions received may be seen in the office of the hearing clerk during regular business hours.

The interim marketing privileges for sulfonamide-containing drug products that are provided for under § 510.450 (21 CFR 510.450) do not preclude the agency from proceeding against a product when it fails to conform to the other requirements to which it is subject. Because the basis for this action is a failure to meet the requirements of § 514.1(b)(8)(v), interim marketing under § 510.450 will be terminated upon publication of the final order in the FEDERAL REGISTER.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 507, 512, 59 Stat. 463 as amended, 82 Stat. 343-351 (21 U.S.C. 357, 360b)) and the Animal Drug Amendments of 1968 (sec. 108(b), Pub. L. 90-399; 82 Stat. 353) and under authority delegated to the Commissioner (21 CFR 5.1) and redelegated to the Director (21 CFR 5.84).

Dated: September 11, 1978.

LESTER M. CRAWFORD,
Director, Bureau of Veterinary Medicine.

Food and Drug Administration

[FDA-225-78-4006]

REGULATION OF INTERSTATE CARRIER WATER.

Memorandum of Understanding With the Environmental Protection Agency

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) has executed a memorandum of understanding with the Environmental Protection Agency. The purpose of the understanding is to set forth cooperative working arrangements in regulating the suitability of the water intended for drinking and culinary purposes on interstate carrier conveyances.

DATE: The agreement became effective September 14, 1978.

FOR FURTHER INFORMATION CONTACT:

Gary Dykstra, Compliance Coordination and Policy Staff (HFC-13), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3470.

SUPPLEMENTARY INFORMATION: Pursuant to the notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697) stating that future memoranda of understanding and agreements between FDA and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs is issuing the following memorandum of understanding:

MEMORANDUM OF UNDERSTANDING BETWEEN THE ENVIRONMENTAL PROTECTION AGENCY AND THE FOOD AND DRUG ADMINISTRATION

I. Purpose: To provide a mechanism whereby the Environmental Protection Agency (EPA) and the Food and Drug Administration (FDA) will coordinate their agency regulatory activities with respect to the suitability of potable water intended for drinking and culinary purposes on board interstate carrier conveyances (ICC).

II. Scope: For purposes of this agreement "EPA" shall mean the U.S. Environmental Protection Agency acting directly or through the States which have assumed the primary enforcement responsibility under the Safe Drinking Water Act.

There are three elements comprising the composite system which delivers water to the tap on board the Interstate Carrier Conveyance. They are: (1) The public water system from which the interstate carrier conveyance receives its water supply; (2) the watering point where drinking water and culinary water is actually transferred to the ICC, and; (3) the ICC water system itself.

Under the provisions in the Safe Drinking Water Act (SDWA) and its associated regulation, Interstate Carrier Conveyances (ICC) serving drinking water to 25 or more persons at least 60 days per year are public water systems and as such are subject to the national interim primary drinking water regulations (NIPDWR) promulgated by EPA. EPA has jurisdiction under the SDWA over the public water systems furnishing drinking water to ICC's. EPA has certain regulatory authority over watering points and the ICC water system due to the consecutive nature of the systems in assuring suitable drinking water at the tap on board the ICC.

Under the provisions of the Food, Drug, and Cosmetic Act, the Public Health Service Act and their associated regulations, the FDA has authority to regulate water to insure that food is not adulterated and to take actions necessary to prevent the transmission of communicable disease. FDA also has regulatory authority over the ICC onboard culinary systems.

On many of the conveyances, the onboard culinary water and drinking water are within one system. Therefore, the responsibilities of both the EPA and FDA with respect to ICC's are complementary. Thus, a coordinated approach by these agencies will assure the provision of suitable potable water to the traveling public and crews on ICC's.

III. Provisions: To facilitate the purpose of this agreement, it is specifically agreed that:

A. The EPA will administer a regulatory program with respect to public water systems from which ICC's receive their water supply. The public water system that serves the ICC's will sample drinking water and report to the IPA. In case of violation, EPA will take action against the public water system and will notify FDA. FDA will in turn notify the ICC headquarters whose conveyances utilize watering points served by the public water system of the EPA determination and any regulatory action FDA considers appropriate.

B. The EPA will administer a regulatory program with respect to watering point and onboard carrier drinking water suitability. The ICC's and the watering points will sample for the suitability of the drinking water and report to EPA. In the event of a watering point or an onboard system violation, EPA will notify FDA. FDA will in turn notify the ICC headquarters whose conveyances utilize watering points of the EPA determination and any regulatory action FDA considers appropriate. FDA may, if it deems appropriate, include conveyances in violation in their inspection/monitoring schedule.

C. EPA will administer a regulatory program for ICC's using onboard treatment. The ICC's will sample for the suitability of the drinking water and report to EPA. In the event of a violation, EPA will notify FDA.

D. The FDA will continue to administer an ongoing regulatory program with respect to the watering point and onboard carrier culinary water systems. The FDA will notify EPA of violations. This continuing program of construction and operation inspections is complementary to an EPA program.

E. Both agencies will:

1. Maintain close working relations with each other in headquarters and in the field.

2. Exchange procedures and techniques used in determining and administering compliance within the appropriate regulatory constraints promulgated by each agency.

3. Coordinate enforcement efforts, thereby avoiding duplication of efforts, to assure the full safety and health protection of the public.

IV. Duration of agreement: A. This agreement, when accepted by both parties, covers an indefinite period of time and may be modified by mutual consent in writing by both parties, or terminated by either party upon thirty (30) days advance written notice.

B. This agreement will be reviewed annually by both agencies to insure that it is still appropriate and that the terms and provisions are current.

C. Nothing in the agreement is intended to diminish or otherwise affect the authority of either agency to carry out its respective statutory functions.

V. Reports: EPA will provide FDA an annual report on compliance status of public water systems used in conjunction with carriers and compliance status of drinking water suitability of ICC's and watering points.

FDA will provide EPA an annual report on location and compliance of watering points and compliance status of carrier culinary water systems.

VI. Liaison officers: A. A liaison officer has been designated for each agency to serve as a contact point. These liaison officers will be responsible for maintaining communication as to procedures and internal activities of their respective agencies in the area of common interest. These liaison officers are as follows:

1. For EPA: Liaison Officer—Chief, Drinking Water Branch, ODW (WH-550), U.S. Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460, telephone 202-426-3983.

2. For FDA: Liaison Officer—Chief, Interstate Travel Sanitation Branch (HFF-324), Food and Drug Administration, Bureau of Foods, 200 C Street SW., Washington, D.C. 20204, telephone 202-245-1505.

B. The respective liaison officer accompanied by appropriate staff will hold meetings from time to time, but not less than annually, to discuss matters of concern to each agency.

VII. Authority: The Public Health Service Act (Pub. L. 78-410), the Food, Drug, and Cosmetic Act (P21 USC 321), the Safe Drinking Water Act (Pub. L. 93-523).

Dated: July 14, 1978.

For the U.S. Environmental Protection Agency:

THOMAS C. JORLING,
Assistant Administrator,
Office of Water and Hazardous Materials.

Dated: September 14, 1978.

For the Food and Drug Administration:

JOSEPH P. HILE,
Associate Commissioner
for Regulatory Affairs.

Effective date. This memorandum of understanding became effective September 14, 1978.

Dated: September 18, 1978.

JOSEPH P. HILE,
Associate Commissioner for Regulatory Affairs.

National Institute of Education

EXPERIMENTAL PROGRAM FOR OPPORTUNITIES IN ADVANCED STUDY AND RESEARCH IN EDUCATION

Closing Date for Receipt of Applicotidns

Notice is given that applications are being accepted for the second grants competition under the Experimental Program for Opportunities in Advanced Study and Research in Education according to the authority contained in section 405 of the general education provisions as amended, 20 U.S.C. 1221e.

A college, university, State department of education, local education agency, other public or private agency, organization, or group, or any combination of these is an eligible applicant. Support will be provided to improve opportunities for individuals to obtain high quality expertise and experience in educational research with emphasis upon opportunities for minority persons and women.

Applicants should note that there is a change from prior National Institute of Education practice which was to accept mailed applications for new awards only if they were received by the proposal clearinghouse on or before the closing date. Under a new procedure a mailed application meets the requirement if it is mailed on or before the closing date and the required proof of mailing is provided as explained in paragraph C below.

Closing date: December 1, 1978.

A. *Application and program information.* Interested persons may obtain a program announcement from the Program Staff, Minorities and Women's Program, National Institute of Education, Room 624, 1200 19th Street NW., Washington, D.C. 20208, telephone 202-254-8827. The program announcement includes the guidelines governing the program, information on the availability of funds, expected number of awards, eligibility and review criteria, and instructions on how to apply. Also included with the program announcement for this second grants competition will be a supplemental sheet that announces the modifications made to the previous program announcement. Persons interested in applying for research support under this program must submit a written request for the program announcement together with a self-addressed mailing label.

B. *Estimated distribution of program funds.* The program has a proposed funding allocation of $1.5 million in fiscal year 1979, It is expected that there will be about 24 project awards. The program will support projects of the highest quality. Further, nothing in the announcement will commit the Institute to award any specific amount. The actual total of funds awarded may change because of a need to reserve funds for continuation of projects begun earlier, for contract or in-house research or because of budget or staffing restrictions.

C. *Applications delivered by mail.* An application sent by mail must be addressed to the National Institute of Education, Proposal Clearinghouse, Attention: Experimental Program for Opportunities in Advanced Study and Research in Education. Applications will be accepted only if they are mailed on or before the closing date and the following proof of mailing is provided:

Proof of mailing must consist of a legible U.S. Postal Service dated postmark or a legible mail receipt with date of mailing stamped by the U.S. Postal Service. Private metered postmarks or mail receipts will not be accepted without a legible date stamped by the U.S. Postal Service

NOTE.—The U.S. Postal Service does not uniformly provide a dated postmark. Applicants should check with their local post office before relying on this method.

Applicants are encouraged to use registered or at least first-class mail.

Each late applicant will be notified that its application will not be considered in the current competition.

D. *Applications delivered by hand.* An application that is hand-delivered must be taken to the Proposal Clearinghouse, Room 708, 1832 M Street NW., Riviere Building, Washington, D.C. The proposal clearinghouse will accept hand-delivered applications between 8 a.m. and 4:30 p.m., Washington, D.C. time, daily, except Saturdays, Sundays, and Federal holidays. Applications for new awards that are hand-delivered will not be accepted after 4:30 p.m. on the closing date.

E. *Applicable regulations.* The regulations applicable to this program include the National Institute of Education general provisions regulations (45

CFR, subch. A) published in the FEDERAL REGISTER on November 4, 1974, 39 FR 38992, and the final rule for the Experimental Program for Opportunities in Advanced Study and Research in Education published in the FEDERAL REGISTER on July 31, 1978, 43 FR 33646.

(Catalog of Federal Domestic Assistance No. 13.950, Educational Research and Development.)

Dated: September 15, 1978.

PATRICIA ALBJERG GRAHAM,
Director, National Institute of Education.

National Institutes of Health

REPORT ON BIOASSAY OF 5-NITRO-O-TOLUIDINE FOR POSSIBLE CARCINOGENICITY

Availability

5-nitro-o-toluidine (CAS 99-55-8) has been tested for cancer-causing activity with rats and mice in the carcinogenesis program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary. A bioassay of 5-nitro-o-toluidine for possible carcinogenicity was conducted using Fischer 344 rats and B6C3F1 mice. 5-nitro-o-toluidine was administered in the feed, at either of two concentrations, to groups of 50 male and 50 female animals of each species. The time-weighted average high and low dietary concentrations of 5-nitro-o-toluidine were, respectively, 0.01 and 0.005 percent for rats, and 0.23 and 0.12 percent for mice. After a 78-week period of compound administration, observation of the rats continued for an additional 30 to 31 weeks and observation of the mice continued for up to an additional 20 weeks.

For each species, 50 animals of each sex were placed on test as controls and fed only the basal diet.

There were no significant positive associations between the concentration of 5-nitro-o-toluidine administered and mortality in rats or mice of either sex, and adequate numbers of animals in all groups survived sufficiently long to be at risk from late-developing tumors.

Under the conditions of this bioassay 5-nitro-o-toluidine was carcinogenic in B6C3F1 mice, causing hepatocellular carcinomas in both sexes, an increase in the combined incidence of hemangiomas and hemangiosarcomas in male mice, and an increased incidence of hemangiosarcomas in female mice. The compound was not carcinogenic in Fischer 344 rats.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

(Catalog of Federal Domestic Assistance Program No. 13.393, Cancer Cause and Prevention Research.)

Dated: September 14, 1978.

DONALD S. FREDRICKSON,
Director, National Institutes of Health.

[4110-08]

REPORT ON BIOASSAY OF O-ANISIDINE HYDROCHLORIDE FOR POSSIBLE CARCINOGENICITY

Availability

o-anisidine hydrochloride (CAS 134-29-0) has been tested for cancer-causing activity with rats and mice in the bioassay program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary. A bioassay of o-anisidine hydrochloride for possible carcinogenicity was conducted by administering the test chemical in feed to Fischer 344 rats and B6C3F1 mice. Applications of the chemical include use as an ingredient of dyes and as an intermediate in the manufacture of gualacol.

It is concluded that under the conditions of this bioassay, o-anisidine hydrochloride was carcinogenic for Fischer 344 rats and B6C3F1 mice, including transitional-cell carcinomas or papillomas of the bladder in both rats and mice and in both sexes of each species, transitional-cell carcinomas of the pelvis of the kidney in male rats, and follicular-cell tumors of the thyroid in male rats.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

(Catalog of Federal Domestic Assistance Program No. 13.393, Cancer Cause and Prevention Research.)

Dated: August 25, 1978.

LEON M. SCHWARTZ,
Acting Director, National Institutes of Health.

[4110-08]

REPORT ON BIOASSAY OF THIO-TEPA FOR POSSIBLE CARCINOGENICITY

Availability

Thio-TEPA (CAS 52-24-4) has been tested for cancer-causing activity with rats and mice in the bioassay program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary. A bioassay of thio-TEPA for possible carcinogenicity was conducted by administering the test chemical by intraperitoneal injection to Sprague-Dawley rats and B6C3F1 mice. The chemical is a drug used in treatment of certain types of cancer.

It is concluded that under the conditions of this bioassay, thio-TEPA was carcinogenic in both Sprague-Dawley rats and B6C3F1 mice. In the rats, the chemical induced squamous-cell carcinoma of the skin or ear canal in both males and females, and hematopoietic neoplasms in the males; in the mice, it induced lymphoma or lymphocytic leukemia in both sexes and squamous-cell carcinoma in the skin and associated glands of males.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

(Catalog of Federal Domestic Assistance Program No. 13.393, Cancer Cause and Prevention Research.)

Dated: August 25, 1978.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

BURLEY DISTRICT GRAZING ADVISORY BOARD

Meeting

Notice is hereby given in accordance with Pub. L. 92-463 that a meeting of the Burley District Grazing Advisory Board will be held on November 8 and 9, 1978.

On November 8 the meeting will begin at 9 a.m. in the conference room of the Bureau of Land Management office at 200 South Oakley Highway, Burley, Idaho. On November 9 the meeting will convene at 8 a.m. at the same place. Attendees will then travel to the Bannock-Oneida grazing environmental statement area for a tour of the area (weather permitting).

The agenda for the meeting will include:

(1) A discussion of the function of the Board;

(2) Organization of the Board (election of officers);

(3) The expenditure of range betterment and advisory board funds for range improvements;

Bannock-Oneida grazing environmental statement;

(5) Discussion of the Board's future involvement in the allotment management plan program;

(6) The arrangement for the next meeting;

(7) Tour of the Bannock-Oneida grazing environmental statement area to review proposals for AMP's.

The meeting is open to the public. Interested persons may make oral statements to the Board between 3:30 p.m. and 5 p.m. on November 8, 1978, or file written statements for the Board's consideration. Anyone wishing to make an oral statement must notify the district manager, Bureau of Land Management, Route 3, Box 1, Burley, Idaho 83318, by November 3, 1978. Depending on the number of persons wishing to make oral statements, a per person time limit may be established by the district manager. Persons desiring to make the tour on November 9 should furnish their own transportation, food and drink.

Summary minutes of the Board meeting will be maintained in the district office and be available for public inspection and reproductions (during regular business hours 7:45 a.m. to 4:30 p.m.) within 30 days following the meeting.

NICK JAMES COZAKOS,
District Manager.

[NM 34442]

NEW MEXICO

Proposed Withdrawal and Reservation of Lands

SEPTEMBER 13, 1978.

The Forest Service, Department of Agriculture, on August 16, 1978, filed application, serial No. NM 34442, for the withdrawal of the following described lands within the Lincoln National Forest from location and entry under the Mining laws only (30 U.S.C. ch. 2) subject to valid existing rights:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

EAGLE CREEK DAM AND RESERVOIR

T. 10 S., R. 13 E.;
Sec. 31, NE¼NE¼, S½NW¼NE¼, S½NE¼, E½SW¼ and SE¼ less parts of Tracts A, B, and C of HES 247;
Sec. 32, S½NE¼NW¼, NW¼NW¼, S½NW¼, NE¼SW¼, N½SW¼SW¼, and NW¼SW¼ less parts of Tracts A, B, and C of HES 247.

The areas described approximately 553.83 acres in Lincoln County, N.M. The lands involved are needed for a dam and reservoir for water storage for the village of Ruidoso as outlined in the final environmental statement issued November 9, 1977.

On or before October 23, 1978, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned authorized officer of the Bureau of Land Management.

Pursuant to section 204(h) of the Federal Land Policy and Management Act of 1976, notice is hereby given that an opportunity for a public hearing is afforded in connection with the proposed withdrawal. All interested persons who desire to be heard on the proposed withdrawal must submit a written request for a hearing to the undersigned. Notice of the public hearing will be published in the FEDERAL REGISTER giving the time and place of such hearing. The public hearing will be scheduled and conducted in accordance with Bureau of Land Management manual, section 2351.16B.

The Department of the Interior's regulations provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demands for the lands and their resources with the view of assuring that the area sought is the minimum essential to meet the applicant's needs, providing for the maximum concurrent utilization of the lands for purposes other than the applicant's, and reaching agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior, who will determine whether or not the lands will be withdrawn and reserved as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. The Secretary's determination shall, in a proper case, be subject to the provisions of section 204(c) of the Federal Land Policy and Management Act of 1976, 90 Stat. 2752.

For a period of 2 years from the date of publication of this notice in the FEDERAL REGISTER, the lands will be segregated from entry as specified above unless the application is rejected or the withdrawal is approved prior to that date. If the withdrawal is approved by the Secretary, the segregation will remain in effect for a period of 20 years from the date of such approval.

All communications in connection with this proposed withdrawal should be addressed to the undersigned, Bureau of Land Management, Department of the Interior, P.O. Box 1449, Santa Fe, N.M. 87501.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

NEW MEXICO

Applications

SEPTEMBER 15, 1978.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Co. has applied for three 4½-inch natural gas pipeline rights-of-way and related facilities within the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 29 N., R. 8 W.,
Sec. 32, SE¼NE¼;
Sec. 33, S½NW¼ and NE¼SW¼.
T. 28 N., R. 11 W.,
Sec. 15, SE¼SW¼;
Sec. 22, NW¼NE¼ and NE¼NW¼.
T. 31 N., R. 13 W.,
Sec. 11, W½NE¼, SE¼NE¼, and NE¼NW¼.

These pipelines will convey natural gas across 1.309 miles of public lands in San Juan County, N.Mex.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the applications should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the district manager, Bureau of Land Management, P.O. Box 6770, Albuquerque, N.Mex. 87107.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

[Wyoming 64691]

WYOMING

Application

SEPTEMBER 13, 1978.

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Northwest Pipeline Corp. of Salt Lake City, Utah filed an application for a right-of-way to construct a 4½ inch o.d. pipeline for the purpose

of transporting natural gas across the following described public lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 18 N., R. 111 W.,
Sec. 8, SW¼SW¼, NE¼SE¼ and S½SE¼;
Sec. 20, NE¼NE¼;
Sec. 28, E½W½.

The proposed pipeline designated as lateral B-2 will transport natural gas produced from the Champlin No. 356 Well located in the NE¼SW¼ sec. 9 to a point of connection with Northwest Pipeline Corp.'s Moxa Arch Gathering System crossing the above-listed public lands within T. 18 N., R. 111 W., Sweetwater County, Wyo.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, Highway 187 N., P.O. Box 1869, Rock Springs, Wyo. 82901.

MARINE MAMMAL/ENDANGERED SPECIES PERMIT

Receipt of Application; Correction

Applicant: John L. Bengston, Department of Ecology and Behavioral Biology, University of Minnesota, 108 Zoology Building, Minneapolis, Minn. 55455.

On September 12, 1978, a notice of receipt of application from John L. Bengston for a marine mammal permit to authorize the taking of 15 West Indian manatees (*Trichechus manatus*) was published in FEDERAL REGISTER, volume 43, page 40549-50.

The first sentence made reference to sea otters. This is an error and the sentence should have read as follows: "Notice is hereby given that an applicant has applied in due form for a permit to take West Indian manatees as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), and the regulation governing the taking and importing of Marine Mammals (40 CFR Part 18), and section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205)."

All other information in this notice of September 12, 1978, is correct.

(4) A review of the current policy and program relating to allotment management plans and the upcoming

COMMITTEE FOR THE PRESERVATION OF THE WHITE HOUSE

Meeting

Notice is hereby given in accordance with Federal Advisory Committee Act that a meeting of the Committee for the Preservation of the White House will be held at 1:30 p.m. on Friday, October 20, 1978 in the Reception Suite, National Museum of History and Technology, Smithsonian Institution, Washington, D.C.

The Committee was established for the purpose of advising the Director of the National park Service so that he may make recommendations to the President concerning the preservation and the interpretation of the museum character of the principal corridor on the ground floor and the principal public rooms on the first floor of the White House. The Committee shall make recommendations as to the articles of furniture, fixtures, and decorative objects which shall be used or displayed in the aforesaid areas of the White House and as to the decor and arrangements therein best suited to enhance the historic and artistic values of the White House and of such articles, fixtures, and objects.

Purpose of the meeting: The committee will discuss and recommend priorities for acquisition to the White House Collection, receive subcommittee reports and reports on previous acquisitions and loans.

The meeting will be open to the public. Public attendance depending on available space will be limited to those who have notified the Executive Secretary of the committee in writing at least 5 days prior to the meeting of their intention to attend the October 20 meeting.

Any member of the public may file a writtten statement with the committee before, during, or after the meeting. To the extent that time permits the committee chairman may allow public paricipation.

All communication regarding the committee should be addressed to Mr. Elmer S. Atkins, Executive Secretary, Committee for the Preservation of the White House, Room 344, 1100 Ohio Drive SW., Washington, D.C. 20242.

Dated: September 15, 1978.

HARPERS FERRY NATIONAL HISTORICAL PARK, W. VA.

Availability of Assessment of Alternatives

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared an assessment of alternatives for the development concept plan, Harpers Ferry National Historical Park, W. Va., section. This assessment of alternatives and a development concept plan have been undertaken to guide future development in a manner that will be in full compliance with applicable environmental and historial legislation. It addresses the problems of the park as they relate to the internal management of the park and its environs. It includes description of the environment, description of alternatives developed to solve these problems and an assessment of the impacts and cost effectiveness of these alternatives.

Written comments on this assessment of alternatives are invited and will be accepted for a period of 45 days following the publication of this notice. Written comments should be addressed to Superintendent, Harpers Ferry National Historical Park, P.O. Box 65, Harpers Ferry, W. Va. 25425. Copies of the assessment of alternatives are available for inspection at:

Harpers Ferry National Historical Park, Superintendent's Office, P.O. Box 65, Harpers Ferry, W. Va. 25425.

WEST POTOMAC PARK AND FRANKLIN DELANO ROOSEVELT MEMORIAL

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement for West Potomac Park and the proposed Franklin Delano Roosevelt Memorial. This environmental statement addresses the planning, design, and construction of the FDR Memorial, rehabilitation of West Potomac Park south of the Reflecting Pool, to include provision of Tourmobile Service, parking for handicapped visitors at the memorial entry, parking for visitors' cars and for tour buses between the 14th Street Bridges off Ohio Drive, and relocation of all sports facilities.

Prior to implementation of the memorial, as delineated in this statement, the Congress and the President will

V 43 185 SEP 22 78 V

V 43 / 185 SEP 22 78

have to approve and authorize its construction.

Written comments on the draft environmental statement are invited and will be accepted for a period up to and including November 6, 1978.

Written comments should be addressed to the Regional Director, National Capital Region, 1100 Ohio Drive SW., Washington, D.C. 20242.

Copies of the draft environmental statement are available for inspection at;

National Park Service, National Capital Region, 1100 Ohio Drive SW., Room 208, Washington, D.C. 20242.

Martin Luther King Library, Room 417, 9th and G Streets NW., Washington, D.C. 20001.

District of Columbia, Department of Recreation, 3149 16th Street NW., Room B-2, Washington, D.C. 20010.

Copies of the draft environmental statement are available from the National Park Service, National Capital Region, 1100 Ohio Drive SW., Room 208, Washington, D.C. 20242.

Dated: September 15, 1978.

LARRY E. MEIEROTTO,
Deputy Assistant Secretary of the Interior.

YOSEMITE NATIONAL PARK

Intention to Negotiate Concession Contract

Pursuant to the provisions of section 5 of the act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that thirty (30) days after the date of publication of this notice, the Department of the Interior, through the Director of the National Park Service, proposes to negotiate a concession contract with Jack W. Vaughn, David L. Vaughn and E. Hugh Carter, doing business as El Portal Market, authorizing it to continue to provide concession facilities and services for the public at El Portal Administrative Site, Yosemite National Park for a period of five (5) years from January 1, 1979, through December 31, 1983.

An assessment of the environmental impact of this proposed action has been made and it has been determined that it will not significantly affect the quality of the environment, and that it is not a major Federal action having a significant impact on the environment under the National Environmental Policy Act of 1969. The environmental assessment may be reviewed in the Office of the Superintendent, Yosemite National Park, Calif. 95389.

The foregoing concessioner has performed its obligations to the satisfaction of the Secretary under an existing contract which expires by limitation of time on December 31, 1978, and therefore, pursuant to the act of October 9, 1965, as cited above, is entitled to be given preference in the renewal of the contract and in the negotiation of a new contract. This provision, in effect, grants El Portal Market, as the present satisfactory concessioner, the right to meet the terms of responsive proposals for the proposed new contract and a preference in the award of the contract, if, thereafter, the proposal of El Portal Market is substantially equal to others received. In the event a responsive proposal superior to that of El Portal Market (as determined by the Secretary) is submitted, El Portal Market will be given the opportunity to meet the terms and conditions of the superior proposal the Secretary considers desirable, and, if it does so, the new contract will be negotiated with El Portal Market. The Secretary will consider and evaluate all proposals received as a result of this notice. Any proposal, including that of the existing concessioner, must be submitted within thirty (30) days after the publication date of this notice to be considered and evaluated.

Interested parties should contact the Chief, Division of Concessions Management, National Park Service, Washington, D.C. 20240, for information as to the requirements of the proposed contract.

Dated: September 14, 1978.

F. ROSS HOLLAND, JR.,
Acting Associate Director, National Park Service.

CORRECTION OF BOUNDARY DESCRIPTION

Perry's Victory and International Peace Memorial

There appeared in the FEDERAL REGISTER of August 16, 1978, on page 36332, a notice of boundary change of Perry's Victory and International Peace Memorial containing a description of the boundaries.

Now, therefore, in order to correct certain minor errors, the following corrections are made for the boundary descriptions: Page 36332, 18th line from end of description

SEE: "49°59'00" west a distance of 346.00 feet to the centerline of Delaware Avenue, extended and of Delaware Avenue 495.00 feet to a point,"

SHOULD READ: "49°59'00" west a distance of 346.00 feet to the centerline of Delaware Avenue extended; thence north 89°31'45" west along said centerline of Delaware Avenue extended and of Delaware Avenue 495.00 feet to a point,"

The remainder is correct.

RANDALL R. POPE,
Acting Regional Director, Midwest Region, National Park Service.

DEPARTMENT OF JUSTICE

Law Enforcement Assistance Administration

OFFICE OF CRIMINAL JUSTICE EDUCATION AND TRAINING

Internship Program Funds

The Office of Criminal Justice Education and Training announces the annual competition for internship program funds. This program provides grants to institutions of higher education that offer criminal justice-related degree programs. The purpose of the institutional grant is to provide stipends up to $65 a week for criminology/criminal justice majors or degree candidates to work as interns in public criminal justice agencies.

The institution must sponsor a project that provides internships of at least 8 weeks for its students to work a minimum of 30 hours a week during their summer recess or while they are on academic leave from their degree program.

Institutions are invited to submit a concept paper describing the proposed internship project. The deadline for receipt of concept papers is November 1, 1978. Following review of the concept papers by qualified academicians and LEAA specialists, selected institutions will be asked to submit a formal application for funds (using standard form 424). Grant awards will be announced by April 30, 1979.

To participate in the internship program, the sponsoring college or university must be an institution of higher education that is fully accredited by a regional institutional accrediting commission recognized by the U.S. Commissioner of Education and the Council on Postsecondary Accreditation. The institution must be able to demonstrate its willingness and capability to respond to identified personnel needs of the criminal justice system. The institution is responsible for arranging intern placements and for monitoring the project.

Further information and copies of the program guidelines may be obtained by contacting: J. Robert Lewis, Office of Criminal Justice, Education and Training, Law Enforcement Assistance Administration, U.S. Department of Justice, Washington, D.C. 20531, telephone, 202-376-3563.

Dated: September 7, 1978.

[8010-01]

[File No. 1-5950]

AMERICAN MEDICAL BUILDINGS, INC.

Application To Withdraw From Listing and Registration

SEPTEMBER 15, 1978.

The above-named issuer has filed an application with the Securities and Exchange Commission, pursuant to section 12(d) of the Securities Exchange Act of 1934 and rule 12d2-2(d) promulgated thereunder, to withdraw the specified security from listing and registration on the Boston Stock Exchange, Inc. ("BSE").

The reasons alleged in the application for withdrawing this security from listing and registration include the following:

The common stock of American Medical Buildings, Inc. (the "Company") has been listed for trading on the Pacific Stock Exchange, Inc. ("PSE") since August 1, 1973, and on the BSE since January 19, 1976. On August 22, 1978, the stock was also listed for trading on the American Stock Exchange, Inc. ("Amex"). The Company has decided that it no longer wishes to have its common stock listed on the BSE.

The application relates solely to the withdrawal from listing and registration on the BSE and shall have no effect on the continued listing of such common stock on the Amex and the PSE. The BSE has posed no objection in this matter.

V

VOL 43 NO 185 SEP 22 78

Any interested person may, on or before October 17, 1978, submit by letter to the Secretary of the Securities and Exchange Commission, Washington, D.C. 20549, facts bearing upon whether the application has been made in accordance with the rules of the Exchange and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission will, on the basis of the application and any other information submitted to it, issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 10407; 811-1285]

EGRET FUND, INC.

Filing of Application Act for an Order Declaring That the Applicant Has Ceased To Be an Investment Company

SEPTEMBER 14, 1978.

Notice is hereby given that Egret Fund, Inc., a Massachusetts corporation ("Applicant"), One Beacon Street, Boston, Mass. 02108, registered under the Investment Company Act of 1940 ("Act") as an open-end, diversified management investment company, has filed an application on July 31, 1978, pursuant to section 8(f) of the Act, for an order of the Commission declaring that Applicant has ceased to be an investment company as defined by the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The Applicant states that it registered under the Act on September 17, 1964, and that it has issued only common stock, such stock having been first effectively registered under the Securities Act of 1933 on November 18, 1964.

The Applicant states that its Board of Directors recommended to its shareholders that substantially all of the Applicant's assets be transferred to Pioneer Fund, Inc. ("Pioneer"), in exchange for shares of Pioneer, and that Applicant be liquidated. According to the application, the shareholders of Applicant approved the proposed agreement and plan of reorganization at a special meeting held July 21, 1978, by a vote of not less than two-thirds of its outstanding shares. Applicant states that its assets were transferred to Pioneer on July 24, 1978, and that, on that same date, the shares of Pioneer received in exchange for such assets were distributed to Applicant's shareholders. Applicant states further that such exchange was made on the basis of relative net asset values.

On the business day next preceding its liquidation, Applicant asserts that it had 2,963,425 shares outstanding having an aggregate net asset value of $31,300,425 and a per share net asset value of $10.56. Applicant further asserts that all of its shareholders received distributions in complete liquidation of their interests, and that it has no assets, no liabilities, is not a party to any litigation and does not propose engaging in any business activity other than that necessary for the winding up its affairs.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and that, upon the effectiveness of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than October 6, 1978, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney at law, by certificate) shall be filed contemporaneously with the request. As provided by rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[File No. 1-7062]

REALTY ReFUND TRUST

Application to Withdraw from Listing and Registration

SEPTEMBER 15, 1978.

The above-named issuer has filed an application with the Securities and Exchange Commission, pursuant to section 12(d) of the Securities Exchange Act of 1934 and rule 12d2-2(d) promulgated thereunder, to withdraw the specified security from listing and registration on the American Stock Exchange, Inc. ("Amex").

The reasons alleged in the application for withdrawing this security from listing and registration include the following:

The Shares of Beneficial Interest ("Shares") of Realty ReFund Trust (the "Company") have been listed for trading on the Amex since November 16, 1972. On April 24, 1978 the Shares were also listed for trading on the New York Stock Exchange, Inc. ("NYSE") and concurrently therewith, the Shares were suspended from trading on the Amex. In making the decision to withdraw its Shares from listing and registration on the Amex, the Company considered the direct and indirect costs and expenses attendant to maintaining a dual listing on both exchanges. The Company does not see any particular advantage in the dual trading of the Shares and believes that dual listing would fragment the market for such Shares.

The application relates solely to the withdrawal from listing and registration on the Amex and shall have no effect on the continued listing of such Shares on the NYSE. The Amex has posed no objection in this matter.

Any interested person may, on or before October 17, 1978, submit by letter to the Secretary of the Securities and Exchange Commission, Washington, D.C. 20549, facts bearing upon whether the application has been made in accordance with the rules of the Exchange and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission will, on the basis of the application and any other information submitted to it, issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

SMALL BUSINESS ADMINISTRATION

[License No. 09/09-5218]

HUB ENTERPRISES, LTD.

Issuance of a License To Operate as a Small Business Investment Company

On July 3, 1978, a notice was published in the FEDERAL REGISTER (43 FR 28876), stating that HUB Enterprises, Ltd. located at 5218 Doyle Street, Emeryville, Calif. 94608, had filed an application with the Small Business Administration pursuant to 13 CFR, 107.102 (1978) for a license to operate as a small business investment company under the provisions of section 301(d) of the Small Business Investment Act of 1958, as amended.

The period for comment expired on July 18, 1978, and no comments were received.

Notice is hereby given that having considered the application and other pertinent information, SBA has issued License No. 09/09-5218 to HUB Enterprises, Ltd.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: September 15, 1978.

PETER F. MCNEISH,
Deputy Associate Administrator for Investment.

[FR Doc. 78-26685 Filed 9-21-78; 8:45 am]

[8025-01]

[Proposed License No. 09/09-0223]

MONTGOMERY STREET PARTNERS INC.

Application for a License To Operate as a Small Business Investment Company

Notice is hereby given of the filing of an application with the Small Business Administration pursuant to 13 CFR 107.102 (1978) by Montgomery Street Partners Inc., 44 Montgomery Street, San Francisco, Calif. 94104, for a license to operate as a small business investment company (SBIC) under the provisions of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.).

The proposed officers, directors, and principal stockholders are:

Name, Title and Stockholder

Roslyn Braeman Payne, 3616 Jackson Street, San Francisco, Calif., President, Chief Financial Officer and Director, 50 percent.

Lisle W. Payne, 3616 Jackson Street, San Francisco, Calif., Vice President, Secretary, Director, 50 percent.

Thomas E. Bailard, 127 Selby Lane, Atherton, Calif. 94025, Director.

The applicant will begin operations with initial capitalization of $302,000. Lisle and Roslyn Payne will commit to purchase an additional $100,000 of stock of the applicant in each of the 2 years following issuance of a license to the applicant. The applicant understands that no SBA leverage will be provided until its private capital is increased to at least $500,000.

Subject to the restrictions of section 107.101(c)(2) of the SBA Regulations, the applicant's investments will emphasize companies within major groups 15, 65, and 70 of the Standard Industrial Classification Manual. Still the applicant's investment policy will be broad. It is expected that wherever possible and practical the investments will be made on an equity basis. Management consulting and financial advisory services may be provided to clients and others.

Matters involved in the SBA's consideration of the application include the general business reputation and character of the proposed owners and management, including adequate profitability and financial soundness, in accordance with the act and SBA rules and regulations promulgated thereunder.

Any person may on or before October 10, 1978 submit to the SBA written comments on the proposed SBIC to the Deputy Associate Administrator for Investment, 1441 L Street NW., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in San Francisco, Calif.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: September 15, 1978.

PETER F. MCNEISH,
Deputy Associate Administrator for Investment.

4

CONSUMER PRODUCT SAFETY COMMISSION.

DATE AND TIME: September 28, 1978, 9:30 a.m.

LOCATION: Third floor hearing room, 1111 18th Street NW., Washington, D.C. 20207.

STATUS: Open.

MATTERS TO BE CONSIDERED:

AGENDA

A. Open to the public

1. *Briefing on architectural glazing petition—glazed panels (CP 78-10).* The staff will brief the Commission on issues related to a petition which seeks revision of the terms "glazed panel" and "sliding glass door (patio type)," as these terms are used in CPSC's Safety Standard for Architectural Glazing. The Commission previously considered this petition at the August 17 briefing and at the August 24 meeting.

2. *Recommendation to close possible substantial product hazard case: Tonka Corp., plastic toy vehicles, ID 78-6.* Based on its evaluation of the risk of injury presented by these toy vehicles whose wheels may break off, the staff has recommended that the Commission close this case involving Tonka Corp.

3. Recommendation to accept corrective action plan: Honeywell, Inc., fan controls, ID 78-59. The staff has recommended that the Commission accept and monitor the corrective action plan which Honeywell has implemented to deal with a possible defect in certain fan and/or limit controls it manufactures for use in home warm air furnaces. Honeywell is recalling and testing suspect units, and has altered its manufacturing process.

CONTACT PERSON FOR ADDITIONAL INFORMATION:

Sheldon D. Butts, Assistant Secretary, Office of the Secretary, Consumer Product Safety Commission, Suite 300, 1111 18th Street NW., Washington, D.C. 20207, telephone 202-634-7700.

6

FEDERAL DEPOSIT INSURANCE CORPORATION.

NOTICE OF AGENCY MEETING

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 4:15 p.m. on Wednesday, September 13, 1978, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session, by telephone conference call, to extend for 60 days the time in which an administrative hearing is to be held in connection with cease-and-desist proceedings the Corporation has instituted against an insured State nonmember bank, pursuant to section 8(b) of the Federal Deposit Insurance Act (12 U.S.C. 1818(b)).

In calling the meeting, the Board determined, on motion of Director William M. Isaac (Appointive), seconded by Mr. C. F. Muckenfuss III, acting in the place and stead of Acting Chairman John G. Heimann, that Corporation business required its consideration of the matter on less than 7 days' notice to the public; that no earlier notice of the meeting was practicable; and that the matter was eligible for consideration in a closed meeting, pursuant to subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8), and (c)(9)(A)(ii)), since the public interest did not require consideration of the matter in a meeting open to public observation.

Dated: September 13, 1978.

FEDERAL DEPOSIT INSURANCE CORPORATION,
ALAN R. MILLER,
Executive Secretary.

[S-1928-78 Filed 9-20-78; 3 p.m.]

[6715-01]

7

FEDERAL ELECTION COMMISSION

DATE AND TIME: Wednesday, September 27, 1978, at 10 a.m.

PLACE: 1325 K Street NW., Washington, D.C.

STATUS: This meeting will be closed to the public.

MATTERS TO BE CONSIDERED: Audit Reports, Compliance, and Personnel.

* * * * *

DATE AND TIME: Thursday, September 28, 1978, at 10 a.m.

STATUS: Portions of this meeting will be open to the public and portions will be closed.

MATTERS TO BE CONSIDERED:

Portions open to the public:

Setting of dates for future meetings.
Correction and approval of minutes.
Advisory opinions: AO 1978-56, AO 1978-61, AO 1978-28, AO 1978-72.
Appropriations and budget.
Earmarked contributions.
Presidential campaign disclosure form.
Pending legislation.
Pending litigation.
Liaison with other Federal agencies.
Classification actions.
Reports from division heads.
Nonfiler procedures.
Interpretation and application of 2 U.S.C. 438(b) regarding clearinghouse (if not concluded on September 21, 1978).
Routine administrative matters.

Portions closed to the public:

Any matters not concluded on Wednesday, September 27, 1978.

PERSON TO CONTACT FOR INFORMATION:

Mr. David Fiske, Press Officer, telephone 202-523-4065.

MARJORIE W. EMMONS,
Secretary to the Commission.

PRIVACY ACT OF 1974

Annual Publication

[3510-17]

DEPARTMENT OF COMMERCE

Office of the Secretary

PRIVACY ACT ISSUANCES

Annual Publication of Systems of Records

Agency: U.S. Department of Commerce.

Action: Annual notice of systems of records; incorporation by reference of Privacy Act issuances; proposal to revise routine uses of two existing systems.

Summary: Federal agencies are required by the Privacy Act of 1974 to give annual notice of certain records they maintain. The notices published last year were compiled by the Office of the Federal Register into "Privacy Act Issuances—1977 Compilation." The purpose of this document is to incorporate by reference the notices that appear in "Privacy Act Insuances—1977 Compilation" and to publish in full the systems that this agency has amended since publication of the 1977 Compilation. Also, this document contains a proposal to revise the routine uses of two existing systems.

Dates: This document fulfills the annual notice requirements of the Privacy Act of 1974. Comments on the proposal to revise two routine uses are due on or before October 23, 1978.

FOR FURTHER INFORMATION CONTACT: Mrs. Marilyn S. McLennan, Office of Organization and Management Systems, U.S. Department of Commerce, Washington, D.C. 20230, telephone 202-377-4217.

Supplemental information:

Approval of the Director of the Federal Register

The notice of systems of records of the Commerce Department which appear in "Privacy Act Issuances—1977 Compilation" are incorporated by reference, in accordance with approval granted by the Director of the Office of the Federal Register on July 13, 1978. Published below is the full text of systems of records that the Commerce Department has amended since publication of the 1977 Compilation.

Explanation of Amendments

To facilitate public understanding of the Commerce Department's Privacy Act implementation, set forth below are:

(1) An explanation of proposed changes to systems of records for which public comment is invited—two revised routine uses (Appendix I);

(2) An explanation of changes not requiring public comment (Appendix II);

(3) A list of changes to systems of records noticed in the Federal Register since last year's republication (Appendix III); and

(4) The complete text of all changed systems. The text incorporates the material from items (1) through (3) above.

For the items in Appendix I, the public is invited to submit written data, views, or arguments to the Assistant Secretary for Administration (Attn: Information Management Division, Room 5319), U.S. Department of Commerce, Washington, D.C. 20230 (telephone 202-377-4217), any time on or before October 23, 1978.

The comments received will be available as received, for public inspection at the above address between the hours of 9 a.m. and 4 p.m., Monday through Friday (except holidays).

Availability of 1977 Compilation

"Privacy Act Issuances—1977 Compilation" is available from Regional Depository Libraries at 50 locations around the country and can be examined at these libraries free of charge. Notices of the Commerce Department's systems of records appear in Volume 1 of the 1977 Compilation at pages 47676-47729. The 1977 Compilation is also available at the General Services Administration Federal Information Centers, which are located at 38 central points around the country. In addition, it is available for purchase from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The price of Volume 1 (Stock No. 022-000-00145-1) is six dollars and fifty cents. Upon request, the Office of the Federal Register will furnish a photocopy of the full text of a particular records system published in the 1977 Compilation for a nominal fee.

Notices of the Commerce Department's systems also appeared in the daily edition of the Federal Register for September 21, 1977, at pages 47676-47729. Information about the systems is available by writing or calling Mrs. Marilyn S. McLennan, Office of Organization and Management Systems, U.S. Department of Commerce, Washington, D.C. 20230, telephone 202-377-4217.

Authority: 5 U.S.C. 522a.

Dated: August 28, 1978.

Elsa A. Porter,
Assistant Secretary for Administration.

APPENDIX I

Proposed Changes to Commerce Department Systems of Records for Which Public Comment is Invited

Included in the text of Commerce Department systems of records submitted to the Federal Register this date are proposed revised routine uses for two existing systems. The revised routine uses are listed below to assist the public in readily identifying the material on which public comments are invited. In each case, the revised routine use is compatible with the purpose for which the system is maintained.

1. Revise the routine use paragraph for the COMMERCE/MA-4 system, General Agent's Protection and Indemnity and Second Seaman's Insurance: WSA and NSA, to clarify use of medical information. The routine use paragraph as revised would read (new text in solid capitals): To evaluate filed claims; negotiate settlements; award money; contest or initiate lawsuits; AND TO ARRANGE FOR PROPER MEDICAL TREATMENT BY ESTABLISHING SEAMAN'S ELIGIBILITY FOR ACCEPTANCE UNDER REGULATIONS OF PUBLIC HEALTH SERVICE, U.S. DEPARTMENT OF HEALTH, EDUCATION AND WELFARE, OR OTHER APPROPRIATE MEDICAL FACILITIES. Users are the Office of Marine Insurance; adjustors and attorneys acting for the Government; Office of Workers' Compensation Programs, U.S. Department of Labor; and the Marine Index Bureau, 17 Battery Place, New York, N.Y. (a contract service centralizing data on seamen claims); AND HOSPITALS OF THE PUBLIC HEALTH SERVICE, U.S. DEPARTMENT OF HEALTH, EDUCATION AND WELFARE, OR, WHEN APPROPRIATE OTHER MEDICAL FACILITIES PROVIDING TREATMENT TO THE INDIVIDUAL. Also see the routine use paragraphs in the Prefatory Statement.

2. Revise the routine use paragraph for the COMMERCE/PAT-TM-6 system, Parties involved in Patent Interference Proceedings. A January 28, 1977 change in the Patent Rules of Practice provides public access to these records upon an award of priority by the Board of Patent Interferences. Under certain circumstances this action may occur prior to the termination of the interference proceedings. The routine use paragraph as revised would read (new text in solid capitals): Prior to termination of the interference proceedings, and thereafter until a patent has issued (except in cases involving a patent), information concerning these records is provided outside the Office only upon authorization of the applicants or owners of the applications involved or when necessary to carry out the provisions of any Act of Congress or in such special circumstances as may be determined by the Commissioner. Subsequent to such termination OR AN AWARD OF PRIORITY BY THE BOARD OF PATENT INTERFERENCES AS TO ALL PARTIES, WHICHEVER IS EARLIER in cases involving a patent or after issuance of a patent, the records are open to public inspection. Settlement agreements filed pursuant to 35 U.S.C. 135(c) are kept separate from other interference records, upon request of the party filing them, and made available, as provided in that statute, to government agencies upon written request, or to any person on a showing of good cause. Also see routine use paragraphs of the Prefatory Statement.

APPENDIX II

Changes to Commerce Department Systems of Records Not Requiring Public Comment

Included in the unified text of changes to Commerce Department systems of records submitted to the Federal Register this date are changes not requiring public comment and, unless otherwise noted, effective on the date of publication. These changes are listed below to assist the public.

1. Many of the Commerce Department systems reflect organizational changes, most importantly, the establishment of the National Telecommunications and Information Administration (NTIA) as a Departmental operating unit, replacing the Department's Office of Telecommunications (OTEL); and the renaming of the Domestic and International Business Administration (DIBA) as the Industry and Trade Administration (ITA). The systems affected by these changes include the one COMMERCE/OTEL system, now a COMMERCE/NTIA system; the eight COMMERCE/DIBA systems, now COMMERCE/ITA systems; and the twenty-one COMMERCE/DEPT.

systems, which include references to these units, for example, as locations of records.

2. The name of the COMMERCE/ITA-4, system, Directors of U.S. Trade Missions, Chairmen of U.S. Government Seminar Missions, and Technical Representatives of Catalog Exhibits, is shortened. The system name as revised is COMMERCE/ITA-4, Mission Directors/Seminar Chairmen/Industry Technical Representatives.

3. The name of the COMMERCE/ITA-5 system is changed to delete the Regional Export Councils. These Councils were terminated in November, 1977. The system name as changed is: COMMERCE/ITA-5, Membership Information: District Export Councils. The Category of Individuals section is revised correspondingly.

4. The name of the COMMERCE/MA-21 system is amended to reflect the inclusion of waivers of liability to board other craft at the U.S. Merchant Marine Academy, Kings Point, New York. The system name as changed is: Waivers of Liability to Board Reserve Fleet Vessels and Other Craft Located at U.S. Merchant Marine Academy. The System Location section is changed correspondingly.

5. Two additional COMMERCE/NFPCA systems are included in the unified text–COMMERCE/NFPCA-3, National Fire Academy Student Registration, and COMMERCE/NFPCA-4, National Fire Academy Instructor Records. A new system report for each system, dated June 6, 1978, was submitted to the Congress and OMB. A public notice proposing the establishment of these systems was published in the Federal Register of June 16, 1978, at pages 25853-55. No comments were received. Therefore, the systems are adopted effective August 5, 1978.

6. In COMMERCE/NOAA-12, Marine Fishermen's Catch Statistics, the system location is revised to include NOAA regional offices and fisheries centers where records are maintained.

7. Revised routine uses for two COMMERCE/PAT-TM systems are adopted. Changes in the routine use paragraphs for COMMERCE/PAT-TM-2, Complaints, Investigations, and Disciplinary Proceedings Relating to Registered Patent Attorneys and Agents; and COMMERCE/PAT-TM-6, Parties Involved in Patent Interference Proceedings, were proposed in the Federal Register of September 21, 1977 at page 47680. No comments were received, and the revised routine uses are adopted effective October 22, 1977. An additional change in the routine uses for PAT-TM-6, to reflect a change in the Patent Rules of Practice, is proposed in Appendix I of this notice.

8. The COMMERCE/DEPT.-11 system, Unfair Labor Practice Charges/Complaints, is deleted. The records in this system are retreived by docket number or by case title, e.g., Union Local No. 1234 vs. Bureau of Standards, not by individual identifier. Thus, the records do not meet the criteria for a system of records and the system is deleted.

9. In the COMMERCE/DEPT.-19 system, Department Mailing Lists, minor changes are made to reflect that a list of individuals attending conferences sponsored by the National Fire Prevention and Control Administration is maintained in addition to other NFPCA records included in the present system. This change reflects the desire of conference attendees to continue an exchange of information with one another.

10. In the COMMERCE/DEPT.-20 system, Biographical Files, the category of individuals covered by the system is amended to reflect that biographies on participants in the Commerce Science and Technology Fellowship Program are maintained by the Office of the Assistant Secretary for Science and Technology.

11. Several COMMERCE/DEPT. systems are amended to reflect that administrative accounting for the Economic Development Administration is now performed by EDA's Accounting Division rather than by the Department's Office of the Controller. The systems amended are COMMERCE/DEPT.-2, Accounts Receivable; COMMERCE/DEPT.-9, Travel Records of Employees and Certain Other Persons; and COMMERCE/DEPT.-17, Records of Cash Receipts. Changes are made to the System Location, System Manager, and Notification Procedure sections.

12. The COMMERCE/WBO-1 system, Talent and Experience File of Women's Business Experts, is expected to be changed. The records in this system were developed as a resource for the Interagency Task Force on Women Business Owners, which has completed its work. The disposition of these records is now under consideration. A subsequent notice will announce changes to the system. In the interim, questions may be directed to Mrs. Marilyn S. McLennan, Office of Organization and Management Systems, U.S. Department of Commerce, Washington, D.C. 20230, telephone 202-377-4217.

13. The COMMERCE/WHC-1 system, Mailing List and Correspondence File, is expected to be changed due to the termination of the White House Conference on Balanced National Growth and Economic Development, which maintains this system. The Conference is expected to terminate by September 30, 1978. A subsequent notice will announce changes to the system of records. In the interim, questions may be directed to Mrs. Marilyn S. McLennan, Office of Organization and Management Systems, U.S. Department of Commerce, Washington, D.C. 20230, telephone 202-377-4217.

14. The Department's General Routine Uses are adopted for the system COMMERCE/NTIA-1. This system was previously maintained by the Office of Telecommunications Policy (OTP) of the Executive Office of the President, and became a Commerce system through the reorganization that established the National Telecommunications and Information Administration. A public notice proposing the adoption of the Commerce routine uses to this system, in place of the routine uses previously announced by OTP, was published in the Federal Register of August 18, 1978, at 36672-36676. No comments were received. Therefore, the general routine uses are adopted effective September 18, 1978.

15. Lastly, other changes of a miscellaneous nature have been made throughout the notice of systems. These include: revision of the list of acronyms, the table of contents, and position titles and office names because of reorganization; designation of records as manual or machine-readable; and correction of errors.

APPENDIX III

Changes to Systems of Records Noticed in the Federal Register After September 21, 1977 and Prior to the Date of this Notice

1. October 28, 1977 Federal Register, pages 56771-56772: proposal to establish a new system of records for the Interagency Task Force on Women Business Owners, COMMERCE/WBO-1, Talent and Experience File of Women's Business Experts.

2. November 22, 1977 Federal Register, pages 59898-59899: adoption of two systems of records previously proposed, COMMERCE/NBS-9, Participants in Experiments, Studies, and Surveys; and COMMERCE/WHC-1, Mailing List and Correspondence File; and deletion of the three systems which were consolidated to form COMMERCE/NBS-9 (NBS-4, NBS-5, and NBS-6).

3. January 31, 1978 Federal Register, pages 4083-4084: adoption of the COMMERCE/WBO-1 system.

4. June 15, 1978 Federal Register, pages 25853-25855: proposal to establish two systems of records for the Commerce Department's National Fire Prevention and Control Administration, COMMERCE/NFPCA-3, National Fire Academy Student Registration; and COMMERCE/NFPCA-4, National Fire Academy Instructor Records.

5. June 28, 1978 Federal Register, pages 28028-28029: a. Adoption of five systems of records previously proposed:

COMMERCE/DEPT.-20, Biographical Files;

COMMERCE/DEPT.-21, Freedom of Information and Privacy Request Records;

COMMERCE/NFPCA-2, President's and Secretary's Award Nominees;

COMMERCE/NOAA-19, Marine Mammal, Endangered and Threatened Species, Permits and Exemptions Applicants; and

COMMERCE/OTEL-1, Radio Spectrum Management Career Development Program.

b. Notice of deletion of seven systems:

COMMERCE/MA-6, Medical Records of Seamen Treated in Overseas Military Hospitals;

COMMERCE/MA-13, Trustees for Ship Sales;

COMMERCE/MA-20, USMMA Ship's Service Employees;

COMMERCE/NOAA-1, Applicants for Federal Permits to Take, Buy, or Transport Endangered Species for Specific Purposes;

COMMERCE/NOAA-2, Applicants for Hardship Exemptions Under Marine Mammal Protection Act of 1972;

COMMERCE/NOAA-3, Applicants for Marine Mammal Scientific Research and Display Permits; and

COMMERCE/NOAA-5. Applicants for Threatened Species Permits.

c. Notice of minor changes to existing systems concerning records of the Department's Bureau of Economic Analysis:

COMMERCE/DEPT.-1, Attendance, Leave, and Payroll Records of Employees and Certain Other Persons;

COMMERCE/DEPT.-7, Employee Accident Reports;

COMMERCE/DEPT.-8, Employee Applications for Motor Vehicle Operator's Card;

COMMERCE/DEPT.-9, Travel Records of Employees and Certain Other Persons;
COMMERCE/DEPT.-11, Unfair Labor Practice Charges/Complaints;
COMMERCE/DEPT.-17, Records of Cash Receipts;
COMMERCE/DEPT.-18, Employee Personnel Files Not Covered by U.S. Civil Service Commission;
COMMERCE/DEPT.-20, Biographical Files; and
COMMERCE/DEPT.-21, Freedom of Information and Privacy Request Records.

6. July 27, 1978 Federal Register, pages 32445-32450: a. Proposal to amend six existing systems of the Patent and Trademark Office:
COMMERCE/PAT-TM-1, Attorneys and Agents Registered to Practice Before the Office;
COMMERCE/PAT-TM-3, Employee Production Records;
COMMERCE/PAT-TM-7, Patent Application Files;
COMMERCE/PAT-TM-9, Patent Assignment Records;
COMMERCE/PAT-TM-10, Patent Deposit Accounts Systems; and
COMMERCE/PAT-TM-13, Petitioners for License to File for Foreign Patents.

b. Notice of minor changes to another existing Patent and Trademark Office system: COMMERCE/PAT-TM-8, Patent Application Secrecy Order Files.

7. August 18, 1978 Federal Register, pages 36672-36676: a. Notice of changes to existing systems made necessary by the establishment of the National Telecommunications and Information Administration within the Department of Commerce; and notice of disposition of systems announced by the Office of Telecommunications Policy of the Executive Office of the President, and the Office of Telecommunications of the Department of Commerce.

b. Proposal to adopt the Commerce Department's general routine uses to the NTIA-1 system of records.

Abbreviations

*The identification of the unit or units within the Department to which the particular system of records pertains appears as "COMMERCE/" followed by a designating abbreviation. The abbreviations and their meanings are as follows:

CENSUS—Bureau of the Census
DEPT—Overall Department of Commerce (or at least multiple operating units presently, and a potential for more)
ITA—Industry and Trade Administration
IATC—Interagency Auditor Training Center
MA—Maritime Administration
NBS—National Bureau of Standards
NFPCA—National Fire Prevention and Control Administration
NOAA—National Oceanic and Atmospheric Administration
NTIA—National Telecommunications and Information Administration
NTIS—National Technical Information Service
PAT-TM—Patent and Trademark Office
WBO—Interagency Task Force on Women Business Owners
WHC—White House Conference on Balanced National Growth and Economic Development

Other abbreviations appearing in the notices are as follows:
ARC—The Appalachian Regional Commission
BEA—Bureau of Economic Analysis
EDA—Economic Development Administration
Office of Federal
Cochairmen—Office(s) of Federal Cochairmen of the Regional Action Planning Commissions and The Appalachian Regional Commission
OMBE—Office of Minority Business Enterprise
RAPCS—Regional Action Planning Commissions
USTS—United States Travel Service

Prefatory Statement of General Routine Uses

The following routine uses apply to, and are incorporated by reference into, each system of records set forth below.

1. In the event that a system of records maintained by the Department to carry out its functions indicates a violation or potential violation of law or contract, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute or contract, or rule, regulation, or order issued pursuant thereto, or the necessity to protect an interest of the Department, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute or contract, or rule, regulation or order issued pursuant thereto, or protecting the interest of the Department.

2. A record from this system of records may be disclosed, as a routine use, to a Federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to a Department decision concerning the assignment, hiring or retention of an individual, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

3. A record from this system of records may be disclosed, as a routine use, to a Federal, state, local, or international agency, in response to its request, in connection with the assignment, hiring or retention of an individual, the issuance of a security clearance, the reporting of an investigation of an individual, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

4. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.

5. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual when the individual has requested assistance from the Member with respect to the subject matter of the record.

6. A record in this system of records which contains medical information may be disclosed, as a routine use, to the medical advisor of any individual submitting a request for access to the record under the Act and 15 CFR Part 4b if, in the sole judgment of the Department, disclosure could have an adverse effect upon the individual, under the provision of 5 U.S.C 552a(f)(3) and implementing regulations at 15 CFR 4b.6.

7. (Deleted; Reserved)

8. A record in this system of records may be disclosed, as a routine use, to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

9. A record in this system of records may be disclosed, as a routine use, to the Department of Justice in connection with determining whether disclosure thereof is required by the Freedom of Information Act (5 U.S.C. 552).

10. A record in this system of records may be disclosed, as a routine use, to a contractor of the Department having need for the information in the performance of the contract, but not operating a system of records within the meaning of 5 U.S.C. 552a(m).

11. (Deleted; Reserved)

12. A record in this system may be transferred, as a routine use, to the Civil Service Commission: for personnel research purposes; as a data source for management information; for the production of summary descriptive statistics and analytical studies in support of the function for which the records are collected and maintained; or for related manpower studies.

13. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e. GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.

National Defense and Foreign Policy Exemption

Some systems of records under the Act which are maintained by he Department contain, from time-to-time, material subject to the pecific exemption authorized by 5 U.S.C 552a(k)(1), relating to national defense and foreign policy materials. The systems of records oticed below, and also listed in 15 CFR 4b.14(a) of the regulations ublished in the FEDERAL REGISTER, which are subject to this letermination of specific exemption under 5 U.S.C. 552a(k)(1) are:

COMMERCE/ITA-1
COMMERCE/ITA-2
COMMERCE/ITA-3
COMMERCE/NOAA-11
COMMERCE/PAT-TM-4
COMMERCE/PAT-TM-6
COMMERCE/PAT-TM-7
COMMERCE/PAT-TM-8
COMMERCE/PAT-TM-9
COMMERCE/DEPT-12
COMMERCE/DEPT-13,
COMMERCE/DEPT-14

The Department hereby asserts a claim to exemption of such naterials wherever they might appear in such systems of records, or any systems of records, at present or in the future. The materials would be exempt from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f). The reason therefor is to protect the material required by Executive Order to be kept secret in the interest of the national defense and foreign policy.

Table of Contents

DEPT—1 Attendance, Leave, and Payroll Records of Employees and Certain Other Persons
DEPT—2 Accounts Receivable
DEPT—3 Conflict of Interest Records, Appointed Officials
DEPT—4 Congressional Files
DEPT—5 Donors of Gifts and Bequests
DEPT—6 Visitor Logs and Permits for Facilities Under Department Control
DEPT—7 Employee Accident Reports
DEPT—8 Employee Applications for Motor Vehicle Operator's Card
DEPT—9 Travel Records (Domestic and Foreign) of Employees and Certain Other Persons
DEPT—10 Foreign Residence Requirement Waiver Applicants
DEPT—11 (Deleted)
DEPT—12 Investigative Records-Contract and Grant Frauds and Employee Criminal Misconduct

DEPT—14 Litigation, Claims, and Administrative Proceeding Records
DEPT—15 Private Legislation Claimants-Central Legislative Files
DEPT—16 Property Accountability Files
DEPT—17 Records of Cash Receipts
DEPT—18 Employee Personnel Files Not Covered by U.S. Civil Service Commission
DEPT—19 Department Mailing Lists
DEPT—20 Biographical Files
DEPT—21 Freedom of Information and Privacy Request Records
CENSUS—1 Agriculture Census Records for 1964 (partial), 1969, 1974
CENSUS—2 Employee Productivity Measurement Records
CENSUS—3 Individual and Household Statistical Surveys and Special Studies Records
CENSUS—4 Minority-Owned Business Enterprises Survey Records
CENSUS—5 Population and Housing Census Records of the 1960 and Subsequent Censuses
CENSUS—6 Population Census Personal Service Records for 1900 and All Subsequent Decennial Censuses
CENSUS—7 Special Censuses of Population Conducted for State and Local Government
ITA—1 Individuals Identified in Export Administration Compliance Proceedings or Investigations
ITA—2 Individuals Involved in Export Transactions
ITA—3 Individuals Involved in International Business Trade Complaints
ITA—4 Mission Directors/Seminar Chairmen/Industry Technical Representatives
ITA—5 Membership Information: District Export Councils
ITA—6 National Defense Executive Reserve Personnel Folders
ITA—7 Overseas Assignments for ITA's Bureau of Field Operations
ITA—8 Foreign Service Officer Evaluations
IATC—1 Auditor Trainee Registrants
MA—1 Applications to U.S. Merchant Marine Academy (USMMA)
MA—2 Cadet Files, State Merchant Marine Academies
MA—3 Citizenship Statements and Affidavits
MA—4 General Agent's Protection and Indemnity and Second Seaman's Insurance: WSA and NSA
MA—5 Marine Training School Registrants
MA—6 (Deleted)
MA—7 National Defense Executive Reserve
MA—8 Non-Attorney Practitioner Applications and "Section 807 Reports"
MA—9 Seaman Awards and Nominations, for Service, Valor, etc.
MA—10 Seamen's Employment Analysis Records
MA—11 Seamen's Unclaimed Wages (Vietnam Conflict)
MA—12 Shipyard Labor Supply and Demand Programs
MA—13 (Deleted)
MA—14 USMMA Graduates
MA—15 USMMA Midshipman Account Records
MA—16 USMMA Midshipman Grade Transcripts
MA—17 USMMA Midshipman Medical Files
MA—18 USMMA Midshipman Personnel Records
MA—19 USMMA Non-Appropriated Fund Employees
MA—20 (Deleted)
MA—21 Waivers of Liability to Board Reserve Fleet Vessels and Other Craft Located at U.S. Merchant Marine Academy
NBS—1 NBS Guest Workers
NBS—2 Inventors of Energy-Related Processes and Devices
NBS—3 Research Associates
NBS—4 (Deleted)
NBS—5 (Deleted)
NBS—6 (Deleted)
NBS—7 Employees External Radiation Exposure Records
NBS—8 Nuclear Reactor Operator Licensees File
NBS—9 Participants in Experiments, Studies, and Surveys
NFPCA—1 Federal Employees with Fire Related Expertise
NFPCA—2 President's and Secretary's Award Nominees
NFPCA—3 National Fire Academy Student Registration
NFPCA—4 National Fire Academy Instructor Records
NOAA—1 (Deleted)
NOAA—2 (Deleted)
NOAA—3 (Deleted)
NOAA—4 Applicants for the NOAA Corps
NOAA—5 (Deleted)
NOAA—6 Commissioned Officers Official Travel Orders Folders
NOAA—7 Commissioned Officer Official Personnel Folders

NOAA—8 Commissioned Officers Retired Payroll
NOAA—9 Commissioners of International Fisheries Commissions
NOAA—10 Employee Production Records
NOAA—11 Fisheries Law Enforcement Case Files
NOAA—12 Marine Recreational Fishermen's Catch Statistics
NOAA—13 Guest Workers at National Geophysical and Solar-Terrestrial Data Center
NOAA—14 Individuals Engaged in Weather Modification Activities
NOAA—15 (Deleted)
NOAA—16 Scientist-Researchers in GATE (Global Atmospheric Research Program Atlantic Tropical Experiment)
NOAA—17 NOAA Diving Program File
NOAA—18 NOAA Mailing Lists
NOAA—19 Marine Mammal, Endangered and Threatened Species, Permits and Exemptions Applicants
NTIA—1 Military Personnel System
NTIA—2 Radio Spectrum Management Career Development Program
NTIS—1 Individuals Interested in NTIS Publications, Shipped Order Addresses, Customer Account Records, and Subscriber Files
NTIS—2 Employee Daily Time and Productivity Records
PAT/TM—1 Attorneys and Agents Registered to Practice Before the Office
PAT/TM—2 Complaints, Investigations and Disciplinary Proceedings Relating to Registered Patent Attorneys and Agents
PAT/TM—3 Employee Production Records
PAT/TM—4 Government Employee Invention Rights
PAT/TM—5 Non-Registered Persons Rendering Assistance To Patent Applicants
PAT/TM—6 Parties Involved In Patent Interference Proceedings
PAT/TM—7 Patent Application Files

WHC—1 Mailing List and Correspondence File

COMMERCE/DEPT-1.

System name: Attendance, Leave, and Payroll Records of Employees and Certain Other Persons—COMMERCE/DEPT-1.

System location: a. For employees of Departmental Offices, BEA, ITA, EDA, NFPCA, OMBE, USTS, Offices of Federal Cochairmen, RAPCs, and ARC: Office of Controller, Finance Operations Division, OS, U.S. Department of Commerce, 14th & Constitution Avenue, N.W.,Washington, D.C. 20230, and Office of Automatic Data Processing Management (ADP Analysis and Programming Division), use above address.

b. For employees of MARAD: (manual) Division of Accounts, (machine-readable) Division of Data Operations, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

c. For employees of NBS, NTIS, and NTIA: National Bureau of Standards, Office of the Comptroller, (Payroll Section), Administration Building, Gaithersburg, Maryland (P.O. Washington, D.C. 20234). NTIA records dating prior to March 26, 1978, relating to employees of the former Office of Telecommunications Policy, Executive Office of the President, are located at General Services Administration Region 3 Office, 7th & D Streets, N.W., Washington, D.C. 20407.

d. For employees of NOAA: National Oceanic and Atmospheric Administration, Personal Service Accounting Branch, 6010 Executive Boulevard, Rockville, Maryland 20852.

e. For employees of PAT-TM: Office of Finance (Employee Accounts Division), U.S. Patent and Trademark Office, 2021 Jefferson Davis Highway, Arlington, Virginia 22202.

f. For employees of CENSUS: Finance Division, Bureau of the Census, Federal Building 3, Washington, D.C. 20233, and the following Census Regional Offices: 1365 Peachtree Street, NE., Atlanta, Georgia 30309; 441 Stuart Street, Boston, Massachusetts 02116; 230 South Tryon Street, Charlotte, North Carolina 28202; 536 South Clark Street, Chicago, Illinois 60605; 1100 Commerce Street, Dallas, Texas 75202; 11011 West Sixth Avenue (P.O. Box 25207), Denver, Colorado 80225; 234 State Street, Detroit, Michigan 48226; One Gateway Center, 4th and State Streets, Kansas City, Kansas 66101; 1100 Wilshire Boulevard, Los Angeles, California 90024; 26 Federal Plaza, New York City, New York 10007; 600 Arch Street, Philadelphia, Pennsylvania 19106; and 1700 Westlake Avenue, Seattle, Washington 98109.

Categories of individuals covered by the system: All Commerce Department employees and certain other persons as categorized by organizational component in a. through f. above.

Categories of records in the system: Name, date of birth, social security number and employee number, service computation date, grade, step, and salary; organization (code), retirement or FICA data as applicable; Federal, state, and local tax deductions, as appropriate; IRS tax lien data; savings bond and charity deductions; regular and optional Government life insurance deduction(s), health insurance deduction and plan or code; cash award data; jury duty data; military leave data; pay differentials; union dues deductions; allotments, by type and amount; financial institution code and employee account number; leave status and leave data of all types (including annual, compensatory, jury duty, maternity, military, retirement disability, sick, transferred, absence without leave, and without pay); time and attendance records, including number of regular, overtime, holiday, Sunday, and other hours worked; pay period number and ending date; cost of living allowances; mailing address; co-owner and/or beneficiary of bonds, marital status and number of dependents; and 'Notification of Personnel Action'. The individual records listed herein are included only as pertinent or applicable to the individual employee.

Authority for maintenance of the system: Title 5 U.S.C., Title 31 U.S.C. 66a, Title 44 U.S.C. 3101, 3309.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Transmittal of data to U.S. Treasury to effect issuance of paycheck to employees and distribution of pay according to employee directions for savings bonds, allotments, financial institutions, and other authorized purposes.

Reporting: tax withholding to Internal Revenue Service and appropriate State and local taxing authorities; FICA deductions to the Social Security Administration; dues deductions to labor unions; withholdings for health and life insurance to the insurance carriers and the U.S. Civil Service Commission; charity contribution deductions to agents of charitable institutions; annual W-2 statements to taxing authorities and the individual; wage, employment, and separation information to state unemployment compensation agencies, to the Department of Labor to determine eligibilty for unemployment compensation, and to housing authorities for low-cost housing applications; and NOAA Corps data to U.S. Civil Service Commission for preparation of statistical materials. Also, see routine use paragraphs of Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Both manual and machine-readable.

Retrievability: By name and/or employee or social security number.

Safeguards: Physical, technical, and administrative security is maintained, with all storage equipment and/or rooms locked when not in use. Admittance, when open, is restricted to authorized personnel only. All payroll personnel and computer operators and programmers are instructed and cautioned on the confidentiality of the records.

Retention and disposal: Retained on site until after GAO audit, then disposed of, or transferred either to Federal Records Storage Centers in accordance with the fiscal records program approval by GAO, as appropriate, or General Record Schedules of GSA.

System manager(s) and address: For records at location a.: Controller, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location b.: Chief, Division of Accounts, Maritime Administration, Washington, D.C. 20230;

For records at location c.: Comptroller, Office of the Comptroller, National Bureau of Standards, Administration Building, Gaithersburg, Maryland (P.O. Washington, D.C. 20234)

For records at location d.: Chief, Personal Service Accounting Branch, National Oceanic and Atmospheric Administration, 6010 Executive Boulevard, Rockville, Maryland 20852;

For records at location e.: Director, Office of Finance, U.S. Patent and Trademark Office, Washington, D.C. 20231.

For records at location f.: Associate Director for Administration, Bureau of the Census, Federal Building 3, Washington, D.C. 20233, and the Director of the particular Regional Office listed above.

Notification procedure: For BEA records at location a., information may be obtained from: Chief Planning and Evaluation Officer, BEA, Tower Building, 1401 K Street, N.W., Washington, D.C. 20230;

For ITA records at location a., information may be obtained from: Director, Office of Management and Systems, ITA, U.S. Department of Commerce, Washington, D.C. 20230;

For EDA records at location a., information may be obtained from: Director, Office of Public Affairs, EDA, U.S. Department of Commerce, Washington, D.C. 20230;

For NFPCA records at location a., information may be obtained from: Administrative Officer, NFPCA, 2400 M Street, N.W., Washington, D.C. 20230;

For OMBE records at location a., information may be obtained from: Privacy Officer, Office of Chief Counsel, OMBE, U.S. Department of Commerce, Washington, D.C. 20230;

For USTS records at location a., information may be obtained from: Director, Office of Administration, USTS, U.S. Department of Commerce, Washington, D.C. 20230; and

For all other records at location a., information may be obtained from: Director, Office of Organization and Management Systems, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location b., information may be obtained from: Secretary, Maritime Administration, U.S. Department of Commerce, Washington, D.C. 20230;

For NBS and NTIS records at location c., information may be obtained from: Director of Administrative and Information Systems, National Bureau of Standards, Gaithersburg, Maryland (P.O. Washington, D.C. 20234);

For NTIA records at location c., information may be obtained from: Privacy Officer, NTIA, U.S. Department of Commerce, Washington, D.C. 20504;

For records at location d., information may be obtained from: Assistant Administrator for Administration, National Oceanic and Atmospheric Administration, 6010 Executive Boulevard, Rockville, Maryland 20852;

For records at location e., information may be obtained from: Assistant Commissioner for Administration, U.S. Patent and Trademark Office, Washington, D.C. 20231; and

For records at location f., information may be obtained from: Associate Director for Administration, Bureau of the Census, Federal Building 3, Washington, D.C. 20233.

Requester should provide name, social security number, and time or organization unit of employment pursuant to the inquiry provisions of the Department's Rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address of the desired location as stated in the Notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address for desired location.

Record source categories: Subject individuals, those authorized by the individual to furnish information, supervisors, timekeepers, official personnel records, and IRS.

COMMERCE/DEPT-2.

System name: Accounts Receivable—COMMERCE/DEPT-2.

System location: a. For Departmental offices, BEA, ITA, NFPCA, USTS, OMBE, Offices of Federal Cochairmen, RAPCs, and ARC: Office of Controller, Finance Operations Division, OS, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

b. For MARAD: (manual) Division of Accounts, (machine-readable) Division of Data Operations, Maritime Administration, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

c. For NBS and NTIA: National Bureau of Standards, Office of the Comptroller, Administration Building, Gaithersburg, Maryland (P.O. Washington, D.C. 20234).

d. For NOAA: National Oceanic and Atmospheric Administration, Finance Division, 6010 Executive Boulevard, Rockville, Maryland 20852.

e. For PAT-TM: Office of Finance, U.S. Patent and Trademark Office, 2021 Jefferson Davis Highway, Arlington, Virginia 22202.

f. For CENSUS: Finance Division, Bureau of the Census, Federal Building 3, Washington, D.C. 20233.

g. For NTIS: Accounting Control Division, National Technical Information Service, Room 1303, Sills Building, Springfield, Virginia 22161.

h. For EDA: Accounting Division, Economic Development Administration, Washington, D.C. 20230.

Categories of individuals covered by the system: Debtors owing money to organizational components identified in a. through h., including employees, former employees, business firms, general public, and institutions.

Categories of records in the system: Name and address; amount owed, and service, overpayment or other accounting therefor; invoice number, if any.

Authority for maintenance of the system: 5 U.S.C. 5701-09; FPMR 101-7; Treasury Fiscal Requirements Manual.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Billing debtors, reporting to Civil Service Commission for liquidating debts from retirement and other benefits, and routine uses per Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Both manual and machine-readable records.

Retrievability: By name, and invoice number as appropriate.

Safeguards: Physical security, handling by authorized personnel only.

Retention and disposal: Retained until payment is received and account is audited, then disposed of in accordance with Records Control Schedule.

System manager(s) and address: For records at location a.: Controller, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location b.: Chief, Division of Accounts, Maritime Administration, Washington, D.C. 20230.

For records at location c.: Comptroller, Office of the Comptroller, National Bureau of Standards, Administration Building, Washington, D.C. 20234.

For records at location d.: Chief, Finance Division, NOAA, 6010 Executive Blvd., Rockville, Md. 20852.

For records at location e.: Director, Office of Finance, U.S. Patent and Trademark Office, Washington, D.C. 20231.

For records at location f.: Associate Director for Administration, Bureau of the Census, Federal Building 3, Washington, D.C. 20233.

For records at location g.: Chief, Accounting Control Division, National Technical Information Service, Room 1303, Sills Building, Springfield, Virginia 22161.

For records at location h.,: Chief, Accounting Division, Economic Development Administration, Washington, D.C. 20230

Notification procedure: For ITA records at location a., information may be obtained from: Director, Office of Management and Systems, ITA, U.S. Department of Commerce, Washington, D.C. 20230;

For NFPCA records at location a., information may be obtained from: Administrative Officer, NFPCA, 2400 M Street, N.W., Washington, D.C. 20230;

For USTS records at location a., information may be obtained from: Director, Office of Administration, USTS, U.S. Department of Commerce, Washington, D.C. 20230; and

For all other records at location a., information may be obtained from: Director, Office of Organization and Management Systems, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location b., information may be obtained from: Secretary, Maritime Administration, Washington, D.C. 20230;

For NBS records at location c., information may be obtained from: Director of Administrative and Information Systems, National Bureau of Standards, Gaithersburg, Maryland (P.O. Washington, D.C. 20234);

For NTIA records at location c., information may be obtained from: Privacy Officer, NTIA, U.S. Department of Commerce, Washington, D.C. 20504;

For records at location d., information may be obtained from: Assistant Administrator for Administration, National Oceanic and

V 4 3 \ 1 8 5 SE 2 2 7 8

Atmospheric Administration, 6010 Executive Boulevard, Rockville, Maryland 20852.

For records at location e., information may be obtained from: Assistant Commissioner for Administration, U.S. Patent and Trademark Office, Washington, D.C. 20231; and

For records at location f., information may be obtained from: Associate Director for Administration, Bureau of the Census, Federal Building 3, Washington, D.C. 20233.

For records at location g., information may be obtained from: Assistant Director, Adminstration, National Technical Information Service, Room 1006, Sills Building, Springfield, Virginia 22161.

For records at location h., information may be obtained from: Director, Office of Public Affairs, EDA, U.S. Department of Commerce, Washington, D.C. 20230.

Requester should provide name and address, and invoice number as appropriate, pursuant to the inquiry provisions of the Department's Rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the Notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: Subject individual, those authorized by the individual to furnish information, contracting officer as appropriate, accounting records.

COMMERCE/DEPT-3.

System name: Conflict of Interest Records, Appointed Officials—COMMERCE/DEPT-3.

System location: Office of General Counsel, Room 5870, U.S. Department of Commerce, Washington, D.C. 20230.

Categories of individuals covered by the system: Individuals, past and present, appointed by the President to Commerce Department offices and other senior level officers of the Department.

Categories of records in the system: Statements of personal and family shareholdings and other interests in business enterprises; copies of blind trust and other agreements pertaining to such interests; correspondence as to insulation of control of such interests; opinions of counsel; and confirmation materials.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See routine use paragraphs of Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed alphabetically by name.

Safeguards: Records are located in lockable metal file cabinets or in metal file cabinets in secured rooms or secured premises with access limited to those whose official duties require access.

Retention and disposal: Disposed of 2 years after separation of employee.

System manager(s) and address: Deputy General Counsel, Room 5870, U.S. Department of Commerce, Washington, D.C. 20230.

Notification procedure: Information may be obtained from: Director, Office of Organization and Management Systems, U.S. Department of Commerce, Washington, D.C. 20230. Requester should provide name and date of appointment pursuant to the inquiry provisions of the Department's rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the Notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: The subject individual, financial institutions involved, counsel, and those authorized by the individual to furnish information.

Systems exempted from certain provisions of the act: Pursuant to 5 U.S.C. 552a (k)(5), all investigatory material in the record which meets the criteria of 5 U.S.C. 552a(k)(5) is exempted from the notice, access, and contest requirements (under 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f)) of the agency regulations in order to fulfill commitments made to protect the confidentiality of sources, and to maintain access to sources of information which are necessary to determine suitability for employment.

COMMERCE/DEPT-4.

System name: Congressional Files—COMMERCE/DEPT-4.

System location: a. Office of the Assistant Secretary for Congressional Affairs, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

b. Office of the Director of Congressional and Public Affairs, National Telecommunications and Information Administration, 1800 G Street, N.W., Washington, D.C. 20504.

Categories of individuals covered by the system: Members of Congress.

Categories of records in the system: Biographical information from sources such as the Congressional Quarterly, Congressional Directory, biographies provided by Members' Offices, extracts from the Congressional Record, and correspondence between the Members and the Department.

Authority for maintenance of the system: 5 U.S.C. 301 and 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See routine use paragraphs of Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Maintained in paper form only.

Retrievability: Indexed by name of Member or State or Congressional District.

Safeguards: Records are located in lockable metal file cabinets or in metal file cabinets in secured rooms or secured premises with access limited to those whose official duties require access.

Retention and disposal: The records are retained in accordance with the Office's Record Control Schedule.

System manager(s) and address: For records at location a.: Assistant Secretary for Congressional Affairs, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

For records at location b.: Director of Congressional and Public Affairs, National Telecommunications and Information Administration, U.S. Department of Commerce, Washington, D.C. 20504.

Notification procedure: For records at location a.: Information may be obtained from: Departmental Office of Organization and Management Systems, OS, U. S. Departmentof Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

For records at location b.: Information may be obtained from: Privacy Officer, National Telecommunications and Information Administration, U.S. Department of Commerce, Washington, D.C. 20504. Requester should provide name of Member pursuant to the inquiry provisions of the Department's Rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the Notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: Published Congressional reference materials and the Member, himself or herself.

COMMERCE/DEPT-5.

System name: Donors of Gifts and Bequests—COMMERCE/DEPT-5.

System location: a. For records of Departmental offices, BEA, EDA, OMBE, and USTS: Office of Controller, Finance Operations Division, OS, U.S. Department of Commerce, Washington, D.C. 20230.

b. For records of MA: Office of Administration, U.S. Merchant Marine Academy, Kings Point, Long Island, N.Y. 11024 and Division of Accounts, Maritime Administration, Washington, D.C. 20230 (for cash donations only).

c. For records of ITA: Office of Budget, ITA, U.S. Department of Commerce, Washington, D.C. 20230.

d. For records of NBS, NTIS, and NTIA: Office of the Comptroller, NBS, Administration Building, Gaithersburg, Maryland (mailing address: Washington, D.C. 20234).

e. For records of NOAA: Finance Division, NOAA, 6010 Executive Boulevard, Rockville, Maryland 20852.

f. For records of PAT-TM: Office of Finance, U.S. Patent and Trademark Office, 2021 Jefferson Davis Highway, Arlington, Virginia 22202.

g. For records of CENSUS: Finance Divison, Bureau of the Census, Federal Building 3, Washington, D.C. 20233.

Categories of individuals covered by the system: Any donor of gifts or bequests of funds, property, or services to Departmental offices or agencies.

Categories of records in the system: Name and address of donor; dollar amount of donations; value and description of non-cash donations; name and title of employee whose expenses are encompassed by the gift; and purposes for which gift or bequest was made.

Authority for maintenance of the system: 5 U.S.C. 608a-608c.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See routine use paragraphs of Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed chronologically by date of transaction or serial number.

Safeguards: Physical, technical, and administrative security is maintained, with all storage equipment and/or rooms locked when not in use. Admittance, when open, is restricted to authorized personnel only.

Retention and disposal: Records are maintained permanently.

System manager(s) and address: For records at location a.: Controller, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location b.: Assistant Superintendent for Administration, Office of Administration, U.S. Merchant Marine Academy, Kings Point, Long Island, N.Y. 11024 and Chief, Division of Accounts, Maritime Administration, Washington, D.C. 20230.

For records at location c.: Director, Office of Budget, ITA, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location d.: Comptroller, Office of the Comptroller, NBS, Administration Building, Gaithersburg, Maryland. (Mailing address: Washington, D.C. 20234).

For records at location e.: Chief, Finance Division, NOAA, 6010 Executive Boulevard, Rockville, Maryland 20852.

For records at location f.: Director, Office of Finance, U.S. Patent and Trademark Office, Washington, D.C. 20231.

For records at location g.: Associate Director for Administration, Bureau of the Census, Federal Building 3, Washington, D.C. 20233.

Notification procedure: For EDA records at location a., information may be obtained from: Director, Office of Public Affairs, EDA, U.S. Department of Commerce, Washington, D.C. 20230;

For OMBE records at location a., information may be obtained from: Privacy Officer, Office of Chief Counsel, OMBE, U.S. Department of Commerce, Washington, D.C. 20230;

For USTS records at location a., information may be obtained from: Director, Office of Administration, USTS, U.S. Department of Commerce, Washington, D.C. 20230; and

For all other records at location a., information may be obtained from: Director, Office of Organization and Management Systems, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location b., information may be obtained from: Secretary, Maritime Administration, Room 3099, U.S. Department of Commerce, Washington, D.C. 20236.

For records at location c., information may be obtained from: Director, Office of Management and Systems, Room 3100, ITA, U.S. Department of Commerce, Washington, D.C. 20230;

For NBS records at location d., information may be obtained from: Director of Administrative and Information Systems, Room A1101, Administration Building, NBS, Gaithersburg Md. (Mailing address: Washington, D.C. 20234).

For NTIA records at location d., information may be obtained from: Privacy Officer, NTIA, U.S. Department of Commerce, Washington, D.C. 20504;

For records at location e., information may be obtained from: Associate Administrator for Administration, Room 908, Washington Science Center, NOAA, Rockville, Maryland 20852; and

For records at location f., information may be obtained from: Assistant Commissioner for Administration, U.S. Patent and Trademark Office, 2021 Jefferson Davis Highway, Arlington, Va. 22202.

For records at location g., Associate Director for Administration, Bureau of the Census, Federal Building 3, Washington, D.C. 20233.

Requester should provide name and date of transaction, pursuant to the inquiry provisions of the Department's Rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the Notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: Donors and subject employees and those authorized by the foregoing to furnish information.

COMMERCE/DEPT-6.

System name: Visitor Logs and Permits for Facilities Under Department Control—COMMERCE/DEPT-6.

System location: a. Maritime Administration: Beaumont Reserve Fleet, Beaumont, Texas; James River Reserve Fleet, Fort Eustis, Virginia; Reserve Fleet Division Office, New York City, New York; Suisan Bay Reserve Fleet, Benicia, California; and U.S. Merchant Marine Academy, Kings Point, New York.

b. National Bureau of Standards: Security Office, Administration Building, Rockville, Maryland 20234; and Guard Service Office, Radio Building, NBS, Boulder, Colorado 80302.

Categories of individuals covered by the system: Non-Federal visitors, Federal personnel entering facilities after duty hours, and employees seeking parking and firearm permits.

Categories of records in the system: Name, address, place of birth, citizenship, physical characteristics, type and number of firearms and amount of ammunition, purpose of visit, affiliation, time in and time out, license numbers, and records of violations.

Authority for maintenance of the system: 5 U.S.C. 301; 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See routine use paragraphs of Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed alphabetically by name, or date and time.

Safeguards: Records are located in lockable metal file cabinets or in metal file cabinets in secured rooms or secured premises with access limited to those whose official duties require access.

Retention and disposal: Retained on site for five years, then disposed of in accordance with unit's Record Control Schedule.

System manager(s) and address: For records at location a.: Superintendent of respective Reserve Fleets and Chief, Fire and Security, U.S. Merchant Marine Academy, Commandant's Department, King Point, New York.

For records at location b.: Director, Center For Facilities Management, National Bureau of Standards, Washington, D.C. 20234.

Notification procedure: For records at location a., information may be obtained from: Secretary, Maritime Administration, Main Commerce Building, Washington, D.C. 20230.

For records at location b., information may be obtained from: Director of Administrative and Information Systems, National Bureau of Standards, Administration Building, Washington, D.C. 20234.

Requesters should provide name and address, date of visit or type of permit, as appropriate, in accordance with the inquiry provisions of the Department's rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the Notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: Subject individual, those authorized by the individual to furnish information, and employers.

COMMERCE/DEPT-7.

System name: Employee Accident Reports—COMMERCE/DEPT-7.

System location: a. For employees of Departmental Offices, BEA, NFPCA, and USTS: Office of Administrative Services and Procurement, U.S. Department of Commerce, Washington, D.C. 20230.

b. For employees of ITA: Office of Administrative Support, Industry and Trade Administration, Washington, D.C. 20230.

c. For employees of EDA: Office Service Division, Economic Development Administration, Washington, D.C. 20230.

d. For employees of MARAD: Office of Domestic Shipping, Maritime Administration, Washington, D.C. 20230.

c. For employees of OMBE: Field Operations and Administration, Office of Minority Business Enterprise, Washington, D.C. 20230.

f. For employees of NBS; Safety Office, Supply and Plant Building, NBS, Gaithersburg, Md. (P.O. Washington, D.C. 20234).

g. For employees of NOAA: Administrative Operations Division, National Oceanic and Atmospheric Administration, 6010 Executive Blvd., Rockville, Md. 20852.

h. For employees of NTIS; Property Management Branch, Administrative Service Division, National Technical Information Service, 5285 Port Royal Rd., Springfield, Va. 22161.

i. For employees of PAT-TM: Office of General Service, U.S. Patent and Trademark Office, 2021 Jefferson Davis Highway, Arlington, Va. 22202.

j. For employees of CENSUS; Administrative Service Division, Bureau of the Census, Building 3, Washington, D.C. 20233.

k. For employees of NTIA: Office of Administration, National Telecommunications and Information Administration, 1325 G Street, N.W., Washington, D.C. 20005.

Categories of individuals covered by the system: All Department employees as categorized by organization component in a. through k., above, who have sustained occupational injury/illness or who have been involved in a motor vehicle accident while on official Government business,

Categories of records in the system: Name; address; home telephone number; date and place of birth; sex; social security number; occupation; grade; location and description of accident or injury; driving permit or license data; physical condition at time of incident; insurance information; vehicle ownership and licensing data.

Authority for maintenance of the system: 29 U.S.C. 651-78, 28 U.S.C. 2671-2680, Executive Orders 11612 and 11807.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See routine use paragraphs of Prefatory Statement. Also, accident reports involving Government vehicles are disclosed to the General Service Administration, the custodian of Government vehicles; accident information may also be disclosed to insurance carriers during resolution of claims.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed alphabetically by name.

Safeguards: Records are located in lockable metal file cabinets with access limited to those whose official duties require access.

Retention and disposal: Disposed after 5 years.

System manager(s) and address: For records at location a.: Coordinator for Occupational Safety and Health and Motor Management, Departmental Office of Administrative Services and Procurement, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location b.: Director, Office of Administrative Support, Industry and Trade Administration, Washington, D.C. 20230.

For records at location c.: Chief, Office Service Division, Economic Development Administration, Washington, D.C. 20230.

For records at location d.: Safety Officer, Office of Domestic Shipping, Maritime Administration, Washington, D.C. 20230.

For records at location e.: Safety Officer, Field Operations and Administration, Office of Minority Business Enterprise, Washington, D.C. 20230.

For records at location f.: Safety Manager, Supply and Plant Building, NBS, Gaithersburg, Md. (P.O. Washington, D.C. 20234).

For records at location g.: Safety Engineer, Administrative Operations Division, National Oceanic and Atmospheric Administration, Rockville, Md. 20852.

For records at location h.: Chief, Property Management Branch, Administrative Service Division, Sills Building, National Technical Information Service, Springfield, Va. 22161.

For records at location i.: Director, Office of General Service, U.S. Patent and Trademark Office, Washington, D.C. 20231.

For records at location j.: Associate Director for Administration, Bureau of the Census, Federal Building 3, Washington, D.C. 20233.

For records at location k.: Safety Officer, Office of Administration, National Telecommunications and Information Administration, U.S. Department of Commerce, Washington, D.C. 20504.

Notification procedure: For Departmental office records at location a., information may be obtained from: Director, Office of Organization and Management Systems, OS, U.S. Department of Commerce, Washington, D.C. 20230;

For BEA records at location a., information may be obtained from: Chief Planning and Evaluation Officer, BEA, Tower Building, 1401 K Street, N.W., Washington, D.C. 20230;

For NFPCA records at location a., information may be obtained from: Administrative Officer, NFPCA, 2400 M Street N.W., Washington, D.C. 20230;

For USTS records at location a., information may be obtained from: Director, Office of Administration, United States Travel Service, Washington, D.C. 20230.

For records at location b., information may be obtained from: Director, Office of Management and Systems, Industry and Trade Administration, Washington, D.C. 20230;

For records at location c., information may be obtained from: Director, Office of Public Affairs, Economic Development Administration, Washington, D.C. 20230;

b. For employees of MARAD in Washington, D.C.: (machine-readable) Division of Data Operations, (manual) Division of Accounts, Maritime Administration, Main Commerce Building, Washington, D.C. 20230. Regional employees: U.S. Merchant Marine Academy Travel Clerk, Kings Point, N.Y. 11024; Administrative Service Office, Maritime Administration, 26 Federal Plaza, New York, N.Y. 10007; Administrative Service Office, Maritime Administration, No. 2 Canal Street, New Orleans, La. 70130; Regional Office Service, Maritime Administration, 450 Golden Gate Ave., P.O. Box 36073, San Francisco, California 94102; Great Lakes Regional Office, Maritime Administration, Room 576, 666 Euclid Ave., Cleveland, Ohio 44114.

c. For employees of NBS, NTIS, and NTIA: Office of the Comptroller, National Bureau of Standards, Administration Building, Washington, D.C. 20234.

d. For employees of NOAA: Travel and Transportation Branch, NOAA Finance Division, National Oceanic and Atmospheric Administration, Rockville, Maryland 20852 and the following Field Finance Offices: Research Building 3, 3100 Marine Street, Boulder, Colo. 80302; Room 1760, 601 E. 12th Street, Kansas City, Mo. 64106; 75 Virginia Beach Drive, Building 2, Miami, Fla. 33149; and, North Bethesda Office Center, 11420 Rockville Pike, Rockville, Maryland 20852.

e. For employees of PAT-TM: Office of General Service, U.S. Patent and Trademark Office, 2021 Jefferson Davis Highway, Arlington, Va. 22202.

f. For employees of CENSUS: Finance Division, Bureau of the Census, Federal Building 3, Washington, D.C. 20233 and the following Regional Offices for intermittent CENSUS employees: 1365 Peachtree Street, N.E., Atlanta, Georgia 30309; 441 Stuart Street,

Boston, Massachusetts 02116; 230 South Tryon Street, Charlotte, North Carolina 28202; 536 South Clark Street, Chicago, Illinois 60605; 1100 Commerce Street, Dallas, Texas 75202; 11011 West Sixth Avenue (P.O. Box 25207), Denver, Colorado 80225; 234 State Street, Detroit, Michigan 48226; One Gateway Center, 4th and State Street, Kansas City, Kansas 66101; 1100 Wilshire Boulevard, Los Angeles, California 90024; 26 Federal Plaza, New York City, New York 10007; 600 Arch Street, Philadelphia, Pennsylvania 19106; and 1700 Westlake Avenue, Seattle, Washington 98109.

g. For employees of EDA: Accounting Division, Washington, D.C. 20230.

Categories of individuals covered by the system: Employees, Advisory Committee Members, State Representatives of ARC, and official guests of the Department.

Categories of records in the system: Name, address, social security number; destination, itinerary, mode and purpose of travel; dates; expenses including amounts advanced (if any), amounts claimed, and amounts reimbursed; travel orders, travel vouchers, receipts, and passport record card.

Authority for maintenance of the system: Budget and Accounting Act of 1921; Accounting and Auditing Act of 1950; and Federal Claim Collection Act of 1966.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Transmittal to U.S. Treasury for payment, to State Department for passports, and see routine use portion of Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manual and machine-readable.

Retrievability: Filed by name, social security number, or travel order number.

Safeguards: Records are located in lockable metal file cabinets or in secured rooms or secured premises with access limited to those whose official duties require access.

Retention and disposal: Retained according to GSA Federal Travel Regulations, and then disposed of according to unit's Records Control Schedule.

System manager(s) and address: For records at location a., Controller, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location b., Chief, Division of Accounts, Maritime Administration, Washington, D.C. 20230; U.S. Merchant Marine Academy Travel Clerk, Kings Point, N.Y. 11024; Administrative Service Officer, Maritime Administration, 26 Federal Plaza, New York, N.Y. 10007; Administrative Service Officer, Maritime Administration, No. 2 Canal Street, New Orleans, La. 70130; Regional Office Service Officer, Maritime Administration, 450 Golden Gate Ave., P.O. Box 36073, San Francisco, California 94102; Regional Director, Maritime Administration, Great Lakes Regional Office, 666 Euclid Ave., Cleveland, Ohio 44114.

For records at location c., Comptroller, Office of the Comptroller, National Bureau of Standards, Administration Building, Gaithersburg, Maryland 20234.

For records at location d., Chief, Travel and Transportation, Finance Division, National Oceanic and Atmospheric Administration, 6010 Executive Boulevard, Rockville, Maryland 20852 and the Chief of the particular Field Finance Office listed above.

For records at location e., Director, Office of General Service, U.S. Patent and Trademark Office, Washington, D.C. 20231.

For records at location f., Associate Director for Administration, Bureau of the Census, Federal Building 3, Washington, D.C. 20233 and the Director of the particular Regional Office listed above.

For records at location g., Chief, Accounting Division, Economic Development Administration, Washington, D.C. 20230.

Notification procedure: For BEA records at location a., information may be obtained from: Chief Planning and Evaluation Officer, BEA, Tower Building, 1401 K Street, N.W., Washington, D.C. 20230;

For ITA records at location a., information may be obtained from: Director, Office of Management and Systems, ITA, U.S. Department of Commerce, Washington, D.C. 20230;

For NFPCA records at location a., information may be obtained from: Administrative Officer, NFPCA, 2400 M Street, N.W., Washington, D.C. 20230;

For OMBE records at location a., information may be obtained from: Privacy Officer, Office of Chief Counsel, OMBE, U.S. Department of Commerce, Washington, D.C. 20230;

For USTS records at location a., information may be obtained from: Director, Office of Administration, USTS, U.S. Department of Commerce, Washington, D.C. 20230; and

For all other records at location a., information may be obtained from: Director, Office of Organization and Management Systems, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location b., information can be obtained from: Secretary, Maritime Administration, Washington, D.C. 20230.

For NBS and NTIS records at location c., information can be obtained from: Director of Administrative and Information Systems, National Bureau of Standards, Gaithersburg, Maryland (P.O. Washington, D.C. 20234).

For NTIA records at location c., information may be obtained from: Privacy Officer, NTIA, U.S. Department of Commerce, Washington, D.C. 20504.

For records at location d., information can be obtained from: Assistant Administrator for Administration, National Oceanic and Atmospheric Administration, 6010 Executive Boulevard, Rockville, Maryland 20852.

For records at location e., information can be obtained from: Assistant Commissioner for Administration, U.S. Patent and Trademark Office, Washington, D.C. 20231.

For records at location f., information can be obtained from: Associate Director for Administration, Bureau of the Census, Federal Building 3, Washington, D.C. 20233.

For records at location g., information may be obtained from: Director, Office of Public Affairs, EDA, U.S. Department of Commerce, Washington, D.C. 20230.

Requester should provide name, travel order number, if known, and date of travel, in accordance with the inquiry provisions of the Department's Rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the Notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: Subject individual, those authorized by the individual to furnish information, supervisors, and finance (or accounting) office standard references.

COMMERCE/DEPT-14.

System name: Litigation, Claims, and Administrative Proceeding Records—COMMERCE/DEPT-14.

System location: a. For matters involving CENSUS: Office of the Associate Director for Administration, Bureau of the Census, Federal Building 3, Washington, D.C. 20233. Some records may be duplicated in the offices of Census Bureau division chiefs. A complete address list of division chiefs is available upon request from the individual designated in the Notification section below.

b. For matters involving ITA tort and personal property claims: Office of Administrative Support, Industry and Trade Administration, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

c. For matters involving EDA: Office of Chief Counsel, EDA, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

d. For matters involving MARAD: Maritime Administration, Office of General Counsel, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

e. For matters involving NBS other than violations of traffic and grounds regulations: National Bureau of Standards, Office of the Legal Adviser, Administration Building, Gaithersburg, Maryland (P.O. Washington, D.C. 20234). For matters involving violations of traffic and grounds regulations at Gaithersburg, Maryland, Security Office, Administration Building, Gaithersburg, Maryland (P.O. Washington, D.C. 20234) and for violations of those regulations at Boulder or Fort Collins, Colorado, Guard Service Office, NBS, Radio Building, Boulder, Colorado, 80302.

f. For matters involving NFPCA: Office of the Chief Counsel, National Fire Prevention and Control Administration, 2400 M Street, N.W., Washington, D.C. 20037.

g. For matters involving NOAA: Office of General Counsel, National Oceanic and Atmospheric Administration, 6010 Executive Boulevard, Rockville, Maryland 20852. Records in this system may also be located at other NOAA offices in the Washington, D.C. metropolitan area and in the field. A complete list of addresses is available upon request from the individual designated in the Notification section below.

h. For matters involving NTIS: Property Management Office, or Office of the Controller, National Technical Information Service, 5285 Port Royal Rd., Springfield, Va. 22161.

i. For matters involving NTIA: Office of the Chief Counsel, National Telecommunications and Information Administration, 1800 G Street, N.W., Washington, D.C. 20504; or Office of Administration, National Telecommunications and Information Administration, 1325 G Street, N.W., Washington, D.C. 20005.

j. For matters involving PAT-TM: Office of the Solicitor, U.S. Patent and Trademark Office, 2021 Jefferson Davis Highway, Arlington, Virginia 22202.

k. For all other matters: Office of the General Counsel, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230. Some of the records at locations a. through j. may be duplicated at location k. Also, the records at locations a. through k. may be duplicated in part or in whole in other Department of Commerce systems of records, or in Government-wide systems, at other locations. For assistance in this regard, information may be obtained from the individual identified in the appropriate Notification procedure section below.

Categories of individuals covered by the system: Individuals the subject of any litigation in which the Department is involved; individuals who make administrative claims or appeals against the Department; individuals the subject of claims and administrative actions brought by the Department. Individuals cited for violation of traffic and grounds regulations. Individuals who may have provided statements or other evidence with respect to any of the above. "Department" means the U.S. Department of Commerce or any component thereof, or any officer or employee thereof.

Categories of records in the system: Names, addresses, Social Security Account Numbers, statements of claims and analyses thereof, investigatory reports, opinions of law, and pleadings, motions, depositions, rulings, opinions, citation particulars (description of vehicle, date of birth, physical characteristics, driving permit or license data, vehicle license data, etc.), and other litigation and claims documentation.

Authority for maintenance of the system: 5 U.S.C 301; 44 U.S.C Section 3101; 42 U.S.C 3211; 31 U.S.C. 240; 28 U.S.C 533-535 and 1346(b); 15 U.S.C. 277 and 278e(b); E.O. 10450; and all other authorities of the Department.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See routine use paragraphs of the Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed alphabetically by name.

Safeguards: Records are located in lockable metal file cabinets or in metal file cabinets in secured rooms or secured premises with access limited to those whose official duties require access.

Retention and disposal: Records are disposed of according to unit's Record Control Schedule.

System manager(s) and address: For records at location a.: Associate Director for Administration, Bureau of the Census, Federal Building 3, Washington, D.C. 20233.

For records at location b.: Director, Office of Administrative Support, Industry and Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location c.: Chief Counsel, Economic Development Administration, Department of Commerce, Washington, D.C. 20230.

For records at location d.: General Counsel, Maritime Administration, Washington, D.C. 20230.

For records at location e.: Legal Adviser, National Bureau of Standards, Gaithersburg, Maryland (P.O. Washington, D.C. 20234).

For records at location f.: Chief Counsel, National Fire Prevention and Control Administration, P.O. Box 19518, Washington, D.C. 20036.

For records at location g.: General Counsel, National Oceanic and Atmospheric Administration, 6010 Executive Boulevard, Rockville, Maryland 20852.

For records at location h.: Chief, Administrative Services Division, and Controller, each for their respective protions, National Technical Information Service, 5285 Port Royal Rd., Springfield, Va. 22161.

For records at location i.: Chief Counsel and Director of Administration (for their respective portions), National Telecommunications and Information Administration, U.S. Department of Commerce, Washington, D.C. 20504.

For records at location j.: Solicitor, U.S. Patent and Trademark Office, Washington, D.C. 20231.

For records at location k.: General Counsel, U.S. Department of Commerce, Washington, D.C. 20230.

Notification procedure: For records at location a., information may be obtained from: Associate Director for Administration, Bureau of the Census, Federal Building 3, Washington, D.C. 20233.

For records at location b., information may be obtained from: Director, Office of Management and Systems, ITA, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location c., information may be obtained from: Director, Office of Public Affairs, EDA, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location d., information may be obtained from: Secretary, Maritime Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location e., information may be obtained from: Director of Administrative and Information Systems, National Bureau of Standards, Gaithersburg, Maryland (P.O. Washington, D.C. 20234);

For records at location f., information may be obtained from: Administrative Officer, National Fire Prevention and Control Administration, P.O. Box 19518, Washington, D.C. 20036.

For records at location g., information may be otained from: Assistant Administrator for Administration, National Oceanic and Atmospheric Administration, 6010 Executive Boulevard, Rockville, Maryland 20852.

For records at location h., information may be obtained from: Assistant Director for Administration, National Technical Information Service, Sills Bldg., Springfield, Va. 22161.

For records at location i., information may be obtained from: Privacy Officer, National Telecommunications and Information Administration, U.S. Department of Commerce, Washington, D.C. 20504.

For records at location j., information may be obtained from: Assistant Commissioner for Administration, U.S. Patent and Trademark Office, Washington, D.C. 20231.

For records at location k., information may be obtained from: Director, Office of Organization and Management Systems, U.S. Department of Commerce, Washington, D.C. 20230.

Requester should provide name, address, social security number, case number; date of claim, organization unit in which employed, as appropriate, pursuant to the inquiry provisions which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the Notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: Subject claimant or plaintiff; those authorized by the foregoing to furnish information; and, whatever sources pertinent to the nature of the case.

Systems exempted from certain provisions of the act: Pursuant to 5 U.S.C. 552a (k)(1), (k)(2) and (k)(5), all investigatory material and material subject to the provisions of 5 U.S.C. 552(b)(1) in the record which meets the criteria of these sub-sections is exempted from the notice, access, and contest requirements (under 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f)) of the agency regulations because of the necessity to exempt this information and material in order to prevent disclosure of classified information as required by Executive Order 11652 in the interest of the national defense and foreign policy and in order for the Department's legal staff to properly perform its functions.

COMMERCE/DEPT.-16.

System name: Property Accountability Files—COMMERCE/DEPT-16.

System location: a. For MARAD: Supply Management Division, Maritime Administration, Washington, D.C. 20230; Department of Administrative Service, U.S. Merchant Marine Academy, Kings Point, N.Y. 11024; Administrative Service Office, Maritime Administration, 26 Federal Plaza, New York, N.Y. 10007; Administrative Service Office, Maritime Administration, No. 2 Canal Street, New Orleans, La. 70130; Regional Office Service, Maritime Administration, 450 Golden Gate Avenue, P.O. Box 36073, San Francisco, California 94102; Great Lakes Regional Office, Maritime Adminstration, Room 576, 666 Euclid Ave., Cleveland, Ohio 44114.

Washington, D.C. 20234); Instrument Shops Division, Shops Building, NBS, Gaithersburg, Maryland (P.O. Washington, D.C. 20234); and Security Office, Radio Building, NBS, Boulder, Colorado 80302.

e. For employees of PAT-TM: Office of General Service, U.S. Patent and Trademark Office, Washington, D.C. 20231.

f. For NTIA: Office of Administration, National Telecommunications and Information Administration, 1325 G Street, N.W., Washington, D.C. 20005.

Categories of individuals covered by the system: Employees, general public, institutions, and anyone who charges out or signs for books or other materials.

Categories of records in the system: Name; telephone number; title of book; identification of property or equipment; home and business address; employee I.D. number; position; job title; grade; organization; explanations for items not accounted for, correspondence; clearances; and, key number.

Authority for maintenance of the system: 5 U.S.C. 301; 44 U.S.C. 3101; 40 U.S.C. 481-92; 15 U.S.C. 1518.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See routine use paragraphs of Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper copy in file folders and trays.

Retrievability: Filed alphabetically by name.

Safeguards: Records are located in lockable metal files cabinets, or lockable desks, or in metal file cabinets in secured rooms or secured premises with access limited to those whose official duties require access.

Retention and disposal: Retained until property is accounted for, then disposed of in accordance with unit's Record Control Schedule.

System manager(s) and address: For records at location a.: Chief, Supply Management Division, Maritime Administration, Washington, D.C. 20230; Administrative Service Officer, U.S. Merchant Marine Academy, Kings Point, N.Y. 11024; Administrative Service Officer, Maritime Administration, 26 Federal Plaza, New York, N.Y., 10007; Administrative Service Officer, Maritime Administration, No. 2 Canal Street, New Orleans, La. 70130; Property Accountability Officer, Regional Office Service, Maritime Administration, 450 Golden Gate Avenue, P.O. Box 36073, San Francisco, California 94102; Regional Director, Great Lakes Regional Office, Maritime Administration, 666 Euclid Ave., Cleveland, Ohio 44114.

For records at location b.: the head of the respective library.

For records at location c.: Associate Director for Administration, Bureau of the Census, Federal Building 3, Washington, D.C. 20233, and the Director of the particular Regional Office listed above.

For records at location d.: Security Officer, National Bureau of Standards, Administration Building, Gaithersburg, Maryland (P.O. Washington, D.C. 20234).

For records at location e.: Director, Office of General Service, U.S. Patent and Trademark Office, Washington, D.C. 20231.

For records at location f: Director of Administration, National Telecommunications and Information Administration, U.S. Department of Commerce, Washington, D.C. 20504.

Notification procedure: For records at location a.: information may be obtained from: Secretary, Maritime Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location b.: Address communication to the library's parent organization (e.g., National Bureau of Standards) Attention: Privacy Officer, or use the Privacy Officer's Official position title and address as listed in Appendix B to the Department's rules which appear in 15 CFR Part 4b.

For records at location c., information may be obtained from: Associate Director for Administration, Bureau of the Census, Federal Building 3, Washington, D.C. 20233.

For records at location d., information may be obtained from: Director of Administrative and Information Systems, National Bureau of Standards, Gaithersburg, Maryland (P.O. Washington, D.C. 20234).

For records at location e., information may be obtained from: Assistant Commissioner for Administration, U.S. Patent and Trademark Office, U.S. Department of Commerce, Washington, D.C. 202331. For records at location f., Information may be obtained from: Privacy Officer, National Telecommunications and Information Administration, U.S. Department of Commerce, Washington, D.C. 20504.

Requester should provide name and address pursuant to the inquiry provisions of the Department's Rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the Notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: Subject individual, those authorized by the individual to furnish information, book cards, and supply person providing the equipment.

COMMERCE/DEPT-17.

System name: Records of Cash Receipts—COMMERCE/DEPT-17.

System location: a. For Departmental offices, BEA, ITA, NFPCA, OMBE, USTS, Offices of Federal Chairman, RAPCs, and ARC: Office of Controller, Finance Operations Division (Receipts and Distribution Section), OS, U.S. Department of Commerce, 14th and Constitution Ave., N.W., Washington, D.C. 20230 and Office of Automatic Data Processing Management, (ADP Analysis and Programming Division), use same address.

b. For MARAD: Division of Accounts, Maritime Administration, 14th and Constitution Ave., N.W., U.S. Department of Commerce, Washington, D.C. 20230.

c. FOR NTIS: Accounting Control Division, National Technical Information Service, Room 1303, Sills Building, Springfield, Virginia 22161.

d. For PAT-TM: Office of Finance, U.S. Patent and Trademark Office, 2021 Jefferson Davis Highway, Arlington, Virginia 22202.

e. For Census: Finance Division, Bureau of the Census, Federal Building 3, Washington, D.C. 20233.

f. For NTIA: Office of Administration, National Telecommunications and Information Administration, 1325 G Street, N.W., Washington, D.C. 20005

g. For EDA: Accounting Division, Economic Development Administration, Washington, D.C. 20230.

Categories of individuals covered by the system: Individuals paying for goods or services, reimbursing overpayments, or otherwise delivering cash to the Department.

Categories of records in the system: Individual's name, the goods or service purchased, amount, date, check number, division or office, bank deposit, treasury deposit number.

Authority for maintenance of the system: 31 U.S.C. 66(a).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See routine use paragraphs of the Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manual and machine-readable.

Retrievability: Name and/or account or case number.

Safeguards: Records are located in lockable metal file cabinets or in secured rooms or secured premises with access limited to those whose official duties require access.

Retention and disposal: Permanently maintained.

System manager(s) and address: For records at location a.: Controller, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location b.: Chief, Division of Accounts, Maritime Administration, Washinton, D.C. 20230.

For records at location c.: Chief, Accounting Control Division, National Technical Information Service, Room 1303, Sills Building, Springfield, Virginia 22161.

For records at location d.: Director, Office of Finance, U.S. Patent and Trademark Office, Washington, D.C. 20231.

For records at location e.: Associate Director for Administration, Bureau of the Census, Federal Building 3, Washington, D.C. 20233.

For records at location f.: Director of Administration, National Telecommunications and Information Administration, 1325 G Street, N.W., Washington, D.C. 20005.

For records at location g.: Chief, Accounting Division, Economic Development Administration, Washington, D.C. 20230.

Notification procedure: For BEA records at location a., information may be obtained from: Chief Planning and Evaluation Officer, BEA, Tower Building, 1401 K Street, N.W., Washington, D.C. 20230;

For ITA records at location a., information may be obtained from: Director, Office of Management and Systems, ITA, U.S. Department of Commerce, Washington, D.C. 20230;

For NFPCA records at location a., information may be obtained from: Administrative Officer, NFPCA, Washington, D.C. 20230;

For OMBE records at location a., information may be obtained from: Privacy Officer, Office of Chief Counsel, OMBE, U.S. Department of Commerce, Washington, D.C. 20230;

For USTS records at location a., information may be obtained from: Director, Office of Administration, USTS, U.S. Department of Commerce, Washington, D.C. 20230; and

For all other records at location a., information may be obtained from: Director, Office of Organization and Management Systems, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location b., information may be obtained from: Secretary, Maritime Administration, Washington, D.C. 20230;

For records at location c., information may be obtained from: Assistant Director, Administration, National Technical Information Service, Room 1006, Sills Building, Springfield, Virginia 22161.

For records at location d., information may be obtained from: Assistant Commissioner for Administration, U.S. Patent and Trademark Office, Washington, D.C. 20231.

For records at location e., information may be obtained from: Assistant Director for Administration, Bureau of the Census, Federal Building 3, Washington, D.C. 20233.

For records at location f., information may be obtained from: Privacy Officer, National Telecommunications and Information Administration, U.S. Department of Commerce, Washington, D.C. 20504.

For records at location g., information may be obtained from: Director, Office of Public Affairs, EDA, U.S. Department of Commerce, Washington, D.C. 20230.

Requester should provide name, address, date of receipt, and check number or case number pursuant to the inquiry provisions of the Department's Rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the Notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: Subject individual and those authorized by the individual to furnish information.

COMMERCE/DEPT.-18.

System name: Employees Personnel Files Not Covered By U.S. Civil Service Commission—COMMERCE/DEPT-18.

System location: a. For employees of Departmental Offices, Offices of Federal Cochairmen, RAPCs, ARC, BEA, EDA, NFPCA, NTIA, NTIS, OMBE, and USTS: Processing and Servicing Branch, Departmental Office of Personnel, Room 5014, U.S. Department of Commerce, Washington, D.C. 20230;

b. For employees of CENSUS: Office of Personnel, Bureau of Census, Federal Building 3, Room 3260, Washington, D.C. 20233;

c. For employees of ITA: Office of Personnel, Industry and Trade Administration, Room 3512, U.S. Department of Commerce, Washington, D.C. 20230;

d. For employees of MARAD: Office of Personnel, Room 1091, U.S. Department of Commerce, Washington, D.C. 20230;

e. For employees of NBS: Office of Personnel, National Bureau of Standards, Administration Building, Room A123, Gaithersburg, Maryland 20760; and National Academy of Sciences, 2100 Pennsylvania Avenue, N.W., Room JH606, Washington, D.C. 20037;

f. For employees of NOAA: Personnel Division, National Oceanic and Atmospheric Administration, Rockville, Maryland 20852; and

g. For employees of PAT-TM: Office of Personnel, U.S. Patent and Trademark Office, U.S. Department of Commerce, Room 9C06, Crystal Plaza 2, Arlington, Virginia 22202.

Categories of individuals covered by the system: Current and former employees.

Categories of records in the system: All personnel records in the Department which are subject to the Privacy Act but are not covered in the notices of systems of records published by the U.S. Civil Service Commission. The records of this system may include, but are not limited to: Employee Development; Incentive Awards; International Women's Year; Medical; Career Management Program; Ship Personnel; Employee Overseas Assignment, and Relations; Minority Group Statistics; Personnel Uniform ADP System; Experts and Consultants Quarterly Review; Re-Employment Priority; Repromotion Priority; Merit Promotion Programs; Within-Grade Denials (Reconsideration File); and, Employee Information System.

Authority for maintenance of the system: 5 U.S.C. 301; 44 U.S.C. 3101; and Federal Personnel Manual and related directives of the U.S. Civil Service Commission.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information concerning current or former employees may be disclosed to a private organization or individual as necessary to obtain information in connection with a decision concerning the assignment, hiring, or retention of an individual, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit. See routine uses paragraphs in the Prefatory Statement and routine uses paragraphs of U.S. Civil Service Commission notices of systems of records.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manual and machine-readable.

Retrievability: Filed by name and/or social security number.

Safeguards: Records are located in lockable metal file cabinets or in metal file cabinets in secured rooms or secured premises with access limited to those whose official duties require access.

Retention and disposal: Retained according to Unit's Records Control Schedule.

System manager(s) and address: For records at location a.: Chief, Processing and Servicing Branch, Office of Personnel, Room 5014, U.S. Department of Commerce, Washington, D.C. 20230;

For records at location b.: Chief of Personnel, Bureau of the Census, Federal Building 3, Room 3260, Washington, D.C. 20233;

For records at location c.: Director of Personnel, Industry and Trade Administration, U.S. Department of Commerce, Room 3512, Washington, D.C. 20230;

For records at location d.: Director, Office of MARAD Personnel, Room 1091, U.S. Department of Commerce, Washington, D.C. 20230;

For records at location e.: Chief of Personnel, National Bureau of Standards, Administration Building, Room A123, Gaithersburg, Maryland 20760;

For records at location f.: Chief, Personnel Division, National Oceanic and Atmospheric Administration, NBOC2, Rockville, Maryland 20852; and

For records at location g.: Personnel Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, Room 9C06, Crystal Plaza 2, Arlington, Virginia 22202.

Notification procedure: For BEA records at location a., information may be obtained from: Chief Planning and Evaluation Officer, BEA, Tower Building, 1401 K Street, N.W., Washington, D.C. 20230;

For EDA records at location a., information may be obtained from: Director, Office of Public Affairs, EDA, U.S. Department of Commerce, Washington, D.C. 20230;

For NFPCA records at location a., information may be obtained from: Administrative Officer, NFPCA, 2400 M Street, N.W., Washington, D.C. 20230;

For NTIA records at location a., information may be obtained from: Privacy Officer, NTIA, U.S. Department of Commerce, Washington, D.C. 20504;

For NTIS records at location a., information may be obtained from: Deputy Director, NTIS, U.S. Department of Commerce, Washington, D.C. 20230;

For OMBE records at location a., information may be obtained from: Privacy Officer, Office of Chief Counsel, OMBE, U. S. Department of Commerce, Washington, D.C. 20230;

For USTS records at location a., information may be obtained from: Director, Office of Administration, USTS, U.S. Department of Commerce, Washington, D.C. 20230.

For all other records at location a., information may be obtained from: Director, Office of Organization and Management Systems, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location b., information may be obtained from: Associate Director for Administration, Bureau of the Census, Federal Building 3, Washington, D.C. 20233;

For records at location c., information may be obtained from: Director, Office of Management and Systems, Industry and Trade Administration, Washington, D.C. 20230;

For records at location d., information may be obtained from: Secretary, Maritime Administration, Washington, D.C. 20230;

For records at location e., information may be obtained from: Director of Administrative and Information Systems, National Bureau of Standards, Gaithersburg, Maryland (P.O. Washington, D.C. 20234);

For records at location f., information may be obtained from: Assistant Administrator for Administration, National Oceanic and Atmospheric Administration, 6010 Executive Boulevard, Rockville, Maryland 20852; and

For records at location g., information may be obtained from: Assistant Commissioner for Administration, U.S. Patent and Trademark Office, Washington, D.C. 20231.

Requester should provide name, social security number, and time or organization unit of employment pursuant to the inquiry provisions of the Department's rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the Notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: Subject individual and those authorized by the individual to furnish information; others involved in references of the individual; physicians; employee's supervisor; and, sources in the U.S. Civil Service Commission notices.

COMMERCE/DEPT-19

System name: Department Mailing Lists—COMMERCE/DEPT-19.

System location: a. Bureau of the Census, Federal Building 3, Washington, D.C. 20233.

b. National Fire Prevention and Control Administration, Washington, D.C. 20230.

c. Office of Minority Business Enterprise, U.S. Department of Commerce, Washington, D.C. 20230.

d. Office of General Service, U.S. Patent and Trademark Office, 2021 Jefferson Davis Highway, Arlington, Virginia 22202.

Categories of individuals covered by the system: At location a.: 1. Persons employed in the Suitland Federal Center who have voluntarily submitted an application to be included in the carpool locator system and be listed as a possible carpool member, and 2. Subscribers to Bureau of the Census publications.

At location b.: All regular publication recipients, all individuals who have requested that they be placed on a mailing list or requested information about NFPCA, and individuals attending NFPCA-sponsored conferences.

At location c.: Subscribers to OMBE publications and/or representatives of the media who receive OMBE material at their home addresses.

At location d.: Former employees of the Patent and Trademark Office who have requested that their names be included on a newsletter mailing list.

Categories of records in the system: At location a.: 1. Carpool records include name, address, work week, hours of work, work location, work phone number, willingness to join in a carpool, willingness to participate as a driver or rider in a carpool, zip code. 2. Subscriber lists include name and home address.

At location b.: Name, title, affiliation, address and telephone number.

At location c.: Name and home address.

At location d.: Name and home address.

Authority for maintenance of the system: 5 U.S.C. 301; 15 U.S.C. 1512, 2205, 2208, and 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: For all locations, see general routine uses of Prefatory Statement.

For records at location a.: Carpool records are disseminated to other persons working at the Suitland Federal Center who have voluntarily listed themselves to form carpools; home address is suppressed.

For records at location b. Information is provided Federal, state, local or international agencies in response to a written request indicating a likelihood that individuals on the mailing list would benefit by or be interested in material to be sent by the requesting agency.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper copy in file folders, computer tape, mailing labels.

Retrievability: Alphabetically by name, and for records at location a., by zip code.

Safeguards: Records are located in locked cabinets or in secured rooms or premises with access limited to those whose official duties require access.

Retention and disposal: Records are retained in accordance with each unit's Records Control Schedule.

System manager(s) and address: For records at location a.: Associate Director for Administration, Bureau of the Census, Federal Building 3, Washington, D.C. 20233.

For records at location b.: Associate Administrator, National Fire Data Center, NFPCA, U.S. Department of Commerce, P. O. Box 19518, Washington, D.C. 20036.

For records at location c.: Chief of Information, Office of Public Affairs, OMBE, Washington, D.C. 20230.

For records at location d.: Director, Office of General Service, U.S. Patent and Trademark Office, Washington, D.C. 20231.

Notification procedure: For records at location a.: Information may be obtained from: Associate Director for Administration, Federal Building 3, Bureau of the Census, Washington, D.C. 20233.

For records at location b.: Information may be obtained from: Administrative Officer, NFPCA, Washington, D. C. 20230.

For records at location c.: Privacy Officer, Office of Chief Counsel, Office of Minority Business Enterprise, U.S. Department of Commerce, Washington, D.C. 20230.

For records at location d.: Information may be obtained from: Assistant Commissioner for Administration, U. S. Patent and Trademark Office, Washington, D.C. 20231.

Record access procedures: Requests from individuals should be addressed to: Same address of the desired location as stated in the Notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address for desired location.

Record source categories: Subject individual.

COMMERCE/DEPT-20.

System name: Biographical Files—COMMERCE/DEPT-20.

System location: a. For Secretarial Officers, senior-level officials, and employees of the Office of the Secretary: Office of Communications, U.S. Department of Commerce, Washington, D.C. 20230.

b. For Secretarial Officers and senior-level officials included in Biographical Resumes of Key Officials: Offices of the Director of Personnel, Executive Secretariat, and Assistant Secretary for Administration; all Office of the Secretary, U.S. Department of Commerce, Washington, D.C. 20230.

c. For employees of CENSUS: Public Information Office, Federal Building 03, Bureau of the Census, Washington, D.C. 20230.

d. For employees of ITA: Office of Public Affairs, Industry and Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230.

e. For employees of EDA: Office of Public Affairs, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230.

f. For members of the National Public Advisory Committee on Regional Economic Development: Office of Economic Research, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230.

g. For employees of MARAD: Office of Public Affairs, Maritime Administration, U.S. Department of Commerce, Washington, D.C. 20230.

h. For members of the Advisory Board to the U.S. Merchant Marine Academy: Office of Assistant Secretary for Maritime Affairs, U.S. Department of Commerce, Washington, D.C. 20230.

i. For employees of NBS: Public Information Division, Administration Building, National Bureau of Standards, Gaithersburg, Maryland (P.O. Washington, D.C. 20234).

j. For employees of NBS' Boulder Laboratories: Program Information Office, National Bureau of Standards, Radio Building, Boulder, Colorado 80302.

k. For employees of NFPCA: Office of Information Services, National Fire Prevention and Control Administration, U.S. Department of Commerce, Washington, D.C. 20230.

l. For members of the National Advisory Committee on Oceans and Atmosphere: National Advisory Committee on Oceans and Atmosphere, U.S. Department of Commerce Building, Room 5225, Washington, D.C. 20230.

m. For employees of NOAA and Commissioners of International Fishery Commissions: NOAA headquarters locations: Office of Public Affairs, National Oceanic and Atmospheric Administration, 6010 Executive Boulevard, Rockville, Maryland 20852, and/or Office of the Executive Officer, NOAA, U.S. Department of Commerce, Washington, D.C. 20230; and/or NOAA field installations, the principal addresses of which are:

NOAA's National Ocean Survey, 6001 Executive Boulevard, Rockville, Maryland 20850.

NOAA's National Weather Service, 8060 13th Street, Silver Spring, Maryland 20910.

NOAA's Sea Grant-Coastal Zone Management, 2001 Wisconsin Avenue, N.W., Washington, D.C. 20235.

NOAA's Environmental Research Laboratories, 3100 Marine Street, RB3, Boulder, Colorado 80302, and Environmental Research Laboratories at 9 locations in the United States.

NOAA's National Marine Fisheries Service, 3300 Whitehaven Street, Washington, D.C. 20235.

A complete list of all field installations is available upon request from individual designated in Notification section below.

n. For employees of OMBE: Public and Congressional Affairs Office, Office of Minority Business Enterprise, U.S. Department of Commerce, Washington, D.C. 20230.

o. For employees of PAT-TM: Office of Information Services, Patent and Trademark Office, Washington, D.C. 20231.

p. For employees of the Office of the Assistant Secretary for Science and Technology and organizational components reporting to the Assistant Secretary; for members of the Commerce Technical Advisory Board and its subcommittees; and for participants in the Commerce Science and Technology Fellowship Program: Office of the Assistant Secretary for Science and Technology, U.S. Department of Commerce, Washington, D.C. 20230.

q. For employees of NTIA's Institute for Telecommunication Sciences: Institute for Telecommunication Sciences, NTIA, Boulder, Colorado 80302. For other NTIA employees: Office of the Director of Congressional and Public Affairs, NTIA, 1800 G Street, N.W., Washington, D.C. 20504.

r. For Federal Cochairmen of Regional Action Planning Commissions: Office of Regional Economic Coordination, Office of the Secretary, U.S. Department of Commerce, Washington, D.C. 20230.

The information in this system may be duplicated in other Privacy Act systems of the Commerce Department, in the systems maintained by the Civil Service Commission, or in the immediate office of the individual to whom the biographical record pertains. For assistance in this regard, contact the Director, Office of Organization and Management Systems, U.S. Department of Commerce, Washington, D.C. 20230.

Categories of individuals covered by the system: Present and former Department personnel, members of advisory committees, commissioners of International Fisheries Commissions, and Federal Cochairmen of Regional Action Planning Commissions.

Categories of records in the system: Biographical information which typically includes date and place of birth; education; military service; present position; employment history; field of research; publications; inventions and patents; awards and honors; memberships and affiliations; present and past residences; telephone number; names, ages, and addresses of family members; hobbies and outside interests; and photograph of individual.

Authority for maintenance of the system: 5 U.S.C. 301, 15 U.S.C. 1512, 44 U.S.C. 3101 and Reorganization Plan No. 5 of 1950.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Distributed to the press, other government agencies, and the general public for use in connection with written articles, oral interviews, speaking engagements, retirement and obituary notices, and other purposes of public information. Also, general routine uses of Prefatory Statement apply.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders or notebooks.

Retrievability: By name alphabetically or by position or work unit.

Safeguards: Records are located in locked metal file cabinets or locked rooms during non-business hours.

Retention and disposal: Records retention and disposal is in accord with each operating unit's Records Control Schedule.

System manager(s) and address: For records at location a.: Information Assistant, Office of Communications.

For records at location b.: Director of Personnel, U.S. Department of Commerce.

For records at location c.: Director, Bureau of the Census.

For records at location d.: Director of Public Affairs, Industry and Trade Administration.

For records at location e.: Director, Office of Public Affairs, Economic Development Administration.

For records at location f.: Director, Office of Economic Research, Economic Development Administration.

For records at location g.: Public Affairs Officer, Maritime Administration.

For records at location h.: Special Assistant to the Assistant Secretary for Maritime Affairs, U.S. Department of Commerce.

For records at location i.: Chief, Public Information Division, National Bureau of Standards.

For records at location j.: Chief, Program Information Office, National Bureau of Standards.

For records at location k.: Director of Information Services, National Fire Prevention and Control Administration.

For records at location l.: Executive Director, National Advisory Committee on Oceans and Atmosphere.

For records at location m.: Director of Office of Public Affairs, National Oceanic and Atmospheric Administration.

For records at location n.: Information Officer, Office of Minority Business Enterprise.

For records at location o.: Director, Office of Information Services, Patent and Trademark Office.

For records at location p.: Program Officer, Office of the Assistant Secretary for Science and Technology, U.S. Department of Commerce.

For records at location q.: Director of Congressional and Public Affairs, National Telecommunications and Information Administration.

For records at location r.: Records Manager, Office of Regional Economic Coordination, U.S. Department of Commerce.

For each system manager, use same address as shown in applicable System Location section above.

Notification procedure: For records at locations a., b., l., r., and for Office of the Secretary records at location p.: Information may be obtained from: Director, Office of Organization and Management Systems, U.S. Department of Commerce, Washington, D.C. 20230.

For records at the locations listed below, information may be obtained from the individual designated. Use same address for each as shown in appropriate System Location section above.

c.: Associate Director for Administration, Bureau of the Census.

d.: Director, Office of Management and Systems, Industry and Trade Administration.

e. and f.: Director, Office of Public Affairs, Economic Development Administration.

g. and h.: Secretary of the Maritime Administration.

i. and j., and NBS records at location p.: Director of Administrative and Information Systems, National Bureau of Standards.

k.: Administrative Officer, National Fire Prevention and Control Administration.

m.: Assistant Administrator for Administration, National Oceanic and Atmospheric Administration.

n.: Privacy Officer, Office of Chief Counsel, Office of Minority Business Enterprise.

o. and PAT-TM records at location p.: Assistant Commissioner for Administration, Patent and Trademark Office.

q.: Privacy Officer, National Telecommunications and Information Administration.

For NTIS records at location p.: Assistant Director for Administration, National Technical Information Service, Sills Building, Springfield, Virginia 22161.

BEA records are included in locations a and b above.

Record access procedures: Requests from individuals should be addressed to: same address of the desired location as stated in the Notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address for desired location.

Record source categories: All locations, subject individuals. Also, for records at locations b. and g., the individual's Official Personnel File; for records at location m., supervisors of subject individuals; for records at locations l., and m., personnel offices; and for records at locations i., j., and p., other sources such as news releases. articles and publications relating to the subject individual.

COMMERCE/DEPT.-21.

System name: Freedom of Information and Privacy Request Records—COMMERCE/DEPT-21.

System location: a. For PA request records of BEA: Office of the Director, Bureau of Economic Analysis, 1401 K Street, N.W., Washington, D.C. 20230.

b. For FOIA request records of CENSUS: Freedom of Information Request Control Desk, Bureau of the Census, Federal Building 3, Suitland, Md. 20233.

c. For FOIA and PA request records of ITA: Office of Management and Systems, ITA, U.S. Department of Commerce, Washington, D.C. 20230.

d. For PA request records of MARAD: Office of the Secretary of the Maritime Administration, and offices of MARAD Privacy Act system managers, U.S. Department of Commerce, Washington, D.C. 20230. A complete address list of system managers is available upon request.

e. For FOIA and PA request records of NFPCA: Freedom of Information Request Control Desk and Administrative Office, respectively, National Fire Prevention and Control Administration, 2400 M Street, N.W., Washington, D.C. 20037.

f. For FOIA request records of NOAA: Freedom of Information Request Control Desk, National Oceanic and Atmospheric Administration, WSC 05, Rockville, Md. 20852.

g. For FOIA request records of NTIA: Freedom of Information Request Control Desk, National Telecommunications and Information Administration, 1800 G Street, N.W., Washington, D.C. 20504.

h. For PA request records of the Office of the Secretary: Office of Organization and Management Systems, U.S. Department of Commerce, Washington, D.C. 20230.

Categories of individuals covered by the system: Individuals who have requested records under the Freedom of Information and/or Privacy Acts contained in files maintained by the organizational units shown in the System Location paragraph above.

Categories of records in the system: Incoming requests; correspondence developed during processing of requests; initial and final determination letters; records summarizing pertinent facts about requests and action taken; copy or description of records released; description of records denied (copies of records denied are not kept with these files).

Authority for maintenance of the system: 5 U.S.C. 301, 5 U.S.C. 552, 5 U.S.C. 552a and 44 U.S.C. 3101.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used by Department management and legal personnel to assure that each request receives an appropriate reply and to compile data for the required annual reports on activities under the Acts. General routine uses of the Prefatory Statement also apply.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: At all locations: Paper records in file folders or loose-leaf binders.

Retrievability: At location c.: by control number assigned to each request based on date of receipt.

At all other locations: Alphabetically by name of requester.

Safeguards: At all locations: Records are stored in file cabinets in secured premises with access limited to those whose official duties require access.

Retention and disposal: Records are disposed of in accordance with the appropriate records disposition authorization approved by the Archivist of the United States.

System manager(s) and address: For records at location a.: Chief Planning and Evaluation Officer, BEA.

For records at location b.: Associate Director for Administration and Field Operations, Bureau of the Census.

For FOIA records at location c.: Freedom of Information Officer, ITA.

For PA records at location c.: Director, Office of Management and Systems, ITA.

For records at location d.: Secretary of the Maritime Administration.

For FOIA records at location e.: Chief Counsel, NFPCA.

For PA records at location e.: Administrative Officer, NFPCA.

For records at location f.: Assistant Administrator for Administration, NOAA.

For records at location g.: Director of Congressional and Public Affairs, NTIA.

For records at location h.: Director, Office of Organization and Management Systems, U.S. Department of Commerce.

For each system manager, use the same address as shown for that unit in the System Location section above.

Notification procedure: For records at locations a., b., d., f., and h.: Same individual and address for each as shown in System Manager section above.

For records at locations c. and e.: Same individual and address for each as shown for Privacy Act records in System Manager section above.

For records at location g.: Privacy Officer, NTIA, same address as shown in System Manager section above.

Requestor should provide name and address pursuant to the inquiry provisions of the Department's rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to same address as stated in the Notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: The individual making the request, and records derived from the processing of Freedom of Information and Privacy Act requests.

COMMERCE/ITA-1.

System name: Individuals Identified in Export Administration Compliance Proceedings or Investigations—COMMERCE/ITA-1.

System location: a. Office of Export Administration, ITA, 14th Street and Constitution Ave. NW., U.S. Department of Commerce, Washington, D.C. 20230. b. Appeals Board for the Department, U.S. Department of Commerce, Washington, D.C. 20230.

Categories of individuals covered by the system: Individuals identified in an export administration compliance proceeding or investigation. Individuals alleged to have violated the Export Administration regulations; established violators of the regulations; certain other individuals identified by the FBI or other investigating agency or individual in the investigative process such as those involved in organized crime; and individuals who have received warning letters.

Categories of records in the system: Reports from F.B.I., other law enforcement or investigative agencies, investigators, or informants; investigative and intelligence data; documented violations; warning letters. Includes any information on alleged or proven violators of the Export Administration Act.

Authority for maintenance of the system: Export Administration Act of 1969 (50 U.S.C. App. 2401 et seq.), as amended. 5 U.S.C. 301, 28 U.S.C. 533-535, 44 U.S.C. 3101, and E.O. 10450.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See routine use paragraphs of the Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Maintained in paper form.

Retrievability: Information filed by case or subject file. All names are cross-referenced by name card file.

Safeguards: Records are located in lockable metal file cabinets or in metal file cabinets in secured rooms or secured premises with access limited to those whose official duties require access.

Retention and disposal: Retained for a reasonable period of time. Disposition is recorded.

System manager(s) and address: Director, Compliance Division, Office of Export Administration, ITA, U.S. Department of Commerce, Washington, D.C. 20230.

Notification procedure: Information may be obtained from: Director, Office of Management and Systems, ITA, U.S. Department of Commerce, Washington, D.C. 20230. Requester should provide name, address, and case or subject, if known, pursuant to the inquiry provisions of the Department's rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: Individual exporters, those authorized by the individual to furnish information, trade sources, investigative

agencies, intelligence or investigative personnel of the Office of Export Administration, and informants.

Systems exempted from certain provisions of the act: Pursuant to 5 U.S.C. 552a(j)(2), all information about an individual in the record which meets the criteria stated in 5 U.S.C. 552a(j)(2) are exempted from the notice, access and contest requirements of the agency regulations and from all parts of 5 U.S.C. 552a except subsections (b),(c)(1) and (2), (e)(4)(A) through (F), (e)(6), (7), (9), (10), and (11), and (i), and pursuant to 5 U.S.C. 552a(k)(1) and (k)(2) on condition that the 5 U.S.C. 552a(j)(2) exemption is held to be invalid, all investigatory material in the record which meets the criteria stated in 5 U.S.C. 552a (k)(1) and (k)(2) are exempted from the notice, access, and contest requirements (under 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f)) of the agency regulations because of the necessity to exempt this information and material in order to accomplish this law enforcement function of the agency, to prevent subjects of investigation from frustrating the investigatory process, to prevent the disclosure of investigative techniques, to fulfill commitments made to protect the confidentiality of sources, to maintain access to sources of information, and to avoid endangering these sources and law enforcement personnel. Section 7(c) of the Export Administration Act of 1969, as amended, also protects this information and material from disclosure.

COMMERCE/ITA-2.

System name: Individuals Involved in Export Transactions—COMMERCE/ITA-2.

System location: Office of Export Administration, ITA, U.S. Department of Commerce, 14th St. and Constitution Ave., NW., Washington, D.C. 20230.

Categories of individuals covered by the system: Individuals involved in export transactions. Information primarily is maintained on foreign companies and business officials, but includes U.S. citizens involved with or working for firms abroad.

Categories of records in the system: Reports and cables from U.S. foreign service posts and reports from investigative agencies.

Authority for maintenance of the system: 50 U.S.C. App. 2401 et seq. (Export Administration Act of 1969 as amended). 5 U.S.C 301, 28 U.S.C. 533-535, 44 U.S.C. 3101, and E.O. 10450.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See routine use paragraphs of the Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed alphabetically by individual's name.

Safeguards: Barlocked metal cabinets with combination. Some material is maintained in safes.

Retention and disposal: Disposed of after 5 years.

System manager(s) and address: Director, Compliance Division, Office of Export Administration ITA, U.S. Department of Commerce, Washington, D.C. 20230.

Notification procedure: Information may be obtained from: Director, Office of Management and Systems, ITA, U.S. Department of Commerce, Washington, D.C. 20230. Requester should provide name and date of involvement in export transactions pursuant to the inquiry provisions of the Department's rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: U.S. Foreign Service Posts, CIA, Compliance Division, OEA, Post Office Fraud Section, FBI, and Defense Intelligence Agency.

Systems exempted from certain provisions of the act: Pursuant to 5 U.S.C. 552a(k)(2), law enforcement investigatory material is exempted from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H) and (I), and (f), to the extent the disclosure of such material would reveal the identity of a confidential source of information, in order to maintain the ability to obtain necessary information and to fulfill commitments made to sources that their identities would be kept confident.

Pursuant to 5 U.S.C. 552a(k)(1), material which is classified is exempted from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f) to prevent disclosures detrimental to national defense or foreign policy.

COMMERCE/ITA-3.

System name: Individuals Involved in International Business Trade Complaints—COMMERCE/ITA-3.

System location: Office of Export Development, ITA, U.S. Department of Commerce, 14th St. and Constitution Ave., NW., Washington, D.C. 20230.

Categories of individuals covered by the system: Individuals filing trade complaints (business disputes) against foreign firms, or against whom foreign firms file complaints through U.S. Embassies.

Categories of records in the system: Complaint and supporting documentation, record of the handling and disposition of the complaint, and third party information (bank references, information obtained from other parties to the transaction, and commercial contacts of the individual).

Authority for maintenance of the system: 15 U.S.C. 1512.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See routine use paragraphs of the Prefatory Statement. Also foreign governments obtain information on the disputants in order to check reliability of the firms involved, and foreign firms involved in the dispute obtain information. This information is supplied to the foreign governments and foreign firms through the Department of State. The Department of State also uses information to check the credibility of the foreign firms involved in a dispute. Information is released to other executive branch agencies, e.g., SBA, USDA, when a party to the dispute falls within their area of jurisdiction in an attempt to solve the dispute.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Name of American party to the dispute.

Safeguards: Metal cabinets with bar and combination lock.

Retention and disposal: Permanent.

System manager(s) and address: Director, Office of Export Development, ITA, U.S. Department of Commerce, Washington, D.C. 20230.

Notification procedure: Information may be obtained from: Director, Office of Management and Systems, ITA, U.S. Department of Commerce, Washington, D.C. 20230. Requester should provide name of individual and name of American party to the dispute pursuant to the inquiry provisions of the Department's rules which appear in 15 CFR part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: Subject individual, those authorized by the individual to furnish information, the complainant, banks, commercial contracts, and other parties to the transaction.

Systems exempted from certain provisions of the act: Pursuant to 5 U.S.C. 552a(k)(1), material which is classified is exempted from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f), to prevent disclosures detrimental to national defense or foreign policy.

COMMERCE/ITA-4.

System name: Mission Directors/Seminar Chairmen/Industry Technical Representatives—COMMERCE/ITA-4.

System location: Office of International Marketing, ITA, 14th St. and Constitution Ave. NW., U.S. Department of Commerce, Washington, D.C. 20230.

Categories of individuals covered by the system: Individuals who are Directors of U.S. Trade Missions, Chairmen of U.S. Government Seminar Missions, and Technical Representatives of Catalog Exhibits sponsored by the Department.

Categories of records in the system: Home address, date and place of birth, photographs, brief career history, citizenship, and passport numbers.

Authority for maintenance of the system: Delegation of Authority, dated June 25, 1962 from United States Information Agency under Section 5 (e) of Executive Order 11034 of June 25, 1962, as amended by Executive Order 11380 of November 8, 1967, insofar as said delegation pertains to U.S. participation in trade missions abroad under the Mutual Educational and Cultural Exchange Act of 1961, as amended (22 U.S.C. 2451 et seq.).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See routine use paragraphs of Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: By promotion theme of trade mission, location of trade mission and individual's name.

Safeguards: Records are locked in lockable metal file cabinets or in metal file cabinets in secured rooms or premises with access limited to those whose official duties require access.

Retention and disposal: File is retained for three years and then destroyed.

System manager(s) and address: Director, Special Activities Division, Office of International Marketing, ITA, U.S. Department of Commerce, Washington, D.C. 20230.

Notification procedure: Information may be obtained from: Director, Office of Management and Systems, ITA, Room 3100, U.S. Department of Commerce, Washington, D.C. 20230. Requester should provide name and location of trade mission and individual's name pursuant to the inquiry provisions of the Department's Rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: Subject individual, and individual's company, and those authorized by the individual to furnish information.

COMMERCE/ITA-5.

System name: Membership Information: District Export Councils—COMMERCE/ITA-5.

System location: Office of Export Development, President's Export Council Staff, 14th St. and Constitution Ave. NW., U.S. Department of Commerce, Washington, D.C. 20230.

Categories of individuals covered by the system: Present, former and potential members of the District Export Councils.

Categories of records in the system: Address, date and place of birth, Social Security account numbers, brief career history, education, special qualifications for appointment, and record of appointment. Miscellaneous material such as photographs, press releases and resumes are maintained on some members.

Authority for maintenance of the system: 15 U.S.C. 1512.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See routine use paragraphs of Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed by name of council or may be filed by name of individual.

Safeguards: Records are located in lockable metal file cabinets or in metal cabinets in secured rooms or premises with access limited to those whose official duties require access.

Retention and disposal: Retained for active councils. Retired when councils terminate or when individuals leave councils.

System manager(s) and address: Director, Office of Export Development, ITA, U.S. Department of Commerce, Washington, D.C. 20230.

Notification procedure: Information may be obtained from: Director, Office of Management and Systems, ITA, Room 3100, U.S. Department of Commerce, Washington, D.C. 20230. Requester should provide name of individual and council pursuant to the inquiry provisions of the Department's Rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: Subject individual, individual's company, and persons nominating the individual for council membership.

COMMERCE/ITA-6.

System name: National Defense Executive Reserve Personnel Folders—COMMERCE/ITA-6.

System location: Office of Industrial Mobilization, and Office of Export Administration, Bureau of Trade Regulation, ITA, 14th and Constitution Ave., N.W., U.S. Department of Commerce, Washington, D.C. 20230.

Categories of individuals covered by the system: Individuals from the business community selected to assume responsibility for industrial production, construction, and distribution in the event of national emergencies.

Categories of records in the system: Name; home address; photograph; brief career history; names of close relatives; marital status; previous government experience; previous residences; current and recent past employment and approximate earnings; citizenship; social security number; business and residence telephone numbers; security clearance; statement of understanding; request for appointment; appointment affidavits; secrecy agreement; sex; date and place of birth; military and civil defense obligations; education; and professional and other memberships.

Authority for maintenance of the system: 50 U.S.C. 2153 and E.O. 11179 of September 22, 1964.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See routine use paragraphs of Prefatory Statement. Transferring data to the Federal Preparedness Agency pursuant to E.O. 11179.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper forms, index cards, and magnetic tape.

Retrievability: Paper cards and index cards are filed alphabetically by individual's name. Data on magnetic tape is retrieved by serial number.

Safeguards: Records are located in lockable metal file cabinets or in secured rooms or premises with access limited to those whose official duties require access.

Retention and disposal: Retained until two years after individual's resignation or death and then discarded.

System manager(s) and address: Director, Office of Industrial Mobilization, ITA, U.S. Department of Commerce, Washington, D.C. 20230.

Emergency Planning Officer, Office of Export Administration, U.S. Department of Commerce, Washington, D.C. 20230.

Notification procedure: Information may be obtained from: Director, Office of Management and Systems, ITA, Room 3100, U.S. Department of Commerce, Washington, D.C. 20230. Requester should provide name of individual pursuant to the inquiry provisions of the Department's rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: Subject individual and those authorized by the individual to furnish information.

COMMERCE/ITA-7.

System name: Overseas Assignments for ITA's Bureau of Field Operations—COMMERCE/ITA-7.

System location: Bureau of Field Operations, Industry and Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230.

Categories of individuals covered by the system: Trade Specialists employed by ITA's Bureau of Field Operations (BFO) (District Offices) who have applied for overseas assignment and BFO trade specialists on overseas assignment.

Categories of records in the system: Form ITA-716 'Overseas Assignments Data (BPO Personnel Only)' This form contains information on date of birth, U.S. Passport Type and No., position title, grade, private business experience, previous U.S. Government overseas assignments, foreign language proficiency, etc.

Authority for maintenance of the system: The delegation of authority, dated June 25, 1962, from the United States Information Agency under Section 5 (e) of Executive Order 11034 of June 25, 1962, as amended by Executive Order 11380 of November 8, 1967, insofar as said delegation pertains to U.S. participation in trade missions abroad under the Mutual Educational and Cultural Exchange Act of 1961, as amended (22 U.S.C. 2451 et seq.); The Foreign Assistance Act of 1961, as amended (22 U.S.C. 2151 et seq.), and Section 302 of Executive Order 10973 of November 3, 1961, issued pursuant thereto, relating to drawing the attention of private enterprise to investment opportunities abroad.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See routine use paragraphs of Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper record in file folders.

Retrievability: Filed by name or geographic district or region.

Safeguards: Records are located in lockable metal file cabinets or in metal file cabinets in secured rooms or premises with access limited to those whose official duties require access.

Retention and disposal: Indefinitely.

System manager(s) and address: Deputy Assistant Secretary for Field Operations, ITA, U.S. Department of Commerce, Washington, D.C. 20230.

Notification procedure: Information may be obtained from: Director, Office of Management and Systems, ITA, Room 3100, U.S. Department of Commerce, Washington, D.C. 20230. Requester should provide name of individual and assignment location pursuant to the inquiry provisions of the Department's rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: Subject individual and those authorized by the individual to furnish information.

COMMERCE/ITA-8.

System name: Foreign Service Officer Evaluations—COMMERCE/ITA-8.

System location: Office of International Marketing, ITA, U.S. Department of Commerce, 14th & E St. and Constitution Ave., N.W., Washington, D.C. 20230.

Categories of individuals covered by the system: Members of the Foreign Service of the United States serving abroad or on detail to the Department of Commerce in economic/commercial positions.

Categories of records in the system: (1) End User and Field Observation Reports; (2) memorandums, cables, letters and other documents used in the preparation of End User and Field Observation Reports, and of Foreign Service Officer Evaluation Reports; and (3) other documents relating to officer performance.

Authority for maintenance of the system: Foreign Service Act of 1946, as amended; 22 U.S.C. 801 et seq., 986; and 15 U.S.C. 1512.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: A record in this system may be disclosed, as a routine use, to the Department of State in connection with the evaluation of the performance of Foreign Service Officers. (See also general routine use paragraphs.)

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed alphabetically by individual FSO's name.

Safeguards: Records are located in lockable metal file cabinets in premises with access limited to those whose official duties require access.

Retention and disposal: End User Reports and Field Observation Reports are transmitted to the Department of State by July 15 of each year. Other documents relating to officer performance are retained until the retirement, resignation or death of the individual and then retired or destroyed, as appropriate.

System manager(s) and address: Director, Support Services Division, Office of International Marketing, ITA, U.S. Department of Commerce, Washington, D.C. 20230.

Notification procedure: Information may be obtained from: Director, Office of Management and Systems, ITA, Room 3100, U.S. Department of Commerce, Washington, D.C. 20230. Requester should provide his name pursuant to the inquiry provisions of the Department's rules which appear in 15 CFR Part 4b.

Record access procedures: Requests from individuals should be addressed to: same address as stated in the notification section above.

Contesting record procedures: The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

Record source categories: Subject individual, and supervisors of those individuals.

COMMERCE/MA-2.

System name: Cadet Files, State Merchant Marine Academies—COMMERCE/MA-2.

System location: Office of Maritime Manpower, Maritime Administration, U.S. Department of Commerce, Washington, D.C. 20230.

Categories of individuals covered by the system: Current and former cadets enrolled in the State Maritime Academics.

Categories of records in the system: Name; date of birth; marital status; number of dependents; military service; number of arrests and convictions; date of change in pay; reenrollment or reinstatement; disenrollment; non-subversive activities; no-strike statement; and date of graduation. (Forms: MA-1005 and 1006A).

Authority for maintenance of the system: 46 U.S.C 1383,1387.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: See routine use paragraphs of Prefatory Statement.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file folders.

Retrievability: Filed alphabetically by last name.

Safeguards: Records are located in lockable file cabinets or in metal file cabinets in secured rooms or secured premises with access limited to those whose official duties require access.

Retention and disposal: The records are retained until one year after graduation and then destroyed.

System manager(s) and address: Director, Office of Maritime Manpower, see address above.
